WEDNESDAY, AUGUST 8, 1877.

PART I A.

Orders and Notifications by the Government of India.

The following orders, issued by the Government of India in the Legislative Department, are republished for general information :—

CORRIGENDUM.—Notifications.—In Act No. III of 1877 (published in the *Gazette of India*, Part IV, of 17th and 24th February and 3rd March 1877), in the Table of Contents, Part X, section 50, and in the marginal note to section 50, omit the words “of which registration is optional.”

No. 26.—Simla, the 26th July 1877.—The following Act is hereby proclaimed by order of the Governor-General in Council, under the provisions of section 3 of the said Act :—

32 and 33 VICTORIA, CAP. XI.

An Act for amending the Law relating to the Coasting Trade and Merchant Shipping in British Possessions.

[18th May 1869.]

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Preliminary.

Short title.

I. This Act may be cited as “The Merchant Shipping (Colonial) Act, 1869.”

Definition of terms.

II. In this Act, unless the context otherwise requires—

The term “British possession” means any territory or place situate within Her Majesty's dominions, and not forming part of the United Kingdom, or of the Channel Islands, or Isle of Man; and all territories and places under one legislature as hereinafter defined are deemed to be one British possession for the purposes of this Act.

“Legislature.”

The term “Legislature” includes any person or persons who exercise legislative authority in the British possession, and, where there are local legislatures as well as a central legislature, means the central legislature only.

III. This Act shall be proclaimed in every British possession by the Governor thereof as soon as may be after he receives notice of this Act, and shall come into operation in that British possession on the day of such proclamation, which day is hereinafter referred to as the commencement of this Act

The 2nd August 1877.—In supersession of orders of the 18th July 1877, published in the *Calcutta Gazette* of the 25th idem, Baboo Hem Chunder Kerr, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is transferred to the Sudder Station of Shahabad.

COLMAN MACAULAY,

Offg. Junior-Secy. to the Govt. of Bengal.

[First Publication.]

The 7th August 1877.—The following order of the Government of India in the Financial Department, Accounts, is published for general information :—

No. 2055, SIMLA, THE 25TH JULY 1877.

READ AGAIN—

The proceedings in this department for the month of January 1876, Nos. 11 to 13 (Accounts), sanctioning the investment of the sale proceeds of certain nuzzool lands in the Punjab, but declining to recognise any general right on the part of local Governments to invest local fund balances.

Read—

A letter from the Accountant-General, Madras, No. 3126, dated the 20th June 1877, bringing to the notice of the Government of India certain proceedings of the Madras Government authorising the investment in Government securities of Rs. 10,77,400 out of the balance at credit of the " Village Service Fund " in that Presidency.

RESOLUTION.—The Governor-General in Council confirms the proceedings of the Government of Madras in this particular instance.

2. His Excellency in Council desires, however, to remind all local Governments and Administrations that no public money should be removed from the public treasury for *investment* without the sanction of the Government of India, and that this applies to local fund balances as much as to provincial funds.

ORDERED that this resolution be communicated for information and guidance to all local Governments and Administrations, to the Comptroller-General, and to the several Accountants-General and Deputy Accountants-General in independent charge.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th August 1877.—Rules 3 and 4 of the Notification dated 22nd February 1869, regarding the limits within which the possession and transport of salt shall be regulated, have been modified as follows:—

Rule 3.—The whole tract of country, with the exception noted below, included between the sea-board of the Bay of Bengal, and a continuous line drawn from the southernmost point of the coast of Chittagong to the southernmost point of the coast of Cuttack, so as to include the following districts and parts of districts.

The district of Chittagong, except thanas Futtickcherry, Raojan, and Satkania, and outpost Ramgoonea.

The district of Noakholly, except thanas Ramgunge, Begumgunge, Fenny, and Chagulnaya.

The district of Backergunge, except the sudder Sub-division, the sub-division of Madareepore, and thana Sharupkati, in the Perozepore sub-division.

The sub-divisions of Khulua and Bagirhat, in the district of Jessore.

The district of the 24-Pergunnahs, except the sub-divisions of Baraset and Barrackpore, and thanas Kalara, Satkhira, Magra, and Baduria.

The thanas Bally, Golahbaree, Howrah, Seebpore, Doomjor (including Sankrail), Ooloo-barya, and Shampore, in the district of Howrah.

The thanas Raghunathpore, Contai, Kedgerree, Bhugwanpore, Nundigram, Soottahatee, and Muslundpore, in the district of Midnapore.

The districts of Balasore and Cuttack (including the whole of the Cuttack Municipality), excepting those portions which lie to the west of the Grand Trunk Road.

Rule 4.—Within the above limits the tract in and about Calcutta and Howrah, lying within a ring-fence as defined below, shall not be included, and the rules prescribed under Sections 11 and 13, Act VII (B.C.) of 1864, shall not apply thereto, except in regard to such premises as are occupied by saltpetre refineries as specially defined by the Board of Revenue, and in regard to the premises occupied by the salt pass stations at the Sulkea siding platform of the East Indian Railway at Howrah, and at Chitpore at the terminus of the Eastern Bengal Railway. The boundary of the tract thus excluded shall run from Cossipore Ghât, on the left bank of the river Hooghly, following the Gun Foundry Road and the Barrackpore Trunk Road, up to the Barrackpore Bridge over the Circular Canal; thence along the right bank of that canal to its junction with the Narkuldangah Suspension Bridge; thence along the Narkuldangah Main Road up to its junction with the Circular Road. The line shall thence follow the Circular Road to its junction with the Bhowanipore Road, and from that point shall follow the latter road to Halliday Bridge over Tolly's Canal. From that point it shall follow the Calcutta bank of the said Tolly's Canal to its mouth at Hastings' bridge, and shall thence cross the river Hooghly in a straight course to the Ramkistopore Ghât on the Howrah bank, and, proceeding westward by the Ramkistopore Ghât Road, shall run up to the junction of that road with the Grand Trunk Road. It shall then run along the Grand Trunk Road up to its junction with the Telkul Ghât Road; thence, proceeding by that road eastward to the river bank, shall run along that bank up to the Howrah Ghât; thence

proceed westward by the public road to the Grand Trunk Road *via* Chandmarry Road, New Street, and Tindell Street, and thence in a northerly direction through the station of Howrah to the junction of the Grand Trunk Road with Nuskerparah Road; thence along the north side of the latter road to its termination on the right bank of the river Hooghly; and it shall then pass in a straight course across that river to the Cossipore Ghât.

Tumlook has been excluded from the list of pass stations in the district of Midnapore. The list of the present pass stations in the district is as follows:—

Midnapore.

1. Gewakhalee, at the mouth of the Roopnarain river.
2. Tengrakhalee, on the north bank of the Haldee river, at the mouth of Pertaubkhalee Canal.
3. Baitghur, opposite Kaleenuggur, on the Russoolpore river, south bank.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

The 31st July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

No. 13.

India—Hindostan—West Coast—Bombay Harbour.

1. POSITION OF RALEIGH ROCK.

THE following information relative to a rock in Bombay Harbour on which Her Majesty's ship *Raleigh* recently touched has been furnished by Captain H. W. Brent, Her Majesty's Flagship *Undaunted*:—

This rock (*Raleigh Rock*) rises abruptly from the general muddy bed of the harbour; it is about 160 feet long E. S. E. and W. N. W., and 90 feet in width; the shoalest part has 22½ feet over it at low water ordinary spring tides, but only 20½ feet at extraordinary low spring. The general level near the rock has a depth of 25 feet over it at the lowest tides.

A conical buoy, painted red, has been placed on the eastern edge of the rock, with—
Scotch Church steeple in line with Ritchie Steward's cotton
press chimney (resembling a monument), bearing ... N. by W. ½ W.
Dolphin beacon ... N. N. W. ¼ W. 4½ cables.
Oyster Rock Battery (Colaba Observatory just open to the
northward) ... W. S. W. distance 7 cables.
It is proposed to remove this rock by blasting.

2. ADDITIONAL BEACONS.

Also that the following additional beacons have been erected:—

A circular stone beacon, painted red and white, on the north and south extremes of Colaba Reef, westward of Dolphin beacon.

A circular stone beacon, painted red and white, on the shoalest part of Ooran Patch.

A large circular white stone tower on the summit of Thull Knob.

[The bearings are Magnetic: Variation 1° Easterly in 1877.]

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr., (late I. N.),

Supdt., Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA,

The 20th July 1877.

This notice affects the following Admiralty Chart:—Bombay Harbour No. 2621; also Admiralty West Coast of Hindostan Pilot, pages 129, 130 and 136; and Taylor's Sailing Directory, Vol. I, page 379.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the Sailing Directions to which it relates.

[Third Publication.]

NOTIFICATION.

The 20th July 1877.—Under Section 70 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to determine that the month in which the District Committee of Sarun shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be August 1877 in the said district.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 21st July 1877.—A plan and estimate, amounting to Rs. 25,000, for widening Grey's Wharf from the Mint to the new Burning Ghât, having been submitted by the Port Commissioners with their Vice-Chairman's letter No. 1204, of the 2nd July 1877, the Lieutenant-Governor is pleased to sanction the execution of the work under the provisions of Section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 12.)

HINDOSTAN—WEST COAST.

Position of Cochin Light-house, etc.

NOTICE is hereby given that the light exhibited at Cochin is incorrectly placed on the present Admiralty Charts.

The light-house is situated on a raised mound which formed a bastion of the old fort, and bears south-west from the Flagstaff and Cochin Church, distant 5·4 cables from the former and 2·8 cables from the latter.

The shallow water at the entrance to this river has shifted about a cable to the E.S.E.; the mark now for leading vessels over the bar is the central or largest of the three churches at Ernakolum in line with Builder's (Vypeen) Point.

The buoys marking the shoal water have been moved—the north buoy 2 cables and the south buoy nearly 3 cables in the same direction.

Note.—During the south-west monsoon these buoys are removed, as vessels anchor at Narrakel, about 5 miles to the northward of Cochin, at which place a small light is exhibited from the Flagstaff.

Position of light-house—lat. $9^{\circ} 57' 47''$ N., long. $76^{\circ} 18' 45''$ E.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr., (Late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, 14th July 1877.

This notice affects the following Admiralty Charts:—Cochin river, No. 65; India West Coast, Sheet 11, No. 749, and Sheet 3, Cochin to Cape Comorin, No. 2738; also Admiralty West Coast of Hindostan Pilot, page 81; the List of Lights in South Africa, East Indies, &c., 1877, page 12, and Taylor's Sailing Directory, Vol. 1, page 408.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it and introduced into the Sailing Directions to which it relates.

DECLARATION.

The 6th August 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a dāk bungalow in Khooria talook, pergunnah Bykuntapore, zillah Julpigoree, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 beeghas of standard measurement, bounded on the south by the new station road branching off from the Rungpore road in front of the cemetery to the railway station; on the north by the jote land belonging to two individuals named Gya Nath Koondoo and Nobin Chunder Koondoo; on the east by the same; and on the west by the land already acquired by Government for railway purposes, is required within the aforesaid talook of Khooria.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[First Publication.]

DECLARATION.

The 6th August 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for constructing a new road from South Colinga Street to European Asylum Lane, in the Town of Calcutta, it is hereby declared that for the above purpose pieces of land Nos. 85, 86, South Colinga Street, No. 31, European Asylum Lane, and No. 4, Comedan Bagan Lane, measuring, more or less, 1 beegha 4 cottahs 12 chittacks and 30 feet, the boundaries of which are as follow:—On the north by European Asylum Lane; on the south by South Colinga Street; on the east partly by No. 31, European Asylum Lane, belonging to Mallikanessa Bibee, partly by No. 4, Comedan Bagan Lane, belonging to Moonshi Golam Sufdar, partly by No. 76, South Colinga Street, belonging to Poorno Chunder and Rajendro Mitter, and partly by No. 85, South Colinga Street, belonging to Hurro Soondery Dabee; and on the west partly by No. 85, South Colinga Street, belonging to Hurro Soondery Dabee, partly by No. 76, South Colinga Street, belonging to Poorno Chunder and Rajendro Mitter, partly by No. 4, Comedan Bagan Lane, belonging to Moonshi Golam Sufdar, and partly by No. 31, European Asylum Lane, belonging to Mallikanessa Bibee, are required within the aforesaid Town of Calcutta.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

DECLARATION.

The 28th July 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the completion of the Patkabari road, in the villages of Mohomedpore, Shakna, and Idrakpore, pergunnahs Patkabari and Palasy, zillah Moorshedabad, it is hereby declared that for the above purpose three plots of land measuring, more or less, 1 beegha 6 cottahs and 3 chittacks of standard measurement, bounded as follows, are required within the aforesaid villages of Mohomedpore, Shakna, and Idrakpore:—

Plot I is situated in village Mohomedpore, and is bounded on the north and south by the new road to Patkabari; on the east by the old road; and on the west by Lalmohamed Khan's house and Lalmean's lakhiraj lands: it measures 6 cottahs.

Plot II is situated in village Shakna, and is bounded on the north, south, and east by the road to Patkabari, and on the west by Jiban Shekh's lakhiraj lands: it measures 1 cottah and 14 chittacks.

Plot III is situated in village Idrakpore, and is bounded on the north and south by the road to Patkabari, and on the east and west by the lakhiraj lands of Amulla Churn Panday and Bishnu Chunder Tewary: it measures 18 cottahs and 5 chittacks.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

DECLARATION.

The 19th July 1877.—The following amended declaration is published in supersession of that which appeared at page 767, Part I of the *Calcutta Gazette* of the 4th July 1877:—

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for extension of Roy Bagan Street, in the Town of Calcutta, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah 12 chittacks, bounded on the north by a public drain, on the south partly by Roy Bagan Street and partly by No. 72, Cornwallis' Street, belonging to Baboo Tarniney Churn Bose; on the east and west by No. 73, Cornwallis' Street, belonging to Rajah Raj Narain Roy, is required within the aforesaid Town of Calcutta.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

No. 129.

Simla, the 21st July 1877.—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23 and 29 of the Rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1873:—

RULE 23.—The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every 100 adult males.

23A.—During the period from 1st November to the close of each season, the proportion shall be such number between 40 and 80 adult females to every 100 adult males as the Protector of Emigrants may fix for each ship.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

23B.—If in any such season the average falls below this, the Protector of Emigrants shall, in exercising the discretion given him by the first clause of Rule 23A, so fix the proportion for the several ships despatched during the period commencing with the 1st November of the following season up to its close as to bring up the average proportion for the two seasons, if practicable, to not less than 40 adult females to every 100 adult males.

RULE 29.—The Emigration Agent shall appoint to each ship about to be despatched by him the staff of attendants specified in scale No. 11 of Schedule E, and shall ensure their punctual attendance at the time of embarkation.

When emigrants volunteer to act as topazes or cooks, and the superintending Surgeons are willing to accept their services in this capacity, they may be employed as such.

The compounder-interpreter and the nurses, cooks, sirdars and topazes, whether emigrants or not, shall, whenever practicable, be selected from among those who have been accustomed to a sea life, and have been trained either in an emigration depôt or elsewhere to the kind of work they will be required to perform on board.

One of the nurses appointed shall be a person who possesses the necessary qualifications for the work of supervising and directing under-nurses, and she shall be appointed head nurse.

29A.—The Agent shall provide all persons appointed by him with separate written agreements wherein their respective engagements, including for natives of India a free return passage to India, and in the case of West Indian or African topazes a free passage to their homes shall be clearly provided for; but when such persons are emigrants under engagement to serve in the colony to which they are proceeding, it will not be necessary to provide that a return passage to India should be secured to them by agreement, otherwise than on the same terms provided for other emigrants.

To meet caste prejudices, it shall be arranged so that Brahmins shall cook for Hindus, and Mussulmans for Mahomedans.

29B.—It shall be further provided by such written agreement that all the attendants shall be under the immediate control of the Surgeon Superintendent, and that he shall have the power of disrating or dismissing any of them for misconduct or neglect of duty.

SCHEDULE E.—SCALES.

No. 11.

Scale of attendants to be appointed to emigrant ships proceeding to places either east or west of the Cape of Good Hope:—

(a) *Compounder-interpreter.*—One to each ship, unless the total number of statute adults the ship is licensed to carry exceeds 500, in which case an assistant compounder-interpreter must be provided.

(b) *Extra interpreter.*—One to each ship in all cases when the Surgeon or the Master and third officer are ignorant of the native language; but in the event of an assistant compounder-interpreter being provided, an extra interpreter need not be appointed.

(c) *Female nurses.*—Four to each 100 children under two years of age.

(d) *Sirdars or headmen.*—Four to every 100 statute adults.

(e) *Cooks or bandaries.*

(f) *Topazes or sweepers* } Two to the first 100 statute adults, and one additional for
(except in the case of ships } every additional 100 statute adults.
bound to the West Indies, as }
to which see Rule 49).

[First Publication.]

NOTIFICATION.

The 19th July 1877.—In supersession of the Notification published under the provisions of Section 69 of the Indian Registration Act (VIII, 1871,) in the *Calcutta Gazette* of the 24th December 1873, the following rules, which have been prepared under the provisions of Section 69 of Act III, 1877, and have been approved by the Lieutenant-Governor, are hereby published for general information.

2. These rules will have effect in the provinces under the Lieutenant-Governor of Bengal from and after the 1st January 1878.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

Rules framed under Section 69 of Act III of 1877 (the Indian Registration Act) and sanctioned by the Government of Bengal.

Leave and Appointments.

1. REGISTRARS and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General in the form given in Rule 120 below. In the case of Sub-Registrars, such reports shall be made through the District Registrar.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

3. When a Sub-divisional Officer goes on tour, it is usually undesirable that he should carry the sub-registry office about with him. He should ordinarily make over charge to his Sub-Deputy Collector or to the Moonsif: in the latter case, the assent of the Registrar and of the District Judge must first be obtained.

4. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

5. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices under section 7 of the Act, clause 2, temporary appointments under section 11 need only be reported when some person other than the Special Sub-Registrar is appointed to perform the duties of the Registrar during his absence.

6. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office until the return of the Sub-Registrar or appointment of a successor; and in such cases the extra or additional fee chargeable for registration by a Registrar under section 30(a) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

7. Rural Sub-Registrars are not subject to the uncontracted leave rules. It is a condition of their appointment that they should reside at the headquarters of their jurisdiction; leave should therefore be seldom required, and should be given only in cases of urgent necessity. When the leave asked for does not exceed one month, the Registrar is competent to grant the application and appoint a substitute. All leave exceeding one month, and every extension of leave which will prolong the period of absence beyond one month, must receive the previous sanction of the Inspector-General.

All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General, and

included by him in the monthly report submitted to Government under rule 4.

Seals.

8. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act. The seal shall always remain in the personal custody of the registering officer.

Languages commonly used—(Section 19).

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Patna Division and the districts of Bhagulpore and Monghyr—English, Hindi, and Hindustani

In the Chota Nagpore Division, in the Sonthal Pergunnahs, and in the districts of Purneah, Darjeeling, and Julpigoree—English, Hindi, Hindustani, and Bengali.

In the Burdwan, Presidency, Dacca, and Chittagong Divisions, and in the districts of the Rajshahye and Cooch Behar Division not already mentioned—English, Bengali, and Hindustani.

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

10. When a copy of a Bengali, Uriya, or Hindi document is forwarded, under section 65 of the Act, to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

11. A power-of-attorney intended for use in another presidency, if authenticated in Bengali, Uriya, or Hindi, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power-of-attorney authenticated in a language unknown to a registering officer to whom it may be presented may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Maps or Plans—(Section 21).

13. The territorial divisions to be recognized under section 21 (b) shall be registration districts, sub-districts, and thanas; also pergunnahs and mouzahs, where they are known, and collectorate districts, if different from registration districts.

14. Copies of maps or plans shall be attested by the signatures of the persons executing the document or their agents, and the original map or plan contained in the document shall at the time of registration be signed and sealed by the registering officer. When, under section 30 (b), the Registrar of Calcutta registers a document accompanied by a map relating to property, no part of which lies within his own district, a copy of the map shall be supplied for record in his own office in addition to the number required by section 21 (c).

15. When a document containing a map or plan is presented for re-registration under the proviso to section 23, it shall not be necessary for the parties to deposit fresh copies of the map or plan under section 21 (c); but the registering officer shall certify against the copy in the register book that the map or plan attached to the document is the same as that which was attached to it on its first presentation.

Commissions (under Sections 33 and 38).

16. A commission shall ordinarily be issued by a registering officer to some salaried member of his establishment, and the order shall be briefly endorsed on the document in words to this effect:—

“A commission is hereby issued under section 23 (or 38) of the Indian Registration Act, 1877, to [name and designation of the officer] for the purpose of inquiring whether the within power (or document) has been executed by A. B., son of C. D., of , by whom it purports to have been executed.”

17. If the person to be examined under section 38 be not resident within the district or sub-district of the registering officer, a commission shall be directed to the Registrar of the district in which such person resides, who may re-direct it to the Sub-Registrar, who may, if he cannot personally attend, re-direct it to any officer of his establishment. The commission fee and travelling allowance will be transferred to the registering officer to whom the commission is addressed.

18. When the commission has been executed, the commissioner shall return the document to the office from which it was issued, with a report, which shall be endorsed upon the document, in the following terms:—“Having visited the residence of A. B., son of C. D., at , I have this day examined the said A. B., who has been identified to my satisfaction by E. F., son of G. H., &c., residents of , and the said A. B. admitted (or denied) the execution of the within power (or document).”

Full signature of executant.

Ditto of witnesses

Ditto of commissioner

19. A commissioner may examine witnesses in the same manner as a registering officer; and persons refusing to give testimony to a commissioner, on

being required to do so, shall be subject to the same penalties and punishment which they would incur for the same offence if committed in a registration office.

20. It shall be competent to a registering officer to examine the commissioner personally in his office touching any of the circumstances connected with the discharge of his commission, especially with reference to the voluntary nature of the admission of execution.

21. All applications for visits under sections 31, 33, or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable, as well as the amount of travelling allowance claimable by the registering officer or commissioner.

22. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled: Provided that where two or more persons who execute the same document (or documents relating to the same transaction) reside together, only one commission fee shall be charged, so far as those persons are concerned.

23. The distances for which travelling allowance is charged shall be calculated according to the table which is drawn up in the Collector's office for the service of processos. A copy of this table shall be exhibited in every registration office.

Powers-of-attorney.

24. The form of authentication of powers-of-attorney shall be as follows:—

(1)—When the principal executing the power appears at the registration office—

“Executed in my presence on the day of 18 , by A. B., son of C. D., of , by caste , by profession , who is personally known to me (or whose identity was proved by the testimony of E. F., son of G. H., of), and recorded as No. for 18 .”

Full signature of principal.

Ditto of witness or witnesses.

Seal and signature of registering officer.

(2)—When the principal is exempted from appearance—

“Having visited and examined at his (or her) residence the principal, A. B., son of C. D., of , by caste , by profession , who is personally known to me (or whose identity was proved by the evidence of E. F., son of G. H., of), I am satisfied that this power-of-attorney has been voluntarily executed by him (or her), and I accordingly authenticate it under section 33 of Act III of 1877, and record it as No. for 187 .”

Full signature of principal.

Ditto of witnesses.

Seal and signature of registering officer and date.

When the Sub-Registrar himself does not examine the executant, he should make the following endorsement below the report of the commissioner, as provided for in rule 18:—

“From the above report, I am satisfied, &c.” (as above).

25. All interlineations, blanks, erasures, or alterations in powers-of-attorney authenticated under section 33 should, at the time of authentication, be detailed in a footnote signed by the Sub-Registrar. When there are no interlineations, &c., the fact should be noted in the same way. This note will be copied in every case into the register of powers-of-attorney.

26. General powers-of-attorney are available under this Act if they contain or imply an authority to appear in a registration office, and are executed in accordance with section 33. Powers already executed may be made available by the execution, in accordance with section 33, of an additional clause empowering an attorney to appear in a registry office.

27. If an authority to register be included in a document to be registered, the document must of course bear the additional stamp duty chargeable on the power-of-attorney.

28. Powers which do not contain or imply an authority to appear in a registration office shall not be authenticated under section 33.

29. Whenever a special power-of-attorney is used in a registration office for the purposes of section 32, an endorsement shall be made upon it in the following form, and it shall be returned forthwith:—

Presented this day.

Date. (Sd.) A. B.,
[Seal.] Registrar or Sub-Registrar of

30. For general powers-of-attorney no endorsement is required. They shall be returned after inspection to the parties by whom they were presented.

Issue of Process.

31. Summonses under section 75 will be issued direct by the Registrar acting according to the provisions of Chapter VI of Act X of 1877. The summonses referred to in sections 36 and 37 shall be executed through the Revenue authorities, and the peon's fee shall be regulated according to the rules for the service of processes by such authorities: Provided that when a rural Sub-Registrar's office and a Moonsif's court are located in the same place, the processes shall issue through the Moonsif's court. In such cases the peon's fee shall be regulated by the rules for the service of processes in the civil court.

32. If the summons be addressed to a person who is alleged to have executed the document, it shall require him to attend in person or by agent; if it be addressed to any person whose evidence is required to prove a fact, it shall require him to attend in person.

33. Every application for summons must be accompanied by the amount of expenses payable to the witness, as well as the amount of peon's fees usually chargeable by the revenue authority or civil court through which the summons is to be issued; and in forwarding for compliance an application for summons, the registering officer shall also forward the witnesses' expenses and the peon's fee, together with a draft summons in duplicate ready for signature, and purporting to issue from the civil or revenue court to which the application is forwarded for compliance.

34. In case of a person summoned under section 37 neglecting to appear, or if a summons under that section cannot be served, the register-

ing officer may call upon the revenue officer or civil court through whom his summonses are served to take any further action authorized by the law for the time-being in force for the purpose of securing the attendance of the person whose evidence is required, and such a requisition must be accompanied by the proper fee. It rests with the registering officer to specify the form of action to be taken.

35. No rural Sub-Registrar shall issue a requisition under the preceding rule without the previous sanction of the District Registrar.

Wills, &c.

36. A will shall not be received for deposit Will deposited under otherwise than in the manner laid down in section 42.

A will received through the post-office shall be returned to the testator *bearing*.

37. Every entry made in Register Book V, under the provisions of section 43, shall be signed in full and dated by the Registrar.

38. When a sealed cover is withdrawn, under section 44, the fact shall be noted in Register Book V, and the entry shall be signed by the person by whom the withdrawal is made as well as by the Registrar.

39. When a sealed cover is opened, under section 45, the fact shall be noted in Register Book V and the entry signed by the Registrar. If a cover is opened under order of a civil court, this shall be mentioned in the entry.

40. When a will is forwarded to any court Wills called for by a civil under section 16, it shall be court under section 46. accompanied by a memorandum of the fee for opening the cover and copying charges, and it shall be the duty of the court to levy and remit such fee and charges to the Registrar.

41. Sealed covers deposited with a Registrar under section 42 shall be Wills to be examined. examined monthly, and their condition reported to the Inspector-General. If there be no sealed cover in custody, this fact must be reported month by month.

Procedure in Registration.

42. On the presentation of a document for registration, the registering officer shall first satisfy himself—

- (1) That it has been presented at the proper office (sections 28, 29, and 30);
- (2) That it bears the proper stamp; and if it purport to be, or is known to be, a counterpart—

That it is "available" under the proviso of Article 16, Schedule II of the General Stamp Act, 1869;

- (3) That it is in the usual language of the district, or is accompanied by a translation and a true copy (section 19);
- (4) That in the case of important interlineations section 20 and rule 136 have been complied with;
- (5) That (if the document refers to immoveable property) the description is sufficient (section 21);
- (6) That it has been presented within the proper time (sections 23, 25, and 26);

(7) That it has been presented by a person authorized to do so (section 32).

43. If the requirements of the law have been complied with in all these particulars, the following certificate shall be entered on the face of the deed :—

“Admissible under rule 42. Correctly stamped under the General Stamp Act, Schedule , No. .”

44. After entry of the certificate under rule 43, the registering officer shall receive the fee or any fine payable under section 24, and enter the amount on the document close to such certificate, and at the same time the requisite entry shall be made in the fee book.

First endorsement.

45. The document shall now be endorsed to the following effect :—

“Presented for registration at A.M. (or P.M.) on the day of 187 , at the sub-registry office (or elsewhere), by A. B., son of C. D., of , by caste , by profession [or attorney for E. F., one of the claimants under a power (No. for 187) executed in the presence of the Sub-Registrar of]”

(Sd.) A. B.

(Sd.) G. H., Sub-Registrar of

46. The amount of the fee paid shall be entered on the receipt given under section 52.

47. The endorsement under section 58 shall be to the following effect :—

“Execution is admitted by A. B., son of C. D., of , by caste , by profession .”

(Sd.) A. B.

“Identified by E. F., son of G. H., of , by caste , by profession .”
The of 187 .

(Sd.) E. F.

(Sd.) I. J., Sub-Registrar of

When execution is admitted by an agent, the following words shall be added :—

“Agent for K. L., under a power-of-attorney (No. for 187) executed in the presence of the Sub-Registrar of .”

When the executant or his agent is personally known to the registering officer, the words “personally known to me” should be substituted for the identification clause.

When receipt of consideration is acknowledged, the following clause should be added :—

“The receipt of rupees as consideration is admitted by the above A. B.”

48. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

49. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

50. Whenever a registering officer administers an oath, he shall record the evidence of the witness examined on a separate sheet of paper, and a note of the fact should be endorsed on the deed itself.

51. When a document is presented which has only been executed by some of the parties to it,

the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon; but if the registration of the document has been completed, it must be presented afresh for registration and a second fee shall be payable.

52. When all the persons executing a document, or their representatives, assigns, or agents, have appeared and admitted its execution, the document shall be copied in the register.

53. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

54. All endorsements shall be made in red ink, excepting signatures, which shall be made in black ink.

55. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper, which should be supplied by the office, and attached to the document, a note being at the same time made on the document itself and signed by the registering officer. Every piece of paper so added must bear the seal of the registering officer and be signed and dated by him.

56. When a document has been copied and compared, the registering officer shall proceed to make, in the following form, the endorsement required by section 60 :—

“Registered in Book , volume , page , being No. for 187 .”

Register Books.

57. The register copy of every document shall be compared with the original by some person other than the copyist, and both the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one, and shall date such certificate with his own hand. The copier in his signature should use the word “copied;” the comparer will use the word “compared.”

58. No erasures shall be made with a knife in any register book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer. All interlineations and corrections in the register books shall be made in red ink when the entries are in black ink, and in black ink when the entries are made in red ink.

59. The register books shall have two margins. On the left-hand margin shall be copied in red ink the value of the stamp, the certificate of admissibility under rule 43, and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right-hand margin shall be left vacant for notes under

section 20 and rule 136. The stamp-vendor's endorsement on each document shall be copied in red ink in the registers in the centre of the page below the copy of the document itself.

60. Several volumes of Register Books I and IV may, if necessary, be kept in use simultaneously, when the documents registered are so numerous as to make this course necessary. Register Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Register Books I and IV may also be used for two or more years.

61. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

62. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

63. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of Registration.

64. If [rule 42 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

65. If [rule 42 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

Note.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

66. If rules 42 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned at once to the presenting party with the endorsement—

“Registration refused,”

an entry being made at the same time in Book II.

Note.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

67. A Sub-Registrar is not authorized by law to refuse to register a document because he is directly or indirectly interested in the transaction to which it relates; but he will always advise the parties to present such a document at some other office. If the document relate to moveable property only, such other office may be the office of any Sub-Registrar under the same local Government at which all the parties may desire the document to be registered. If the document

relate to immoveable property, such other office will (unless the parties prefer to resort to the Registrar of Calcutta) be the office of the Registrar of the district. The latter officer will (as by the note of Article K of the Table of Fees already provided) register such document without charging the usual extra fee. If the parties, thus advised, insist on the Sub-Registrar registering a document in which he is interested, he must do so. In this case he will report the fact for the information of the District Registrar to whom he is subordinate.

68. The circumstances under which a document should at once be refused on presentation are given in rules 64-66. A document duly presented and accepted for the purpose of inquiry will not be admitted to registration under the following circumstances:—

- (1) If one or more of the executing parties deny execution. (Section 35.)
- (2) If one or more of the executing parties fail to appear and to admit execution. (Section 35.)
- (3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)
- (4) If a person purporting to have executed the document appear to be a minor, an idiot, or a lunatic. (Section 35.)
- (5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)
- (6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)
- (7) If the admitting agent's power-of-attorney has not been made in accordance with the Act, or if an alleged representative or assign has failed to prove his status. (Section 35.)

69. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done.

70. The reasons of refusal must be recorded by the registering officer with his own hand in Book II, and the particulars should be fully and clearly stated in each case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Copies and Memoranda.

71. In addition to the bound volumes of Register Book I, every Sub-Registrar shall keep a file-book, in which he will file the memoranda of registered documents which have been forwarded to his office under sections 64, 65, and 66 of the Act.

Similarly, Registrars shall keep *two* separate file-books—one for memoranda and one for copies under sections 65, 66, and 67 of the Act. These papers shall be bound into a volume, or volumes, of convenient size at the end of the year. They shall be numbered consecutively, but in a series distinct from that of original registrations in Register Book I.

72. Copies shall be made on paper of the same size and description as that of the bound books. Memoranda shall be drawn up in the prescribed form.

73. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy required for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

74. When a copy of a document is sent to the Registrar of another district under sections 65-67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

75. The date on which copies and memoranda are despatched under the last rule shall be entered in the right-hand margin of the book in which the document has been copied.

76. When a memorandum or copy under sections 64-67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should take care for it. All such receipts, when returned, should be filed separately.

77. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Indexes.

Index of persons.

78. The personal index, No. I, shall contain the following headings:—

- (1) Name of person.
- (2) Addition.
- (3) Interest in the transaction, as purchaser, mortgagee, decree-holder, &c.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

Index of places.

79. The local index, No. II, shall contain the following headings:—

- (1) Name of property or of mouzah; or, in towns, of street.

- (2) Name of pergunnah or thana.
- (3) Sub-district in which the property is situated.
- (4) Nature of the transaction, as sale of land, decree for possession of house, &c.
- (5) Where registered.
- (6) Serial number.
- (7) Book.
- (8) Volume.
- (9) Page.

80. Index No. III shall contain the following headings:—

- (1) Name of person.
- (2) Addition.
- (3) Interest in will or authority to adopt.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

81. Index No. IV shall contain the same headings as Index No. I.

82. Except in rural offices in the charge of Sub-Registrars unacquainted with English, all indexes shall be kept in that language, and shall be prepared in accordance with the following rules:—

83. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable if the word begins with a consonant, or according to the second vowel in the word if it begins with a vowel.

84. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

85. In the case of Europeans the surname shall be taken as the index word. All native names shall be indexed according to their first letters as they stand in the deed.

They will be transliterated in the same form in which they are written in the document. Thus in Bengali the same affix may be written, either Bānirjya or Bandopadhyāy, and whichever of these forms is used in the document will be retained and transliterated.

86. When a document is executed on behalf or in favour of Government, the index entry shall be made under *G, Government*, the name of the officer executing the document being entered in the column headed *Addition*; if on behalf or in favour of the Court of Wards, under *W, Wards, Court of*; and in the case of any other Court, under *C*. The names of companies shall be entered as they stand, the article only being omitted; thus *Land Mortgage Bank of India, Limited*, under *L*; *Ganges Steam Navigation Company, Limited*, under *G*.

87. The name of the depositor of a sealed cover shall be entered in Index III, in black ink. The name and addition of persons claiming under

a will or authority to adopt, which will be indexed after the death of the testator or donor, should be entered in red ink.

88. When there are two or more executants

Two or more names in one document to be entered separately.

or claimants, their names shall be separately entered in Index I, III, or IV.

Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

89. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

90. In rural offices in the charge of Sub-Registrars unacquainted with English, the indexes shall be kept in the vernacular. The rules given above apply to indexes in the vernacular. In all rural offices one copy of Indexes I, II, III, and IV shall be made for office use in a bound volume, and a duplicate of the entries made each month in Indexes I and II shall be submitted at its close to the Sub-Registrar at sub-divisional head-quarters. In the head-quarters sub-division, and wherever the sub-divisional system has not yet been introduced, the duplicate will be sent direct to the Registrar for record.

91. The Sub-Registrar, on receiving vernacular Indexes I and II from rural Sub-Registrars, shall translate the same and incorporate them in his own indexes, noting the place of registration of each document; English indexes he shall directly incorporate in his own. He shall also at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index for all offices in his sub-division, and submit it to the Registrar.

92. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate indexes of amalgamated offices. the duplicate copy of the incorporated indexes of the sub-division shall be sent for safe custody to the office of the Registrar of Calcutta.

Fees and Fee-Book.

93. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

Table of fees.

94. Columns 1 to 7 and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned immediately under rule 64; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered; and column 14, as soon as the required copies and memoranda have been despatched.

Fee Book.

95. Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other

public money, and be paid into the nearest treasury. From district and sub-divisional offices the fees shall be remitted to the treasury daily; from rural offices they shall be sent to the treasury at such intervals as the Registrar shall direct. In all cases remittances to the treasury should be accompanied by the chalan book, duly filled up in duplicate. One copy of each chalan will be then kept by the treasury officer and the other returned with his signature.

96. The receipts entered in the fee book need not be entered in detail in the cash book: their daily totals will be sufficient; but all other receipts, and all payments whatsoever, must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

Records.

97. The Registrar's office shall be a central office of record in each district, and the books and papers of subordinate offices (which are not to be destroyed) shall be transferred to it from time to time.

98. The following records belonging to the period anterior to the enactment of Act XVI of 1864 shall be henceforward permanently preserved in district registry offices:—

Old records to be permanently preserved.

All registers of documents and their indexes. Duplicate copies of documents required to be filed under Regulation XX of 1812.

Registers of powers-of-attorney.

Original powers required to be filed under Regulation XX of 1812.

Kazis' records.

99. Besides Register Books I, II, III, and IV, and Indexes I, II, III, and IV, the following records shall be kept in all registry offices:—

Books to be kept in all offices.

A register of powers-of-attorney in the prescribed form.

A register of visits and commissions in the prescribed form.

A fee book in the prescribed form.

A cash book in the form proscribed by Accountant-General.

A catalogue in the prescribed form.

A chalan book in the prescribed form.

A file of receipts given under section 52 and returned on delivery of registered documents.

A file of receipts for copies and memoranda under rule 76.

A file of daily notices exhibited under rule 141.

100. The following additional books shall be kept in the offices of all District Registrars:—

Register Book No. V.

A register of letters received.

A register of letters despatched.

101. In January of each year the following records for the previous year shall be transferred from sub-registry offices to the district office :—

Transfer of books.

Completed volumes of Register Book I (including the file of memoranda).

Completed volumes of Register Book IV and Index IV.

Copies and translations filed under section 19.

102. Register Books II and III, Index III, and the register of powers-of attorney shall be transferred to the district office as soon as they are filled.

103. In the case of all rural offices, and wherever the sub-registry office is not a masonry building, each volume of the register books shall be forwarded to the district office as soon as it has been filled and indexed, without waiting till the end of the year.

104. For the period since Act XVI of 1864 came into force, the following records shall be preserved in perpetuity in all district offices :—

Records to be preserved in perpetuity.

All register books and their indexes prescribed by Acts XVI of 1864, XX of 1866, VIII of 1871, and III of 1877, as well those of the district registry offices as those received from the sub-registry offices.

Registers of powers-of-attorney.

Catalogue.

Cash book.

Fee book.

Reports of the destruction of records and lists of the papers destroyed.

105. The following records shall be preserved in perpetuity in all sub-registry offices :—

Register Book III under Act XVI of 1864, and Book V under Act XX of 1866.

The rough indexes under Act XVI of 1864
Original Indexes I and II under Acts XX of 1866, VIII of 1871, and III of 1877.

Catalogue.

Cash book.

Fee book.

106. When a registered document is destroyed under section 85, a note to that effect shall be made in the margin opposite the copy in the book in which it is registered.

Section 85.

107. The following records may be destroyed after the expiration of three full years from the period to which they relate :—

Records to be destroyed after three years.

Registers of visits and commissions.

Chalan books.

The receipts referred to in section 52.

Receipts referred to in rule 76.

All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.

Monthly returns, petitions, and other records and papers not otherwise specified.

108. No documents, books or papers whatever shall be destroyed at a sub-registry office without the previous sanction of the Inspector General; and before documents are destroyed an endeavour must always be made to induce the presentants to take them back.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta registry office.

Applications for Search or Copies.

110. All applications for search or for copies should be made to the registering officer himself. If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *viva voce* , the registering officer should write on a slip of paper, "Give-copy," or some such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub-Registrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act III of 1877 at the same rate of fees and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

Indents.

113. Before the 1st of September of each year every Sub-Registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

114. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in triplicate in the prescribed form for all register books and other registration forms which will be required for his own office and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in triplicate with the Registrar's endorsement, instead of being embodied in the Registrar's indent.

115. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of Stationery, the number of this office order being quoted. Reminders are useless without it.

116. Indents for the forms enumerated below, which have been prescribed by the Accountant-General, should be submitted in duplicate in March of each year direct to the Superintendent of Stationery.

1A.—Accountant-General's form of indent form.

116.—Commission list of Sub-Registrars.

117.—Salary list of gazetted officers of the Registration Department.

118.—Salary list of sanctioned establishments of the Registration Department.

119.—Bill for contingent charges of the Registration Department.

120.—Travelling allowance of Registrars.

121.—Travelling allowance of ministerial officers of the Registration Department.

128.—Bill for refund of registration fee for sub-divisional and rural sub-registry office.

138.—Detailed bill of contingent charges for countersignature.

141.—Leave statement.

151.—Form of acknowledgment of permanent advance.

183.—Cash book of registration.

184.—Acquittance roll of establishment.

117. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis. They are also supplied with registers, index books, and printed forms free of charge.

The cost of sending the registers, &c., from the Stationery Office to the offices of rural Sub-Registrars which are situated at a distance from Calcutta is borne by Government, and the charge met from the provision made in the budget for the Registrar's office contingencies.

118. Before the several dates noted below all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least fifteen days before these dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 117, above.

JUNE.—Punna, Bhagulpore, and Rajshahye Divisions, except the district of Rajshahye.

JULY.—Dacca, and Cooch Behar Divisions.

SEPTEMBER.—Calcutta offices.

OCTOBER.—Chittagong Division.

NOVEMBER.—Presidency and Burdwan Divisions and the Rajshahye district (Rampore Beaulah).

DECEMBER.—Chota Nagpore and Orissa.

Permanent Advance.

119. A permanent advance, not exceeding Rs. 200, will be allowed for each District Registrar on account of (1) contingencies, (2) service postage, and (3) refund of registration fees; but he need not draw the full advance of Rs. 200 where his ordinary expenses fall much below that amount. The Registrar will appropriate the amount drawn according to the require-

ments of each subordinate office, care being taken that a sum is allowed sufficient to meet charges for refunds only; because in the case of rural offices contingent charges will be defrayed by the rural Sub-Registrars, and in other sub-registry offices they should be met from the advance for general purposes received from the Accountant-General. In cases of the dismissal or death of rural Sub-Registrars, the District Registrars will be held responsible for the amount of the advances made by him. At the close of each official year the District Registrar will send an acknowledgment of the entire advance to the Accountant-General, Bengal, in A. G. B. form No. 151, of which a supply should be kept at hand.

120. The advance received by a Sub-Registrar will never be repaid into the treasury, but recouped from time to time, when necessary, by the submission to the Registrar of an abstract bill or bills supported by needful vouchers. On the first office day after the 25th March in each year the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

"To the Registrar of

"We, the undersigned, have the honor to report that we have this day, at o'clock in the forenoon (or afternoon), respectively made over and received charge of the office of

"Relieved Officer.

"Relieving Officer."

"And I, the Relieving Officer, acknowledge to have received Rupees of the permanent advance of Rupees, and that the full amount of such advance is due from and to be accounted for by me.

"Dated the

18 .

"Relieving Officer."

Salary Bills.

121. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

122. Sub-Registrars who are wholly or partly remunerated by a percentage on the fees will draw their commission at the end of each month, in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury. In calculating commission, the fees levied on documents which are still pending at the close of the month shall be excluded; but if the documents be eventually registered, the fees previously credited in respect of them will be brought into the commission account for the month in which they are registered. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

123. When an officer is temporarily placed in charge of the office of a Special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw

commission, which the Special Sub-Registrar retains.

Establishment Bills.

124. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118 by the head of the office. They do not require the countersignature of higher authority.

125. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

126. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment. Whenever special establishments are entertained, whether they are paid by salary or at contract rates, a weekly progress statement must be submitted to the Inspector-General in printed form No. 34A.

Contingent Bills.

127. A register of contingent expenditure shall be kept in each office, and the initials of the head of the office shall be entered against the date of the payment of each item.

128. The disbursing officer, that is the officer who draws a bill for contingent charges and is responsible for the due disbursement of the amount, may be left to deal with vouchers for items not exceeding ten rupees, attaching to his contingent bill a certificate in the following form :—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided. I have satisfied myself that the charges entered in this bill have been really paid. Vouchers of all sums above Rs. 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for smaller sums, and am personally responsible that they have been so destroyed that they cannot be used again, except the vouchers for service postage labels, which are herewith sent."

129. When the bill of a disbursing officer is countersigned, vouchers for sums above Rs. 10 and not exceeding Rs. 100 shall be examined, cancelled, and retained in the office of the countersigning officer.

The following certificate is prescribed for the countersigning officer :—

"I certify that in support of every charge of more than Rs. 10 made in this bill a receipt or other voucher in proper form has been given to me and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot again be used to support claims against the Government, except the vouchers for service postage labels, which are herewith sent."

130. The salary of sweepers cannot be charged to contingencies. The wages of punkah-pullers may be so charged when their employment has been sanctioned.

131. No charges for printing may be incurred without the special sanction of the Inspector-

General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector-General.

132. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c., may be included in the monthly contingent bill.

133. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature is sufficient for audit. All charges for service postage labels, however small, must be supported by vouchers, and require the countersignature of the Inspector-General.

134. Registrars' contingent bills not exceeding Rs. 10 in amount do not require countersignature.

135. When the expenditure during any month on account of contingencies, service postage, and refunds in any Registrar's office exceed the amount of the permanent advance, the amount expended may be drawn by an abstract bill or bills (*see* Accountant-General's form No. 119) submitted during the month under the Registrar's signature. But in such cases a detailed bill (*see* Accountant-General's form No. 138), accompanied by vouchers, must also be submitted to the Inspector-General at the end of the month.

Miscellaneous.

136. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted, unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty, on due cause being shown, to accept the attestation of an agent, &c., in case of important interlineations, &c.

137. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K as well as the penalty under heading O shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

138. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

139. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with

any remarks which the registering officer may wish to make.

140. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration, and when they are registered shall return them with their own hands.

141. The serial number of the last document completed and ready for return shall be daily exhibited in the prescribed printed form in some conspicuous place outside every office.

142. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

143. All official letters and covers sent by post from any sub-registry or district registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars, who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service labels should be submitted by each District Registrar for the information of the Inspector-General. The cost of these labels will be met from the consolidated advance mentioned in rule 119. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly contingent bill, supported by the Treasury Officer's receipts as vouchers.

144. Bills, monthly returns, and regular indents should not be accompanied by covering letters. The envelopes containing them should be marked "Returns." Letters and urgent indents should be separately sent.

145. A duplicate bill should never be submitted unless the original is lost in transit or otherwise, in which case a certificate should be attached to the effect that the bill has not been cashed at the treasury.

146. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's forms Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

147. When ministerial officers of the department are deputed to give evidence or to produce records before any court, application for the payment of their travelling expenses should be made to the court.

148. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted on the bill.

149. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

150. The security bonds of head-clerks should be examined at the close of each financial year, the result being reported to the Inspector-General.

[Second Publication.]

NOTIFICATION.

The 24th July 1877.—It is hereby notified that, under the powers vested in him by Section 32 of Act V (B.C.) of 1876, the Lieutenant-Governor is pleased to exclude the following portions of the roads within the limits of the Rungpore Municipality from the operation of the Act, and to authorize the transfer of such roads to the charge of the Road Cess Committee of that district:—

- | | |
|----------------------------------|----------------------|
| 1. The Julpigoree road. | 4. Bogra road. |
| 2. Dinagepore road. | 5. Cooch Behar road. |
| 3. Kaligunge and Mahigunge road. | 6. Kurigram road. |

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 28th July 1877.—It is hereby notified that, under Section 3, Regulation VI of 1819, the Lieutenant-Governor has been pleased to declare as public the ferry at Indupur, on the river Braminee, in the district of Cuttack.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 30th July 1877.—It is hereby notified for general information that, under Section 234 of the Bengal Municipal Act V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Bankoora, made at a meeting, to sanction the extension to that Municipality of the provisions of Sections 235 to 256, 271 to 274, 278 to 288, and 292 to 294 of Part VII of the Act.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 26th July 1877.—THE following bye-laws, framed by the Municipal Commissioners of Dinagepore at a meeting under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

• *For the Regulation and Management of Privies.*

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation or any place containing waste and stagnant water, or into any other receptacle.

Penalty for infringement, Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool, into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

14. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

15. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

16. No one shall let off any fire-balloon, fire-work, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-Laws.

17. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the cost as a debt due to the Commissioners.

Penalty for infringement; Rs. 5.

18. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in any such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

19. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice Rs. 5 daily.

20. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

21. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

22. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement Rs. 4 daily.

23. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

24. No person shall let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

25. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body, where no coffin is used, shall be at a less depth than five feet from the surface of the ground.

Penalty for infringement, Rs. 10.

26. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

27. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

28. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

29. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

30. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

31. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement Rs. 10.

32. Any person allowing cattle or animals to be at large within the limits of the Municipality without proper attendants shall be liable, on conviction, to a fine not exceeding Rs. 10.

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 30th July 1877.—The following Notification is published in supersession of that which appeared at page 747 of the *Calcutta Gazette* of the 27th June 1877:—

It is hereby notified that, under Section 3, Regulation VI of 1819, the Lieutenant-Governor has been pleased to declare as public the two ferries at Achintola and Jhalmalia, in the district of Rajshahye—the former over the river Narod, where it intersects the road from Bauleah to Pubna; and the latter on the Moosakhan-ka-khall, where it intersects the road from Bauleah to Nattore.

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 31st July 1877.—It is hereby notified that such portion of the Notification published in the *Calcutta Gazette* of the 11th July 1877 as relates to Section 4 of the Regulations made by the Government under Section 6, Act XX, 1865, for conducting the examination of applicants for admission as pleaders and mookhtars in the mofussil courts subordinate to the High Court, has been cancelled by the Lieutenant-Governor, and that the following has been substituted:—

“The examination of candidates for pleaderships of the higher grade shall be held in Calcutta; the examination for lower grade pleaders shall be held at Calcutta and Cuttack; the examination for mooktarships shall be held at Calcutta, Patna, Dacca, and Cuttack.”

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 19th July 1877.—Under the provisions of Section 3, Regulation VI of 1819, the Lieutenant-Governor is pleased to declare the ferry at Mag Bazar, in Nulchitty, in the district of Backergunge, to be a public ferry.

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 19th July 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Takee, in the district of the 24-Pergunnahs, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept or habitually used within the Municipality, and the levy from 1st September 1877 of fees upon every cart for such registration at the rates mentioned below.

For every cart kept within the Municipality Rs. 2 per annum, or Re. 1 per half year.

For every cart habitually used within the Municipality Rs. 8 per annum, or Re. 1-8 per half year.

S. O. BAYLEY,

Secy to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 23rd July 1877.—The following bye-laws, framed by the Municipal Commissioners of Deoghur, in the Southal Pergunnahs, at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Conduct of Business at Meetings.

1. The Office of the Sub-divisional Officer will be the Municipal Office under the provisions of the Act.

For Regulating the Time and Mode of Collecting the Taxes.

2. The receipts to be given under Section 110 to be signed by either the Chairman or the Vice-Chairman.

3. Every collecting officer should be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

4. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule shall be liable to a penalty not exceeding Rs. 20: Provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

5. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

6. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, unless discharged at once for misconduct; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

7. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required to do so, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

8. Every person within whose premises any animal may die shall, within six hours after its death, or, if death occurs at night, within four hours after daylight, remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or, if he is unable to remove the carcass, he may report the animal's death to the Municipal Secretary or overseer, who shall cause it to be removed at his expense; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass. Penalty for infringement not to exceed Rs. 10.

9. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement not to exceed Rs. 10.

For the Regulation and Management of Privies.

10. Every person shall construct his privy above ground, and shall provide his privy with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice not to exceed Rs. 10.

11. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or to be discharged from such privy into any drain, water-course, or excavation, or into any other receptacle but one of the kind described in the next preceding section.

Penalty for infringement not to exceed Rs. 10.

12. No person shall throw, deposit, or discharge any night soil, sewage, or the contents of any drain, privy, or cess-pool into any drain, tank, or water-course, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 10.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, and between such hours as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 5.

14. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

15. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

For Regulating Traffic in the Streets.

16. No owner of any carriage shall allow it to be driven by a driver under fourteen years of age.

Penalty for disobedience on the owner's part not to exceed Rs. 10.

17. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights, except when in the opinion of the Magistrate there may be sufficient moonlight to render such lights unnecessary.

Penalty for infringement not to exceed Rs. 5.

For Regulating or Prohibiting the use of Fire-works, Fire-balloons, Fire-arms, or any Missile in or near a Public Street.

18. No person shall let off any fire-balloon, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement not to exceed Rs. 10.

General Bye-laws.

19. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Municipal Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 5; for continued infringement after notice, Re. 1 daily.

20. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence after eight days' notice, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement not to exceed Rs. 5.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection, shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement after notice not to exceed Rs. 5; for continued infringement, Rs. 2 daily.

22. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course.

Penalty for infringement not to exceed Rs. 5; for continued infringement after notice Re. 1 daily.

23. No person shall let loose, or allow to be loose, any diseased or worn-out animal on any highway, street, or public place whatever.

Penalty for infringement not to exceed Rs. 10.

For Regulating Burial and Burning Grounds.

24. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement not to exceed Rs. 10.

25. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement not to exceed Rs. 10.

26. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement not to exceed Rs. 20.

27. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement not to exceed Rs. 20.

28. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement not to exceed Rs. 20.

29. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement not to exceed Rs. 10.

30. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse, or part thereof, to any burning ground, shall completely burn, or cause the same to be completely burnt, within four hours after its arrival at the said burning ground.

Penalty for infringement not to exceed Rs. 20.

31. No person when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning ground shall permit the same, or any part thereof, to remain without being completely reduced to ashes, or shall permit the clothes or other articles connected with the burning of such corpse to remain at or near such burning ground unless the same be completely reduced to ashes.

Penalty for infringement not to exceed Rs. 20.

32. No person shall open any grave within six months of the burial of any body therein, or shall exhume any corpse, except with the written permission of the Commissioners.

Penalty for infringement not to exceed Rs. 20.

S. C. BAYLEY,
Secy to the Govt. of Bengal.

SENATE HOUSE, the 26th July 1877.

CHARLES H. TAWNEY, *Registrar*.

THE following alterations in the regulations for the examinations in Medicine having been sanctioned by the Senate, and approved of by His Excellency the Governor-General in Council, are published for general information :—

(A) Clauses 8 and 9 of the old regulations of the First M. B. examination, and clauses 4 and 5 of the old regulations for Honours in Medicine, have been omitted.

(B) In clause 2 of the regulations for the First L. M. S. examination, for the words "one course of 40 lectures—Botany," have been substituted the words "one course of 20 lectures—Botany;" and in clause 2 of the regulations for the First M. B. examination, for the words "two courses, each of 40 lectures—Botany," have been substituted the words "two courses, each of 20 lectures—Botany."

It is further notified that the new regulations under paragraph (A) will take effect from the examination of 1877, and the new regulations under paragraph (B) from the examination of 1878.

The following alteration in the form of the certificate appended to the application of candidates for the First Arts and B. A. examinations having been sanctioned by the Senate, and approved of by His Excellency the Governor-General in Council, is published for general information :—

The words "that there is, in my opinion, a reasonable probability of his now passing the First Examination in Arts or the B. A. examination" have been omitted.

It is further notified that the above alteration will take effect at the F. A. examination of 1877 and the B. A. examination of 1878.

SENATE HOUSE, the 6th August 1877.

CHARLES H. TAWNEY, *Registrar*.

OPIUM NOTIFICATIONS.

No. 986B.

NOTICE is hereby given that the Ninth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday the 5th September 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

					Chests.
Behar	Opium	2,080
Benares	,,	1,920
Total					4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 20th September 1877 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Monday, the 10th September 1877, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Thursday, the 20th September 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

Dates.	Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Wednesday, 3rd October 1877	2,080	1,920	4,000
On or about Friday, 2nd November "	2,080	1,920	4,000
On or about Monday, 3rd December "	2,080	1,920	4,000
Total	6,240	5,760	12,000

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary*.

BOARD OF REVENUE, L. P., FORT WILLIAM, the 31st July 1877.

SEALED tenders will be received at this office up to noon of Wednesday, the 15th August 1877, for removing all the chests of abkaree and provision opium which may be brought down to the Presidency from the Patna and Ghazipur opium factories by railway during the period of one year, from the 24th August 1877, from the East Indian Railway Company's stations at Howrah and Armenian Ghât (as may be necessary) to the Government opium godowns situated within the Custom House premises, and there stacking them as the Intendant in charge shall from time to time direct.

2. The tenders should state the rate per 100 chests, all charges to be incurred to be included. Security to the amount of one thousand rupees must be deposited by the party whose tender may be accepted.

3. The Board of Revenue does not bind itself to accept the lowest or any tender.

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Officiating Secretary.*

FORT WILLIAM, the 28th July 1877.

No. 983½B.

UNDER the powers conferred by Sections 32 and 133 of Act VI of 1863, the chief customs authority of the Presidency has fixed Panchparah, the southern limit of the port of Calcutta, as the station or place at which vessels arriving at or departing from the port of Calcutta shall be required to bring to for the boarding or landing of officers of customs.

By order of the Board of Revenue, L. P.,

FORT WILLIAM, the 30th July 1877.

CALCUTTA CUSTOM HOUSE, the 7th August 1877.

Coasting Trade.

IV. After the commencement of this Act the legislature of a British possession, by any Act or Ordinance, from time to time, may regulate the coasting trade of that British possession, subject in every case to the following conditions:—

Regulation of coasting trade by Colonial legislature.

- (1) The Act or Ordinance shall contain a suspending clause, providing that such Act or Ordinance shall not come into operation until Her Majesty's pleasure thereon has been publicly signified in the British possession in which it has been passed.
- (2) The Act or Ordinance shall treat all British ships (including the ships of any British possession) in exactly the same manner as ships of the British possession in which it is made.
- (3) Where, by treaty made before the passing of this Act, Her Majesty has agreed to grant to any ships of any Foreign State any rights or privileges in respect of the coasting trade of any British possession, such rights and privileges shall be enjoyed by such ships for so long as Her Majesty has already agreed or may hereafter agree to grant the same, anything in the Act or Ordinance to the contrary notwithstanding.

Sections 328 & 163 of 16 & 17 Vic., c. 107, repealed.

V. The following sections of the Customs Consolidation Act, 1853, are hereby repealed; namely—

Section three hundred and twenty-eight as from the commencement of this Act.
Section one hundred and sixty-three as from the date, in the case of each British possession, at which either an Act or Ordinance with respect to the coasting trade made within two years after the commencement of this Act in such British possession comes into operation; or, if there is no such Act or Ordinance, at which the said two years expire.

Merchant Shipping.

VI. It shall be lawful for Her Majesty by Order in Council, from time to time to declare, with respect to the British possession mentioned in the order, the description of persons who are to be Registrars of British ships in that British possession, and to revoke any order so made. After the date specified in the order, or, if no date is specified, after the date of the proclamation of the order in the British possession, the order shall have effect as if it were contained in section thirty of the Merchant Shipping Act, 1854.

Registrars of British ships in British possessions.

Application of Merchant Shipping Acts to Canada.

VII. In the construction of the Merchant Shipping Act, 1854, and of the Acts amending the same, Canada shall be deemed to be one British possession.

VIII. Where the legislature of any British possession provides for the examination of, and grant of certificates of competency to, persons intending to act as Masters, Mates, or Engineers on board British ships and the Board of Trade reports to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by Order in Council—

Colonial certificates to Masters, Mates, and Engineers.

- (1) To declare that the said certificates shall be of the same force as if they had been granted under the said Acts:
- (2) To declare that all or any of the provisions of the said Acts which relate to certificates of competency granted under those Acts shall apply to the certificates referred to in the said order:
- (3) To impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties not exceeding fifty pounds for the breach of such conditions and regulations.

Upon the publication in the London Gazette of any such Order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such order, take effect as if they had been contained in this Act.

It shall be lawful for Her Majesty in Council to revoke any order made under this section.

The following order, issued by the Government of India in the Home Department, is republished for general information:—

No. 632.—*Simla, the 24th July 1877.—Notifications—Establishments.*—His Excellency Sir Richard Temple, Bart., K.C.S.I., is permitted to resign the Bengal Civil Service, with effect from the 1st May last.

The following order, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, is republished for general information :—

No. 278.—*The 27th July 1877.*—In continuation of Notification No. 388, dated the 4th December 1875, published in the *Gazette of India* of the 11th idem, the Governor-General in Council is pleased to direct the publication of the following order issued by the Queen in Council, from which it will be seen that the rules in force in the United Kingdom concerning the measurement of tonnage of merchant ships have been accepted by Italy, and that Her Majesty has been pleased to exercise, in favour of the ships of that country, the power conferred by Section 60 of the Merchant Shipping Act Amendment Act, 1862 (25 & 26 Vic., c. 63) :—

AT THE COURT AT BALMORAL.

The 30th day of September 1873.

PRESENT :

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862." it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships, for the time being in force under the principal Act, have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificate of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificate of registry or other papers, in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificate of registry of British ships is to be deemed the tonnage of such ships.

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of His Majesty the King of Italy, and such rules are now in force in that country, having come into operation on the first day of July one thousand eight hundred and seventy-three.

Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. *As regards sailing ships.*—That merchant sailing ships of the said Kingdom of Italy the measurement whereof, after the said first day of July one thousand eight hundred and seventy-three, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers, in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.

2. *As regards steam ships.*—That merchant ships belonging to the said Kingdom of Italy which are propelled by steam or any other power requiring engine-room, the measurement whereof shall, after the said first day of July one thousand eight hundred and seventy-three, have been ascertained, and denoted in the registers and other national papers of such steam-ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships; provided, nevertheless, that if the owner or master of any such Italian steam-ship desires the deduction for engine-room in his ships to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the Italian rule, the engine-room shall be measured, and the deduction calculated according to the British rules.

No. 129.—*The 21st July 1877.*—*Emigration.*—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for rules 23 and 29 of the rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1878 :—

RULE 23. The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every hundred adult males.

23A. During the period from 1st November to the close of each season, the proportion shall be such number between 40 and 80 adult females to every 100 adult males as the Protector of Emigrants may fix for each ship.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned, that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

23B. If in any such season the average falls below this, the Protector of Emigrants shall, in exercising the discretion given him by the first clause of Rule 23A, so fix the proportion for the several ships despatched during the period commencing with the 1st

November of the following season up to its close as to bring up the average proportion for the two seasons, if practicable, to not less than 40 adult females to every 100 adult males.

RULE 29. The Emigration Agent shall appoint to each ship about to be despatched by him the staff of attendants specified in scale No. 11 of Schedule E, and shall ensure their punctual attendance at the time of embarkation.

When emigrants volunteer to act as topazes or cooks, and the Superintending Surgeons are willing to accept their services in this capacity, they may be employed as such.

The compounder-interpreter and the nurses, cooks, sirdars, and topazes, whether emigrants or not, shall, whenever practicable, be selected from among those who have been accustomed to a sea life, and have been trained either in an emigration depôt or elsewhere to the kind of work they will be required to perform on board.

One of the nurses appointed shall be a person who possesses the necessary qualifications for the work of supervising and directing under nurses, and she shall be appointed head-nurse.

29A. The Agent shall provide all persons appointed by him with separate written agreements wherein their respective engagements, including for natives of India a free return passage to India, and in the case of West Indian or African topazes a free passage to their homes shall be clearly provided for, but when such persons are emigrants under engagement to serve in the colony to which they are proceeding, it will not be necessary to provide that a return passage to India should be secured to them by agreement, otherwise than on the same terms provided for other emigrants.

To meet caste prejudices, it shall be arranged so that Brahmins shall cook for Hindus, and Mussulmans for Mahomedans.

29B. It shall be further provided by such written agreement that all the attendants shall be under the immediate control of the Surgeon Superintendent, and that he shall have the power of disrating or dismissing any of them for misconduct or neglect of duty.

SCHEDULE E.—SCALES.

No. 11.

Scale of attendants to be appointed to emigrant ships proceeding to places either east or west of the Cape of Good Hope :—

(a).—Compounder-interpreter.—One to each ship, unless the total number of statute adults the ship is licensed to carry exceeds 500, in which case an assistant compounder-interpreter must be provided.

(b).—Extra interpreter.—One to each ship in all cases when the Surgeon or the Master and 3rd Officer are ignorant of the native language; but in the event of an assistant compounder-interpreter being provided, an extra interpreter need not be appointed.

(c).—Female nurses.—Four to each hundred children under two years of age.

(d).—Sirdars or headmen.—Four to every hundred statute adults.

(e).—Cooks or bandaries.

(f).—Topazes or sweepers } Two to the first hundred statute adults, and one additional for every additional 100 statute adults.
(except in the case of ships bound to the West Indies, as to which see Rule 49).

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 1803P.—Simla, the 26th July 1877.—Notifications.—Political.—With reference to Notification No. 642P., dated 22nd March 1877, Mr. P. F. Eisenlohr, Consul for the German Empire at Calcutta, assumed charge of his office on the 9th July 1877.

No. 2060G.—Simla, the 27th July 1877.—General.—The following extract from the *London Gazette*, dated Friday, the 15th June 1877, is published for general information :—

Foreign Office, June 13, 1877.

The Earl of Deby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received from Her Majesty's Consul-General at Odessa the following amended notice of the regulations for the entrance and departure from Russian ports in the Black Sea of neutral vessels, which was communicated to the Foreign Consuls by the Governor-General of Odessa on the 6th June. The notice is the same as that published in the *London Gazette* of May 18th, with the addition of the last paragraph :—

Approved by the Commander of the Odessa Military District.

NOTICE.

From the time of the declaration of war (1st April 1877) the entrance of, and the departure of vessels from, the port of Odessa, from the Liman of the Dnieper, and from the Boug, the Straits of Kertch, and the Bay of Sebastopol is only permitted subject to the following conditions, which are not provided for by Maritime International Law, but which must necessarily arise now that harbours are protected by barring them with mines the passage through which is kept absolutely secret :—

1. Every vessel on arriving must stop outside the line of mines. Russian officers with a crew will go and meet her; they will assume command of the said vessel, navigate her into the harbour, after having satisfied themselves that the ship's papers are in regular order.

2. The Captain of the said vessel shall engage in writing, on behalf of himself and his crew and passengers, that, while passing the line of torpedoes, no person shall remain on the deck, or watch through portholes or other openings the course followed by the ship.

3. The same rule shall be enforced when merchantmen quit the harbour; that is to say, a Russian officer and crew shall, in conformity with Articles 1 and 2, take command of the said vessels.

4. If a man-of-war should make its appearance at a spot whence it would be possible to watch the entry and departure of vessels, the Russian authorities will insist upon its retiring to a certain distance, during a period of time sufficient to navigate a vessel in or out. Until this formality is complied with no vessel will be allowed to enter or leave.

But at the same time Captains are informed that it may happen that the enemy's war cruisers will refuse to pay attention to the above request, and commence hostilities at once. In that case vessels already in the port will be deprived of the possibility of leaving, and be inevitably exposed to all the consequences that may result from the enemy's fire.

No. 2061 G.—The following extract from the *London Gazette*, dated Tuesday, the 19th of June 1877, is published for general information :—

Foreign Office, June 19, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received a report from the British Acting Consul at Smyrna, stating that some electric torpedoes have been laid at the entrance of the Bay of Smyrna.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 2192.—*Simla, the 27th July 1877.—Notification.—Accounts.—Bills drawn upon India by the Secretary of State, 1877-78.*

	£	Rs.	Average rate.		Loss compared with outturn at an exchange of 2s. the rupee.

Expenditure in excess of estimate					Rs. 8,21,568

PENSIONS, GRATUITIES, &c.

No. 2193.—*The 27th July 1877.*—The Governor-General in Council directs the publication of the following addenda and corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

Section 13 (page 5).

Add the following as a note under this section :—

(NOTE.—The word "Apprentices" in this section does not include Engineer Apprentices in the Public Works Department.)

Chapter VII (page 15),

Substitute the following for the note at the head of this chapter :—

(NOTE.—The rules in this chapter apply to all officers in the service of the British Government.

Section 38 (page 16).

Add the following to Rule 5 :—

"The Government will not ordinarily enter into any direct arrangements with the Native State Municipality, or other body to which the officer may be lent, or make any direct demands upon it."

CIVIL LEAVE CODE.

Section 30 (page 129).

Add the following as Rule 4 (A) under this section :—

"The suspension of an officer from office pending enquiry into his conduct interrupts his duty or not as the Local Government may in each case decide. Time passed under suspension does not qualify for privilege leave unless, in any case, the Local Government expressly orders that it shall so qualify."

Supplement F, Section 1 (page 210).

Add the following as a note under Rule 5 :—

(NOTE.—The word "Apprentice" in this rule does not include Engineer Apprentices in the Public Works Department.)

SEPARATE REVENUE—POST OFFICE.

The 27th July 1877.

No. 2196.—Under the powers vested in him by Sections 20 and 22 of the Post Office Act of 1866, the Governor-General of India in Council is pleased to declare that the rates of postage chargeable on inland *parcels* and on inland *packets* of books and other articles shall be those hereunder mentioned, viz.—

On parcels: 8 annas if the parcel does not exceed 40 tolas in weight: and 4 annas additional for every additional 40 tolas or fraction thereof.

On packets: 1 anna if the packet does not exceed 10 tolas in weight, 2 annas if it exceeds 10 tolas and does not exceed 40 tolas, and 2 annas additional for every additional 40 tolas or fraction thereof.

The foregoing rates shall be subject to the existing regulations concerning the compulsory prepayment of *packets* and the packing of them with open ends.

No alteration is made in the present scale of charges* leviable on *packets* transmitted on Her Majesty's Service: but in lieu of the present scale of charges leviable on *parcels* transmitted on Her Majesty's Service, under the official correspondence rules, there shall be charged on every such *service parcel* the same amount as that chargeable on a *service packet* of like weight together with 4 annas for registration. Thus for a *service parcel* exceeding 20 and not exceeding 30 tolas there shall be charged 3 annas (service packet rate) together with 4 annas, or a total of 7 annas. The prepayment of *service packets* shall continue to be compulsory: and that of service parcels shall continue to be optional.

This order shall have effect in respect of all parcels and packets posted on and after the 1st September 1877.

No. 2127.—*The 27th July 1877.—Stamps.*—In exercise of the powers conferred by Section 35 of the Court Fees Act, 1870, the Governor-General in Council is pleased to declare that the fee chargeable under the said Act on plaints filed in suits for possession of immoveable property under Section 9 of the Specific Relief Act No 1 of 1877, shall be one-half of the amount prescribed in the scale of fees for plaints mentioned in Schedule I, Article I of the Court Fees Act.

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

No. 661.—*Simla, the 27th July 1877.—Medical Department.*—Her Majesty has been pleased to appoint the undermentioned gentleman to be a Surgeon in Her Majesty's Indian Military Forces in the Presidency of Bengal. He is accordingly admitted into the service :—

Surgeon C. H. Beatson,—arrived at Fort William, 2nd July 1877.

* 2 annas for 20 tolas, 3 annas for 30 tolas, and so on.

No. 664.—*Volunteer Corps.—East Indian Railway Volunteer Rifle Corps*—Color Sergeant John Collins, to be Sub-Lieutenant, vice G. Rae, resigned.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, AUGUST 8, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary right of Government to the undermentioned estate, situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate on Saturday, the 11th August 1877, corresponding with 28th Srabun 1284 F.S.

The purchasers of this estate will be subject to the following conditions of sale:—

CONDITIONS OF SALE.

- (1) The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, with the revenue fixed upon the estate, in perpetuity.
- (2) The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchaser to be bound to respect the rights of resident cultivators, who have signed the schedule of assessment prepared by the revenue authorities.
- (3) If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.
- (4) If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

T. F. BIGNOLD, *Offg. Dist. Judge of Rajshahye.*

NOTICE is hereby given that the right of catching Elephants, for the current year 1877-78, in mehals Nos. 3 and 4, as described below, in the district of the Garo Hills, will be put up to public auction in two lots at 1 P.M., on the 15th August next, at the sub-divisional office at Dhubri.

2. The hunting operations will be carried on only during the months from 1st September 1877 to 31st March 1878.

3. The lots will be put up to auction to the highest bidders, but the Deputy Commissioner reserves the right to refuse the highest or any bid with the sanction of the Chief Commissioner.

4. The purchaser will be required to pay down at once 25 per cent. of the purchase-money, and to give security for the remainder, if called on to do so, failing which the lot will be again put up for sale at his risk.

5. All other conditions will be duly notified at the time of sale, and can be obtained at any time on application to the Deputy Commissioner of the Garo Hills at Tura, or to the sub-divisional officer at Dhubri.

MEHAL.—Lot No. 1.

Mehal No. 3 comprises the country lying between the Kalu River at Harigaon and Jinjiram River at Nibari, bounded on the south and east by the lands of the villages of Ganolgiri, Jendragiri, Ringigiri, Dodullunggiri and Gokulgiri.

Lot No. 2.

Mehal No. 4 comprises the country between the Jinjiram River and the eastern extremity of the Garo Hills at the junction of the Khasi and Kamroop boundaries, and bounded on the south by the lands of the villages of Sinal, Gabul, Assil, and the Sokadam range of hills to the Khasi border.

G. GODFREY,

Offg. Asst. Secy. to the Chief Commr. of Assam.
The 10th July 1877.

Notice.

TENDERS are invited for the execution of work in the Purneah district during the ensuing cess year commencing 1st October 1877.

The Road Cess Committee at their last annual meeting made the following allotment of funds for expenditure on thirty different roads:—

Sal-wood planked bridges, 10 feet roadway	"	28,420
Masonry bridges	"	19,508
Bridge repairs	"	2,316

All information about the form and conditions of tender can be obtained from the undersigned. Tenders will be received up to the 19th August and opened on the following day.

W. FERNIE, C.E., *District Engineer.*
PURNEAH, the 2nd August 1877.

Notice

TO CONTRACTORS AND BUILDERS, NORTHBROOK HALL, DACCA.

THE Committee invite tenders for the erection and completion of this building at Dacca according to plans and specification to be seen at the office of Major Mant, B.E., Commercial Buildings, Calcutta, or at the office of the Executive Engineer, Dacca Division, Dacca.

2. Persons tendering to state a lump sum for which they will undertake to complete the work within twelve months after date of notification of acceptance of tender.

3. The contractor to execute a legal contract within seven days after date of notification of acceptance of tender, and deposit Rs. 4,000 security in cash or promissory notes as security for the due fulfilment of his contract.

4. The contractor will append to his tender a signed schedule of rates for earthwork per 1,000 cubic feet, but pointed pucca brickwork per 100 cubic feet; concrete, per 100 cubic feet; tank-wood work, per cubic feet; iron work, wrought, per cwt.; iron work, cast, per cwt.

5. Tenders, to be sealed and endorsed "Tender for Northbrook Hall," will be received by the Secretary to the Committee, Dacca, until noon on the 30th August 1877.

6. The Committee do not bind themselves to accept the lowest or any tender.

By order of the Committee,

ORNOY CHANDRA DOSS, *Secretary.*

DACCA, the 26th July 1877.

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sal beams and scantlings supplied from this depot will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.

22 " " 2-12 "

23 " " 2-14 "

24 " " 3 "

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7, at " 2-4 "

Under 7 feet, at " 2 "

The above prices are for ordinary building purposes.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator, Oudh Forests,

SIMPSON HILLIERS, *Asst. Conservator of Forests.*

The 1st June 1877.

IT is hereby notified that I intend to apply for being enrolled as a *Vakeel* of the High Court.

(1414—4)

GOKUL CHUNDEA DHAR.

Notice.

ALL persons are warned not to have any dealings with Mr. Harry Robarts about the jungle and waste lands in Mahulon village situate near Ranchi, or about the Tea garden in the same village, these being the property of the Ranchi Lac Company.

All persons are similarly warned from dealing in any way with the said Mr. Harry Robarts with respect to any other land or properties in which the said Company is interested.

The Power-of-Attorney formerly held by Mr. Harry Robarts from the said Company has been revoked, and he is no longer in any manner connected with the said Company or its affairs.

Mr. J. Curwen, of Ranchi, is the local representative of the Company in liquidation.

Dated this 23rd day of April 1877.

CHAUNTRELL, KNOWLES, AND ROBERTS,

Solicitors for the Liquidators of the Ranchi Lac Company, Limited.
(1275—f. n.)

taken over on account of Government under the provisions of section 27 of Act VI of 1863.

J. D. MACLEAN, *Offg. Collr. of Customs.*

CALCUTTA CUSTOM HOUSE, the 3rd August 1877.

Notice.

THE partnership heretofore subsisting between Arratoon Johannes Avdall, Catchick Avetick Thomas, and Michael Sarkies as balers and dealers in jute at Dacca and Calcutta, under a deed of partnership bearing date the twentieth day of November one thousand eight hundred and seventy-five, was, by an order of the High Court of Judicature at Fort William in Bengal, dated the twentieth day of July one thousand eight hundred and seventy-seven, dissolved as from the date of the said order dated the first day of August one thousand eight hundred and seventy-seven.

C. A. THOMAS.

M. SARKIES.

REFERRING to the foregoing notice, we the undersigned will from this date carry on the business of balers and dealers in jute at Dacca and Calcutta in partnership under the style of Thomas and Sarkies. Dated the first day of August one thousand eight hundred and seventy-seven.

C. A. THOMAS.

(1424—1)

M. SARKIES.

TO be sold by the Receiver of the High Court, pursuant to a decree of the said Court, in its Ordinary Original Civil Jurisdiction, dated 8th day of December 1876, made in suit No. 173 of 1874, wherein Bollye Chand Dhur is plaintiff and Sreemutty Heoramoney Dossee, &c., are defendants, on Saturday, the 18th day of August next, at the hour of 12 o'clock, at noon, at his office, in the High Court premises, the undermentioned property belonging to the estate of Ram Chunder Doss, deceased, viz.—

All that upper-roomed brick-built messuage tenement or dwelling-house, together with the piece or parcel of land thereunto belonging and on part whereof the same is erected or built, containing by estimation 1 beegha 1 cottah and 10 chittacks, more or less, situate, lying, and being at No. 71, Bentinck Street, in the town of Calcutta, and bounded in the manner following, that is to say—on the north partly by the house of Mudden Mohun Mullick and partly by the house of Dwarkanath Mitter; on the south partly by the house of Mr. R. Wallace, partly by the house in the occupation of Messrs. Steer and Company, and partly by a public lane called Zigzag Lane; on the east partly by the house of Mr. L. A. Pareira, and partly by the houses of Dwarkanath Mitter and Mudden Mohun Mullick; and on the west partly by public road called Bentinck Street, and partly by the house of Mr. R. Wallace, and partly by the house in the occupation of Messrs. Steer and Company.

For further particulars and conditions of sale apply to the undersigned.

J. C. MACGREGOR, *Receiver, High Court.*

RECEIVER'S OFFICE, the 19th July 1877. (1410—4)

Estate of George Alexander Atkinson, deceased.

STATUTORY NOTICE TO CREDITORS.

PURSUANT to the "Trustees' and Mortgagees' Powers' Act, 1866," notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of George Alexander Atkinson, late of Calcutta, an Auditor in the employ of the East Indian Railway Company, who died at Calcutta aforesaid on or about the 13th day of March 1877, and Letters of Administration of whose property and credits were duly granted to Edmund Goteley Wells, Esquire, of Calcutta, Officiating Superintendent, Government Dockyard, one of the constituted Attorneys of Christopher John Davies, the sole Executor of the said George Alexander Atkinson, deceased, by the High Court of Judicature at Fort William in Bengal, are hereby required to send in writing the particulars of their claims or demands to the said

Edmund Goteley Wells at his Office situate at Government Dockyard on or before the 15th day of September 1877, and notice is hereby also given that at the expiration of the said time the said Administrator will distribute the assets of the said George Alexander Atkinson, deceased, amongst the parties entitled thereto having regard only to the claims of which he has then had notice. Dated this 7th day of August 1877.

TROTMAN AND WATKINS,

Attorneys for the Administrator

Edmund Goteley Wells.

W. ALPIN, Offg. Post-Master of Calcutta.

CALCUTTA, the 7th August 1877.

FINANCIAL DEPARTMENT.

NOTIFICATION.

SEPARATE REVENUE—POST OFFICE.

Simla, the 27th July 1877.

NO. 2196.—Under the powers vested in him by Sections 20 and 22 of the Post Office Act of 1866, the Governor-General of India in Council is pleased to declare that the rates of postage chargeable on inland parcels and on inland packets of books and other articles shall be those hereunder mentioned, viz.—

On parcels: 8 annas if the parcel does not exceed 40 tolas in weight: and 4 annas additional for every additional 40 tolas or fraction thereof.

On packets: 1 anna if the packet does not exceed 10 tolas in weight, 2 annas if it exceeds 10 tolas and does not exceed 40 tolas, and 2 annas additional for every additional 40 tolas or fraction thereof.

The foregoing rates shall be subject to the existing regulations concerning the compulsory prepayment of packets and the packing of them with open ends.

No alteration is made in the present scale of charges* leviable on packets transmitted on Her Majesty's Service; but in lieu of the present

scale of charges leviable on parcels transmitted on Her Majesty's Service, under the official correspondence rules, there shall be charged on every such service parcel the same amount as that chargeable on a service packet of like weight together with 4 annas for registration. Thus for a service parcel exceeding 20 and not exceeding 30 tolas there shall be charged 3 annas (service packet rate) together with 4 annas, or a total of 7 annas. The prepayment of service packets shall continue to be compulsory, and that of service parcels shall continue to be optional.

This order shall have effect in respect of all parcels and packets posted on and after the 1st September 1877.

R. B. CHAPMAN, Secy. to the Govt. of India.

•PART V.

Act of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 19th July 1877, and is hereby promulgated for general information:—

ACT No. XV of 1877.

THE INDIAN LIMITATION ACT, 1877.

CONTENTS.●

PREAMBLE.

PART I.

PRELIMINARY.

SECTIONS.

1. Short title.
Extent of Act.
Commencement.
2. Repeal of Act IX of 1871. :
References to Act IX of 1871. :
Saving of titles already acquired.
Saving of Act IX of 1872, section 25.
Suits for which period prescribed by this
Act is shorter than that prescribed by
Act IX of 1871.
3. Interpretation clause.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS.

SECTIONS.

4. Dismissal of suits, &c., instituted, &c., after period of limitation.
5. Proviso where Court is closed when period expires.
Proviso as to appeals and application for review.
6. Special and local laws of limitation.
7. Legal disability.
Double and successive disabilities.
Disability of representative.
8. Disability of one joint creditor.
9. Continuous running of time.
10. Suits against express trustees and their representatives.
11. Suits on foreign contracts.
Foreign limitation law.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

12. Exclusion of day on which right to sue accrues.
Exclusion in case of appeals and certain applications.
13. Exclusion of time of defendant's absence from British India.
14. Exclusion of time of proceeding *bond fide* in Court without jurisdiction.

SECTIONS.

- Like exclusion in case of order under Civil Procedure Code, section 20.
 Like exclusion in case of application.
15. Exclusion of time during which commencement of suit is stayed by injunction or order.
 16. Exclusion of time during which judgment-debtor is attempting to set aside execution-sale.
 17. Effect of death before right to sue accrues.
 18. Effect of fraud.
 19. Effect of acknowledgment in writing.
 20. Effect of payment of interest as such.
 Effect of part-payment of principal.
 Effect of receipt of produce of mortgaged land.
 21. One of several joint contractors, &c., not chargeable by reason of acknowledgment or payment made by another of them.
 22. Effect of substituting or adding new plaintiff or defendant.
 Proviso where original plaintiff dies.
 Proviso where original defendant dies.
 23. Continuing breaches and wrongs.
 24. Suit for compensation for act not actionable without special damage.
 25. Computation of time mentioned in instruments.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

26. Acquisition of right to easements.
27. Exclusion in favour of reversioner of servient tenement.
28. Extinguishment of right to property.

FIRST SCHEDULE.

REPEALS.

SECOND SCHEDULE.

I.—SUITS. II.—APPEALS. III.—APPLICATIONS.

An Act for the limitation of suits and for other purposes.

WHEREAS it is expedient to amend the law relating to the limitation of suits, appeals, and certain applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows.

PART I.

PRELIMINARY.

Short title.

1. This Act may be called "The Indian Limitation Act, 1877."

It extends to the whole of British India; but
 Extent of Act. nothing contained in sections two and three or in Parts II and III applies—

(a) to suits under the Indian Divorce Act, or
 (b) to suits under Madras Regulation VI of 1831;

Commencement. And it shall come into force on the first day of October 1877.

2. On and from that day the Acts mentioned in the first schedule hereto annexed shall be repealed to the extent therein specified.

But all references to the Indian Limitation Act, 1871, shall be read as if made to this Act; and nothing herein or in that Act contained shall be deemed to affect any title acquired, or to revive any right to sue barred, under that Act or under any enactment thereby repealed; and nothing herein contained shall be deemed to affect the Indian Contract Act, section 25.

Notwithstanding anything herein contained, any suit mentioned in No. 146 of the second schedule hereto annexed may be brought within five years next after the said first day of October 1877, unless where the period prescribed for such suit by the said Indian Limitation Act, 1871, shall have expired before the completion of the said five years; and any other suit for which the period of limitation prescribed by this Act is shorter than the period of limitation prescribed by the said Indian Limitation Act, 1871, may be brought within two years next after the said first day of October 1877, unless where the period prescribed for such suit by the same Act shall have expired before the completion of the said two years.

3. In this Act, unless there be something repugnant in the subject or context—

Interpretation clause.

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue; 'applicant' includes also any person from or through whom an applicant derives his right to apply; and 'defendant' includes also any person from or through whom a defendant derives his liability to be sued:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or any thing growing in, or attached to, or subsisting upon the land of another:

'bill of exchange' includes also a hundi and cheque:

'bond' includes any instrument whereby a person obliges himself to pay money to another, on condition that the obligation shall be void if a specified act is performed, or is not performed, as the case may be:

'promissory note' means any instrument whereby the maker engages absolutely to pay a specified sum of money to another at a time therein limited, or on demand, or at sight:

'trustee' does not include a benamidar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered in British India under the law for the registration of documents in force at the time and place of executing the document, or signing the decree or order, referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS.

4. Subject to the provisions contained in sections 5 to 25 (inclusive), every suit instituted, appeal presented, and application made after the period of limitation prescribed therefor by the second schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Dismissal of suits, &c., instituted, &c., after period of limitation.
Explanation.—A suit is instituted in ordinary cases when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a.) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(b.) An appeal presented after the prescribed period is admitted and registered. The appeal shall nevertheless be dismissed.

5. If the period of limitation prescribed for any suit, appeal, or application expires on a day when the Court is closed, the suit, appeal, or application may be instituted, presented, or made on the day that the Court re-opens:

Proviso where Court is closed when period expires.
Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

6. When, by any special or local law now or hereafter in force in British India, a period of limitation is specially prescribed for any suit, appeal, or application, nothing herein contained shall affect or alter the period so prescribed.

7. If a person entitled to institute a suit or make an application be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period, after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the second schedule hereto annexed.

Legal disability.
When he is, at the time from which the period of limitation is to be reckoned, affected by two such disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit or make the application within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

Double and successive disabilities.
When such representative is at the date of the death affected by any such disability, the rules contained in the first two paragraphs of this section shall apply.

Disability of representative.
Nothing in this section applies to suits to enforce rights of pre-emption, or shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

Illustrations.

(a.) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(b.) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c.) A right to sue accrues to Z during his minority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease.

(d.) A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(e.) A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(f.) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against

Disability of one joint creditor.

them all: but where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

Illustrations.

(a.) A incurs a debt to a firm of which B, C, and D, are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C, and D.

(b.) A incurs a debt to a firm of which E, F, and G, are partners. E and F are insane and G is a minor. Time will not run against any of them until either E or F becomes sane or G attains majority.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his legal representatives or assigns (not being assigns for valuable consideration) for the purpose of following in his or their hands such property, shall be barred by any length of time.

11. Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

12. In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence, or order appealed against or to be sought reviewed, shall be excluded.

Where a decree is appealed against or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

13. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

14. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant, shall be excluded, where the proceeding is founded upon the same cause of action, and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 20, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

15. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

16. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

17. When a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

When a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

Nothing in the former part of this section applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

18. When any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed from him, the time limited for instituting a suit or making an application

(a) against the person guilty of the fraud or accessory thereto, or,

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

19. If, before the expiration of the period prescribed for a suit or application in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

When the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery, performance, or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform, or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section “signed” means signed either personally or by an agent duly authorized in this behalf.

20. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay

the debt or legacy, or by his agent duly authorized in this behalf,

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of the principal of a debt, the fact of the payment appears in the hand-writing of the person making the same.

Where mortgaged land is in the possession of the mortgagee, the receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

21. Nothing in sections 19 and 20 renders one of several joint contractors, partners, executors, or mortgagees chargeable by reason only of a written acknowledgment signed, or of a payment made by, or by the agent of, any other or others of them.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Provided that when a plaintiff dies, and the suit is continued by his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Provided also that when a defendant dies, and the suit is continued against his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted against the deceased defendant.

23. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

24. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Illustrations.

(a.) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsidises. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(b) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

25. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Computation of time mentioned in instruments.

Illustrations.

(a.) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(b.) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

26. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement and as of right, without interruption, and for twenty years,

Acquisition of right to easements.

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

Explanation.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act

of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a.) A suit is brought in 1881 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1860 to 1st January 1880. The plaintiff is entitled to judgment.

(b) In a like suit also brought in 1881 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1858 to 1878. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(c.) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

27. Provided that, when any land or water upon, over, or from which any easement has been enjoyed or, derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Exclusion in favour of reversioner of servient tenement.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

28. At the determination of the period hereby limited to any person for instituting a suit for possession of any property, his right to such property shall be extinguished.

Extinguishment of right to property.

THE FIRST SCHEDULE.

Number and year of Acts	Title.	Extent of Repeal.
X of 1865	The Indian Succession Act	In section 321 the words "within two years after the death of the testator, or one year after the legacy has been paid."
IX of 1871	The Indian Limitation Act, 1871.	The whole.
X of 1877	The Code of Civil Procedure.	Section 599, and in section 601 the words "within thirty days from the date of the order."

THE SECOND SCHEDULE.

(See Section 4.)

FIRST DIVISION : SUITS.

Description of suit.	Period of limitation.	Time from which period begins to run.
1.—To contest an award of the Board of Revenue under Act No. XXIII of 1863 (<i>to provide for the adjudication of claims to waste lands</i>).	<i>Part I.—Thirty days.</i> Thirty days ...	When notice of the award is delivered to the plaintiff.
2.—For compensation for doing, or for omitting to do, an act alleged to be in pursuance of any enactment in force for the time being in British India.	<i>Part II.—Ninety days.</i> Ninety days ...	When the act or omission takes place.
3.—Under the Specific Relief Act, 1877, section 9, to recover possession of immoveable property.	<i>Part III.—Six months.</i> Six months ...	When the dispossession occurs.
4.—Under Act No. IX of 1860 (<i>to provide for the speedy determination of certain disputes between workmen engaged in Railway and other public works and their employers</i>), section 1.	Ditto ...	When the wages, hire, or price of work claimed accrue or accrues due.
5.—Under the Code of Civil Procedure, Chapter XXXIX (<i>Of summary procedure on negotiable instruments</i>).	Ditto ...	When the instrument sued upon becomes due and payable.
6.—Upon a Statute, Act, Regulation or Bye-law, for a penalty or forfeiture.	<i>Part IV.—One year.</i> One year ...	When the penalty or forfeiture is incurred.
7.—For the wages of a household servant, artisan, or labourer not provided for by this schedule, No. 4.	Ditto ...	When the wages accrue due.
8.—For the price of food or drink sold by the keeper of a hotel, tavern, or lodging-house.	Ditto ...	When the food or drink is delivered.
9.—For the price of lodging	Ditto ...	When the price becomes payable.
10.—To enforce a right of pre-emption, whether the right is founded on law, or general usage, or on special contract.	Ditto ...	When the purchaser takes, under the sale sought to be impeached, physical possession of the whole of the property sold, or, where the subject of the sale does not admit of physical possession, when the instrument of sale is registered.
11.—By a person against whom an order is passed under section 280, 281, 282, or 335 of the Code of Civil Procedure, to establish his right to, or to the present possession of, the property comprised in the order.	Ditto ...	The date of the order.
12.—To set aside any of the following sales:— (a) sale in execution of a decree of a Civil Court; (b) sale in pursuance of a decree or order of a Collector or other officer of revenue; (c) sale for arrears of Government revenue, or for any demand recoverable as such arrears; (d) sale of a patni taluq sold for current arrears of rent.	Ditto ...	When the sale is confirmed, or would otherwise have become final and conclusive had no such suit been brought.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION : SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run
<i>Explanation.</i> —In this clause 'patni' includes any intermediate tenure saleable for current arrears of rent.	<i>Part IV.—One year—continued.</i>	
13.—To alter or set aside a decision or order of a Civil Court in any proceeding other than a suit.	One year	... The date of the final decision or order in the case by a Court competent to determine it finally.
14.—To set aside any act or order of an officer of Government in his official capacity, not herein otherwise expressly provided for.	Ditto	... The date of the act or order.
15.—Against Government to set aside any attachment, lease, or transfer of immoveable property by the revenue authorities for arrears of Government revenue.	Ditto	... When the attachment, lease, or transfer is made.
16.—Against Government to recover money paid under protest in satisfaction of a claim made by the revenue authorities on account of arrears of revenue or on account of demands recoverable as such arrears.	Ditto	... When the payment is made.
17.—Against Government for compensation for land acquired for public purposes.	Ditto	... The date of determining the amount of the compensation.
18.—Like suit for compensation when the acquisition is not completed.	Ditto	... The date of the refusal to complete.
19.—For compensation for false imprisonment	Ditto	... When the imprisonment ends.
20.—By executors, administrators, or representatives under Act XII of 1855 (<i>to enable the executors, administrators, or representatives to sue and be sued for certain wrongs</i>).	Ditto	... The date of the death of the person wronged.
21.—By executors, administrators, or representatives under Act No. XIII of 1855 (<i>to provide compensation to families for loss occasioned by the death of a person caused by actionable wrong</i>).	Ditto	... The date of the death of the person killed.
22.—For compensation for any other injury to the person.	Ditto	... When the injury is committed.
23.—For compensation for a malicious prosecution.	Ditto	... When the plaintiff is acquitted, or the prosecution is otherwise terminated.
24.—For compensation for libel	Ditto	... When the libel is published.
25.—For compensation for slander	Ditto	... When the words are spoken, or, if the words are not actionable in themselves, when the special damage complained of results.
26.—For compensation for loss of service occasioned by the seduction of the plaintiff's servant or daughter.	Ditto	... When the loss occurs.
27.—For compensation for inducing a person to break a contract with the plaintiff.	Ditto	... The date of the breach.
28.—For compensation for an illegal, irregular, or excessive distress.	Ditto	... The date of the distress.
29.—For compensation for wrongful seizure of moveable property under legal process.	Ditto	... The date of the seizure.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part V.—Two years.</i>		
30.—Against a carrier for compensation for losing or injuring goods.	Two years ...	When the loss or injury occurs.
31.—Against a carrier for compensation for delay in delivering goods.	Ditto ...	When the goods ought to be delivered.
32.—Against one who, having a right to use property for specific purposes, perverts it to other purposes.	Ditto ...	When the perversion first becomes known to the person injured thereby.
33.—Under Act No. XII of 1855 (<i>to enable executors, administrators, or representatives to sue and be sued for certain wrongs</i>) against an executor, administrator, or other representative.	Ditto ...	When the wrong complained of is done.
34.—For the recovery of a wife ...	Ditto ...	When possession is demanded and refused.
35.—For the restitution of conjugal rights...	Ditto ...	When restitution is demanded and is refused by the husband or wife, being of full age and sound mind.
36.—For compensation for any malfeasance, misfeasance, or nonfeasance independent of contract and not herein specially provided for.	Ditto ...	When the malfeasance, misfeasance, or nonfeasance takes place.
<i>Part VI.—Three years.</i>		
37.—For compensation for obstructing a way or a water-course.	Three years ..	The date of the obstruction.
38.—For compensation for diverting a water-course.	Ditto ...	The date of the diversion.
39.—For compensation for trespass upon immoveable property.	Ditto ...	The date of the trespass.
40.—For compensation for infringing copyright or any other exclusive privilege.	Ditto ...	The date of the infringement.
41.—To restrain waste ...	Ditto ...	When the waste begins.
42.—For compensation for injury caused by an injunction wrongfully obtained.	Ditto ...	When the injunction ceases.
43.—Under the Indian Succession Act, 1865, section 320 or 321, to compel a refund by a person to whom an executor or administrator has paid a legacy or distributed assets.	Ditto ...	The date of the payment or distribution.
44.—By a ward who has attained majority, to set aside a sale by his guardian.	Ditto ...	When the ward attains majority.
45.—To contest an award under any of the following Regulations of the Bengal Code:— VII of 1822, IX of 1825, and IX of 1833.	Ditto ...	The date of the final award or order in the case.
46.—By a party bound by such award to recover any property comprised therein.	Ditto ...	The date of the final award or order in the case.
47.—By any person bound by an order respecting the possession of property made under the Code of Criminal Procedure, Chapter XL, or the Bombay Mamltdars' Courts' Act, or by any one claiming under such person, to recover the property comprised in such order.	Ditto ...	The date of the final order in the case.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—continued.</i>		
48.—For specific moveable property lost, or acquired by theft, or dishonest misappropriation or conversion, or for compensation for wrongfully taking or detaining the same.	Three years ...	When the person having the right to the possession of the property first learns in whose possession it is.
49.—For other specific moveable property, or for compensation for wrongfully taking or injuring or wrongfully detaining the same.	Ditto ...	When the property is wrongfully taken or injured, or when the detainer's possession becomes unlawful.
50.—For the hire of animals, vehicles, boats, or household furniture.	Ditto ...	When the hire becomes payable.
51.—For the balance of money advanced in payment of goods to be delivered.	Ditto ...	When the goods ought to be delivered.
52.—For the price of goods sold and delivered, where no fixed period of credit is agreed upon.	Ditto ...	The date of the delivery of the goods.
53.—For the price of goods sold and delivered to be paid for after the expiry of a fixed period of credit.	Ditto ...	When the period of credit expires.
54.—For the price of goods sold and delivered to be paid for by a bill of exchange, no such bill being given.	Ditto ...	When the period of the proposed bill elapses.
55.—For the price of trees or growing crops sold by the plaintiff to the defendant where no fixed period of credit is agreed upon.	Ditto ...	The date of the sale.
56.—For the price of work done by the plaintiff for the defendant at his request, where no time has been fixed for payment.	Ditto ...	When the work is done.
57.—For money payable for money lent ..	Ditto ...	When the loan is made.
58.—Like suit when the lender has given a cheque for the money.	Ditto ...	When the cheque is paid.
59.—For money lent under an agreement that it shall be payable on demand.	Ditto ...	When the loan is made.
60.—For money deposited under an agreement that it shall be payable on demand.	Ditto ...	When the demand is made.
61.—For money payable to the plaintiff for money paid for the defendant.	Ditto ...	When the money is paid.
62.—For money payable by the defendant to the plaintiff for money received by the defendant for the plaintiff's use.	Ditto ...	When the money is received.
63.—For money payable for interest upon money due from the defendant to the plaintiff.	Ditto ...	When the interest becomes due.
64.—For money payable to the plaintiff for money found to be due from the defendant to the plaintiff on accounts stated between them.	Ditto ...	When the accounts are stated in writing signed by the defendant or his agent duly authorised in this behalf, unless where the debt is, by a simultaneous agreement in writing signed as aforesaid, made payable at a future time, and then when that time arrives.
65.—For compensation for breach of a promise to do anything at a specified time, or upon the happening of a specified contingency.	Ditto ...	When the time specified arrives or the contingency happens.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	• Period of limitation.	Time from which period begins to run.
<i>Part VI—Three years—continued.</i>		
66.—On a single bond where a day is specified for payment.	Three years ...	The day so specified.
67.—On a single bond where no such day is specified.	Ditto ...	The date of executing the bond.
68.—On a bond subject to condition ...	Ditto ...	When the condition is broken.
69.—On a bill of exchange or promissory note payable at a fixed time after date.	Ditto ...	When the bill or note falls due.
70.—On a bill of exchange payable at sight or after sight, but not at a fixed time.	Ditto ...	When the bill is presented.
71.—On a bill of exchange accepted payable at a particular place.	Ditto ...	When the bill is presented at that place.
72.—On a bill of exchange or promissory note payable at a fixed time after sight or after demand.	Ditto ...	When the fixed time expires.
73.—On a bill of exchange or promissory note payable on demand and not accompanied by any writing restraining or postponing the right to sue.	Ditto ...	The date of the bill or note.
74.—On a promissory note or bond payable by instalments.	Ditto ...	The expiration of the first term of payment, as to the part then payable; and, for the other parts, the expiration of the respective terms of payment.
75.—On a promissory note or bond payable by instalments, which provides that, if default be made in payment of one instalment, the whole shall be due.	Ditto ...	When the first default is made, unless where the payee or obligee waives the benefit of the provision, and then when fresh default is made in respect of which there is no such waiver.
76.—On a promissory note given by the maker to a third person to be delivered to the payee after a certain event should happen.	Ditto ...	The date of the delivery to the payee.
77.—On a dishonoured foreign bill where protest has been made and notice given.	Ditto ...	When the notice is given.
78.—By the payee against the drawer of a bill of exchange which has been dishonoured by non-acceptance.	Ditto ...	The date of the refusal to accept.
79.—By the acceptor of an accommodation-bill against the drawer.	Ditto ...	When the acceptor pays the amount of the bill.
80.—Suit on a bill of exchange, promissory note, or bond not herein expressly provided for.	Ditto ...	When the bill, note, or bond becomes payable.
81.—By a surety against the principal debtor	Ditto ...	When the surety pays the creditor.
82.—By a surety against a co-surety ...	Ditto ...	When the surety pays anything in excess of his own share.
83.—Upon any other contract to indemnify	Ditto ...	When the plaintiff is actually damnified.
84.—By an attorney or vakil for his costs of a suit or a particular business, there being no express agreement as to the time when such costs are to be paid.	Ditto ...	The date of the termination of the suit or business, or (where the attorney or vakil properly discontinues the suit or business) the date of such discontinuance.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—continued.</i>		
85.—For the balance due on a mutual, open and current account, where there have been reciprocal demands between the parties.	Three years ...	The close of the year in which the last item admitted or proved is entered in the account; such year to be computed as in the account.
86.—On a policy of insurance when the sum assured is payable immediately after proof of the death or loss has been given to or received by the insurers.	Ditto ...	When proof of the death or loss is given or received to or by the insurers, whether by or from the plaintiff, or any other person.
87.—By the assured to recover premia paid under a policy voidable at the election of the insurers.	Ditto ...	When the insurers elect to avoid the policy.
88.—Against a factor for an account ...	Ditto ...	When the account is, during the continuance of the agency, demanded and refused, or where no such demand is made, when the agency terminates.
89.—By a principal against his agent for moveable property received by the latter and not accounted for.	Ditto ...	Ditto.
90.—Other suits by principals against agents for neglect or misconduct.	Ditto ...	When the neglect or misconduct becomes known to the plaintiff.
91.—To cancel or set aside an instrument not otherwise provided for.	Ditto ...	When the facts entitling the plaintiff to have the instrument cancelled or set aside become known to him.
92.—To declare the forgery of an instrument issued or registered.	Ditto ...	When the issue or registration becomes known to the plaintiff.
93.—To declare the forgery of an instrument attempted to be enforced against the plaintiff.	Ditto ...	The date of the attempt.
94.—For property which the plaintiff has conveyed while insane.	Ditto ...	When the plaintiff is restored to sanity, and has knowledge of the conveyance.
95.—To set aside a decree obtained by fraud, or for other relief on the ground of fraud.	Ditto ...	When the fraud becomes known to the party wronged.
96.—For relief on the ground of mistake ...	Ditto ...	When the mistake becomes known to the plaintiff.
97.—For money paid upon an existing consideration which afterwards fails.	Ditto ...	The date of the failure.
98.—To make good out of the general estate of a deceased trustee the loss occasioned by a breach of trust.	Ditto ...	The date of the trustee's death, or, if the loss has not then resulted, the date of the loss.
99.—For contribution by a party who has paid the whole amount due under a joint decree, or by a sharer in a joint estate who has paid the whole amount of revenue due from himself and his co-sharers.	Ditto ...	The date of the plaintiff's advance in excess of his own share.
100.—By a co-trustee to enforce against the estate of a deceased trustee a claim for contribution.	Ditto ...	When the right to contribution accrues.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION : SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—concluded.</i>		
101.—For a seaman's wages ...	Three years ...	The end of the voyage during which the wages are earned.
102.—For wages not otherwise expressly provided for by this schedule.	Ditto ...	When the wages accrue due.
103.—By a Muhammadan for exigible dower (<i>mu'ajjal</i>).	Ditto ...	When the dower is demanded and refused, or (where during the continuance of the marriage no such demand has been made) when the marriage is dissolved by death or divorce.
104.—By a Muhammadan for deferred dower (<i>mu'wajjal</i>).	Ditto ...	When the marriage is dissolved by death or divorce.
105.—By a mortgagor after the mortgage has been satisfied, to recover surplus collections received by the mortgagee.	Ditto ...	When the mortgagor re-enters on the mortgaged property.
106.—For an account and a share of the profits of a dissolved partnership.	Ditto ...	The date of the dissolution.
107.—By the manager of a joint estate of an undivided family for contribution in respect of a payment made by him on account of the estate.	Ditto ...	The date of the payment.
108.—By a lessor for the value of trees cut down by his lessee contrary to the terms of the lease.	Ditto ...	When the trees are cut down.
109.—For the profits of immoveable property belonging to the plaintiff which have been wrongfully received by the defendant.	Ditto ...	When the profits are received, or, where the plaintiff has been dispossessed by a decree afterwards set aside on appeal, when he recovers possession.
110.—For arrears of rent ...	Ditto ...	When the arrears become due.
111.—By a vendor of immoveable property to enforce his lien for unpaid purchase-money.	Ditto ...	The time fixed for completing the sale, or (where the title is accepted after the time fixed for completion), the date of the acceptance.
112.—For a call by a company registered under any Statute or Act.	Ditto ...	When the call is payable.
113.—For specific performance of a contract.	Ditto ...	The date fixed for the performance, or, if no such date is fixed, when the plaintiff has notice that performance is refused.
114.—For the rescission of a contract ...	Ditto ...	When the facts entitling the plaintiff to have the contract rescinded first become known to him.
115.—For compensation for the breach of any contract, express or implied, not in writing registered, and not herein specially provided for.	Ditto ...	When the contract is broken, or (where there are successive breaches) when the breach in respect of which the suit is instituted occurs, or (where the breach is continuing) when it ceases.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VII.—Six years.</i>		
116.—For compensation for the breach of a contract in writing registered.	Six years ...	When the period of limitation would begin to run against a suit brought on a similar contract not registered.
117.—Upon a foreign judgment as defined in the Code of Civil Procedure.	Ditto ...	The date of the judgment.
118.—To obtain a declaration that an alleged adoption is invalid, or never in fact took place.	Ditto ...	When the alleged adoption becomes known to the plaintiff.
119.—To obtain a declaration that an adoption is valid.	Ditto ...	When the rights of the adopted son as such are interfered with.
120.—Suit for which no period of limitation is provided elsewhere in this schedule.	Ditto ...	When the right to sue accrues.
<i>Part VIII.—Twelve years.</i>		
121.—To avoid incumbrances or under-tenures in an entire estate sold for arrears of Government revenue, or in a <i>patni taluq</i> or other saleable tenure sold for arrears of rent.	Twelve years ...	When the sale becomes final and conclusive.
122.—Upon a judgment obtained in British India, or a recognizance.	Ditto ...	The date of the judgment or recognizance.
123.—For a legacy or for a share of a residue bequeathed by a testator, or for a distributive share of the property of an intestate.	Ditto ...	When the legacy or share becomes payable or deliverable.
124.—For possession of an hereditary office.	Ditto ...	When the defendant takes possession of the office adversely to the plaintiff. <i>Explanation.</i> —An hereditary office is possessed when the profits thereof are usually received, or (if there are no profits) when the duties thereof are usually performed.
125.—Suit during the life of a Hindú or Muhammadan female by a Hindú or Muhammadan who, if the female died at the date of instituting the suit, would be entitled to the possession of land, to have an alienation of such land made by the female declared to be void except for her life or until her remarriage.	Ditto ...	The date of the alienation.
126.—By a Hindú governed by the law of the Mitákshará to set aside his father's alienation of ancestral property.	Ditto ...	When the alienee takes possession of the property.
127.—By a person excluded from joint-family property to enforce a right to share therein.	Ditto ...	When the exclusion becomes known to the plaintiff.
128.—By a Hindú for arrears of maintenance.	Ditto ...	When the arrears are payable.
129.—By a Hindú for a declaration of his right to maintenance.	Ditto ...	When the right is denied.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<p style="text-align: center;"><i>Part VIII.— Twelve years— continued.</i></p>		
130.—For the resumption or assessment of rent-free land.	Twelve years ...	When the right to resume or assess the land first accrues.
131.—To establish a periodically recurring right.	Ditto ...	When the plaintiff is first refused the enjoyment of the right.
132.—To enforce payment of money charged upon immoveable property. <i>Explanation.</i> —The allowance and fees respectively called <i>málikána</i> and <i>haqq</i> shall, for the purpose of this clause, be deemed to be money charged upon immoveable property.	Ditto ...	When the money sued for becomes due.
133.—To recover moveable property conveyed or bequeathed in trust, deposited or pawned, and afterwards bought from the trustee, depositary, or pawnee for a valuable consideration.	Ditto ...	The date of the purchase.
134.—To recover possession of immoveable property conveyed or bequeathed in trust or mortgaged and afterwards purchased from the trustee or mortgagee for a valuable consideration.	Ditto ...	Ditto.
135.—Suit instituted in a Court not established by Royal Charter by a mortgagee for possession of immoveable property mortgaged.	Ditto ...	When the mortgagor's right to possession determines.
136.—By a purchaser at a private sale for possession of immoveable property sold, when the vendor was out of possession at the date of the sale.	Ditto ...	When the vendor is first entitled to possession.
137.—Like suit by a purchaser at a sale in execution of a decree, when the judgment-debtor was out of possession at the date of the sale.	Ditto ...	When the judgment-debtor is first entitled to possession.
138.—By a purchaser of land at a sale in execution of a decree, for possession of the purchased land, when the judgment-debtor was in possession at the date of the sale.	Ditto ...	The date of the sale.
139.—By a landlord to recover possession from a tenant.	Ditto ...	When the tenancy is determined.
140.—By a remainderman, a reversioner (other than a landlord), or a devisee, for possession of immoveable property.	Ditto ...	When his estate falls into possession.
141.—Like suit by a Hindú or Muhammadan entitled to the possession of immoveable property on the death of a Hindú or Muhammadan female.	Ditto ...	When the female dies.
142.—For possession of immoveable property, when the plaintiff, while in possession of the property, has been dispossessed or has discontinued the possession.	Ditto ...	The date of the dispossession or discontinuance.
143.—Like suit, when the plaintiff has become entitled by reason of any forfeiture or breach of condition.	Ditto ...	When the forfeiture is incurred or the condition is broken.
144.—For possession of immoveable property or any interest therein not hereby otherwise specially provided for.	Ditto ...	When the possession of the defendant becomes adverse to the plaintiff.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*concluded.*

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part IX.— Thirty years.</i>	
145.—Against a depositary or pawnee to recover moveable property deposited or pawned.	Thirty years ...	The date of the deposit or pawn.
146.—Before a Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction by a mortgagee to recover from the mortgagor the possession of immoveable property mortgaged.	Ditto ...	When any part of the principal or interest was last paid on account of the mortgage debt.
	<i>Part X.— Sixty years.</i>	
147.—By a mortgagee for foreclosure or sale.	Sixty years ...	When the money secured by the mortgage becomes due.
148.—Against a mortgagee to redeem or to recover possession of immoveable property mortgaged.	Ditto ...	When the right to redeem or to recover possession accrues. Provided that all claims to redeem, arising under instruments of mortgage of immoveable property situate in British Burma, which have been executed before the first day of May, 1863, shall be governed by the rules of limitation in force in that province immediately before the same day.
149.—Any suit by or on behalf of the Secretary of State for India in Council.	Ditto ...	When the period of limitation would begin to run under this Act against a like suit by a private person.

SECOND DIVISION: APPEALS.

Description of appeal.	Period of limitation.	Time from which period begins to run.
150.—Under the Code of Criminal Procedure from a sentence of death passed by a Sessions Judge.	Seven days ...	The date of the sentence.
151.—From a decree or order of any of the High Courts of Judicature at Fort William, Madras, and Bombay in the exercise of its original jurisdiction.	Twenty days ...	The date of the decree or order.
152.—Under the Code of Civil Procedure to the Court of a District Judge.	Thirty days ...	The date of the decree or order appealed against.
153.—Under the same Code, section 601, to a High Court.	Ditto ...	The date of the order refusing the certificate.
154.—Under the Code of Criminal Procedure to any Court other than a High Court.	Ditto ...	The date of the sentence or order appealed against.
155.—Under the same Code to a High Court, except in the cases provided for by No. 150 and No. 157.	Sixty days ...	Ditto.
156.—Under the Code of Civil Procedure to a High Court except in the cases provided for by No. 151 and No. 153.	Ninety days ...	The date of the decree or order appealed against.
157.—Under the Code of Criminal Procedure from a judgment of acquittal.	Six months ...	The date of the judgment appealed against.

THE SECOND SCHEDULE—continued.

THIRD DIVISION : APPLICATIONS.

Description of application.	Period of limitation.	Time from which period begins to run.
158.—Under the Code of Civil Procedure to set aside an award.	Ten days ...	When the award is submitted to the Court.
159.—For leave to appear and defend a suit under Chapter XXXIX of the Code of Civil Procedure.	Ditto ...	When the summons is served.
160.—For an order under section 629 of the same Code restoring to the file a rejected application for review.	Fifteen days ...	When the application for review is rejected.
161.—For an order under section 258 of the same Code compelling a decree-holder to certify payment or adjustment.	Ditto ...	When the payment or adjustment is made.
162.—For a review of judgment by any of the High Courts of Judicature at Fort William, Madras, and Bombay in the exercise of its original jurisdiction.	Twenty days ...	The date of the decree or order.
163.—By a plaintiff for an order to set aside a dismissal by default.	Thirty days ...	The date of the dismissal.
164.—By a defendant for an order to set aside a judgment <i>ex parte</i> .	Ditto ...	The date of executing any process for enforcing the judgment.
165.—Under the Code of Civil Procedure, by a person dispossessed of immoveable property, and disputing the right of the decree-holder or purchaser at a sale in execution of a decree to be put into possession.	Ditto ...	The date of the dispossession.
166.—To set aside a sale in execution of a decree on the ground of irregularity in publishing or conducting the sale.	Ditto ...	The date of the sale.
167.—Complaining of resistance or obstruction to delivery of possession of immoveable property decreed or sold in execution of a decree, or of dispossession in the delivery of possession to the decree-holder or the purchaser of such property.	Ditto ...	The date of the resistance, obstruction, or dispossession.
168.—For re-admission of an appeal dismissed for want of prosecution.	Ditto ...	The date of the dismissal.
169.—For a re-hearing of an appeal heard <i>ex parte</i> in the absence of the respondent.	Ditto ...	The date of the decree in appeal.
170.—For leave to appeal as a pauper ...	Ditto ...	The date of the decree appealed against.
171.—Under section 363 or 365 of the Code of Civil Procedure by a person claiming to be the legal representative of a deceased plaintiff.	Sixty days ...	The date of the plaintiff's death.
172.—By a purchaser at an execution sale to set aside the sale on the ground that the person whose interest in the property purported to be sold had no saleable interest therein.	Ditto ...	The date of the sale.
173.—For a review of judgment, except in the cases provided for by No. 162.	Ninety days ...	The date of the decree or order.
174.—By a creditor of an insolvent judgment-debtor under section 353 of the Code of Civil Procedure.	Ditto ...	The date of the publication of the schedule.
175.—For payment of the amount of a decree by instalments.	Six months ...	The date of the decree.
176.—Under the Code of Civil Procedure, section 516 or 525, that an award be filed in Court.	Ditto ...	The date of the award.

THE SECOND SCHEDULE—*continued.*THIRD DIVISION : APPLICATIONS—*continued.*

Description of application.	Period of limitation.	Time from which period begins to run.
177.—For the admission of an appeal to Her Majesty in Council.	Six months ...	The date of the decree appealed against.
178.—Applications for which no period of limitation is provided elsewhere in this schedule, or by the Code of Civil Procedure, section 230.	Three years ...	When the right to apply accrues.
179.—For the execution of a decree or order of any Civil Court not provided for by No. 180, or by the Code of Civil Procedure, section 230.	Ditto; or where a certified copy of the decree or order has been registered, six years.	<p>1. The date of the decree or order, or</p> <p>2. (where there has been an appeal) the date of the final decree or order of the Appellate Court, or</p> <p>3. (where there has been a review of judgment) the date of the decision passed on the review, or</p> <p>4. (where the application, next hereinafter mentioned has been made) the date of applying in accordance with law to the proper Court for execution, or to take some step in aid of execution of the decree or order, or</p> <p>5. (where the notice next hereinafter mentioned has been issued) the date of issuing a notice under the Code of Civil Procedure, section 248, or</p> <p>6. (where the application is to enforce any payment which the decree or order directs to be made at a specified date) the date so specified.</p> <p><i>Explanation I.</i>—Where the decree or order has been passed severally in favour of more persons than one, distinguishing portions of the subject-matter as payable or deliverable to each, the application mentioned in clause 4 of this Number shall take effect in favour only of such of the said persons or their representatives as it may be made by. But when the decree or order has been passed jointly in favour of more persons than one, such application, if made by any one or more of them, or by his or their representatives, shall take effect in favour of them all.</p> <p>Where the decree or order has been passed severally against more persons than one, distinguishing portions of the subject-matter</p>

THE SECOND SCHEDULE—*concluded.*THIRD DIVISION : APPLICATIONS—*concluded.*

Description of application.	Period of limitation.	Time from which period begins to run.
<p>180.—To enforce a judgment, decree, or order of any Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction, or an order of Her Majesty in Council.</p>	<p>Twelve years ...</p>	<p>as payable or deliverable by each, the application shall take effect against only such of the said persons or their representatives as it may be made against. But where the decree or order has been passed jointly against more persons than one, the application, if made against any one or more of them, or against his or their representatives, shall take effect against them all.</p> <p><i>Explanation II.</i>—"Proper Court" means the Court whose duty it is (whether under section 226 or 227 of the Code of Civil Procedure or otherwise) to execute the decree or order.</p> <p>When a present right to enforce the judgment, decree, or order accrues to some person capable of releasing the right : Provided that when the judgment, decree, or order has been revived, or some part of the principal money secured thereby, or some interest on such money has been paid, or some acknowledgment of the right thereto has been given in writing, signed by the person liable to pay such principal or interest, or his agent, to the person entitled thereto or his agent, the twelve years shall be computed from the date of such revivor, payment, or acknowledgment, or the latest of such revivors, payments, or acknowledgments, as the case may be.</p>

ENQUIRY INTO THE THEORY OF EPIDEMIC FEVER BEING CAUSED SOLELY BY OBSTRUCTIONS TO NATURAL DRAINAGE.

FINANCIAL DEPARTMENT.—SANITATION.

Calcutta, the 31st July 1877.

READ again the following papers:—

Memorandum by Rajah Digumber Mitter, C.S.I., dated the 16th December 1876, adducing instances in support of his theory that the sole cause of the epidemic fever which of late years has prevailed in the districts round Calcutta lies in the obstructions caused to the natural drainage of the country by the construction of railways, roads, and embankments.

Minute recorded by Sir Richard Temple, dated the 5th January 1877, on the subject. Sanitation Collection I, January 1877, Nos. 3 to 7.

Sanitation Collection I, February 1877, Nos. 10 to 14.

Sanitation Collection I, March 1877, Nos. 23 to 27, relative to the appointment of a special committee, consisting of the following gentlemen, to inquire into the obstructions to the drainage in the districts around Calcutta, and to make a careful inspection of the general features of the fever-stricken tract, after consulting all the reports that had been written on the subject of the fever, viz.—

The Sanitary Commissioner for Bengal ... *President.*

Mr. J. Whitfield, C.E., Executive Engineer,
Baboo Amrita Lal Mozoomdar, Assistant Surgeon,
Baboo Peari Mohun Mookerjee, } *Members.*

The District Magistrates, Executive Engineers, and Civil Surgeons of Howrah, Hooghly, Burdwan, Nuddea, Jessore, and 24-Pargunnahs,—*ex officio* members, as far as their own districts are concerned.

Deputy Collector Baboo Hem Ohunder Kerr, Member and Secretary

Letter from the Sanitary Commissioner for Bengal, No. 594MI, dated the 15th May 1877.

Letter to the Sanitary Commissioner for Bengal, No. 1628, dated the 29th May 1877.

Read—

The Report of the Committee of Inquiry, dated the 4th July 1877.

At the outset of the proceedings the Sanitary Commissioner reported that in the absence of precise definition of the limits of the investigation, the work before the Committee was one of very great magnitude, while at the same time it appeared that Rajah Digumber Mitter and his friends were opposed to any lengthened investigation, believing that the truth of their theory was already fully established, and that it only remained for Government to take action to secure the proper drainage of villages. Dr. Lethbridge, while unable to accept the view that dampness of subsoil could be the sole and only cause of the fever, or that this dampness, which is general in Lower Bengal, had been brought about by roads and railways, yet thought that while inquiring into the causes of the dampness in the tracts subject to the epidemic fever, which was an admitted factor in the production of the disease, the Committee might set itself to devise a general scheme for providing sufficient drainage for this tract, and he suggested that the engineering element on the Committee should be strengthened for the purposes of an inquiry of this nature.

2. In reply to this proposal the Lieutenant-Governor observed that while Rajah Digumber Mitter's theory was possibly right in some respects, artificial obstructions having in many cases occasioned, and in others aggravated, the outbreak of fever, it had nevertheless been repeatedly demonstrated that the fever had prevailed in villages and in parts of the country on which roads and railways had had no possible influence. At the same time, much had already been done in the way of devising drainage schemes in both Hooghly and Burdwan. Less than two years ago a commission had been appointed for this very purpose, but general drainage works had nevertheless not been undertaken, simply because all such schemes were practically impossible. Special schemes under special laws had been carried out, and might still be taken up if the funds were forthcoming and good reason shown in each particular case. It was impossible for Government to undertake drainage works except at the invitation and with the co-operation of the landholders and others concerned. Admitting, however, that the question of drainage was of the highest importance, and that the present Committee might throw some further light on it by minute local inquiry, the Lieutenant-Governor requested them to examine, in the first instance, the specific localities of Shibpore, Bally, and Connagore, referred to in the Rajah's memorandum, in order that it might be seen from their investigations there whether there were grounds for continuing the investigation.

3. The report of the Committee has now been received, and it leaves matters exactly in the position described in the above letter. As regards the particular instances of artificially obstructed drainage referred to by Rajah Digumber Mitter in support of his special views, the facts ascertained by the Committee do not bear out his theory. But neither, on the other hand, do they disprove the position that the saturation of the subsoil in the Deltaic districts of Bengal is one chief cause of fever, or that this saturation may have been aggravated of late years by both natural and artificial changes.

4. Even were the measures which Government ought to adopt clear and indisputable, the present financial condition of the province prevents it from undertaking anything like a general system of district drainage at the cost of the public revenues. But if in any particular case it is found that improvement can be effected by means of manageable local schemes, and that those benefited are willing and able to pay for the necessary works, Government will be very ready to assist such enterprise by every means in its power. The Embankment Act [VI (B.C.) of 1873] leaves ample power of initiation to the local authorities, and even minor obstructions, such as those described by Sir William Herschel in his note appended to the report of the Committee, may and ought to be removed under the provisions of that Act.

5. For the rest, all that Government can do is to warn its Public Works Department to see that in all projects for roads careful attention is paid to this question of drainage, and if in any place it is found that existing roads

and works injuriously affect the outfall, such measures as are practicable must be taken to remedy the defect.

6. The thanks of Government are due to the members of the Committee, official and non-official, for the trouble they have taken in carrying out the work assigned to them. It is not, however, necessary that they should continue their sittings.

ORDERED—That this resolution, together with the papers read above, (with the exception of Sanitation Collection I, for January, February, and March,) be published in the *Calcutta Gazette*.

ORDERED also that a copy of this resolution be forwarded to the Secretary to this Government in the Public Works Department for information, with special reference to the fifth paragraph, and to Rajah Digumber Mitter, C.S.I., and the Sanitary Commissioner for Bengal for information.

Also to the Board of Revenue and the Commissioner of the Burdwan Division for information.

Memorandum by RAJAH DIGUMBER MITTER, C.S.I., showing the manner in which impediments have been offered to the drainage of some of the villages out of many.—Calcutta, the 16th December 1876.

Seebpore—Situate opposite Fort William. The impediment to the drainage of this village has been offered by the filling up of a big drain which was called the Chowdhry's Gurh. This was done by the Howrah Municipality between April and June of 1873, and the fever broke out in September following.

Bally.—The drainage of the village is interfered with by the construction of a metalled road about four years ago from the railway station running southward, crossing the drainage channel of the village. This road was kutchha before, and the monsoon water made its way to its outfall—the Bally Khal—by making several breaches in the road, which, having been filled up without substituting culverts for them, and the pukka road being much higher and stronger, the drainage cannot make its way over and through it into the khall, as it did when the road was kutchha.

Besides this, the surplus low lands on either side of the railway line having been recently sold by Government, their present owners have converted them into tanks and gardens, offering additional obstruction to the passage of the drainage through them into the khall.

The drainage is also obstructed by a number of kutchha roads which have been constructed recently.

Connagore—Situate within the Municipality of Serampore. The drainage of this place ultimately discharged itself into its natural outfall, the Bally Khal. Obstructions have been offered to the drainage in the interior of the village by roads without culverts crossing the drainage channel, by the gradual silting up of the drains, and their encroachment by the owners of the adjoining gardens. Lastly, the surplus railway lands through which the drainage ultimately made its way into its natural outfall, the Bally Khal, having been sold by Government about three years ago, their present owners have converted them into tanks and gardens, thus cutting off the village completely from its outfall. When in June last I had the honor of sending a similar memorandum to His Honor, I observed in respect of this village: "It is apprehended that the epidemic will break out with greater virulence after the next rainy season than it has done before." I am sorry to say that my prediction has been fully verified. Those that can afford are removing from the village.

The Eastern Bengal Railway has intercepted the drainage of these villages from finding its way into bheels Burroti and Muthoora. These places, which were noted for their healthiness, after passing through the active stage of the epidemic fever which broke out within a year or two of the construction of the railway embankment alongside of them, have, like Choonakhally, Bhatpara, Cossimbazar, Kalkapore, Bamunghatta, and Sydabad, lapsed into a chronic state of unhealthiness.

A line of villages extending from Itchapore, adjoining the Nawabgunge Powder Manufactory, to Chogdah.

Minute by the Lieutenant-Governor of Bengal, dated the 5th January 1877.

A VERY general impression prevails among many native gentlemen of position and intelligence in Bengal that the disastrous fever which frequently breaks out in the districts round Calcutta is attributable to the obstructed drainage of the country. This is the view which has been publicly maintained with great ability and earnestness by Baboo (now Rajah) Digumber Mitter, c.s.i. According to these gentlemen the construction of railways and roads has blocked up many channels and outlets through which the drainage of the country formerly flowed. I have had the advantage of personally discussing the subject with Rajah Digumber Mitter, and he has at my request furnished me with a memorandum giving, in support of his theory, a number of instances in which, as he contends, the fever is plainly and directly attributable to obstructed drainage. A copy of this memorandum is annexed to this minute. There is undoubtedly a great deal of *prima facie* evidence in support of the Rajah's theory; and the subject is one of such importance to the welfare of the people that I think a special Committee should be appointed to examine the localities mentioned in the Rajah's memorandum, and any other localities which the Rajah or his friends may be able to indicate. I do not of course wish the Committee to confine their attention to these localities alone; they should examine other fever-stricken villages as well, in order that any conclusion at which they may arrive may be arrived at, not from a mere casual examination of a few selected villages, but from a careful inspection of the general features of the fever-stricken tract. The Committee should also consult the various reports which have from time to time been written upon this fever, and which contain much valuable information.

The Committee will be constituted as follows:—

The Sanitary Commissioner for Bengal.

An irrigation officer of the rank of an Executive Engineer, to be selected by Colonel Haig.

A Native Assistant Surgeon, to be nominated by the Surgeon-General.

Baboo Hem Chunder Kerr, Deputy Collector, or some other Deputy Collector to be named by the Secretary in the event of Hem Chunder Kerr not immediately returning from his special deputation in Rajshahye.

Baboo Shib Chunder Deb, an ex-Deputy Collector, now residing at Howrah.

If the latter gentleman is unable to act upon the Committee, Baboo Peary Churn Mookerjee of Ooturpara may be asked to serve in his place.

A copy of this minute will be sent to Colonel Haig, Secretary, Irrigation Department, to Dr. Beatson, Surgeon-General, and to Rajah Digumber Mitter, c.s.i.

RICHARD TEMPLE.

No. 594M1, dated Calcutta, the 15th May 1877.

From—A S. LETHBRIDGE, Esq., M.D., Offg. Sanitary Commissioner for Bengal,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honor to inform you that I received charge of this office from Dr. Coates on the 7th instant.

On my arrival I found one important subject in connection with this appointment that required my immediate attention.

At Delhi, and just previous to his departure from the province, Sir Richard Temple issued orders appointing a committee to inquire into the obstructions to drainage in the districts around Calcutta, with the view chiefly of testing by local inquiry Rajah Digumber Mitter's theory regarding the causes of the severe fever which has for some years prevailed in Bengal.

A subsequent order, dated 27th February, indicates that the districts to be included in the inquiry are Howrah, Hooghly, Burdwan, Nuddea, Jessore, and the 24-Pergunnahs.

Since my arrival I have devoted most of my time to reading carefully all previous reports and correspondence on the subject, and have had the advantage of a personal interview with Rajah Degumber Mitter.

The work suggested by Sir Richard Temple's minute is of such magnitude that I regret not having had an opportunity of verbally bringing the subject in all its bearings before His Honor the Lieutenant-Governor.

At a preliminary meeting of the Committee held this morning it was resolved to submit, for the information of Government, a sketch showing the direction the inquiry ought to take, and the means to be employed for obtaining the required information. While this is under deliberation, I trust it will not be considered uncalled for if I record here the results of my unprejudiced study of the question.

The Government may be surprised to learn that Rajah Digumber Mitter and those with him who have helped for some years to keep this question before the public are opposed to any elaborate and lengthened investigation, believing, as they do, that their view has already been proved to be the right one, and therefore, according to them, it only remains for the Government to take practical action in the matter. What is meant by this is clearly stated in Rajah Digumber Mitter's pamphlet, page 5, of which the following is an extract:—

"I have already alluded to the provision in the Embankment Act of 1873 for the preservation of drainage channels, and the circular of the Board of Revenue on the subject; but they are, I humbly submit, not sufficient. There ought to be a regular organized agency for the execution of this work, so essential to the health of the people. What is required is not large expenditure of money, but a careful, constant, and minute attention to the drainage of the villages; and this attention cannot be secured unless there be an agency whose duty it shall be to report every obstruction to drainage, and to remove it wherever and whenever it may occur. This work, I think, ought to be performed by the Municipal, the Road Cess, and the Embankment establishments, acting under the orders of some central authority, be it the Sanitary Commissioner or the Superintending Engineer. The work after all belongs to the domain of what is called sanitary engineering, and if the Government, through the Public Works Department should make it a rule that the proper drainage of villages shall be maintained by the agencies I suggest, and should now and then make small contributions in aid of local funds for the execution of necessary improvements for efficient drainage, the object aimed at will, I am confident, be attained."

It was shown by the Epidemic Commission of 1864 that the fever then prevailing was of malarious origin, and that the chief factor in its development was unusual dampness of the subsoil. With one or two exceptions, all subsequent inquirers (and they have been many) are of the same opinion, and for all practical purposes it may be accepted that these two points are now established. It is when we come to account for the unusual dampness that we find a very considerable difference of opinion.

While I refrain from discussing the question here, I ought to mention that I cannot altogether accept Rajah Digumber Mitter's view of the dampness of the village subsoil itself being the sole and only cause of the fever, or that this has altogether been brought about by roads and railways; yet I am so profoundly impressed with the evidence that goes to show that long-continued dampness, at a time of the year when the soil ought to be rapidly drained of its excess of moisture, is the chief cause of unhealthiness, that I accept the Rajah's recommendations for facilitating the drainage of villages as being worthy of serious consideration.

Apart from the epidemic or severe types of malarious fevers, tropical diseases of all kinds are so directly influenced by a damp subsoil that the question of drainage in a country occupying the delta of a tropical river must be a matter of vital importance to its inhabitants, and therefore a subject of the deepest concern to its Government.

It cannot be denied that up to the present there has been no organized agency for facilitating drainage, or for restraining those who, from ignorance or self-interest, deliberately obstruct it.

If the Committee, while inquiring into the causes of the excessive dampness, could at the same time suggest reasonable means for removing it by utilising the natural drainage of the country, they would, even if they failed to elucidate the cause, confer a tangible and lasting benefit on the inhabitants of the province.

I venture to think that the Bengal Government has the power in its existing laws to organize a regular scheme for providing sufficient drainage without materially interfering with the cultivation of paddy, and I would gladly see the services of the Committee utilised for this purpose.

If the suggestion here offered was adopted, it would be necessary to increase the engineering element in the Committee by deputing a special officer for the work. At present the Committee has only the part services of an officer who has many other important duties to perform.

The extra work thrown on this office would also be very considerable; but, regarding it as a most important sanitary undertaking, I would gladly take my part in it.

No. 1628, dated Calcutta, the 29th May 1877.

From—H. J. S. COTTON, Esq., Junior Secretary to the Government of Bengal,

To—The Sanitary Commissioner, Bengal.

I AM directed to acknowledge the receipt of your letter No. 594, dated 15th May 1877, in which you discuss the functions of the Committee appointed to inquire into the obstructions to drainage around Calcutta. Your letter No. 3, dated 17th May 1877, with which you forward a copy of the preliminary proceedings of the Committee, has also been received and been laid before the Lieutenant-Governor.

2. Mr. Eden understands Sir Richard Temple's desire to have been that the Committee should inquire into and report how far Rajah Digumber Mitter's theory that the epidemic fever is exclusively attributable to artificial obstructions to the drainage of the country is true or not. The Rajah maintains that by the construction of roads and embankments the natural drainage of the country has been obstructed, and that this is the sole and only cause of the fever. But it has been demonstrated again and again that the fever has prevailed in villages and in parts of the country with which roads and railways can have had no possible concern. On the other hand, it has equally been shown that the Rajah is right to a very great extent, and that artificial obstructions have in many cases occasioned, and have in others aggravated, the outbreak of fever. The functions of the Committee, according to their original scope, would then seem to be to show categorically that in certain specified villages the theory of Rajah Digumber Mitter is sound and true, while in others it has no application. The Lieutenant-Governor, however, understands from your letter that this is not the object to which the Rajah himself would wish to see the energies of the Committee to be devoted. Assuming artificial obstructions to be the cause of the fever, it is desired by the promoters of the commission that Government should take practical action in the matter by removing obstacles and affording every facility for drainage in the affected tracts.

3. There is little doubt that the epidemic fever is of malarious origin, and that, while the chief factor in its development is unusual dampness in the subsoil, this dampness is created by defective drainage. The Lieutenant-Governor observes that, accepting this view, you confine yourself in your letter to recommending action in the direction of increased and improved drainage. If the Committee, you write, while inquiring into the cause of the excessive dampness, could at the same time suggest reasonable means for removing it by utilising the natural drainage of the country, they would, even if they failed to elucidate the cause, confer great benefits on the people; and you go on to say that you would gladly see the services of the Committee utilised in the organization of a general drainage scheme.

4. The Lieutenant-Governor, however, is obliged to point out that this proposal is not new, and that much has already been done in the way of devising drainage schemes in the districts of Hooghly and Burdwan. It is less than two years ago since the last commission, consisting of a sanitary officer and an engineer, was appointed for this purpose. General drainage works have nevertheless never been undertaken. It is only special schemes, such as the Dancoonee drainage project, that have been carried out, and these have been done under special laws passed to facilitate their operation. It is not possible for Government to undertake drainage works, except at the invitation and with the co-operation and at the expense of the landholders and tenant-holders concerned.

5. The question of drainage is, however, of the very highest importance, and it is possible that the present Committee may be able to throw some additional light on the subject. As the sittings of the committee have commenced, the Lieutenant-Governor thinks that, under your guidance, they should proceed

with as little delay as possible to examine Seebpore, Bally, and Connagore, the places mentioned in Rajah Degumber's memorandum, and see if they can find from their investigations there whether there are any grounds for continuing the inquiry. The advantage of making a local investigation in these places is manifest, and after actual inquiry the Committee will be more qualified than it is at present to decide whether its labours can profitably be directed to any practical use. You are requested to submit a full report on the subject after visiting these localities.

Dated the 4th July 1877.

From—The Committee appointed to inquire into the Obstructions to Drainage in the Districts around Calcutta,

To—The Junior Secretary to the Government of Bengal.

THE Committee appointed to inquire into the obstructions to drainage in the districts around Calcutta beg to report, for the information of His Honor the Lieutenant-Governor, that they have carried out the instructions contained in your letter No. 1628, dated 29th ultimo, and brought their labours to a close.

2. Rajah Degumber Mitter's memorandum, dated the 16th December 1876, which accompanied Sir Richard Temple's minute of the 5th January, was adopted as the basis of this inquiry, and special care was taken to see that the Rajah had every opportunity given him for substantiating his statements and proving the correctness of the theory which he has advocated for many years. After a careful local investigation into every statement made regarding Shibpore, Bally, and Connagore, the Committee have arrived at the following conclusions. At the same time it is necessary that we should state that we are not prepared to say that increased dampness is not one of the causes of the fever. This is also perhaps the proper place to mention that there is a popular idea that there is increased dampness in the villages around Calcutta.

3. SHIBPORE.—As regards Shibpore, the inquiry was directed towards the following points:—(1) the history of Chowdhry's Gurh, (2) its filling up and the effect produced on the drainage, (3) the history of the severe malarious fever which occurred in 1872 and 1873.

4. The inquiry would be incomplete if we did not at the outset notice the following statements, which first appeared in the columns of the *Hindoo Patriot* (December 29th, 1873) and subsequently in Rajah Degumber Mitter's Pamphlet, at page 85:—"While upon this subject, we may as well notice a striking illustration of the Hon'ble Degumber Mitter's theory, which has presented itself almost under the very nose of our authorities. At the latter end of September last the same epidemic fever which has for the last 14 years been desolating some of the fairest and healthiest parts of Bengal broke out most furiously in a village called Shibpore, which is situated over the water and nearly opposite the Fort, and enjoying the privileges and blessings of municipal government. For some days the number of deaths was more than thirty per day, and some idea might be formed of the virulence of the fever and the havoc already committed by it when we mention, on reliable authority, that in a particular locality of the village called Chowdhryparah nearly 25 per cent. of the population have been already carried away. The only sign yet exhibited by the local authorities of their knowledge of this terrible outbreak is the stereotyped order to clear the village of all vegetation, which—true to the saying *মড়ার উপর খাঁড়ার কাঁচ*, or 'slaying the thrice slain'—is being vigorously carried out. Now the real cause of the outbreak of the fever in Shibpore, as everywhere else, is so plain and palpable that it must obtrude itself upon every man's notice who would enter the village, unless his eyes and ears happened to be absolutely closed; for as soon as you enter the village and express your wish to know if any physical change had taken place in it immediately before the outbreak of the fever, every child will tell you that a big drain—traversing the place both north and south as well as east and west, and which goes by the name of Chowdhry's Gurh (গুরহ)—has been filled up by, or under the orders of, the Municipality between April and June last. This big drain cannot also possibly fail to strike any man as being the drainage channel of the village, carrying the periodical monsoon rainfall over the

village through a culvert in the road to its outfall, the Hooghly, by means of a creek which runs along the southern boundary of the Botanical Gardens. This drain, as already observed, was filled up between April and June last, and the epidemic fever—true to the law which governs it, as we have repeatedly shown in these columns—broke out at the latter end of September following. We are aware that it is hard for our rulers, learned in the abstruse laws of nature, to swallow such a simple cause as this explaining so important a phenomenon, which has for the last 14 years eluded the grasp of their own scientific officers. But whether our lamentations are heard or not, the very expression of them gives relief to our minds, and this is one excuse for recurring so often to the subject.”

5. The Chowdhry's Gurh was originally a large excavation surrounding a house in the Chowdhryparah quarter of Shibpore. Considerable portions of this Gurh were filled up by the proprietors at periods varying from 50 years to 15 years ago, leaving a large excavation 600 feet long, $28\frac{1}{2}$ feet wide, and $13\frac{1}{2}$ feet deep. This was the so-called drain referred to in the memorandum. This limited portion of the original Gurh was let as a fishery, on the understanding that the ryot who held the lease also kept it clean. The latter clause was added because the Municipality had directed the Chowdhry's attention to its filthy state. Local evidence went to show, however, that even after this arrangement it continued to be a nuisance to the neighbourhood, emitting noxious effluvia when the water in it was low.

6. About the beginning of 1873 the Municipality noticed the dangerous proximity of the Gurh to the public road, and, with the view of preventing accidents to carriages and foot-passengers, called upon the proprietors to have it properly fenced in. The slight bamboo fence erected by the Chowdhries did not meet with the approval of the municipal authorities, and it was therefore decided that a substantial paling should be put up and the cost charged to the owners of the Gurh. Rather than pay what they considered an unreasonable charge, the Chowdhries offered to fill up the Gurh; and on this understanding the process of filling up was begun, the street-sweepings of Howrah being first used for the purpose. But as this was objected to by the inhabitants in the neighbourhood, the Chowdhries completed the work with soil from the adjoining land.

7. Contrary to the statement made by a former Magistrate of Howrah in his remarks in the Sanitary Report for 1873, it would appear that the work was completed between April and June 1873. There is still a depression along the whole length of the excavation to mark the spot where it existed; and this depression, as will be seen by a reference to map A, serves to carry off the surface drainage by the old culvert under the public road.

8. To enable the Committee to arrive at an accurate conclusion regarding the part taken by Chowdhry's Gurh in the drainage of this quarter of Shibpore, it was considered advisable to obtain a careful survey of the neighbourhood. This was done by a competent overseer of the Public Works Department under the guidance of Mr. Whitfield, and the result is shewn in map A. At the request of the other members of the Committee, Mr. Whitfield has drawn up a memorandum discussing this question by the light of facts supplied by the levels and survey giving the features and configuration of the ground, and he has proved to the satisfaction of the Committee that it is physically impossible that the filling up of the Chowdhry's Gurh can have caused any obstruction to the drainage.

9. The Committee also made a general examination of the spot, and held a careful local inquiry among the inhabitants best qualified to speak on the subject. The first point ascertained was the fact that, before any drainage towards the natural outfall (the *bheel*) can take place, the tanks in the neighbourhood, which are very numerous, must first be filled; and the Committee were taken from one such tank to another, in the supposed order in which they were to be filled. The Chowdhry's Gurh, from its size and position, acted in the same manner as regards drainage as did the other tanks, with this exception, that, being the last of the series, it filled only when all the other tanks had overflowed into it, and then, when it was itself full, discharged its surplus water into a drain running under the main road and communicating with the *bheel*. One native gentleman stated—and those who were present agreed with him—

that seven-eighths of the drainage of the whole area comprising Baniaparah, Deyparah, Chowdhryparah, Dhobaparah, and Dhurumtollah, first passed into the neighbouring tanks and then by their overflow to the Gurh, and that only one-eighth found its way direct to the Gurh. The importance of this fact on the question at issue will be seen presently.

10. The meteorological records of Calcutta and Howrah show (and the local evidence is to the same effect) that the rainfall in 1872 was very deficient, viz. 46·6 inches, or 20 inches below the average of 30 years. In this year it was proved that the Gurh was dry, and that it could not therefore have acted as a drainage channel. The rainfall in 1873 was also insufficient, being 47·5 inches, or still nearly 20 inches below the average. The tanks were in consequence not filled with water, and therefore the Chowdhry's Gurh, if it had remained open, could not have acted as a drainage channel for seven-eighths of the area it was supposed to drain. For the remaining eighth there was a sufficient water-way for such an unusually small rainfall through the old, though narrowed, culvert under the road. The obvious conclusion, therefore, is that the filling in of Chowdhry's Gurh offered no obstruction to the drainage in 1873, and consequently could not, as it is alleged, have been the cause of the fever.

11. This latter conclusion is also arrived at by a series of inquiries into the history of the fever itself. It ought to be observed that the evidence taken on this point was most reliable, being derived chiefly from official records and also from intelligent medical practitioners at Seebpore, one at least of whom was able to consult private notes on the subject. The first official notice of the outbreak of fever in Shibpore is to be found in Dr. Elliot's Sanitary Report for 1872, an extract from which is given in the Appendix; and we would remark that on this subject the evidence of the Native practitioners is also very clear. Fever of a severe and fatal type first made its appearance in August and September 1872 in the following quarters of Seebpore:—Sanaparah, Cazeeparah, Bhorparah, and Betaitollah. Although these quarters of Seebpore are situated on the borders of Chowdhryparah to the south, their drainage is in no way connected with the Chowdhry's Gurh, but is carried by a separate channel direct into the river. So severe was the fever in these places, that almost all the inhabitants suffered from it; and it is remembered as a curious fact that, with only a few exceptions, the residents were from sickness unable to attend a religious ceremony held by Baboo Ram Chunder Mookerjya.

12. As is usual with this fever, the disease abated in intensity during the hot weather months of 1873. In August 1873, however, it re-appeared at Jogiparah, a quarter which lies to the north-west of Chowdhryparah, and which, moreover, is in no way connected with its drainage system. From this point the fever appears to have spread in two directions—easterly towards Mookerjyparah and Haldarparah, and westerly to Mussulmanparah and Pochchimparah. Towards the end of the year it became general, including, among other places, Chowdhryparah and the quarters adjoining the Gurh. The fever was of a very severe and fatal type, but it was said not to have been so fatal in Chowdhryparah as in other places. The Native gentlemen present, while not denying this statement, suggested that the lower death-rate was due to the better medical attendance which the well-to-do residents of this *parah* could command. Dr. Bird's remarks on the fever of 1873 will be found in the Appendix.

13. In 1874 fever of a modified and less severe type broke out at the same time and in the same places as in the previous year. There was also less mortality, the deaths occurring chiefly among those who had suffered from fever in 1873.

14. The general health of Seebpore, though not restored to its normal state, is now much better than it was in 1873 and the following years.

15. The inquiry into the history of the fever, therefore, proves that it first began, in 1872, in the neighbourhood of Chowdhryparah; that in 1873 it again showed itself on the borders of Chowdhryparah, in an opposite direction to the place first attacked in the previous year; that both these places were entirely unconnected with the drainage system of Chowdhry's Gurh; that it was only after the disease had become general that Chowdhryparah was attacked; that the mortality, influenced by whatever cause, was less in Chowdhryparah than elsewhere; and lastly, that the general health is now improved,

though Chowdhry's Gurh remains filled up. Now, it has already been shown that in 1872 and 1873, the years of the fever, the rainfall was so deficient that Chowdhry's Gurh could not have acted as a drainage channel. The final conclusion, therefore, is that the fever was in no way influenced by its being filled up.

16. BALLY.—The inquiry at Bally was limited to an investigation of the statements made in the Memorandum regarding the obstructions offered to its proper drainage. The points particularly examined were (1) the direction of the drainage and its outfall; (2) the position of the metalled road which runs southward from the Railway, and its relation to the drainage system; (3) the tanks and gardens which are said to have been made in the surplus Railway land; (4) the construction of recent kutchas and the obstructions caused by them.

17. Before proceeding to consider the points referred to in detail, it is necessary to state here that Baboo Ram Chunder Mitter, who represented Rajah Degumber Mitter, and who was present during the whole of the local inquiry, submitted a sketch and memorandum for the information of the Committee. This sketch and memorandum are herewith attached for the purpose of showing how Rajah Degumber Mitter has been misled by his informants.

18. The accompanying map, showing the drainage of this portion of Bally, was the result of a recent survey of the town undertaken under the direction of Mr. Whitfield. In the memorandum attached to the map the whole question is carefully discussed. The Committee agree with the opinion expressed, viz. that there has been no obstruction, nor is it possible that there could be any.

19. At a local investigation the members of the Committee carefully followed the main drainage system, and during their progress made the necessary inquiries from the inhabitants residing in its proximity. The conclusion arrived at was, that not only does the drainage take the course shown by Mr. Whitfield's map, but that these drains have existed as long as the oldest inhabitants could remember. The drains, both large and small, were found clean and well kept, and culverts are provided wherever they are required. The last culvert in the series was, however, found broken, but the inhabitants on the spot stated that it did not cause any obstruction to the outfall. The Committee were also able to judge for themselves that this was the case, as the spring-tides had passed up the drains for a considerable distance, and had, within a short time, been thoroughly re-drained again into the Bally Khal. It is well to notice here that the drainage of the village up to the metalled road runs from east to west, and that the eastern ditch along that road then forms the principal drainage channel, and runs in a north-easterly direction till it discharges itself into the Bally Khal.

20. The Committee next followed the metalled road, referred to as running southward from the Railway-station. This road was formerly a kutchas road; it was metalled in 1873. On a reference to the map, it will be seen that the drainage being in the direction already indicated, this road cannot be said to cross the principal drainage channel of the village. There is only a narrow strip of land between the road and the Railway, with not more than two or three huts on it. For the rainfall of this area sufficient culvert space is allowed and proper drainage provided. The highest part of the metalled road being, moreover, below the surrounding land, the Committee fail to see what combination of circumstances could ever make it an obstruction.

21. It is asserted that the Railway surplus land has been converted into tanks and gardens. Only one such tank and garden could be found. This belongs to Baboo Kedar Nath Chatterjya, and is situated near the Railway-station. A reference to the plan will show that the direction of the drainage being away from the line of Railway, the tank and garden can offer no obstacle to it whatever; and this fact was corroborated by disinterested inhabitants, who stated that in very heavy rain some water used to find its way towards where the new tank is now, but that usually the drainage was in the opposite direction.

22. With regard to the statement that obstruction is caused by a number of recently-constructed kutchas roads, the Committee find that no new roads have been constructed for the last 10 or 15 years, nor was any one such road pointed out to them. The old kutchas roads, it is true, have been repaired, and consequently raised; but as they appear to be provided with proper drains and culverts, they cannot offer any obstacle to the drainage.

23. Every statement made regarding Bally having been found to be incorrect, it was considered unnecessary to make any inquiry into the prevalence of fever.

24. CONNAGORE.—At Connagore the inquiry was, as in the two previous instances, directed to the points especially referred to in the Memorandum—(a) the direction of the drainage outfall; (b) the roads without culverts which, by crossing the drainage channels, interfere with the drainage; (c) the silting up of drains and the encroachment on them by owners of adjoining land; (d) the obstructions to drainage caused by the construction of tanks and gardens along the Railway embankment; (e) the history of malarious fever in the village, and its connection with the obstructions referred to.

25. The natural outfall of the drainage lies in two opposite directions. The northern and smaller portion, comprising Pearabagan and Haterkool, drain direct northwards into the Bagerkhal. The tidal water of this *khal* passes into those parts of the village which comprise the greater portion of it, and which drain southward along the Railway embankment over lowlying lands towards the Bally Khal. It is therefore worthy of notice that the outfall is not solely towards the Bally Khal, as has been stated. The importance of this point will be seen in the history of the fever further on.

26. Since the main roads of the village run parallel to the drainage channels, no serious obstructions can be caused, nor were any pointed out to the Committee; and we were told by a Municipal Commissioner, at present engaged in improving the drainage of Connagore, that, except in a few minor instances, no such obstruction existed.

27. As regards the silting up of drains, the Committee have no doubt that this occurred here as it does elsewhere. We have evidence, however, to show that measures were taken in 1875 to clean the drains, and that these measures are now being repeated. With reference to encroachments on the drains in the interior of the village, the two instances mentioned by the inhabitants occurred 10 to 20 years ago.

28. The Committee went very fully into the question of the obstructions offered to the drainage along the Railway surplus land, and they find that two gardens with tanks have existed for some years, and that one other has been constructed within the last eight months.

29. The Railway surplus lands were sold by Government in 1872, and in August 1873 Baboo Shib Chunder Deb, a resident Municipal Commissioner, represented that interference with the drainage had been commenced by the purchasers, who were then constructing the two tanks and gardens already referred to. With the representation was submitted a request that the Government would issue orders to prevent the owners from carrying on the work. It would appear that, since the land was sold unconditionally, the Government had no power over the purchasers, and no action could therefore be taken in the matter.

30. No further mention is made as to any interference with the drainage until 1875, when one of the garden proprietors constructed a bund across the side ditch near the Railway-station. It was, however, allowed by all the local witnesses that no actual obstruction took place, because an opening was made in the bund during the rains to allow the water to escape. But this was not done until the people had remonstrated. In 1876, however, the owner referred to refused to make a similar opening in the bund, and the consequence was that some obstruction did take place, causing the submersion of a part of the Ryland road, which has since been raised. This obstruction was brought to the notice of the Magistrate, but it was not till after the rains had ceased that the official orders for its removal were carried out. There is at the present time a sufficient opening in the bund to allow water to escape towards the Bally Khal.

31. The history of malarious fever in this village was chiefly obtained from the full annual reports submitted by Dr. Greene, the Civil Medical Officer of Serampore. It is therefore advisable in the first place to consider briefly Dr. Greene's views on the subject as they are stated by himself in his reports. He has, since 1871, looked upon defective drainage as the main cause of the fever; but he has also, in some years, referred to the poor condition of the people, the practice of steeping jute, &c., as causes which in a measure

influenced the fever outbreaks. In 1874, when the fever was rapidly dying out, he attributed it to the better drainage provided by the Dancoonee Canal and the opening of the Surusuttee Khal. The fever having increased in 1875 and 1876, he changed his opinion as regards the beneficial influence of the canal, and now regards it as one of the drainage obstructions to the country on account of its high banks. The importance of Dr. Greene's evidence lies, however, in the fact that although he has for a number of years held strong views on the subject, and has seen much fever in his district, he is unable to point to any one single instance in which obstruction to drainage was the sole cause of the fever; and he was obliged to admit that, as far as Connagore was concerned, the northern portion, which drains directly into the Bagerkhal and the villages that lie west of the Railway, and consequently drains without any obstruction inland, suffered just as much as the obstructed area draining southwards to the Bally Khal. Two statements made by Dr. Greene regarding obstructions caused by the Railway and canal have been objected to by individual members of the Committee. As regards the Railway, it is stated by one member that a careful inquiry has shown that it does not obstruct the drainage of the land lying between it and the river Hooghly. The other statement, which refers to the canal, can hardly be entertained when it is known that at every 500 feet an opening exists in the embankment to allow the surface drainage to pass into the canal.

32. Fever in an epidemic form was noticed in certain parts of the district around Serampore in 1871, the places specially mentioned being Buddiabatty, Singoor, and Kristonuggur. In the Sanitary Report for 1872 it is stated that fever of an epidemic type commenced in July in Connagore, Rishra, and Buddiabatty, and during the following months extended to Mohesh and Bullubporc. It was most severe along the banks of the Ganges, and is said to have affected 50 per cent. of the population.

33. In 1873 there was no fresh outbreak of fever, but traces of the previous year's fever were to be found in some places, and especially Kristonuggur. The report for 1874 records the dying out of the fever, and the improvement is chiefly attributed to the construction of the Dancoonee Canal and the bringing of the Damoodur water into the Surusuttee.

34. In 1875 fever of a malarious type was reported to have appeared in an epidemic form at Connagore, Bashye, Kanyepore, and Rishra. It commenced in September and continued to the end of the year, and the sickness being very considerable, it was found necessary to provide a charitable dispensary at Connagore for the treatment of the poorer classes. Among the causes mentioned by Dr. Greene are included the obstructions caused by the making of tanks and gardens along the Railway embankment, and it is asserted that water lay in stagnant pools along the line of Railway. It has already been shown that the bund which had been constructed by one of the proprietors had an opening in it for the passage of water towards the Bally Khal. We notice that the rainfall in this year was even less than in 1872.

35. In the Sanitary Report for 1876 it is stated that fever again prevailed at Connagore, while other parts of the district were healthy. The mortality was, however, only nominal. It may, however, be allowed from the evidence gathered that there was considerable sickness towards the end of 1876; but as the mortality was nominal, the disease must have been the ordinary malarious fever of the country. It was during the rains of this year that the bund alluded to offered an obstruction to some portion of the drainage of Connagore.

36. It should be added that the Member of our Committee best qualified to speak on this subject is of opinion that, although there may have been some obstruction caused by the bund, it is physically impossible, from the nature of the ground, that it could have been to any great extent.

37. At the request of the Magistrate of Hooghly we submit the following memorandum recorded by him:—

“It should be noticed, once for all, that complaints founded on the filling up of Railway side-cuttings are misleading on all sides. These cuttings are never intended to act as drains, and purchasers have an absolute right to fill them up as they like. It is not the filling of them up that causes any difficulties, but the fact that purchasers raise their ground *above the level of the fields*, which sometimes is going beyond their rights, thus causing obstruction in the surface flow

of water along the toe of the embankment to the nearest waterway under it, or at its end. The error here noticed is incessantly causing confusion. The complaints are often well founded, but are at once answered by exposing the fallacy of the argument used in support of them. The abundance of the waterway under the Railway has been over and over again demonstrated, and is now no longer denied. But, in order that these arches shall serve their purpose, it is generally essential that there should be no ramps or other obstructions running out from the embankments which do not leave free passage for water at the level of the natural surface all along the toe of the Railway embankment. In this instance we find no obstruction caused by the filling up of the cuttings; but we find that there was a bund made and land thrown up to some distance from the Railway which stood above level of the natural surface, and thus became an obstruction, till a cut was made which goes no deeper than the level of the rice-fields around."

38. In conclusion, we would mention that the district officers of Howrah and Hooghly, and the sub-divisional officers of Serampore, were present at our local meetings and took an active part in the inquiry. Our acknowledgments are due to the Municipalities of Howrah and Serampore for the cordial manner in which they have assisted us in this inquiry. The Committee are also indebted to Baboo Shib Chunder Deb of Connagore for much valuable information and assistance.

We have the honor to be,

SIR,

Your most obedient servants,

A. S. LETHBRIDGE, M.D., *President.*

J. WHITFIELD,

W. HERSCHEL (*with a note*),

PEARI MOHUN MOOKERJEE,

AMRITA LAL MOZOOMDAR,

HEM CHUNDER KERR,

F. H. PELLEW, *Magistrate, Howrah,*

J. G. PILCHER, *Surgeon-Major,*

Civil Surgeon, Howrah,

W. H. GREGG, *Surgeon, Hooghly,*

Members.

I THINK it necessary to observe that the limitations which the Committee consider have been put upon the scope of their inquiry under the instructions of Government (*vide* letter No. 1628, dated the 29th May last) preclude them bringing Rajah Degumber Mitter's theory, that subsoil humidity occasioned by obstructed drainage is the cause of the epidemic fever, to a satisfactory test. The Committee have simply inquired into the instances mentioned in the Rajah's memorandum; but this memorandum does not give all the facts which could be collected on local inquiry. Be that as it might, I should mention that in course of our inquiry persons came forward to give evidence that want of drainage or imperfect drainage was connected with the outbreak of fever in portions of the three villages inspected by the Committee; but, as the President remarked in one of the meetings, the scope of the Committee's inquiry being restricted, they could not take cognizance of facts or cases not included in the Rajah's memorandum. Such being the case, I for one would wish it to be understood that this report of the Committee should not be accepted as a conclusive solution of the question.

PEARI MOHUN MOOKERJEE.

The 4th July 1877.

NOTE.

I ATTACH importance to the fact established by the evidence of Dr. Greene and of the Joint-Magistrate, that the obstruction caused by the tank (or bund) and garden at the Railway-station was serious. It headed the drainage back for three consecutive weeks into the heart of the village. We are bound, I think, to notice the excessive soaking thus caused, and the coincidence thereof with the outbreak of 1876, even although the negative character of the rest of the evidence prohibits our attributing the one to the other as effect to cause.

W. HERSCHEL.

The 6th July 1877.

APPENDIX.

Memorandum on the Drainage of SEEBPORE, by J. WHITFIELD, Esq., C.E., Executive Engineer, Northern Drainage and Embankment Division, dated the 30th June 1877.

THE area draining through Chowdryghur contains 707½ beeghas, or a little over one-third of a square mile, and is shown on the accompanying plan by a shaded blue dotted line. The figures on the plan show the relative heights of the ground and channels, and the direction in which the water flows is shown by arrows. On referring to the level figures it will be seen that the ground varies in height about 6 feet, the highest ground being on the south and east side and forms a water-shed line in that direction. On the west and north sides the ground is somewhat irregular, but all drainage towards Chowdryghur is cut off by spoil earth from tank excavations, houses, and the unevenness in the natural ground level; and from the boundary line shown on the plan, the drainage finds its outlet in the direction away from Chowdryghur.

2. The tanks are in the first instance receptacles for all the rain that falls, and, as shown on the plan, they generally overflow from one to another, and, when quite full, spill over the surface of the ground and by the nearest outlet (if there be any) flow into Chowdryghur; otherwise the overflow water takes the lowest ground and thus finds its way into Chowdryghur. At A the water from the southern portion of the ground, draining into Chowdryghur, falls first into the side ditch of the road, the bed of which is 37.38 at that point; it then runs north along the north side of the road, the level of the ditch being 37.25, 37.49; and at the commencement of what was Chowdryghur at B the bed of the ditch is 37.69. At the point B the water of the remainder of the southern part of the basin reaches the Chowdryghur, the level of the bed of the ditch at its discharge into the ghur being 37.69.

3. The water from the remaining portion of the drainage basin joins Chowdryghur from the north at D, at a level of 36.50. This point is the outlet of Chowdryghur, and the outlet of the whole basin. Alongside, and parallel with the road and road-ditch, is a depression in the ground about a foot below the level of the ditch, and about the same level as the final outlet culvert at D.

4. Now, tracing back the levels from this final outlet at D, where the bed of the ditch and the bed of the outlet culvert are the same, viz. 36.23, there is a continuous rise over the filled up site of Chowdryghur, except very trifling irregularities; but in no case are the depressions below the outlet ditch and culvert, as shown by the section A, C, B, D.

5. Between B and D, along the site of Chowdryghur, which was filled up between April and June 1873, there is a continuous, although not uniform, fall of 1.46 feet in a distance of 350 feet. It is therefore physically impossible that the filling up of the Chowdryghur can have caused any obstruction to the drainage.

6. The level heights fully confirm the conclusions of the Committee in that respect, on their inspecting the locality.

7. The overflowing of the tanks from one to another in the zigzag and circuitous manner shown on the plan must, when that takes place, inundate a very large proportion of the whole area; but it is clear that Chowdryghur is in no way answerable for this. The same thing is a common feature in most of the villages; and if some measures could be introduced to prevent this, there can be little doubt but that it would greatly improve the sanitary condition as well as the comfort of the inhabitants.

Memorandum on the Drainage of LALLY, by J. WHITFIELD, Esq., C.E., Executive Engineer, Northern Drainage and Embankment Division, dated the 30th June 1877.

THE accompanying plan shows the roads which are alleged to have obstructed the drainage, and which the Committee inspected and was satisfied that they did not cause any obstruction, and that the drainage, instead of flowing

inland towards the wheels in the direction of the general natural fall of the surface of the ground, is intercepted by deep ditches alongside the roads, and by them conveyed into Bally Khal at A.

2. On either side of the road B C there is a ditch 2-6 below the level of the road and 5 to 6 feet below the level of the ground. At C is a culvert under the road giving a passage for the water from the south side into the drain or khal leading into the Bally Khal at A.

3. There is a continuous, though not quite uniform, fall in this drain, as shown by the red figures from B to A. The distance is about 1,600 feet, and the fall from B to A is 5 feet, so there cannot be any doubt about the sufficiency of incline to insure a rapid outflow.

4. The road extending from the Railway-station southwards, parallel to the Railway line between the Railway and the village, which was alleged to have seriously interfered with the drainage, is shown on the plan at B D. This road is metalled about half this distance and, like the other road, is provided with deep ditches on either side, with culverts under the road connecting the ditches; culverts also connect the ditches on either side of the unmetalled portion. The beds of the side ditches are about 3 feet below the surface of the road and 4 to 6 feet below the level of the ground on either side, so that if there were no ditches the road itself would form a drainage channel instead of an obstruction, being, as is shown by the level heights, from $1\frac{1}{2}$ to 3 feet below the level of the ground on either side.

5. The same may be said of the road C E F, except that the metalled part of the road is on the same level as the ground instead of being below. It does not, however, offer any obstruction, and the water which overflows it, if any, is carried off by the side ditch. From E to F the road is unmetalled, and its surface is below the level of the ground on each side. At E the water is carried through the drain and flows into the B D road-ditch at G. At H the drainage separates and flows east and west, as shown on the plan. At K and L the roads pass under the Railway, and to obtain greater headway at K the surface of the ground has been lowered; but as it is only about 6 inches below the level of the ditch at the side of the road leading to it, there cannot be any important accumulation, and being a slight depression of 6 inches it does not in any way offer obstruction to drainage.

6. The tank at the station is isolated, and does not stand in the way of any drainage. When full, if ever that happens, the overflow will fall into the drain adjoining.

7. The spring-tides in the rains sometimes rise as high as 17 feet, and when that occurs all the ditches are filled, and the roads and ground below that level covered with water, but it all readily flows out again. The Committee noticed the mark of the spring-tide which had flowed in a few days before the inspection, but no water was left behind.

8. From the levels shown on the accompanying plan and the personal observation of the Committee, the conclusions of which the levels confirm, there are no grounds to show that the roads referred to have been obstructions to drainage, but, on the contrary, they establish the fact that, as far as the roads are concerned, there has not been any obstruction.

Extract from the Sanitary Report of Howrah for 1872.

“Endemic, intermittent, and remittent fever of a congestive type was unusually prevalent in certain portions of the district at the drying up of the rains and during the early part of the cold season. The villages in which I have personally seen the disease are Sheebpore, Shonaparah, Moolaparah, Kamarparah, Khoorool, and others contiguous to the station and town of Howrah.”

Extract from the Sanitary Report of Howrah for 1873.

“Fever has prevailed in the district throughout the year, but with greatest intensity during the second half of it. It was present with special force and fatality during October, November, and December, in the Sheebpore and Belgatchia villages, within the limits of the municipality.”

The village *Bally* is situated on the west bank of the River Hooghly and about five miles from Calcutta. The natural drainage of the village, following its slope, used to flow from east to west, that is, in a direction away from the river-bank, and ultimately came back to it through the "Bally Khal," which extends along its north-west side. The East Indian Railway line, which passes along the west of the village, that is, across the direction of its slope, did not materially interfere with its drainage, as part of the monsoon water used to flow into the khal along the east side of the line, and the rest, which used to fall into the khal along its west side, easily found its way there by means of culverts existing in the line. But a road which extends from the railway station southwards, parallel to the railway line and between it and the village, has very seriously interfered with its drainage. This road was kutchra, or unmetalled, before, and the rush of the monsoon water in seeking its natural outlet had made several breaches in it, through which it used to make its way to its natural outfall. But about three years ago the road was metalled and the breaches filled up without substituting culverts for them. Besides this, the surplus lowlands on either side of the line have now been sold, and their present owners have converted them into tanks and gardens—thus obstructing the passage of the village drainage through them into the khal.

Besides the above road, there are a number of kutchra roads (all constructed recently) in the interior of the village, which have more or less offered obstructions to the flow of the monsoon water into its natural outfall.

The village drainage having been obstructed in its natural course in the manner described above, an attempt has been made, probably by the Municipality, to direct the same towards the east, that is, in a direction opposite to its water-level, so as to make it fall into the khal near its mouth; but it has proved ineffectual, as the level of the village near this outfall is several feet higher than that near the railway line; so that, instead of draining the village water, the river water at times of high flood enters the village through it.

If, instead of the fruitless effort to divert the natural course of the water towards the east, a deep drain be cut by the side of the Railway line, having a proper slope towards the khal, and all the big drains of the village be joined to it by means of culverts in the road above alluded to, and if also the cross roads in the interior of the village be provided with culverts, the original drainage of the village would then be restored, and thereby prevent the recurrence of the epidemic, which, be it observed, broke out immediately after these obstructions to the drainage were offered.

Circular No. 28, dated Calcutta, the 7th August 1877.

From—A MACKENZIE, Esq., Officiating Secretary to the Government of Bengal,
To—All Commissioners.

I AM directed to request that you will call the special attention of the District Officers and Municipal Commissioners of your division to the provisions of Act VI (B.C.) of 1873, so far as these furnish a means of improving the drainage of town and village sites.

2. It is a recognized fact that much unhealthiness is caused by obstructed drainage and consequent dampness of the sub-soil; and although the Lieutenant-Governor is not prepared to undertake the impossible task of draining at the expense of the State all the unhealthy districts of Bengal, he believes that very much may be done in the way of improvement by well-directed local effort, and without any very great expense.

3. Within the limits of regularly constituted municipalities, it is in the power of the Commissioners to effect improvements and remove obstructions, so far as their funds will allow and the provisions of the Municipal Act permit, and they have also very extensive power of coercing private owners. They should be stirred up wherever necessary, and called upon to devote special attention to this branch of their town conservancy.

4. But there may be cases even in towns to which the Municipal Act will not apply, and in which it is not proper that the cost of improvements should fall upon the rate-payers. There are also numerous villages outside municipal limits possibly suffering from the effects of obstructed drainage, and

the health of a municipality may be affected by evils lying beyond its own jurisdiction. In such cases the provisions of the Embankment Act furnish a ready remedy.

5. By that Act a water-course is defined to include a line of drainage, weir, culvert, pipe, or other channel for the passage of water, whether natural or artificial. Under section 4 the Collector has power to cause to be removed or altered "any obstruction of any kind which interferes with the general drainage of any tract of land." He may construct any water-course, or effect any alteration in any public water-course, when this is required for the improvement of the health of any village. He may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any water-course under or through such road; and if the person so called upon fails to obey the order, the Collector may carry out the work at his expense, so far at least as it was necessitated on account of insufficient provision having been made at the time of constructing the road for the natural drainage then existing.

6. The Act gives the Collector ample powers for carrying out any works of the above description, and for assessing the cost, where individuals are not liable, upon the estates and tenures benefitted thereby.

7. There is nothing to prevent a municipality, or any other public body or individual, from moving the Collector to take action under the Act; and the Collector has always at his disposal the professional services and advice of the officers of the Public Works Department.

8. The Lieutenant-Governor, as he has already said, believes that it is by judicious local action that the evils referred to in paragraph 2 of this letter will most effectually be met; and he desires to call the special attention of all Commissioners, District Officers, and Municipalities to the remedies that already lie open to their hand.

9. At the same time, it must always be remembered that much harm may be done to individual interests, and much waste of public money may be caused, by hasty and ill-considered action. In every case there must be careful and intelligent enquiry as a preliminary to remedial measures, and there should be a reasonable certainty of positive good as their result. The provisions of the Board's circular order No. 3 of May 1875 will also have to be borne in mind by Collectors.

RESOLUTION ON THE REPORT OF THE HEALTH OFFICER OF THE PORT OF CALCUTTA FOR 1876.

GENERAL DEPARTMENT.—MARINE.—No. 2169.

Calcutta, the 31st July 1877.

READ—

- A letter from the Sanitary Commissioner for Bengal, dated 30th May 1877, forwarding the Report of the Health Officer of the Port of Calcutta for the year 1876.

THE reasons for the appointment of a Health Officer for the Port of Calcutta were noticed at some length in the Resolution on last year's report. Quarantine rules, which are rigorously enforced in the chief ports of Europe, have not been introduced here. Simple inspection by the Health Officer, and the adoption by the masters of vessels of such hygienic measures as he may prescribe, stand in the place of the quarantine regulations, which frequently impose a heavy burden on commerce in European ports. It is believed that the mercantile community of Calcutta fully appreciate the necessity for the appointment of a Health Officer of the port, and understand that, in view of the increasing number of ships visiting Calcutta, and the more rapid communication with Europe by the Suez Canal, the only alternative to the present system would be the introduction of regular quarantine.

2. Besides inspecting the shipping, it is the duty of the Health Officer to exercise a close supervision over the local sanitation of the river and its banks, and to propose such measures as may be necessary to discover the causes and check the progress of any outbreak of disease among the vessels lying in the port. For these various purposes he is provided with an adequate

establishment and a steam-launch, the cost of which is debited to the Hospital Port Dues Fund. The condition of this fund has recently been under the consideration of the Lieutenant-Governor, and a corrected statement of the receipt and expenditure for 1876 is awaited from the Accountant-General. The fund is in a thoroughly solvent and prosperous state, and there will be no occasion at present to raise the tonnage dues now levied under sections 59 and 60 of Act XII of 1875.

3. On the 23rd April 1876 Dr. French, the first Health Officer appointed, was relieved by Dr. J. G. Pilcher, who continued in office till the 10th February 1877. Dr. S. C. Mackenzie was then appointed to officiate, and the report for 1876 has been written by him with the assistance of some notes furnished by Dr. Pilcher. It is much to be regretted that Dr. Pilcher, who actually held the appointment for nearly a whole year, should have been unable to find leisure to record the results of his own work, and it is clearly from this cause that the present report, though dealing with an entire year, is far less complete and exhaustive than that furnished by Dr. French for the last four months of 1875.

4. In the resolution upon the last report it was observed that the record of the distribution of cholera among the vessels lying in the port had not been extended over a sufficiently long period to form the basis of any trustworthy conclusions. During 1876, 110 Europeans attacked with cholera were admitted into the General, Howrah, and Medical College Hospitals, of whom 53, or 48·20 per cent., died. In 91 cases at the General Hospital and in 10 at the Howrah Hospital notes were taken of the part of the river from which they had come, and it was found that, out of the 101 cases thus observed, 55, or 54·46, were traced to vessels lying below Fort Point. It is probable, indeed, that the nine cases taken to the Medical College Hospital were all from vessels moored higher up the river, and this to a certain extent reduces the proportion of sickness below Fort Point, while the figures in any case only relate to a single year. But even with these deductions it still appears that, although far less than half of the shipping in the port is moored below Fort Point, fully half of the cholera cases of the year occurred in that part of the port. It is hard to resist the conclusion that this is mainly due to the fact that ships moored below Fort Point lie between two sources of sewage discharge—the Fort drain and Tolly's Nullah.

5. The long-pending question of the disposal of the sewage of the Fort has been recently considered by a Special Committee, and it has been decided to connect the Fort drains with the main municipal sewer, and to discontinue the practice of discharging sewage into the river. This, it is believed, will remove one of the permanent causes of cholera in the port, and the Lieutenant-Governor regards the conclusion arrived at by the Committee as furnishing a most satisfactory solution of a difficult and complicated question. The south bank of Tolly's Nullah, on the other hand, appears from the reports both of the Sanitary Commissioner and the Health Officer of Calcutta to be still in an extremely foul condition. Several latrines discharge their contents directly into the nullah, the water is largely contaminated by stable refuse, and the banks are continually defiled by the inhabitants of the neighbouring huts. All the sewage that thus finds its way into Tolly's Nullah passes out into the Hooghly with the ebb-tide, and is either taken up again by the flood or deposited on the sloping foreshore on either side of Hastings Bridge to generate noxious exhalations at the next low-tide. The Lieutenant-Governor is constrained to observe that the action of the Suburban Municipality in respect of the sanitation of Tolly's Nullah has displayed a great want of energy and persistence, which contrasts most unfavourably with the efforts of the Municipal Commissioners of Calcutta to improve the health of Hastings by extending their main sewer along the north bank. The Presidency Commissioner will be requested now strenuously to urge the Suburban Commissioners to do their duty in this matter. He must not rest content with reports and explanations, but must see that effective steps are taken to remedy the evil without delay.

6. Besides the 110 cases of cholera noted above, the list of the principal diseases of the year includes 285 cases of dysentery, 244 of malarious fever, 29 of scurvy, and 133 of contagious diseases. From inquiries which were made by Dr. Mackenzie in the General Hospital, there seems to be reason to believe

that the latter class of diseases are for the most part contracted in Europe and not in Calcutta.

7. One of the most important functions of the Health Officer is to board ships on their arrival in port, and to inquire into the causes of all cases of scurvy that are found among the seamen. If it be scientifically true that scurvy is a disease which can be prevented with absolute certainty by the maintenance of a proper diet while at sea, it would appear that the existence of a single case of scurvy on board a vessel arriving in port is of itself strong *prima facie* evidence that the owners or master have neglected some established and obvious precaution. In this view, the observations of the Health Officer should have a peculiar value as a systematic record of the predisposing causes of the disease. Unfortunately, however, Dr. Pilcher has omitted to furnish any detailed account of the 29 cases of scurvy which occurred within the year. There is reason to believe that scurvy has not diminished as much as is popularly supposed, and one of the chief duties of the Health Officer should be to investigate the subject carefully and persistently. The Lieutenant-Governor is advised that there is some doubt as to the correctness of Dr. Pilcher's theory that scurvy in many cases is caused not by specific neglect of recognized safeguards, but by the fact that by repeated voyages a seaman's constitution has become thoroughly saturated with the disease. No doubt the pressing demand for seamen in England leads in many instances to the shipping of men in an enfeebled state of health, but this circumstance would appear to create an additional obligation on the part of ship-owners to provide every safeguard that can be devised against an outbreak of scurvy among the men.

8. The extreme diversity of practice which prevails on British ships in the matter of provisions is probably a chief cause of scurvy. It is true that under the Merchant Shipping Act of 1854 the agreements entered into with the crew must define the scale of provisions on which they are to be fed, but no scale has been authoritatively prescribed by law, and it is notorious that, in such matters sailors are quite incompetent to look after their own interests. In fact, what happens is this: sailors sign agreements thoughtlessly, and then find, when at sea, that they have no claim as of right to anything beyond absolute necessities, while for fresh meat, soup, preserved vegetables, and other luxuries which act as preventives of scurvy, they are practically dependent upon the liberality of the master of the vessel. On arrival of a vessel in Calcutta with scurvy on board, the Health Officer points out to the master that tinned provisions should have been issued more fully, and the master appeals to the agreement and points out that the crew have actually had more than they were legally entitled to.

9. The report states that the quality of the lime-juice supplied to British ships was nearly uniform, although the citric acid, which is its essential element, was sometimes deficient. From several cases of scurvy reported in the present year, there is reason to believe that the lime-juice supplied to British ships, even when purchased from recognized warehouses, is frequently very deficient in citric acid, and that this deficiency is often the immediate cause of scurvy. The English Acts provide for the lime-juice containing a certain proportion of proof spirit, but the proportion of citric acid has never been laid down by law, although it is understood that eminent hygienic authorities consider 30 grains of citric acid to each ounce of lime-juice to be the minimum that is required. A further difficulty arises in the case of tinned provisions from the fact that the outside of the tin affords no evidence of the date at which the contents were sealed up. Measures will be taken to bring to the notice of the Board of Trade these defects, and in the meantime the Lieutenant-Governor hopes that the Health Officer will spare no pains to place the Government in possession of all facts bearing upon the subject, and exercise his influence discreetly to induce masters starting from this port to take on board a full supply of preventives against a disease which, it is believed, should long ago have disappeared altogether from British merchant shipping.

10. The Lieutenant-Governor has observed with pleasure the increasing use of filtered municipal water by the shipping in the port. It is understood that under existing arrangements water is supplied by the Municipal Commissioners to the shipping at a fixed charge of Rs. 8 per 1,000 gallons. When

vessels are near enough to the shore to admit of hose being carried on board, the supply is given direct from the hydrants, and in all other cases the water is taken alongside the ship in iron tanks placed in large country boats, and is pumped up into the reservoirs on board. It is satisfactory to find that in 1876, 949 vessels, with crews aggregating 18,980 men, used municipal water, as against 247, with crews of 4,910 in the preceding year. The average quantity of water taken per head is shown to have been 359 gallons, but it should be noticed that in the case of steamers the water-supply is not regulated entirely by the requirements of the crew, as water is also used for filling boilers on leaving port.

11. With regard to the relations of the Health Officer with the masters of the vessels which he is required to board and inspect, there have been reasons for thinking in one or two cases that the function of the Health Officer was imperfectly understood by the masters of foreign vessels. Orders have since been issued to the Master-Attendant and the pilots to make it generally known that the Health Officer is acting under the special orders of Government; and the Lieutenant-Governor feels sure that Dr. Mackenzie will perform his duties of visiting and inspection in a conciliatory manner, so as to give as little trouble as possible to the commanders of vessels arriving in and leaving the port, and that he will as a rule find commanders ready to co-operate with him in measures which he may consider necessary for the health of the seamen.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE MEDICAL INSTITUTIONS OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1876.

MEDICAL.

Calcutta the 7th August 1877.

READ—

Report on the Calcutta Medical Institutions for 1876.

Read—

The Reports for 1874 and 1875 and the Resolutions recorded upon them.

The returns for the past year show a slight falling off in the number of patients treated at the different medical institutions of the town and suburbs. The number, however, is still so much greater than that attained in any year before 1875, that it is manifest that the popularity of these institutions is still unimpaired. The following table shows the extent to which the public resorted to the different hospitals and dispensaries during the past three years:—

	1874.			1875.			1876.		
	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.
1. Medical College Hospital.	4,340	45,199	49,548	4,456	46,374	49,830	4,362	44,079	49,081
2. General Hospital.	2,926	1,107	3,933	2,234	9,544	12,778	3,999	16,293	20,292
3. Mayo and Chaudney Hospitals and Dispensaries.	1,004	166,611	167,615	2,006	191,759	193,765	2,029	187,661	189,690
4. Campbell Hospital.	7,558	7,558	7,782	7,782	6,640	6,640
5. Municipal Police Hospital.	2,341	...	2,341	2,890	2,890	2,261	...	2,261
Total Calcutta Hospitals ...	18,078	201,917	219,995	20,358	246,677	267,035	19,251	246,633	267,914
6. North Suburban Hospital.	711	...	711	625	625	635	635
7. Bumbhoos Nath Pandit Dispensary.	9,608	9,608	9,907	9,907	6,475	6,475
8. Alipore Dispensary ...	130	6,092	6,222	119	5,568	6,087	110	4,495	4,605
9. Arratoon Apcar Dispensary.	8,858	8,858	9,559	9,559	9,559	9,559
10. Howrah General Hospital.	2,002	15,681	17,683	2,245	18,024	20,269	2,340	18,483	20,823
Total Suburban Hospitals...	2,843	40,169	43,012	2,989	43,438	46,427	3,085	39,017	42,102
Grand Total ...	20,921	242,086	263,007	23,347	290,115	313,462	22,336	287,650	310,016

The increase in the number of out-door patients at the General Hospital corresponds generally with the decrease at the neighbouring suburban institutions—the Alipore and Sumbhoo Nath Pundit Dispensaries. It has recently been brought to the Lieutenant-Governor's notice that a class of patients now receives out-door medical attendance at the General Hospital which it was never intended should be treated at that institution. This class was formerly relieved at the two suburban dispensaries first mentioned. The extension of the out-door department at the General Hospital, beyond what was originally contemplated, has led to a great increase in the consumption of expensive European medicines, and has attracted a number of patients from institutions which are willing and able to provide for them. The question is still under the consideration of Government. The fluctuations in the attendance at the other institutions do not call for particular notice.

2. The statement showing the race and sex of all the persons treated has in this report been submitted for the first time in a complete form, the registration of all out-door patients at the General Hospital having been properly attended to:—

Race.	Males.	Females.	Children.	Total.
Europeans	6,415	1,414	1,351	9,180
Eurasians	11,044	7,741	15,343	34,128
Mahomedans	60,112	14,252	28,345	102,709
Hindooes	106,168	22,750	23,914	152,832
Other castes	3,465	2,919	4,783	11,167
Total	187,204	48,076	73,736	310,016

It appears from this statement that 60·38 per cent. of the total number treated were males, 15·83 per cent. females, and 23·78 per cent. children. The low proportion of females to males among Hindoo and Mahomedan patients is explained by the relative smallness of the female population which the census returns brought to light, and of course to a large extent by the social customs of these races. It is no doubt less agreeable to the women of all classes and sects to seek relief at a public dispensary than it is to men.

3. The appended table shows the health of the town and suburbs during the past nine years, as exhibited in the hospital returns:—

YEARS.	ALL DISEASES.			CHOLERA.			Death-rate, excluding cholera.	Number of deaths registered by the municipality.	Rate per mille of population.
	Treated.	Died.	Died per mille.	Treated.	Died.	Died per mille.			
1868 ..	16,998	3,386	199	1,224	563	461	179	13,736	32
1869 ..	18,035	3,043	169	1,141	558	487	147	12,705	29·8
1870 ...	15,816	2,250	142	605	258	426	131	10,462	21·4
1871 ...	17,325	2,288	132	255	112	430	127	10,290	24
1872 ...	20,805	2,701	132	448	217	484	125	11,923	27·8
1873 ..	18,808	2,706	143	492	261	536	133	11,558	28·0
1874 ..	20,341	3,197	157	666	339	509	145	12,611	29·4
1875 ...	22,806	3,815	167	787	405	515	154	15,069	35
1876 ..	21,832	3,228	147	740	399	539	134	12,904	30·2

* Excluding 534 patients in the Eye Infirmary.

The death-rate per thousand among those treated was 147, including cholera cases, and 134, excluding them. From this table, it may be gathered that the public health was exceptionally good in the years 1870-1871, in respect both of the amount of sickness and of the virulence of disease, and especially of cholera; and that disease was more successfully treated in the hospitals during the past year than in either of its immediate predecessors. Dr. Beatson points to the introduction of the filtered water-supply, and of the improved system of drainage in 1869-1870, as the causes of the decrease in disease observable at that time. The cessation of the night-supply of filtered water in April 1872 probably accounts for some of the increase which has since occurred.

4. There were 136 cases of cholera in the shipping in 1876, against 110 in 1875. Dr. Beatson does not support the theory that the prevalence of this disease on the river-side is principally attributable to the discharge of Fort sewage into the river, and to emanations from the unembanked foreshore. It is remarkable, however, that Prinsep's Ghât and the Esplanade, the moorings in which these causes operate, if they operate at all, still supply the largest number of cases. Indeed, of 108 cases during the past year, of which the locality was specified, no

less than 71 came from these moorings and from Fort Point. However this may be, Mr. Eden considers it of the highest importance that the river should not be the receptacle of the Fort sewage. A Committee met during the past cold season to discuss the means by which the Fort drains can be connected with the municipal sewers. The scheme submitted has met with Mr. Eden's approval, and he has asked the Government of India to have this important work carried out as soon as possible.

5. The statement of the principal diseases from which in-door patients suffered shows some increase in enteric fever. The disease, however, appears to have been of a comparatively mild type. One-half of the sufferers treated were Europeans, and 14 out of the 22 native patients were constables. No less than 11 of these 14 cases ended fatally. It does not, however, appear that this result is due to specially defective sanitary arrangements in the police hospital or the thanas. In all, 669 important surgical operations were performed, with only 74 deaths. The operations on the eye were especially successful, only one out of 223 ending fatally. Mr. Eden is glad to learn that out of 40 deaths which followed operations at the Medical College Hospital, only two can be attributed to hospitalism. This is a great improvement on previous years, when this affection was so prevalent as to suggest a radical defect in the construction of the hospital building. It only shows how wrong it is hastily to condemn the construction of a hospital by the results of a single year.

6. The total amount disbursed on account of these institutions during the year was Rs. 5,07,473, against Rs. 4,88,835 in 1875. Of this increase, the General Hospital is responsible for Rs. 33,223. A part of this sum is represented by Rs. 18,768 for medicines and books supplied by Government. There was no corresponding entry in the accounts for 1875, and the circumstances under which this heavy charge has been incurred have not been explained. It is doubtless to some extent attributable to the undue extension of the out-door department, to which allusion has already been made. But the Lieutenant-Governor sees too much reason to believe that there is a great deal of waste and pilfering of expensive drugs in all Government hospitals and institutions. There is also an unexplained increase of Rs. 9,598 in the charges for dieting the sick, and of Rs. 3,427 under the head "Miscellaneous." In the accounts of the Mayo Hospital, as in those of the General Hospital, a charge for medicines and books supplied by Government appears for the first time. The expenditure under this head was Rs. 6,000. There is also an entry of Rs. 4,013 for dieting the sick, to which nothing in the statement for the previous year corresponds. Altogether, the charges of this hospital for 1876 amounted to Rs. 59,175, exceeding those for 1875 by Rs. 8,414. In view of the circumstance that there was a falling off of 4,075 in the number of persons treated, the Lieutenant-Governor cannot but consider this increase in expenditure unsatisfactory. In the report for 1874, the Surgeon-General estimated the permanent annual expenditure, exclusive of repairs, at Rs. 48,000. That this estimate was not unduly low was shown by the results of 1875, when, excluding expenditure on repairs, the gross disbursements were only Rs. 47,349. After deducting the charge on account of repairs, however, the expenditure for the past year is found to have been Rs. 6,861 over the estimate of 1874. The Campbell Hospital shows a decrease in the gross charges from Rs. 78,793 to Rs. 75,241. The number of persons treated, all in-door patients, was 6,640, against 7,782 in the previous year. Although the number of patients was so much smaller, there was actually an increase in the amount expended on bazar medicines, and on wine and spirits, and a large increase in the wages of servants; while the decrease in the cost of dieting the sick does not at all correspond with the falling off in the number of patients. The Lieutenant-Governor has recently found it necessary to appoint a committee to report on the expenditure of this hospital. The Sumbhoo Nath Pundit Dispensary, which has been deprived of many patients by the General Hospital, is the only institution which shows money invested during the year out of surplus income. The financial management of the Howrah Hospital has been successful. Though there was an increase in the number of sick, the charges for dieting, for medical comforts, and for "miscellaneous charges" show a decrease; while the increase in the gross expenditure is due to expenditure on repairs. This hospital receives no medicines free from Government; yet its expenditure is well within its income. Mr. Eden has very strong

grounds for believing that the expenditure on European medicines and medical comforts in most of the Calcutta hospitals is excessive, and that charges are thrown upon Government which, by careful management and a proper control of issues, might be avoided.

7. The Lieutenant-Governor cordially endorses the encomium passed by Dr. Beatson upon the ladies of the Nurses' Committee, and the lady nurses of the Canning Home. Careful and gentle nursing is often of more importance than expensive medicines, and the ladies who devote their time to the support and superintendence of this good work deserve the gratitude of Government and of the public.

8. *Medical College Hospital*.—Of the 3,818 in-door patients treated in this hospital, 1,795 were Christians and 2,023 were natives. The death-rate was 13·61 per cent.—7·18 for Christians and 19·32 for natives; excluding moribund cases, however, the mortality was only 10·35 per cent. of the total number treated. The death-rate among Christians was higher than in any of the preceding five years. The maximum death-rate of that period was 6·18 in 1872. The very satisfactory decrease in hospitalism has already been noticed. Deaths from this cause were only 5 per cent. of the number operated on in 1876, against 25·80 per cent. in 1875 and 31·06 per cent. the average of the six preceding years. The hospital authorities have not offered any explanation of this remarkable circumstance; but Mr. Eden understands that it is partly due to a new method of treating surgical cases. The Lieutenant-Governor wishes to have a special report on the out-door dispensaries at this hospital. The gradual falling off in the attendance, which has been noticed for some years, is apparently attributable in some measure to the want of accommodation. There has been a satisfactory increase in the number of minor surgical operations performed, as well as in the attendance at the ophthalmic dispensary. The question of enlarging the Medical College Hospital, so as to provide separate accommodation for surgical and obstetric cases, has long engaged the attention of Government, and Mr. Eden hopes that the work will be begun during the current year.

9. *General Hospital*.—The in-door patients admitted during the year numbered 3,805, including 409 natives. The death-rate of the Christians was 4·48, and that of the natives 13·96 per cent. Nearly one-third of the deaths among the former class resulted from cholera, 51 out of 101 cases treated ending fatally. It appears that 15 of these persons were moribund when they reached hospital. No less than 91 of these cases came from the shipping, and Dr. Elliot remarks on the difficulty of treating successfully patients who are frequently suffering from the depressing effects of previous intemperance or exposure. Another circumstance which militates against the successful treatment of these cases is the delay which generally occurs in sending the sufferer to hospital. The Lieutenant-Governor has now arranged for doolies, with relays of bearers, to be constantly in attendance at selected points on the river bank, for the prompt removal of cholera-stricken seamen to the hospital. Government have recently sanctioned the addition of an operating theatre to the surgical ward, and a lying-in-room to the women's and children's wards, and these works are now under construction. Dr. Elliot bears testimony to the excellent service rendered by the two lady nurses—Miss Huband and Miss Best, and specially acknowledges the benefit reaped by the cholera patients from Miss Best's nursing. It seems to the Lieutenant-Governor, however, that more permanently good results would be obtained if these ladies were to devote less of their time to personal attendance on the sick, and more to training the large body of nurses now employed in the Hospital.

10. *Campbell Hospital*.—It has already been observed that the admissions to this hospital were 1,147 less in 1876 than in 1875. The death-rate, though still remarkably high, shows a satisfactory decrease from 280 per mille in 1875 to 250. Excluding moribund cases, the mortality was 224 for each thousand treated. It is of course unavoidable that a great proportion of the pauper patients in this hospital should die; and the statement of the prevalent diseases shows that more than three-fourths of the total mortality resulted from ailments chiefly occasioned by malarious poisoning and exposure, aggravated by poverty. The monthly cost per patient has risen from Rs. 16-13 in 1875 to Rs. 17-2-10 in 1876. The excessive expenditure in this hospital has already been adverted to, and is forming the subject of enquiry by a special Committee.

11. *Mayo and Chandney Hospitals*.—These hospitals, with their affiliated dispensaries, continue to afford medical aid to the vast bulk of native patients. In all 189,690 persons received treatment at them during the year. The decrease of 4,075, which these figures show on the returns for 1875, is entirely due to a falling off in the attendance of out-door patients at the dispensaries and at the Chandney Hospital. The returns of the out-door patients treated at the Mayo Hospital itself show an increase of 2,079; but those of Park Street and Chitpore Dispensaries exhibit a falling off of 1,797 and 3,561 respectively. This is one of the most unsatisfactory features in the year's report, but no explanation has been offered regarding it. The mortality at these institutions was 127 per mille in 1876, against 117 in 1875. Dr. Beatson has drawn attention to some remarkable divergences in the death-rate from the same diseases at the Mayo and the Chandney Hospitals. This difference has not been explained by the Superintendent, and, as Dr. Beatson remarks, it is the more noticeable, because it may be presumed that the patients in both cases came from the same class of the population.

12. *Howrah Hospital*.—This hospital, with limited funds and accommodation, does much to meet a really serious want, and its increasing popularity and usefulness are highly creditable to Dr. Bird. The past year has seen an increase among all classes of patients, in-door as well as out-door, Christian as well as native. The utmost possible use has been made of available accommodation, and at times the verandahs have been used as wards. The mortality among the Christian and native patients was widely divergent, being only 34 per mille among the former and no less than 218 per mille among the latter. The death-rate was particularly high among native females, 275 among Mussulmans, and 286 among Hindoos. There was a slight decrease in the number of cases of cholera treated; but the disease was of a specially virulent character among the native patients, producing a death-rate of 564 per mille, against 254 in the previous year. Phthisis contributed the high death-rate of 555 per mille. Remittent fever was also of a severe type. Dr. Bird reports very favourably on Warburgh's tincture as a specific for this disease. He says that, "with abundance of this drug at hand, the medical man may confidently count on a successful result in almost every case, provided the patient comes under his care not later than the seventh day of the fever." The remarks of the Magistrate of Howrah on the admirable service rendered by Dr. Bird in connection with this hospital, which owes its establishment and success to his personal exertions, have Mr. Eden's full concurrence.

13. *Other institutions*.—The attention of the Commissioner of Police will be directed to Dr. Woodford's observations upon the state of debility to which many of the up-country constables reduce themselves by their parsimonious habits. No figures of mortality are given for the Sumbhoo Nath Pundit and Arratoon Apear Dispensaries. A verandah is much required in the last-named building for the use of patients waiting for treatment. The death-rate in the Alipore Dispensary shows a satisfactory decrease from 319 to 136 per mille. The report on the lock-hospitals has been separately considered.

14. The Lieutenant-Governor desires to tender his acknowledgments to Dr. Beatson for his full and excellent report, and for the personal interest with which he has supervised the general management of the hospitals. Dr. Cockburn's inspections have been careful and efficient. Drs. Elliot, Bird, Smith, and Cayley have the satisfaction of knowing that their labours to render the hospitals under their charge worthy of the confidence of the public have been eminently successful.

ORDER.—Ordered that a copy of the Resolution, and of the Report, be submitted for the information of the Government of India in the Home Department.

Ordered also that a copy of the Resolution be forwarded to the Surgeon-General, Indian Medical Department, for information and guidance.

Ordered also that a copy of the Resolution, and of the Report, be forwarded to the Chairman of the Corporation for the town of Calcutta, and to the Commissioner of Police, Calcutta, for information.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Government of Bengal.

ADMINISTRATION REPORT OF THE CALCUTTA MUNICIPALITY FOR 1876.

MUNICIPAL.

Calcutta, the 7th August 1877.

READ—

The Administration Report of the Calcutta Municipality for 1876.

Read also—

The Reports for 1874 and 1875 and the Resolutions recorded upon them.

THE new Corporation of Calcutta was only installed in October; the administration of the Municipality during the greater part of the year was therefore in the hands of the Justices appointed under the old law. The elected Commissioners had, however, ample opportunities before the close of the year for declaring the policy on which they intended to proceed, and the Lieutenant-Governor has been made acquainted with their views on the principal questions connected with the municipal control of the town. The elective system has been attended with precisely the results which were anticipated by the framers of the original Municipal Act for Calcutta, when they determined, after mature consideration and discussion, to reject that system as unsuited to the present condition of society in India. Many of the ablest and most useful members of the old Municipality have not unnaturally shrunk from the disagreeable process of a public canvass—a proceeding singularly distasteful to the ideas of native gentlemen. Nearly all the European members have avoided candidature, and have also, most unfortunately for the interests of the town, shrunk from serving as nominated members with the elected candidates. As was foreseen, the elections have introduced into the Municipality many clever, ambitious young men, whose chief aim is to bring themselves before the public and acquire notoriety as speakers, much to the detriment of real business. The Corporation still has, however, in its ranks a fair number of thoughtful, experienced men, and it should be their aim to draw up a scheme for the transaction of business by which all really important questions should be first considered and matured by special committees, who should also be empowered to dispose absolutely of all unimportant business, reporting their proceedings to the Corporation at large. The Municipality should nominate to these committees representative members having special qualifications for the consideration of the subjects referred to them, and should as a rule be prepared to accept the conclusions at which these committees arrive. If this were done, much acrimonious, useless, and mischievous discussion would be avoided, and much valuable time would be saved; under such an arrangement it is to be hoped that some of the experienced European merchants would be induced to lend their valuable assistance in managing the affairs of the city, which it is unreasonable to expect them to do so long as the business of the Corporation is managed at its public meetings as it now is.

The Lieutenant-Governor ventures to draw the attention of the Municipality to the admirable results which have been effected by the Port Commissioners without any public discussion or unnecessary waste of the time of its members, who are all men engaged in business, but who are willing to devote a certain portion of their time to the public good, but who would certainly not have consented to hold office if it involved many hours of public debating on every question however small and unimportant which came before them in connection with the affairs of the Port.

2. The actual revenue collected during the year was Rs. 25,43,216, or Rs. 67,015 more than was anticipated in the budget estimate, and Rs. 32,541 more than was realized in the previous year. The increase is mainly due to the large expansion of the lighting-rate receipts. The receipts on the capital account amounted to Rs. 4,78,820, including two loans from Government,—one for drainage, amounting to Rs. 2,39,400; the other for additional filters at Pultah,

aggregating Rs. 1,45,000. The aggregate amount at the disposal of the Corporation compares thus with the available assets of the two previous years:—

	1874. Rs.	1875. Rs.	1876. Rs.
Revenue account ...	24,06,560	26,17,994	25,43,216
Capital „ ...	12,59,618	4,94,156	4,78,820
Store and advance account ...	1,45,878	1,61,045	2,37,246
Cash balance ...	5,27,325	5,01,144	1,76,469
Total ...	43,39,381	37,74,339	34,35,751

The amount entered as receipts on account of stores and advances represents the net balance of the various accounts, of which the particulars are given in the report.

3. The expenditure of the past three years is shown in the following table:—

	1874. Rs.	1875. Rs.	1876. Rs.
Revenue account ...	23,33,748	30,60,755	25,82,596
Capital „ ...	15,04,490	3,52,560	6,23,095
Total ...	38,38,238	34,13,315	32,05,691

The expenditure on the revenue account was Rs. 1,45,263 less than the estimate and Rs. 4,78,159 less than that of 1875. The decrease under establishment is owing to the payment of the salaries for January 1876 in December 1875 on account of the holidays in connection with the visit of His Royal Highness the Prince of Wales.

4. The total loan liabilities of the Corporation at the close of the year amounted to Rs. 1,50,67,395, bearing annual interest amounting to Rs. 7,34,260, and involving annual contribution of Rs. 2,76,908 to the sinking fund. On the 31st December 1876 the total amount at the credit of the sinking fund was Rs. 12,89,485.

5. The collecting agency was during the year placed on a more satisfactory footing, salaried collectors, with a subordinate establishment of municipal servants, having been substituted for a collector who was paid by commission and who made his own arrangements for collecting the rates. Under the new law, which came into force on the 1st July, the police and lighting-rates became payable in advance, so that the demand for the year included five quarters instead of four. Although the demand was thus enhanced, and in spite of some difficulty arising from the new practice of charging the water-rate, now payable by occupiers and not owners of premises, in the same bill with the police and lighting-rates, the collections under these heads were very satisfactory. They amounted in both cases to 88 per cent. of the demand, as against 87 per cent. realized in 1875. The house-rate assessment was one per cent. lower than in the previous year. Under this head also the collections were one per cent. on the demand in excess of the amount realized in 1875. The collections of the water-rate were less satisfactory. Certain provisions of the new law are responsible for this. The abatement of two per cent. which the old law granted to persons paying up the water-rate demand, within one month of the call, is no longer allowed. Under the new law the rate is ordinarily leviable from occupiers, and not from owners as before. Some difficulty has been found in realizing the rate due from occupiers who have vacated premises, leaving the public demand unsatisfied. Under section 99, too, the Municipality can only require the owner to pay the fourth of the water-rate recognized as his share when the premises have been unoccupied during an entire quarter. When, therefore, premises happen to have been occupied for any part of the quarter, and unoccupied for the remainder, no water-rate at all can be realized for the period of vacancy. It has been shown thus early that the provisions of the new law involve some unnecessary loss of revenue to the municipality.

6. The cost of the repairs of roads exceeded the budget estimate of Rs. 3,00,000 by Rs. 20,380. This, it appears, was chiefly rendered necessary by the postponement of the drainage works for 1875-76 till after the year 1876 had set in. The result was that some of the operations had to be conducted in the rains, and the cost of road-scraping was considerably enhanced.

The greater part of the stone metal used was obtained from the Rajmehal quarries. This indigenous stone has been found to be better adapted for resistance to heavy traffic than imported stone ballast.

7. The daily average number of gallons of filtered water supplied to the town was 6,541,154, an increase of 335,612 gallons over the daily average of the previous year. Of the four additional filters at Pultah, for which the Government last year sanctioned a loan of Rs. 1,45,000, three have been completed since the close of the year. The supply was extended to 705 houses, and two hydrants were placed near the river-bank for the supply of the shipping. The quality of the water is shown by the Analyst's report to have been excellent, and to be generally superior to that supplied to London by the two great Water Companies. Mr. Metcalfe notices the waste of filtered water, chiefly in watering the streets, and hopes to check it by the application of a new pattern of water-cock, and by systematic house to house inspection. The daily supply to the town is about 14 gallons per head, but the amount actually available for human consumption is much less than this. The Commissioners are unwilling to undertake the expense of doubling the filtered supply, but till this is done no system of sanitation for Calcutta can really be complete. The extension of the unfiltered supply, so as to render the whole quantity of filtered water available for the personal wants of the people, is obviously a measure of primary importance, and the Lieutenant-Governor trusts that the Commissioners will soon see their way to carrying it out.

8. Three-quarters of a mile of brick sewers and ten miles of pipe sewers were laid down during the year. Less than a mile of masonry remains to be constructed before the drainage system is complete. Of pipe sewers, however, 47·34 out of 135·17 miles projected have still to be laid down. It is of much importance that this great work should be rapidly pushed on to conclusion. The condition of the open drains which still remain to be replaced requires serious attention, and until these receptacles of stagnant filth are filled or covered up much discomfort and ill-health must be caused. Mr. Eden is glad to learn that the drainage and filling up of the side drains in the Burra Bazar section have been completed. As many as 2,503 premises were connected with the sewers during this year. This is a very satisfactory result, and its good effects will be more marked when the extension of the water-supply renders complete and constant flushing practicable.

9. The cyclone caused some scarcity in poultry at the close of the year by the destruction of fowls and ducks in the districts of Chittagong and Backergunge, the principal sources of supply. Generally speaking, however, provisions of all descriptions were plentiful in the market, and the supply of vegetables was especially abundant.

10. The report of the Analyst shows that the gas supplied to the town has been of very poor illuminating power. The average was only 13·74 standard candles, compared with 16·68, the average power of the London gas in 1875. The Lieutenant-Governor is aware that this deficiency in the Calcutta gas has been the subject of much complaint, and he considers that it is a matter which deserves the particular attention of the Commissioners. The Gas Company should address their efforts to producing a strong illuminating power rather than a specially high standard of purity, which is a matter of secondary importance to the public.

11. The census of the town which was taken on the 6th April has been separately considered. Mr. Eden takes this opportunity of recording his opinion that the thanks tendered by the Corporation to Mr. Beverley for the excellent arrangements made by him and for his admirable report were thoroughly well deserved.

12. The conservancy of the town was generally well attended to. The old system of tollah mehters was not, however, thoroughly satisfactory, and Mr. Eden is aware that since the beginning of the current year it has been superseded by one more suited to the requirements of the town and more capable of effective control.

13. Perhaps the most interesting feature in the year's administration was the subjection of the town to careful sanitary examination at the hands of a qualified Health Officer. Dr. Payne's report deals with particular inquiries instituted, as well as with the general sanitary history of Calcutta and with the conclu-

sions to be drawn from statistical data which have now been collected for the first time on a sound principle. Mr. Eden has read this report with great interest. It displays patient research and great ability in dealing with the difficult problems of sanitation in Calcutta. Mr. Eden would have wished that the tone were more moderate and conciliatory, for he is persuaded that to make sanitation efficient in Calcutta the people of the city must be led, and not driven, into co-operation with the Sanitary Department. Dr. Payne should bear in mind that one case in which native society is induced by conviction to adopt a sanitary theory is worth hundreds of cases in which they are pressed into submitting to reforms of the benefits of which they are not satisfied. The Sanitary Officer must remember that the principles and theories which to him seem so obvious and so indisputable have not even yet received practical acceptance in many countries in a much more advanced condition of social progress than India, and that more is to be gained by patiently and gently endeavouring to establish the soundness of these theories by practical results than by hard language in respect of those who are not prepared to accept at once the conclusions at which he may have arrived after many years of hard study of the whole subject. In some of the finest cities in civilized Europe, with every appliance and convenience for sanitary improvement available, there are streets, lanes, and houses whose description, if faithfully given, would throw into the shade the vivid pictures of the filth of Calcutta so graphically drawn by Dr. Payne.

No real good is to be gained by laying before the people quarter after quarter in a formal report violent denunciations of their habits of life. What the Municipality should do is to bring within the reach of the people fresh pure water and efficient drainage, and by showing them by practical experience the beneficial results of allowing dirty water tanks to be filled in. Dr. Payne's own report bears the most conclusive evidence that the people are perfectly ready to use pure water when they can get it, and that they are quite open to conviction in respect to the filling in of impure tanks. The people must have some water, and if the Municipality do not supply them with a sufficiency of pure water, they are driven to the use of that which is impure. The blame attaches to the Municipality, not to the people, who pay water-rates, but do not get water. In describing the effect of the rainfall on the public health, Dr. Payne says:—"The great demand for good water, and the widespread use of it in private houses, led to its being stopped in hours of great need among the labouring people, who were driven back to the dirty tanks for their supply: these are the classes among whom cholera now remains." It is clear from this that a strong demand for pure water does exist among even the lowest classes of natives, and that it is only when this supply was shut off by the Municipal Corporation that they were driven back to the use of foul tanks, with the result of an outbreak of cholera. It is difficult to conceive a greater reproach to the Municipal administration than the fact that while the streets of the wealthy quarters of the town are watered with filtered water, the supply of the poor was stopped and they were driven to the use of what the Sanitary Commissioner describes as excrement and water. Dr. Payne has asserted of the water-supply by pipes that "its benefits were so keenly appreciated that the people generally, though doubtless gradually, resorted to the hydrants, which were in every neighbourhood within moderate distance." The people of the suburbs of all classes are described as "carrying hydrant water to some distance for drinking and cooking use." "The demand for pure water," he goes on to say, "has rapidly outgrown expectation and provision, and the desire to extend its benefits more widely has led to their being curtailed in quarters where at first there was no restriction. Reckless waste also on the part of the people has brought further necessity for limiting pressure as the only means of arresting it. That this limitation has worked very perniciously on the public health cannot, I fear, be doubted, for many people have been driven for personal and other ablution to the filthy stagnant pools of sewage called tanks." "To those who live beyond reach of the river, and have to labour through the day, there has been nothing better available in the evening over a large portion of the town than the poisonous contents of these tanks." Surely this is a state of things for which the Municipality, and not the rate-payers, are to blame. When people are driven to drink sewage by the neglect to supply them with

water, it seems to be adding insult to injury to describe them as revelling in sewage and drinking excrement and water as a matter of taste and choice. It is just as unreasonable as it is to describe the people, in another part of the report, as being unprovided with the most ordinary means and appliances of cleanly life, and then, because their habitations and neighbourhoods are dirty, to accuse them of "preferring disease to discipline." The one thing which is established, and this is most clearly established in the opinion of the Lieutenant-Governor, is that the state of mortality in the town of Calcutta is most seriously affected by the insufficient supply of pure water now available to the people; and he is satisfied that it is the first duty of the Municipal Corporation to take measures to improve their supply. It is in their power to do much in this direction by keeping up the pressure on the pipes day and night and economizing the use of filtered water by substituting unfiltered water for the purpose of street-watering and sewer-flushing.

It has long been a matter of perplexity to inquirers that, while the death-rate of Calcutta has been so low as to give it a high place for salubrity among the great cities of the world, it was well known that it contained large areas which presented conditions of filth, overcrowding, and bad ventilation which ought, *prima facie*, to lead to very different results. The first special inquiry held by Dr. Payne into an outbreak of cholera suggested the solution of this anomaly, and the results of the census immediately afterwards taken afford remarkable confirmation of his conclusions. It has been found that only 28 per cent. of the inhabitants of Calcutta were born in the town, while the number of males, as compared with females, was 262,455 to 146,581. Clearly, therefore, the town population is not one of local growth. The great mass of the male population is composed of migratory labourers and artisans, who visit Calcutta for a time and return to their homes periodically. The females, on the other hand, though in many cases they move with the males, are more or less a fixed population. This is made clear by the statistics of the female population. Considerably less than half of the women in Calcutta are returned as married, while the number of widows and of women not described is nearly as large as that of the married females.

The men for the most part are enabled, by the temporary nature of their connection with Calcutta, to betake themselves to their homes when they are attacked by any but immediately prostrating sickness. Except, therefore, from acute diseases such as cholera, only a small proportion of males actually die in the town. This theory accounts for the remarkable difference in the male and female death-rate among both Hindus and Mahomedans. The ratio of male deaths to every 1,000 of population is 28·2 and 22·8, and that of female deaths 36·7 and 41·3 respectively. Many other subsidiary proofs are adduced by Dr. Payne in support of his view. It may be considered, therefore, as established that the hitherto recorded death-rate among Hindus and Mahomedans in Calcutta, even so far as the figures are accurate, fail to convey a correct view of the healthiness or unhealthiness of the city.

14. The birth statistics of Calcutta have also been long recognized as anomalous. Until 1875 the ratio of recorded births to every 1,000 of the population never amounted to 14. The facts brought to light by the census go far to explain this. It is shown that there is relatively a small female population, of which again the child-bearing proportion is also abnormally small. It is admitted, however, that the number registered is still considerably less than the actual number of births, and that many errors occur in the record of those which find entry in the registers. In April 1875, when special measures were taken by the police to promulgate the requirements of the law, the number of registered births rose to 778 from 393 registered in March. During the last four months of 1876 the average number registered was 725, and the total registered birth-rate for the year was 17·3 per mille. It is not probable that the birth-rate of Calcutta really exceeds 22 or 23 per mille, so that the hope is not unreasonably entertained that with the increased attention which is being paid to the subject an approximately accurate birth-rate will soon be attained.

15. Dr. Payne's general survey of the sanitary history and of the present condition of the health of the town, and his examination of the operation of the different manifest causes, are able and interesting. The history of cholera during the past eight years affords specially valuable data on which to

proceed. This, the most virulent and fatal of zymotic diseases, is well known to the most ignorant of the people, and there is no likelihood that cases of it, as of some other of the acute maladies, would be described under the generic term of fever. Moreover, as its attacks are ordinarily sudden and its effects rapid, it may be generally assumed that persons struck down by it do not, as in the case of more lingering affections, leave the town before it has run its course. The recorded deaths under this head must therefore be taken as a true test of the prevalence of the disease during any given period. The following table shows the deaths from cholera during the past nine years :—

1868	4,186	1873	1,155
1869	3,592	1874	1,329
1870	1,563	1875	1,726
1871	800	1876	1,871
1872	1,142				

It is obvious from these figures that some specially favourable influences have been at work since 1869, and that, although cholera mortality is still small compared with that of the period immediately preceding that year, it is steadily increasing from the minimum attained in 1871. Dr. Payne has satisfactorily disposed of the argument, which has found some supporters, that the progress of under-ground drainage, which was extended to the northern part of the town in 1869, may be responsible for the increasing mortality. It is true that the open ditches, which were formerly scoured by heavy rain, are now in all cases separated from adjacent sewers by gratings, which only admit of the passage of the liquid sewage, and not of solid filth, and that this must always be the case until the ditches are all replaced by sewers. But this is only a proof of the necessity of pushing on the drainage system to completion and of providing more active conservancy, and affords no argument for the abandonment of works which the experience of the civilized world has shown to be necessary for the sanitation of large cities. Dr. Payne's analysis of the monthly statistics of cholera during this period afford very conclusive proof of the sanitary effects of the extension of the filtered water-supply to all parts of the town. This great boon was first conferred on the people of Calcutta in August 1869. In November and December of that year, the period when autumnal cholera ordinarily makes its appearance in force, only 136 deaths occurred, as compared with 757 in the corresponding two months of the previous year. Similarly, in the opening months of 1870 a marked decrease was observable, and the total number of deaths in that year was 1,563, as against 3,592 in 1869. In 1871 a still more noticeable diminution occurred. Those months when cholera is usually most virulent were actually more healthy than the more favourable months in previous years, and the total number of deaths in the year was only 800. The beginning of 1872 was equally healthy. In April in that year it was found necessary to stop the night pressure of ten feet of water which had been previously allowed. The total number of cholera deaths in 1872 was 1,142, and ever since there has been a steady annual increase until 1876, when the total of 1,871 deaths was attained.

16. The following table gives the mortality among the different races in 1876, as shown by the actual number of deaths which occurred in the town :—

				Ratio of deaths per 1,000 of population.		
				Male.	Female.	Combined.
Non-Asiatics	26·2	12·8	22·2
Mixed races	50·2	46·9	48·5
Hindus	28·2	36·7	31·3
Mahomedans	22·8	41·3	28

Calcutta is really more healthy for Europeans than even these figures show. They include deaths among sailors, due not to the effects of the climate, but to exposure and reckless excess. Not a single death occurred among men of this class in the Presidency Jail during the year. Among those in the shipping, however, the death-rate was 51 per 1,000. The death-rate in the Fort William garrison was only 7 per 1,000. Leaving the shipping population aside, we obtain a rate of 18 per 1,000 for male residents of the white races. It is true that the great bulk of the European population of Calcutta is composed of persons at the middle periods of life, and from this it

is sometimes argued that a favourable death-rate is necessarily to be expected. It is forgotten, however, that if the very advanced ages are little represented, so is the period between 10 and 20 years, when the death-rate in England is lowest. The death-rate among European females in Calcutta is very low, and the healthiness of young European children is remarkable. In the European Female Orphan Asylum, where the mean daily number of children maintained is 60, there have been only three cases of fatal illness during the last nine years. On the whole, the conditions of the comparison between England and Calcutta are not unfair. The result is that the European quarter of Calcutta is shown to be very salubrious, and the climate to be distinctly favourable to European life. The mixed races form the most stable portion of the population. Their death-rate per mille is 48·5. In mortality from cholera and in infant mortality—perhaps the only two cases in which a fair comparison can be made—their death-rate is below that of the natives. It must also be recollected that many Eurasians are housed and live as carefully as Europeans. There can be no reasonable doubt that the true native death-rate considerably exceeds that of these mixed races, and Mr. Eden observes that it is placed by Dr. Payne as high as 50 per thousand.

17. It is now quite clear that the middle and northern wards of the town produce a rate of mortality which the Government cannot contemplate without concern; and it has been shown that the hot-beds of zymotic disease are to be found in the clusters of native huts known as *bustees*. The condition of these bustees has engaged the attention of the Bengal, Indian, and Home Governments for many years. Dr. Payne's report leaves no doubt of the direction in which the duty of those responsible for the well-being of the town now lies; and Mr. Eden regrets to find that no allotment has been made from municipal funds for the current year for the survey of lands to be improved. The Lieutenant-Governor is willing to admit that the improvement of the bustees can only be gradually undertaken, with due regard to the state of the municipal finances, and that there are some special difficulties to be overcome; but he trusts the Commissioners will see their way to some scheme for gradually and systematically dealing with a state of things which is certainly not creditable to such a Corporation as that of Calcutta. The first thing is to provide good water, and the people will not then be so anxious to cling to the filthy water, which, according to Dr. Payne, is in a great portion of the town the only supply available to them. They not unnaturally prefer bad water to no water at all. Mr. Eden believes that the proper way of dealing with these bustees is for the Municipality to set aside a certain amount of money every year, and to buy up block after block of bustee, clear it, drain it, lay it out with roads, fill in all dirty tanks and hollows, and then sell the land thus reclaimed in convenient lots for the erection of houses for the people on plans to be approved by the Municipality. The owners of these bustees are frequently not in a condition to pay for their improvement, even though it be shown to them beyond question that the value of the land will be enormously improved by the removal of nuisances and the levelling of the land. If the matter were taken up systematically by the Municipality, they would probably find that the profit of reclamation was so certain as to warrant their raising special loans for the subject, and thus in a few years getting rid of these great sources of disease. The existence of great mortality, and the causes to which it is largely to be attributed, have now been clearly laid before the Commissioners by a thoroughly competent servant of the Municipality. The Lieutenant-Governor regrets to find that the reclamation of these bustees has been a fruitful source of acrimonious and polemical discussion between the Sanitary Commissioner and the Municipality. There is no doubt that it is a question on both sides of which there is much to be said, and he trusts that in future this important subject may be discussed with mutual forbearance and due consideration for differences of opinion, and in the end he believes that the Municipality and the Sanitary Commissioner will be found to be working together in this matter for the common good of the city. There seems to be no sort of doubt that the bustees and the filthy tanks they contain are a public nuisance. How far the smell of the tanks is worse than the smell of the sweepings that are employed in filling them in is not a material question. It seems certain that so soon as a proper water-supply and proper bathing tanks

are provided by the Municipality, these holes should be filled in. The Lieutenant-Governor is disposed to believe, as the result of his experience—and he has watched the operation in several towns—that the use of sweepings, though unpleasant for a time, is not altogether dangerous to the public health, especially if a layer of earth is daily laid over the sweepings, and whatever inconvenience ensues is temporary, while that arising from the tanks is permanent. But of course much must depend on the nature of the sweepings employed and the time of year at which the work is carried on. Indeed, the whole question of the immediate and direct disease-producing effect of sewage exposed to the air is to a certain extent an open one: it is an idea which, it is not difficult to see, cannot be expected at first sight to carry conviction to the native mind; and that the views of the Sanitary Commissioner should have led to discussion is not to the Lieutenant-Governor a matter of surprise.

The Lieutenant-Governor's own view, formed on a dispassionate consideration of the whole question, is that these tanks are very mischievous in their effects; that they are a reproach to such a city as Calcutta; and that they should be filled in on a thoroughly well-prepared system block by block: and if this is done simultaneously with a proper supply of drinking water from hydrants and bathing water from reservoirs capable of being emptied and replenished as occasion might require, Mr. Eden is satisfied that the native inhabitants of Calcutta will not be found obstructive in regard to such an obvious reform in a matter affecting their personal health and comfort. That the people are not slow to accept sanitary reform if pressed upon them with tact, and in such a manner as to carry conviction as the result of practical teaching, is clear from the statement made by Dr. Payne at page 24 of his report—"From that time complaint has been rare and applications are now received for the filling in of tanks in numbers far exceeding the Engineer's powers of compliance." From this it would seem that the difficulty of persuading the natives to consent to the filling in of tanks has practically been solved; and the Lieutenant-Governor is satisfied that there is nothing which really retards the improvement of the town so much as the long, desultory, recriminating discussions which so constantly take place at the municipal meetings; it is to remedy this, and to secure the harmonious and quiet transaction of real business by select committees, that the Chairman should endeavour to obtain the co-operation of the Municipal Commissioners. There are a sufficient number of sensible, practical, and experienced gentlemen in the Corporation to make it a matter of certainty that if irritating, useless, and exciting discussions can be avoided, the work of sanitary reform will be carried out vigorously and earnestly.

18. It appears that 17,355 municipal cases were disposed of by Justices sitting at the police-office. The Justices who interested themselves most in this duty were Baboo Umesh Chunder Dutt, Moulvie Kubeeruddeen Ahmed, Mr. Manockjee Rustomjee, and Baboo Khelat Chunder Ghose. The Lieutenant-Governor cannot consider that the result of the trials was satisfactory, or such as is likely to prevent a recurrence of offences against the law. Only 167 persons out of 18,125 were acquitted, yet the total amount of the fines inflicted was only Rs. 9,772. No less than 3,364 persons were discharged with a warning, and 668 were discharged on payment of the fee which they had sought to evade. Mr. Eden is inclined to consider this leniency somewhat ill-judged.

19. Mr. Metcalfe, who entered upon the office of Chairman shortly after the new municipal constitution came into force, has displayed much patience under difficult and trying circumstances. Dr. Payne, in his capacity of Health Officer, is rendering service which will, Mr. Eden hopes, be some day gratefully remembered by the people of Calcutta. Mr. Turnbull continues to give universal satisfaction as Secretary to the Corporation. The subordinate officials, among whom Mr. Dissent is prominently mentioned, have discharged their duties with zeal and efficiency.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA COURT
OF SMALL CAUSES FOR 1876-77.

JUDICIAL.

Calcutta, the 30th July 1877.

READ—

Report on the Calcutta Court of Small Causes for 1876-77.

THE report now submitted shows a great falling off in the number of cases instituted. Altogether 32,640 suits were brought, as against 34,502 in 1875-76 and 34,843 in 1872-73. The amount in litigation was Rs. 14,42,611, against Rs. 15,82,873 and Rs. 16,23,110. The diminution in the number of suits is chiefly observable under the heads of goods sold and delivered, bills of exchange and promissory notes, money paid, money lent, money had and received, and account stated.

2. The Judges have offered what appears to the Lieutenant-Governor to be probably a correct explanation of the marked decrease in the number of suits of the smaller values. It was decided by the High Court in April 1873 that the Court of Small Causes has no power to seize tiled huts in execution of its decrees. This ruling removed from the operation of the law an important item of security theretofore tendered by debtors, and the result was a falling off in the extent of the credit allowed them. The full effect of the decision in question was not observed until the beginning of the past year, when limitation began to bar the institution of suits brought on transactions which had been entered into on the faith of the debtor possessing a tiled hut. The influence of this ruling may also be traced in the diminished number of interpleader suits, which naturally decrease as restrictions are imposed on the execution of decrees. The Judges think it possible that institutions may have been to some extent affected by the exclusion of touters or suit-brokers. Mr. Eden is disposed to consider the removal of these persons an unmixed good. It is not clear that their absence can have had any tangible effect on the number of claims advanced. Their attentions must necessarily have been confined to persons actually visiting the Small Cause Courts, and such persons would require no special encouragement to induce them to institute their cases. Mr. Eden quite agrees with the Judges in thinking that the gain to the interests of justice and fair dealing much exceeds any theoretical disadvantages attending on the suppression of this class of practitioners.

3. But the causes to which the falling off in the number of suits of the lower values is attributed will not account for the decrease in the higher class of suits. A comparison of the institutions in this class of cases during the past four years stands thus :—

	1873-74.	1874-75.	1875-76.	1876-77.
Rs. 500 to Rs. 1,000	480	473	502	485
Above Rs. 1,000	27	36	41	44
Total	507	509	543	529

The Lieutenant-Governor would have expected a large increase in litigation of this class owing to the great impetus which the export trade has received during the past year.

4. The results of the trials seem to show that unfounded and harassing claims are still advanced, most of them of course for small amounts. During the past two years cases have been disposed of with the following results :—

	1876-76.	1876-77
For plaintiff after trial	7,789	7,073
„ „ <i>ex parte</i>	7,325	6,917
Compromised	12,197	11,501
Non-suited	3,015	2,515
Dismissed after trial	1,361	1,504
„ in default of plaintiff	2,975	3,082
Total	34,662	32,592

Against plain-
tiff, 7,351.

Against plaintiff,
7,101.

5. The number of commissions received by the court has increased from 226 in the previous year to 266 in 1876-77. The Judges draw attention to the discretion allowed to the issuing court by section 385 of the new Civil Procedure Code to select any person whom it thinks fit, and they ask that the High Court may be moved to direct the Judges of the different courts to issue the commissions, when practicable, to some pleaders of the court. The Hon'ble Judges of the High Court will be consulted on this point.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Judges of the Calcutta Court of Small Causes, and that a reference be made to the High Court as indicated in paragraph 5.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Government of Bengal.

LIBERALITY OF BABOOS PANNA LAUL AND DOORGA PERSAUD.

No. 2235, dated Calcutta, the 7th August 1877.

From—H. H. RISLEY, Esq., Offg. Under-Secy. to the Government of Bengal,
To—The Vice-Chairman to the Port Commissioners.

IN acknowledging the receipt of your letter, No. 1535, of the 28th July 1877, reporting that the Bathing Ghât in memory of the deceased Baboo Chuttoo Laul has been completed, and forwarding for submission to His Honor the Lieutenant-Governor a photograph of the ghât as seen from the Hooghly Bridge, I am directed to say that the Lieutenant-Governor has much pleasure in acknowledging the liberality and public spirit of Baboos Panna Laul and Doorga Persaud, heirs of the late Chuttoo Laul, merchant of Calcutta and Furruckabad, in having contributed so materially to the fund for providing the ghât in question.

2. I am to add that this correspondence will be published in the next issue of the *Calcutta Gazette*.

No. 1535, dated Calcutta, the 28th July 1877.

From—W. D. BRUCE, Esq., C.E., Vice-Chairman to the Port Commissioners,
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honor to report that the Bathing ghât, the construction of which was sanctioned by Government letter No. 317, dated 29th January 1875, has been completed, and now forward, for submission to His Honor the Lieutenant-Governor, the accompanying photograph of the ghât as seen from the Hooghly Bridge.

2. In submitting this report of the completion of the work, I am desired to bring to the notice of Government the public spirit and liberality displayed by the heirs of the late Baboo Chuttoo Laul of Calcutta. These gentlemen have added to the handsome bequest of one lakh of rupees, left by the deceased for the erection of a ghât on the bank of the Hooghly, the liberal donation of Rs. 32,500, which was required to complete the building in a suitable manner, and to provide for its permanent maintenance.

3. Baboo Chuttoo Laul having left, by his will, the sum of one hundred thousand rupees for the construction of a public Bathing ghât on the riverside at Calcutta, Baboo Ram Nath, the agent of Baboo Chuttoo Laul's heirs and representatives, wrote to the Commissioners asking permission to carry out the wishes and instructions of the testator.

4. The Commissioners acceded to the request subject to certain conditions, and through the assistance of Rai Greesh Chunder Doss, Bahadoor, Superintendent of the Government Toshakhana, Foreign Department, who throughout has taken the greatest interest in the construction of the proposed ghât, and materially assisted in settling the details of the agreement with the Commissioners, it was eventually arranged that the site of the ghât should be immediately to the north of the Calcutta abutment of the Hooghly Bridge; that it should be built on a plan approved by and under the direct superintendence of the Commissioners; and that the heirs of Baboo Chuttoo Laul should deposit the full amount which the work was estimated to cost in the Bank of Bengal, to the credit of the Commissioners, before the work was begun. The heirs also agreed to deposit with the Commissioners such a sum in Government promissory notes as would enable the Commissioners from its interest to keep the ghât in a state of permanent repair.

5. A premium was thereupon offered for a design of the ghât, and the plan submitted by Mr. Bayne of Calcutta being selected as the best, Messrs. Mackintosh, Burn and Co. were entrusted with the work at a cost of Rs. 95,000. Subsequently, additions were made to the buildings at the request of the heirs, and the total sum spent on the ghât amounted to Rs. 1,17,000, which, with Rs. 15,000 invested in Government securities and placed with the Commissioners for the permanent maintenance of the ghât, makes a total of Rs. 1,32,000 laid out by the heirs of Baboo Chuttoo Laul on this work of public utility.

6. The following tablet has been put up inside the ghât:—

“This ghât was erected by Lalla Panna Laul and Doorga Persaud, and is dedicated to the public to perpetuate the memory of Baboo Chuttoo Laul, merchant of Calcutta and Furruckabad. The cost of the ghât, Rs. 1,00,000, was defrayed out of the monies of Baboo Chuttoo Laul.”

7. The ghât was completed and thrown open to the public in May 1876, and its benefits are fully appreciated by the public, as evinced by the large number of people who use it daily. It is also an ornament to the river frontage of Calcutta.

8. The Commissioners would take the liberty of suggesting that a notice of this work of public utility should be given in the Government Gazette, and the thanks of Government conveyed to Baboo Panna Laul and Baboo Doorga Persaud for their liberality.

MEMORANDUM ON THE STOCK OF RICE IN CALCUTTA.

On the 25th July a telegram was received from the Viceroy making inquiry as to the stock of rice in Calcutta and the reserve for export.

2. In the report on the internal trade of Bengal by Mr. Cotton, Junior Secretary to this Government, which is now in the press, the following statement is given, based on the returns of traffic received from the registering stations established in 1875-76 and on the returns of the Calcutta Custom House:—

				Imports of rice into Calcutta.	Exports by sea from Calcutta.
				Mds.	Mds.
1876.					
April	6,36,505	5,11,528
May	3,73,349	4,43,482
June	3,43,979	3,44,058
July	8,25,554	5,64,403
August	8,08,826	8,01,437
September	8,09,040	8,40,741
October	7,82,363	10,82,870
November	15,70,657	19,53,326
December	27,05,554	34,67,840
1877.					
January	39,26,339	34,95,388
February	29,57,916	28,50,359
March	21,78,572	24,49,269
				1,79,19,254	...
By Calcutta and South-Eastern State Railway				20,100	...
Total				1,79,39,354	1,88,04,701

3. Mr. Cotton calculated that 17½ lakhs of maunds came in without being registered, as well as 8,41,700 maunds of paddy, and that Calcutta and its Suburbs consumed annually 41 lakhs of maunds. He therefore finally adopted the following figures:—

	Mds.
Rice imported into Calcutta	1,79,39,300
Paddy (8,41,700 maunds = in rice)	5,26,100
Supplies unregistered	17,50,000
Total	2,02,15,400

Against—

	Mds.
Rice exported by sea	1,88,04,700
Paddy (34,200 maunds = in rice)	21,400
Rice consumed in Calcutta	41,00,000
Total	2,29,26,100

leaving a deficiency of imports as against exports of 27 lakhs of maunds.

4. This deficiency, Mr. Cotton suggested, had been caused by the large exportations to Madras, and had been met from the old stocks in Calcutta itself. He stated that inquiries had shown that the average annual stock in trade in the metropolitan market was a stock sufficient for about two years' local consumption, i.e. that there were usually about 70 or 80 lakhs of maunds in Calcutta, the Suburbs, and Howrah. He thought that at the close of the year 1876-77 these stocks did not exceed one year's consumption, i.e. 41 lakhs of maunds.

5. His figures of consumption he found thus:—

	Population.
Calcutta proper	420,535
Suburban municipality	257,149
North and South Suburban Towns	89,895
Howrah	97,784
Total	874,363

To this total he added 25,637 for other outlying suburbs, taking the total metropolitan population at 900,000 souls. Allowing half a seer of rice per head per diem, he got a total annual consumption of 41 lakhs of maunds.

6. It did not appear possible to accept the figures of sea exports given in the above statement, as it was discovered that they were compiled from the customs monthly returns, which, as regards grain shipped to free ports, are now known to be very inaccurate. The actual amounts exported have been much lower than

those shown in the returns, owing to the failure to deduct in all cases short shipments and relands. A statement is appended showing the actual shipments from 1st February to 23rd July. The Customs Returns from 1st February to the end of June only show 73,22,828 maunds exported to Madras ports and 10,54,055 maunds exported to Bombay ports. On the other hand, much reliance could not be placed upon the accuracy of the returns of inland traffic, the probability being that the quantity of unregistered grain is much greater than that estimated.

7. It was deemed better to endeavour by local inquiry to arrive at some knowledge of the stocks actually in Calcutta than to trust to a calculation resting upon premises known to be of doubtful value.

8. The native officer who was deputed to this duty is well acquainted with Calcutta, and had frequently been employed before on similar investigations. In his report he stated that the stock on the days of his inquiry (25th to 27th July) stood in round numbers at 50 lakhs of maunds, distributed as follows:—

	Mds.
At Baliaghatta and Ooltadangah... ..	9,20,000
Hatkhola and Coomertolly	6,50,000
Other marts within Calcutta	9,25,000
Tallygunge	2,15,000
Chitlah	20,000
Kidderpore, Moonsheegunge, and other adjoining marts ..	5,00,000
	(a) 32,30,000
Add Seebpore, Ramkistopore, Howrah Town, Sulkeah, Goosery, Bally, &c.	(b) 12,00,000
Railway jetties, Gurreah, Kassipore, Burranagore and other outlying places	(c) 5,70,000
	<u>50,00,000</u>

9. In respect of all the places that go to make up the total (a), the figures were estimated after careful local inquiry and inspection. The totals (b) and (c) were given on the basis of an inspection made some little time back, but there is now reason to believe that the stocks in many of these golahs have been considerably reduced. Where a steady and enormous exportation is going on, and where importation may be checked for a few days by bores on the river, bad weather, and such like causes, it is obvious that the stocks at particular places may vary greatly within the limits of a single week.

10. On the whole, however, there is a very general belief among those of the native community who have been consulted that the estimate of 50 lakhs of maunds, taking in, as it does, the considerable marts on the other side of the river, is probably not very far wrong even now—increase in some places counterbalancing decrease in others.

11. It should be observed that in the above estimate are included all the stocks for local consumption in the hands of the numerous petty traders, of whom there are several in each bazar. (Twenty-one bazars were visited in Calcutta itself, where 1,20,000 maunds were found. There were as many more known bazars which there was no time to see.) It includes also all the laden boats on the river, which were counted and classified by maundage. They were on the day of inquiry 1,219 in number, and were estimated to hold $5\frac{1}{2}$ lakhs of maunds at the very least.

12. The native merchants who were consulted were unanimous in holding that Calcutta keeps in ordinary years two years' stocks; that these are now depleted about one-half; and that when full they are probably from 80 lakhs to a crore of maunds.

13. There seemed, therefore, no reason to suspect the general accuracy of the estimate. The amount shown by the details of the inquiry in the hands of arathdars, who usually supply grain for export, was about 10 lakhs of maunds. This was not utterly irreconcilable with the estimates given by the European prices-current, which put the stocks for export at 6 lakhs of maunds. Each European house can only go on the information it can individually get, and probably none of them, or of the brokers who supply their information, could furnish a complete list even of the araths on and near the canals. It is believed that on this point our information is far more complete.

14. But when it was asserted positively that the whole stock in Calcutta, including stock for local consumption, was only 6 lakhs of maunds, that daily

supplies now furnished daily consumption (a state of things in which one would expect to find prices at famine rates), the Lieutenant-Governor thought it necessary to depute a European officer in conjunction with the native officer who had before inquired to go carefully through all the stores in Calcutta to ascertain what the actual truth is. Mr. Newbery, late Collector of Chittagong, was appointed to this duty.

15. Their first day's inquiry (Saturday's) demonstrated the inaccuracy of the estimate relied upon by the European houses, for they found at Baliaghatta alone, in the hands of eleven arathdars, 5,01,900 maunds of rice, besides 2,00,000 maunds in smaller araths and on boats.

16. Mr. Newbery will submit daily reports, the results of which will be summarised and published hereafter.

17. Meantime, however, on Saturday, a native gentleman largely engaged in the rice trade called at this office, at the request of a leading member of native society, and gave the following information, for the general accuracy of which he vouched. He said the stocks in Calcutta now are—

	Mds.
At Tollygunge and Kidderpore and Chitlah ...	2,50,000
At Baliaghatta ...	7,00,000
At Ooltadangah ...	25,000
At Puthuriaghatta, Hatkhola, and other places near ...	8,50,000
Total ...	18,25,000

This excludes all internal bazars, retail stocks, all stocks in boats, and stocks across the river. If these were taken into account, he did not think that our estimated total (*a*) was at all excessive ten days ago; and of course a considerable addition would have to be made to his total above—probably it would have to be nearly doubled.

18. He gave in detail a list of arrivals expected between now and the 1st October, and they show a total of about 75 lakhs of maunds. It is impossible, however, that any one man should know all the rice coming down. But it is extremely unlikely that any one engaged in the trade would willingly exaggerate the stocks.

19. District officers have been called upon for rough estimates of the probable stocks in their districts at present, and the replies received up to date will be published in the Gazette. There is every reason to believe that large stocks are still available, which will come out more freely as the *aus* harvest is reaped and the prospects of the *aman* become assured. Precise figures cannot be expected, looking to the way in which stocks are held in Bengal; but a fair general idea may be gathered from prices and local inquiry in most districts.

20. It must also be borne in mind that nearly the whole of the crop of Rungpore and Dinagepore, known as the moongee crop, and which alone represents a very large stock, has yet to come into the market. These stocks do not come down till the rivers rise, and in this year the arrivals are likely to be late.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

CALCUTTA,

The 7th August 1877.

ABSTRACT.

Actual Exports of Rice from Calcutta to Madras and other Ports from 1st February to 23rd July 1877.

**ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE IN BENGAL RECEIVED UP
TO THE 7TH AUGUST 1877.**

*N. B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior.
at best a rough approximation is all that can be expected.*

Burdwan.—Information from all the chief marts in the district is awaited; but inquiries at the railway-station show that exportation to Calcutta has much slackened of late. The fall in prices shows there is no deficiency in the local supply. About 100 or 150 maunds pass down the Trunk Road daily in carts. Surplus stock available for export is very small.

Bankoora.—No exportation worth recording has taken place during last week. Prices have fallen.

Beerbhoom.—Prices of common rice vary from 15 to 20 seers in the interior, the average being 17. At Soory the price is 17½ seers. The Railway having ceased to carry food-grains, exportation being very nearly ceased. The Ranigunge road takes the Dooobrajapore thana, and a small amount of rice finds its way to Cutwa, and thence to Calcutta. But the total exports are small. The stocks are large now, but there will be heavy exportations whenever the Railway resumes carriage of grain.

Midnapore.—Surplus available for exportation over the wants of the district up to 31st December 1877, when the chief crop of the year will have been harvested, is 40 lakhs, and up to 31st January 1878, 35 lakhs maunds of paddy, which is equal to 20 lakhs maunds of rice. The exportation of this quantity would, however, deplete the district of old rice by the 1st January, and leave the population dependant on the new crop.

Hooghly.—Stocks along the Hooghly, between Howrah and Tribeni, are estimated at over one lakh of maunds at least. Stocks in the interior barely normal. Exports to Calcutta have been resumed, and prices have slightly risen in consequence.

Howrah.—All markets are well supplied with food-grains. Exportation continues, as usual every year, from Mundleghât and Bunder through the Canal to Calcutta, rice being always much cheaper in the west of Howrah and east of Midnapore than on the Calcutta side.

Jessore.—Importation to Calcutta for Madras and Bombay continues brisk, and stocks are in consequence much less than is usual at this season. Prices are considerably higher; but there has recently been noticed a tendency to fall owing to the prospects of the early rice crops, and possibly also partly to the reports of rain in some parts of the famine area.

Moorshedabad.—Exportation is now on a very much reduced scale compared with three weeks ago. The supply is sufficient, and in parts of the district is being supplemented by the *aus* crop. Prices were highest about the 22nd July, when 11 or 12 seers of coarse rice were obtainable for the rupee in most marts of the district.

Rajshahye.—There is plenty of rice in the hands of rice-huskers. From 200 to 300 maunds are daily exported to Calcutta from Bauleah. Common rice is selling at 19½ to 23 seers, and paddy at 33½, gram at 21 seers, and pulses 26 to 30 seers.

Rungpore.—Approximately there are about 18 lakhs of maunds of old rice in the district, and the outturn from the *aus* crop just reaped may be estimated at least at 15 lakhs. Out of the total stock of 33 lakhs, about 29 lakhs will be required for consumption, leaving a surplus of four lakhs available for exportation. Of late there has been much activity in the export of rice from Kaligunge, Kalida, Jatrapore, and Dum-Dum. The price of rice has risen within the last week at head-quarters from 23 to 18 seers per rupee retail, and 20 seers wholesale. At Gaibanda the selling price is 18 seers, at Kurigram 4 seers. No fall is expected—rather a tendency to rise.

Darjeeling.—In the Terai the stocks are sufficient for the Bengali population till next harvest, and probably enough for the supply of the tea garden population. For the Hills the supplies are mainly imported from Julpigoree, Purneah, and the Nepal Terai. The importation is going on as usual, except to Kurseong, where there is a large stock. Prices now are considerably lower than they were at this time last year throughout the district. There is no stock available for exportation.

Julpigoree.—No stocks in hand, except with jotedars for local consumption. Merchants have only 200 maunds in stock. Wealthy jotedars have retained a few thousand maunds for local sale when prices rise. There is usually no exportation from the district, except small supplies sent to Darjeeling and Cooch Behar.

Dacca.—Grain supply is ample and all markets are supplied according to demand. The exports of rice to Calcutta in week ending 3rd August amount to 78,265 maunds, besides 4,000 or 5,000 maunds of unregistered traffic. Owing to fall of price in Calcutta a consignment which had gone to Coalundo has been brought back.

Average price is 17 to 19 seers. Stock in hand in Dacca, Naraingunge, and Mirpore, is about 33,000 maunds. Available stock in the district, if there is a good harvest, is estimated at a million maunds.

Rackergunge.—The price of rice per maund is in Dukhin Shahbazzpore Rs. 4-4, in the sudder sub-division and in Perozepore and Patuakhally Rs. 4. The prices will probably rise a little more, but there is no apprehension of a famine in the district. The stock in the different golahs in the district is estimated at from 25,000 to 30,000 maunds.

Mymensingh.—Up to 15th July all the outlying sub-divisions were doing well, common rice being sold at 18 to 20 seers, and in the head-quarters at 16 seers; since then prices have risen. At head-quarters, on the 26th July, it was Rs. 2-12 per maund; on 31st July, it was 21 seers in Jamalpore and Sherepore and 13 seers 5 chittacks in Kishoregunge. The people seem to anticipate a further rise. Exportation continues on an enormous scale. The Collector cannot hazard a guess at the stock in the district, but he fears no scarcity.

Tipperah.—Price of rice varies in different marts from Rs. 2 to 3 per maund. It is likely to rise slightly during August, as the *aus* crop has not been very abundant. Prices will fall again in September, when the prospects of the *aman* are assured. The stock available for export is roughly estimated at ten lakhs of maunds in small stores all over the district. Export to Calcutta has been discontinued during the past few days, but export still continues to Chittagong, Noakholly, and Hill Tipperah.

Chittagong.—No exportation of rice to Calcutta is recorded during the week. At Chittagong Sudder Station best rice was sold on 1st August at 7 seers, and common rice at 11 seers the rupee.

Patna.—Export to Calcutta, which last week was very brisk and caused temporary rise in price of common rice, is now more normal. The markets are full.

Shahabad.—Arrangements have been made to ascertain the stocks in hand from the principal marts. If the crops fail in the North-Western Provinces the district will lose its food supply, otherwise it has had three good years, and there ought to be large stocks. The high prices in Calcutta will of course carry grain from the district, but the lower orders do not consume the cereals exported. They live mainly on imported rice and the produce of the local khureef.

Durbhunga.—The markets are well supplied, but prices range unusually high, with no indication of an immediate fall. The stocks are estimated to be low, owing to the unfavourable harvest of last year and large exportations in the early part of this year. There is but little exportation now, and no change in this respect is expected till the present favourable prospect of the coming harvests get more assured.

Mozufferpore.—The markets are well supplied with food-grains. There is about six months' supply for the whole population. There are now no exportations from the district. Prices are generally easy, but show a slight tendency to rise. Probable amount of food-grains available for exportation is 60,000 tons.

Saran.—Stocks are estimated at 20 lakhs of maunds, *i.e.* 5 lakhs in the hands of dealers and 15 lakhs in cultivators' stores. But it is to be noticed that the district has to import part of its food, so that, as a food-producing district for the benefit of other parts of the country, it should be left out of calculation. Common rice sells at Chupra from 12 to 15 seers the rupee according to quality; Bansmuttee rice at 10 seers; *urwa* at 12 to 13 seers.

Chumparun.—The present stock of food-grain at Bettiah and Chainputtrah is 18,000 maunds, and at Motihari 3,000 maunds. Stocks are sufficient for consumption, but none available for export.

Monghyr.—Prices of all kinds of food-grain are on the rise and will probably go up slightly till the *jeenera* is reaped.

Bhagulpore.—There is much food-grain in the district as usual at this season, say 1½ lakhs of tons; one-fifteenth of this is probably within reach of rail or river now. The dealers, however, are doing but little export, believing that Calcutta is overstocked. Prices are lower than they were a fortnight ago, and are inclined to fall, as the prospects of the crops got more assured. Common rice is selling at 16 seers 10 chittacks, gram at 20 seers, and wheat at 17 seers 6 chittacks per rupee.

Purneah.—Enquiries are being made as to the exact quantity of grain in the district. Certainly there is a much larger quantity in stock than is usual at this season, because the rivers have not risen sufficiently high to allow of boats coming up (except a few which have come up on the larger rivers), and exportation by road or rail is not likely to pay. The Calcutta firms are believed to have stopped sending pressing orders for purchase. Three-fourths of the stock purchased by mahajans remain unexported. Prices are therefore steady, varying from 20 seers common to 16 seers best rice.

Maldah.—During the last fortnight the price of common rice fell considerably, from 18½ to 14 and 15 seers. It has now a slight tendency to rise. It is 16 or 17 seers the rupee. At this season the district has never any large stock of food-grains above the required consumption.

Balasore.—Stocks of rice are believed to be low at present, only sufficient for consumption up to the end of December. The exports during 1875-76 on account of famine demands were unprecedentedly extensive. Exports of rice by sea amounted to 73,015 cwt. in the hulk and 1,038,098 cwt. not in the hulk.

During July exports were only made from the Dhamra port (including Chandballi) to the extent of 17,355 cwt. to Calcutta and 28,970 cwt. to Madras of rice not in the hulk.

The price of coarse rice varies from Re. 1 per maund in the interior to Rs. 2.3 at Balasore and Chandballi. About 2,000 tons are now held in store at Balasore for exportation in the north-east monsoon, and 2,000 tons more are available at Chandballi and its vicinity, and if a very high price is obtainable, the people will sell their grain to an extent far beyond the limits of prudence.

Hazareebagh.—At Hazareebagh the prices are—wheat 18 seers, coarse rice 17 seers, good rice 15, *murooh* 27, gram 22½. The prices are rising rapidly, and will continue to do so, unless there is early heavy and continuous rain. There is ample stock now, but owing to high prices offered by buyers from Calcutta, many holders may be induced to part with their stock.

Lohardugga.—The price of rice at Ranchee is 24 seers, at Palamow 25 seers per rupee. There is no tendency to rise at present, though it is feared that there will be a rise unless there be soon a plentiful rainfall. The stock of food-grains in the sudder sub-division is guessed at three lakhs of maunds of paddy. There is no export to Calcutta.

Singbhoom.—The supply is plentiful in all the markets, and the stock is sufficient for two years' consumption. The price of rice in Singbhoom is 1 maund, and in Dhulbhoom 36 seers per rupee, but is likely to rise 25 per cent. Wheat is selling at 26 seers, and is likely to continue so. The exportations are to Midnapore, Bankoora, and stations on the East Indian Railway. At one market (Bahargora) the exports have raised the price of rice from 36 to 27 seers.

Manbhoom.—Stock is ample, but ill-distributed. It is sufficient for at least six months' consumption, or say a lakh of tons. If the autumn harvest be good, there will be no fear for 12 months. Places not easily accessible are well supplied, and rice is cheap there. From places accessible from rail rice is being exported, and the price there is high. The price at Govindpore is 18 seers, at Purulia 25, and at Raipore 32. Unless exportation, which is going on rather largely, ceases, prices will gradually rise.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

The 7th August 1877.

The following statement shows the Quantities of the principal Staples of Traffic imported into Calcutta from the interior during the month of May 1877—(continued).

STATISTICAL DEPARTMENT,
The 7th August 1877. }

A. MACKENZIE,
Offg. Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 4th August 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Aug. 4 '77	2.08	Rainfall at Culna has been 2.25 inches, at Cutwa 2.32 inches, at Bood-wood 3.35 inches, and at Jehanabad 4.37 inches. Return from Raneeunge not received. <i>Aous</i> paddy in Culna and Cutwa is doing well. Transplantation of <i>amun</i> paddy is proceeding satisfactorily. Price of rice is lower.
	2 Bankoora, " 4 "	3.22	Heavy showers throughout the district. The greater part of the rice crop is now planted out, and there is no cause for anxiety at present. Indigo is being manufactured, and the outturn is not as good as was expected before.
	3 Beerbhoom, " 4 "	3.05	Rain every day of the week, but no really heavy fall. The prospects have improved. The rain of the week has enabled the people to renew the process of transplanting. The low lands are fairly planted out, but more rain is wanted for the high lands. Prices are still rising.
	4 Midnapore, " 4 "	4.09	Good rain has fallen over the whole district. Prospects have much improved, and may now be described as favourable so far as the rice crops are concerned. The outturn of indigo is bad, as already reported.
	5 Hooghly, " 4 "	2.45	Alternate rain and sunshine. Transplantation of late rice is going on. Jute and indigo are being reaped, and early rice is in ear. Coarse rice is selling at 12½ seers per rupee. Public health is normal. No new cases of cattle disease.
	Howrah, " 4 "	4.34	Weather—Very seasonable. State and prospects of the crops continue to be good. Transplantation of <i>amun dhan</i> is going on.
<i>Central Districts.</i>			
PRESIDENCY DIV.	6 24-Pergunnahs, Aug. 4 '77	5.40	Weather—Seasonable. <i>Aous</i> crop is promising. Transplantation of <i>amun</i> crop is still going on. Health in general is good.
	7 Nudda, " 4 "	2.11	Rain frequent but not heavy. The prospects of both the rice crops are excellent, but a heavier fall of rain would be of advantage. Prices are lower than they were about a fortnight ago.
	8 Jessore, " 4 "	2.82	Weather—Rainy. The rivers are somewhat higher, and the manufacture of indigo is progressing more satisfactorily. The want of the inundation, which ordinarily comes at this season, is being felt somewhat by the rice crops in the marshes. Prospects however are exceedingly good.
	9 Moorshedabad, " 4 "	1.99	Weather—Bright, with occasional showers. 2.24 inches registered at Rampore Hat, 1.55 inches at Lalbagh, and 3.12 inches at Jungypore. The prospects of the crops are generally favourable. But rain is still wanted in many villages in the Rampore Hat sub-division. In the south-east of the district on the contrary some sunny weather would do good.
RAJSHAHY AND COOCH BEHAR DIV.	10 Dinagepore, " 3 "	6.49	Weather—Cloudy and cool. Plenty of rain; 2.18 inches registered at Roygunge up to 1st instant. Winter rice is being planted out rapidly. <i>Bhadai</i> and <i>donee</i> rice, jute, and other crops, are promising very well.
	11 Rajshahye, " 4 "	3.31	More or less rain nearly every day of the week in all parts of the district. The gradual rise of the inundation water has been favourable to the rice crops. <i>Ropa dhan</i> is being transplanted. Early rice and jute are being cut. Fever is very prevalent.
	12 Rungpore, " 3 "	8.52	Weather—Exceedingly rainy and cool. 5.55 inches registered at Gaibanda, and 4.51 inches at Kurigram. The outturn of <i>aous</i> rice and indigo is good. The recent heavy rain will be very beneficial to <i>amun</i> rice. The state and prospects of all other crops are good and favourable.
	13 Bogra, " 4 "	5.37	Weather—Rainy almost throughout the week. All the standing crops are getting on well. In some places some <i>aous</i> rice has been damaged by increase of water in the fields. Cultivation of <i>amun</i> is in some places retarded, the fields being flooded.
	14 Pubna, " 4 "	1.72	Weather—Showery and favourable. State and prospects of the crops continue to be good. The harvesting of <i>aous dhan</i> and the transplanting of <i>amun dhan</i> are completed. Rivers are low, and fever is not increasing.

No.	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Continued)			
Central Districts			
RAJSHAHY AND COOCH BEHAR DIVS.	15 Darjeeling, Aug. 3 '77	4.61	Rain every day during the week, but it was not heavy on any day. A good deal of cloud and mist. The crops on the whole are progressing favourably throughout the district. The <i>bhadoi</i> rice is ripening, and the <i>kaimunti</i> , or winter rice, is more than half transplanted. Indian corn, millets, and potatoes, are doing well.
	16 Jalpigore, „ 4 „	1.31	Much less rain, but there is at present no deficiency in rainfall. Condition of <i>bhadoi</i> rice is good all over the district except in Mynagore, where it has been somewhat injured by the heavy rains. Transplantation of <i>kaimunti</i> rice is going on very favourably everywhere. The jute crop is good except in Kyranti and Myagore, where it has suffered somewhat from the rain.
	Cooch Behar, „ 2 „	7.58	Weather—Cool and generally cloudy; but the sun, when it is out, is very powerful owing to refraction from the water. In the early part of the week there was continuous rain. 8.86 inches registered at Mathabhang, 8.12 inches at Mekhigunge, and 7.16 inches at Dinhatta. Nothing could be better than the present state of weather. Heavy rain succeeded by breaks of sunshine. A few days break will do good now. The floods do not appear to have harmed the crops in any way. If there be a late fall of rain in October there is still every prospect of a very good harvest. Public health is very good.
Eastern Districts.			
Dacca Divs.*	17 Dacca, Aug. 4 '77	3.91	Weather—Seasonable. There has been heavier rain in the district generally than at head-quarters. State and prospects of the crops are favourable.
	18 Furreedpore, „ 4 „	7.21	Weather—Seasonable; 7.67 inches of rain registered at Goulundo, and 1.67 inches at Madaripore. The rain and the rise of the rivers have improved the prospects of the <i>amun</i> crop.
	19 Backergunge, „ 2 „	3.71	Rain daily throughout the district. Prospects of <i>amun</i> rice are favourable, and reaping has commenced in a few places. Fever is prevalent in thanas Jhalokati, Backergunge, Perozepore, Shoroopkati, Motbaria, Mirzagunge, and Goolshakhal. Cattle disease has made its appearance in thanas Motbaria, Mirzagunge, and Barhanuddin.
	20 Mymensingh, „ 3 „	5.67	Weather—Very rainy. There has been rather too much rain. The rainfall is now in most parts doing more harm than good.
	21 Tipperah, „ 3 „	4.61	Weather—Seasonable. Sufficient rain has fallen during the week; 2.95 inches registered at Brahmunberia. Prospects of all crops are fair. Early rice is being reaped.
CHITTAGONG DIVS.	22 Chittagong, „ 2 „	7.79	Weather—Seasonable. Rain throughout the week. Prospects of the crops are favourable. Fever is still very prevalent. Cholera reported from the south.
	23 Noakholly, „ 2 „	4.07	Weather—Cool. Rain every day during the week. Early rice is being reaped. Transplantation of late rice is going on. In some low parts of the district early rice and <i>amun</i> seedlings are reported to have been damaged by submerision. Health of the district has much improved.
	24 Chittagong Hill Tracts, July 31 „	8.79	Weather—Rainy throughout the week, but not excessively. Paddy is being gathered in early <i>joams</i> . Cotton plants are thriving well. Prospects are fair.
	Hill Tipperah, Aug. 1 „	4.59	Incessant rain throughout the week, and no more wanted for the present. The state of the crops is very satisfactory.
BEHAR			
PATNA DIVS.	25 Patna, „ 4 „	4.46	Weather—Cloudy; drizzling at intervals. <i>Bhadoi</i> crop in Behar sub-divisions is most excellent; elsewhere it requires rain. Rain is also much wanted for winter rice.
	26 Gya, „ 4 „	4.53	Rainy season weather—Maximum thermometer 97.8° in the shade. 8.61 inches of rain registered at Nowada, 1.26 inches at Jehanabad, and .12 of an inch at Aurangabad. In Aurangabad the rain has served to revive the <i>khareef</i> plants which were withering in the nurseries, but transplantation is still impossible. More rain is required for transplantation in Jehanabad. Transplantation is going on elsewhere. The prospects of the <i>bhadoi</i> crops have improved.
	27 Shahabad „ 4 „	2.30	Weather—Cloudy and hot. 1.51 inches of rain registered at Dehres, 2.57 inches at Sasaram, and 1.59 inches at Buxar. The rainfall appears to have been general throughout the week, and the rapid rise in the price of cereals seems to be arrested. The rain will permit of seed <i>khels</i> where burnt up being resown, and will benefit the <i>bhadoi</i> crop, which is good. The <i>bhadoi</i> has suffered in places from insects which have been specially prevalent this year, but this will not materially affect the outturn. Prospects will be fair if there be rain from 15th August to the end of September in good quantity to admit of transplanting the <i>aghani</i> rice and to nourish it.
	28 Durbhunga, „ 4 '77	3.68	The week has been showery with intervals of sunshine. The rainfall has been perhaps too plentiful, and some complaints are made of the submergence of the lowland crops. But generally speaking the prospects of both the <i>bhadoi</i> and <i>aghani</i> crops throughout the district continue satisfactory.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Continued.)			
PATNA DIVN.	29 Mozufferpore, Aug. 4 '77	4.18	Weather—Cool and occasionally cloudy. In the Seetamurhee sub-division the rainfall during the week was 1.72 inches, and all the crops are doing well. In the Hajepore sub-division there was .40 of an inch of rain, and the prospects of the crops in this and the Sudder sub-division are generally good, but more rain is wanted for the rice crops in both the sub-divisions. The rivers are in flood, and inundations have done much good to the rice crop in many parts. Health of the district is good.
	30 Sarun, „ 4 „	.48	Weather—Cloudy and hot; wind variable. It seems as if rain would come at any moment, but at present it obstinately holds off. .76 of an inch registered at Sewan. There has been scanty rain in almost all parts of the district, and a good downpour at an outpost to the extreme west, but heavy rain is urgently wanted everywhere. Transplantation of <i>aghani</i> rice is at a standstill for want of rain. Indigo manufacture is going on, and in some places a more than average outturn is expected. But other planters are losing heavily from the manufacture having stopped for want of water.
	31 Chumparun, „ 4 „	4.11	Weather—Cloudy. East wind. The prospects of both <i>bhadoi</i> and <i>aghani</i> crops are good.
BHAGULPORE DIVN.	32 Monghyr, „ 4 „	3.42	Rain almost daily. 1.26 inches registered at Begu Serai and 1.75 inches at Jamui. Crops are everywhere doing well.
	33 Bhagulpore, „ „	Return not received.
	34 Purneah, „ 4 „	3.75	Weather—Showery; 5.17 inches registered at Kissengunge and 4.57 inches at Arracah. The rain has been most beneficial. The early <i>janera</i> crop is being reaped, and the <i>bhadoi</i> is in many places ready for cutting. The outturn will be about twelve annas. The transplanting of the winter rice is going on satisfactorily except in those villages which have been flooded by the Koosi, which broke out this year down an eastern channel which it had left for many years.
	35 Maldah, „ 4 „	7.6	Weather—Cloudy, with seasonable rain almost every day. State and prospects of the crops are now decidedly good.
	36 Sonthal Perghe, „ 5 „	2.16	Weather—Unsettled. Light showers near Doomka. 3.79 inches registered at Godda, 4.0 inches at Rajmehal. Prospects in Rajmehal and Godda are very good. The planting of <i>dhan</i> is backward in the high lands of Doomka. There is enough water in the low lands. <i>Janera</i> is a great crop everywhere.
ORISSA			
ORISSA DIVN.	37 Cuttack, „ „	Return not received.
	38 Pooree, „ 2 „	.14	Weather—Hot and cloudy. .53 of an inch of rain registered at Khoordah. The clouds gathering, and rain is hoped for. There was a little rain in some parts of the district whereby the <i>deali</i> crop, which was sown on high ground like river banks in May and June, has been kept alive in those places, but elsewhere it is thought that a quarter of the crop has perished. In the hilly lands of Khoordah the loss is greater, but there facilities for artificial irrigation exist and the sub-divisional officer is active. Plans for forming reservoirs are under discussion and will soon be put in practice. Miscellaneous crops, such as sugarcane and <i>arhur</i> , are fairly prosperous, but <i>mandia</i> (a small cereal) has begun to feel the drought. Cholera has disappeared from the city.
	39 Balasore, „ 3 „	1.09	Weather—Mostly cloudy and showery. The rainfall has been partial and in many places light. On the whole, however, it has been sufficient for the present wants of the young crop, which is in good condition. To enable it to grow more freely more rain will soon be required. The damages caused by the recent Byturni floods are being repaired by replanting. Public health is good.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
40	Hazareebagh, Aug. 3 '77	2.18	Weather—Still unseasonably dry. A good fall of rain on the 31st July, followed by showers on the two succeeding days, has put life into the rice seedlings and saved them from perishing; much of the <i>murwa</i> has also been saved. Other <i>bhadoi</i> crops are doing very well. More rain, heavy and continuous, is required before the rice can be transplanted.
41	Lohardugga, „ 4 „	3.92	There were complaints from all parts of the district that the crops were beginning to suffer from want of rain, but the abundant fall of the past two or three days will set matters right again. <i>Govndli</i> and <i>makai</i> are being housed, and the outturn is an average one. <i>Gora</i> paddy is earing; <i>amus</i> paddy is in course of transplanting. In the Palamow sub-division complaints are made that <i>kado</i> , <i>murwa</i> , and other crops, are being seriously ravaged by some insect called <i>phunga</i> . The prospects of the <i>khareef</i> crop are also reported to be unfavourable.
42	Singbhoom, „ 3 „	2.64	Weather—Seasonable. The prospects of the crops are very favourable. The district is healthy.
43	Manbhoom, „ 4 „	.53	Weather—Dry. Rain fell on the 4th instant, and more, it is believed, will fall. Rain is wanted except in a few parts of the district. No great injury has been done, though transplantation has been retarded.

Published for general information.

The total fall of rain from 29th July to 4th August ...	5.22
The average fall of the corresponding period for 24 years ...	3.70
The total fall from 1st January to 4th August ...	36.46
The average fall of the corresponding period for 24 years ...	36.89

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

d drizzling, l lightning, lr lightning reflection, t thunder, p passing temporary showers, o overcast, g gloomy.

Leave Calcutta	21st August.
Arrive Kishnaghur	22nd "
Kishnaghur	23rd,	24th "
Leave Kishnaghur	25th "
Arrive Berhampore	26th "
Berhampore	27th,	28th "
Arrive Jungipore	29th "
„ Rajmehal	30th "
„ Bhagulpore	1st September.
Bhagulpore	2nd, 3rd,	4th "
Arrive Carragola	5th "

H. BOILEAU, Captain,
Private Secretary.

No. 4259A.

GENERAL.—*The 7th August 1877.*—The three months' privilege leave granted to Mr. E. Grey, Judge of Gya, under the orders of the 20th March 1877, published in the *Calcutta Gazette* of the 21st idem, is commuted, under Sections 12 and 35 of the Civil Leave Code, to furlough for seven months.

The 8th August 1877.—Sir W. J. Herschel, Bart., Magistrate and Collector, Hooghly, is allowed furlough for two years, under Section 12 of the Civil Leave Code, from the 1st October 1877, or such subsequent date as he may avail himself of it, together with subsidiary leave not exceeding thirty days, from the 12th September next, under Section 24 of the Code.

Mr. F. H. Pellew, Officiating Magistrate and Deputy Collector, Howrah, is appointed to officiate as Magistrate and Collector of Hooghly during the absence, on furlough, of Sir W. J. Herschel, Bart., or until further orders.

Mr. A. A. Wace, Officiating Magistrate and Collector, Bhagulpore, is appointed to officiate as Magistrate and Deputy Collector of Howrah during the absence, on duty, of Mr. T. J. C. Grant, or until further orders.

Mr. H. J. Newbery, on special duty in Calcutta, is appointed to officiate as Magistrate and Collector of Bhagulpore during the absence, on deputation, of Mr. V. T. Taylor, or until further orders. This order will have effect on the termination of the special duty on which Mr. Newbery is now employed.

Mr. G. A. Grierson, Officiating Joint-Magistrate and Deputy Collector, Rungpore, is transferred to the Bhagulpore Division.

Mr. G. C. M. Smith, Deputy Magistrate and Deputy Collector, employed under the Public Works Department, Irrigation Branch, of this Government, is transferred to the Rajshahye and Cooch Behar Division on being relieved of his present duties.

Moulvi Ahmed, Deputy Magistrate and Deputy Collector, Backergunge, is allowed furlough for one year, under Section 7, Supplement F of the Civil Leave Code, with effect from the 15th instant.

The 9th August 1877.—Mr. A. W. Cosserat, Deputy Magistrate and Deputy Collector, Doonka, Sonthal Pergunnahs, is appointed to have charge of the Arrareah division of the Purneah district during the absence, on leave, of Baboo Kedar Nath Dutt, or until further orders. •

NOTIFICATION.

Rules for the Zemindari Dák under Act VIII (B.C.) of 1862.

The 11th August 1877.—The primary object of the zemindari dák is the conveyance of letters between police officers and police-stations and the magisterial officers of the district. Where, however, zemindari dák establishments exist, there can be no objection to making further use of them for the conveyance and delivery of private correspondence, so long as no extra charge is thrown thereby upon the zemindars or Government farmers. Throughout Bengal, moreover, it has been found convenient to entrust to the Postal authorities the general control and direction of the district dák lines, to ensure their proper working in connection with the lines of the imperial post. The following rules have been framed by the Lieutenant-Governor of Bengal under Section 11, Act VIII (B.C.) of 1862, for the purpose of defining the duties and relations of the Magistrates and the Postal authorities, and for giving proper effect to the provisions of the Act.

Preamble.

1. It is the duty of the Magistrate of the district to determine the stations between which communication is required for police purposes.

2. The Post-Master-General will then, in communication with the Magistrate, arrange all questions connected with routes, stages, timing, strength and cost of establishment and the like, any difference of opinion between them being referred for the orders of the Commissioner, which shall be final.

3. No charges on account of delivery peons or rural messengers can be included in the zemindari dâk budget; but the cost of all establishments necessary for the collection and proper keeping of the accounts of the zemindari dâk cessa, as well as for the punctual conveyance of the district mails, and all reasonable charges for contingencies, including boats, huts, common post-office furniture, stationery and the like, must be defrayed from the funds raised under the provisions of the Act.

4. The Sub-Inspector of Post-Offices will annually, on or before the 15th of November, prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. The Magistrate, after including in this the cost of his own office establishment and any extra provision necessary for keeping up communications with his own camp while on tour, will forward the budget to the Post-Master-General, who will, after passing or modifying it (in communication with the Magistrate) return it to the Magistrate for insertion in the budget of the estimated balance at the close of the current year, and the total sum necessary to be levied with reference to the provisions of Section 10 of the Act, with a note of the rate at which he proposes to levy the cessa.

Having thus completed the budget estimate, the Magistrate will forward it for the approval and sanction of the Commissioner, who, after passing it, will forward it to the Accountant-General.

5. The monthly pay-bills of the zemindari dâk establishments will be drawn by the Post-Master disbursing the amounts, and be paid at the treasury on the countersignature of the Magistrate. The pay-bills of the Magistrate's own office will be paid on his signature. The monthly contingent bills will be passed only on the countersignature of the Post-Master-General. Charges for boats in the rains, though provided in the budget, will not be incurred without the previous sanction of the Post-Master-General. The Magistrate shall be at liberty to draw against the special provision for dâks to his camp on tour without any reference to the Post-Master-General.

6. All nominations for posts of dâk munshis, overseers, and other subordinate officers of the superior grade will be made by Inspectors, subject to the Magistrate's approval; and all proposals for the fine, suspension, or dismissal of men of this class must also be submitted to the Magistrate. Appeals from the Magistrate's orders will lie to the Commissioner. The Magistrate will appoint his own office establishment. The appointment and dismissal of runners will lie with the Inspector, subject to an appeal to the Magistrate. Applications for leave will be submitted through the Inspector to the Magistrate.

NOTIFICATION.

The 7th August 1877.—Rules 3 and 4 of the Notification dated 22nd February 1869, regarding the limits within which the possession and transport of salt shall be regulated, have been modified as follows:—

Rule 3.—The whole tract of country, with the exception noted below, included between the sea-board of the Bay of Bengal, and a continuous line drawn from the southernmost point of the coast of Chittagong to the southernmost point of the coast of Cuttack, so as to include the following districts and parts of districts.

The district of Chittagong, except thanas Futtickcherry, Raojan, and Satkania, and outpost Ramgoonea.

The district of Nonkholly, except thanas Ramgunge, Begumgunge, Fenny, and Chagulnaya.

The district of Backergunge, except the Sudder sub-division, the sub-division of Madareepore, and thana Sharupkati, in the Perozepore sub-division.

The sub-divisions of Khulna and Bagirhat, in the district of Jessore.

The district of the 24-Pergunnahs, except the sub-divisions of Baraset and Barrackpore, and thanas Kalara, Satkhira, Magra, and Baduria.

The thanas Bally, Golahbaree, Howrah, Seebpore, Doomjor (including Sankrail), Ooloo-barya, and Shampore, in the district of Howrah.

The thanas Raghunathpore, Contai, Kedgerree, Bhugwanpore, Nundigram, Soottahatee, and Muslundpore, in the district of Midnapore.

The districts of Balasore and Cuttack (including the whole of the Cuttack Municipality), excepting those portions which lie to the west of the Grand Trunk Road.

Rule 4.—Within the above limits the tract in and about Calcutta and Howrah, lying within a ring-fence as defined below, shall not be included, and the rules prescribed under Sections 11 and 13, Act VII (B.C.) of 1864, shall not apply thereto, except in regard to such premises as are occupied by saltpetre refineries as specially defined by the Board of Revenue, and in regard to the premises occupied by the salt pass stations at the Sulkea siding platform of the East Indian Railway at Howrah, and at Chitpore at the terminus of the Eastern Bengal Railway. The boundary of the tract thus excluded shall run from Cossipore Ghât, on the left bank of the river Hooghly, following the Gun Foundry Road and the Barrackpore Trunk Road, up to the Barrackpore Bridge over the Circular Canal; thence along the right bank of that canal to its junction with the Narkuldangah Suspension Bridge; thence along the Narkuldangah Main Road up to its junction with the Circular Road. The line shall thence follow the Circular Road to its junction with the Bhowanipore Road, and from that point shall follow the latter road to Halliday Bridge over Tolly's Canal. From that point it shall follow the Calcutta bank of the said Tolly's Canal to its mouth at Hastings' Bridge, and shall thence cross the river Hooghly in a straight course to the Ramkistopore Ghât on the Howrah bank, and, proceeding westward by the Ramkistopore Ghât Road, shall run up to the junction of that road with the Grand Trunk Road. It shall then run along the Grand Trunk Road up to its junction with the Telkul Ghât Road; thence, proceeding by that road eastward to the river bank, shall run along that bank up to the Howrah Ghât; thence

proceed westward by the public road to the Grand Trunk Road *via* Ohandmarry Road, New Street, and Tindell Street, and thence in a northerly direction through the station of Howrah to the junction of the Grand Trunk Road with Nuskerparah Road; thence along the north side of the latter road to its termination on the right bank of the river Hooghly; and it shall then pass in a straight course across that river to the Cossipore Ghât.

Tumlook has been excluded from the list of pass stations in the district of Midnapore. The list of the present pass stations in the district is as follows:—

• *Midnapore.* •

1. Gewakhalee, at the mouth of the Roopnarain river. •
2. Tengrakhalee, on the north bank of the Haldee river, at the mouth of Pertaukhalee Canal.
3. Baitghur, opposite Kaleenuggur, on the Russoolpore river, south bank.

The 7th August 1877.—The following order of the Government of India in the Financial Department, Accounts, is published for general information:—

No. 2055, SIMLA, THE 25TH JULY 1877.

•
READ AGAIN—

The proceedings in this department for the month of January 1876, Nos. 11 to 13 (Accounts), sanctioning the investment of the sale proceeds of certain nuzzool lands in the Punjab, but declining to recognise any general right on the part of local Governments to invest local fund balances.

Read—

A letter from the Accountant-General, Madras, No. 3126, dated the 20th June 1877, bringing to the notice of the Government of India certain proceedings of the Madras Government authorising the investment in Government securities of Rs. 10,77,400 out of the balance at credit of the "Village Service Fund" in that Presidency.

RESOLUTION.—The Governor-General in Council confirms the proceedings of the Government of Madras in this particular instance.

2. His Excellency in Council desires, however, to remind all local Governments and Administrations that no public money should be removed from the public treasury for *investment* without the sanction of the Government of India, and that this applies to local fund balances as much as to provincial funds.

ORDERED that this resolution be communicated for information and guidance to all local Governments and Administrations, to the Comptroller-General, and to the several Accountants-General and Deputy Accountants-General in independent charge.

NOTICE TO MARINERS.

No. 13.

India—Hindustan—West Coast—Bombay Harbour.

1. POSITION OF RALEIGH ROCK.

THE following information relative to a rock in Bombay Harbour on which Her Majesty's ship *Raleigh* recently touched has been furnished by Captain H. W. Brent, Her Majesty's Flagship *Undaunted*:—

This rock (*Raleigh Rock*) rises abruptly from the general muddy bed of the harbour; it is about 160 feet long E. S. E. and W. N. W., and 90 feet in width; the shoalest part has

22½ feet over it at low water ordinary spring tides, but only 20½ feet at extraordinary low spring. The general level near the rock has a depth of 25 feet over it at the lowest tides.

A conical buoy, painted red, has been placed on the eastern edge of the rock, with—
 Scotch Church steeple in line with Ritchie Steward's cotton
 press chimney (resembling a monument), bearing ... N. by W. ½ W.
 Dolphin beacon ... N. N. W. ¼ W. 4½ cables.
 Oyster Rock Battery (Colaba Observatory just open to the
 northward) ... W. S. W. distance 7 cables.
 It is proposed to remove this rock by blasting.

2. ADDITIONAL BEACONS.

Also that the following additional beacons have been erected :—

A circular stone beacon, painted red and white, on the north and south extremes of Colaba Reef, westward of Dolphin beacon

A circular stone beacon, painted red and white, on the shoalest part of Ooran Patch.

A large circular white stone tower on the summit of Thull Knob.

[The bearings are Magnetic Variation 1° Easterly in 1877.]

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr., (late I. N.).

MARINE SURVEY DEPARTMENT, CALCUTTA,
 The 20th July 1877.

Supdt., Marine Survey of India.

This notice affects the following Admiralty Chart :—Bombay Harbour No. 2621 ; also Admiralty West Coast of Hindostan Pilot, pages 129, 130 and 136 ; and Taylor's Sailing Directory, Vol. I, page 379.

NOTIFICATION.

No. 129.

Simla, the 21st July 1877.—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23 and 29 of the Rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1873 :—

RULE 23.—The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every 100 adult males.

23A.—During the period from 1st November to the close of each season, the proportion shall be such number between 40 and 80 adult females to every 100 adult males as the Protector of Emigrants may fix for each ship.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

23B.—If in any such season the average falls below this, the Protector of Emigrants shall, in exercising the discretion given him by the first clause of Rule 23A, so fix the proportion for the several ships despatched during the period commencing with the 1st November of the following season up to its close as to bring up the average proportion for the two seasons, if practicable, to not less than 40 adult females to every 100 adult males.

RULE 29.—The Emigration Agent shall appoint to each ship about to be despatched by him the staff of attendants specified in scale No 11 of Schedule E, and shall ensure their punctual attendance at the time of embarkation.

When emigrants volunteer to act as topazes or cooks, and the superintending Surgeons are willing to accept their services in this capacity, they may be employed as such.

The compounder-interpreter and the nurses, cooks, sirdars and topazes, whether emigrants or not, shall, whenever practicable, be selected from among those who have been accustomed to a sea life, and have been trained either in an emigration depôt or elsewhere to the kind of work they will be required to perform on board.

One of the nurses appointed shall be a person who possesses the necessary qualifications for the work of supervising and directing under-nurses, and she shall be appointed head nurse.

29A.—The Agent shall provide all persons appointed by him with separate written agreements wherein their respective engagements, including for natives of India a free return passage to India, and in the case of West Indian or African topazes a free passage to their homes shall be clearly provided for; but when such persons are emigrants under engagement to serve in the colony to which they are proceeding, it will not be necessary to provide that a return passage to India should be secured to them by agreement, otherwise than on the same terms provided for other emigrants.

To meet caste prejudices, it shall be arranged so that Brahmins shall cook for Hindus, and Mussulmans for Mahomedans.

29B.—It shall be further provided by such written agreement that all the attendants shall be under the immediate control of the Surgeon Superintendent, and that he shall have the power of disrating or dismissing any of them for misconduct or neglect of duty.

SCHEDULE E.—SCALES.

No. 11.

Scale of attendants to be appointed to emigrant ships proceeding to places either east or west of the Cape of Good Hope :—

(a) *Compounder-interpreter.*—One to each ship, unless the total number of statute adults the ship is licensed to carry exceeds 500, in which case an assistant compounder-interpreter must be provided.

(b) *Extra interpreter.*—One to each ship in all cases when the Surgeon or the Master and third officer are ignorant of the native language, but in the event of an assistant compounder-interpreter being provided, an extra interpreter need not be appointed.

(c) *Female nurses.*—Four to each 100 children under two years of age.

(d) *Sirdars or headmen.*—Four to every 100 statute adults.

(e) *Cooks or bandaries.*

(f) *Topazes or sweepers* } Two to the first 100 statute adults, and one additional for
(except in the case of ships } every additional 100 statute adults.
bound to the West Indies, as }
to which see Rule 49).

[Second Publication.]

NOTIFICATION.

The 19th July 1877.—In supersession of the Notification published under the provisions of Section 69 of the Indian Registration Act (VIII, 1871,) in the *Calcutta Gazette* of the 24th December 1873, the following rules, which have been prepared under the provisions of Section 69 of Act III, 1877, and have been approved by the Lieutenant-Governor, are hereby published for general information.

2. These rules will have effect in the provinces under the Lieutenant-Governor of Bengal from and after the 1st January 1878.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

Rules framed under Section 69 of Act III of 1877 (the Indian Registration Act) and sanctioned by the Government of Bengal.

Leave and Appointments.

1. REGISTRARS and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General in the form given in Rule 120 below.

Changes of incumbency to be reported.

In the case of Sub-Registrars, such reports shall be made through the District Registrar.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

Temporary appointments to be reported.

3. When a Sub-divisional Officer goes on tour, it is usually undesirable that he should carry the sub-registry office about with him. He should ordinarily make over charge to his Sub-Deputy Collector or to the Moonsif: in the latter case, the assent of the Registrar and of the District Judge must first be obtained.

4. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

5. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices under section 7 of the Act, clause 2, temporary appointments under section 11 need only be reported when some person other than the Special Sub-Registrar is appointed to perform the duties of the Registrar during his absence.

6. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable

Registrar may assume charge of the office of absent Sub-Registrar.

substitute, he may himself assume charge of the sub-registry office until the return of the Sub-Registrar or appointment of a successor; and in such cases the extra or additional fee chargeable for registration by a Registrar under section 30(a) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

7. Rural Sub-Registrars are not subject to the uncovenanted leave rules.

Leave to rural Sub-Registrars.

It is a condition of their appointment that they should reside at the headquarters of their jurisdiction; leave should therefore be seldom required, and should be given only in cases of urgent necessity. When the leave asked for does not exceed one month, the Registrar is competent to grant the application and appoint a substitute. All leave exceeding one month, and every extension of leave which will prolong the period of absence beyond one month, must receive the previous sanction of the Inspector-General.

All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General, and

included by him in the monthly report submitted to Government under rule 4.

Seals.

8. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act. The seal shall always remain in the personal custody of the registering officer.

Section 15.

Languages commonly used—(Section 19).

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Patna Division and the districts of Bhagulpore and Monghyr—English, Hindi, and Hindustani

In the Chota Nagpore Division, in the Sonthal Pergunnahs, and in the districts of Purneah, Darjeeling, and Julpigoree—English, Hindi, Hindustani, and Bengali.

In the Burdwan, Presidency, Dacca, and Chittagong Divisions, and in the districts of the Rajshahye and Cooch Behar Division not already mentioned—English, Bengali, and Hindustani.

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

10. When a copy of a Bengali, Uriya, or Hindi document is forwarded, under section 65 of the Act, to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

Copies of Bengali, Uriya, or Hindi documents sent to other presidencies.

11. A power-of-attorney intended for use in another presidency, if authenticated in Bengali, Uriya, or Hindi, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power-of-attorney authenticated in a language unknown to a registering officer to whom it may be presented may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Maps or Plans—(Section 21).

13. The territorial divisions to be recognized under section 21 (b) shall be registration districts, sub-districts, and thanas; also pergunnahs and mouzahs, where they are known, and collectorate districts, if different from registration districts.

14. Copies of maps or plans shall be attested by the signatures of the persons executing the document or their agents, and the original map or plan contained in the document shall at the time of registration be signed and sealed by the registering officer. When, under section 30 (b), the Registrar of Calcutta registers a document accompanied by a map relating to property, no part of which lies within his own district, a copy of the map shall be supplied for record in his own office in addition to the number required by section 21 (c).

15. When a document containing a map or plan is presented for re-registration under the proviso to section 23, it shall not be necessary for the parties to deposit fresh copies of the map or plan under section 21 (c); but the registering officer shall certify against the copy in the register book that the map or plan attached to the document is the same as that which was attached to it on its first presentation.

Commissions (under Sections 33 and 38).

16. A commission shall ordinarily be issued by a registering officer to some salaried member of his establishment, and the order shall be briefly endorsed on the document in words to this effect:—

“A commission is hereby issued under section 23 (or 38) of the Indian Registration Act, 1877, to [name and designation of the officer] for the purpose of inquiring whether the within power (or document) has been executed by A. B., son of C. D., of , by whom it purports to have been executed.”

17. If the person to be examined under section 38 be not resident within the district or sub-district of the registering officer, a commission shall be directed to the Registrar of the district in which such person resides, who may re-direct it to the Sub-Registrar, who may, if he cannot personally attend, re-direct it to any officer of his establishment. The commission fee and travelling allowance will be transferred to the registering officer to whom the commission is addressed.

18. When the commission has been executed, the commissioner shall return the document to the office from which it was issued, with a report, which shall be endorsed upon the document, in the following terms:—“Having visited the residence of A. B., son of C. D., at , I have this day examined the said A. B., who has been identified to my satisfaction by E. F., son of G. H., &c., residents of , and the said A. B. admitted (or denied) the execution of the within power (or document).”

Full signature of executant.

Ditto of witnesses.

Ditto of commissioner.

19. A commissioner may examine witnesses in the same manner as a registering officer; and persons refusing to give testimony to a commissioner, on

Sections 33 and 38 of the Registration Act and section 392 of Act X of 1877.

being required to do so, shall be subject to the same penalties and punishment which they would incur for the same offence if committed in a registration office.

20. It shall be competent to a registering officer to examine the commissioner personally in his office touching any of the circumstances connected with the discharge of his commission, especially with reference to the voluntary nature of the admission of execution.

21. All applications for visits under sections 31, 33, or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable, as well as the amount of travelling allowance claimable by the registering officer or commissioner.

22. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled: Provided that where two or more persons who execute the same document (or documents relating to the same transaction) reside together, only one commission fee shall be charged, so far as those persons are concerned.

23. The distances for which travelling allowance is charged shall be calculated according to the table which is drawn up in the Collector's office for the service of processes. A copy of this table shall be exhibited in every registration office.

Powers-of-attorney.

24. The form of authentication of powers-of-attorney shall be as follows:—

(1)—When the principal executing the power appears at the registration office—

“Executed in my presence on the day of 18 , by A. B., son of C. D., of , by caste , by profession , who is personally known to me (or whose identity was proved by the testimony of E. F., son of G. H., of), and recorded as No. for 18 .”

Full signature of principal.

Ditto of witness or witnesses.

Seal and signature of registering officer.

(2)—When the principal is exempted from appearance—

“Having visited and examined at his (or her) residence the principal, A. B., son of C. D., of , by caste , by profession , who is personally known to me (or whose identity was proved by the evidence of E. F., son of G. H., of), I am satisfied that this power-of-attorney has been voluntarily executed by him (or her), and I accordingly authenticate it under section 33 of Act III of 1877, and record it as No. for 187 .”

Full signature of principal.

Ditto of witnesses.

Seal and signature of registering officer and date.

When the Sub-Registrar himself does not examine the executant, he should make the following endorsement below the report of the commissioner, as provided for in rule 18:—

“From the above report, I am satisfied, &c.” (as above).

25. All interlineations, blanks, erasures, or alterations in powers-of-attorney authenticated under section 33 should, at the time of authentication, be detailed in a footnote signed by the Sub-Registrar. When there are no interlineations, &c, the fact should be noted in the same way. This note will be copied in every case into the register of powers-of-attorney.

26. General powers-of-attorney are available under this Act if they contain or imply an authority to appear in a registration office, and are executed in accordance with section 33. Powers already executed may be made available by the execution, in accordance with section 33, of an additional clause empowering an attorney to appear in a registry office.

27. If an authority to register be included in a document to be registered, the document must of course bear the additional stamp duty chargeable on the power-of-attorney.

28. Powers which do not contain or imply an authority to appear in a registration office shall not be authenticated under section 33.

29. Whenever a special power-of-attorney is used in a registration office for the purposes of section 32, an endorsement shall be made upon it in the following form, and it shall be returned forthwith:—

Presented this day.

Date. (Sd.) A. B.,
[Seal.] Registrar or Sub-Registrar of

30. For general powers-of-attorney no endorsement is required. They shall be returned after inspection to the parties by whom they were presented.

Issue of Process.

31. Summonses under section 75 will be issued direct by the Registrar acting according to the provisions of Chapter VI of Act X of 1877. The summonses referred to in sections 36 and 37 shall be executed through the Revenue authorities, and the peon's fee shall be regulated according to the rules for the service of processes by such authorities: Provided that when a rural Sub-Registrar's office and a Moonsif's court are located in the same place, the processes shall issue through the Moonsif's court. In such cases the peon's fee shall be regulated by the rules for the service of processes in the civil court.

32. If the summons be addressed to a person who is alleged to have executed the document, it shall require him to attend in person or by agent; if it be addressed to any person whose evidence is required to prove a fact, it shall require him to attend in person.

33. Every application for summons must be accompanied by the amount of expenses payable to the witness, as well as the amount of peon's fees usually chargeable by the revenue authority or civil court through which the summons is to be issued; and in forwarding for compliance an application for summons, the registering officer shall also forward the witnesses' expenses and the peon's fee, together with a draft summons in duplicate ready for signature, and purporting to issue from the civil or revenue court to which the application is forwarded for compliance.

34. In case of a person summoned under section 37 neglecting to appear, or if a summons under that section cannot be served, the register-

ing officer may call upon the revenue officer or civil court through whom his summonses are served to take any further action authorized by the law for the time-being in force for the purpose of securing the attendance of the person whose evidence is required, and such a requisition must be accompanied by the proper fee. It rests with the registering officer to specify the form of action to be taken.

35. No rural Sub-Registrar shall issue a requisition under the preceding rule without the previous sanction of the District Registrar.

Wills, &c.

36. A will shall not be received for deposit Will deposited under otherwise than in the manner laid down in section 42.

A will received through the post-office shall be returned to the testator bearing.

37. Every entry made in Register Book V, under the provisions of section 43, shall be signed in full and dated by the Registrar.

38. When a sealed cover is withdrawn, under section 44, the fact shall be noted in Register Book V, and the entry shall be signed by the person by whom the withdrawal is made as well as by the Registrar.

39. When a sealed cover is opened, under section 45, the fact shall be noted in Register Book V and the entry signed by the Registrar. If a cover is opened under order of a civil court, this shall be mentioned in the entry.

40. When a will is forwarded to any court Will called for by a civil under section 46, it shall be court under section 46. accompanied by a memorandum of the fee for opening the cover and copying charges, and it shall be the duty of the court to levy and remit such fee and charges to the Registrar.

41. Sealed covers deposited with a Registrar Will to be examined. under section 42 shall be examined monthly, and their condition reported to the Inspector-General. If there be no sealed cover in custody, this fact must be reported month by month.

Procedure in Registration.

42. On the presentation of a document for registration, the registering officer shall first satisfy himself—

(1) That it has been presented at the proper office (sections 28, 29, and 30);

(2) That it bears the proper stamp; and if it purport to be, or is known to be, a counterpart—

That it is "available" under the proviso of Article 16, Schedule II of the General Stamp Act, 1869;

(3) That it is in the usual language of the district, or is accompanied by a translation and a true copy (section 19);

(4) That in the case of important interlineations section 20 and rule 136 have been complied with;

(5) That (if the document refers to immoveable property) the description is sufficient (section 21);

(6) That it has been presented within the proper time (sections 23, 25, and 26);

(7) That it has been presented by a person authorized to do so (section 32).

43. If the requirements of the law have been complied with in all these particulars, the following certificate shall be entered on the face of the deed :—

“Admissible under rule 42. Correctly stamped under the General Stamp Act, Schedule , No. .”

14. After entry of the certificate under rule 43, the registering officer shall receive the fee or any fine payable under section 24, and enter the amount on the document close to such certificate, and at the same time the requisite entry shall be made in the fee book.

First endorsement. 45. The document shall now be endorsed to the following effect :—

“Presented for registration at A.M. (or p.m.) on the day of 187 , at the sub-registry office (or elsewhere), by A. B., son of C. D., of , by caste , by profession [or attorney for E. F., one of the claimants under a power (No. for 187) executed in the presence of the Sub-Registrar of].”

(Sd.) A. B.

(Sd.) G. H., Sub-Registrar of

46. The amount of the fee paid shall be entered on the receipt given under section 52.

47. The endorsement under section 58 shall be to the following effect :—

Second endorsement. “Execution is admitted by A. B., son of C. D., of , by caste , by profession .”

(Sd.) A. B.

“Identified by E. F., son of G. H., of , by caste , by profession .”
The of 187 .

(Sd.) E. F.

(Sd.) I. J., Sub-Registrar of

When execution is admitted by an agent, the following words shall be added :—

“Agent for K. L., under a power-of-attorney (No. for 187) executed in the presence of the Sub-Registrar of .”

When the executant or his agent is personally known to the registering officer, the words “personally known to me” should be substituted for the identification clause.

When receipt of consideration is acknowledged, the following clause should be added :—

“The receipt of rupees as consideration is admitted by the above A. B.”

48. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

49. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

50. Whenever a registering officer administers an oath, he shall record the evidence of the witness examined on a separate sheet of paper, and a note of the fact should be endorsed on the deed itself.

51. When a document is presented which has only been executed by some of the parties to it,

the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon ; but if the registration of the document has been completed, it must be presented afresh for registration and a second fee shall be payable.

52. When all the persons executing a document, or their representatives, assigns, or agents, have appeared and admitted its execution, the document shall be copied in the register.

53. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

54. All endorsements shall be made in red ink, excepting signatures, which shall be made in black ink.

55. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper, which should be supplied by the office, and attached to the document, a note being at the same time made on the document itself and signed by the registering officer. Every piece of paper so added must bear the seal of the registering officer and be signed and dated by him.

56. When a document has been copied and compared, the registering officer shall proceed to make, in the following form, the endorsement required by section 60 :—

“Registered in Book , volume , page , being No. for 187 .”

Register Books.

57. The register copy of every document shall be compared with the original by some person other than the copyist, and both

Copyist and comparer to sign their names. the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one, and shall date such certificate with his own hand. The copier in his signature should use the word “copied ;” the comparer will use the word “compared.”

58. No erasures shall be made with a knife in any register book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer. All interlineations and corrections in the register books shall be made in red ink when the entries are in black ink, and in black ink when the entries are made in red ink.

59. The register books shall have two margins. On the left-hand margin shall be copied in red ink the value of the stamp, the certificate of admissibility under rule 43, and all the endorsements made in the office ; in the centre shall be copied the deed itself in black ink, and the right-hand margin shall be left vacant for notes under

section 20 and rule 136. The stamp-vendor's endorsement on each document shall be copied in red ink in the registers in the centre of the page below the copy of the document itself.

60. Several volumes of Register Books I and IV may, if necessary, be kept in use simultaneously, when the documents registered are so numerous as to make this course necessary. Register Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Register Books I and IV may also be used for two or more years.

61. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

62. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

63. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of Registration.

64. If [rule 42 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

65. If [rule 42 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

Note.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

66. If rules 42 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned at once to the presenting party with the endorsement—

“Registration refused,”

an entry being made at the same time in Book II.

Note.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

67. A Sub-Registrar is not authorized by law to refuse to register a document because he is directly or indirectly interested in the transaction to which it relates; but he will always advise the parties to present such a document at some other office. If the document relate to moveable property only, such other office may be the office of any Sub-Registrar under the same local Government at which all the parties may desire the document to be registered. If the document

relate to immoveable property, such other office will (unless the parties prefer to resort to the Registrar of Calcutta) be the office of the Registrar of the district. The latter officer will (as by the note of Article K of the Table of Fees already provided) register such document without charging the usual extra fee. If the parties, thus advised, insist on the Sub-Registrar registering a document in which he is interested, he must do so. In this case he will report the fact for the information of the District Registrar to whom he is subordinate.

68. The circumstances under which a document should at once be refused on presentation are given in rules 64-66. A document duly presented and accepted for the purpose of inquiry will not be admitted to registration under the following circumstances:—

- (1) If one or more of the executing parties deny execution. (Section 35.)
- (2) If one or more of the executing parties fail to appear and to admit execution. (Section 35.)
- (3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)
- (4) If a person purporting to have executed the document appear to be a minor, an idiot, or a lunatic. (Section 35.)
- (5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)
- (6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)
- (7) If the admitting agent's power-of-attorney has not been made in accordance with the Act, or if an alleged representative or assign has failed to prove his status. (Section 35.)

69. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done.

70. The reasons of refusal must be recorded by the registering officer with his own hand in Book II, and the particulars should be fully and clearly stated in each case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Copies and Memoranda.

71. In addition to the bound volumes of Register Book I, every Sub-Registrar shall keep a file-book, in which he will file the memoranda of registered documents which have been forwarded to his office under sections 64, 65, and 66 of the Act.

Similarly, Registrars shall keep *two* separate file-books—one for memoranda and one for copies under sections 65, 66, and 67 of the Act. These papers shall be bound into a volume, or volumes, of convenient size at the end of the year. They shall be numbered consecutively, but in a series distinct from that of original registrations in Register Book I.

72. Copies shall be made on paper of the same size and description as that of the bound books. Memoranda shall be drawn up in the prescribed form.

73. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy required for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

74. When a copy of a document is sent to the Registrar of another district under sections 65-67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

75. The date on which copies and memoranda are despatched under the last rule shall be entered in the right-hand margin of the book in which the document has been copied.

76. When a memorandum or copy under sections 64-67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should take for it. All such receipts, when returned, should be filed separately.

77. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Indexes.

Index of persons.

78. The personal index, No I, shall contain the following headings:—

- (1) Name of person.
- (2) Addition.
- (3) Interest in the transaction, as purchaser, mortgagee, decree-holder, &c.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

Index of places.

79. The local index, No. II, shall contain the following headings:—

- (1) Name of property or of mouzah; or, in towns, of street.

- (2) Name of pergunnah or thana.
- (3) Sub-district in which the property is situated.
- (4) Nature of the transaction, as sale of land, decree for possession of house, &c.
- (5) Where registered.
- (6) Serial number.
- (7) Book.
- (8) Volume.
- (9) Page.

80. Index No. III shall contain the following headings:—

Index of wills, &c.

- (1) Name of person.
- (2) Addition.
- (3) Interest in will or authority to adopt.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

Miscellaneous Index.

81. Index No. IV shall contain the same headings as Index No. I.

82. Except in rural offices in the charge of Sub-Registrars unacquainted with English, all indexes shall be kept in that language, and shall be prepared in accordance with the following rules:—

83. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable if the word begins with a consonant, or according to the second vowel in the word if it begins with a vowel.

84. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

85. In the case of Europeans the surname shall be taken as the index word. All native names shall be indexed according to their first letters as they stand in the deed.

They will be transliterated in the same form in which they are written in the document. Thus in Bengali the same affix may be written, either Bânirjya or Bandopadhyây, and whichever of these forms is used in the document will be retained and transliterated.

86. When a document is executed on behalf or in favour of Government, the index entry shall be made under *G, Government*, the name of the officer executing the document being entered in the column headed *Addition*; if on behalf or in favour of the Court of Wards, under *W, Wards, Court of*; and in the case of any other Court, under *C*. The names of companies shall be entered as they stand, the article only being omitted; thus *Land Mortgage Bank of India, Limited*, under *L*; *Ganges Steam Navigation Company, Limited*, under *G*.

87. The name of the depositor of a sealed cover shall be entered in Index III, in black ink. The name and addition of persons claiming under

a will or authority to adopt, *which will be indexed after the death of the testator or donor*, should be entered in red ink.

88. When there are two or more executants or claimants, their names shall be separately entered in Index I, III, or IV.

Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

89. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

90. In rural offices in the charge of Sub-Registrars unacquainted with English, the indexes shall be kept in the vernacular. The rules given above apply to indexes in the vernacular. In all rural offices one copy of Indexes I, II, III, and IV shall be made for office use in a bound volume, and a duplicate of the entries made each month in Indexes I and II shall be submitted at its close to the Sub-Registrar at sub-divisional head-quarters. In the head-quarters sub-division, and wherever the sub-divisional system has not yet been introduced, the duplicate will be sent direct to the Registrar for record.

91. The Sub-Registrar, on receiving vernacular Indexes I and II from rural Sub-Registrars, shall translate the same and incorporate them in his own indexes, noting the place of registration of each document; English indexes he shall directly incorporate in his own. He shall also at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index for all offices in his sub-division, and submit it to the Registrar.

92. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the incorporated indexes of the sub-division shall be sent for safe custody to the office of the Registrar of Calcutta.

Fees and Fee-Book.

93. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

94. Columns 1 to 7 and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned immediately under rule 64; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered; and column 14, as soon as the required copies and memoranda have been despatched.

95. Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other

public money, and be paid into the nearest treasury. From district and sub-divisional offices the fees shall be remitted to the treasury daily; from rural offices they shall be sent to the treasury at such intervals as the Registrar shall direct. In all cases remittances to the treasury should be accompanied by the chalan book, duly filled up in duplicate. One copy of each chalan will be then kept by the treasury officer and the other returned with his signature.

96. The receipts entered in the fee book need not be entered in detail in the cash book: their daily totals will be sufficient; but all other receipts, and all payments whatsoever, must be entered in full detail in the cash book. All cash received must at once be entered either in the fee book or in the cash book. No money should under any circumstances be kept out of account. The cash book should be balanced every day, and signed after careful examination by the registering officer.

Records.

97. The Registrar's office shall be a central office of record in each district, and the books and papers of subordinate offices (which are not to be destroyed) shall be transferred to it from time to time.

98. The following records belonging to the period anterior to the enactment of Act XVI of 1864 shall be henceforward permanently preserved in district registry offices:—

All registers of documents and their indexes.

Duplicate copies of documents required to be filed under Regulation XX of 1812.

Registers of powers-of-attorney.

Original powers required to be filed under Regulation XX of 1812.

Kazis' records.

99. Besides Register Books I, II, III, and IV, and Indexes I, II, III, and IV, the following records shall be kept in all registry offices:—

A register of powers-of-attorney in the prescribed form.

A register of visits and commissions in the prescribed form.

A fee book in the prescribed form.

A cash book in the form prescribed by Accountant-General.

A catalogue in the prescribed form.

A chalan book in the prescribed form.

A file of receipts given under section 52 and returned on delivery of registered documents.

A file of receipts for copies and memoranda under rule 76.

A file of daily notices exhibited under rule 141.

100. The following additional books shall be kept in the offices of all District Registrars:—

Register Book No. V.

A register of letters received.

A register of letters despatched.

101. In January of each year the following records for the previous year shall be transferred from sub-registry offices to the district office :—

Completed volumes of Register Book I (including the file of memoranda).

Completed volumes of Register Book IV and Index IV.

Copies and translations filed under section 19.

102. Register Books II and III, Index III, and the register of powers-of attorney shall be transferred to the district office as soon as they are filled.

103. In the case of all rural offices, and wherever the sub-registry office is not a masonry building, each volume of the register books shall be forwarded to the district office as soon as it has been filled and indexed, without waiting till the end of the year.

104. For the period since Act XVI of 1864 came into force, the following records shall be preserved in perpetuity in all district offices :—

All register books and their indexes prescribed by Acts XVI of 1864, XX of 1866, VIII of 1871, and III of 1877, as well those of the district registry offices as those received from the sub-registry offices.

Registers of powers-of-attorney.

Catalogue.

Cash book.

Fee book.

Reports of the destruction of records and lists of the papers destroyed.

105. The following records shall be preserved in perpetuity in all sub-registry offices :—

Register Book III under Act XVI of 1864, and Book V under Act XX of 1866.

The rough indexes under Act XVI of 1864

Original Indexes I and II under Acts XX of 1866, VIII of 1871, and III of 1877.

Catalogue.

Cash book.

Fee book.

106. When a registered document is destroyed under section 85, a note to that effect shall be made in the margin opposite the copy in the book in which it is registered.

107. The following records may be destroyed after the expiration of three full years from the period to which they relate :—

Registers of visits and commissions.

Chalan books.

The receipts referred to in section 52.

Receipts referred to in rule 76.

All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.

Monthly returns, petitions, and other records and papers not otherwise specified.

108. No documents, books or papers whatever shall be destroyed at a sub-registry office, without the previous sanction of the Inspector-General; and before documents are destroyed an endeavour must always be made to induce the presentants to take them back.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta registry office.

Applications for Search or Copies.

110. All applications for search or for copies should be made to the registering officer himself. If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *in voce*, the registering officer should write on a slip of paper, "Give copy," or some such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub Registrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act III of 1877 at the same rate of fees and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

Indents.

113. Before the 1st of September of each year every Sub-Registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

114. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in triplicate in the prescribed form for all register books and other registration forms which will be required for his own office and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in triplicate with the Registrar's endorsement, instead of being embodied in the Registrar's indent.

115. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of Stationery, the number of this office order being quoted. Reminders are useless without it.

116. Indents for the forms enumerated below, which have been prescribed by the Accountant-General, should be submitted in duplicate in March of each year direct to the Superintendent of Stationery.

1A.—Accountant-General's form of indent form.

116.—Commission list of Sub-Registrars.

*117.—Salary list of gazetted officers of the Registration Department.

118.—Salary list of sanctioned establishments of the Registration Department.

119.—Bill for contingent charges of the Registration Department.

120.—Travelling allowance of Registrars.

121.—Travelling allowance of ministerial officers of the Registration Department.

128.—Bill for refund of registration fee for sub-divisional and rural sub-registry office.

138.—Detailed bill of contingent charges for countersignature.

141.—Leave statement.

151.—Form of acknowledgment of permanent advance.

183.—Cash book of registration.

184.—Acquittance roll of establishment.

117. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis. They are also supplied with registers, index books, and printed forms free of charge.

The cost of sending the registers, &c., from the Stationery Office to the offices of rural Sub-Registrars which are situated at a distance from Calcutta is borne by Government, and the charge met from the provision made in the budget for the Registrar's office contingencies.

118. Before the several dates noted below all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least fifteen days before those dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 117, above.

JUNE.—Patna, Bhagulpore, and Rajshahye Divisions, except the district of Rajshahye.

JULY.—Dacca, and Cooch Behar Divisions.

SEPTEMBER.—Calcutta offices.

OCTOBER.—Chittagong Division.

NOVEMBER.—Presidency and Burdwan Divisions and the Rajshahye district (Rampore Beaulah).

DECEMBER.—Chota Nagpore and Orissa.

Permanent Advance.

119. A permanent advance, not exceeding Rs. 200, will be allowed for each District Registrar on account of (1) contingencies, (2) service postage, and (3) refund of registration fees; but he need not draw the full advance of Rs. 200 where his ordinary expenses fall much below that amount. The Registrar will apportion the amount drawn according to the require-

ments of each subordinate office, care being taken that a sum is allowed sufficient to meet charges for refunds only; because in the case of rural offices contingent charges will be defrayed by the rural Sub-Registrars, and in other sub-registry offices they should be met from the advance for general purposes received from the Accountant-General. In cases of the dismissal or death of rural Sub-Registrars, the District Registrars will be held responsible for the amount of the advances made by him. At the close of each official year the District Registrar will send an acknowledgment of the entire advance to the Accountant-General, Bengal, in A. G. B. form No. 151, of which a supply should be kept at hand.

120. The advance received by a Sub-Registrar will never be repaid into the treasury, but recouped from time to time, when necessary, by the submission to the Registrar of an abstract bill or bills supported by needful vouchers. On the first office day after the 25th March in each year the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

"To the Registrar of

"We, the undersigned, have the honor to report that we have this day, at o'clock in the forenoon (or afternoon), respectively made over and received charge of the office of

"Relieved Officer.

"Relieving Officer."

"And I, the Relieving Officer, acknowledge to have received Rupees of the permanent advance of Rupees, and that the full amount of such advance is due from and to be accounted for by me.

"Dated the

18

"Relieving Officer."

Salary Bills.

121. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

122. Sub-Registrars who are wholly or partly remunerated by a percentage on the fees will draw their commission at the end of each month, in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury. In calculating commission, the fees levied on documents which are still pending at the close of the month shall be excluded; but if the documents be eventually registered, the fees previously credited in respect of them will be brought into the commission account for the month in which they are registered. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

123. When an officer is temporarily placed in charge of the office of a Special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw

commission, which the Special Sub-Registrar retains.

Establishment Bills.

124. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118 by the head of the office. They do not require the countersignature of higher authority.

125. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

126. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment. Whenever special establishments are entertained, whether they are paid by salary or at contract rates, a weekly progress statement must be submitted to the Inspector-General in printed form No 34A.

Contingent Bills.

127. A register of contingent expenditure shall be kept in each office, and the initials of the head of the office shall be entered against the date of the payment of each item.

128. The disbursing officer, that is the officer who draws a bill for contingent charges and is responsible for the due disbursement of the amount, may be left to deal with vouchers for items not exceeding ten rupees, attaching to his contingent bill a certificate in the following form :—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided. I have satisfied myself that the charges entered in this bill have been really paid. Vouchers of all sums above Rs. 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for smaller sums, and am personally responsible that they have been so destroyed that they cannot be used again, except the vouchers for service postage labels, which are herewith sent."

129. When the bill of a disbursing officer is countersigned, vouchers for sums above Rs. 10 and not exceeding Rs. 100 shall be examined, cancelled, and retained in the office of the countersigning officer.

The following certificate is prescribed for the countersigning officer :—

"I certify that in support of every charge of more than Rs. 10 made in this bill a receipt or other voucher in proper form has been given to me and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot again be used to support claims against the Government, except the vouchers for service postage labels, which are herewith sent."

130. The salary of sweepers cannot be charged to contingencies. The wages of punkah-pullers may be so charged when their employment has been sanctioned.

131. No charges for printing may be incurred without the special sanction of the Inspector-

General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector-General.

132. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c., may be included in the monthly contingent bill.

133. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature is sufficient for audit. All charges for service postage labels, however small, must be supported by vouchers, and require the countersignature of the Inspector-General.

134. Registrars' contingent bills not exceeding Rs. 10 in amount do not require countersignature.

135. When the expenditure during any month on account of contingencies, service postage, and refunds in any Registrar's office exceed the amount of the permanent advance, the amount expended may be drawn by an abstract bill or bills (*see* Accountant-General's form No. 119) submitted during the month under the Registrar's signature. But in such cases a detailed bill (*see* Accountant-General's form No. 138), accompanied by vouchers, must also be submitted to the Inspector-General at the end of the month.

Miscellaneous.

136. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted, unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty, on due cause being shown, to accept the attestation of an agent, &c., in case of important interlineations, &c.

137. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K as well as the penalty under heading O shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

138. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

139. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with

any remarks which the registering officer may wish to make

140. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration, and when they are registered shall return them with their own hands.

141. The serial number of the last document completed and ready for return shall be daily exhibited in the prescribed printed form in some conspicuous place outside every office.

142. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

143. All official letters and covers sent by post from any sub-registry or district registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars, who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service labels should be submitted by each District Registrar for the information of the Inspector-General. The cost of these labels will be met from the consolidated advance mentioned in rule 119. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly contingent bill, supported by the Treasury Officer's receipts as vouchers.

144. Bills, monthly returns, and regular indents should not be accompanied by covering letters. The envelopes containing them should be marked "Returns." Letters and urgent indents should be separately sent.

145. A duplicate bill should never be submitted unless the original is lost in transit or otherwise, in which case a certificate should be attached to the effect that the bill has not been cashed at the treasury.

146. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's forms Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

147. When ministerial officers of the department are deputed to give evidence or to produce records before any court, application for the payment of their travelling expenses should be made to the court.

148. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted on the bill.

149. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

150. The security bonds of head-clerks should be examined at the close of each financial year, the result being reported to the Inspector-General.

[Third Publication.]

NOTIFICATION.

The 24th July 1877.—It is hereby notified that, under the powers vested in him by Section 32 of Act V (B.C.) of 1876, the Lieutenant-Governor is pleased to exclude the following portions of the roads within the limits of the Rungpore Municipality from the operation of the Act, and to authorize the transfer of such roads to the charge of the Road Cess Committee of that district:—

- | | |
|----------------------------------|----------------------|
| 1. The Julpigoree road. | 4. Bogra road |
| 2. Dinagepore road. | 5. Cooch Bchar road. |
| 3. Kaligunge and Mahigunge road. | 6. Kurigram road. |

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 28th July 1877.—It is hereby notified that, under Section 3, Regulation VI of 1819, the Lieutenant-Governor has been pleased to declare as public the ferry at Indupur, on the river Braminee, in the district of Cuttack.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 30th July 1877.—It is hereby notified for general information that, under Section 234 of the Bengal Municipal Act V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Bankoora, made at a meeting, to sanction the extension to that Municipality of the provisions of Sections 235 to 256, 271 to 274, 278 to 288, and 292 to 294 of Part VII of the Act.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 26th July 1877 —The following bye-laws, framed by the Municipal Commissioners of Dinapore at a meeting under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20 : provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation or any place containing waste and stagnant water, or into any other receptacle.

Penalty for infringement, Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool, into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

14. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

15. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

16. No one shall let off any fire-balloon, fire-work, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

• • *General Bye-Laws.*

17. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the cost as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

18. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in any such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

19. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice Rs. 5 daily.

20. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

21. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

22. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement Rs. 4 daily.

23. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

24. No person shall let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

25. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body, where no coffin is used, shall be at a less depth than five feet from the surface of the ground.

Penalty for infringement, Rs. 10.

26. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

27. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

28. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

29. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

30. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

31. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement Rs. 10.

32. Any person allowing cattle or animals to be at large within the limits of the Municipality without proper attendants shall be liable, on conviction, to a fine not exceeding Rs. 10.

S. C. BAYLEY.

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 30th July 1877.—The following Notification is published in supersession of that which appeared at page 747 of the *Calcutta Gazette* of the 27th June 1877:—

It is hereby notified that, under Section 3, Regulation VI of 1819, the Lieutenant-Governor has been pleased to declare as public the two ferries at Achintola and Jhalmalia, in the district of Rajshahye—the former over the river Narod, where it intersects the road from Baulcah to Pubna; and the latter on the Moosakhan-ka-khall, where it intersects the road from Bauleah to Nattore.

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 31st July 1877.—It is hereby notified that such portion of the Notification published in the *Calcutta Gazette* of the 11th July 1877 as relates to Section 4 of the Regulations made by the Government under Section 6, Act XX, 1865, for conducting the examination of applicants for admission as pleaders and mookhtars in the mofussil courts subordinate to the High Court, has been cancelled by the Lieutenant-Governor, and that the following has been substituted:—

“The examination of candidates for pleaderships of the higher grade shall be held in Calcutta; the examination for lower grade pleaders shall be held at Calcutta and Cuttack; the examination for mooktarships shall be held at Calcutta, Patna, Dacca, and Cuttack.”

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 10th August 1877.

No. 217.—*Notifications.*—Mr. A. F. Watson, Executive Engineer (temporary rank), Second Grade, Dinapore Division, availed himself of the privilege leave granted * to him from the 28th July 1877, before noon.

* Bengal Government (Public Works Department) Notification No. 200, dated 9th July 1877.

HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

(CIVIL.)

No. 15, dated the 21st July 1877.

PARAGRAPH 1 of Circular Order No. 3, dated 9th February 1874, is cancelled.

2. The Court, however, desires to impress upon all Judicial Officers the importance of getting the best available evidence placed upon the record of a suit.

Original Side.

Dated 9th August 1877.

THE following rules, passed by the High Court of Judicature at Fort William in Bengal, are published for general information.

R. BELCHAMBERS, *Registrar.*

The following rules, made pursuant to section 51 of the Specific Relief Act, 1877, are to come into effect, as the rules of the High Court of Judicature at Fort William in Bengal, from the first day of September 1877 :—

1. Every application under section 45 of "the Specific Relief Act, 1877," shall be made to the Judge or one of the Judges exercising the original civil jurisdiction of this Court.

2. If a rule or alternative order be granted or made under section 46 of the said Act, the matter shall, unless otherwise ordered, be set down for hearing at the head of the peremptory list of contested suits for the day fixed by such rule or order for showing cause or making an answer, or such other day or days to which it may be adjourned.

8. If cause be shown or answer made upon affidavit putting in issue any material question of fact, the Court may adjourn the matter to some early day for hearing upon the testimony of witnesses to be examined in like manner as in a suit.

4. When a matter is adjourned for hearing upon the testimony of witnesses, either party may obtain summonses to witnesses, and the procedure in all other respects shall be similar to that followed in a suit.

5. Every application, affidavit, rule, order or other proceeding under the 8th chapter of the said Act shall be entitled in this Court and in the matter of the Act and of the applicant.

6. Unless otherwise ordered, every rule under section 46 of the said Act shall call not only on the public servant, corporation, or inferior Court, but also on any person other than the applicant, who may be affected by the act to be done or forborne, to show cause.

7. The service of every rule or order under the 8th chapter of the said Act shall be made in like manner as the service of the orders made by the Court in the exercise of its ordinary original civil jurisdiction.

EDUCATIONAL NOTICE.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

THE following alterations in the regulations for the examinations in Medicine having been sanctioned by the Senate, and approved of by His Excellency the Governor-General in Council, are published for general information:—

(A) Clauses 8 and 9 of the old regulations of the First M. B. examination, and clauses 4 and 5 of the old regulations for Honours in Medicine, have been omitted.

(B) In clause 2 of the regulations for the First L. M. S. examination, for the words "one course of 40 lectures—Botany," have been substituted the words "one course of 20 lectures—Botany;" and in clause 2 of the regulations for the First M. B. examination, for the words "two courses, each of 40 lectures—Botany," have been substituted the words "two courses, each of 20 lectures—Botany."

It is further notified that the new regulations under paragraph (A) will take effect from the examination of 1877, and the new regulations under paragraph (B) from the examination of 1878.

The following alteration in the form of the certificate appended to the application of candidates for the First Arts and B. A. examinations having been sanctioned by the Senate, and approved of by His Excellency the Governor-General in Council, is published for general information:—

The words "that there is, in my opinion, a reasonable probability of his now passing the First Examination in Arts or the B. A. examination" have been omitted.

It is further notified that the above alteration will take effect at the F. A. examination of 1877 and the B. A. examination of 1878.

SENATE HOUSE, the 6th August 1877.

CHARLES H. TAWNEY, *Registrar.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 986B.

NOTICE is hereby given that the Ninth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday the 5th September 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

Behar	Opium	Chests.
Benares	"	1,920
Total						4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 20th September 1877 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Monday, the 10th September 1877, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Thursday, the 20th September 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

Dates.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Wednesday, 3rd October 1877	...	2,080	1,920	4,000
On or about Friday, 2nd November „	...	2,080	1,920	4,000
On or about Monday, 3rd December „	...	2,080	1,920	4,000
Total	...	6,240	5,760	12,000

The Calcutta Gazette.

WEDNESDAY, AUGUST 15, 1877.

PART I A.

Orders and Notifications by the Government of India.

* The following orders, issued by the Government of India in the Home Department, are republished for general information :—

No. 1461.—Simla, the 31st July 1877.—Notifications.—Public.—In the rules published under Home Department Notification No. 3742, dated the 21st August 1867, to regulate the submission, receipt, and transmission of memorials addressed to Her Majesty's Government, the following Rule VIII has been substituted for the rule bearing the same number, and is published for general information :—

VIII.—No limit is fixed to the time within which an appeal from an act or order of the Governments in India must be preferred to the Home Government except in the case of appeals from a judicial decision in which the Judge is a political officer and in which the appeal ordinarily lies to Government in the Political Department. Such appeals* must be preferred within a period of twelve months from the date of communication to the persons concerned of the order to which objection is taken.

* When a judicial decision of the nature referred to has been communicated to the party or parties concerned before the date of this notification, he or they may appeal from such decision within 18 months from the date of this notification.

No. 648.—The 2nd August 1877.—Establishment.—The Hon'ble E G. Birch, a Judge of the High Court of Judicature at Fort William in Bengal, availed himself, on the afternoon of the 17th ultimo, of the privilege leave granted to him in Home Department Notification No. 492, dated the 6th June last.

No. 649.—The Hon'ble H. B. Lawford, took his seat as an Officiating Judge of the High Court of Judicature at Fort William in Bengal on the forenoon of the 18th ultimo.

No. 250.—The 3rd August 1877.—Ecclesiastical.—The Reverend J. A. Mackay, a Senior Chaplain on the Bengal Establishment, has been permitted by Her Majesty's Secretary of State to retire from the service with effect from the 25th May last.

No. 252.—The Reverend J. H. Taylor, B.A., of the Bengal Ecclesiastical Establishment, reported his arrival in Calcutta on the 18th ultimo.

The services of Mr. Taylor are placed at the disposal of the Government of Bengal with effect from the 23rd idem.

No. 253.—The services of the Reverend W. MacCarthy, Chaplain of Rangoon Town, are placed at the disposal of the Government of Bengal with effect from the 26th ultimo, or the subsequent date on which he may be relieved of his duties.

The following orders, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

COMMERCE AND TRADE.

Simla, the 3rd August 1877.

No. 14 of 1877.—The following Notice to Mariners is published for general information :—

NOTICE TO MARINERS.

CEYLON, SOUTH COAST.

Buoy marking Gindurah Rock.

The Master Attendant, Galle, has given notice that an iron buoy, printed *red*, has been laid in 11 fathoms about two cables to the southward of Gindurah rock, from which Edward's pillar is just open south of the lighthouse.

Gindurah rock, on which the sea does not always break, is highly dangerous, having only 9 feet water over its shoalest part; between it and the buoy the ground is foul.

Vessels making for Galle harbour from the westward and northward will, by keeping the light-house on an E. by N. bearing, pass nearly 2 miles south of Gindurah rock and clear of the Whale rocks; southward of this bearing the ground is clear.

Vessels requiring a Pilot should heave to with the lighthouse bearing from N. E. to N. N. E. distant about one mile, thus avoiding the Cadda rocks off the entrance to the Port,

The outer Cadda rock is marked by *red* buoy. Should the buoy be out of its place, the danger which it marks will be avoided by keeping Eriminia Galle point well open of Oonawutty point: these points in line lead on the Cadda rocks.

The present Admiralty chart of the Approaches to Galle harbour, No. 819, must be used with caution, as the points abovementioned, delineated thereon, are three-quarters of a point out of bearing.

MARINE SURVEY DEPARTMENT, CALCUTTA, }
The 27th July 1877.

A. DUNDAS TAYLOR, Comdr. (late I.N.)
Supdt., Marine Survey of India.

By Order,

G. H. M. BATTEN,
Offg. Secy. to the Govt. of India.

This Notice affects the following Admiralty Charts :—Approaches to Point de Galle harbour, No. 819; Ceylon Island, No. 813; and Bay of Bengal, No. 70a: also Taylor's Sailing Directory, Vol. I, page 430.

If this Notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the Sailing Directions to which it relates.

No. 293.—*The 4th August 1877.*—Under Section 3 of Act VIII of 1876 (the Native Passenger Ships' Act, 1876,) the Governor-General in Council is pleased to direct that the said Act shall come into force from the date of this notification.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 2144.—*Simla, the 30th July 1877.*—*Notifications—Accounts.—Resolution.*—The Governor-General in Council deems it important that in all accounts of expenditure on public works undertaken by the State for the relief of distress caused by famine, a clear distinction should be maintained between the cost of materials and skilled labour, and the outlay on unskilled labour.

2. It will often be impossible to avoid some expenditure on such works for materials (the purchase and carriage of which can seldom, if ever, contribute much to the relief of the distressed population, which is the first object of the works), or for skilled labour, the employment of which might not be required immediately for relief purposes; if it is so required, the wages paid should, as a rule, be at unskilled rates only.

3. But it is the paramount duty of all authorities responsible for the expenditure on such works to reduce to a minimum the expenditure which is thus accessory to the large outlay for direct relief which, at such times, strains the resources of the State. The accounts should be so constructed as to show plainly the proportion of the whole expenditure absorbed in such accessories.

4. His Excellency in Council is accordingly pleased to decide that whenever any public work is undertaken for purpose of famine relief, the expenditure thereon shall be classified as follows :—

- (1) For materials.
- (2) For labour paid at the rates fixed by the Government for unskilled labour upon relief works.
- (3) For labour paid, for whatever reason, at any higher rates divided into (a) skilled labour, (b) supervision of labourers, skilled and unskilled.

5. Explanation will be expected by the Supreme Government whenever the proportion of the whole expenditure which falls under headings (1) and (3) bears any substantial proportion to the whole expenditure on the work.

6. These instructions should, as far as possible, be applied retrospectively in the case of the works undertaken since the beginning of the existing famine in the Madras and Bombay Presidencies and in Mysore; and all future estimates of works to be thus undertaken should be classified in the manner thus prescribed.

ORDERED that this resolution be published in the *Gazette of India* and distributed for information and guidance as follows :—

1.—To the Revenue and Public Works Departments of the Government of India.

2.—To the several Local Governments and Administrations.

3.—To the Comptroller-General and to the several Accountants-General and Deputy Accountants General in independent charge.

No. 2330.—*The 3rd August 1877.—Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

Section 6 (page 4).

INSERT THE FOLLOWING AS RULE 2 :—

2. Saving as provided in Exception (4), a soldier whether attached or unattached cannot count service for civil pension till he takes his discharge from the army.

Section 55, Rule 1 (page 29).

Substitute for the words

“below the rank of Head Constable”

the words

“whose pay does not exceed twenty rupees a month, and”

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

No 688.—*Simla, the 3rd August 1877.*—Her Majesty has been pleased to approve of the undermentioned promotions among the officers of the Staff Corps and Indian Military Forces :—

To be Captains.

* * * * *

Lieutenant Alexander Evans Gordon. Dated 18th April 1877.

No. 689.—*Medical Department.*—Supernumerary Surgeons-Major * * * * * Edmund John Hoskins, M.D., are brought on the establishment of Surgeons-Major to fill existing vacancies.

II. A. COCKERELL,
Offg. Secy. to the Govt. of Bengal

The Calcutta Gazette.

WEDNESDAY, AUGUST 15, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Nuddea, will be put up to sale at the Kooshtea sub-divisional cutcherry at 1 P. M. on Monday, the 10th September 1877, corresponding with 26th Bhadro 1284 B. S.

The purchasers of these plots will be subject to the following conditions:—

1. If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once
2. If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
3. The plots will be sold revenue free to the highest bidders.
4. The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in the case of the final sanction of the Member of the Board in charge should not be accorded to the proceedings.

Notice.

THE post of Accountant attached to this Office is vacant Salary Rs. 50. None need apply who have no experience in the Collectorate accounts

A. MACDONNELL, Offg. Collector
DURDHUNGA COLLECTORATE, the 10th August 1877.

WANTED a Translator for the Judge's Court, Rajshahye. Candidates are requested to send their applications, with copies (not originals) of testimonials, on or before the 20th August next. None but good translators in the English and Bengali languages need apply. Preference will be given to candidates also acquainted with Urdu.

The post is at present temporary, but is likely to be permanent

Salary Rs. 80 per mensem

Selected candidates will be required to attend an examination in translation.

T. F. BIGNOLD, Offg. Dist. Judge of Rajshahye.

Wanted

A MOHURIR on a salary of Rs. 20, rising to Rs. 30 by biennial increase of Re 1, in the Subordinate Judge's Court of this district. The candidate must be well versed in English, and acquainted with the procedure of the civil courts. He must also possess a knowledge of Bengalee, sufficient to enable him to carry on his duties in that language. Applicants for the appointment will be subjected to an examination (which will take place in the Subordinate Judge's Court-house at Burdwan on the 4th September 1877). Applications will be received by that officer.

S. H. C. TAYLER, District Judge.

BEERBHOOM, the 10th August 1877.

Notice.

TENDERS are invited for the execution of work in the Purneah district during the ensuing cess year commencing 1st October 1877.

The Road Cess Committee at their last annual meeting made the following allotment of funds for expenditure on thirty different roads:—

Earthwork	...	Rs. 39,588
Sál-wood planked bridges, 10 feet roadway	...	28,420
Masonry bridges	...	19,908
Bridge repairs	...	2,916

All information about the form and conditions of tender can be obtained from the undersigned. Tenders will be received up to the 19th August and opened on the following day.

W. FERNIE, C.E., District Engineer.

PURNEAH, the 2nd August 1877.

Notice

TO CONTRACTORS AND BUILDERS, NORTHBROOK HALL, DACCA.

THE Committee invite tenders for the erection and completion of this building at Dacca according to plans and specification to be seen at the office of Major Mant, R.E., Commercial Buildings, Calcutta, or at the office of the Executive Engineer, Dacca Division, Dacca.

2. Persons tendering to state a lump sum for which they will undertake to complete the work within twelve months after date of notification of acceptance of tender.

3. The contractor to execute a legal contract within seven days after date of notification of acceptance of tender, and deposit Rs. 4,000 security in cash or promissory notes as security for the due fulfilment of his contract.

4. The contractor will append to his tender a signed schedule of rates for earthwork per 1,000 cubic feet, but pointed purca brickwork per 100 cubic feet; concrete, per 100 cubic feet; teak-wood work, per cubic feet; iron work, wrought, per cwt.; iron work, cast, per cwt.

5. Tenders, to be sealed and endorsed "Tender for Northbrook Hall," will be received by the Secretary to the Committee, Dacca, until noon on the 30th August 1877.

6. The Committee do not bind themselves to accept the lowest or any tender.

By order of the Committee,

OBROY CHANDRA DOSS, Secretary.

DACCA, the 26th July 1877.

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.

22 " " 2-12 "

23 " " 2-14 "

24 " " 3 "

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7, at " 2-4 "

Under 7 feet, at " 2 "

The above prices are for ordinary building purposes.

For Planking Sleepers, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator, Oudh Forests,

SIMPSON HILLIERS, Asst. Conservator of Forests.
The 1st June 1877.

NOTICE is hereby given that the right of catching Elephants, for the current year 1877-78, in mehals Nos. 3 and 4, as described below, in the district of the Garo Hills, will be put up to public auction in two lots at 1 P.M., on the 15th August next, at the sub-divisional office at Dhubri.

2. The hunting operations will be carried on only during the months from 1st September 1877 to 31st March 1878.

3. The lots will be put up to auction to the highest bidders, but the Deputy Commissioner reserves the right to refuse the highest or any bid with the sanction of the Chief Commissioner.

4. The purchaser will be required to pay down at once 25 per cent. of the purchase-money, and to give security for the remainder, if called on to do so, failing which the lot will be again put up for sale at his risk.

5. All other conditions will be duly notified at the time of sale, and can be obtained at any time on application to the Deputy Commissioner of the Garo Hills at Tura, or to the sub-divisional officer at Dhubri.

MEHAL.—Lot No. 1.

Mehal No. 3 comprises the country lying between the Kalu River at Harigaon and Jinjiram River at Nibari, bounded on the south and east by the lands of the villages of Ganolgiri, Jendragiri, Ringigiri, Dodullunggiri and Gokulgiri.

Lot No. 2.

Mehal No. 4 comprises the country between the Jinjiram River and the eastern extremity of the Garo Hills at the junction of the Khasi and Kamroop boundaries, and bounded on the south by the lands of the villages of Sinal, Gabul, Assil, and the Sokadam range of hills to the Khasi border.

G. GODFREY,

Offg. Asst. Secy. to the Chief Commr. of Assam.
The 10th July 1877.

IT is hereby notified that I intend to apply for being enrolled as a Vakool of the High Court.
(1414—4) GOKUL CHUNDA DHAR.

THE interest and responsibility of Mr. George Muirhead Struthers in our firm ceased on the 30th June 1877 by mutual consent.

Lost.

SIX (6) Government Promissory Notes Nos. 000757, 000758, 000759, 000760, 000761, for rupees one thousand each, and No. 000766, for rupees seven hundred and fifty, of the 4 per cent. of 1st May 1862, Mysore Family loan for Rs. 5,750, originally standing in the name of Mohenee Begum, by whom it was never endorsed to any other person. Payment of the above notes, and the interest thereupon, have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

MAHOMED FUKHROODDEEN, *Manager of*
MOHENEER BEGUM, 38, *Upper Circular Road.*
The 11th August 1877. (1429—3)

Notice.

ALL persons are warned not to have any dealings with Mr. Harry Roberts about the jungle and waste lands in Mahilon village situate near Ranchi, or about the Tea garden in the same village, these being the property of the Ranchi Lac Company.

All persons are similarly warned from dealing in any way with the said Mr. Harry Roberts with respect to any other land or properties in which the said Company is interested.

The Power-of-Attorney formerly held by Mr. Harry Roberts from the said Company has been revoked, and he is no longer in any manner connected with the said Company or its affairs.

Mr. J. Ourwen, of Ranchi, is the local representative of the Company in liquidation.

Dated this 23rd day of April 1877.

CHAUNTBELL, KNOWLES, AND ROBERTS,
Solicitors for the Liquidators of the Ranchi
Lac Company, Limited.
(1275—f. n.)

Sungoo River Tea Company, "Limited."

NOTICE.

THE Half-yearly General Meeting of Shareholders will be held at the registered Office of the Company, No. 4, Fairlie Place, at noon, on Wednesday, the 22nd August 1877.

SCHOENE, KILBURN & Co.,

Managing Agents
(1433—2)

14th August 1877.

The Bengal Coal Company, "Limited."

NOTICE is hereby given that the adjourned Ordinary Half-yearly General Meeting of the Shareholders will be held at the Offices of the Company, No. 27, Dalhousie Square, Calcutta, on Saturday, the 25th current, at 11 o'clock A.M., to consider clauses Nos. 3 and 4 of the Director's Report for the half-year ended 30th April last.

By order of the Board,

H. H. MACLEOD, *Superintendent.*

CALCUTTA, the 11th August 1877.

(1431—1)

Dehra Doon Tea Company, "Limited"

NOTICE is hereby given that an Extraordinary General Meeting of the Shareholders of the above Company will be held (at the conclusion of the Ordinary Half-yearly Meeting) at the Mussoorie Bank, Mussoorie, on Thursday, the 30th day of August 1877, for the purpose of considering the manner of election and the constitution of the Board of Directors elected on 26th February 1877, and the desirability of annulling clause I of the Company's Articles of Association and of placing the Company under the regulations of Table A of the Indian Companies' Act, No. X of 1866.

The following Resolutions will be proposed:—

- I. That the Board of Directors elected on 26th February 1877 does not possess the confidence of the general body of Shareholders.
- II. That clause I of the Company's Articles of Association, providing that "the regulations of Table A of the Act, X of 1866, of the Legislative Council of India, save in so far as the same are hereby made wholly or in part applicable to this Company, shall not be binding on this Company," be annulled, and that Table A of the Act, X of 1866, be made applicable to the Dehra Doon Tea Company, Limited.

By order of the Directors,

A. F. GIBSON, *Secretary.*

DEHRA, the 20th July 1877.

(1413—4)

TO be sold by the Receiver of the High Court, pursuant to a decree of the said Court, in its Ordinary Original Civil Jurisdiction, dated 8th day of December 1876, made in suit No. 173 of 1874, wherein Bollye Chand Dhur is plaintiff and Sreemutty Heeramoney Dossce, &c., are defendants, on Saturday, the 18th day of August next, at the hour of 12 o'clock, at noon, at his office, in the High Court premises, the undermentioned property belonging to the estate of Ram Chunder Doss, deceased, viz.—

All that upper-roomed brick-built messuage tenement or dwelling-house, together with the piece or parcel of land thereunto belonging and on part whereof the same is erected or built, containing by estimation 1 beegha 1 cottah and 10 chittacks, more or less, situate, lying, and being at No. 71, Bentinck Street, in the town of Calcutta, and bounded in the manner following, that is to say—on the north partly by the house of Mudden Mohun Mullick and partly by the house of Dwarkanath Mitter; on the south partly by the house of Mr. R. Wallace, partly by the house in the occupation of Messrs. Steer and Company, and partly by a public lane called Zigzag Lane; on the east partly by the house of Mr. L. A. Pareira, and partly by the houses of Dwarkanath Mitter and Mudden Mohon Mullick; and on the west partly by public road called Bentinck Street, and partly by the house of Mr. R. Wallace, and partly by the house in the occupation of Messrs. Steer and Company.

For further particulars and conditions of sale apply to the undersigned.

J. C. MACGREGOR, *Receiver, High Court.*

RECEIVER'S OFFICE, the 19th July 1877. (1410—4)

PROCEEDINGS at the Annual General Meeting of the Proprietors and Shareholders of the Bank of Bengal, held on Monday, the 13th August 1877, in terms of section 49 of the Presidency Bank's Act, 1876.

The Hon'ble David Cowie, President of the Board of Directors, in the chair.

The Chairman submitted the papers noted below,* relative to the business for the year ended 30th June last.

On the motion of the Chairman, seconded by Mr. Wordie, the accounts were unanimously passed and approved.

On the motion of the Chairman, seconded by Mr. W. T. Berners, Mr. T. H. Wordie was unanimously re-elected a Director.

On the motion of Mr. W. T. Berners, seconded by the Chairman, Mr. J. F. Ogilvy was unanimously re-elected a Director.

On the motion of the Chairman, seconded by Mr. T. H. Wordie, Messrs. R. Roberts and H. W. I. Wood were unanimously re-elected auditors for the ensuing year, and their remuneration fixed at Rs. 2,500 for each audit, or Rs. 1,250 to each auditor.

With a vote of thanks to the Chairman the meeting terminated.

DAVID COWIE, *Chairman.*

Estate of George Alexander Atkinson, deceased.

STATUTORY NOTICE TO CREDITORS.

PURSUANT to the "Trustees' and Mortgagees' Powers' Act, 1866," notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of George Alexander Atkinson, late of Calcutta, an Auditor in the employ of the East Indian Railway Company, who died at Calcutta aforesaid on or about the 13th day of March 1877, and Letters of Administration of whose property and credits were duly granted to Edmund Goteley Wells, Esquire, of Calcutta, Officiating Superintendent, Government Dockyard, one of the constituted Attorneys of Christopher John Davies, the sole Executor of the said George Alexander Atkinson, deceased, by the High Court of Judicature at Fort William in Bengal, are hereby required to send in writing the particulars of their claims or demands to the said Edmund Goteley Wells at his Office situate at Government Dockyard on or before the 15th day of September 1877, and notice is hereby also given that at the expiration of the said time the said Administrator will distribute the assets of the said George Alexander Atkinson, deceased, amongst the parties entitled thereto having regard only to the claims of which he has then had notice.

Dated this 7th day of August 1877.

TROTMAN AND WATKINS,
Attorneys for the Administrator
Edmund Goteley Wells.

(1428—2)

In the Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of Ghasseeram, of Banstollah Gully, Burtollah, in the Town of Calcutta, lately carrying on business as a jeweller, money-lender, and commission agent at Banstollah Gully aforesaid, under the style and firm of Chugmull Ghasseeram, an Insolvent.

NOTICE is hereby given that the Commissioner of the Insolvent Court will sit on Tuesday, the 21st day

of August 1877, at the hour of 11 o'clock A.M., to adjudicate on the proof of claims in the above matter.

A. B. MILLER, *Official Assignee.*

PART V.

Act of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 19th July 1877, and is hereby promulgated for general information:—

ACT No. XV of 1877.

THE INDIAN LIMITATION ACT, 1877.

CONTENTS.

PREAMBLE.

PART I.

PRELIMINARY.

SECTIONS.

1. Short title.
Extent of Act.
Commencement.
2. Repeal of Act IX of 1871.
References to Act IX of 1871.
Saving of titles already acquired.
Saving of Act IX of 1872, section 25.
Suits for which period prescribed by this Act is shorter than that prescribed by Act IX of 1871.
3. Interpretation clause.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS. SECTIONS.

4. Dismissal of suits, &c., instituted, &c., after period of limitation.
5. Proviso where Court is closed when period expires.
Proviso as to appeals and application for review.
6. Special and local laws of limitation.
7. Legal disability.
Double and successive disabilities.
Disability of representative.
8. Disability of one joint creditor.
9. Continuous running of time.
10. Suits against express trustees and their representatives.
11. Suits on foreign contracts.
Foreign limitation law.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

12. Exclusion of day on which right to sue accrues.
Exclusion in case of appeals and certain applications.
13. Exclusion of time of defendant's absence from British India.
14. Exclusion of time of proceeding *bonâ fide* in Court without jurisdiction.

SECTIONS.

- Like exclusion in case of order under Civil Procedure Code, section 20.
 Like exclusion in case of application.
15. Exclusion of time during which commencement of suit is stayed by injunction or order.
 16. Exclusion of time during which judgment-debtor is attempting to set aside execution-sale.
 17. Effect of death before right to sue accrues.
 18. Effect of fraud.
 19. Effect of acknowledgment in writing.
 20. Effect of payment of interest as such.
 Effect of part-payment of principal.
 Effect of receipt of produce of mortgaged land.
 21. One of several joint contractors, &c., not chargeable by reason of acknowledgment or payment made by another of them.
 22. Effect of substituting or adding new plaintiff or defendant.
 Proviso where original plaintiff dies.
 Proviso where original defendant dies.
 23. Continuing breaches and wrongs.
 24. Suit for compensation for act not actionable without special damage.
 25. Computation of time mentioned in instruments.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

26. Acquisition of right to easements.
27. Exclusion in favour of reversioner of servient tenement.
28. Extinction of right to property.

FIRST SCHEDULE.

REPEALS.

SECOND SCHEDULE.

I.—SUITS. II.—APPEALS. III.—APPLICATIONS.

An Act for the limitation of suits and for other purposes.

WHEREAS it is expedient to amend the law relating to the limitation of suits, appeals, and certain applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows.

PART I.

PRELIMINARY.

1. This Act may be called "The Indian Limitation Act, 1877 :"

Short title.

It extends to the whole of British India; but
 Extent of Act. nothing contained in sections two and three or in Parts II and III applies—

- (a) to suits under the Indian Divorce Act, or
- (b) to suits under Madras Regulation VI of 1831;

Commencement. And it shall come into force on the first day of October 1877.

2. On and from that day the Acts mentioned in the first schedule hereto annexed shall be repealed to the extent therein specified.

But all references to the Indian Limitation Act, 1871, shall be read as if made to this Act; and nothing herein or in that Act contained shall be deemed to affect any title acquired, or to revive any right to sue barred, under that Act or under any enactment thereby repealed; and nothing herein contained shall be deemed to affect the Indian Contract Act, section 25.

Notwithstanding anything herein contained, any suit mentioned in No. 146 of the second schedule hereto annexed may be brought within five years next after the said first day of October 1877, unless where the period prescribed for such suit by the said Indian Limitation Act, 1871, shall have expired before the completion of the said five years; and any other suit for which the period of limitation prescribed by this Act is shorter than the period of limitation prescribed by the said Indian Limitation Act, 1871, may be brought within two years next after the said first day of October 1877, unless where the period prescribed for such suit by the same Act shall have expired before the completion of the said two years.

3. In this Act, unless there be something repugnant in the subject or context—

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue; 'applicant' includes also any person from or through whom an applicant derives his right to apply; and 'defendant' includes also any person from or through whom a defendant derives his liability to be sued:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or any thing growing in, or attached to, or subsisting upon, the land of another:

'bill of exchange' includes also a hundi and a cheque:

'bond' includes any instrument whereby a person obliges himself to pay money to another, on condition that the obligation shall be void if a specified act is performed, or is not performed, as the case may be:

'promissory note' means any instrument whereby the maker engages absolutely to pay a specified sum of money to another at a time therein limited, or on demand, or at sight:

'trustee' does not include a benamidar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered in British India under the law for the registration of documents in force at the time and place of executing the document, or signing the decree or order, referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS, AND APPLICATIONS.

4. Subject to the provisions contained in sections 5 to 25 (inclusive), every suit instituted, appeal presented, and application made after the period of limitation prescribed therefor by the second schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint is presented to the proper officer; in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a.) A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(b.) An appeal presented after the prescribed period is admitted and registered. The appeal shall nevertheless be dismissed.

5. If the period of limitation prescribed for any suit, appeal, or application expires on a day when the Court is closed, the suit, appeal, or application may be instituted, presented, or made on the day that the Court re-opens:

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

6. When, by any special or local law now or hereafter in force in British India, a period of limitation is specially prescribed for any suit, appeal, or application, nothing herein contained shall affect or alter the period so prescribed.

7. If a person entitled to institute a suit or make an application be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit or make the application within the same period, after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the second schedule hereto annexed.

When he is, at the time from which the period of limitation is to be reckoned, affected by two such disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit or make the application within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his legal representative may institute the suit or make the application within the same period after the death as would otherwise have been allowed from the time so prescribed.

When such representative is at the date of the death affected by any such disability, the rules contained in the first two paragraphs of this section shall apply.

Nothing in this section applies to suits to enforce rights of pre-emption, or shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which any suit must be instituted or application made.

Illustrations.

(a.) The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accruer. He may institute his suit at any time within three years from the date of his attaining majority.

(b.) A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accruer. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c.) A right to sue accrues to Z during his minority. After the accruer, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity and minority cease.

(d.) A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y, his minor son. Time runs against Y from the date of his attaining majority.

(e.) A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accruer A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(f.) A right to sue as landlord to recover possession from a tenant accrues to A, who is an idiot. A dies three years after the accruer, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time, except where the representative is himself under disability when the representation devolves upon him.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against

them all: but where no such discharge can be given, time will not run as against any of them until one of them becomes capable of giving such discharge without the concurrence of the others.

Illustrations.

(a.) A incurs a debt to a firm of which B, C, and D, are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C, and D.

(b.) A incurs a debt to a firm of which E, F, and G, are partners. E and F are insane and G is a minor. Time will not run against any of them until either E or F becomes sane or G attains majority.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his legal representatives or assigns (not being assigns for valuable consideration) for the purpose of following in his or their hands such property, shall be barred by any length of time.

11. Suits instituted in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

No foreign rule of limitation shall be a defence to a suit instituted in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

12. In computing the period of limitation prescribed for any suit, appeal or application, the day from which such period is to be reckoned shall be excluded.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence, or order appealed against or to be sought reviewed, shall be excluded.

Where a decree is appealed against or sought to be reviewed, the time requisite for obtaining a copy of the judgment on which it is founded shall also be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

13. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded.

14. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another civil proceeding, whether in a Court of first instance or in a Court of appeal, against the defendant, shall be excluded, where the proceeding is founded upon the same cause of action, and is prosecuted in good faith in a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to entertain it.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 20, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief shall be excluded, where the last-mentioned application is made in good faith to a Court which, from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction shall be deemed to be prosecuting a suit within the meaning of this section.

15. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, the day on which it was issued or made, and the day on which it was withdrawn, shall be excluded.

16. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a proceeding to set aside the sale shall be excluded.

17. When a person who would, if he were living, have a right to institute a suit or make an application, dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased capable of instituting or making such suit or application.

When a person against whom, if he were living, a right to institute a suit or make an application would have accrued dies before the right accrues, the period of limitation shall be computed from the time when there is a legal representative of the deceased against whom the plaintiff may institute or make such suit or application.

Nothing in the former part of this section applies to suits to enforce rights of pre-emption or to suits for the possession of immoveable property or of an hereditary office.

18. When any person having a right to institute a suit or make an application has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed from him, the time limited for instituting a suit or making an application

(a) against the person guilty of the fraud or accessory thereto, or,

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

19. If, before the expiration of the period prescribed for a suit or application in respect of any property or right, an acknowledgment of liability in respect of such property or right has been made in writing signed by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the acknowledgment was so signed.

When the writing containing the acknowledgment is undated, oral evidence may be given of the time when it was signed; but oral evidence of its contents shall not be received.

Explanation 1.—For the purposes of this section an acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery, performance, or enjoyment has not yet come, or is accompanied by a refusal to pay, deliver, perform, or permit to enjoy, or is coupled with a claim to a set-off, or is addressed to a person other than the person entitled to the property or right.

Explanation 2.—In this section “signed” means signed either personally or by an agent duly authorized in this behalf.

20. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay

the debt or legacy, or by his agent duly authorized in this behalf,

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent duly authorized in this behalf,

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of the principal of a debt, the fact of the payment appears in the hand-writing of the person making the same.

Where mortgaged land is in the possession of the mortgagee, the receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

21. Nothing in sections 19 and 20 renders one of several joint contractors, partners, executors, or mortgagees chargeable by reason only of a written acknowledgment signed, or of a payment made by, or by the agent of, any other or others of them.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Provided that when a plaintiff dies, and the suit is continued by his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Provided also that when a defendant dies, and the suit is continued against his legal representative, it shall, as regards him, be deemed to have been instituted when it was instituted against the deceased defendant.

23. In the case of a continuing breach of contract and in the case of a continuing wrong independent of contract, a fresh period of limitation begins to run at every moment of the time during which the breach or the wrong, as the case may be, continues.

24. In the case of a suit for compensation for an act which does not give rise to a cause of action unless some specific injury actually results therefrom, the period of limitation shall be computed from the time when the injury results.

Illustrations.

(a.) A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation in the case of a suit by A against B runs from the time of the subsidence.

(b.) A speaks and publishes of B slanderous words not actionable in themselves without special damage caused thereby. C in consequence refuses to employ B as his clerk. The period of limitation in the case of a suit by B against A for compensation for the slander does not commence till the refusal.

25. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Computation of time mentioned in instruments.

Illustrations.

(a.) A Hindu makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(b.) A Hindu makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

26. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

Explanation.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act

of some person other than the claimant, and unless such obstruction is submitted to or acquiesced in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a.) A suit is brought in 1881 for obstructing a right of way. The defendant admits the obstruction, but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1860 to 1st January 1880. The plaintiff is entitled to judgment.

(b.) In a like suit also brought in 1881 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1858 to 1878. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(c.) In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

27. Provided that, when any land or water upon, over, or from which any easement has been enjoyed or derived has been held under or by virtue of any

Exclusion in favour of reversioner of servient tenement.

interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a Hindu widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

28. At the determination of the period hereby limited to any person for instituting a suit for possession of any property, his right to such property shall be extinguished.

Extinguishment of right to property.

THE FIRST SCHEDULE.

Number and year of Acts.	Title.	Extent of Repeal.
X of 1865	The Indian Succession Act	In section 321 the words "within two years after the death of the testator, or one year after the legacy has been paid."
IX of 1871	The Indian Limitation Act, 1871.	The whole.
X of 1877	The Code of Civil Procedure.	Section 599, and in section 601 the words "within thirty days from the date of the order."

THE SECOND SCHEDULE.

(See Section 4.)

FIRST DIVISION : SUITS.

Description of suit.	Period of limitation.	Time from which period begins to run.
1.—To contest an award of the Board of Revenue under Act No. XXIII of 1863 (<i>to provide for the adjudication of claims to waste lands</i>).	<i>Part I.—Thirty days.</i> Thirty days ...	When notice of the award is delivered to the plaintiff.
2.—For compensation for doing, or for omitting to do, an act alleged to be in pursuance of any enactment in force for the time being in British India.	<i>Part II.—Ninety days.</i> Ninety days ...	When the act or omission takes place.
3.—Under the Specific Relief Act, 1877, section 9, to recover possession of immoveable property.	<i>Part III.—Six months.</i> Six months ...	When the dispossession occurs.
4.—Under Act No. IX of 1860 (<i>to provide for the speedy determination of certain disputes between workmen engaged in Railway and other public works and their employers</i>), section 1.	Ditto ...	When the wages, hire, or price of work claimed accrue or accrues due.
5.—Under the Code of Civil Procedure, Chapter XXXIX (<i>Of summary procedure on negotiable instruments</i>).	Ditto ...	When the instrument sued upon becomes due and payable.
6.—Upon a Statute, Act, Regulation or Bye-law, for a penalty or forfeiture.	<i>Part IV.—One year.</i> One year ...	When the penalty or forfeiture is incurred.
7.—For the wages of a household servant, artisan, or labourer not provided for by this schedule, No. 4.	Ditto ...	When the wages accrue due.
8.—For the price of food or drink sold by the keeper of a hotel, tavern, or lodging-house.	Ditto ...	When the food or drink is delivered.
9.—For the price of lodging	Ditto ...	When the price becomes payable.
10.—To enforce a right of pre-emption, whether the right is founded on law, or general usage, or on special contract.	Ditto ...	When the purchaser takes, under the sale sought to be impeached, physical possession of the whole of the property sold, or, where the subject of the sale does not admit of physical possession, when the instrument of sale is registered.
11.—By a person against whom an order is passed under section 280, 281, 282, or 335 of the Code of Civil Procedure, to establish his right to, or to the present possession of, the property comprised in the order.	Ditto ...	The date of the order.
12.—To set aside any of the following sales:— (a) sale in execution of a decree of a Civil Court; (b) sale in pursuance of a decree or order of a Collector or other officer of revenue; (c) sale for arrears of Government revenue, or for any demand recoverable as such arrears; (d) sale of a patni taluq sold for current arrears of rent.	Ditto ...	When the sale is confirmed, or would otherwise have become final and conclusive had no such suit been brought.

THE SECOND SCHEDULE—continued.

FIRST DIVISION : SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part IV.—One year—continued.</i>		
<i>Explanation.</i> —In this clause 'patni' includes any intermediate tenure saleable for current arrears of rent.		
13.—To alter or set aside a decision or order of a Civil Court in any proceeding other than a suit.	One year ...	The date of the final decision or order in the case by a Court competent to determine it finally.
14.—To set aside any act or order of an officer of Government in his official capacity, not herein otherwise expressly provided for.	Ditto ...	The date of the act or order.
15.—Against Government to set aside any attachment, lease, or transfer of immoveable property by the revenue authorities for arrears of Government revenue.	Ditto ...	When the attachment, lease, or transfer is made.
16.—Against Government to recover money paid under protest in satisfaction of a claim made by the revenue authorities on account of arrears of revenue or on account of demands recoverable as such arrears.	Ditto ...	When the payment is made.
17.—Against Government for compensation for land acquired for public purposes.	Ditto ...	The date of determining the amount of the compensation.
18.—Like suit for compensation when the acquisition is not completed.	Ditto ...	The date of the refusal to complete.
19.—For compensation for false imprisonment	Ditto ...	When the imprisonment ends.
20.—By executors, administrators, or representatives under Act XII of 1855 (<i>to enable the executors, administrators, or representatives to sue and be sued for certain wrongs</i>).	Ditto ...	The date of the death of the person wronged.
21.—By executors, administrators, or representatives under Act No. XIII of 1855 (<i>to provide compensation to families for loss occasioned by the death of a person caused by actionable wrong</i>).	Ditto ...	The date of the death of the person killed.
22.—For compensation for any other injury to the person.	Ditto ...	When the injury is committed.
23.—For compensation for a malicious prosecution.	Ditto ...	When the plaintiff is acquitted, or the prosecution is otherwise terminated.
24.—For compensation for libel ...	Ditto ...	When the libel is published.
25.—For compensation for slander ...	Ditto ...	When the words are spoken, or, if the words are not actionable in themselves, when the special damage complained of results.
26.—For compensation for loss of service occasioned by the seduction of the plaintiff's servant or daughter.	Ditto ...	When the loss occurs.
27.—For compensation for inducing a person to break a contract with the plaintiff	Ditto ...	The date of the breach.
28.—For compensation for an illegal, irregular, or excessive distress.	Ditto ...	The date of the distress.
29.—For compensation for wrongful seizure of moveable property under legal process.	Ditto ...	The date of the seizure.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run
<i>Part V.—Two years.</i>		
30.—Against a carrier for compensation for losing or injuring goods.	Two years ...	When the loss or injury occurs.
31.—Against a carrier for compensation for delay in delivering goods.	Ditto ...	When the goods ought to be delivered.
32.—Against one who, having a right to use property for specific purposes, perverts it to other purposes.	Ditto ...	When the perversion first becomes known to the person injured thereby.
33.—Under Act No. XII of 1855 (<i>to enable executors, administrators, or representatives to sue and be sued for certain wrongs</i>) against an executor, administrator, or other representative.	Ditto ...	When the wrong complained of is done.
34.—For the recovery of a wife ...	Ditto ...	When possession is demanded and refused.
35.—For the restitution of conjugal rights...	Ditto ...	When restitution is demanded and is refused by the husband or wife, being of full age and sound mind.
36.—For compensation for any malfeasance, misfeasance, or nonfeasance independent of contract and not herein specially provided for.	Ditto ...	When the malfeasance, misfeasance, or nonfeasance takes place.
<i>Part VI.—Three years.</i>		
37.—For compensation for obstructing a way or a water-course.	Three years ...	The date of the obstruction.
38.—For compensation for diverting a water-course.	Ditto ...	The date of the diversion.
39.—For compensation for trespass upon immoveable property.	Ditto ...	The date of the trespass.
40.—For compensation for infringing copyright or any other exclusive privilege.	Ditto ...	The date of the infringement.
41.—To restrain waste ...	Ditto ...	When the waste begins.
42.—For compensation for injury caused by an injunction wrongfully obtained.	Ditto ...	When the injunction ceases.
43.—Under the Indian Succession Act, 1865, section 320 or 321, to compel a refund by a person to whom an executor or administrator has paid a legacy or distributed assets.	Ditto ...	The date of the payment or distribution
44.—By a ward who has attained majority, to set aside a sale by his guardian.	Ditto ...	When the ward attains majority.
45.—To contest an award under any of the following Regulations of the Bengal Code:— VII of 1822, IX of 1825, and IX of 1833.	Ditto ...	The date of the final award or order in the case.
46.—By a party bound by such award to recover any property comprised therein.	Ditto ...	The date of the final award or order in the case.
47.—By any person bound by an order respecting the possession of property made under the Code of Criminal Procedure, Chapter XL, or the Bombay Mamlatdars' Courts' Act, or by any one claiming under such person, to recover the property comprised in such order.	Ditto ...	The date of the final order in the case.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—continued.</i>		
48.—For specific moveable property lost, or acquired by theft, or dishonest misappropriation or conversion, or for compensation for wrongfully taking or detaining the same.	Three years ...	When the person having the right to the possession of the property first learns in whose possession it is.
49.—For other specific moveable property, or for compensation for wrongfully taking or injuring or wrongfully detaining the same.	Ditto ...	When the property is wrongfully taken or injured, or when the detainer's possession becomes unlawful.
50.—For the hire of animals, vehicles, boats, or household furniture.	Ditto ...	When the hire becomes payable.
51.—For the balance of money advanced in payment of goods to be delivered.	Ditto ...	When the goods ought to be delivered.
52.—For the price of goods sold and delivered, where no fixed period of credit is agreed upon.	Ditto ...	The date of the delivery of the goods.
53.—For the price of goods sold and delivered to be paid for after the expiry of a fixed period of credit.	Ditto ...	When the period of credit expires.
54.—For the price of goods sold and delivered to be paid for by a bill of exchange, no such bill being given.	Ditto ...	When the period of the proposed bill elapses.
55.—For the price of trees or growing crops sold by the plaintiff to the defendant where no fixed period of credit is agreed upon.	Ditto ...	The date of the sale.
56.—For the price of work done by the plaintiff for the defendant at his request, where no time has been fixed for payment.	Ditto ...	When the work is done.
57.—For money payable for money lent ..	Ditto ...	When the loan is made.
58.—Like suit when the lender has given a cheque for the money.	Ditto ...	When the cheque is paid.
59.—For money lent under an agreement that it shall be payable on demand.	Ditto ...	When the loan is made.
60.—For money deposited under an agreement that it shall be payable on demand.	Ditto ...	When the demand is made.
61.—For money payable to the plaintiff for money paid for the defendant.	Ditto ...	When the money is paid.
62.—For money payable by the defendant to the plaintiff for money received by the defendant for the plaintiff's use.	Ditto ...	When the money is received.
63.—For money payable for interest upon money due from the defendant to the plaintiff.	Ditto ...	When the interest becomes due.
64.—For money payable to the plaintiff for money found to be due from the defendant to the plaintiff on accounts stated between them.	Ditto ...	When the accounts are stated in writing signed by the defendant or his agent duly authorised in this behalf, unless where the debt is, by a simultaneous agreement in writing signed as aforesaid, made payable at a future time, and then when that time arrives.
65.—For compensation for breach of a promise to do anything at a specified time, or upon the happening of a specified contingency.	Ditto ...	When the time specified arrives or the contingency happens.

THE SECOND SCHEDULE—*continued.*• FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI—Three years—continued.</i>		
66.—On a single bond where a day is specified for payment.	Three years ...	The day so specified.
67.—On a single bond where no such day is specified.	Ditto ...	The date of executing the bond.
68.—On a bond subject to condition ...	Ditto ...	When the condition is broken.
69.—On a bill of exchange or promissory note payable at a fixed time after date.	Ditto ...	When the bill or note falls due.
70.—On a bill of exchange payable at sight or after sight, but not at a fixed time.	Ditto ...	When the bill is presented.
71.—On a bill of exchange accepted payable at a particular place.	Ditto ...	When the bill is presented at that place.
72.—On a bill of exchange or promissory note payable at a fixed time after sight or after demand.	Ditto ...	When the fixed time expires.
73.—On a bill of exchange or promissory note payable on demand and not accompanied by any writing restraining or postponing the right to sue.	Ditto ...	The date of the bill or note.
74.—On a promissory note or bond payable by instalments.	Ditto ...	The expiration of the first term of payment, as to the part then payable; and, for the other parts, the expiration of the respective terms of payment.
75.—On a promissory note or bond payable by instalments, which provides that, if default be made in payment of one instalment, the whole shall be due.	Ditto ...	When the first default is made, unless where the payee or obligee waives the benefit of the provision, and then when fresh default is made in respect of which there is no such waiver.
76.—On a promissory note given by the maker to a third person to be delivered to the payee after a certain event should happen.	Ditto ...	The date of the delivery to the payee.
77.—On a dishonoured foreign bill where protest has been made and notice given.	Ditto ...	When the notice is given.
78.—By the payee against the drawer of a bill of exchange which has been dishonoured by non-acceptance.	Ditto ...	The date of the refusal to accept.
79.—By the acceptor of an accommodation-bill against the drawer.	Ditto ...	When the acceptor pays the amount of the bill.
80.—Suit on a bill of exchange, promissory note, or bond not herein expressly provided for.	Ditto ...	When the bill, note, or bond becomes payable.
81.—By a surety against the principal debtor	Ditto ...	When the surety pays the creditor.
82.—By a surety against a co-surety ...	Ditto ...	When the surety pays anything in excess of his own share.
83.—Upon any other contract to indemnify	Ditto ..	When the plaintiff is actually damaged.
84.—By an attorney or vakil for his costs of a suit or a particular business, there being no express agreement as to the time when such costs are to be paid.	Ditto ...	The date of the termination of the suit or business, or (where the attorney or vakil properly discontinues the suit or business) the date of such discontinuance

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*continued.*

Description of suit.	Period of limitation	Time from which period begins to run
	<i>Part VI—Three years—continued.</i>	
85.—For the balance due on a mutual, open and current account, where there have been reciprocal demands between the parties.	Three years ...	The close of the year in which the last item admitted or proved is entered in the account; such year to be computed as in the account.
86.—On a policy of insurance when the sum assured is payable immediately after proof of the death or loss has been given to or received by the insurers.	Ditto ...	When proof of the death or loss is given or received to or by the insurers, whether by or from the plaintiff, or any other person.
87.—By the assured to recover premia paid under a policy voidable at the election of the insurers.	Ditto ...	When the insurers elect to avoid the policy.
88.—Against a factor for an account ...	Ditto ...	When the account is, during the continuance of the agency, demanded and refused, or where no such demand is made, when the agency terminates.
89.—By a principal against his agent for moveable property received by the latter and not accounted for.	Ditto ...	Ditto.
90.—Other suits by principals against agents for neglect or misconduct.	Ditto ...	When the neglect or misconduct becomes known to the plaintiff.
91.—To cancel or set aside an instrument not otherwise provided for.	Ditto ...	When the facts entitling the plaintiff to have the instrument cancelled or set aside become known to him.
92.—To declare the forgery of an instrument issued or registered.	Ditto ...	When the issue or registration becomes known to the plaintiff.
93.—To declare the forgery of an instrument attempted to be enforced against the plaintiff.	Ditto ...	The date of the attempt.
94.—For property which the plaintiff has conveyed while insane.	Ditto ...	When the plaintiff is restored to sanity, and has knowledge of the conveyance.
95.—To set aside a decree obtained by fraud, or for other relief on the ground of fraud.	Ditto ...	When the fraud becomes known to the party wronged.
96.—For relief on the ground of mistake ...	Ditto ...	When the mistake becomes known to the plaintiff.
97.—For money paid upon an existing consideration which afterwards fails.	Ditto ...	The date of the failure.
98.—To make good out of the general estate of a deceased trustee the loss occasioned by a breach of trust.	Ditto ...	The date of the trustee's death, or, if the loss has not then resulted, the date of the loss.
99.—For contribution by a party who has paid the whole amount due under a joint decree, or by a sharer in a joint estate who has paid the whole amount of revenue due from himself and his co-sharers.	Ditto ...	The date of the plaintiff's advance in excess of his own share.
100.—By a co-trustee to enforce against the estate of a deceased trustee a claim for contribution.	Ditto ...	When the right to contribution accrues.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION : SUITS—*continued.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part VI.—Three years—concluded.</i>		
101.—For a seaman's wages ...	Three years ...	The end of the voyage during which the wages are earned.
102.—For wages not otherwise expressly provided for by this schedule.	Ditto ...	When the wages accrue due.
103.—By a Muhammadan for exigible dower (<i>mu'ajjal</i>).	Ditto ...	When the dower is demanded and refused, or (where during the continuance of the marriage no such demand has been made) when the marriage is dissolved by death or divorce.
104.—By a Muhammadan for deferred dower (<i>mu'wajjal</i>).	Ditto ...	When the marriage is dissolved by death or divorce.
105.—By a mortgagor after the mortgage has been satisfied, to recover surplus collections received by the mortgagee.	Ditto ...	When the mortgagor re-enters on the mortgaged property.
106.—For an account and a share of the profits of a dissolved partnership.	Ditto ...	The date of the dissolution.
107.—By the manager of a joint estate of an undivided family for contribution in respect of a payment made by him on account of the estate.	Ditto ...	The date of the payment.
108.—By a lessor for the value of trees cut down by his lessee contrary to the terms of the lease.	Ditto ...	When the trees are cut down.
109.—For the profits of immoveable property belonging to the plaintiff which have been wrongfully received by the defendant.	Ditto ...	When the profits are received, or, where the plaintiff has been dispossessed by a decree afterwards set aside on appeal, when he recovers possession.
110.—For arrears of rent ...	Ditto ...	When the arrears become due.
111.—By a vendor of immoveable property to enforce his lien for unpaid purchase-money.	Ditto ...	The time fixed for completing the sale, or (where the title is accepted after the time fixed for completion), the date of the acceptance.
112.—For a call by a company registered under any Statute or Act.	Ditto ...	When the call is payable.
113.—For specific performance of a contract.	Ditto ...	The date fixed for the performance, or, if no such date is fixed, when the plaintiff has notice that performance is refused.
114.—For the rescission of a contract ...	Ditto ...	When the facts entitling the plaintiff to have the contract rescinded first become known to him.
115.—For compensation for the breach of any contract, express or implied, not in writing registered, and not herein specially provided for.	Ditto ...	When the contract is broken, or (where there are successive breaches) when the breach in respect of which the suit is instituted occurs, or (where the breach is continuing) when it ceases.

THE SECOND SCHEDULE—*continued*.FIRST DIVISION: SUTS—*continued*

Description of suit.	Period of limitation.	Time from which period begins to run.
	<i>Part VII.—Six years.</i>	
116.—For compensation for the breach of a contract in writing registered.	Six years ...	When the period of limitation would begin to run against a suit brought on a similar contract not registered.
117.—Upon a foreign judgment as defined in the Code of Civil Procedure.	Ditto ..	The date of the judgment.
118.—To obtain a declaration that an alleged adoption is invalid, or never in fact took place.	Ditto ...	When the alleged adoption becomes known to the plaintiff.
119.—To obtain a declaration that an adoption is valid.	Ditto ...	When the rights of the adopted son as such are interfered with.
120.—Suit for which no period of limitation is provided elsewhere in this schedule.	Ditto ...	When the right to sue accrues.
	<i>Part VIII.—Twelve years.</i>	
121.—To avoid incumbrances or undertenures in an entire estate sold for arrears of Government revenue, or in a <i>patni taluq</i> or other saleable tenure sold for arrears of rent.	Twelve years ...	When the sale becomes final and conclusive.
122.—Upon a judgment obtained in British India, or a recognizance.	Ditto ...	The date of the judgment or recognizance.
123.—For a legacy or for a share of a residue bequeathed by a testator, or for a distributive share of the property of an intestate.	Ditto ...	When the legacy or share becomes payable or deliverable.
124.—For possession of an hereditary office.	Ditto ...	When the defendant takes possession of the office adversely to the plaintiff. <i>Explanation.</i> —An hereditary office is possessed when the profits thereof are usually received, or (if there are no profits) when the duties thereof are usually performed.
125.—Suit during the life of a Hindú or Muhammadan female by a Hindú or Muhammadan who, if the female died at the date of instituting the suit would be entitled to the possession of land, to have an alienation of such land made by the female declared to be void except for her life or until her remarriage.	Ditto ...	The date of the alienation.
126.—By a Hindú governed by the law of the <i>Mitákshará</i> to set aside his father's alienation of ancestral property.	Ditto ...	When the alienee takes possession of the property.
127.—By a person excluded from joint-family property to enforce a right to share therein.	Ditto ...	When the exclusion becomes known to the plaintiff.
128.—By a Hindú for arrears of maintenance.	Ditto ...	When the arrears are payable.
129.—By a Hindú for a declaration of his right to maintenance.	Ditto ...	When the right is denied.

THE SECOND SCHEDULE—continued.

FIRST DIVISION: SUITS—continued.

Description of suit.	Period of limitation.	Time from which period begins to run
<i>Part VIII.— Twelve years— continued.</i>		
130.—For the resumption or assessment of rent-free land.	Twelve years ...	When the right to resume or assess the land first accrues.
131.—To establish a periodically recurring right.	Ditto ...	When the plaintiff is first refused the enjoyment of the right.
132.—To enforce payment of money charged upon immoveable property. <i>Explanation.</i> —The allowance and fees respectively called <i>málikána</i> and <i>haqqs</i> shall, for the purpose of this clause, be deemed to be money charged upon immoveable property.	Ditto ...	When the money sued for becomes due.
133.—To recover moveable property conveyed or bequeathed in trust, deposited or pawned, and afterwards bought from the trustee, depositary, or pawnee for a valuable consideration.	Ditto ...	The date of the purchase.
134.—To recover possession of immoveable property conveyed or bequeathed in trust or mortgaged and afterwards purchased from the trustee or mortgagee for a valuable consideration.	Ditto * ..	Ditto.
135.—Suit instituted in a Court not established by Royal Charter by a mortgagee for possession of immoveable property mortgaged.	Ditto ...	When the mortgagor's right to possession determines.
136.—By a purchaser at a private sale for possession of immoveable property sold, when the vendor was out of possession at the date of the sale.	Ditto ...	When the vendor is first entitled to possession.
137.—Like suit by a purchaser at a sale in execution of a decree, when the judgment-debtor was out of possession at the date of the sale.	Ditto .	When the judgment-debtor is first entitled to possession.
138.—By a purchaser of land at a sale in execution of a decree, for possession of the purchased land, when the judgment-debtor was in possession at the date of the sale.	Ditto ..	The date of the sale.
139.—By a landlord to recover possession from a tenant.	Ditto ...	When the tenancy is determined.
140.—By a remainderman,* a reversioner (other than a landlord), or a devisee, for possession of immoveable property.	Ditto ...	When his estate falls into possession.
141.—Like suit by a Hindú or Muhammadan entitled to the possession of immoveable property on the death of a Hindú or Muhammadan female.	Ditto ..	When the female dies.
142.—For possession of immoveable property, when the plaintiff, while in possession of the property, has been dispossessed or has discontinued the possession.	Ditto	The date of the dispossession or discontinuance.
143.—Like suit, when the plaintiff has become entitled by reason of any forfeiture or breach of condition.	Ditto ...	When the forfeiture is incurred or the condition is broken.
144.—For possession of immoveable property or any interest therein not hereby otherwise specially provided for.	Ditto ...	When the possession of the defendant becomes adverse to the plaintiff.

THE SECOND SCHEDULE—*continued.*FIRST DIVISION: SUITS—*concluded.*

Description of suit.	Period of limitation.	Time from which period begins to run.
<i>Part IX.— Thirty years.</i>		
145.—Against a depositary or pawnee to recover moveable property deposited or pawned.	Thirty years ...	The date of the deposit or pawn.
146.—Before a Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction by a mortgagee to recover from the mortgagor the possession of immoveable property mortgaged.	Ditto ...	When any part of the principal or interest was last paid on account of the mortgage debt.
<i>Part X.— Sixty years.</i>		
147.—By a mortgagee for foreclosure or sale.	Sixty years ...	When the money secured by the mortgage becomes due.
148.—Against a mortgagee to redeem or to recover possession of immoveable property mortgaged.	Ditto ...	When the right to redeem or to recover possession accrues. Provided that all claims to redeem, arising under instruments of mortgage of immoveable property situate in British Burma, which have been executed before the first day of May 1863, shall be governed by the rules of limitation in force in that province immediately before the same day.
149.—Any suit by or on behalf of the Secretary of State for India in Council.	Ditto ...	When the period of limitation would begin to run under this Act against a like suit by a private person.

SECOND DIVISION: APPEALS.

Description of appeal.	Period of limitation.	Time from which period begins to run.
150.—Under the Code of Criminal Procedure from a sentence of death passed by a Sessions Judge.	Seven days ...	The date of the sentence.
151.—From a decree or order of any of the High Courts of Judicature at Fort William, Madras, and Bombay in the exercise of its original jurisdiction.	Twenty days ...	The date of the decree or order.
152.—Under the Code of Civil Procedure to the Court of a District Judge.	Thirty days ...	The date of the decree or order appealed against.
153.—Under the same Code, section 601, to a High Court.	Ditto ...	The date of the order refusing the certificate.
154.—Under the Code of Criminal Procedure to any Court other than a High Court.	Ditto ...	The date of the sentence or order appealed against.
155.—Under the same Code to a High Court, except in the cases provided for by No. 150 and No. 157.	Sixty days ...	Ditto.
156.—Under the Code of Civil Procedure to a High Court except in the cases provided for by No. 151 and No. 155.	Ninety days ...	The date of the decree or order appealed against.
157.—Under the Code of Criminal Procedure from a judgment of acquittal.	Six months ...	The date of the judgment appealed against.

THE SECOND SCHEDULE—continued.

THIRD DIVISION: APPLICATIONS.

Description of application	Period of limitation.	Time from which period begins to run
158.—Under the Code of Civil Procedure to set aside an award.	Ten days ...	When the award is submitted to the Court.
159.—For leave to appear and defend a suit under Chapter XXXIX of the Code of Civil Procedure.	Ditto ...	When the summons is served.
160.—For an order under section 629 of the same Code restoring to the file a rejected application for review.	Fifteen days ..	When the application for review is rejected.
161.—For an order under section 258 of the same Code compelling a decree-holder to certify payment or adjustment.	Ditto ...	When the payment or adjustment is made.
162.—For a review of judgment by any of the High Courts of Judicature at Fort William, Madras, and Bombay in the exercise of its original jurisdiction.	Twenty days ...	The date of the decree or order.
163.—By a plaintiff for an order to set aside a dismissal by default.	Thirty days ...	The date of the dismissal.
164.—By a defendant for an order to set aside a judgment <i>ex parte</i> .	Ditto ...	The date of executing any process for enforcing the judgment.
165.—Under the Code of Civil Procedure, by a person dispossessed of immovable property, and disputing the right of the decree-holder or purchaser at a sale in execution of a decree to be put into possession.	Ditto ...	The date of the dispossession.
166.—To set aside a sale in execution of a decree on the ground of irregularity in publishing or conducting the sale.	Ditto ...	The date of the sale.
167.—Complaining of resistance or obstruction to delivery of possession of immovable property decreed or sold in execution of a decree, or of dispossession in the delivery of possession to the decree-holder or the purchaser of such property.	Ditto ...	The date of the resistance, obstruction, or dispossession.
168.—For re-admission of an appeal dismissed for want of prosecution.	Ditto ..	The date of the dismissal.
169.—For a re-hearing of an appeal heard <i>ex parte</i> in the absence of the respondent.	Ditto ...	The date of the decree in appeal.
170.—For leave to appeal as a pauper ...	Ditto ...	The date of the decree appealed against.
171.—Under section 363 or 365 of the Code of Civil Procedure by a person claiming to be the legal representative of a deceased plaintiff.	Sixty days ...	The date of the plaintiff's death.
172.—By a purchaser at an execution sale to set aside the sale on the ground that the person whose interest in the property purported to be sold had no saleable interest therein.	Ditto ...	The date of the sale.
173.—For a review of judgment, except in the cases provided for by No. 162.	Ninety days ..	The date of the decree or order.
174.—By a creditor of an insolvent judgment-debtor under section 353 of the Code of Civil Procedure.	Ditto ...	The date of the publication of the schedule.
175.—For payment of the amount of a decree by instalments.	Six months ...	The date of the decree.
176.—Under the Code of Civil Procedure, section 516 or 525, that an award be filed in Court.	Ditto ..	The date of the award.

THE SECOND SCHEDULE—*continued.*THIRD DIVISION : APPLICATIONS—*continued.*

Description of application	Period of limitation.	Time from which period begins to run.
177.—For the admission of an appeal to Her Majesty in Council.	Six months ...	The date of the decree appealed against.
178.—Applications for which no period of limitation is provided elsewhere in this schedule, or by the Code of Civil Procedure, section 230.	Three years ...	When the right to apply accrues.
179.—For the execution of a decree or order of any Civil Court not provided for by No. 180, or by the Code of Civil Procedure, section 230	Ditto; or where a certified copy of the decree or order has been registered, six years.	<p>1. The date of the decree or order, or</p> <p>2. (where there has been an appeal) the date of the final decree or order of the Appellate Court, or</p> <p>3. (where there has been a review of judgment) the date of the decision passed on the review, or</p> <p>4. (where the application, next hereinafter mentioned has been made) the date of applying in accordance with law to the proper Court for execution, or to take some step in aid of execution of the decree or order, or</p> <p>5. (where the notice next hereinafter mentioned has been issued) the date of issuing a notice under the Code of Civil Procedure, section 248, or</p> <p>6. (where the application is to enforce any payment which the decree or order directs to be made at a specified date) the date so specified.</p> <p><i>Explanation I.</i>—Where the decree or order has been passed severally in favour of more persons than one, distinguishing portions of the subject-matter as payable or deliverable to each, the application mentioned in clause 4 of this Number shall take effect in favour only of such of the said persons or their representatives as it may be made by. But when the decree or order has been passed jointly in favour of more persons than one, such application, if made by any one or more of them, or by his or their representatives, shall take effect in favour of them all.</p> <p>Where the decree or order has been passed severally against more persons than one, distinguishing portions of the subject-matter</p>

THE SECOND SCHEDULE—*concluded.*THIRD DIVISION : APPLICATIONS—*concluded.*

Description of application.	Period of limitation.	Time from which period begins to run.
180.—To enforce a judgment, decree, or order of any Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction, or an order of Her Majesty in Council.	Twelve years ...	<p>as payable or deliverable by each, the application shall take effect against only such of the said persons or their representatives as it may be made against. But where the decree or order has been passed jointly against more persons than one, the application, if made against any one or more of them, or against his or their representatives, shall take effect against them all.</p> <p><i>Explanation II.</i>—"Proper Court" means the Court whose duty it is (whether under section 226 or 227 of the Code of Civil Procedure or otherwise) to execute the decree or order.</p> <p>When a present right to enforce the judgment, decree, or order accrues to some person capable of releasing the right : Provided that when the judgment, decree, or order has been revived, or some part of the principal money secured thereby, or some interest on such money has been paid, or some acknowledgment of the right there-to has been given in writing, signed by the person liable to pay such principal or interest, or his agent, to the person entitled thereto or his agent, the twelve years shall be computed from the date of such revivor, payment, or acknowledgment, or the latest of such revivors, payments, or acknowledgments, as the case may be.</p>

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF CIVIL JUSTICE IN THE SONTAL PERGUNNAHS FOR THE YEAR 1876

JUDICIAL

Calcutta, the 30th July 1877.

READ—

The Report on the administration of civil justice in the Sonthal Pergunnahs for the year 1876.

Read also—

The Report for the year 1875 and the Resolution thereon.

THE report now before Government is in many respects more satisfactory than that on which the last Resolution was recorded. The increase in the number of cases instituted has been very striking, but the local officers have exerted themselves to meet it with energy and success. The quality of the work done by them has been good, and they have generally shown creditable care and expedition in the disposal of cases.

2. Compared with the previous year, the total number of cases instituted under the four great heads in 1876 was as follows:—

	Instituted.		Disposed of.	
	1875.	1876.	1875.	1876.
Civil suits ...	4,584	5,389	4,286	5,571
Do. executions ...	2,464	3,084	2,432	2,918
Revenue suits ...	7,518	18,254	5,522	17,431
Do. executions ...	3,119	5,452	2,735	4,644
Total ...	17,685	32,129	14,975	30,564

3. Civil cases, it will be observed, show a considerable, but still perhaps only a normal, increase. The number is certainly not excessive considered with reference to the area and population of the district, and probably a steady annual increase may be anticipated for some time to come. But the details of the suits instituted exhibit in a very unsatisfactory light the pecuniary relations of the people. Roughly speaking, the different classes of suits, while showing an increase, have preserved the ratio to the total number in 1876 that they held in 1875. The deplorable preponderance of actions to recover money lent is still remarkable. Suits on bonds and suits on unsecured loans still account for more than half the cases instituted; and these suits, with suits for goods sold and for book debts, number 5,186 out of a total of 6,159 cases on the file. This points to a continued prevalence of reckless borrowing and want of thrift which is much to be deplored.

4. The enormous increase in revenue suits is the result of the settlement proceedings, aided by the special facilities for the assertion of claims afforded by the Sonthal Regulation. No less than 95 per cent. of these were for arrears of rent or for possession of jote lands. On the one hand, the ryots have withheld their rents in the hope that the settlement would lower them; on the other, they have taken full advantage of the suspension of the Court Fees' Act, and of the enlargement of the period of limitation to advance claims to lands formerly in their possession. The statement of the disposal of revenue suits makes no distinction between rent and possession cases, but it shows that a very large number of suits decided on their merits were given against the plaintiffs. The average ratio of revenue cases decided against plaintiffs to the total number decided on their merits has been nearly 32 per cent., while the ratio in civil cases has been only 16 per cent. In 1875 the proportions were respectively 21 and 12 per cent. From this it is obvious that in both years frivolous and unfounded claims have been much more common in revenue than in civil suits, and that in 1876 the ratio of false claims to true has increased under both heads, and very markedly under the former. It is important to observe that in Deoghur, which is under exceptionally able management, no less than 1,425 out of 3,290 revenue cases decided on the merits (or 43 per cent.) were given against the plaintiff, while only 133 out of 854 civil cases (or 15 per cent.) had a similar result. In Godda and Rajmehal only 15 and 19 per cent. respectively of the revenue cases thus decided resulted unfavourably to the plaintiffs. The Lieutenant-Governor cannot help thinking that in these two sub-divisions an unduly liberal view has been taken of the *bona fides* of the originators of revenue suits. Looking to all the circumstances, Mr. Eden is of opinion that the special facilities for litigation provided by the Sonthal Pergunnahs Regulation have been abused; that much unnecessary labour has been, and is being, thrown upon the local officers; and that an unhealthy spirit of litigiousness is being fostered among the people. Under section 8 of the Regulation, the Court Fees' Act is only suspended in respect of suits before settlement officers, or before district officers adjudicating land disputes under section 26, pending the completion of a settlement. There has been hitherto some difference of opinion whether the provisions of section 8 apply to proceedings taken under section 5.* The Lieutenant-Governor has now ruled, however, that they do not apply; and that, as soon as the settlement of any tract has been completed, the requirements of the Court Fees' Act must be enforced in respect of all suits or proceedings regarding land situated within it. The Lieutenant-Governor has no doubt that this decision will have an important effect in discouraging the advancement of trivial or invalid claims.

5. The Lieutenant-Governor has already expressed his general satisfaction with the quality, as well as the quantity, of the work done by the Sonthal Pergunnahs officers. He is compelled, however, to remark on the large proportion of cases dismissed in default of appearance of the plaintiffs in Doomka, Godda, and Rajmehal. The following table exhibits the results of civil and revenue cases in the four sub-divisions :—

Statement of Civil and Revenue Suits in the Sonthal Pergunnahs for 1876.

	Total number of cases for trial.	Decided in favour of plaintiff or appellant.	Decided in favour of defendant or respondent.	Dismissed in default.	Compromised.	Transferred.	Total.	Pending at the close of 1876
Doomka . . .	9,210	2,298	1,460	3,700	627	53	8,177	1,033
Deoghur . . .	6,617	2,566	1,558	456	590	2	5,201	1,416
Godda	8,610	4,225	728	1,754	750	...	7,457	1,153
Rajmehal . . .	2,437	1,150	242	451	321	...	2,167	270
Total . . .	26,874	10,239	4,018	6,370	2,297	55	23,002	3,872

Doomka, it will be observed, shows almost as many cases dismissed in default as decided on the merits. Deoghur, on the other hand, shows only 456 against 4,144. In Godda and Rajmehal the proportions were about one to three. The Lieutenant-Governor is aware that Mr. Wilmot is an officer of great industry, ability, and local experience, and he agrees with the Commissioner that it would be unfair to judge younger officers by his standard. At the same time, in this particular respect, Mr. Eden would have gladly seen a nearer approach to Mr. Wilmot's method of disposing of work than has been attained. It may fairly be assumed that a great many of the absentees either were conscious of the unsoundness of their claims, or compromised their cases, but some must have suffered hardship; and if the statement made by the Commissioner that a Sonthal can ordinarily keep count only for eleven days is correct, it is to be regretted that some reminders were not issued to plaintiffs whose cases were set down for hearing on dates distant from those of institution. The results of appeals have been generally favourable and speak well for the administration of civil justice. Mr. Boxwell's remarks on the haste with which Mr. Shircore disposes of his cases appear to be justified by the returns.

6. The statements of usury proceedings are interesting, but incomplete. No such question appears to have been raised in any revenue case at Godda or Rajmehal; and indeed it would seem that it is only at Doomka that any considerable advantage is taken of the powers of revision conferred by section 6. Out of 237 revenue cases in which the rates of interest were revised under this section, 144 occurred at Doomka and 93 at Deoghur. In 102 of these interest was charged at rates exceeding the legal maximum of 24 per cent. In only 176 civil cases was the rate of interest revised. Of these, 85 occurred at Doomka, 45 at Deoghur, 29 at Godda, and 17 at Rajmehal. Illegal rates of interest were charged in 105 of these cases. It has now been twice reported that the local officers deal with cases of usury very much according to their own notions of equity, and indeed the requirements of the law for the protection of the indebted appear to have become practically a dead letter in Rajmehal and Godda. This cannot be allowed, and the Lieutenant-Governor desires that the Commissioner will insist upon due effect being given to provisions which are not permissive, but imperative.

7. There is one point on which the Lieutenant-Governor will be glad to have fuller information, and that is as to the extent to which the intentions of the framers of the system of administration for the Sonthal Pergunnahs have been adhered to in respect to the free communication between the European officers and the people without the intervention of amlah. From reports which have reached him, the Lieutenant-Governor sees reason to fear that this essential principle of the scheme has of late years been lost sight of, and he must request the earnest attention of the Commissioner to the subject.

8. The Lieutenant-Governor cordially endorses the encomium passed by the Commissioner on Mr. Boxwell and his Assistants. Mr. Eden is satisfied that the administration of the Sonthal Pergunnahs is in excellent hands. All the subordinate officers have displayed great industry and public spirit in their efforts to cope with very heavy work. Messrs. Wilmot, Cosserat, Grant, and Bolton are deservedly selected for special mention.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Commissioner of Bhagulpore.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON INLAND EMIGRATION FOR 1876-77.

EMIGRATION.

Calcutta, the 10th August 1877.

READ—

Annual Report of the Superintendent of Emigration for 1876-77, on the inland emigration to Assam, Cachar, and Sylhet.

Read also—

Reports for 1874-75 and 1875-76, and the Resolution passed upon them.

THE report now submitted is in many respects unsatisfactory. It shows that, concurrently with a considerable decrease in the number of labourers recruited and despatched, there has been a large increase in dishonest recruitment and not a little laxity in the local medical inspections. The total number of labourers and their dependents registered during the year was 26,581, against 33,175 in 1875-76. Of these, 3,785 were recruited by garden sirdars, and escorted by them to Assam *via* Dhubri, against 2,516 in the previous year. Out of 22,796 registered for transmission through Calcutta, 4,944 were conducted to their destination by garden sirdars without resort to depôts. Of the 17,852 who were registered for despatch through depôts, 13,539 were collected by recruiters and 4,313 by garden sirdars. Of these, 70 (of whom 63 were produced by recruiters and 7 by sirdars) declined to emigrate after registration and were left behind, and 330 in all, or 2.24 per cent. of the recruiters' and 0.60 per cent. of the sirdars' labourers, absconded on the way to Calcutta. The number of labourers who actually arrived in depôt was 17,434—13,169 of the first class, and 4,265 of the second. The Medical Inspector finally rejected 515, or 3.60 per cent., of the former, and 141, or 2.72 per cent., of the latter. No less than 701 of the recruiters' labourers obtained their release from the Superintendent as unwilling to emigrate, and 72, or 1.39 per cent., of those collected by garden sirdars were similarly discharged. Of the former class 1,053, or 7.36 per cent., and of the latter 169, or 3.26 per cent., absconded from the depôts.

2. These figures exhibit a very unsatisfactory state of things, and the following table shows that abuse and neglect of the provisions of the law are on the increase :—

	1875-76	1876-77.
Number registered after medical inspection for		
Calcutta depôts	22,878	17,852
Absconded	5.12	8.59
Unwilling to proceed	1.26	4.34
Rejected by Medical Inspector	2.14	3.36

The large and increasing percentage of rejections by the Medical Inspector shows very clearly that the Civil Surgeons of the recruiting districts do not

conduct their examinations with sufficient care. It is not creditable to them that 656 persons whom they passed as fit to proceed as labourers to Assam should be rejected as unfit in Calcutta, and be subjected to the hardship of a return journey. The Lieutenant-Governor cannot attribute the result to undue strictness on the part of the Medical Inspector in Calcutta, as it has recently been found in one or two instances that labourers have been passed by that officer who should have been rejected. Mr. Eden desires that in future reports the districts in which rejected labourers were originally passed by medical officers may be stated.

3. More serious, however, is the large number of labourers who either absconded on the way to Calcutta or from the depôts, or declared themselves before the Superintendent unwilling to proceed. The proportion of these among the sirdars' labourers, though comparatively small, is still increasing. Among those collected by the recruiters, however, it is so large as to point unmistakably to improper practices in the process of recruiting. Dr. Joubert mentions the increase in the number of contractors at work as one of the causes by which these irregularities are promoted. There can be no doubt that the competition which is thus encouraged must have a very prejudicial effect. Rival recruiters struggle to outbid one another among the people, and afterwards have recourse to malpractices to cover their deception. Emigration is thus discredited, the expenses of recruiting are increased, and the interests of employers suffer at once from a falling off in the supply of good labourers and an increase in the expense of importing them. Several instances have come under the notice of Government during the current year, in which it has been found necessary to cancel the licenses of contractors, and the statements now submitted show that some of the smaller depôts are very badly managed. Mr. Eden has ascertained that the Superintendent has since declined to renew the licenses of some contractors whose business has not been satisfactorily conducted. His action in this respect has the Lieutenant-Governor's full approval. It is important that the business should be concentrated in the hands of a few experienced contractors, who have sufficient capital to place them beyond the temptation to resort to irregular devices, and who have earned the confidence of the Emigration Department by upright and straightforward conduct.

4. The attention of Government has recently been directed to the working of the recruiting system in Chota Nagpore, and the result has been the disclosure of great abuses among the recruiting agency on one hand, and of great laxity on the part of the local authorities on the other. In the district of Lohardugga, where the most serious malpractices have been brought to light, no single recruiter or garden sirdar was deprived of his license during the past year, and though numerous complaints, calling for immediate inquiry, were made, the action taken upon them, even when substantiated, was quite insufficient. A very irregular sort of sub-agency system is found to have grown up in Chota Nagpore, and it appears that the provisions of the law in regard to the operations of garden sirdars have been made the cloak for much irregularity. The law contemplates garden sirdars as persons who return from Assam with a commission from their masters to collect a few labourers in their native villages whom they can induce to rely upon their experience and return with them to the tea districts. Special facilities are held out for this description of recruiting; but the essence of it is that the party recruited should not contain more than twenty persons. In Ranchi, it appears persons holding garden sirdars' licenses establish themselves in the district, and take the labourers whom they collect to the depôt of a local agent. The labourers thus collected are not conveyed in a body to Calcutta depôts, but are despatched in batches of twenty or less under the charge of sirdars who may or may not be the men who have recruited them. It is clear that this is merely the recruiting system without its safeguards, and that the so-called garden sirdars are simply recruiters, and the local agents sub-contractors. Orders have now been issued to put a stop to these irregularities. The local officers have been directed to see that labourers contributed to local depôts by garden sirdars are thenceforth treated as recruiters' labourers, and despatched to Calcutta under the restrictions laid down by the law. The local agents will also be required to take out licenses as recruiters, and thus render their proceedings legally cognizable.

5. The increasing number of garden sirdars' labourers who proceed *via* Dhubri is very satisfactory. This system, if legitimately worked, is undoubtedly that which promises the best results, and which is most likely to encourage spontaneous emigration. Labourers proceeding by way of Rajmehal and Dinagapore will soon be able to avail themselves of the Northern Bengal Railway. Mr. Eden has given orders for the construction of a good metalled road from Rungpore to the borders of the Goalpara district, $11\frac{1}{2}$ miles from Dhubri. Bridges will be constructed over the minor streams and good ferries will be established on the larger rivers. Rest-houses will be constructed at the different stages, places of shelter will be provided at the ferries, and native doctors will be stationed at selected points along the route. The Chief Commissioner of Assam will construct that part of the road which falls within his administration. It is anticipated that most of the labourers forwarded to the districts of the Brahmaputra valley will be despatched by rail to Rungpore, and thence by road to Dhubri, instead of by steamer from Goalundo. The Lieutenant-Governor considers it very important that emigrants for Upper Assam should perform the journey as far as Dhubri by land.

6. Altogether 20,724 emigrants embarked at Goalundo, against 26,884 in 1875-76. This includes 3,803 sirdars' coolies who did not resort to depôts either at Calcutta or at Goalundo, and 1,101 of the same class who here first presented themselves, and were accordingly placed under observation for four days. Of the total number embarked, 5,935 were alleged to be *dhangurs*, 5,250 were Bengalis, 4,700 Beharis, and 1,036 natives of other parts of India, including a number of persons from the distressed districts of Madras. The Beharis formed 27 per cent. of the total number of emigrants, against 19 per cent. in 1875-76, and Dr. Richards reports that there were many families amongst them. This increase in the number of Behari emigrants to Assam is synchronous with a decrease in colonial emigration, in which this class of labourers has generally taken the chief part. The Sonthal Pergunnahs, Monghyr, and Gya, which in 1875-76 were 8, 9, and 10 on the list of districts whence labourers are drawn, now take place as 6, 5, and 7 respectively. The death-rate at Goalundo was .15 per cent. among recruiters' labourers and .13 per cent. among sirdars' labourers from Calcutta depôts. The death-rate among the last-mentioned class was 1.38 per cent. in 1875-76. Among the sirdars' emigrants who had not visited the Calcutta depôts the mortality was 1.31 per cent. It should be remarked, however, that these emigrants were detained on the average four days and nine hours, while the average detention of the other two classes was only 23 and 25 hours respectively. This class of emigrants was chiefly composed of *dhangurs*. The mortality among the Beharis was only .02 per cent., among the Bengalis it was .09, while among the *dhangurs* it was .55. From this Dr. Richards infers that the mortality at Goalundo is to be ascribed to the class of emigrants rather than to injurious local influences, and he argues that *dhangur* labourers are particularly subject to cholera when collected together in numbers. It is true that this class does suffer from cholera in depôt and on board steamers in a marked degree. The explanation is probably to be found in the sudden change from a sparse diet to rich and copious food, and from an active, open-air life to comparative indolence and confinement. But Dr. Richards' argument in favour of Goalundo is weakened by the mortality statistics of the Calcutta depôts. It appears that, of the *dhangur* coolies in the Calcutta depôts, only .30 per cent. died of cholera, while the death-rate of 1.31 among the same class at Goalundo was entirely due to this disease.

7. The river passage from Goalundo was somewhat healthier in 1876-77 than in the previous year, the mortality from all causes being 1.46 against 1.70 per cent. It is noticed that 70.7 per cent. of the trips were free from cholera, against 74.6 per cent. in 1875-76. Nevertheless the number of deaths from cholera, 146 out of 14,646 labourers, was considerable. The Lieutenant-Governor still considers it unnecessary to reduce the number of emigrants to be carried in one trip below 500. Indeed it is to be observed that coolies in excess of the fixed number were conveyed on five occasions during the past year. No explanation has been offered on this point. The statistics, however, do not show that the death-rate on board steamers carrying 400 emigrants and upwards was specially high. Moreover the opening of the Northern Bengal Railway

will probably reduce the number to be conveyed in any one trip from Goalundo to considerably below 500.

8. The statistics of emigration through Dhubri are very satisfactory. The Lieutenant-Governor is inclined to agree with Dr. Joubert that the deaths reported to have occurred on the journey really took place, corresponding as they do with the regular seasonal occurrence of cholera in Bengal. The death-rate on the river passage from Dhubri was only .89, against 1.44 among the Goalundo coolies. It is difficult to establish an exact comparison, but the general drift of the evidence supplied is to show that emigrants marched by land to the Upper Brahmaputra, and there embarked, are less subject to disease than those who pass by rail through the Gangetic Valley and ascend the Brahmaputra from Goalundo.

9. Dr. Joubert promises a separate report on the Labour Transport Fund. The condition of this Fund is engaging the Lieutenant-Governor's attention, and Dr. Joubert will be requested to submit his report with as little delay as possible.

10. Dr. Grant, whose careful supervision of the Emigration Department has often been acknowledged by Government, was in charge throughout the year, though the report has been submitted by Dr. Joubert. Dr. Richards has given complete satisfaction as Emigration Agent at Goalundo.

ORDER.—Ordered that a copy of the Resolution, and of the Report, be submitted for the information of the Government of India in the Department of Revenue, Agriculture, and Commerce.

Ordered also that a copy of the Resolution, and of the Report, be forwarded for the information of the Chief Commissioner of Assam, and of the Surgeon-General, Indian Medical Department.

Ordered also that a copy of the Resolution be sent to the Superintendent of Emigration for information and guidance.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Govt. of Bengal.

PRIZE OFFERED FOR THE BEST ESSAY ON THE VICISSITUDES OF ARYAN CIVILIZATION IN INDIA.

No. 66, Public, dated India Office, London, the 21st June 1877.

To His Excellency the Right Hon'ble the Governor-General of India in Council.

MY LORD,—In continuation of my despatch No. 44, dated the 26th of April last, I forward herewith a translation of a further notice received from the Italian Minister at this Court, relative to the prize to be awarded at the International Congress of Orientalists, to be held at Florence in 1878, for the best essay upon the vicissitudes of Aryan civilization in India.

Dated 14th March 1877.

I have the honor to be,

MY LORD,

Your Lordship's most obedient, humble servant,

SALISBURY.

TRANSLATION.

Notice respecting the Competition.

THE General Committee of the Fourth International Congress of Orientalists to be convened in Florence in September 1878 have published, on the 12th January last, the programme of the competition for the prize of 5,000 lire offered by His Excellency the Minister of Public Instruction in the Kingdom of Italy for the best work on the vicissitudes of Aryan civilization in India. Inasmuch as the Committee deemed it possible that the vote of some of the examiners might be altogether wanting, or might not arrive in time, and being desirous that in every case the number of votes or opinions given by the judges

should not be too few, they have unanimously determined to allow for two additional examiners, one foreign and one Italian, so that the entire number of examiners shall be seven instead of five, viz. five foreigners and two Italians.

No other regulation affecting the competition will be altered. The Committee beg all delegates of the Congress to give all possible publicity to the present notice, and to procure its insertion in the public journals.

In the name of the Committee,

ROME, the 14th March 1877.

M. AMARI, *President.*

A. DE GUBERNATIS, *Secretary.*

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ANNUAL REPORT ON THE WORKING OF THE PAPER CURRENCY IN BENGAL FOR 1876-77.

No. 52, dated the 8th August 1877.

From—D. BARBOUR, Esq., Officiating Accountant-General, Bengal,
To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honor to annex my annual report on the working of the paper currency in Bengal for 1876-77.

CURRENCY NOTE CIRCULATION IN 1876-77.

The opening balance on 1st April 1876 at the mofussil treasuries amounted to Rs. 40,83,645. The value of notes received during the year 1876-77 was 272 lakhs, and that of notes issued during the same period was nearly 150 lakhs.

The transaction in notes at the mofussil treasuries during 1876-77 and two previous years were—

	1874-75.	1875-76.	1876-77.
RECEIPTS.	Rs.	Rs.	Rs.
In payment of dues ...	1,70,93,540	1,59,56,310	1,69,27,390
„ exchange for silver. .	71,47,880	95,53,530	1,02,88,290
„ „ „ notes. .	5,94,840	4,23,920	3,05,500
Total ...	2,48,36,260	2,59,33,760	2,75,21,180
ISSUES.			
In payment of dues ...	1,21,65,750	98,53,000	79,62,890
„ exchange for silver...	1,17,51,935	1,24,99,100	70,19,690
„ „ „ notes...	5,94,840	4,23,920	3,05,300
Total ...	2,45,12,525	2,27,76,020	1,52,87,880

The receipts during the year under review exceed those of the two previous years, but there has been a considerable falling off in the issues. This decrease is due to the restricted supply of currency notes to mofussil treasuries in 1876-77. Under orders of the Government of India, the treasury balances of Bengal had to be reduced and kept as low as possible, and note remittances from Calcutta, which meant an addition to the mofussil balances, were therefore seldom made; the supply of notes at mofussil treasuries having been principally kept up by transferring to treasuries where there was a dearth of notes the surplus of those possessing large note balances.

The note receipts were 18 per cent. of the total receipts of cash and notes, and the note

	Receipts.	Issues.
	29 per cent.	14 per cent.
Boerbhoom ..	20 " "	13 " "
Bhagulpore ...	31 " "	15 " "

24-Pergunnahs ...		

payments were 9 per cent. of the total payments of cash and notes. The percentage of the note receipts and payments of some of the important treasuries, as compared with their total receipts and payments, is given in the margin.

The total cash balance of the Bengal treasuries on 31st March 1877 was Rs. 2,21,66,611, and of this Rs. 41,86,155 were held in notes.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER FOR BENGAL.

SANITATION.

Calcutta, the 14th August 1877.

READ—

The Report of the Sanitary Commissioner for Bengal by Surgeon-Major J. M. Coates.

THE recent orders of the Government of India, re-modelling the form of the Annual Sanitary Reports, will take effect in the current year. The report for 1876 has been drawn up by Dr. Coates in the old form, and is divided into the six following sections :—

- I.—Vital Statistics.
- II.—History of the chief diseases of the year.
- III.—Meteorology.
- IV.—Food-supply.
- V.—Personal proceedings.
- VI.—Sanitary progress.

2. (I)—The collection of vital statistics, that is the registration of births and deaths among the civil population, has been hitherto carried on in Bengal under two systems—the system of “General Circles” and the system of “Selected Circles.” The returns for the general circles include the figures of the selected circles and relate to the whole of Bengal, the thana, or some recognised subdivision of the thana, being the ordinary unit for rural, and the municipality or union for urban circles. The selected circles, on the other hand, are comparatively limited areas, in which a superior degree of accuracy in registration was sought to be obtained by the employment of special agency under closer supervision. The theory of this arrangement was that the selected circles would enable us to arrive at a correct knowledge of the *actual* rate of mortality among the civil population in different districts throughout the province; while the returns from all other circles, though inaccurate in themselves, would indicate in a general way the prevalence and distribution of disease, and the corresponding need of sanitary measures or precautions. It was expected that the selected areas would serve as examples of how registration ought to be conducted, that they would habituate the people to the duty of reporting births and deaths, and that their influence would continually tend to produce more accurate returns from the general circles within which they lie.

3. The Sanitary authorities themselves, both of the Government of India and the Government of Bengal, have within the last few years come unanimously to the conclusion that the system of selected areas has not led to satisfactory results. Although the selected areas have throughout shown a higher reported death-rate than the general circles, there are strong grounds for believing that these more favourable results have been frequently artificially produced. In one district for instance, the Lieutenant-Governor has been informed the civil surgeon's clerk was found to have drafted a circular to the select thanas, informing the police that the Sanitary Commissioner was not satisfied with the number of deaths, and they were to “be sure to make the people die faster.” Even where there were no positive instructions, some such acceleration of reported mortality has been generally suspected; while the concentration of attention, even in a legitimate way, upon the work in the selected circles has been found to lead to neglect of general registration. Altogether the selected area system is believed by every sanitary officer in the country to cost more than it is worth. A few district and police officers were consulted on the subject by Government last year, and every officer, save one, pronounced in favour of the abolition of the system. The Government, however, were not then prepared to abandon it, in the belief apparently that the publication of the results in the *Statistical Reporter* would in time lead to some marked improvement in the registration. The returns of selected circles certainly formed a prominent feature in the columns of that publication. But with its discontinuance there is now no object in harassing the Sanitary Commissioner with the monthly or quarterly compilation of these special returns; while, as regards the maintenance of the system for the purposes of the

annual report, the figures given in Dr. Coates' present volume seem conclusively to show its practical inutility. The figures in the general circles have improved yearly from the very commencement of the mortuary registration system; but in the year of report, which is conspicuous for a marked extension of the system of selected circles, the registration in these circles has actually deteriorated, while it has never from the first shown any very marked advance. The rate of mortality per thousand of population recorded in the general and selected circles has been as follows:—

						General.	Select.
1873	7.77	24.82
1874	8.42	24.72
1875	10.01	24.80
1876	16.40	23.15

No doubt a death-rate of 16.40 per thousand is very inadequate; but the rate recorded for the selected circles is only 23.15 per thousand. The difference is certainly not sufficient to warrant the maintenance of the system or of any special agency on that ground alone, and the Lieutenant-Governor therefore desires that the Sanitary Commissioner will at once take measures to dispense with the services of all special agencies that may anywhere be employed, and arrange for the collection of vital statistics by the same machinery that is used in the general circles. Municipalities and towns must of course continue to be treated distinctly, and will remain a kind of selected circles, but the general circle unit should be the thana. The Sanitary Commissioner will probably also be able to reduce in this way the work of his own office.

4. The general improvement in registration, which is manifest during the year of report, is due no doubt to the efforts of Dr. Coates and his *locum tenens* Dr. Pilcher. The Lieutenant-Governor knows that in Dr. Lethbridge's hands these efforts will not be relaxed, and has no doubt that by a cordial and intelligent co-operation on the part of district officers, civil surgeons, and police officers, the vital statistics of the general circles will continue to show improved results, though he cannot pretend to believe that for many years to come there is any prospect of obtaining really reliable registers. It will probably be a long time before the penal provisions of Act IV (B.C.) of 1873 can be enforced in rural circles, but the Act itself is in force in 84 towns and municipalities, and might very well now be more firmly, though judiciously, pressed in some of the more advanced towns and unions. Elsewhere the district officers must make the best use of the agency at their disposal, and their special attention should be drawn to the various plans noticed in paragraph 15 of the report as having led to successful results in certain districts where they were tried. Besides the agency of the ordinary police and chowkidars, in Behar the putwaris, and in many parts of Bengal the punchayets, under Act III (B.C.) of 1870, as well as school-masters, pundits, and similar intelligent persons, might be utilised either to collect or to supervise the collection of vital statistics within limited areas. There is not a district in which a little trouble and care on the Magistrate's part would not ensure better results.

5. The Lieutenant-Governor is not yet prepared to relieve the Sanitary Commissioner's office of the duty of receiving and manipulating the vital statistics of the province. He is the officer who must eventually make practical use of them. But Mr. Eden is anxious to bring about an arrangement by which the Sanitary Commissioner shall personally be less tied down to his head-quarters, and able to devote more time and attention to the duties of inspection and local enquiry. This will form the subject of future consideration.

6. Turning now to the figures of the report, it appears that the recorded deaths throughout the province were 983,400 as against 600,104 last year. The increase is ascribed solely to better registration, as, apart from the calamity of the cyclone-wave and the subsequent cholera, the year was not in any way an exceptionally unhealthy one. The rates of mortality were, as already noted, 16.40 per mille against 10.01 per mille in 1875. (The above figures do not include the numbers born dead, reported at 16,469.) The number of registering circles was increased from 726 to 1,263 by sub-dividing areas so as to make registration less troublesome to the people. The results were, however, compiled under 666 main circles.

7. Twenty-one out of 44 districts were pronounced by local officers healthier than in former years, and, save in the cyclone districts, there was no

exceptional mortality, so that no doubt can exist as to the real advance made in registration. The districts which contributed most to the mortality of the year were—

From Cholera.	Deaths per 1,000.	From Fever.	Deaths per 1,000.	From Bowel-complaints.	Deaths per 1,000.
Noakholly	20·34	Dinagapore	22·05	Balasore	5·04
Darjeeling	18·30	Beerbhoom	18·80	Cuttack	3·02
Balasore	9·55	Moorsshedabad	17·33	Pooree	2·93
Furreedpore	9·32	Rajshahye	16·35	Singbhoom	2·65
Backergunge	8·91	Maldah	15·84	Patna	2·57
Chittagong	8·91	24-Pergunnahs	14·89	Lohardugga	2·52
Jessore	7·14	Bogra	13·78		
Dacca	6·06	Hooghly	13·33		
Pooree	5·75	Purneah	13·31		
		Jessore	12·73		
		Hazareebagh	12·64		
		Gya	12·59		
		Nuddea	12·44		
		Darjeeling	12·07		

8. The following statement indicates the relative fatality of the principal diseases per thousand of population, as deduced from the returns of the selected circles for the last three years, and of the general circles for 1876:—

	SELECTED CIRCLES.			GENERAL CIRCLES.
	1874.	1875.	1876.	1876.
Cholera	2·36	2·86	3·35	3·27
Small-pox	·68	·22	·39	·17
Fevers	14·31	14·58	13·09	9·38
Bowel-complaints	2·41	2·44	1·86	·97
Injury	·54	·46	·99	·90
All other causes	4·40	4·21	3·45	1·69
Total	24·72	24·80	23·15	16·40

The increased mortality from cholera is attributed to exceptionally severe outbreaks in the districts of Noakholly, Backergunge, and Chittagong after the cyclone of October last.

The returned mortality from fever, though comprising 58 per cent. of the total casualties, does not, in Dr. Coates' opinion, represent more than half the real fatality of this disease. There was what is thought to be a real decrease, however, in small-pox. The excessive death-rate from injuries was caused by the cyclone.

9. The extent to which the four chief causes of death prevailed in Bengal, Behar, Orissa, and Chota Nagpore is shown thus—

	RATIO OF DEATHS PER 1,000 FROM—				
	Cholera.	Small-pox.	Fever.	Bowel-complaint.	All causes.
Bengal	4·12	·11	10·24	·74	17·83
Behar	1·71	·25	8·18	·86	13·10
Orissa	5·54	·38	6·95	3·51	23·02
Chota Nagpore	2·15	·17	9·62	1·63	15·51

It will be observed that cholera was comparatively more fatal in Bengal and Orissa; fevers in Bengal and Chota Nagpore; and bowel-complaints in Chota Nagpore and Orissa. This result accords fairly well with the popular estimate of the comparative healthiness and liability to special diseases of the four great divisions of Bengal.

10. The variation of the rate of mortality according to season is shown thus—

	Deaths.	Ratio per mille.		Deaths.	Ratio per mille.
November	139,734	2·33	August	72,271	1·20
December	129,716	2·16	September	71,184	1·18
April	89,580	1·49	March	69,352	1·15
October	82,462	1·37	June	68,810	1·14
May	75,360	1·25	January	58,395	·97
July	74,077	1·23	February	52,459	·87

11. The usual disproportion between the number of deaths among males and females has been slightly reduced during the year of report. In the general circles it is stated that there were 99 females living to every 100 males; but the registered mortality shows 128 male deaths to every 100 female deaths, as against the ratio of 132 to 100 recorded in 1875. In the selected circles there are 101 males living to every 100 females, and among the deaths registered the proportion of males to females is as 120 to 100. There is still a serious deficiency in the registration of female deaths, but the superiority of the selected areas in this respect is by no means marked.

12. The registered rates of mortality per thousand among the various classes of the population are as follow :—

	GENERAL CIRCLES.		SELECTED CIRCLES.	
	1875.	1876.	1875.	1876.
Christians	16·28	19·51	27·17	26·03
Hindoos	9·91	15·47	24·62	22·70
Mahomedans	10·20	18·52	26·60	24·55
Buddhists	18·69	23·93	32·60	39·71
Other classes	9·91	13·59	13·72	19·64

Excluding Christians and Buddhists, in whose case the smallness of the populations dealt with tends to produce apparently abnormal rates of mortality, it appears, supposing the returns to be of any value, that Mahomedans are less healthy than Hindoos, and that those who come under the denomination of "Other Classes" are healthier than either Hindoos or Mahomedans.

13. The following statement given at page 14 of the report compares the mortality per thousand of the population of the town of Calcutta in 1876, with the general average mortality of the towns of the selected circles throughout Bengal :—

	Calcutta.	Town selected circles.		Calcutta	Town selected circles.
All causes	30·18	32·98	Bowel-complaints ...	4·33	4·02
Cholera	4·30	5·52	Injury	·47	1·12
Small-pox	·16	·64	All other causes ...	10·73	5·77
Fever	10·15	15·87			

It has now been established that the registration of deaths in Calcutta approaches very nearly to absolute correctness, and the fact that the average death-rate of the selected urban circles exceeds the Calcutta rate of mortality is brought forward by Dr. Coates as tending to prove the correctness of the registration in those circles. The last report of the Health Officer for Calcutta has, however, placed it beyond a doubt that the recorded mortality of that town is altogether exceptional, as it fails to show the deaths which occur among the floating population who leave the town to die at their homes after contracting the seeds of disease in Calcutta itself. Dr. Coates expresses his belief that the actual mean death-rate of the provinces lies between 35 and 40 per thousand. Mr. Eden attaches very little importance to these speculations. Nothing accurate is known, or can for years be known, of the actual mortality of the country; all that can be done is gradually to endeavour to construct a system of statistics which it is hoped may some day, as the people become used to it, lead to conclusive results. In the meantime, what can be definitely determined is that certain seasons and certain years are more unhealthy, and are attended with greater mortality, than other seasons and other years, and this conclusion must be based on general reports of the state of public health rather than on figured statements.

14. The collection of birth statistics in the general circles was attempted for the first time during the year of report. In forty districts 575,579 births were registered, giving an approximate birth-rate on the population of 18·22 per mille. The males were to females as 117 to 100. But it was in only thirteen districts that births were registered during the whole

twelve months. In these districts the death-rate was 16·91, and the birth-rate 14·65—a very encouraging beginning—showing that the people are not so suspicious of registration as they were in 1870, when the first returns of general death registration gave a mortality of only 3·92 per thousand.

In the selected circles birth registration, like mortuary registration, shows a falling off this year, giving only 22·58 births to the thousand, against 24·07 last year; males were to females as 114 to 100. The average English proportion is 104 males to 100 females. There is nothing in these figures, as compared with those of general circles opened this year for the first time, to warrant maintenance of the select circle agencies. The birth-rates among the various classes stand thus—

Buddhists	46·97
Other classes	28·00
Christians	26·90
Hindooes	23·00
Mahomedans	20·55

15. (II)—The subject of *cholera* is treated by Dr. Coates with great fullness, and a mass of information is being brought together bearing upon this subject, which it is anticipated may in course of time prove useful. It is impossible to follow Dr. Coates into all the details of the district histories. A brief *resumé* of the leading facts is all that can be here attempted.

16. Cholera was present in Bengal during every month of 1876, and appeared in every district. Out of 666 circles, it was absent only from 19, and it attacked 27,242 out of 188,805 villages in the province. It caused 196,590 reported deaths, or 19·93 per cent. of the total mortality of the year; the deaths were 1·47 per thousand more than in 1875. After allowing for improved registration, the district returns leave no doubt that in some tracts there were altogether exceptional outbreaks of this disease in 1876. This is known to have been the case in Noakholly and other districts affected by the cyclone. But the same fact is found in Darjeeling, where cholera raged among the tea gardens; in Balasore, where it broke out at Chandbally, now a busy port for native passengers; in Furreedpore, where it was remarkably virulent; in Pooree where, as usual, the pilgrims suffered, and in several other districts, chiefly of Bengal Proper. Special attention should be directed by the Civil Surgeons and Magistrates in each of these districts to the causes, so far as these have been traced and found to be preventible. In Darjeeling and the Terai, for instance, there can be no doubt that much can be done, and has been done, to remedy the insanitary state of the gardens as reported by Dr. Purves.

17. Cholera showed the same characteristics of seasonal prevalence as in former years; there being in Bengal and Orissa two periods annually in which it rages most fatally, viz. from March to May (in Bengal), and from March to July (in Orissa), and again less intensely from October to December. In Behar and Chota Nagpore the worst months are March to July or August, and there is no special winter outbreak. Heavy rain seems to stop the disease, at least in Bengal.

18. Dr. Coates writes strongly in support of the water theory of communication, and very justly denounces the use of impure water as one of the chief exciting causes of this disease. In this conviction he discusses the vexed question of the Calcutta tanks and the mode of filling them,—a matter which has been already dealt with by the Lieutenant-Governor in the Resolution on the Calcutta Municipal Report. He shows that the facts elicited in the history of the year prove that cholera is conveyed by human intercourse from place to place, but not from man to man, and that it arises *de novo* where insanitary conditions and crowds of human beings are found together. He then states the measures adopted in the way of giving relief to the sick in affected localities.

19. At the close of his general remarks on cholera, Dr. Coates records his conclusions as to the best way of preventing deaths from future cyclone-waves. This consists in surrounding the houses and villages with a plantation of betel-nut trees, which breaks the force of the wind and the wave, and affords a refuge to the people if driven out of their houses. The suggestion appears to be based on the usual practice of the people in that part of Bengal, and would have been more appropriately placed after the general account of the cyclone in Chapter III of the report.

MEMORANDUM ON THE STOCK OF RICE IN CALCUTTA.

MR. NEWBERRY'S inquiries, referred to in last week's memorandum, extended from the 4th to the 9th August, inclusive, during which time he made the entire round of Calcutta and the immediate neighbourhood. A copy of the statement submitted by him is appended. He estimated the total stock at between 32 and 33 lakhs of maunds. During the days of his inspection, and for some few days previously, importation from the eastward had been rather slack, many boats having been delayed by bores on the Megna. The local consumption and exportation had therefore not been entirely met by fresh supplies, and the stocks originally estimated had suffered considerable depletion. Mr. Newberry's general conclusion was that the estimate of the 27th July was in all probability correct at the time it was made.

2. The great discrepancy between the figures of the Government estimates and those given by the Circulars of the European houses in the Trade is now apparently to be explained by the statement that no account is taken by the merchants of stocks in native hands, which are already under contract for delivery. The Government has never professed to do more than state the total stocks found to exist in Calcutta at the time of inquiry, and it was necessary to do this because it was emphatically asserted that the total stock in Calcutta for all purposes did not exceed five or six lakhs of maunds, and that "daily consumption was being met by daily supplies"—a state of things implying famine prices at a very early date. There need now be no fear of any failure of the local supply, though high prices must continue to rule while exportation is as brisk as at present.

3. The weekly reports upon district stocks are abstracted and printed below.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

CALCUTTA,
The 14th August 1877.

Statement showing the Stocks of Rice in and around Calcutta.

Date of Inspection.	Names of Localities.	Number of Aruths visited.	Actuals seen.	Estimates based on partial examination.	Total.	REMARKS.

H. J. NEWBERRY.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE IN BENGAL RECEIVED UP TO THE 14TH AUGUST 1877.

N.B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior ; at best a rough approximation is all that can be expected.

Burdwan, 11th August 1877.—No great change in prices. Owing to the heavy rains supplies have not come in for the last few days. Only 59 maunds were despatched from Burdwan station this week, and 18,000 maunds from Raneegunge.

Bankgora, 11th August 1877.—About 5,900 maunds of rice have been exported during the week from the district.

Hooghly, 11th August 1877.—Stocks available are estimated at 9½ lakhs of maunds; exports and imports are going on. Prices are slightly on the decrease. Coarse rice is selling at Hooghly at from 13 to 13½ seers, and in the interior 16 seers per rupee.

Howrah, 11th August 1877.—Traffic in rice has been considerably checked since the fall in prices in the neighbourhood of Calcutta. The present price of rice in Howrah is still about 11½ seers for good quality, and 13 seers for common rice; the prices on the Damoodar range lower, and on the Roopnarain lower again. When the new *aus* crop is reaped, exportation will re-commence, possibly without any rise in price. The large godowns at Hurrogunge, Bandaghat, and Sulkea are almost empty of rice, and contain at present large quantities of wheat, amounting to 1,18,500 maunds. The stocks of rice in the district contain 4,08,000 maunds, and in Howrah town 17,092 maunds, or 4,25,092 maunds in all.

24-Pergunnahs, 8th August 1877.—The price of common rice ranges from Rs. 2 to 2-8 per maund. The people are believed to have sufficient stocks to last them till the next harvest. In the Assasoonny station the supplies are plentiful, and a brisk trade in rice and paddy is going on at all the markets. In Magura thana there are no considerable markets, nor any mahajuns. In Pertabnuggur outpost and Hasanabad station there are ample stocks of rice, but the trade is slack owing to the fall of price in Calcutta.

Nuddea, 11th August 1877.—The stock of rice existing in the district is not less than two months' supply. The early rice harvest has begun, and a little has even come into the market. By the middle of September, when the whole of the crop will have been cut, there will not be less than 7 or 8 months' supply in the district. A considerable quantity is passing through the district both by rail and the rivers, but very little is imported into the district for local consumption, or exported of the produce of the district. Only 18,654 maunds of food-grains were exported by rail from Kooshteah to Calcutta during the first week of August, and the total exports of the week by the Jellinghee and Bhagiruthee rivers from the district have been 2,368 maunds of rice, 180 maunds of wheat, and 8,050 maunds of various kinds of pulses. From ports on the north of the Kissengunge toll office 675 maunds of rice, 150 maunds of barley, and 5,570 maunds of pulses passed the toll office in the week. The total exports of rice grown in the district in the week could not have exceeded 10,000 maunds. The usual price is from Rs. 2-8 to Rs. 2-14 per maund. At the Sudder station the prices are—purubi dhani Rs. 2-11, purubi chatta Rs. 3-2, *aus* Rs. 2-5, wheat Rs. 2-10-3, and gram Rs. 2-4.

Jessore, 11th August 1877.—Rice is selling generally at 16 seers the rupee. It is being bought at that price for exportation to Calcutta. In Bagirhaut sub-division large quantities are being bought for exportation to Calcutta, and in some parts the price is as high as Rs. 3-4 per maund. In Khudna sub-division the general price is 17 seers. Prices fell towards end of July, but has again risen owing to large exportations. From Salkopa, the chief mart in Jhenidah sub-division, 1,500 maunds of rice were exported to Calcutta.

Moorshedabad, 11th August 1877.—Exportations have commenced afresh, particularly from Dhulian, Junghypore, Azimgunge, Baluchur, and Berhampore. The price of common rice varies from 14 seers to 17 seers 5 chittacks the rupee. The total of stocks, as estimated by the Sub-Divisional Officers and the Canoongoe of the Sudder sub-division, are—rice 2,41,681 maunds, paddy 5,23,224, wheat 90,320, gram 47,662, and pulse 1,21,740 maunds. The Collector thinks the estimate too low.

Dinapore, 9th August 1877.—Last year's crop left a balance of about 68 lakhs of maunds of rice available for export. Of this 40 lakhs have already been exported, and the remaining 28 lakhs will be exported before the end of this month. Of the total exports, about 20 lakhs go up the Ganges, and the remainder finds its way into the Calcutta markets. The autumn crop is expected to bring about 30 lakhs of maunds.

10th August 1877.—The Bhadoe is fast ripening. There is plenty of rice in the hâts, and the merchants are still exporting largely.

Rajahmhye, 11th August 1877.—The stock of rice for export during 1877, as estimated from the returns for 1875 and 1876, cannot be less than 11,00,000 maunds. Of this about 5,12,700 maunds have already been exported, and there is a surplus of about 6 lakhs of maunds available for export. This is exclusive of what is required for consumption. The price of rice is again rising; at the commencement of the week it was 26½ to 24 seers, but it is now 16½. The export during the week from all gunges amounted to 5,645 maunds, most of which went to Calcutta.

Bogra, 11th August 1877.—Rice is selling at 19½ seers at Bogra station, and in some places at 15½, 17½, 18½, 21, and 24 seers the rupee. About 2½ millions of maunds are

still to be found in the district. Of this 8 to 10 lakhs of maunds are available for exportation at present. In Bogra station there are about 500 maunds, which are supplemented by supplies from the interior as occasion requires. The other food-grains are to be had in abundance and cheap. Exportation is going on from several places in the district.

Pubna, 9th August 1877.—Common rice is now selling at Rs. 1-10-6 in the Sudder station, Rs. 2 at Serajgunge and Shazadpore, and Rs. 2-8 at Raigunge. There is, however, a tendency to fall in prices, except in Serajgunge and Shazadpore, where there is a probability of rise. There is no movement in prices of the other food grains; gram is selling at 20 seers, and wheat at 15 seers. Exports to Calcutta are for the present discontinued; stock in the district about 75,000 maunds in rice and paddy.

Darjeeling, 9th August 1877.—Rice is selling at the station bazar at Rs. 3-5-6 per maund. The price is expected to rise to Rs. 4. Last year at this time it was Rs. 4-8. Indian-corn, which is extensively used, is selling at Rs. 2, which is cheaper by one rupee than last year's price. Flour, which is not much used, is selling dearer; it is now Rs. 7-8. There being no sufficient room for storage in the sudder bazar, stocks are kept at Sonadah, Jorebungalow, and Kurseong, and may in the aggregate be put down at 10,000 maunds, besides of course the stock in the Terai, where the supply is equal to the demand. There is no appreciable difference between the prices of food-grains in the Terai, as compared with last year's prices.

10th August 1877.—The prices of food-grain remain stationary. There has been no exportation, and the stock is ample for the wants of the people.

Julpigoree, 11th August 1877.—Stock of grain is ample for present requirements. No exportation is going on.

Cooch Behar, 9th August 1877.—The price of rice has again gone down a little. Rice of the coarsest sort can now be had at the town for Rs. 2-12, and of a better quality for Rs. 3. New *bitri* rice is selling at Rs. 2-9. The rates in the interior are a little lower. There is no fear of the supply failing if the exportation does not greatly increase. At present no rice is being sent to Calcutta. Much rice will not be available for exportation.

Dacca, 11th August 1877.—Grain-supply ample. Large stocks are coming down, chiefly from the higher parts of Mymensing. The Gouripoorah (Tipperah) market, which regulates the supply of Dacca, has also been well supplied. Export to Calcutta decidedly checked. Only 17,000 maunds were taken by the Eastern Bengal Railway from Dacca and Naraingunge, and 17,725 maunds went by boat to Calcutta and Goalundo. 5,000 maunds of rice and 6,000 maunds of paddy went by boat to Chittagong and the distressed parts of Backergunge. Stocks of rice in Naraingunge about 12,000 maunds, and in Mirpore 50,000 maunds of paddy.

Furzedpore, 11th August 1877.—No exportation to Calcutta. The supply of rice is only sufficient for local consumption. Prices vary from Rs. 2-8 to Rs. 2-12 in Sudder sub-division, and from Rs. 2-4 to Rs. 2-8 in Madaripore sub-division.

Backergunge, 9th August 1877.—Importation of rice in Dukhin Shabazpore has been resumed, and the new *aus* is being brought to the market in small quantities. There is a considerable fall in the price of rice, which is now selling at Rs. 2-12 per maund. The prospects are also good in the sub-divisions of Perozepore and Patuakhally. The Collector is informed that there are at present 83,000 maunds of rice in all the *golas* of the district, but he is himself inclined to estimate the store at four times this quantity.

Mymensing, 10th August 1877.—Exportation still continues on a large scale, but there is an increased supply and the price has fallen.

Tipperah, 10th August 1877.—Coarse rice is as cheap as Rs. 1-4 a maund, and rice of the best sort is sold at prices from Rs. 2-4 to Rs. 2-12. The store is roughly estimated at one million maunds. Large exportations are being made, especially from the marts in the west for Calcutta, Dacca, and Noakhally. Owing to these exports prices are likely to rise slightly during August.

Hill Tipperah, 6th August 1877.—The present stocks will meet the wants of the people until the next harvest, but they are not large enough to admit of any exportation. The quantity of food-grains produced is generally but slightly in excess of that required for local consumption, and any surplus remaining from the season's crop in the plains will be wanted this year to meet a somewhat defective harvest in the hills to the south. The Rajah has sanctioned Rs. 2,000 for the purchase of rice for those parts where the people are reported to be suffering somewhat from scarcity. The prospects of the hill crops appear, however, to be favorable, and there is no reason to apprehend more than a temporary pressure, owing to stoppage of importation. No exportation to Calcutta; rice is selling at 18 seers at Agartollah.

Chittagong, 8th August 1877.—No stocks are available for export. Indeed imports from Naraingunge and other places are going on to meet local demand. At Sudder station rice of best sort is Rs. 6-4 and common sort Rs. 3-8 to Rs. 4 a maund.

Chittagong Hill Tracts, 7th August 1877.—Rice is imported to the district from Chittagong in small quantities, and is now selling at Rs. 3-10 to Rs. 4 a maund at Rangamattee. Nothing is exported to Calcutta, except cotton and India-rubber.

Patna, 11th August 1877.—Prices are stationary. No large exports.

Gya, 6th August 1877.—The present stock of food-grains is roughly estimated at 20,00,000 maunds. There are two main routes of export—first, the Gya and Patna road; and secondly, the Soane River and the road on its right bank. During the last 1½ months the exports from Gya town by the first route amounted to 10,000 maunds; 200 maunds may be exported daily by this route for a profit of one anna in the rupee. But it is not possible to estimate what stocks are available for exportation, as they depend upon the prices at Gya and Patna. Export by the second route cannot be larger than that by the first. No export during the week ending 11th August, and the prices are stationary at Gya Sudder Bazar; at Jehanabad prices have fallen, and at Aurungabad nearly the same as this time last year.

Shahabad, 11th August 1877.—The prices vary as under:—Best rice from 11 to 13 seers, common rice from 13 to 18 seers, wheat from 18 to 24 seers, and gram from 24 to 32 seers. 50 lakhs of maunds of grain may be taken as surplus stock for each of the three last years. An average of 3½ lakhs of maunds of rice was imported from the eastern districts in each of the three years. There are large stores available, and the rise in price is attributable to the demand for Madras and Bombay, and the great want of rain hitherto experienced.

Durbhunga, 2nd August 1877.—Prices now range ordinarily from 15 to 25 per cent. over the rates which prevailed before the famine of 1873-74. Excluding from consideration the ante-famine rates, the rates on 2nd August were generally higher than the rates which prevailed at the corresponding dates of 1875 and 1876. The chief food-grains are rice, millet, Indian-corn, barley, and wheat. The prices on 31st July were—rice 14½ seers, millet 24, Indian-corn 22, barley 26½, and wheat 17½ seers. The present high prices are owing to the partial failure of the last Bhadoe and Aughrani harvest, and to the large exportation which was carried on in the cold season from December to April. No food-grain is now exported, but the wheat and pulse now for sale in the Durbhunga market has been all imported from across the Ganges. There is no likelihood of the prices of rice, Indian-corn, or millet being changed within the next month, and if the present favourable weather continues, there will be an excellent Bhadoe harvest, and a consequent fall in prices. Wheat and barley, however, might rise if importation ceases; but the mass of the people would not be affected by a rise in the prices of these grains. The stock in hand cannot be definitely stated; but estimating it on the principle laid down in Mr. MacDonnell's report on the food-supply of Behar and Bengal, it may be assumed to be between 25 and 30 lakhs of maunds.

10th August 1877.—The market continues well-supplied, though, with imported grain. There has been no material change in prices, which remain high. The estimate fixing the total stocks at 30 lakhs of maunds seems reasonable. From this stock, till replenished, no exportation can be looked for.

Mozufferpore, 11th August 1877.—The Collector has nothing to add to his last report.

Surun, 11th August 1877.—The exports during the week were—wheat 2,500 maunds, common rice 1,000 maunds, and *ruhur* 225 maunds. The prices are—wheat 18 seers 4 chittacks, and common rice 15 seers 4 chittacks per rupee. Rice is exported to Calcutta whenever there is a great demand and prices are extraordinarily high.

Chumpanun, 11th August 1877.—No change in prices and supply of food-grains. No exports from ten principal marts.

Monghyr, 7th August 1877.—32,000 maunds of food-grains are registered for despatch by rail at the stations of the district, and 27,000 maunds are awaiting despatch by an expected steamer.

11th August 1877.—Rough estimate of stock shows that there are 21,375 maunds of rice, 14,745 maunds of dhan, 46,167 maunds of wheat.

Bhagulpore, 11th August 1877.—Last week's estimate of food-grain was approximately correct. *Amun* rice now sells at 15½ seers; little or nothing is doing in the way of export, and there is no movement of grain in the interior.

Purneah, 11th August 1877.—There is a steady flow of rice from Nepal and the north towards the south, where stocks are being collected in the larger marts for export. No large consignments, however, have been sent away owing to want of boats. Prices vary from 19 seers in the station to 28 and 29 seers in the *hats* in the north. Trade is brisk in the interior; small traders are busy, and markets plentifully supplied.

Maldah, 11th August 1877.—The price of common rice has fallen; new Bhadoe is coming in. Average price of coarse rice is 18 seers the rupee. No stock of rice worth mentioning is available for export.

Sonthat Pergunnahs, 3rd August 1877.—Last year was an exceptionally good year. There is plenty of food to export and plenty to keep, and the *jawara* will be in soon. The prices near the railway are high. The price of common rice ranges from 14 seers at Deoghur to 28 seers at Saroni.

Cuttack, 6th August 1877.—The price of rice is 23½ seers in Northern, 14½ in Central, and 14 in Southern Cuttack; the average of the district being 17½ seers per rupee. There will be an improvement in prices as soon as the *beali* crop comes into the market. The stocks in the district are roughly estimated at 20 lakhs of maunds. The exports during the past two months have been 1,30,000 maunds (Cuttack) by False Point. Supposing the exports at Chandballi and southward along the Ganjam Trunk Road amounted to 70,000 more, about a lakh more a month would be the estimate of exports which the

district is quite able to bear. From Jajpore large exports are made to Calcutta, and from Kendraparah to Madras, Cachar, and Columbo. Owing to this exportation the price of rice is high; but there is no reason for anxiety about Cuttack district, the agricultural classes have all got grain in their houses, and it is only the non-agricultural classes in towns who are at all pressed.

Pooree, 8th August 1877.—In Pooree city the average price in July was 15½ seers, and in the interior 18½ seers. Present prices in the interior vary from 14 seers 7 chittacks to 21 seers per rupee. There is demand for export, which keeps up the prices. Purchase for export to Madras by sea and by land to Ganjam continues. Rice is also being sent from Khurda to Cuttack by land, and a quantity passes by the Chilka Lake into Ganjam. Prices will not rise higher if there be a good harvest.

Balasore, 10th August 1877.—Exportation has been checked by the fall of prices in Calcutta. Only 1,326 cwt. of rice not in the husk, and 498 cwt. in the husk, were exported to Calcutta during the week. Prices have fallen and are still falling. The last quotation is from Balasore Rs. 1-15 a maund, and from Chandballi Rs. 1-11. In the interior prices range down as low as one rupee per maund. Stocks for exportation are in Balasore town 2,204 tons, and in Chandballi 2,189 tons.

Hazareebuagh, 10th August 1877.—The price of wheat has risen slightly since last report, while that of *murwah* has fallen. The markets are well supplied. The lower orders subsist mostly on Indian-corn, *janarah*, *murwah*, *goondli*, and other grains, of which there is a fair stock.

Lohardugga, 11th August 1877.—Stocks are roughly estimated at—paddy 3½ lakhs of maunds, wheat 1½ lakhs of maunds, and gram 25,000 maunds. About one-third of these stocks is available for export.

Singbhoom, 10th August 1877.—The supply of food-grains in all the markets is plentiful, and exportations in the direction of Midnapore and Bankoora continue. The price of ordinary rice is at Bahargora 24 seers per rupee, but at Chyebassa and other places one maund per rupee. The largest exportation is from Bahargora.

Manbhoom, 11th August 1877.—Exportation is going on from such parts as are accessible. It has had a considerable effect on prices in those parts. The price of coarse rice at Rughunathpore has risen to Rs. 2-10 a maund. The district is fairly well stocked, though the stock is not well distributed.

A. MACKENZIE,

Offa. Secy to the Govt of Bengal

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 11th August 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Aug 11 '77	7.19	Rainfall at Culna has been 2.02 inches, at Bood-bood 3.59 inches, and at Rancee-gunge only .44 of an inch. There was very heavy rain on the 8th, 9th, and 10th instant. The low lands are flooded. Transplantation is going on well. Returns from Cutwa and Jehanabad are not received, probably on account of the roads being flooded.
	2 Bankoora, „ 11 „	6.85	Weather—Dry in the beginning of the week. Heavy rain on the 9th and 10th instant. The heavy fall of rain has proved very beneficial. The rice crop will be a good one if rain continue to fall at intervals.
	3 Beerbhoom, „ 11 „	3.68	Violent wind and heavy rain on the morning of the 10th instant. The prospects of the crops have greatly improved. Transplantation is completed in large areas, and nearly completed everywhere, except in thanas Soory and Rajnagore. The recent fall of rain will enable these to complete the operation now. Prices are now falling, and prospects may be called average good.
	4 Midnapore, „ 11 „	4.28	Heavy rain; fully as much as was wanted. Prospects are very good, except that floods and consequent inundations are apprehended.
	5 Hooghly, „ 11 „	5.93	Weather—Rainy. Heavy showers on the 8th and on the night of the 9th instant. Transplantation of late rice is almost over. More land has been brought under cultivation in the present year than in the past. The harvesting of early rice has commenced in places. Sugarcane and vegetables are doing well. The late rains have proved very beneficial. Public health is normal.
	Howrah, „ 11 „	4.56	Heavy rain during the week. The crops are very flourishing.
<i>Central Districts.</i>			
PRESIDENCY DIV.	6 24-Pergunnahs, Aug 11 '77	2.91	Weather—Rainy, with intervals of sunshine. Paddy, both early and late, is doing well. Prospects of jute are particularly good in the Baraset sub-division. Health is generally good, though ordinary fever of the season prevails here and there, and cattle disease is reported from thana Magura, in the Sackhra sub-division.
	7 Nudden, „ 11 „	5.62	Weather—Little or no rain early in the week; but abundant rain afterwards, with high winds. A considerable part of the early rice crop has been gathered; the remainder promises very well. The wind may have done a little harm, but the rain has been advantageous to the late rice.
	8 Jessore, „ 11 „	5.43	The early portion of the week was extremely hot and close. Since 7th instant there has been heavy rain everywhere, the heaviest fall being 7.50 inches at Narail. The rain has been accompanied by a strong northerly wind. On the 8th 7 inches fell at Magoora. Rice crops are everywhere good, although in a few cases the high wind is said to have beaten down the <i>aus</i> . <i>Aus</i> harvest is going on.
	9 Moorshedabad, „ 11 „	5.15	Weather—Hot and sultry. Heavy rain and high wind on early morning of 10th instant. 3.53 inches registered at Rampore Hât, 5.74 inches at Lalbag, and 2.38 inches (up to 9th) at Jungypore. The prospects of the crops are favourable. The early rice where harvested has yielded a fair outturn. The late rain has removed for the present all fears for the winter rice.
RAJSHAHYE AND COOCH BEHAR DIV.	10 Dinagepore, „ 10 „	.94	Some very hot weather, with occasional showers. .40 of an inch registered at Roygunge. State and prospects of the crops are very good. Jute is being cut, and <i>haimanti</i> rice seedlings planted out. <i>Bhadai</i> is fast ripening.
	11 Rajshahye, „ 11 „	5.16	There has been a plentiful supply of rain in all parts of the district during the week. The prospects of the rice crops continue to be fair. Some of the autumn rice has been reaped, but the greater portion still remains to be harvested. The winter rice is in a promising condition.
	12 Rungpore „ „ „	Return not received.
	13 Bogra, „ 11 „	.71	Not much rain during the week. The <i>aus</i> harvest is a good one. Prospects of <i>amun</i> are favourable.
	14 Pubna, „ 11 „	6.39	Weather—Seasonable; stormy on the 8th and 9th instant, with heavy rain and thunder. The harvesting of <i>aus dhan</i> continues, and 12 annas crop is expected. The late rain has done good to the <i>amun dhan</i> . (N.B.—In the last week's return from this district for "harvesting of <i>aus dhan</i> completed" read "harvesting of <i>aus dhan</i> only has commenced, and is not completed yet.")

No	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—(Continued)			
<i>Central Districts</i>			
RAJSHAHY AND COOCH BEHAR DIV.	15 Darjeeling, Aug. 10 '77	95	Very little rain fell during the week in any part of the district. The crops on the whole, up to the present time, have done fairly well; but the want of rain during the last ten days will probably affect the outturn of the <i>bhadosi</i> rice, which is being reaped in some parts of the district; and there has been a little uneasiness about the <i>haimunti</i> rice on the higher lands. As yet there is no danger.
	16 Julpigoree, „ 11 „	Nil.	Weather—Very hot and oppressive. No rain during the week. The season is altogether a most unusual one. Complaints are again commencing owing to the sudden stoppage of the heavy rain ten days ago. The <i>bhadosi</i> crop has been reaped in nearly all the thanas, and the general reports as to its outturn are favourable. In Silligoree and Boda the portion unreaped is somewhat damaged for want of rain. Three-fourths of the <i>haimunti</i> transplantation have taken place, and it is hoped that rain will soon fall; otherwise the new plant will suffer. Transplantation is stopped for the present. The jute and sugarcane crops are tolerably good.
	Cooch Behar, „ 9 „	60	Weather—Warm; sometimes very close at night. Occasional cool breezes. 1.10 inches of rain at Mathablanga, .55 of an inch at Mekhigunge, and .36 of an inch at Dinhatta. Prospects of all crops are favourable. The break in the rains has been of benefit in promoting the transplantation of rice seedlings. Public health is good.
<i>Eastern Districts</i>			
DACC DIV.	17 Dacca, Aug 11 '77	5 42	Severe storm on the night of the 8th and on the 9th instant. Weather otherwise seasonable. The prospects of the crops are favourable. Little damage has been done by the storm.
	18 Furreedpore, „ 11 „	6 87	Continuous rain with storm from the night of the 8th to about 12 o'clock noon of the 9th instant. 6.19 inches registered at Goulundo and 1.05 inches at Madaripore. The prospects of the crops are favourable, the <i>amun</i> having been greatly benefitted by the recent shower.
	19 Backergunge, „ 9 „	2 23	Weather—High winds and heavy showers during the week. The state and prospects of the crops in the Sudder sub-division continue good. The Sub-Divisional Officer of Dakhin Shabazpore thus reports:—“The fair weather during the last few days has facilitated <i>aus</i> cutting. The new rice is being brought to market in small quantities. The prospect of <i>amun</i> rice is fair.” The prospects are also good in both the sub-divisions of Perozepore and Putunkhali. Fever still continues in the police-stations of Jhalokati, Backergunge, Perozepore, Shoroopkati, Motbaria, Mirzagunge, and Goolshakhali, and cattle disease in thanas Motbaria, Mirzagunge, and Burhanuddin, and a few deaths are reported therefrom. Neither fever nor cattle disease seems very severe anywhere.
	20 Mymensingh, „ 10 „	78	Weather—Fair, with occasional showers. State and prospects of the crops are not bad. The late heavy rains did less mischief to the crops than was at first reported.
CHITTAGONG DIV.	21 Tipperah, „ 10 „	4 42	Weather—Fine during the first part of the week, but rainy and stormy during the latter part. On the 9th instant a very stormy gale blew from the east. 2.24 inches of rain registered at Brahmunbaria. The rice crops promise to be fairly good. The <i>aus</i> suffered from too much rain at an early stage, and not so much has been sown as is usual.
	22 Chittagong, „ 9 „	16 54	Rain throughout the week. Heavy rain with furious gale on the afternoon and night of the 8th instant. Weather cloudy; barometer low. The present heavy rain will not injure the crops; but if it continues, much mischief to both <i>aus</i> and <i>amun</i> is apprehended. <i>Aus</i> is being reaped and <i>amun</i> transplanted. <i>Aus</i> is coming into the market.
	23 Noakhally, „ 9 „	2 57	Slight showers of rain on six days of the week. Heavy rain on the night of the 8th instant, accompanied by gusts of high wind. Early rice is still being reaped. Transplantation of late rice continues. Health of the district is fair.
	24 Chittagong Hill Tracts, „ 7 „	2 12	Occasional falls of rain throughout the week. A heavy shower of rain, accompanied with a violent thunder-storm, on the 6th instant. Paddy is being gathered in early <i>mons</i> . The plough cultivators have commenced transplanting the paddy plants. The cotton plants are thriving well. The prospects on the whole are fair.
	Hill Tipperah, „ 8 „	3 11	Frequent showers fell at intervals during the week. Weather rather close in the daytime. The state and prospects of the crops are very satisfactory.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.			
PATNA DIV.	25 Patna, Aug. 11 '77	2.69*	Rainfall of the week has been general over the district, measuring from 2 to 3 inches. <i>Bhadoi</i> prospects are good, but more rain is wanted for winter rice. Transplantation is only yet possible on low and irrigable lands. Prices are stationary. Health is good.
	26 Gya, " 11 "	2.11	Weather cloudy and hot. Maximum thermometer in the shade 96° 4". 3.88 inches of rain registered at Aurangabad, 1.6 at Nowada, and .62 at Jehanabad. The Aurangabad officer speaks of the <i>bhaddi</i> crop in his sub-division as being an utter failure, but sees no ground for apprehension if even now there be sufficient rain to ensure a good <i>khareef</i> harvest. Elsewhere the prospects of the <i>bhaddi</i> are not bad. From all sides more rain is still asked for.
	27 Shahabad, " 11 "	1.18	Weather—Cloudy and hot. 1.53 inches of rain registered at Buxar, 6.04 inches at Bhubbocah, 3.52 inches at Sasseram, and 3.35 inches at Dehri. Bhubbocah, Dehri, and Sasseram, where little rain had fallen before, have had the heaviest fall during the week. The sub-divisional officer of Bhubbocah now writes most hopefully, his previous reports having been most depressed. Bhubbocah, too, has a comparatively small area irrigable from the Soane Canals, and rain is absolutely necessary on the plateau land of the Khympore range. A meeting of the zemindars has been held, and the ryots are exerting themselves in many parts to take canal water at the favourable rate now granted.
	28 Durbhunga, " 11 '77	.20	The weather during the week has been very favourable throughout the district for growing crops, all of which are in a satisfactory condition.
	29 Mozufferpore, " 11 "	.09	Weather—Hot and occasionally cloudy. In the Sudder sub-division the crops are doing well. The scanty rain that has fallen during the week has scarcely affected them; more rain is now wanted. In the Sectamurhee sub-division the rainfall during the week was 1.74 inches. Prospects are reported good even in Shewhur, where less rain has fallen. Half the rice sowing is completed in thana Poopree. In the Hajepore sub-division the rainfall of the week was 3.56 inches. <i>Makai</i> crop is reported to be doing well. The rice fields want much more rain. The health of the district is good.
	30 Sarun, " 11 "	.73	Weather—Cloudy and hot. Wind variable. Heavy rain wanted. 1.01 inches registered at Sevan. There are complaints from all parts of the district that the crops are beginning to suffer from want of rain. The transplantation of <i>aghani</i> rice is at a standstill. The prospects of the crops are now assuming a serious aspect. <i>Murwa</i> and <i>sati</i> paddy have suffered. The sugarcane looks well to the eye, but the ryots say that it also has suffered from want of moisture. The miscellaneous crops of <i>rakar</i> , cotton, and maize which hitherto have been doing well, are now beginning to suffer in some parts of the district.
	31 Chumparun, " 11 "	1.30	Weather—Very hot during the day. Tolerably cool at night. The prospects of the <i>bhaddi</i> and <i>aghani</i> crops are good.
	32 Monghyr, " 11 "	1.04	Weather—Stormy, with heat in the intervals. .15 of an inch of rain registered at Beguserai and .89 of an inch at Janui. Enough rain has fallen in the Sudder for the present, but rain in Beguserai and Janui would materially increase the chance of a good crop.
	33 Bhagulpore, " 11 "	2.31	Weather—Seasonable. Everything promises well now. The <i>murwa</i> , which was said to be suffering in the north from too much rain last week, has this week had the benefit of good sunshine.
	34 Purneah, " 11 "	.72	Weather—Hot and bright. 1.80 inches of rain registered at Kissengunge and 1.20 inches at Arracah. The cutting of autumn rice has commenced, and the outturn is better than was expected before. The transplanting of winter rice is going on, though more rain is wanted in some parts, particularly in the west of the Kosi.
BRAGULPORE DIV.	35 Maldah, " 11 "	2.38	Weather—Cloudy, with thunder and heavy showers. State and prospects of the crops continue to be satisfactory.
	36 Southal Pergh, " 12 "	6.20	On the night of the 9th, and on the morning of the 10th instant, it blew hard from the north and north-east, with very heavy continued rain. 1.2 inches registered at Deoghur, 1.8 inches at Rajmehar, and .93 of an inch at Godda. The heavy rain in Doomka has done great good, filling the high paddy land with water and brightening up the <i>janera</i> , which wanted to be wet. The high wind has done very little harm. It is not yet known how far the heavy rain went.
	37 Cuttack, " " "	..	Return not received.
	38 Pooree, " 9 "	.35	Weather—Hot and cloudy. 1.89 inches of rain registered at Khoordah. Scanty rainfall in almost all parts of the district on certain days of the week is reported, but it is not sufficient. Transplanting and weeding are generally stopped. In parts of Khoordah there was rain sufficient to allow transplanting, and in those parts cultivation is progressing. <i>Beali</i> is still reported as suffering from the drought.
ORISSA	39 Balasore, " 10 "	3.89	Weather—Cloudy throughout the week. The showers, though irregularly distributed, have been heavier, and the week's rainfall has greatly benefited the rice crop, which is still however somewhat backward, and, on high and sandy soils, is meagre, but with favourable rain later on will yield an average harvest. Cattle-pox has caused some damage on the east coast.

* Nearly one inch since reported.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.*			
	<i>South-West Frontier Agency.</i>		
40	Hazareebagh, Aug. 10 '77	1 74	Slight showers fell daily during the first six days of the week. Heavy rain has commenced since 9th instant, and appears to be general over the whole district. The slight showers have continued to benefit the <i>bhadoi</i> crops. The heavy rain will enable the planting out of the winter rice. Prospects have materially improved.
41	Lohardugga, „ 11 „	2 94	Weather—Seasonable. The prospects of the crops in the head-quarters sub-division are favourable, and the health is good. The Sub-Divisional Officer of Palamow thus reports:—“Rainfall 2·45. The weather has not been seasonable; it is more like September weather. There have been general showers almost every day during the week in the evening, but the days have been throughout clear and bright, and the sun scorching. The <i>bhadoi</i> crops continue to be very promising, especially <i>makai</i> . The damage done by the <i>phainga</i> is now estimated at about one-eighth. The <i>khureef</i> prospects are not favourable; one-eighth is said to be irretrievably gone. Transplanting has commenced in parts, but is by no means general. Everything now depends on the rainfall during the next 10 or 15 days. The seedlings are ready, but the ground cannot be prepared for them. There have been many cases of small-pox in the sub-division.”
42	Singbhoom „ 10 „	5 82	Weather—Seasonable. The prospects of the crops are very favourable. The district is healthy.
43	Manbhoom „ 11 „	6 51	Weather—Very favourable in the Sudder station and in the south. In the beginning of the week more rain was wanted in the north. The Deputy Commissioner believes that during the last 36 to 48 hours there has been heavy rain throughout the whole district. In Purulia the rainfall on the 10th was nearly 4 inches. The prospects of the crops are generally favourable. A small portion of the transplanted rice crop may have been lost in the north. But on the whole all are well off

* The Commissioner on the 11th August writes to say about 5 inches of rain fell a little over the last 24 hours; it was raining at the time of report, and a good much more was expected. Any fears entertained for the district (Lohardugga) must be at an end with ordinary rain in future. The crops ought all to be full average ones. High wind may have somewhat injured the ripening crops. The rain to all appearances was general. Singbhoom all along promising. Manbhoom to last report was all right. The heavy rain has reached Hazareebagh and must have fallen at Pachumba. Provided the rain is general throughout the division, the prospects are and must be very promising.

Offg. Secy. to the Govt. of Bengal.

DISTRICT ROAD FUND.

No. 220.

The 13th August 1877.

Notification.—The following extract from the Proceedings of the Lieutenant-Governor of Bengal, relative to the accounts of the receipts and expenditure of the District Road Fund for the second quarter of the cess year 1876-77, is published for general information :—

No. 666A.

Extract from the Proceedings of the Hon'ble the Lieutenant-Governor of Bengal in the Public Works Department (Local,—Accounts,) under date the 10th August 1877.

READ—

Memorandum from the Examiner of Public Works Accounts, Bengal, No. 496D, dated the 2nd August 1877, submitting an abstract of the receipts and expenditure of the several District Road Committees for the quarter ending 31st March 1877.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the District Road Fund for the second quarter of the cess year 1876-77 be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDERS.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the supplement to the *Calcutta Gazette*.

Ordered that a copy of this Resolution, as well as the abstract referred to, be forwarded to the Financial Department of this Government for information; also that copies of each be forwarded to all Commissioners of Divisions, to all Superintending Engineers of Circles in Bengal, to the Accountant-General of Bengal, and to the Examiner of Public Works Accounts, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

G. A. D. ANLEY, C.E.,

Asst. Secy. to the Govt. of Bengal in the P. W. Dept.

* Fell at 6-30 P.M. of the 4th.

The mean pressure of the seven days	Inch.
The average pressure of the corresponding period for 20 years	29°488
			29°580

The mean temperature of the seven days	°
The average temperature of the corresponding period for 20 years	81°5
The extreme variation of temperature during the seven days	83°4
The maximum temperature during the seven days	13°9
			90°9
			%

The mean humidity during the seven days	91
The average humidity of the corresponding period for 24 years	86

The total fall of rain from 5th to 11th August	Inch.
The average fall of the corresponding period for 24 years	3 17
The total fall from 1st January to 11th August	2 27
The average fall of the corresponding period for 24 years	39°63
			39°16

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

d drizzling, *l* lightning, *lr* lightning reflection, *t* thunder, *p* passing temporary showers, *o* overcast, *g* gloomy, *g* strong wind.

Leave Kishnaghur	25th "
Arrive Berhampore	26th "
Berhampore	27th, 28th "
Arrive Jungipore	29th "
" Rajmehal	30th "
" Bhagulpore	1st September.
Bhagulpore	2nd, 3rd, 4th "
Arrive Carragola	5th "

H. BOILEAU, Captain,
Private Secretary.

NOTIFICATION.

The 21st August 1877.—The following general instructions are notified for the guidance, of officers corresponding directly with the Government of Bengal, during the time His Honor the Lieutenant-Governor is at Darjeeling :—

As a general rule, all communications should be sent, as usual, to the Secretary's Office in Calcutta ; but communications which are urgent, and which can be made complete in themselves, so as not to require reference to papers at the Presidency, may be sent direct to the Secretary with the Lieutenant-Governor at Darjeeling.

HORACE A. COCKLEFILL,
Offg. Secy. to the Govt. of Bengal.

No. 4378A.

GENERAL.—*The 15th August 1877.*—Mr. T. E. Coxhead, Officiating Magistrate and Collector, Bogra, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code.

Mr. F. Wyer, Joint-Magistrate and Deputy Collector, is appointed to act as Magistrate and Collector, Bogra, during the absence, on leave, of Mr. T. E. Coxhead, or until further orders.

The 16th August 1877.—Baboo Huro Kali Mookerjee, Deputy Magistrate and Deputy Collector, in charge of the Moonsheegunge division of the Dacca district, is transferred to the Sudder Station of Furreedpore. This cancels the orders of the 23rd July 1877, transferring Baboo Huro Kali Mookerjee to the Sudder Station of Pooree.

Mr. T. E. Dempster, Officiating Deputy Magistrate and Deputy Collector, Sonthal Pergunnahs, was on privilege leave from the 4th to the 20th May last.

Mr. E. B. Godfrey, Deputy Magistrate and Deputy Collector, Dinagpore, was on privilege leave from 20th June to 1st August 1877.

The 18th August 1877.—Baboo Bhobotosh Banerjee, Special Deputy Collector employed on road cess work in Darjeeling, is appointed temporarily to be a Deputy Magistrate and Deputy Collector of the Seventh Grade, *vice* Mr. R. D. Hare.

Baboo Nobin Chunder Sen, late Personal Assistant to the Commissioner of Chittagong, is transferred to the Sudder Station of Pooree.

The 20th August 1877.—Moulvi Shah Mahomed Ibrahim, who was recently appointed to act as a Deputy Magistrate and Deputy Collector in the Bhagulpore Division, is posted to the Sudder Station of Monghyr.

Baboo Umesh Chunder Batabyal, who was recently appointed to act as a Deputy Magistrate and Deputy Collector in the Presidency Division, is posted to the Sudder Station of the district of the 24-Pergunnahs.

The leave granted to Moulvi Ahmed, Deputy Magistrate and Deputy Collector, Backergunge, for one year, under Section 7, Supplement F of the Civil Leave Code, under orders of the 8th August 1877, published in the *Calcutta Gazette* of the 15th idem, will have effect from the 9th instead of from the 15th August 1877, as previously notified.

Mr. G. M. Currie, Officiating Magistrate and Collector, Chittagong, is appointed to act in the Second Grade of Magistrates and Collectors during the absence, on leave, of Mr. J. C. Price, or until further orders.

Mr. H. W. Mackenzie, Deputy Magistrate and Deputy Collector, on special duty in connection with the settlement of the Burkagurh Estate, in Lohardugga, is appointed to act until further orders in the Third Grade of Assistant Commissioners. Mr. Mackenzie will continue to be employed in his present duties.

Mr. J. B. Worgan, District and Sessions Judge of Dinagpore, is appointed to act in the First Grade of Judges during the absence, on leave, of Mr. E. Drummond, or until further orders.

Mr. C. M. W. Brett, Officiating Joint-Magistrate and Deputy Collector, in charge of the Serajunge division of the Pubna district, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code, with effect from the 3rd September next.

Mr. C. J. S. Faulder, Assistant Magistrate and Collector, Pubna, is appointed to have charge of the Serajunge division of the Pubna district during the absence, on leave, of Mr. C. M. W. Brett, or until further orders.

Mr. J. T. Jarbo, Officiating Deputy Magistrate and Deputy Collector, Chittagong Hill Tracts, is allowed leave for one month, under Section 12—2, Supplement F of the Civil Leave Code, with effect from the 27th instant.

The 21st August 1877.—Mr. E. R. Henry, Officiating Assistant Commissioner, in charge of the Rajmehal division of the Sonthal Pergunnahs, is allowed leave for six weeks, under the rules in Chapter VII of the Civil Leave Code, with effect from the 4th September next, or any subsequent date on which he may avail himself of it.

Mr. A. W. Cosserat, Deputy Magistrate and Deputy Collector, Doomka, Sonthal Pergunnahs, is appointed to have charge of the Rajmehal division of that district during the absence, on leave, of Mr. E. R. Henry, or until further orders. This cancels the orders of the 9th August 1877, appointing Mr. Cosserat to have charge of the Arrareah division of the Purneah district.

HORACE A. COCKRELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

The 20th August 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 15.)

Sindh Coast—Kurrachee.

1.—ALTERATION IN MANORA POINT LIGHT.

WITH reference to Notice to Mariners, No. 1, of 20th March 1877, on the intended alteration in Manora Point light,—

The Harbour Authorities at Kurrachee have further notified that, on the 15th August 1877, the present light will be discontinued and the new *revolving* light exhibited, which will attain its greatest brilliancy every two minutes, and be visible from a distance of 20 miles in every direction seaward.

Position.—Lat. 24° 47' 21"N. ; long. 66° 58' 15"E.

Red Sea—Coast of Arabia.

2.—DISCOVERY OF A BANK NEAR TOWAK ISLAND.

The *Hydrografische Nachricht* No. 6 of 1877, announces that the Master of the Austrian Lloyd's steamer *Oreste* reports having touched on a bank, not shown on the Admiralty Charts, which, according to his statement, lies about two miles north-east of Towak Island in the Red Sea in lat. 16° 19' 30"N., and long. 42° 38'E. The bank extends one cable in an east and west direction, and has a depth of 13 feet over it.

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr. (late I. N.),
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, Calcutta, 8th August 1877.

(1) This notice will affect the following Admiralty Charts:—Kurrachee harbour, No. 40 ; Indus tidal channels from Manora Point to Kaha river, No. 41 ; Sindh and Kutch coasts, No. 42 ; Maskat to Kurrachee, No. 38 ; Kurrachee to Vingorla, No. 826 ; and Indian Ocean, northern portion, No. 748b : also Admiralty list of lights in South Africa, East Indies, &c., 1877 ; the West Coast of Hindostan Pilot, page 237 ; the Supplement to the Persian Gulf Pilot, page 24 ; the Indian Marine Survey Light List, 1877, No. 10 ; and Taylor's Sailing Directory, Vol. I., pages 309 and 331.

(2) Red Sea, Khor Nowarat, &c., No. 8d ; Red Sea, No. 2523 ; and Juha Islands to Maskat, &c., No. 98 : also Admiralty Red Sea Pilot, page 190 ; and Taylor's Sailing Directory, Vol. I, page 177.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

NOTIFICATION.

Rules for the Zemindari Dāk under Act VIII (B.C.) of 1862.

The 11th August 1877.—The primary object of the zemindari dāk is the conveyance of letters between police officers and police-stations and the magisterial officers of the district. Where, however, zemindari dāk establishments exist, there

Preamble. can be no objection to making further use of them for the conveyance and delivery of private correspondence, so long as no extra charge is thrown thereby upon the zemindars or Government farmers. Throughout Bengal, moreover, it has been found convenient to entrust to the Postal authorities the general control and direction of the district dāk lines, to ensure their proper working in connection with the lines of the imperial post. The following rules have been framed by the Lieutenant-Governor of Bengal under Section 11, Act VIII (B.C.) of 1862, for the purpose of defining the duties and relations of the Magistrates and the Postal authorities, and for giving proper effect to the provisions of the Act.

1. It is the duty of the Magistrate of the district to determine the stations between which communication is required for police purposes.

2. The Post-Master-General will then, in communication with the Magistrate, arrange all questions connected with routes, stages, timing, strength and cost of establishment and the like, any difference of opinion between them being referred for the orders of the Commissioner, which shall be final.

3. No charges on account of delivery peons or rural messengers can be included in the zemindari dāk budget; but the cost of all establishments necessary for the collection and proper keeping of the accounts of the zemindari dāk cess, as well as for the punctual conveyance of the district mails, and all reasonable charges for contingencies, including boats, huts, common post-office furniture, stationery and the like, must be defrayed from the funds raised under the provisions of the Act.

4. The Sub-Inspector of Post-Offices will annually, on or before the 15th of November prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. The Magistrate, after including in this the cost of his own office establishment and any extra provision necessary for keeping up communications with his own camp while on tour, will forward the budget to the Post-Master-General, who will, after passing or modifying it (in communication with the Magistrate) return it to the Magistrate for insertion in the budget of the estimated balance at the close of the current year, and the total sum necessary to be levied with reference to the provisions of Section 10 of the Act, with a note of the rate at which he proposes to levy the cess.

Having thus completed the budget estimate, the Magistrate will forward it for the approval and sanction of the Commissioner, who, after passing it, will forward it to the Accountant-General.

5. The monthly pay-bills of the zemindari dāk establishments will be drawn by the Post-Master disbursing the amounts, and be paid at the treasury on the countersignature of the Magistrate. The pay-bills of the Magistrate's own office will be paid on his signature. The monthly contingent bills will be passed only on the countersignature of the Post-Master-General. Charges for boats in the rains, though provided in the budget, will not be incurred without the previous sanction of the Post-Master-General. The Magistrate shall be at

liberty to draw against the special provision for dâks to his camp on tour without any reference to the Post-Master-General.

6. All nominations for posts of dâk munshis, overseers, and other subordinate officers of the superior grade will be made by Inspectors, subject to the Magistrate's approval; and all proposals for the fine, suspension, or dismissal of men of this class must also be submitted to the Magistrate. Appeals from the Magistrate's orders will lie to the Commissioner. The Magistrate will appoint his own office establishment. The appointment and dismissal of runners will lie with the Inspector, subject to an appeal to the Magistrate. Applications for leave will be submitted through the Inspector to the Magistrate.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th August 1877.—Rules 3 and 4 of the Notification dated 22nd February 1869, regarding the limits within which the possession and transport of salt shall be regulated, have been modified as follows:—

Rule 3.—The whole tract of country, with the exception noted below, included between the sea-board of the Bay of Bengal, and a continuous line drawn from the southernmost point of the coast of Chittagong to the southernmost point of the coast of Cuttack, so as to include the following districts and parts of districts.

The district of Chittagong, except thanas Futtickcherry, Raojan, and Satkania, and outpost Ramgoonea.

The district of Noakholly, except thanas Ramgunge, Begumgunge, Fenny, and Chagulnaya.

The district of Backergunge except the Sudder sub-division, the sub-division of Madareepore, and thana Sharupkati, in the Perozepore sub-division.

The sub-divisions of Khulna and Bagirhat, in the district of Jessore.

The district of the 24-Pergunnahs, except the sub-divisions of Baraset and Barrackpore, and thanas Kalara, Satkhira, Magra, and Baduria.

The thanas Bally, Golahbaree, Howrah, Seebpore, Doomjor (including Sankrail), Oolobarya, and Shampore, in the district of Howrah.

The thanas Raghunathpore, Contai, Kedgerree, Bhugwanpore, Nundigram, Soottahatee, and Mualundpore, in the district of Midnapore.

The districts of Balasore and Cuttack (including the whole of the Cuttack Municipality), excepting those portions which lie to the west of the Grand Trunk Road.

Rule 4.—Within the above limits the tract in and about Calcutta and Howrah, lying within a ring-fence as defined below, shall not be included, and the rules prescribed under Sections 11 and 13, Act VII (B.C.) of 1864, shall not apply thereto, except in regard to such premises as are occupied by saltpetre refineries as specially defined by the Board of Revenue, and in regard to the premises occupied by the salt pass stations at the Sulkea siding platform of the East Indian Railway at Howrah, and at Ohitpore at the terminus of the Eastern Bengal Railway. The boundary of the tract thus excluded shall run from Cossipore Ghât, on the left bank of the river Hooghly, following the Gun Foundry Road and the Barrackpore Trunk Road, up to the Barrackpore Bridge over the Circular Canal; thence along the right bank of that canal to its junction with the Narkuldangah Suspension Bridge; thence along the Narkuldangah Main Road up to its junction with the Circular Road. The line shall thence follow the Circular Road to its junction with the Bhowanipore Road, and from that point shall follow the latter road to Halliday Bridge over Tolly's Canal. From that point it shall follow the Calcutta bank of the said Tolly's Canal to its mouth at Hastings' Bridge, and shall thence cross the river Hooghly in a straight course to the Ramkistopore Ghât on the Howrah bank, and, proceeding westward by the Ramkistopore Ghât Road, shall run up to the junction of that road with the Grand Trunk Road. It shall then run along the Grand Trunk Road up to its junction with the Telkul Ghât Road; thence, proceeding by that road eastward to the river bank, shall run along that bank up to the Howrah Ghât; thence proceed westward by the public road to the Grand Trunk Road *via* Chandmurry Road, New Street, and Tindell Street, and thence in a northerly direction through the station of Howrah to the junction of the Grand Trunk Road with Nuskerparah Road; thence along the north side of the latter road to its termination on the right bank of the river Hooghly; and it shall then pass in a straight course across that river to the Cossipore Ghât.

Turnlook has been excluded from the list of pass stations in the district of Midnapore. The list of the present pass stations in the district is as follows:—

• *Midnapore.*

1. Gewakhalee, at the mouth of the Roopnarain river.
2. Tengrakhalee, on the north bank of the Haldee river, at the mouth of Pertaubkhalee Canal.
3. Baitghur, opposite Kaleenuggur, on the Russoolpore river, south bank

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

The 7th August 1877.—The following order of the Government of India in the Financial Department, Accounts, is published for general information:—

No. 2055, SIMLA, THE 25TH JULY 1877.

READ AGAIN—

The proceedings in this department for the month of January 1876, Nos. 11 to 13 (Accounts), sanctioning the investment of the sale proceeds of certain nuzzool lands in the Punjab, but declining to recognise any general right on the part of local Governments to invest local fund balances.

Read—

A letter from the Accountant-General, Madras, No. 3126, dated the 20th June 1877, bringing to the notice of the Government of India certain proceedings of the Madras Government authorising the investment in Government securities of Rs 10,77,400 out of the balance at credit of the "Village Service Fund" in that Presidency.

RESOLUTION.—The Governor-General in Council confirms the proceedings of the Government of Madras in this particular instance.

2. His Excellency in Council desires, however, to remind all local Governments and Administrations that no public money should be removed from the public treasury for *investment* without the sanction of the Government of India, and that this applies to local fund balances as much as to provincial funds.

ORDERED that this resolution be communicated for information and guidance to all local Governments and Administrations, to the Comptroller-General, and to the several Accountants-General and Deputy Accountants-General in independent charge.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

No. 129.

Simla, the 21st July 1877.—Under the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23 and 29 of the Rules relating to emigration from the port of Calcutta, which were published in the *Gazette of India* of the 22nd February 1873:—

RULE 23.—The proportion of female emigrants to be embarked on each ship during the months of August to October, both inclusive, shall be, as nearly as practicable, 25 adult females to every 100 adult males.

23A.—During the period from 1st November to the close of each season, the proportion shall be such number between 40 and 80 adult females to every 100 adult males as the Protector of Emigrants may fix for each ship.

In exercising the discretion given him by this rule, the Protector of Emigrants shall, if practicable, so fix the proportion for the several ships despatched during the period last mentioned that the average proportion embarked during each season shall be not less than 40 adult females to every 100 adult males.

23B.—If in any such season the average falls below this, the Protector of Emigrants shall, in exercising the discretion given him by the first clause of Rule 23A, so fix the proportion for the several ships despatched during the period commencing with the 1st November of the following season up to its close as to bring up the average proportion for the two seasons, if practicable, to not less than 40 adult females to every 100 adult males.

RULE 29.—The Emigration Agent shall appoint to each ship about to be despatched by him the staff of attendants specified in scale No 11 of Schedule E, and shall ensure their punctual attendance at the time of embarkation.

When emigrants volunteer to act as topazes or cooks, and the superintending Surgeons are willing to accept their services in this capacity, they may be employed as such.

The compounder-interpreter and the nurses, cooks, sirdars and topazes, whether emigrants or not, shall, whenever practicable, be selected from among those who have been accustomed to a sea life, and have been trained either in an emigration depôt or elsewhere to the kind of work they will be required to perform on board.

One of the nurses appointed shall be a person who possesses the necessary qualifications for the work of supervising and directing under-nurses, and she shall be appointed head nurse.

29A.—The Agent shall provide all persons appointed by him with separate written agreements wherein their respective engagements, including for natives of India a free return passage to India, and in the case of West Indian or African topazes a free passage to their homes shall be clearly provided for; but when such persons are emigrants under engagement to serve in the colony to which they are proceeding, it will not be necessary to provide that a return passage to India should be secured to them by agreement, otherwise than on the same terms provided for other emigrants.

To meet caste prejudices, it shall be arranged so that Brahmins shall cook for Hindus, and Mussulmans for Mahomedans.

29B.—It shall be further provided by such written agreement that all the attendants shall be under the immediate control of the Surgeon Superintendent, and that he shall have the power of disrating or dismissing any of them for misconduct or neglect of duty.

SCHEDULE E.—SCALES.

No. 11.

Scale of attendants to be appointed to emigrant ships proceeding to places either east or west of the Cape of Good Hope:—

(a) *Compounder-interpreter.*—One to each ship, unless the total number of statute adults the ship is licensed to carry exceeds 500, in which case an assistant compounder-interpreter must be provided.

(b) *Extra interpreter.*—One to each ship in all cases when the Surgeon or the Master and third officer are ignorant of the native language; but in the event of an assistant compounder-interpreter being provided, an extra interpreter need not be appointed.

(c) *Female nurses.*—Four to each 100 children under two years of age.

(d) *Sirdars or headmen.*—Four to every 100 statute adults.

(e) *Cooks or bandaries.*

(f) *Topazes or sweepers* } Two to the first 100 statute adults, and one additional for every additional 100 statute adults.
(except in the case of ships bound to the West Indies, as to which see Rule 49).

[Third Publication.]

NOTIFICATION.

The 19th July 1877.—In supersession of the Notification published under the provisions of Section 69 of the Indian Registration Act (VIII, 1871,) in the *Calcutta Gazette* of the 24th December 1873, the following rules, which have been prepared under the provisions of Section 69 of Act III, 1877, and have been approved by the Lieutenant-Governor, are hereby published for general information.

2. These rules will have effect in the provinces under the Lieutenant-Governor of Bengal from and after the 1st January 1878.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

Rules framed under Section 69 of Act III of 1877 (the Indian Registration Act) and sanctioned by the Government of Bengal.

Leave and Appointments.

1. REGISTRARS and Sub-Registrars, on giving or receiving charge of their respective offices, shall report the fact to the Inspector-General in the form given in Rule 120 below.

In the case of Sub-Registrars, such reports shall be made through the District Registrar.

2. Whenever a District Registrar makes a temporary appointment under section 12, he shall at once report the fact to the Inspector-General.

3. When a Sub-divisional Officer goes on tour, it is usually undesirable that he should carry the sub-registry office about with him. He should ordinarily make over charge to his Sub-Deputy Collector or to the Moonsif: in the latter case, the assent of the Registrar and of the District Judge must first be obtained.

4. The report referred to in section 13 shall be submitted to Government by the Inspector-General at the end of each month.

5. Head-quarter Sub-Registrars having been permanently placed in charge of district registry offices under section 7 of the Act, clause 2, temporary appointments under section 11 need only be reported when some person other than the Special Sub-Registrar is appointed to perform the duties of the Registrar during his absence.

6. When a Sub-Registrar is absent, or his office is temporarily vacant, if the District Registrar is unable to appoint a suitable substitute, he may himself assume charge of the sub-registry office until the return of the Sub-Registrar or appointment of a successor; and in such cases the extra or additional fee chargeable for registration by a Registrar under section 30 (a) shall not be charged upon registrations effected during the absence of the Sub-Registrar.

7. Rural Sub-Registrars are not subject to the leave to rural Sub-Registrars. uncontracted leave rules.

It is a condition of their appointment that they should reside at the headquarters of their jurisdiction; leave should therefore be seldom required, and should be given only in cases of urgent necessity. When the leave asked for does not exceed one month, the Registrar is competent to grant the application and appoint a substitute. All leave exceeding one month, and every extension of leave which will prolong the period of absence beyond one month, must receive the previous sanction of the Inspector-General.

All leave granted to rural Sub-Registrars shall be at once reported to the Inspector-General, and

included by him in the monthly report submitted to Government under rule 4.

Seals.

8. The seals of District Registrars and Deputy Registrars made under section 12 of Act XVI of 1864 shall be taken to be seals of Registrars and Sub-Registrars under this Act. The seal shall always remain in the personal custody of the registering officer.

Languages commonly used—(Section 19).

9. The following languages shall be considered to be commonly used in the districts named, viz.—

In the Patna Division and the districts of Bhagulpore and Monghyr—English, Hindi, and Hindustani

In the Chota Nagpore Division, in the Sonthal Pergunnahs, and in the districts of Purneah, Darjeeling, and Julpigoree—English, Hindi, Hindustani, and Bengali.

In the Burdwan, Presidency, Dacca, and Chittagong Divisions, and in the districts of the Rajshahye and Cooch Behar Division not already mentioned—English, Bengali, and Hindustani.

In the Orissa Division—English, Bengali, Hindustani, and Uriya.

10. When a copy of a Bengali, Uriya, or Hind document is forwarded, under section 65 of the Act, to a Registrar in another presidency, it shall be accompanied by information in English respecting the names and additions of all persons executing and claiming under it, and a description of the property situated in the Registrar's district sufficient for its identification.

11. A power-of-attorney intended for use in another presidency, if authenticated in Bengali, Uriya, or Hindi, by an officer unacquainted with English, may, if the parties desire it, be forwarded by him to the District Registrar for the endorsement on it of an English translation of the authentication.

12. A power-of-attorney authenticated in a language unknown to a registering officer to whom it may be presented may, if the parties desire it, be by him submitted to the Registrar or Inspector-General of Registration, Bengal, as the case may be, who will procure an English translation of the authentication.

Maps or Plans—(Section 21).

13. The territorial divisions to be cognized under section 21 (b) shall be registration districts, sub-districts, and thanas; also pergunnahs and mouzahs, where they are known, and collectorate districts, if different from registration districts.

14. Copies of maps or plans shall be attested by the signatures of the persons executing the document or their agents, and the original map or plan contained in the document shall at the time of registration be signed and sealed by the registering officer. When, under section 30 (b), the Registrar of Calcutta registers a document accompanied by a map relating to property, no part of which lies within his own district, a copy of the map shall be supplied for record in his own office in addition to the number required by section 21 (c).

15. When a document containing a map or plan is presented for re-registration under the proviso to section 23, it shall not be necessary for the parties to deposit fresh copies of the map or plan under section 21 (c); but the registering officer shall certify against the copy in the register book that the map or plan attached to the document is the same as that which was attached to it on its first presentation.

Commissions (under Sections 33 and 38).

16. A commission shall ordinarily be issued by a registering officer to some salaried member of his establishment, and the order shall be briefly endorsed on the document in words to this effect:—

“A commission is hereby issued under section 33 (or 38) of the Indian Registration Act, 1877, to [name and designation of the officer] for the purpose of inquiring whether the within power (or document) has been executed by A. B., son of C. D., of _____, by whom it purports to have been executed.”

17. If the person to be examined under section 38 be not resident within the district or sub-district of the registering officer, a commission shall be directed to the Registrar of the district in which such person resides, who may re-direct it to the Sub-Registrar, who may, if he cannot personally attend, re-direct it to any officer of his establishment. The commission fee and travelling allowance will be transferred to the registering officer to whom the commission is addressed.

18. When the commission has been executed, the commissioner shall return the document to the office from which it was issued, with a report, which shall be endorsed upon the document, in the following terms:—“Having visited the residence of A. B., son of C. D., at _____, I have this day examined the said A. B., who has been identified to my satisfaction by E. F., son of G. H., &c., residents of _____, and the said A. B. admitted (or denied) the execution of the within power (or document).”

Full signature of executant.

Ditto of witnesses.

Ditto of commissioner.

19. A commissioner may examine witnesses in the same manner as a registering officer; and persons refusing to give testimony to a commissioner, on

being required to do so, shall be subject to the same penalties and punishment which they would incur for the same offence if committed in a registration office.

20. It shall be competent to a registering officer to examine the commissioner personally in his office touching any of the circumstances connected with the discharge of his commission, especially with reference to the voluntary nature of the admission of execution.

21. All applications for visits under sections 31, 33, or 38, or for the issue of commissions under section 33 or 38, shall be accompanied by the amount of fees chargeable, as well as the amount of travelling allowance claimable by the registering officer or commissioner.

22. A separate commission fee shall be charged upon every signature which requires attestation, but travelling allowance shall only be charged for the actual distance travelled: Provided that where two or more persons who execute the same document (or documents relating to the same transaction) reside together, only one commission fee shall be charged, so far as those persons are concerned.

23. The distances for which travelling allowance is charged shall be calculated according to the table which is drawn up in the Collector's office for the service of processes. A copy of this table shall be exhibited in every registration office.

Powers-of-attorney.

24. The form of authentication of powers-of-attorney shall be as follows:—

(1)—When the principal executing the power appears at the registration office

“Executed in my presence on the _____ day of _____ 18____, by A. B., son of C. D., of _____, by caste _____, by profession _____, who is personally known to me (or whose identity was proved by the testimony of E. F., son of G. H., of _____), and recorded as No. _____ for 18____.”

Full signature of principal.

Ditto of witness or witnesses.

Seal and signature of registering officer.

(2)—When the principal is exempted from appearance—

“Having visited and examined at his (or her) residence the principal, A. B., son of C. D., of _____, by caste _____, by profession _____, who is personally known to me (or whose identity was proved by the evidence of E. F., son of G. H., of _____), I am satisfied that this power-of-attorney has been voluntarily executed by him (or her), and I accordingly authenticate it under section 33 of Act III of 1877, and record it as No. _____ for 18____.”

Full signature of principal.

Ditto of witnesses.

Seal and signature of registering officer and date.

When the Sub-Registrar himself does not examine the executant, he should make the following endorsement below the report of the commissioner, as provided for in rule 18:—

“From the above report, I am satisfied, &c.” (as above).

25. All interlineations, blanks, erasures, or alterations in powers-of-attorney authenticated under section 33 should, at the time of authentication, be detailed in a footnote signed by the Sub-Registrar. When there are no interlineations, &c., the fact should be noted in the same way. This note will be copied in every case into the register of powers-of-attorney.

26. General powers-of-attorney are available under this Act if they contain or imply an authority to appear in a registration office, and are executed in accordance with section 33. Powers already executed may be made available by the execution, in accordance with section 33, of an additional clause empowering an attorney to appear in a registry office.

27. If an authority to register be included in a document to be registered, the document must of course bear the additional stamp duty chargeable on the power-of-attorney.

28. Powers which do not contain or imply an authority to appear in a registration office shall not be authenticated under section 33.

29. Whenever a special power-of-attorney is used in a registration office for the purposes of section 32, an endorsement shall be made upon it in the following form, and it shall be returned forthwith:—

Presented this day.

Date. (Sd.) A. B.,
[Seal.] Registrar or Sub-Registrar of

30. For general powers-of-attorney no endorsement is required. They shall be returned after inspection to the parties by whom they were presented.

Issue of Process.

31. Summonses under section 75 will be issued direct by the Registrar acting according to the provisions of Chapter VI of Act X of 1877. The summonses referred to in sections 36 and 37 shall be executed through the Revenue authorities, and the peon's fee shall be regulated according to the rules for the service of processes by such authorities: Provided that when a rural Sub-Registrar's office and a Moonsif's court are located in the same place, the processes shall issue through the Moonsif's court. In such cases the peon's fee shall be regulated by the rules for the service of processes in the civil court.

32. If the summons be addressed to a person who is alleged to have executed the document, it shall require him to attend in person or by agent; if it be addressed to any person whose evidence is required to prove a fact, it shall require him to attend in person.

33. Every application for summons must be accompanied by the amount of expenses payable to the witness, as well as the amount of peon's fees usually chargeable by the revenue authority or civil court through which the summons is to be issued; and in forwarding for compliance an application for summons, the registering officer shall also forward the witnesses' expenses and the peon's fee, together with a draft summons in duplicate ready for signature, and purporting to issue from the civil or revenue court to which the application is forwarded for compliance.

34. In case of a person summoned under section 37 neglecting to appear, or if a summons under that section cannot be served, the register-

ing officer may call upon the revenue officer or civil court through whom his summonses are served to take any further action authorized by the law for the time-being in force for the purpose of securing the attendance of the person whose evidence is required, and such a requisition must be accompanied by the proper fee. It rests with the registering officer to specify the form of action to be taken.

35. No rural Sub-Registrar shall issue a requisition under the preceding rule without the previous sanction of the District Registrar.

Wills, &c.

36. A will shall not be received for deposit Will deposited under otherwise than in the manner laid down in section 42.

A will received through the post-office shall be returned to the testator bearing.

37. Every entry made in Register Book V, under the provisions of section 43, shall be signed in full and dated by the Registrar.

38. When a sealed cover is withdrawn under section 41, the fact shall be noted in Register Book V, and the entry shall be signed by the person by whom the withdrawal is made as well as by the Registrar.

39. When a sealed cover is opened, under section 45, the fact shall be noted in Register Book V and the entry signed by the Registrar. If a cover is opened under order of a civil court, this shall be mentioned in the entry.

40. When a will is forwarded to any court Will called for by a civil under section 46, it shall be court under section 48, accompanied by a memorandum of the fee for opening the cover and copying charges, and it shall be the duty of the court to levy and remit such fee and charges to the Registrar.

41. Sealed covers deposited with a Registrar Will to be examined. under section 42 shall be examined monthly, and their condition reported to the Inspector-General. If there be no sealed cover in custody, this fact must be reported month by month.

Procedure in Registration.

42. On the presentation of a document for registration, the registering officer shall first satisfy himself—

- (1) That it has been presented at the proper office (sections 28, 29, and 30);
- (2) That it bears the proper stamp; and if it purport to be, or is known to be, a counterpart—

That it is "available" under the proviso of Article 16, Schedule II of the General Stamp Act, 1869;

- (3) That it is in the usual language of the district, or is accompanied by a translation and a true copy (section 19);
- (4) That in the case of important interlineations section 20 and rule 136 have been complied with;
- (5) That (if the document refers to immoveable property) the description is sufficient (section 21);
- (6) That it has been presented within the proper time (sections 23, 25, and 26);

(7) That it has been presented by a person authorized to do so (section 32).

43. If the requirements of the law have been complied with in all these particulars, the following certificate shall be entered on the face of the deed:—

“Admissible under rule 42. Correctly stamped under the General Stamp Act, Schedule , No. .”

44. After entry of the certificate under rule 43, the registering officer shall receive the fee or any fine payable under section 24, and enter the amount on the document close to such certificate, and at the same time the requisite entry shall be made in the fee book.

First endorsement.

45. The document shall now be endorsed to the following effect:—

“Presented for registration at A.M. (or p.m.) on the day of 187 , at the sub-registry office (or elsewhere), by A. B., son of C. D., of , by caste , by profession [or attorney for E. F., one of the claimants under a power (No. for 187) executed in the presence of the Sub-Registrar of]”

(Sd.) A. B.

(Sd.) G. H., Sub-Registrar of

46. The amount of the fee paid shall be entered on the receipt given under section 52.

47. The endorsement under section 58 shall be to the following effect:—

“Execution is admitted by A. B., son of C. D., of , by caste , by profession .”

(Sd.) A. B.

“Identified by E. F., son of G. H., of by caste , by profession .”
The of 187

(Sd.) E. F.

(Sd.) I. J., Sub-Registrar of

When execution is admitted by an agent, the following words shall be added:—

“Agent for K. L., under a power-of-attorney (No. for 187) executed in the presence of the Sub-Registrar of .”

When the executant or his agent is personally known to the registering officer, the words “personally known to me” should be substituted for the identification clause.

When receipt of consideration is acknowledged the following clause should be added:—

“The receipt of rupees as consideration is admitted by the above A. B.”

48. The endorsement referred to in the preceding rule shall invariably be recorded in the handwriting of the registering officer.

49. When a person who cannot write signs his name by means of a mark, his name shall be recorded at length, and the writer of the name shall also sign his own name in attestation that the said mark was affixed in his presence.

50. Whenever a registering officer administers an oath, he shall record the evidence of the witness examined on a separate sheet of paper, and a note of the fact should be endorsed on the deed itself.

51. When a document is presented which has only been executed by some of the parties to it,

the other executants may attend and execute the document and admit their execution without the payment of any further fee, so long as the certificate of registration under section 60 has not been endorsed thereon; but if the registration of the document has been completed, it must be presented afresh for registration and a second fee shall be payable.

52. When all the persons executing a document, or their representatives, assigns, or agents, have appeared and admitted its execution, the document shall be copied in the register.

53. When two or more copies of the same document are brought for registration at the same time, it shall not be necessary to enter the document more than once in the register, but all the endorsements shall be written upon each copy.

54. All endorsements shall be made in red ink, excepting signatures, which shall be made in black ink.

55. When there is not room on a document for the necessary endorsements, they shall be made on a separate quarter sheet of hand-laid medium paper, which should be supplied by the office, and attached to the document, a note being at the same time made on the document itself and signed by the registering officer. Every piece of paper so added must bear the seal of the registering officer and be signed and dated by him.

56. When a document has been copied and compared, the registering officer shall proceed to make, in the following form, the endorsement required by section 60:—

“Registered in Book , volume , page , being No. for 187 .”

Register Books.

57. The register copy of every document shall be compared with the original by some person other than the copyist, and both the copyist and the comparer shall append their signatures. The registering officer shall authenticate by his initials all corrections in the copy and all notes which may be necessary under section 20 of the Act. He shall also affix his initials to each page, and shall certify with his full signature each copy to be a true one, and shall date such certificate with his own hand. The copier in his signature should use the word “copied;” the comparer will use the word “compared.”

58. No erasures shall be made with a knife in any register book, but mistakes shall be corrected when necessary with the pen, and shall invariably be attested by the registering officer. All interlineations and corrections in the register books shall be made in red ink when the entries are in black ink, and in black ink when the entries are made in red ink.

59. The register books shall have two margins. On the left-hand margin shall be copied in red ink the value of the stamp, the certificate of admissibility under rule 43, and all the endorsements made in the office; in the centre shall be copied the deed itself in black ink, and the right-hand margin shall be left vacant for notes under

section 20 and rule 136. The stamp-vendor's endorsement on each document shall be copied in red ink in the registers in the centre of the page below the copy of the document itself.

60. Several volumes of Register Books I and IV may, if necessary, be kept in use simultaneously, when the documents registered are so numerous as to make this course necessary. Register Books II, III, and V shall be continued from year to year until they are full, and in small offices where the number of documents registered is inconsiderable, the same volume of Register Books I and IV may also be used for two or more years.

61. When a book is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page.

62. When, owing to omission or error in any document which has been registered, a supplementary document rectifying such mistake or omission is presented for registration, a note of such rectification shall be made in the margin of the register in which the original document is registered.

63. When a document occupies more than one sheet of paper, the seal and the signature of the registering officer shall be attached to every sheet.

Refusal of Registration.

64. If [rule 42 (1)] the deed has not been presented in the proper office, it shall be simply returned to the presenting party. In this case no entry need be made in Book II.

65. If [rule 42 (2)] the stamp is incorrect, the deed shall be impounded and forwarded to the Collector (section 23 of the General Stamp Act).

Note.—If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. But any deed formally presented with an insufficient stamp must be impounded.

66. If rules 42 (3) to (7) have not been complied with, or if the presenting party refuses to pay the proper fee, the deed must be returned at once to the presenting party with the endorsement—

“Registration refused,”

an entry being made at the same time in Book II.

Note.—Orders under this rule may be deferred at the request of the parties in order to enable them to comply with the requirements of the law, or for a reference to the Registrar under section 24. But in such cases an order of refusal shall be passed if the requirements of the law have not been complied with within eight months from the date of execution.

67. A Sub-Registrar is not authorized by law to refuse to register a document because he is directly or indirectly interested in the transaction to which it relates; but he will always advise the parties to present such a document at some other office. If the document relate to moveable property only, such other office may be the office of any Sub-Registrar under the same local Government at which all the parties may desire the document to be registered. If the document

relate to immoveable property, such other office will (unless the parties prefer to resort to the Registrar of Calcutta) be the office of the Registrar of the district. The latter officer will (as by the note of Article K of the Table of Fees already provided) register such document without charging the usual extra fee. If the parties, thus advised, insist on the Sub-Registrar registering a document in which he is interested, he must do so. In this case he will report the fact for the information of the District Registrar to whom he is subordinate.

68. The circumstances under which a document should at once be refused on presentation are given in rules 64-66. A document duly presented and accepted for the purpose of inquiry will not be admitted to registration under the following circumstances:—

- (1) If one or more of the executing parties deny execution. (Section 35.)
- (2) If one or more of the executing parties fail to appear and to admit execution. (Section 35.)
- (3) If a person by whom the document purports to be executed be dead, and his representative or assign deny execution. (Section 35.)
- (4) If a person purporting to have executed the document appear to be a minor, an idiot, or a lunatic. (Section 35.)
- (5) If the registering officer be not satisfied of the identity of any person appearing before him and alleging that he executed the document. (Section 35.)
- (6) If the registering officer be not satisfied as to the truth of the allegation that a person who executed the document is dead. (Section 35.)
- (7) If the admitting agent's power-of-attorney has not been made in accordance with the Act, or if an alleged representative or assign has failed to prove his status. (Section 35.)

69. In cases (1) and (4) registration must be at once refused. In cases (2), (3), (5), (6), (7) the order of refusal should ordinarily be deferred till eight months have elapsed from the date of execution. But if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that the document should at once be refused and returned to them, this may be done.

70. The reasons of refusal must be recorded by the registering officer with his own hand in Book II, and the particulars should be fully and clearly stated in each case. When one out of several executants declines to comply with the requirements of the law, his name should be given; when the registering officer is doubtful as to the identity of a party admitting execution, the grounds of his suspicion should be stated.

Copies and Memoranda.

71. In addition to the bound volumes of Register Book I, every Sub-Registrar shall keep a file-book, in which he will file the memoranda of registered documents which have been forwarded to his office under sections 64, 65, and 66 of the Act.

Similarly, Registrars shall keep *two* separate file-books—one for memoranda and one for copies under sections 65, 66, and 67 of the Act. These papers shall be bound into a volume, or volumes, of convenient size at the end of the year. They shall be numbered consecutively, but in a series distinct from that of original registrations in Register Book I.

72. Copies shall be made on paper of the same size and description as that of the bound books. Memoranda shall be drawn up in the prescribed form.

73. Memoranda for sub-districts in another district shall be enclosed to the Registrar of that district, together with the copy required for his own office; but no memorandum need make mention of any property other than that which is situated in the sub-district to which the memorandum is to be sent.

74. When a copy of a document is sent to the Registrar of another district under sections 65-67 of the Act, a memorandum need not be sent to any Sub-Registrar whose office has been amalgamated with that of the Registrar of such district.

75. The date on which copies and memoranda are despatched under the last rule shall be entered in the right-hand margin of the book in which the document has been copied.

76. When a memorandum or copy under sections 64-67 is transmitted from one office to another, it shall be accompanied by a receipt in the prescribed printed form, which shall at once be signed and returned by the receiving officer. If delay occurs in the return of the receipt, the despatching officer should take for it. All such receipts, when returned, should be filed separately.

77. The copies and translations of documents required to be filed under sections 19 and 62 shall be made upon hand-laid medium paper. They shall be kept in a separate file, a reference being made to this in the right-hand margin of the page on which the translation is copied in the register book. The file shall be bound from time to time, when it contains a sufficient number of copies and translations to form a volume. For the purposes of this rule the requisite paper may be sold to the public at one anna per sheet.

Indexes.

Index of persons.

78. The personal index, No. I, shall contain the following headings:—

- (1) Name of person.
- (2) Addition.
- (3) Interest in the transaction, as purchaser, mortgagee, decree-holder, &c.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

Index of places.

79. The local index, No. II, shall contain the following headings:—

- (1) Name of property or of mouzah; or, in towns, of street.

- (2) Name of pergunnah or thana.
- (3) Sub-district in which the property is situated.
- (4) Nature of the transaction, as sale of land, decree for possession of house, &c.
- (5) Where registered.
- (6) Serial number.
- (7) Book.
- (8) Volume.
- (9) Page.

80. Index No. III shall contain the following headings:—

- (1) Name of person.
- (2) Addition.
- (3) Interest in will or authority to adopt.
- (4) Where registered.
- (5) Serial number.
- (6) Book.
- (7) Volume.
- (8) Page.

Miscellaneous Index.

81. Index No. IV shall contain the same headings as Index No. I.

82. Except in rural offices in the charge of Sub-Registrars unacquainted with English, all indexes shall be kept in that language, and shall be prepared in accordance with the following rules:—

83. English indexes shall be kept according to the letters of the alphabet, the entries under each letter being arranged according to the vowel of the first syllable if the word begins with a consonant, or according to the second vowel in the word if it begins with a vowel.

84. If the documents to be indexed are written or executed in English, the names of the persons and places shall be spelt in the same way in which they are written in the documents. If the documents are written or executed in a vernacular language, the spelling shall be regulated according to Professor H. H. Wilson's system of transliteration, as modified by the Syndicate of the Calcutta University.

85. In the case of Europeans the surname shall be taken as the index word. All native names shall be indexed according to their first letters as they stand in the deed.

They will be transliterated in the same form in which they are written in the document. Thus in Bengali the same affix may be written, either Bânirjya or Bandopadhyây, and whichever of these forms is used in the document will be retained and transliterated.

86. When a document is executed on behalf or in favour of Government, the index entry shall be made under *G, Government*, the name of the officer executing the document being entered in the column headed *Addition*; if on behalf or in favour of the Court of Wards, under *W, Wards, Court of*; and in the case of any other Court, under *C*. The names of companies shall be entered as they stand, the article only being omitted; thus *Land Mortgage Bank of India, Limited*, under *L*; *Ganges Steam Navigation Company, Limited*, under *G*.

87. The name of the depositor of a sealed cover shall be entered in Index III, in black ink. The name and addition of persons claiming under

a will or authority to adopt, *which will be indexed after the death of the testator or donor*, should be entered in red ink.

88. When there are two or more executants or claimants, their names shall be separately entered in Index I, III, or IV.

Similarly, when two or more properties are conveyed by a single document, they shall be separately entered in Index II. But no Sub-Registrar need enter in his Index II any property which does not lie in his own sub-district.

89. Copies and memoranda of documents shall be indexed in the same way as original documents, but the entries relating to them shall be made in red ink.

90. In rural offices in the charge of Sub-Registrars unacquainted with English, the indexes shall be kept in the vernacular. The rules given above apply to indexes in the vernacular. In all rural offices one copy of Indexes I, II, III, and IV shall be made for office use in a bound volume, and a duplicate of the entries made each month in Indexes I and II shall be submitted at its close to the Sub-Registrar at sub-divisional head-quarters. In the head-quarters sub-division, and wherever the sub-divisional system has not yet been introduced, the duplicate will be sent direct to the Registrar for record.

91. The Sub-Registrar, on receiving vernacular Indexes I and II from rural Sub-Registrars, shall translate the same and incorporate them in his own indexes, noting the place of registration of each document; English indexes he shall directly incorporate in his own. He shall also at the end of each year, or at such shorter intervals as the Registrar shall direct, prepare on hand-laid medium paper a copy of the incorporated index for all offices in his sub-division, and submit it to the Registrar.

92. Where the office of a Registrar has been amalgamated with that of a Sub-Registrar, the duplicate copy of the incorporated indexes of the superior executive sub-division shall be sent for safe custody to the office of the Registrar of Calcutta.

Fees and Fee-Book.

93. A printed table of fees in English and the vernacular of the district shall be suspended in some conspicuous place in every registry office.

94. Columns 1 to 7 and 13 in the fee book should be filled up as soon as any document is presented, except in the case of documents presented at the wrong office and returned immediately under rule 64; columns 8 and 9 should be filled up as soon as a document is admitted or refused; columns 10 and 11, as soon as registration has been completed; column 12, as soon as the document has been delivered; and column 14, as soon as the required copies and memoranda have been despatched.

95. Fees levied on documents presented for registration (whether registration has been deferred or not) shall not be retained in the personal custody of any registering officer for any time longer than may be absolutely necessary. They shall be dealt with in the same way as other

public money, and be paid into the nearest treasury. From district and sub-divisional offices the fees shall be remitted to the treasury daily; from rural offices they shall be sent to the treasury at such intervals as the Registrar shall direct. In all cases remittances to the treasury should be accompanied by the chalan book, duly filled up in duplicate. One copy of each chalan will be then kept by the treasury officer and the other returned with his signature.

96. The receipts entered in the fee-book need not be entered in detail in the cash book: their daily totals will be sufficient; but all other receipts, and all payments whatsoever, must be entered in full detail in the cash-book. All cash received must at once be entered either in the fee-book or in the cash-book. No money should under any circumstances be kept out of account. The cash-book should be balanced every day, and signed after careful examination by the registering officer.

Records.

97. The Registrar's office shall be a central office of record in each district, and the books and papers of subordinate offices (which are not to be destroyed) shall be transferred to it from time to time.

98. The following records belonging to the period anterior to the enactment of Act XVI of 1864 shall be henceforward permanently preserved in district registry offices:—

All registers of documents and their indexes. Duplicate copies of documents required to be filed under Regulation XX of 1812.

Registers of powers-of-attorney.

Original powers required to be filed under Regulation XX of 1812.

Kazis' records.

99. Besides Register Books I, II, III, and IV, and Indexes I, II, III, and IV, the following records shall be kept in all registry offices:—

A register of powers-of-attorney in the prescribed form.

A register of visits and commissions in the prescribed form.

A fee-book in the prescribed form.

A cash-book in the form prescribed by Accountant-General.

A catalogue in the prescribed form.

A chalan-book in the prescribed form.

A file of receipts given under section 52 and returned on delivery of registered documents.

A file of receipts for copies and memoranda under rule 76.

A file of daily notices exhibited under rule 141.

100. The following additional books shall be kept in the offices of all District Registrars:—

Register Book No. V

A register of letters received.

A register of letters despatched.

101. In January of each year the following records for the previous year shall be transferred from sub-registry offices to the district office :—

Transfer of books.

Completed volumes of Register Book I (including the file of memoranda).

Completed volumes of Register Book IV and Index IV.

Copies and translations filed under section 19.

102. Register Books II and III, Index III, and the register of powers-of attorney shall be transferred to the district office as soon as they are filled.

103. In the case of all rural offices, and wherever the sub-registry office is not a masonry building, each volume of the register books shall be forwarded to the district office as soon as it has been filled and indexed, without waiting till the end of the year.

104. For the period since Act XVI of 1864 came into force, the following records shall be preserved in perpetuity in all district offices :—

Records to be preserved in perpetuity.

All register books and their indexes prescribed by Acts XVI of 1864, XX of 1866, VIII of 1871, and III of 1877, as well those of the district registry offices as those received from the sub-registry offices.

Registers of powers-of-attorney.

Catalogue.

Cash-book.

Fee-book.

Reports of the destruction of records and lists of the papers destroyed.

105. The following records shall be preserved in perpetuity in all sub-registry offices :—

Register Book III under Act XVI of 1864, and Book V under Act XX of 1866.

The rough indexes under Act XVI of 1864 Original Indexes I and II under Acts XX of 1866, VIII of 1871, and III of 1877.

Catalogue.

Cash-book

Fee-book.

106. When a registered document is destroyed under section 85, a note to that effect shall be made in the margin opposite the copy in the book in which it is registered.

Section 85

107. The following records may be destroyed after the expiration of three full years from the period to which they relate :—

Records to be destroyed after three years.

Registers of visits and commissions.

Chalan-books.

The receipts referred to in section 52.

Receipts referred to in rule 76

All correspondence, whether in English or in the vernacular, which is of an ordinary routine character, and which the Registrar considers may be destroyed.

Monthly returns, petitions, and other records and papers not otherwise specified.

108. No documents, books or papers whatever shall be destroyed at a sub-registry office, without the previous sanction of the Inspector-General; and before documents are destroyed an endeavour must always be made to induce the presentants to take them back.

109. The register books and indexes of the general registry offices under Act XVI of 1864 and Act XX of 1866 shall be preserved in the Calcutta registry office.

Applications for Search or Copies.

110. All applications for search or for copies should be made to the registering officer himself. If an application is made in writing, the registering officer should initial it at once, giving the date. If an application is made *vid voce*, the registering officer should write on a slip of paper, "Give copy," or some such brief order, adding his initials and date. All such applications and orders should be preserved on a separate file, the date on which a search has been made or copy completed being noted. Applications made through Sub Registrars for copies from registers deposited in the district office must be in writing, and should be at once transmitted to the Registrar for compliance. No stamp is required on applications for searches or copies.

111. Registrars shall permit search and grant copies of entries in the registers kept up previous to the enactment of Act III of 1877 at the same rate of fees and to the same extent as in the case of registers under that Act.

112. A call for information from any court or revenue authority shall, if it necessitates search in the registers, be accompanied by the necessary fee for search. Officers of Government shall be permitted to inspect the registers without fee; but if the production of a register book in any court is required, it shall be produced by an officer of the registration establishment deputed for that purpose, who will be entitled to claim payment of his expenses like any other witness.

Indents.

113. Before the 1st of September of each year every Sub-Registrar shall submit to the Registrar to whom he is subordinate an indent in the prescribed form for all register books and other registration forms which will be required in his office during the following calendar year.

114. Every Registrar shall submit to the Inspector-General before the 15th September of each year an indent in triplicate in the prescribed form for all register books and other registration forms which will be required for his own office and those of the Sub-Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom he is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in triplicate with the Registrar's endorsement, instead of being embodied in the Registrar's indent.

115. When delay occurs in supplying register books and other registration forms, reminders should be addressed, not to the Inspector-General of Registration, but to the Superintendent of Stationery, the number of this office order being quoted. Reminders are useless without it.

116. Indents for the forms enumerated below, which have been prescribed by the Accountant-General, should be submitted in duplicate in March of each year direct to the Superintendent of Stationery.

1A.—Accountant-General's form of indent form.

116.—Commission list of Sub-Registrars.

117.—Salary list of gazetted officers of the Registration Department.

118.—Salary list of sanctioned establishments of the Registration Department.

119.—Bill for contingent charges of the Registration Department.

120.—Travelling allowance of Registrars.

121.—Travelling allowance of ministerial officers of the Registration Department.

128.—Bill for refund of registration fee for sub-divisional and rural sub-registry office.

138.—Detailed bill of contingent charges for countersignature.

141.—Leave statement.

151.—Form of acknowledgment of permanent advance.

183.—Cash book of registration.

184.—Acquittance roll of establishment.

117. Rural Sub-Registrars may be supplied with registration ink and other stationery from the district office at cost price, which should be ascertained from the Superintendent of Stationery. The hand-laid medium paper required for copies under sections 64 and 65 will be supplied to them gratis. They are also supplied with registers, index books, and printed forms free of charge.

The cost of sending the registers, &c., from the Stationery Office to the offices of rural Sub-Registrars which are situated at a distance from Calcutta is borne by Government, and the charge met from the provision made in the budget for the Registrar's office contingencies.

118. Before the several dates noted below all District Registrars should send to the Superintendent of Stationery an indent in duplicate in the prescribed form for the stationery (including registration ink) which will be required for the registry offices in their districts during the next twelve months; indents from Sub-Registrars should be submitted to the district office at least fifteen days before these dates. The Registrar's indent should include all ink and other stationery likely to be required by rural Sub-Registrars under rule 117, above.

JUNE.—Patna, Bhugulpore, and Rajshahye Divisions, except the district of Rajshahye.

JULY.—Dacca, and Cooch Behar Divisions.

SEPTEMBER.—Calcutta offices.

OCTOBER.—Chittagong Division.

NOVEMBER.—Presidency and Burdwan Divisions and the Rhishahye district (Rampore Beaulah).

DECEMBER.—Chota Nagpore and Orissa.

Permanent Advance.

119. A permanent advance, not exceeding Rs. 200, will be allowed for each District Registrar on account of (1) contingencies, (2) service postage, and (3) refund of registration fees; but he need not draw the full advance of Rs. 200 where his ordinary expenses fall much below that amount. The Registrar will apportion the amount drawn according to the require-

ments of each subordinate office, care being taken that a sum is allowed sufficient to meet charges for refunds only; because in the case of rural offices contingent charges will be defrayed by the rural Sub-Registrars, and in other sub-registry offices they should be met from the advance for general purposes received from the Accountant-General. In cases of the dismissal or death of rural Sub-Registrars, the District Registrars will be held responsible for the amount of the advances made by him. At the close of each official year the District Registrar will send an acknowledgment of the entire advance to the Accountant-General, Bengal, in A. G. B. form No. 151, of which a supply should be kept at hand.

120. The advance received by a Sub-Registrar will never be repaid into the treasury, but recouped from time to time, when necessary, by the submission to the Registrar of an abstract bill or bills supported by needful vouchers. On the first office day after the 25th March in each year the officer receiving the advance will forward an acknowledgment of its receipt to the District Registrar. Whenever there is a change of incumbency, the relieving officer shall also address to the Registrar an acknowledgment in the following form:—

"To the Registrar of

"We, the undersigned, have the honor to report that we have this day, at o'clock in the forenoon (or *afternoon*), respectively made over and received charge of the office of

"Relieved Officer.

"Relieving Officer."

"And I, the Relieving Officer, acknowledge to have received Rupees of the permanent advance of Rupees, and that the full amount of such advance is due from and to be accounted for by me.

"Dated the

18 .

"Relieving Officer."

Salary Bills.

121. Registrars and Sub-Registrars who are paid by fixed salaries will draw their pay in Accountant-General's form No. 117, and the bill may be paid without the countersignature of superior authority.

122. Sub-Registrars who are wholly or partly remunerated by a percentage on the fees will draw their commission at the end of each month, in Accountant-General's form No. 116, at such rate as may have been sanctioned by Government, but upon such fees only as shall have been actually paid into the treasury. In calculating commission, the fees levied on documents which are still pending at the close of the month shall be excluded; but if the documents be eventually registered, the fees previously credited in respect of them will be brought into the commission account for the month in which they are registered. No commission is payable on fines, or on the extra fees for registration by a Registrar, or on the receipts for the sale of paper. Commission bills require the Registrar's countersignature before payment.

123. When an officer is temporarily placed in charge of the office of a Special Sub-Registrar during his absence on inspection duty in the interior of his district, he is not entitled to draw

commission, which the Special Sub-Registrar retains.

Establishment Bills.

124. Salary bills for permanent establishments will be drawn in Accountant-General's form No. 118 by the head of the office. They do not require the countersignature of higher authority.

125. Bills for extra establishments paid by salary may be drawn in the same way as those for fixed establishments, the orders sanctioning their entertainment being always quoted in the bill.

126. Bills for wages of extra writers paid at contract rates require the countersignature of the Inspector-General before payment. Whenever special establishments are entertained, whether they are paid by salary or at contract rates, a weekly progress statement must be submitted to the Inspector-General in printed form No. 34A.

Contingent Bills.

127. A register of contingent expenditure shall be kept in each office, and the initials of the head of the office shall be entered against the date of the payment of each item.

128. The disbursing officer, that is the officer who draws a bill for contingent charges and is responsible for the due disbursement of the amount, may be left to deal with vouchers for items not exceeding ten rupees, attaching to his contingent bill a certificate in the following form:—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided. I have satisfied myself that the charges entered in this bill have been really paid. Vouchers of all sums above Rs. 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for smaller sums, and am personally responsible that they have been so destroyed that they cannot be used again, except the vouchers for service postage labels, which are herewith sent."

129. When the bill of a disbursing officer is countersigned, vouchers for sums above Rs. 10 and not exceeding Rs. 100 shall be examined, cancelled, and retained in the office of the countersigning officer.

The following certificate is prescribed for the countersigning officer:—

"I certify that in support of every charge of more than Rs. 10 made in this bill a receipt or other voucher in proper form has been given to me and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot again be used to support claims against the Government, except the vouchers for service postage labels, which are herewith sent."

130. The salary of sweepers cannot be charged to contingencies. The wages of punkah-pullers may be so charged when their employment has been sanctioned.

131. No charges for printing may be incurred without the special sanction of the Inspector-

General. Such printed forms as are necessary will be printed at the Alipore Jail Press under the authority of the Inspector General.

132. English stationery procurable from the Stationery Office may not be purchased in the local market, but charges for petty articles, such as sealing-ink, paste, thread, country paper, &c., may be included in the monthly contingent bill.

133. Sub-Registrars' contingent bills should be presented for payment at the end of each month, and if the total charge does not exceed Rs. 10, the Registrar's countersignature is sufficient for audit. All charges for service postage labels, however small, must be supported by vouchers, and require the countersignature of the Inspector-General.

134. Registrars' contingent bills not exceeding Rs. 10 in amount do not require countersignature.

135. When the expenditure during any month on account of contingencies, service postage, and refunds in any Registrar's office exceed the amount of the permanent advance, the amount expended may be drawn by an abstract bill or bills (*see* Accountant-General's form No. 119) submitted during the month under the Registrar's signature. But in such cases a detailed bill (*see* Accountant-General's form No. 138), accompanied by vouchers, must also be submitted to the Inspector-General at the end of the month.

Miscellaneous.

136. When the executant of any document appears personally, he shall be required to attest all interlineations, &c. When he appears by agent, &c., the attestation of such agent, &c., shall be accepted, unless the interlineations, &c., are of an important character. A registering officer shall also be at liberty, on due cause being shown, to accept the attestation of an agent, &c., in case of important interlineations, &c.

137. When a document is presented or admitted more than four months after execution, the Registrar may either register it himself, in which case an extra fee under heading K as well as the penalty under heading O shall be levied, or he may direct its registration (on payment of the penalty under heading O) by any Sub-Registrar in whose office it could have been registered if presented within four months. In such cases the date on which the application was made to the Registrar shall be regarded as the date of presentation.

138. Every Sub-Registrar shall sit daily during certain hours which shall be approved by the Registrar and made known to the public by a notice in some conspicuous place outside the office. The holidays to be observed in registration offices shall be the days on which the Bank of Bengal is closed by notification in the *Calcutta Gazette*.

139. Applications for the remission of fines under section 70 may be filed with the registering officer, but no such application shall be received until the fine has been paid. The application shall be forwarded to the Inspector-General with

any remarks which the registering officer may wish to make.

140. Registering officers shall take care that their clerks have no dealings with the public, except in their presence. They shall themselves receive documents which are tendered for registration, and when they are registered, shall return them with their own hands.

141. The serial number of the last document completed and ready for return shall be daily exhibited in the prescribed printed form in some conspicuous place outside every office.

142. A catalogue in the prescribed form shall be kept up and permanently preserved in every registry office. On the occasion of every permanent change in the incumbency, the officer receiving charge should compare his books with the catalogue, and certify therein that he has found them correct.

143. All official letters and covers sent by post from any sub-registry or district registry office must be prepaid by service labels. These labels will be supplied to Sub-Registrars (on application) by District Registrars, who will disallow unreasonable and excessive demands. A monthly statement of the distribution of service labels should be submitted by each District Registrar for the information of the Inspector-General. The cost of these labels will be met from the consolidated advance mentioned in rule 119. Service labels will be purchased by District Registrars as they require them, the expenditure being included in their monthly contingent bill, supported by the Treasury Officer's receipts as vouchers.

144. Bills, monthly returns, and regular indents should not be accompanied by covering letters. The envelopes containing them should be marked "Returns." Letters and urgent indents should be separately sent.

145. A duplicate bill should never be submitted unless the original is lost in transit or otherwise, in which case a certificate should be attached to the effect that the bill has not been cashed at the treasury.

146. Travelling allowances of registering officers and their clerks will be drawn in Accountant-General's forms Nos. 120 and 121 respectively; and in both cases they must invariably be submitted to the Inspector-General for countersignature before payment, whatever may be the amount of the bill.

147. When ministerial officers of the department are deputed to give evidence or to produce records before any court, application for the payment of their travelling expenses should be made to the court.

148. House and office rent sanctioned by Government may be drawn by the head of the office without the countersignature of higher authority, the number and date of the Government order being always quoted on the bill.

149. Office furniture must not be purchased without the sanction of the Inspector-General. An estimate of the probable cost should accompany all applications for such sanction.

150. The security bonds of head-clerks should be examined at the close of each financial year, the result being reported to the Inspector-General.

[Third Publication.]

NOTIFICATION.

The 4th August 1877—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Bagjulla, in the district of 24-Pergunnahs, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of the Bengal Municipal Act V (B.C.) of 1876, to sanction the imposition from 1st October 1877 by the Commissioners, under Section 122 of the Act, of a tax on carriages, horses, and other animals mentioned below at the rates specified against them respectively :—

				Per quarter.		
				Rs.	A.	P.
For every four-wheeled carriage drawn by two horses	1	8	0
Ditto ditto drawn by one horse or a pair of ponies under 13 hands	1	4	0
For every two-wheeled carriage	1	0	0
Ditto horse	1	0	0
Ditto pony under 13 hands, mule, or donkey	0	6	0
Ditto elephant	6	0	0
Ditto camel	2	0	0

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 4th August 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Joynuggur, in the district of 24-Pergunnahs, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept within the Municipality, and the levy from 1st October 1877 of a fee upon every cart for such registration at the rates mentioned below :—

For every cart kept within the Municipality Rs. 2 per annum, or Re. 1 per half-year.

S. C. BAYLEY,

Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 6th August 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Deoghur, in the district of Sonthal Pergunnahs, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of the Bengal Municipal Act V (B.C.) of 1876, to sanction the imposition from the 1st October next by the Commissioners, under Section 122 of the Act, of a tax on carriages, horses, and other animals mentioned below at the rates specified against them respectively :—

				Per half-year.		
				Rs.	A.	P.
For every four-wheeled carriage drawn by two horses	4	8	0
Ditto by one horse or a pair of ponies under 13 hands...	3	0	0
For every two-wheeled carriage	2	8	0
Ditto horse	2	0	0.
Ditto pony under 13 hands and for every mule and donkey	0	12	0
Ditto elephant	6	0	0
Ditto camel	2	0	0

3. The Lieutenant-Governor has been also pleased to sanction, on the recommendation of the Commissioners, the registration by them, under Section 133 of the Act, of all carts kept or habitually used within the Deoghur Municipality, and the levy, under Section 134, from the 1st October 1877, of fees upon every cart for such registration at the rate mentioned below :—

On every cart Rs. 2 per annum.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 7th August 1877.—It is hereby notified that the Lieutenant-Governor has been pleased to sanction the extension of the provisions of Section 34 of Act V of 1861 to the town of Phoolwaree, in the Sudder sub-division of the district of Patna.

S. C. BAYLEY,
Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION.

No., 221.

The 20th August 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Patna, Gya, Shahabad, Mozufferpore, Durbhunga, Sarun, and Chumparun, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Patna Division, are published for general information.

G. A. D. ANLEY, C.E.,

*Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.*

No. 969LD, dated Bankipore, the 12th November 1876.

From—A. C. MANGLES, Esq., Magistrate of Patna,
To—The Commissioner of the Patna Division.

IN forwarding herewith the annual statements of receipts and disbursements of the Patna Road Fund for the cess year 1875-76, ending 30th September 1876, I have the honor to submit as follows.

2. In submitting this report I find the same difficulty as that experienced by me last year in making it of any interest, owing to the small amount of means that we had at our disposal; and though it may be said that our receipts were considerably in excess of our expenditure, this is accounted for by the Executive Engineer, who, in his forwarding letter, says:—

“Owing to the want of sufficient establishment during the year, the repairs to the roads could not be carried out fully to the extent provided in the budget allotments and estimates, nor could the roads be kept in the order they might have been under additional supervision.”

3. Even supposing that the whole sum we had at our disposal had been expended, that would have added no additional interest to this report, as it would all have been expended on existing roads, and the only difference would have been that in the statements submitted extra earth-work would have been shown on this or that road and extra metal on others.

4. I had been in great hopes that we should have been in a position to show a marked improvement in the course of the current year now that the road cess has been introduced and our receipts consequently much increased; but my hopes are gradually dying away as week after week passes and with them our working season, and yet no engineer appointed or sanction given to the proposed establishment.

5. In the meantime, however, I have directed the Executive Engineer, Mr. Duell, to keep the work in his own hands and to have two sets of estimates prepared—one for the usual repairs of the roads under the old system, and the other for improvements on the same, —if time permits, with the extra money that we have at our disposal.

6. On the whole, however, I shall not be sorry if at the close of the current year we find a large balance to our credit, as that, with the collections of next year, will enable us to undertake some really useful and permanent works after careful inquiry into their utility as compared with other proposed works, instead of frittering away the money on all the roads generally throughout the district.

7. During the year under report seven meetings of the Committee were held, and the annexed statement will show the dates on which they were so held, the number of members present, and the nature of the business which was transacted at each of them:—

Date of meeting.	Official members present.	Non-official members present.	Description of works done.
11th December 1875,	4	2	To determine what amount the Committee of this district should demand from Mozufferpore district as a grant for maintenance of steamer.
8th May 1876	6	6	For selection of Vice-Chairman for the District Road Committee.
22nd „ „	4	3	To fix the scale of establishment for the district road works.
29th „ „	3	5	For the preparation of statement of roads and bridges under Section 66 of Act X of 1871 (Road Cess Act).
5th June „	4	6	The statement prepared under Section 66 was passed by the Committee under Section 67 and forwarded to Commissioner to apply to Government to fix a month to convene a meeting under Section 70 of the Act, to enable the members to prepare the estimate.
18th August 1876	5	6	Budget estimate having been laid before the members and passed by them, it was determined to levy the land cess for 1876-77 at half rate.
13th September 1876 ..	4	4	To nominate engineer and other establishment.

8. With the exception of showing considerable interest regarding the rate at which it was proposed to impose the cess, I am afraid I cannot say that the non-official members of the Committee concerned themselves much in other matters, but left them to the officials to deal with as they considered best.

9. The receipts during the year, including the balance at the close of 1874-75, were as given below in detail, amounting to Rs. 57,833-15-3, whilst the expenditure, as also given in detail, amounted to Rs. 57,833-15-1.

10. Of the amount expended Rs. 25,622-6-6 passed through the hands of the Executive Engineer, while the balance, amounting to Rs. 9,951-9, was expended by the Magistrate.

11. It was not considered necessary during the year to call in the assistance of sub-divisional officers or zemindars for the reasons given in my last year's report.

12. No new lands were acquired for the purposes of road-making during the year.

13. I had omitted to say that the roads in the western part of the district were much injured in the month of July last by an unusually high flood in the Sone, and the consequent bursting of the canal embankments in more than one place. The injuries were temporarily repaired as soon as the state of the country would permit of it, and permanent repairs will be effected in the course of this working season.

Memorandum of Receipts and Expenditure on account of District Road Fund during the year 1875-76, as referred to in paragraph 9 of this letter.

RECEIPTS.					Rs.	A.	P.
Balance on the last day of September 1875					15,931	11	0
Road Cess Funds	2,178	11	3
Road cess leviable otherwise than under the District Road Cess Act	986	15	4
Road tolls	2,375	7	8
Ferry tolls	30,634	15	6
Amount received from Government as loan to meet the expenditure of the road cess establishment	2,500	0	0
Sale of produce and stores	158	11	0
Finds and refunds	0	7	6
Miscellaneous, viz. receipts from dāk bungalows	1,567	0	0
Amount received as contribution from Mozufferpore	1,500	0	0

EXPENDITURE.					Rs.	A.	P.
Expended by the Executive Engineer	25,622	6	1
Road cess establishment, including contingent charges	5,480	3	8
Dāk bungalow establishment	468	0	0
Magistrate's office establishment, including mehter at Mussoree serai	884	0	0
Furniture, municipal tax, and repairs of Barh dāk bungalow	331	11	9
Cost of repairs of Government steamer No. 8 and supply of stores, &c.	2,479	4	1
Refunded to the ticcadar of Futwa gate	308	5	6
Balance in hand on the last day of September 1876	22,260	0	2
Total	57,833	15	3

No. 3174, dated Bankipore, the 6th November 1876.

From—M. P. B. DUKLL, Esq., C.E., Executive Engineer, Patna Division,
To—The Magistrate of Patna.

WITH reference to your letters Nos. 889LD and 906LC of 27th and 28th ultimo, I have the honor to submit a statement showing the expenditure that has been incurred on each of the district roads during 1875-76, also 37 completion reports of the works executed on the roads.

2. Owing to the want of sufficient establishment during the year, the repairs to the roads could not be carried out fully to the extent provided in the budget allotment and estimates, nor could the roads be kept in the order they might have been under additional supervision.

3. The Sone river overflowed its left bank in July and greatly injured the roads in the western part of the district.

4. The flood breached the canal embankments at several places near Mohabulipore, but the canal stopped the flood to a considerable extent in its course eastwards to the Poon Poon, and having diverted the current northwards to Khagoul, submerged the country around Nabulpore to an unusual extent, and softened and cut the roads at places where no injury had been caused previously by the natural overflow of the river.

5. I regret I cannot furnish a statement of receipts for the year, as the data for such a return can only be obtained in your office. There are no records in this office to show the District Road Fund receipts, and heretofore, when an account was prepared in this office in communication with your accountant, the statement of receipts was found to be incorrect.

6. Adverting to Commissioner's letter No. 24J of 18th January 1876, I beg to suggest that the information therein called for can only be furnished by you, as the letter has apparently no connection with this office.

No. 6.—Part I.

BANKIPORE, the 9th November 1876.

O. A. WILKINS, *Vice-Chairman.*

No. 104, dated Gya, the 27th January 1877.

From—F. M. HALLIDAY, Esq., Magistrate of Gya,
To—The Commissioner of Patna Division.

WITH reference to your No. 15J, dated 16th instant, I have the honor to report as follows on the several points therein noted:—

1. It has been already reported that the District Committee met twice during the year for the consideration of matters connected with the administration of the fund, such as the consideration and passing of the budget estimates, the determination of the extent and the nature of the works to be undertaken during the year. The Committee worked generally in concert with the views of the Chairman, and the business of the meetings was transacted in a satisfactory way. The majority of the members showed an intelligent interest in the work of the Committee.

2. Owing to want of funds no difficult roads were undertaken during the year under report, and hence no special action was taken in that way.

3. No special assistance was required from any zemindars of the district in the matter of giving lands for construction of road works.

4. The works and repairs carried out in the Aurungabad sub-division were all executed under the immediate orders of the sub-divisional officer, the late Mr. Langdon. The repairs done to the roads lying in the Jehanabad and Nawada sub-divisions were executed by the officers of the Public Works Department, under the occasional supervision of the sub-divisional officers.

5. The amounts expended by the civil officers, and through the agency of the Public Works Department, are respectively as noted below:—

	Rs.	A.	P.
Expended by civil officers	4,113	5	0
Ditto by Public Works Department officers ...	18,864	4	10

(a) As reported in paragraph 7 of this office No. 34 of 11th instant, the original assignment made to this district in aid of the road fund was Rs. 1,000, of which Rs. 5,000 was drawn, and the remaining moiety was subsequently withdrawn by Government. But a further sum of Rs. 273 was granted in adjustment of certain outstanding famine accounts of the preceding year, and was, under instructions from the Examiner of Accounts, shown as a grant-in-aid; strictly speaking, therefore, the total Government grant was Rs. 5,273.

(b.) Under instructions from the Examiner of Accounts conveyed in his letter No. 396D of 15th July 1876, the sum of Rs. 1,398-9-3, both credited and debited to "Refunds" during the month of February 1876, was struck out from both sides of the second quarter's return. Hence the difference between the quarterly returns submitted to your office and the annual accounts.

(c.) The sum of Rs. 1,649-4-1, representing compensation paid for lands taken up for the Rapiganj road, was originally charged in the quarterly return under head "Refunds;" but, under instructions from the Examiner of Accounts, the amount was struck off from the head "Refunds" and added to the sum under head "Original works." Hence the difference noticed.

No. 34, dated Gya, the 11th January 1876.

From—F. M. HALLIDAY, Esq., Magistrate of Gya,
To—The Commissioner of Patna Division.

I HAVE the honor to forward a statement of income and expenditure of the District Road Fund for the past cess year, and to report as follows.

2. The Road Cess Committee met twice during the year for the consideration of estimates and accounts and other matters connected with the administration of the fund.

3. In the first meeting, which was held on 6th November 1875, the budget estimate of works proposed to be carried out during the year 1875-76, and amounting to Rs. 1,07,000, was passed; and as the anticipated receipts of the fund were found to be insufficient to meet this expenditure, it was proposed to apply for the loan of Rs. 30,000 from Government, payable from first year's collection of the cess. It was, however, ruled by Government in November 1876 that no loans would be granted unless the works involved can be shown to be of a remunerative character. Accordingly, it was found necessary to revise the estimate with reference to the funds at the disposal of the Committee.

5. A revised estimate was drawn up and submitted to your office on the 6th May. In this estimate a sum of Rs. 14,000 was entered as anticipated proceeds of the road cess during the year. But later on in the year it was found that the road cess collections would not begin before 1st January 1877, and an amended budget estimate was again submitted on 21st October 1876.

6. The preliminary operations for the introduction of the road cess have now been completed, and collections have begun.

7. A sum of Rs. 10,000 was, at the commencement of the year under report, sanctioned by the Government as a grant-in-aid for district works. Of this sum Rs. 5,000 was drawn and credited to the fund on 23rd October 1875, and the remaining moiety of the

Government resolution in the Public Works Department, No. 1736, dated 8th April 1876, received with Commissioner's No. 92J, dated 17th idem.

grant was subsequently withdrawn under Government orders quoted in the margin. It was thus found that the funds at the disposal of the Committee were not sufficient to carry on the works according to the original estimates passed by the Committee. An application was therefore made for an advance of Rs. 14,000 from Government, payable from the first year's collections of the road cess. But this was refused as untenable under the rules in force, and it was suggested that an advance on account of establishment charges might be applied for if necessary. This was done, but not till after the close of the cess year; and a sum of Rs. 5,000 was sanctioned by Government as an advance for establishment charges. In the meantime, however, the works of the district were retarded considerably owing to want of funds at the disposal of the Committee, and several works in progress had to be altogether stopped.

8. This state of things will cease after the first year's collections of the road cess have been got in, for then the Committee will have ample funds at their command to carry on works proportioned to the requirements of the district.

9. The annual account shews that above Rs. 10,000 have been expended during the year on original works, consisting chiefly of small bridges and culverts on certain roads which urgently needed them. The Parya road has been extended to Rafiganj, and a beginning has been made of the Pemar bridge on the Nawada road, although the regular plans and estimates for the same had to be revised many times, and have not yet been finally approved of by Government.

10. The existing fair-weather roads have been maintained in repair at a cost of Rs. 12,122, as shown in detail in the statements. Portions of the Nawada road and of the Jehanabad-Arwal road were raised, and the former was thoroughly repaired. The earthen sides of the entire length of the Behar-Rajauli road were raised and repaired, and the metalling of a portion of the Daudnager road was renewed. To the rest of the roads petty repairs were done according to their requirements.

11. Full details of the establishment charges incurred during the year have been given in the statement, and do not require further notice.

12. Two tents were procured during the year at a cost of Rs. 509 for the use of the officers of the Public Works Department employed on district works, and fresh tools for use on district works were also provided at a cost of Rs. 345.

13. The total expenditure on district works during the year under report has been kept within the receipts of the fund.

No. 95, dated Arrah, the 22nd February 1877.

From—W. S. WELLS, Esq., Magistrate and Chairman, Road Cess Committee, Shahabad,

To—The Commissioner of the Patna Division.

I HAVE the honor, in accordance with paragraph 3 of Government circular No. 50 of 1873, to submit the annual report on local improvements for the cess year ending 30th September 1876.

2. The gentlemen marginally named were appointed members of the Committee under

The Magistrate and Collector of Shahabad, Chairman ...	} <i>ex officio.</i>
The Senior Covenanted Officer under the Magistrate and Collector ...	
The Executive Engineer ...	
The Road Cess Deputy Collector ...	
H. C. Levinge, Esq., Superintending Engineer, Sone Circle.	
C. Fox, Esq., Manager, Doonraon Raj.	} <i>Zemindars.</i>
J. Mylne, Esq. ...	
E. Solano, Esq. ...	
K. Mackenzie, Esq. ...	
M. Fox, Esq. ...	
Baboo Ram Coomar Singh ...	
" Hurbun Sahoy, Pleader.	
" Huribur Sarun Singh ...	
" Mahabeer Pershad ...	
" Birj Behari Pershad ...	
" Kunkur Singh ...	} <i>Traders.</i>
" Shanker Doyal Sing ...	
" Boj Nath Sahoy ...	
Meer Mahomed Jan ...	
Moulvie Taki Uddin Ahmed ...	
Syed Mahomed Abdul Haje, Manager, Court of Wards.	
Quazee Mahomed Yahoar Alam, Pleader.	
Baboo Sant Pershad, Pleader and Zemindar.	
" Boj Nauth Pershad ...	
" Bhugwan Dass ...	
" Tulshi Sahoo, of Golundi ...	

sections 49 and 51 of Act X of 1871 by Government notification dated 14th July 1875. Messrs. Levinge and C. Fox, however, left India for Europe early in the year under report. Mr. Mackenzie has stated his inability to work as a member on the District Committee owing to the distance of his place of residence from the sudder station, and Mr. Solano has virtually left the district preparatory to proceeding to Europe. There were 22 effective members of this list who left, of whom only four were holding salaried offices under Government.

It should be assumed that these gentlemen have resigned on the dates they leave the district for an absence of say over three months,

otherwise it will be simply impossible, with the names of a number of ineffective members, to obtain a legal quorum, as one-third of the roll *must* be present to form it.

The Road Cess Act, X of 1871, was only extended to this district in August last.

3. Three meetings were held during the year, the last two of which were fairly attended; but the following members failed to be present at *any* of the meetings:—

Baboo Huribur Sarun Singh.
" Mahabeer Pershad.
" Birj Behari Pershad.

Baboo Kunkur Sing.
" Tulshi Sahoo.
Moulvie Taki Uddin Ahmed.

Some order should be published definitely ruling that an absence from two consecutive meetings, unless some valid ground of absence is furnished, should render the absentee's name liable to be erased as ineffective.

4. The meetings were legally convened, ten days' notice being given in each case, and the business to be transacted was duly notified. In the case of the last meeting, when full rates were imposed for the ensuing year, the statements of proposed expenditure were translated into the vernacular of the district and circulated among the native members of the Committee before the meeting. The Committee, taking into consideration the very large amount of work needed in the district, the deplorable condition of means of communication, consisting merely of fair-weather roads impassable after any heavy rain, the fact that 1 per cent. was already assessed under the original perpetual settlement, and by Government was allowed to be absorbed in the present cess, unanimously voted full rates.

5. The proceedings of the several meetings were duly recorded, and the prescribed accounts and registers, as well as the pass-book with the treasury officer, have been regularly kept. Both the Road Fund and the District Engineer's offices were inspected during the year by the Examiner of Public Works Accounts, Bengal, and found to be in a satisfactory state.

6. In December 1875 the Public Works Department district charge was abolished, and the Executive Engineer, Mr. McNamara, reverted to his appointment of District Engineer. The appointment of an upper and lower subordinate establishment for the efficient control of all district works is in progress. It has been proposed to divide the district charge into four sub-divisions, corresponding with the existing civil sub-divisions, and to have an upper subordinate in each, with sub-overseers under him at the rate of one to every hundred miles of road.

* Upper Subordinates.
 Baboo Jowahir Lal.
 " Sook Lal.
 " Bama Churn.

Sub-Overseers.
 Baboo Bani Praand.
 " Gorderden Lall.
 Accountant.
 Baboo V. Rungiah Naidoo.

The nominations* have already been approved by Government, as per letters Nos. 2870E and 3517E, dated respectively 5th May and 11th November 1876;

and a further list of candidates will shortly be submitted for approval.

7. The works executed during the year are detailed in the accompanying statement, and consist mostly of annual repairs to roads and bridges. Only the most urgent repairs were executed, owing to the very impecunious condition of the Road Cess Fund. Government having allowed no grant, and, on the contrary, having demanded payment of Rs. 4,000 incurred during the famine, and having stopped payment of the 1 per cent. under the permanent settlement, there was an interregnum until the first cess under the Act was paid in at the commencement of last month only, and we positively had nothing to pay for the fair-weather repairs to be taken in hand at the close of the rainy season. For the current year we borrowed funds, and the District Engineer had to exercise the greatest discrimination to make his limited resources cover as much ground as possible, and in this his thorough acquaintance with the district stood him in great stead.

The annual superficial repairs of the past year, which comprise an important item in a system of fair-weather roads, were commenced immediately on the cessation of the rains, and the principal roads were made practicable for wheel traffic earlier in the season than has been done for many years past. In this work the sub-divisional officers of Buxar and Sasseram, Messrs. Haggard and Jones, and in the Bhabua sub-division Baboo Chunder Siker Banerjee, rendered good service.

In the Sasseram sub-division the Tarra Chandi Pass, on the important road leading to the south *via* Tilhotoo, was greatly injured by the extraordinary flood of the Kao nuddee which prevailed in July 1875. This pass is the only direct outlet to the south from Sasseram, and is bounded on one side by a precipitous hill and on the other by the Kao nuddee.

On the side of the nuddee the roadway was protected by a stone parapet wall, which had withstood all floods since its construction in 1855; but on this occasion the water overtopped the roadway at a point above the wall, and, rushing down the pass, swept everything before it, destroyed the parapet wall, and washed away the artificial roadway down to the natural rock, which stood out in a series of irregular terraces, quite impracticable for traffic of any kind. The foundation of the artificial roadway consisted of large boulders and stones, some of them weighing 14 cwt. each, and these were carried away bodily. In the repairs it has been endeavoured to make the roadway independent of the parapet wall, which was meant originally to act as a barrier between the nuddee and the roadway; and with this view breast walls laid in mortar have been constructed at convenient distances on the natural rock, abutting against which is heavy stone packing with a cut up stream, as has been done on the apron walls of the Sone anicut, finished off with stone chips and earthwork just sufficient to form a smooth roadway. The work cost Rs. 1,333.

Also the *Dhudkund*, or waterfall bridge, was seriously damaged by the same flood. This is a beam-bearing bridge of two bays, each 23 feet span, with massive stone abutments and piers 30 feet high. It had withstood all previous floods since its construction in 1855; but the present flood washed away the masonry flooring of the eastern bay and scoured the bed to a depth in places of 8 feet below the foundations of the abutment and pier. The bottom of the masonry stood 8 feet above the bed of the nuddee; the approaches, too, were all partly cut away, and the bridge remained in a perilous condition. Mr. McNamara carefully considered whether the waterway of the bridge should not be increased; but the funds at our disposal were insufficient for the purpose, and reference on the subject might have entailed delay, of which the case would not admit, so he decided to protect the bridge as it stood, and with this view Mr. Levinge, the Superintending Engineer of the Sone works, who was also a member of the Committee, fully concurred. The entire cost of the work has been Rs. 2,366,

and I think the rates will compare favourably with any in the district. The work, too, was tried by a pretty severe flood of the Kao, which came down almost before the work was completed. The abutment and pier were carefully underpinned to a depth of 10 feet, and the flooring lowered proportionately, as was done, the District Engineer informs me, most successfully to some of the railway bridges in this district after the extraordinary flood of the Sone in 1864. Also the approaches have been protected by retaining walls, and it is believed that the structure is now stronger than ever.

The remaining works in the district consist chiefly of ordinary repairs, and call for no special remark.

The total expenditure on works amounts to Rs. 35,903, and the corresponding expenditure on executive establishment to Rs. 8,231, equal to 22·9 per cent. The cost of establishment on "Collection of revenue and Committee's control" amounts to Rs. 1,311. Besides these there is an item of Rs. 2,656 as contribution to Public Works Department establishment for 1874-75 which was paid into the treasury in accordance with Controller of Public Works Accounts, Bengal, No 12103, dated 6th September 1875. It is to be noted that this item does not apply to the percentage of establishment for the year under report.

8. Besides the inundation of the Kao, just referred to, there was a high flood of the Sone in July last, nearly similar to those of 1864 and 1867, fully described in the published reports by the District Engineer, Mr. McNamara.

The Chupra and Arrah road was almost entirely covered by the flood, and a good sized boat might have sailed over it; but it emerged from the retreating waters with very little injury, except to the temporary bridge at Mutiah, the northern abutment of which was undermined, and to the bed of the Nuddi under the large Burhara bridge, which has been scoured somewhat considerably, and will need repairs during the ensuing year.

The list of rates and quantities of labour and materials for the several descriptions of work required in the district has been carefully compiled, and is being further elaborated by Mr. McNamara with reference to the requirements of the several sub-divisions, which will prove very useful to Sub-Committees and sub-divisional officers.

9. The rates for the principal works executed during the year are as follows:—

Sasseram Sub-Division.

		Rs.	A.	P.	
Rubble-stone masonry in lime mortar	...	15	0	0	per 100 c. ft.
Stone-packing	...	6	0	0	" "
Earthwork, excavation, and rough dressing	...	1	8	0	per 1,000 "
Turfing	...	1	4	0	" s. ft.

Arrah Sub-Division.

Brickwork in lime mortar	...	20	0	0	per 100 c. ft.
--------------------------	-----	----	---	---	----------------

10. The works proposed for the current year have been adopted by the District Engineer and myself in consultation with the Magistrates in charge of the several sub-divisions where there are branch Committees, and with due regard to the funds contributed by the respective sub-divisions. Several works of importance have necessarily been omitted, and amongst them, I regret to say, are those commenced as relief works during the late famine, and referred to specially by my predecessor in the annual report on local improvements for the year 1874-75.

It is most desirable that these works should be undertaken next year and completed as soon as possible. Besides the ordinary annual repairs, it is proposed during the present year—

- (1) In the Bhabua sub-division, to complete the bridging and to metal the eight miles of road leading from Mohanea on the grand trunk road to Bhabua, the head-quarters of the sub-division. This work has been recommended by successive Magistrates, and has only remained in obeyance until funds were available. At present the sub-division is almost inaccessible during the rains, and the proposed metalling will complete the connection by a metalled road of the head-quarters of the sub-division with the railway at Zumaneeah.

- (2) In the Buxar sub-division it is proposed to improve the road from Ruggonathpore to Serayah, *via* the important villages of Bugaind and Chowgain. This work is recommended in the list of feeder roads suggested by the Railway

* No. 2720R, dated 12th November 1876.

Company's officers, referred to in the resolution* of the Government of India in the Public Works Department, received with letter No. 1246, dated 9th March last, from the Secretary to the Government of Bengal in the Public Works Department, received with your endorsement No. 59J (circular), dated 15th idem.

- (3) In the Sasseram sub-division it is proposed to restore the road from Nasrygunge to Dehree to its original height, in continuation of the remainder of the road which was raised as a relief work; also to similarly raise the portion of the Sasseram and Arrah road preparatory to metalling. The necessity for this work has been strongly urged for many years past, and Mr. Metcalfe, the late Officiating Commissioner, when visiting the district in July last, drew particular attention to it.

-
- (4) In the Arrah sub-division the principal work will be the continuation of the above road.

The surveys of these roads have been completed, and the detailed plans and estimates will shortly be submitted for approval.

11. In one of the divisional reports published last year, attention was drawn to the omission by district officers to report on the manner in which the District Engineers had conducted their duties. But as this report is usually published *in extenso* in the *Gazette*, I am of opinion that such remarks should be separately appended, as it might not always be deemed advisable to make them public. As regards Mr. McNamara, his very intimate acquaintance with the district has been most useful to the Committees and to myself; and his energy, experience, and skill, have all tended to make the small funds available cover a large amount of absolutely necessary work. He has personally inspected and supervised everything that has been done, and surveyed and estimated all that we shall be able to undertake for some time to come. He has, moreover, demarcated most of the public roads, and has been of the greatest use in assisting me to determine and arrest encroachments. He has spared himself no personal inconvenience and trouble, so that in most instances matters have been amicably settled.

W. S. WELLS, Chairman, District Road Committee.

No. 47, dated Mozufferpore, the 13th February 1877.

From—C. F. WORSLEY, Esq., Offg. Magistrate of Mozufferpore,
To—The Commissioner of the Patna Division.

I HAVE the honor to submit the following annual report on the operations of the District Road Fund during the past year from the 1st October 1875 to 30th September 1876.

2. There were five meetings of the District Road Committee during the year, all of which were attended by a quorum.

3. The following table shows the names of the members and the number of meetings which each member attended :—

NAMES OF MEMBERS.	Number of meetings attended.	Number at which absent.	Total number of meetings.
C. F. Worsley, Esq., Offg. Chairman ..	4	1	5
G. J. B. T. Dalton, Esq., Vice-Chairman ..	1	4	5
A. C. Tute, Esq., Vice-Chairman ..	2	3	5
Moulvie Abdool Jubbar, Road Cess Deputy Collector ..	5		5
Baboo Madhub Chunder Rai, Executive Engineer ..	4	1	5
" Bishendeo Narain Sahoo ..		5	5
Syed Mahomed Tukea Khan ..	3	2	5
Baboo Nuthoo Lall Chowdhry ..	3	2	5
G. Toomey, Esq. ..	1	4	5
R. Brown, Esq. ..	2	3	5
F. Collingridge, Esq. ..	1	4	5
T. Fraser, Esq. ..	2	3	5
H. Studd, Esq. ..		5	5
H. Manners, Esq. ..	1	4	5

Baboo Hukhoree Chowdhry ..	4	1	5
" Jali Ram Marwarree ..	2	3	5
" Luchee Ram Marwarree ..	2	3	5

From the above it will appear that almost all the members took more or less interest in the discharge of their duties.

The estimate of income and expenditure for the year under review was prepared by the Magistrate and Chairman in consultation with the Executive Engineer, and, on being approved of by the committee held on the 8th November 1875, was submitted for sanction to the Commissioner on the 17th idem.

In this estimate the receipts, inclusive of the estimated balance on the 1st October 1875, were estimated at Rs. 1,98,037, and the expenditure at Rs. 1,96,217. The difference between the estimated receipts and disbursements on each head and the actual figures will appear from the annual account.

No cess under the Road Cess Act was levied during the year under review. The chief sources of income were ferry tolls, one per cent. road cess, grant-in-aid, sale of produce and stores, staging bungalow collections, refunds, and other minor items of receipts, as detailed in Part II of the annual account. There was also at the end of September 1875 a balance of Rs. 1,90,787-1-1 in the treasury.

In March 1876 Rs. 14,43,481-12-6 were allotted to this district by Government for the adjustment of the sums drawn by the Executive Engineer of Durbhunga and Mudhoobunnee divisions for relief works up to June 1874, which were all along shown in the accounts as debit balance against the District Road Fund.

During the year 1875-76, therefore, the gross amount available for expenditure, minus debit balance against the fund, amounting to Rs. 14,56,017-0-7, was Rs. 2,49,500-8-1.

On the expenditure side, the charges under head collection of revenue show an increase over the amount estimated for. This is attributable to the inclusion in the account of the last year of the establishment charges of the road cess and committee's offices for the month of September 1876, which should have been debited in the account of the current year had not the Dusserah vacation intervened.

No new works of any importance requiring comment were undertaken during the year under notice. With the exception of ordinary repairs to all the existing roads, most of which

were under charge of the managers of indigo factories, who took great interest in looking after the repairs, the whole of the work under the committee was done by the agency of the District Engineer, under whose immediate orders the services of our local overseer and sub-overseer were placed.

In maintaining existing roads and repairing bridges and drains Rs. 32,672-3-2 were incurred during the year. The total expenditure under repairs, inclusive of staging bungalow and other charges, as detailed in Part II of the annual account, amounts to Rs. 36,168-8-6, being less than the amounts estimated for by Rs. 13,150-7-6.

The outlay in original works amounted to Rs. 11,523-1-5. The greater portion of this sum was spent on relief works undertaken during the late famine, and accounted for in this year's account. The only original works of importance undertaken during the year were the completion of the metalling of the first three miles of the Hajeeapore road and collection of materials for metalling the last three miles of the same road. The estimate for the latter work, amounting to Rs. 11,335, has been received back, duly sanctioned by Government, in December 1876, but the work was undertaken in the beginning of the current year in anticipation of sanction.

The Town Fund Committee of Hajeeapore have contributed Rs. 1,036 for metalling one mile of the road which falls within the town limits; the remaining charge will be borne by the District Road Committee.

Rs. 5,700 on account of the collection of the ferries lying between this and the Sarun district, allotted by the Commissioner under orders of the Government, conveyed in letter No. 1009, of the 23rd February 1872, were remitted to the Magistrates of Sarun and Patna during the year. Out of this sum, Rs. 4,270 was included in the quarterly return ending 30th June 1876; but as the Examiner of Public Works Accounts has adjusted the sum by reducing the ferry collections of the quarter by that amount, consequently the whole transaction was not shown on the expenditure side of the annual account: but it was adjusted by reducing the net proceeds of ferries by Rs. 5,700 in Part II of the annual account: hence there will be a discrepancy between the total of the quarterly returns and the annual account.

The details of expenditure under head refunds, tools and plant, in Part II of the annual account, amounting to Rs. 86,645-13-10, will speak for themselves, and therefore need no comment.

There will appear a large saving under head establishment, in comparison with the amount (Rs. 10,020) sanctioned and that expended (Rs. 2,380-5-2) during the year. This is attributable to the fact that there was no District Engineer appointed during the last year. The person nominated for the post of District Engineer, subject to the approval of the Chief Engineer, in December 1875, was considered by Government as eligible for the grade of overseer; but the committee afterwards having expressed a desire to secure the services of a competent man of higher grade on a larger salary than that at first proposed, and with reference to Commissioner's order No. 234J. Cir., dated 26th August 1876, on the subject of appointing a District Engineer and subordinate establishments, nominated Mr. A. J. Oldham, Assistant Engineer, 2nd grade, attached to the Gunduck Survey, as District Engineer, subject to the sanction of Government, on a salary of Rs. 800 per mensem, rising to Rs. 1,000 in two years, and applied to Government for the transfer of his services from the Public Works Department, Irrigation Branch, to local works. But the Government, in their letter No. 3521E., dated 13th November 1876, disapproved of Mr. Oldham's nomination, on the ground that he had had little or no experience in the construction of roads and bridges. Thereupon the committee, on the 4th December 1876, nominated Mr. H. W. Stevens, at present Superintending Engineer of Raj Durbhunga, to the said appointment of District Engineer, and expressed an opinion that he was as good an officer as could possibly be selected for the appointment, but no sanction has yet been received.

Thus the total expenditure during the year under report was Rs. 1,45,110-10-8, being less than the amount estimated for by Rs. 51,106-5-4.

The estimate for the ensuing year, 1876-77, was prepared in the month of July 1876. This estimate was unanimously passed by the committee, and has been approved by the Commissioner. The estimated receipts are Rs. 2,07,062, and the estimated expenditure on works and establishments Rs. 2,00,837. It is not necessary to dwell on this estimate at present, as it will properly form matter for next year's report; but in conformity with Government order No. 3857, dated 23rd July 1873, the committee beg to state that they propose to do almost all the works incorporated in the budget estimate above referred to.

On the recommendation of certain members of the District Road Committee, the zemindaree road, from a place called Pilkee to Sunkura Fareed, about four miles in length, joining the Poosah Road at Pilkee, was included in the list of the existing district roads, as it will be a feeder road to the Tirhoot State Railway station now being built at Sunkura Fareed, and Rs. 100 was provided in the budget estimate for the current year for keeping it in good order.

The want of a separate office for the transaction of business having been greatly felt, the committee unanimously voted for the construction of a road cess office, at a cost of Rs. 5,000, which sum, however, was provided for in the current year's estimate. In the course of this year the committee expect to have their own office built in close proximity to the Collector's office.

In conclusion, I beg to state that no special assistance was given by zemindars in the way of giving lands for works executed during the year, nor was there any necessity to call for such special assistance.

The sub-divisional officers rendered themselves useful by inspecting the roads in their sub-divisions, and bringing to notice anything requiring immediate attention and orders.

No. 6.—Part II.

MOZUFFERPORE DISTRICT ROAD FUND.

Details of Income and Expenditure for the year 1875-76, from 1st October 1875 to 30th September 1876, to accompany the Annual Account for the year.

MOZUFFERPORE MAGISTRACY;
The 16th March 1877.

C. F. WORSLEY,
Offg. Magistrate and Chairman.

No. 30, dated Durbhunga, the 6th January 1877.

From—A. P. MacDONNELL, Esq., Offg. Magistrate of Durbhunga,
To—The Commissioner of the Patna Division.

With reference to your letter No. 366J., dated 4th ultimo, I have the honor to submit the local improvement report for the Durbhunga district for the cess year 1875-76.

2. The provisions of the Road Cess Act were introduced into the district by Government Notification dated 5th October 1874, but up to the termination of the year under report no collections under the Act were made, save such collections from public ferries as were in receipt of before the Act had been introduced.

3. In dealing with the income of the Committee during the year under review, I encounter a certain difficulty, on the removal of which I propose to address to you a separate communication. It is this: the road cess year runs from October to September, while the ferries have hitherto been leased from April till March. It often happens, then, that between the receipts from ferries collected during the road cess year and the prices at which the leases of such ferries sold there is much discrepancy. To obviate this it will, in future, be well to sell such leases for the road cess year.

4. Making all allowances, however, for discrepancies due to this source, our income from ferries during the year under report fell considerably under what had been anticipated. For the year beginning 1st April 1875 the fifteen ferries in this district sold for a gross rental of Rs. 43,000, but up to the last day of the year, *i.e.*, up to 31st March 1876, the collections from this source amounted to only Rs. 32,621-4-1. Persistent efforts persevered in up to date have only succeeded in recovering Rs. 871 out of the large arrear balance of Rs. 10,679.

5. In March 1876 I found that it was impossible to farm out several of our ferries, owing to the existence of a clique of men, inhabitants of Malka Chuck in Chupra, who had hitherto monopolized the farming of ferries in Tirhoot. These men, farmers in the previous year during which I was not in charge of this district, had fallen into arrears intentionally, as I believe they had so long monopolized the ferry leases here that other parties were unwilling to compete with them. I was forced, therefore, to manage many ghâts directly for a time until favourable opportunities for farming them presented themselves. The income from the ghâts of the district since April last has been Rs. 8,920, exclusive of Rs. 11,312, advance held in deposit. The collections between October 1875 and 30th September 1876 have been Rs. 29,326-9.

6. The total income of the committee during the year under report has been Rs. 41,995, and we commenced the year with a balance in hand of Rs. 7,085-6-9.

7. The year's expenditure falls mainly under two great heads—Establishments and Repairs.

8. The establishment head of expenditure is divisible into two parts—Collection Establishment and Engineering Establishment. The former head includes the pay of the establishment entertained in introducing the Cess Act, and amounted (including office contingencies) to Rs. 6,797-11-11. The cost of Engineering Establishment was Rs. 10,968-14-6, which is large when compared with the then income, but small when compared with the income under the Act in anticipation of which it was entertained.

9. During the year no original works were undertaken, but repairs were carried out on 37 roads. These repairs were of the usual sort—petty earthwork repairs, and repairs of temporary bridges. The Durbhunga dâk bungalow was also repaired. The total amount expended in these repairs was Rs. 23,329-3-3.

10. There is, however, one of these works which partook more of the nature of heavy repairs than the others. I refer to the repairs of the Nareyah to Patrahi road, carried out as a relief work last March and April. The repair of this road cost Rs. 2,145, and afforded employment which at that time was much needed in the locality.

11. The other repairs were mainly carried out with a view of facilitating traffic from Durbhunga town, the terminus of the State railway, to the tracts of Mudhoobunnee which were at the time suffering from scarcity.

12. The District Committee, on the 14th August 1875, appointed Mr. St. Joseph to the post of Engineer, but the nomination was not approved of by Government. Mr. St. Joseph vacated the appointment on the 31st May 1876.

13. The Committee subsequently appointed Mr. N. G. Beaumont, whose nomination was accepted by Government. Mr. Beaumont has joined his appointment.

14. The annual accounts of the District Road Fund are herewith forwarded in duplicate.

No. 206, dated Durbhunga, the 29th January 1877.

From—A. P. MacDONNELL, Esq., Offg. Magistrate of Durbhunga,
To—The Commissioner of the Patna Division.

In reply to your No. 12J., dated 16th instant, I have the honor to state that during the year 1875-76 the Road Cess Committee sat five times, as per margin.

February 2nd.	July 12th.
April 10th.	September 16th.
June 23rd.	

2. The Committee had not in the earlier portion of the year to deal with any heavy question of expenditure of funds, for then the Act had not been fully introduced and funds were not available. But

they had to deal with the question of establishments, in which the Committee found itself unfortunately out of harmony with the ideas of your predecessor. Ultimately the Committee were allowed to entertain a distinct district establishment.

3. In the latter portion of the year the Committee dealt with the important question of appointing establishments and estimating for the expenditure of the ensuing year.

4. The meetings were not always as well attended by the European members as I should have wished. But on the most important occasion, *i.e.* 12th September, a minute of the proceedings of which meeting has been sent you, there was an influential meeting.

5. I have always found myself in accordance with the Committee, and the working has been most harmonious throughout. There were no specially difficult roads undertaken, there being no funds available. The tax was collected for the first time at the last revenue kist day.

6. Zemindars gave no assistance in the way of land; none was wanted.

7. The annual repairs in sub-divisions were not in the early part of the year entrusted to, or supervised by, sub-divisional officers. The work was managed by an Engineer, Mr. St. Joseph, who had been temporarily employed. On joining the district I found myself unable to approve of the degree of supervision Mr. St. Joseph had exercised over his subordinates. I found myself unable to approve of most of the contracts he had given, or to rest satisfied with the way the contracts had been carried out.

8. When the Committee ceased to entertain Mr. St. Joseph's services, the work of repairs was carried on by overseers and sub-divisional officers, and under my own supervision at head-quarters.

9. All money expended during the year was expended by civil officers under the Committee's general sanction. The services of the Public Works Department were not made use of.

10. In conclusion, I beg to explain that the difference of Rs. 375 under the head of fines in the general and quarterly statements is due to remissions made by order of the Board of Revenue. The fines were under the Road Cess Act.

No. 6.—Part II.

No. 296, dated Chupra, the 27th February 1877.

From—G. S. PARK, Esq., Offg. Magistrate and Chairman, District Road Cess Committee, Sarun,

To—The Commissioner of the Patna Division.

I HAVE the honor to submit the following report on the works of local improvement carried on in this district, together with the annual accounts of the District Road Fund for the cess year 1875-76. The works proposed to be executed during the next cess year are those which have been provided in the district budget for the cess year 1876-77.

2. The total receipts from tolls, &c., amounted during the year to Rs. 16,87,539-7-4, of which Rs. 16,33,768-7-9 were paid in adjustment of the excess expenditure incurred during the previous year, and the remainder, Rs. 53,770-15-7, were the net amount available for works during the past year.

3. The total expenditure incurred during the past year was Rs. 51,266-12-2, of which Rs. 1,433-12-2 were spent in office establishment, Rs. 7,560-13-6 in road cess establishment (recoverable from the first year's collection of the cess under Government orders Nos. 1467 and 2865A., dated 15th June 1875 and 5th July 1876 respectively), Rs. 8,960-6-7 in original works, Rs. 29,610-1-3 in repairs, Rs. 3,544-1-11 in working establishment kept under the Executive Engineer, Captain J. May, and Rs. 157-8-9 in tools and plants. Of the total cash balance in hand on the 30th September last, Rs. 1,150-2-8 were at credit of the fund in the treasury as per pass-book, Rs. 517-7-9 were in hands of different parties, and Rs. 2,592-12-9, which includes Rs. 1,756-3-9 on account of deposit money, were at credit of deposit in the Public Works Department.

4. The total expenditure incurred through the agency of the Public Works Department was Rs. 36,799-0-5, as detailed below :—

ORIGINAL WORKS.				Rs.	A.	P.
Construction of new bridges and culverts on district roads...				4,475	14	7
Ditto of new roads				191	12	7
New metalling				955	13	3
Miscellaneous				30	0	0
Total ...				5,653	8	5
REPAIRS.						
Repairs to roads, &c., including adjustment of the previous years				23,670	6	6
Ditto bridges and culverts				2,487	8	4
Ditto bungalows and serais				1,285	14	6
Total ...				27,443	13	4
Establishment B				3,544	1	11
Tools and plant				157	8	9
Grand total ...				36,799	0	5

And the expenditure incurred under the immediate orders of the Chairman was Rs. 14,467-11-9, as detailed below—

ORIGINAL WORKS.				Rs.	A.	P.
Compensation paid to the owners on account of value of crops and land taken for the new road to Sewan to Bussuntpore				3,306	14	2
REPAIRS.						
	Rs.	A.	P.			
Conservancy charges at Sonapore Fair	1,838	8	11			
Staging bungalow establishment and contingencies	327	11	0	2,166	3	11
OFFICE ESTABLISHMENT.						
Establishment and contingencies				1,433	12	2
Road cess establishment and ditto				7,560	13	6
Total expenditure ...				14,467	11	9

5. There were eight meetings held during the past year for the transaction of the ordinary business of the office, of which three meetings were adjourned, owing to the members present at the meeting not having been sufficient to form a quorum as required in the Act.

It is but natural, however, that members residing at a great distance should hardly care to attend ordinary meetings when the business is usually of a purely formal character. Besides, the income of the committee has been entirely composed of Government allotments, so that members have not thought it necessary to take much share in the business, so long as the roads are kept in good order.

6. There were altogether beeghas 96-3-7-8½ of land given up by the zemindars free of cost for the construction of new road Sewan to Bussuntpore, and Rs. 2,725-12-5 were disbursed in payment of compensation to the owners on account of value of standing crops and land taken for the said road ; and Rs. 581-1-9 were also similarly disbursed on account of value of crops and land taken for the Sallunpore tank, which was dug during the late famine.

7. All the works executed were of an ordinary nature, and no special difficulties were felt in their construction.

8. The busiest part of the working season last cess year was over before I came to the district. The work has been for the whole time under the charge of Captain J. May, Executive Engineer, 3rd grade. In his report for the year 1874-75 my predecessor speaks in very high terms of the manner in which Captain May looked after the roads, and though in the past year comparatively little work had to be done, what I have myself seen induces me to believe that Captain May's work is excellent.

9. The explanation of the delay in sending this report is separately submitted.

No. 6.—Part I.

SARUN DISTRICT ROAD ACCOUNT.

Annual Account of Income and Expenditure from 1st October 1875 to 30th September 1876.

G. S. PARK, Chairman.

No. 626D, dated Moteehari, the 19th December 1876.

From—J. F. K. HEWITT, Esq., Magistrate of Chumparun,

To—The Commissioner of the Patna Division.

WITH reference to your circular No. 366J, dated 4th December 1876, I have the honor to submit herewith a detailed account of receipts and expenditure of the District Road Fund for the cess year ending 30th September last, and at the same time to report as follows on the works done by the District Road Committee during that year and those proposed during the current cess year 1876-77, in accordance with the instructions contained in Government circular No. 50, dated 23rd July 1873.

2. The year opened with a balance of Rs. 1,52,970-0-3, and the receipts of the year came to Rs. 2,67,958-9-4, making a total of Rs. 4,20,928-9-7 as the available funds of this district for the year. The expenditure during the year, including a sum of Rs. 2,79,423-9-9 spent in adjusting famine expenditure, amounted to Rs. 3,28,156-0-3, of which Rs. 4,070-9-10 were disbursed through the Public Works Department. Part II of the annual account will show in detail the sources from which the income was derived and the heads on which the expenditure was incurred.

3. The works executed by the District Road Fund Committee during the year, with the exception of one new road in Bettiah and two bridged, consisted solely in repairing the old roads and putting them in thoroughly good order.

4. The following is the list of roads repaired by the Committee during the year:—

(1.) *Motiharee to Mehsee road.*—The surface repairs on the whole road were completed and the cart tracks were put in order, the culverts on the road (29 in number) were also repaired.

(2.) *Motiharee to Kutkenwah road.*—The earthwork on this road was completed and the old bridges and culverts (15 in number) were also repaired. Three new bridges—one of 24 feet span and two of eight feet each—were also constructed and the cart-leaks were put in good order.

(3.) *Motiharee to Dhaka road.*—The first portion of this road as far as Lallbagiah crossing was thoroughly repaired from beginning to end, the cart-leaks being put in proper order. The second portion from the Lallbagiah crossing to Dhaka was also repaired in places where the road was much cut up by traffic and in very bad order.

(4.) *Motiharee to Jattriah road.*—The first portion of this road from Moteehari to Mudhoobunnee ghât being in excellent order, no work was done on it during the year; the latter part was taken up by Mr. R. H. Hill of Serrah indigo concern and was put by him in good order.

(5.) *Peepra to Suttur ghât road.*—The entire length of the road from end to end was thoroughly repaired; the bridges and culverts having been in a very good order, no work was done on them.

(6.) *Barrah to Rajpore road.*—The surface repairs on this road were completed and the cart-leaks put in good order.

(7.) *Rajpore to Sahebgunge road.*—Surface repairs on this road were completed and the cart-leaks put in proper order.

(8.) *Rajpore to Turcoliah road.*—This road was repaired under the joint supervision of Mr. Hill of Turcoliah factory and Mr. Urquhart of Rajpore factory, and was put in good order. Three small culverts were also constructed on this road.

(9.) *Kessoriah to Gobindgunge road.*—A portion of this road was only repaired during the year.

(10.) *Segowli to Gobindgunge road.*—This road was placed under the supervision of the Executive Engineer, Sarun Division, by whom a portion of it was repaired. Repairs were also done on four bridges over this road.

(11.) *Segowli to Ruzole road.*—The surface repairs on this road were completed and the cart-leaks put in perfect order.

(12.) *Motiharee to Bettiah road, via Segowli and Rajghat.*—This road was placed under the Executive Engineer, Sarun Division, and a portion of it was only repaired during the year.

(13.) *Turcoliah to Soogong road.*—The expenditure on this road during the year was Rs. 84-4 only; the work done on it consisted only of petty surface repairs.

(14.) *Turcoliah to Mudhoochupra road.*—The surface repairs on this road were completed.

(15.) *Motiharee to Gobindgunge road, turning near Muckwa.*—The surface repairs on the whole road were completed and the cart-leaks put in good order.

(16.) *Peepra to Sewaha road.*—This road was taken up late in the year and only a portion of it was repaired.

(17.) *Kullyanpore to Etwa ghât road.*—The earthwork on the whole road was completed and the culverts and cart-leaks were thoroughly repaired.

(18.) *Kataha ghât to Lallgurh road.*—Petty repairs in places were executed on this road during the year, and the expenditure was met from the unexpended balance of advance made for this road during the preceding year.

(19.) *Etwa ghât to Dhaka road.*—The whole length of the road from end to end was thoroughly repaired, the cart-leaks put in proper order, and the culverts repaired.

(20.) *Serraha to Jamooah road.*—The earthwork on this road was completed and the cart leaks put in good order.

- (21.) *Neerpore to Ghorasan road*.—The surface repairs on this road were only executed.
- (22.) *Barrah to Serraha road*.—The earthwork on the latter half of the road from Nurharpukree ghât to Serraha was completed and the cart-leaks of that portion of the road were put in order. No work was done on the first half of the road.
- (23.) *Dhaka to Pudumkari road*.—The surface repairs on this road were only executed during the year.
- (24.) *Turcoliah to Sungrampore road*.—Only five miles of this road were repaired, and petty repairs to the bridges were also executed during the year.
- (25.) *Branch road to Segowli cantonment*.—This road was placed under the Executive Engineer, Sarun Division, who executed petty surface repairs during the year.
- (26.) *Muckwa to Ghyree road*.—The surface repairs and the repairs of the cart-leaks of the whole length of the road were completed.
- (27.) *Gobindgunge to Burhurwah road*.—Only surface repairs of five miles of the road were completed during the year.
- (28.) *Village roads, Motiharee Sub-division*.—Earthwork on all the small roads around Motiharee, aggregating 15 miles in length, was completed and the cart-leaks and bridges were all put in good order.

BETTIAH SUB-DIVISION.

(29.) *Bettiah to Bugaha road*.—This road was almost entirely newly made this year. The new work extends from Pursah factory to Mulpoorah factory—Pursah factory being eleven miles from Bettiah, and Mulpoorah factory being three miles from Bugaha; the whole distance is about 32 miles. The road follows high land between the Hurha and Sikrana nullahs in an almost straight line. The only nullah of any importance crossed is the Tengrahee, which is twice bridged; the total water-way of bridging is 245 feet. The former road to Bugaha was two or three years ago cut away very much by the Gunduck, and was abandoned on this account. However, it has been kept in repair as far as Chunaha, about 15 miles from Bettiah.

The total quantity of earthwork done on this road during the year was 20 lakhs cubic feet, and the number of bridges made is three.

(30.) *Road from Bettiah to Bulthur*.—This is an old cart-road, which, as far as Lohuriah factory, eight miles from Bettiah, was bridged in the famine; it was this year bridged as far as Ghoga, and the bridges put in hand as far as Bulthur, but on account of the rains it was impossible to finish them. Earthwork on places where low was made up to a proper level. The total quantity of earthwork done on this road was 2½ lakhs cubic feet, and the number of bridges constructed is four.

(31.) *Road from Bettiah to Amwa Bazar*.—Was in good repair the whole year, with the exception of for some time after the very heavy rains, part of the road being under water for a time. This is a well laid out road, with the exception of having no leaks, which are hardly worth while putting as there is very little traffic on the road.

(32.) *Road from Bettiah to Tengrahee ghât*.—This is a badly laid out road, without proper leaks. The road was repaired and one culvert of 10 feet span made; the last rains have shown that two other culverts are required.

(33.) *Road from Bettiah to Lohuriah*.—Is a very well laid out road, with good leaks in good order. Nothing but petty repairs were required in this year.

(34.) *Road from Lohuriah to Ramnugger*.—Is a continuation of the road from Bettiah to Lohuriah, and is also in similar repair. The wooden bridges were finished in a hurry by the Famine Engineers, and the abutments were made up with bamboos instead of planks, which have rotted and allowed the earth to sink on either side of the bridges. Brick abutments will be estimated for to all the bridges in the sub-division.

(35.) *Road from Lohuriah to Shikarpore*.—Is another road made by the Famine Engineers; it is, like the two former roads, well laid out, with wooden bridges, and the same remarks made on the former road are also applicable to this. Four bridges were made on this road during the year averaging 10 feet water-way. The road is in good driving order; it crosses the Ramrekha and Hurgarwah nullahs by ghâts. The total quantity of earthwork done on this road during the year was 13½ lakhs cubic feet.

(36.) *Road from Lowah to Bughaha*.—Was made to meet the Bettiah and Bughaha road at Luckia, and requires only four miles of earthwork and four bridges. About three-fourths of the earthwork was finished; bridges not yet begun.

(37.) *Road from Jugdishpore to Gobindgunge*.—Is an old road, made by a former Maharajah of Bettiah, and is far from being straight, and has no leaks. It was repaired during the year and 13 bridges constructed, total water-way of which is 184 feet. Three more bridges are still required to be made on this road.

(38.) *Bettiah to Jugdishpore road*.—Is a continuation of the Jugdishpore and Gobindgunge road. It is bridged and in fair order. It is difficult to keep the road in order on account of heavy traffic and want of leaks. Leaks will be estimated for to this and the Jugdishpore and Gobindgunge road.

(39.) *Village roads, Bettiah Sub-division*.—Nothing was done to village roads during the year, with the exception of petty repairs and a few small culverts. More will be done when the district is better known.

5. The accompanying statement A will show the works resolved upon for the current cess year.

6. The District Road Cess Committee worked exceedingly well during the year, and the following gentlemen acted as members of the committee:—

J. F. K. Hewitt, Esq., *Chairman*.
 H. G. Wilkins, Esq., *Vice-Chairman*.
 Sub-divisional Officer, Bettiah.
 Road Cess Deputy Collector.
 A. Edwards, Esq.
 — McQueen, Esq.
 S. Cooper, Esq.
 J. J. McLeod, Esq.
 W. T. Gibbon, Esq.
 Dr. H. Hill.
 R. H. Hill, Esq.
 W. Edwards, Esq.
 E. A. Hickey, Esq.
 G. Freeman, Esq.
 R. Hudson, Esq.

Dr. C. Meadows.
 M. N. McLeod, Esq.
 Rajah Shewraj Nundun Singh.
 Baboo Muktnath Missir.
 „ Issur Gir Mohunt.
 „ Bindessurree Proshad Sah.
 „ Bissessur Sah.
 „ Ruktoo Sah.
 „ Jokhoo Chowdhry.
 „ Kustooree Singh.
 „ Gunga Dooday.
 „ Shakti Nath Ojha.
 Qasim Khan.
 Baboo Khedoo Thakoor.
 „ Rambhujoo Mahton.

The roads in the Bettiah sub-division were placed under the charge of Mr. R. H. Sealy, Assistant Engineer, who acted under the direction of the Joint-Magistrate of Bettiah and the branch committee. Mr. Sealy is an admirable officer, very active and energetic. He does his work carefully and thoroughly and looks well after his subordinates.

7. In the sudder sub-division all the works were done by native overseers and indigo-planters, who gladly, as usual, undertook the repairs of all the roads which were placed under them. There was no work executed during the year which entailed any special difficulty.

8. The land required for the new road to Bughaha was, as usual, given by the Maharajah of Bettiah.

STATEMENT A.

Showing the works resolved upon for the current cess year 1876-77.

ORIGINAL WORKS.

Motiharee Sub-division.

Construction of dâk bungalow at Motiharee.
 Construction of dâk bungalow at Segowli.
 Ditto ditto at Barraha.

REPAIRS.

Motiharee Sub-division.

Motiharee to Kutkenwah road.
 Ditto to Dhaka road.
 Ditto to Jattariah road.
 Ditto to Mehsee road.
 Peepra to Suttur ghât road.
 Barraha to Rajpore road.
 Rajpore to Sahebgunge road.
 Ditto to Turcoliah road.
 Kessoriah to Gobindgunge road.
 Segowlee to Gobindgunge road.
 Ditto to Ruxole road.
 Motiharee to Rajghat road.
 Chupra to Amwa Bazar road.
 Turcoliah to Soogong road.
 Ditto to Mudhoochupra road.
 Motiharee to Gobindgunge road.
 Hurdia to Burhurwah road.
 Peepra to Serraha road.
 Kullyanpore to Etwa ghât road.
 Etwa ghât to Dhaka road.
 Dhaka to Ghorasan road.
 Ditto to Jamooah road.
 Serraha to Jamooah road.
 Meerpore to Ghorasan road.
 Semrah to Soogong road.
 Barraha to Serraha road.
 Dhaka to Pudumkari road.
 Ditto to Belwa ghât road.
 Turcoliah to Sungrampore road.
 Gobindgunge to Burhurwah road.
 Branch road to Segowlee cantonment.
 Dhaka to north-east boundary road.
 Ghorasan to Ekdam road.
 Kutkenwah to Ruxole *via* Adapore.
 Muckwa to Ghyree road.
 Barraha factory to Mudhoobun road.
 Village roads.

Bettiah Sub-division.

Bettiah to Pipraghat road.
Pipurpatty to Ruttowl road. .
Ramnugger to Bughaha road.

J. F. K. HEWITT,
Magistrate and Chairman.

No. 98J., dated Bankipore, the 19th March 1877.

From—S. C. BAYLEY, Esq., C.S.I., Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Public Works Dept.

I HAVE the honor to submit the following report on local works in this division for the year 1875-76, together with the reports and accounts submitted by the several District Road Cess Committees, and in so doing to apologise for the delay which has arisen in its submission, owing to the Sarun returns not having been received in this office till the 5th instant.

Changes in the classification of districts.—The districts of Chumparun, Durbhunga, Mozufferpore, and Sarun, have been raised from class III to class I.

Organization of Engineering Establishments.—Engineering establishments have been organized in one and all the districts in this division under the Road Cess Act, an Engineer having been appointed to each district except Gya, where the works are supervised by the provincial Executive Engineer, a portion of whose salary is contributed by the Road Cess Committee. This arrangement, now that the separate Gya division has been abolished, will, I trust, not be allowed to continue, as it is in the highest degree inconvenient.

Road cess collections.—Chumparun is the only district where road cess was collected during the year under report. In the rest of the districts the collections commenced only on the 1st October last. The cess is levied at half rates in all the districts except Shahabad and Chumparun, where maximum rates are collected, and Sarun, where two-third rates are to be collected. The estimated income on account of road cess in each district is as follows :—

	Rs.
Patna	82,156
Gya	1,14,707
Shahabad	1,50,253
Mozufferpore	1,29,237
Durbhunga	80,000
Sarun	1,08,307
Chumparun	76,435
Total	7,41,095

RECEIPTS.

The total receipts in this division during the year amounted to Rs. 3,45,413, against Rs. 3,03,732 in the previous year, showing an increase of Rs. 41,681. The increase occurs chiefly in Chumparun, where road cess was collected during the year under review.

The following table shows the income of each district during the year under report as compared with the previous year :—

DISTRICT.	TOTAL RECEIPTS.		Increase.	Decrease.
	In 1874-75.	In 1875-76		
	Rs.	Rs.	Rs.	Rs.
Patna	44,873	39,403	..	5,470
Gya	9,951	10,714	763	..
Shahabad	27,764	28,592	..	1,172
Mozufferpore	1,05,615	73,600	..	32,015
Durbhunga	15,854	30,495	23,641	..
Sarun	60,034	64,677	14,643	..
Chumparun	49,642	90,933	41,291	..
Total	3,03,732	3,45,413	80,338	38,657
			Difference 41,681.	

So there has been an increase in all the districts except Patna, Shahabad, and Mozufferpore. I observe that ferry tolls, which form the chief source of income, have fallen off from Rs. 2,36,448 to Rs. 2,16,415, or to the extent of Rs. 20,033, of which Rs. 18,752 occurs in Mozufferpore and Durbhunga (Tirhoot). This decrease is, however, to a great extent more nominal than real. The ferries are settled for the financial, and not the road cess year, and hence the returns under review represent only a portion of the revenue derived from ferries.

The subjoined statement shows the amount collected under this head in each district during the past two years :—

DISTRICT.	In 1874-75.	In 1875-76.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Patna	35,042	30,635	..	4,407
Gya	11,184	1,453	249	..
Shahabad	8,995	7,295	..	1,599
Mozufferpore	1,01,112	64,543	..	36,569
Durbhunga	11,979	20,828	17,847	..
Sarun	45,671	55,383	9,712	..
Chumparun	32,593	27,800
Total	2,36,448	2,16,415	..	20,033

So Mozufferpore shows the largest decrease, but it is only *apparent*. The returns for the year 1874-75 exhibited the ferry tolls realized for almost the entire district of Tirhoot, while the statement for the year under review shows the revenue of the two districts of Mozufferpore and Durbhunga separately. The collections in the latter district have fallen off for reasons thus explained by Mr. MacDonnell :—

“ In March 1876 I found that it was impossible to farm out several of our ferries owing to the existence of a clique of men, inhabitants of Mulkachuck in Chupra, who had hitherto monopolized the farming of ferries in Tirhoot. These men, farmers in the previous year, during which I was not in charge of this district, had fallen into arrears intentionally, as I believe : they had so long monopolized the ferry leases here that other parties were unwilling to compete with them. I was forced therefore to manage many ghâts directly for a time until favourable opportunities for farming them presented themselves. The income from the ghâts of the district since April last has been Rs. 8,920, exclusive of Rs. 11,312, advance held in deposit. The collections between October 1875 and 30th September 1876 have been Rs. 29,826 9-0.”

Government aid.—The amount contributed by Government to the several districts during the year is noted below :—

	Rs.
Gya	5,278
Shahabad	68,458
Mozufferpore	1,44,481
Durbhunga	2,500
Sarun	16,22,862
Chumparun	17,70,025
Total ...	32,59,599

These were nominal grants made in order to cover the deficit caused by expenditure incurred on relief works.

Expenditure.—The total expenditure incurred in the division during the year was Rs. 6,76,842, which was spent thus :—

	Rs.
In original works	3,12,490
„ repairs	1,89,324
„ establishments	78,645
„ refunds	86,758
„ tools and plant	5,281
„ contingent charges	4,344
Total ...	6,76,842

The amount of expenditure in each district was as follows :—

	Rs.
Patna	35,574
Gya	29,501
Shahabad	48,101
Mozufferpore	1,45,110
Durbhunga	39,134
Sarun	51,266
Chumparun	3,28,156
Total ...	6,76,842

Of the amount of expenditure shown against Chumparun, viz. Rs. 3,28,156, Rs. 2,79,423 were spent in adjustment of the famine expenditure. Similarly Rs. 85,446 out of Rs. 1,45,110 shown against Mozufferpore were paid on account of the relief works executed in 1874.

The works undertaken during the year under review were of an ordinary character, and call for no special remarks.

The subjoined table shows the financial condition of the several districts.

DISTRICTS.	Total income, including the balance from the last year and Government grant.	Total expenditure.	Balance at credit at the end of the year.
	Rs.	Rs.	Rs.
Patna	57,834	35,574	22,260
Gya	30,618	29,501	1,117
Shahabad	50,938	48,101	2,837
Mozufferpore	17,58,307	16,53,918	1,04,389
Durbhunga	49,080	39,134	9,946
Sarun	53,771	51,266	2,505
Chumparun	4,20,928	3,28,156	92,772
Total ...	24,21,476	21,85,650	2,35,826

Chumparun shows the best result.

I regret to observe that the number of meetings held by the several District Committees was very small, as shown below :—

	No. of meetings.		No. of meetings.
Patna	7	Durbhunga	5
Gya	2	Sarun	8
Shahabad	3	Chumparun	2
Mozufferpore	5		

This indicates indifference on the part of the members as well as of the Magistrates. The Committees of Gya, Shahabad, and Chumparun, failed to meet even once in every quarter, as enjoined in section 54 of the Road Cess Act. This is very unsatisfactory. I have now drawn the serious attention of the Magistrates to this point, and have impressed upon them the necessity of holding more frequent meetings.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 222.

The 20th August 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of the 24-Pergunnahs, Nuddea, Jessore, and Moorshedabad, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Presidency Division, are published for general information.

G. A. D. ANLEY, C. E.,

*Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.*

No. 20R, dated Alipore, the 23rd January 1877.

From—R. H. WILSON, Esq., Magistrate and Chairman, Road Cess Committee,
24-Pergunnahs,

To—The Commissioner of the Presidency Division.

THE annual meeting for the examination of the district road accounts for the cess year 1875-76, held under Section 88 of the Road Cess Act, being just over, I have now the honor to submit a copy of the aforesaid accounts as passed by the committee, together with a report of the work done and in progress during the year, as prescribed by Section 89 of the above Act.

2. The gentlemen named in the margin were the members of the District Road Committee for the year

Magistrate and Collector, 24-Pergunnahs,
Chairman.
Senior covenanted officer under the Collector and Magistrate.
District Superintendent of Police, *Vice-Chairman.*
Deputy Collector in charge of Road Cess Department, *Secretary.*
Dr. R. Moir, Civil Surgeon.
Hon'ble Maharajah Nurendro Krishna, Bahadoor.
Rajah Hurrendro Krishna, Bahadoor.
Baboo Dwarka Nauth Biswas.

Baboo Sham Churn Law.
Mr. R. Harvey.
Baboo Deno Nauth Mullick.
" Kally Coomar Roy Chowdhury.
Mr. R. C. Sterndale.
Baboo Peary Mohun Roy.
" Debendro Coomar Roy Chowdhury.
" Gopal Doss Dutt.
" Radha Mohun Mundle.
" Shama Churn Pottitundo.
" Grish Chunder Bose.
" Ram Goti Nag.
" Modhoo Sooden Mookerjee.

1875-76, under the terms of their appointment made by Government on the 28th July 1875, under the provisions of Section 49 of the Act. During the year under review five general meetings and two sub-committees were held, in

each of which there was a quorum. On the whole, the members were more regular in their attendance this year than in the past, although their number has been reduced by the death of Baboo Ram Goti Nag, by the non-attendance of Baboo Modhoo Sooden Mookerjee, who, I regret to say, has been struck with blindness, and by the transfer of Dr. R. Moir from the district.

The following statement shows the number of times each member attended the meetings of the committee :—

Collector and Chairman	...	4	Baboo Gopal Doss Dutt	...	4
Senior covenanted officer under Collector	...	1	Hon'ble Maharajah Nurrendro Krishna, Bahadoor	...	3
District Superintendent of Police, Vice-Chairman	...	3	Baboo Deno Nauth Mullick	...	3
The Deputy Collectors in charge of the Road Cess Department, viz.—			" Debendro Coomar Roy Chowdhury	...	3
Baboo Hem Chunder Ker	...	5	Mr. R. C. Sterndale	...	2
" Ram Shunker Sen	...	2	Rajah Hurrendro Krishna, Bahadoor	...	2
" Sham Churn Law	...	5	Baboo Radha Mohun Mundle	...	2
" Dwarka Nauth Biswas	...	4	" Shama Churn Pottitundo	...	2
" Kally Coomar Roy Chowdhury	...	4	Mr. R. Harvey	...	1
			Baboo Peary Mohun Roy	...	1

One member of the committee, Baboo Grish Chunder Bose, did not attend at all.

From the above it will be seen that of the ordinary members, Baboos Sham Churn Law, Dwarka Nauth Biswas, Kali Coomar Roy Chowdhury, and Gopal Doss Dutt, have been the most regular attendants at the committee meetings. To Baboo Sham Churn Law a certificate of honor was awarded on the 1st of January last in recognition of his services as a member of the Road Cess Committee and an Honorary Magistrate of this district.

3. *Branch Road Cess Committees.*—The Branch Road Cess Committee at Barripore held six meetings during the year, at which Baboos Hurry Doss Dutt, Debnaram Dutt, Annundo Chunder Ghose, and Moonshee Golam Aribi punctually attended. Of the above-mentioned gentlemen, Baboo Debnaram Dutt personally looked after the construction of culverts on three roads, while the others made themselves useful in supervising the work of the other roads.

4. At Diamond Harbour the local Road Cess Committee meetings were well attended and the suggestions made by the members very useful. In addition to the amount allotted from the District Road Fund, the members and villagers have in several cases subscribed towards the making of roads in which they are interested.

5. The sub-divisional officer at Satkhira reports with regret that the members of the Branch Road Cess Committee do not evince as much zeal as could be wished in the work which they have undertaken.

6. At Busseerhat Baboos Jogessur Bose, Kallybur Singh, and Sookriti Chunder Roy appear to be regular in their attendance at the meetings, and always ready to advise the Chairman on projects coming within their local knowledge.

7. There are Branch Road Cess Committees at Dum-Dum, Barrackpore, and Baraset, and although I have had no detailed reports as to how they have worked, I have no reason to believe, from the proceedings of the meetings sent to me from time to time, that the members have rendered valuable aid to the Chairmen of their respective sub-divisions in the discharge of this important duty. I may mention the name of Baboo Baney Madhub Chuckerbuty in connection with the Dum-Dum Committee, who, as Vice-Chairman, has rendered valuable assistance to the Cantonment Magistrate in carrying out the provisions of the Road Cess Act, and whose services have been acknowledged in a certificate of honor granted to him on January 1st.

8. Including an opening balance of Rs. 12,251-7-4, the total income of the year amounted to Rs. 1,59,351-13-10, as shown in the following statement:—

	Rs.	A.	P.
Last year's balance	12,251	7	4
Land cess at the maximum rate	1,06,256	12	3
House cess	12,857	4	6
Fines and fees	946	12	4½
Road cess leviable otherwise than under the Act	212	15	6
Road tolls	10,626	1	10
Ferry „	14,687	3	3½
Sale proceeds of produce	483	4	9
Miscellaneous	1,530	0	0
Total income	1,59,351	13	10

9. Of the 33 ferries kept up on the different rivers and khals in this district, the assets of which have been made over to the District Road Fund under Government Resolution No. 1009, dated 23rd February 1872, two—situated at spots where the Satkhira road is intersected by the Bhomra and Gangnea khals—have been abolished, substantial bridges having been put up at those places for the accommodation of traffic. On the other hand, a new public ferry has been established on the canal at Bhangore, the seat of a police station and of a *hāt* within the sudder sub-division.

10. *Expenditure.*—There was a total expenditure of Rs 1,40,358-13-5 against the income under the following heads:—

	Rs.	A.	P.
Collection and office establishment	9,446	8	9
Contingent charges	881	15	10
Original work	15,307	13	6
Repairs	89,434	1	7
Engineer's establishment	22,684	8	9
Pension	387	0	0
Tools and plant	2,296	13	0
Total	1,40,358	13	5

The details of expenditure are given in form No. 6, Part II, of the annual accounts herewith submitted.

11. *Sub-Committee's report.*—I beg to transcribe below the report of the sub-committee appointed under Section 88 of the Act to examine the annual accounts of the fund:—

“We, the members of the sub-committee appointed under Section 88 of the Road Cess Act, beg to submit the following report—

“Taking the last year's budget, we find that the income was allotted as follows:—

	Rs.
Works and repairs	1,17,359
Engineer's establishment	22,086
Tools and plant	2,500
Office establishment	15,711
A Total	1,57,656

“On looking over the accounts of expenditure, we find that the income of the year was actually laid out as follows:—

	Rs.
Works and repairs	1,04,742
Engineer's establishment	22,604
Tools and plant	2,297
Office establishment	10,328
Pension	387
B Total	1,40,358

" There was an excess expenditure in the engineering establishment owing to the payment of the salaries for September within the month, in consequence of the intervention of the Poojah holidays.

" Therefore, deducting B from A, we have a saving of Rs 17,289 over the budgetted amount. To this we have to add Rs. 1,695 as excess collection made over the amount shown as income in the budget. So we have a clear saving of Rs. 18,993—a result which we consider as satisfactory.

" We find that the following sums were spent on works not included in the budget, namely :—

	Rs.
Bon Hooghly road	1,190
Dum-Dum slaughter-house road	217
Nowapara road	401
Selimpore „	145
Chungfully „	153
Audermanic bridge	921
Prithiba road	99
Compensation for lands taken up for Nimta and Kholakhally roads	426

" As these amounts have been already usefully laid out for the above purposes, we recommend that the general committee may pass these amounts.

" We beg to point out prominently to the District Committee that the amounts spent

	Rs.	A.	P.
Barrackpore station road	104	4	0
Paraset cross road	719	0	0
Nimta „	526	1	0
Belgharia „	214	10	9
Bon Hooghly „	1,190	0	0
Dum-Dum cantonment road	217	8	0
Russa road	3,300	0	0
Old Tallygrange road	1,093	0	0
Bursea road	1,928	7	3
Portion of the Gungarampore road	176	4	0

on the roads noted in the margin appear to us to have been laid out on objects which are not within the scope of the Act. All these roads are situated within municipalities, and, as Section 1 of Act X (B.C.) of 1871 expressly provides that the road cess is not to be extended to any town in which the District Municipal Act or the District Towns' Act, 1868 (lately

codified by Bengal Council Act V of 1876), is in force, we consider it our duty to state that this outlay of district road cess funds for the purpose of keeping up of municipal roads is, in our opinion, not justified by law—an opinion which is strengthened by the view taken in a similar case by the Government of Bengal in its letter, No. 511, dated 4th February 1873, to the Commissioner of Rajshahye. We beg, therefore, that the committee, in consultation with the Chairman, will take timely measures in order to guard against such expenditure in future.

" With these remarks we beg to recommend that the accounts herewith submitted may be passed."

(Sd.) E. J. SHUTTLEWORTH.
DWARKA NAUTH BISWAS.
SHAM CHURN LAW.
RAM SHUNKER SEN.

12. The above report was laid before the general meeting of the District Road Cess Committee on the 17th January last, when it was resolved that as the municipal roads, hitherto kept in repair from the District Road Fund, could not be suddenly given up without causing serious inconvenience to the public, the repairs already provided for should be carried out, but that a letter should be addressed to the several municipalities concerned requesting them to take charge from the 1st April of the roads lying within their respective boundaries, which have hitherto been kept in repair by the Road Cess Committee.

13. *Original works.*—The statement appended to this report will show that of the original works, costing in the aggregate Rs. 14,881, those noticed below were the most important :—

- (1.) *Metalling of the Goburdanga road.* This road is five miles in length, starting from the 31st mile of the Jessore road and ending at the right bank of the Jaboona river, opposite Goburdanga, a place of considerable trade in the district. This is a principal branch of the Jessore road, through which heavy traffic from the north-eastern parts of the district finds its way to Calcutta. For the metalling of this road Rs. 18,000 was necessary, but the funds did not admit of our laying out more than Rs. 7,786 during the past road cess year, and consequently only two and a quarter miles out of five have been metalled. Arrangements have been made for carrying out the remainder of the work during 1876-77. The utility of the work must, however, be comparatively small till the Jessore road is metalled up to this point, where the Goburdanga road commences. For the metalling of this part of the Jessore road materials were in part collected by the Public Works Department in 1873. Financial difficulties led to the abandonment of the work, and the metal then collected still lies by the roadside.
- (2.) *The construction of two bridges and three pipe drains on the Bhangore road* has completed a length of $16\frac{1}{2}$ miles of thorough communication from the 9th mile of the Jessore road to the canal at Bhangore. The first five miles of this road, known as the Bistopore portion, are *pucca*.

- (3.) A large khal on the Satkhira road, known as the Bhomra khal, has been bridged at a cost of Rs. 2,428. This bridge is a wooden platform supported by wrought-iron posts prepared by joining two $\frac{1}{2}$ irons together.
- (4.) A similar bridge, at a cost of Rs. 2,478, has also been put across the Bolorampore khal on the Fulta Beerasee road, which connects the Diamond Harbour road with the left bank of the Hooghly river near Fulta. This bridge has been of very great service in permanently removing the inconvenience felt by the people in crossing the khal on an unstable bamboo structure which they used to put up every year after the rains.

14. *Repairs.*—It will be seen from the statement given in Part II that Rs. 89,434 have been expended in repair works. Out of this sum Rs. 64,431 was laid out on *pucca* roads (of which there are 150 miles in this district), Rs. 11,247-11-6 on unmetalled roads, and Rs. 1,394 on petty works of all kinds. Notwithstanding the expenditure of such a heavy sum on repairs, we have not been able to put *all* the roads into a thorough good condition, but by a judicious distribution of the funds, we have been able to maintain them in a fair passable order, and great improvements have been made by repairing culverts and bridges on all. So great is the demand for roads in this district that petitions numerously signed constantly pour in praying for the construction of this or that road; and although the District Committee give their best consideration to all such prayers, they find the funds far too limited to admit of their undertaking more than a few of the various useful projects laid before them.

15. *Mohismaree road.*—It will be recollected that the Mohismaree road from Dukhin Baraset to Mohismaree, in the Barripore sub-division, has formed the subject of much correspondence with your office. Its cost was at first estimated at Rs. 12,047, and provision was made for the expenditure of this sum in the budget for the year 1875-76. Subsequent enquiries led to an increase of the estimate to Rs. 18,617. This necessitated a reference to you; and while the subject was under consideration, several letters questioning the utility of the large expenditure proposed appeared in the daily and weekly papers, and ultimately, on reconsideration, the project was, in my opinion, wisely abandoned.

16. *Village roads, Diamond Harbour.*—The sum allotted to this sub-division for the improvement of village roads was Rs. 1,940, out of which Rs. 1,700 was spent upon making roads, or rather good foot-paths, to connect villages with the existing *kutchas* roads, and with the imperial Diamond Harbour road. Certain sums (all under Rs. 200) were allotted to the chief people of the villages interested, and they have in most cases made good use of the money. The value of such roads during, and for some time after, the rainy season cannot be overrated, as without them the ryots are cut off from access to markets, living as they do on what may be described as scattered islands.

17. *Barripore.*—Out of the Rs. 1,700 allotted to this sub-division, Rs. 738 was laid out in the construction of the Kessubpore road, which was an original work, and Rs. 300 in constructing the Davrear road. The balance was expended in repairing Doorga, Sooburdhipore, Gorea, and other roads, and in erecting masonry culverts and wooden and bamboo bridges, in order to provide for sufficient waterway within the country traversed by these village roads.

18. *Sudder sub-division.*—Of the Rs. 1,700 allotted to this sub-division for village roads, the Chalkhola road, extending over two miles from Ryepore road to Chalkhola, in the Atchipore station, was constructed at an expense of Rs. 335, of which Rs. 200 was contributed from the District Road Fund. It is wide enough to admit of the passage of two carts. The Dangooria road, in the same police station, was constructed at an expense of Rs. 100, extending over six furlongs. The Asotee village road, in the Tallygunge station, was also a new construction, made at an outlay of Rs. 110, extending over $1\frac{1}{2}$ miles. With the exception of Rs. 200, which was the unexpended balance at the end of the year, the remainder was laid out on repairs and providing small culverts on existing roads. All these works were executed under the direct supervision of the Police Inspector Gouripodo Chuckerbutty, who has evinced great activity in carrying them out.

19. *Dum-Dum.*—The sum of Rs. 800 allotted to this small sub-division for village roads was laid out in petty repairs and in the construction of culverts. It is unnecessary to add that the main roads in this sub-division are kept in thorough repair from the district as well as the provincial funds.

20. *Barrackpore.*—The allotment of Rs. 1,200 for village roads in this sub-division was spent in repairs and in the construction of 25 pathways and 10 culverts.

21. *Baraset.*—Of Rs. 1,635 allotted to this sub-division, Rs. 1,634 was expended in repairing 15 roads and constructing three masonry culverts, and in paying compensation for lands taken up for the Rajbporc village road.

22. *Busseerhat.*—Of the Rs. 1,700 set apart for Busseerhat for village roads, Rs. 952 was spent on an important road which runs from Busseerhat to Harwah, the seat of a police station and of a large annual fair, and Rs. 216 and 124 in erecting two masonry bridges at Gopalpore and Dhulchitti. The remainder was laid out in repairing existing village roads.

23. *Satkhira.*—Of Rs. 2,047 allotted to this sub-division for village roads, Rs. 1,319 was spent in the construction of new village roads and Rs. 370 in the repair of existing ones. The remainder was laid out in the erection of culverts and temporary bamboo bridges, and in paying a small travelling allowance to the road cess clerk for the supervision of the works.

A large number of applications was received from the inhabitants of many villages praying for the construction of roads in their neighbourhood, and the allotment for this sub-division has in consequence been increased this year.

24. The Committee are glad to notice that for the construction of village roads the

	Rs.	A	P.
1. Manager of the estate of the late Rajah Prosonno Narain Dev, for construction of a road from Malancha to Nitr., in the Diamond Harbour sub-division ...	70	0	0
2. Baboo Degumber Mozoomdar, for construction of a road from Patdaha to Burroda, in the same sub-division ...	200	0	0
3. Baboo Bouomally Chuckerbutty, for construction of the Kessubpore road, in the Barripore sub-division ...	400	0	0
4. Baboo Dwarka Nauth Biswas of Jaun Bazar, for a road from Rungilabad to Moorhed, in the Diamond Harbour sub-division ...	50	0	0

gentlemen named in the margin have made voluntary contributions of the amounts placed opposite their names, and they take this opportunity of marking their appreciation of the public spirit displayed by them. The villagers of Ramjebunpore and Kologachia, in the Diamond Harbour sub-division, paid Rs. 15 and 10 respectively for the construction of village roads. It appears that they paid at the rate of two annas or four annas each, and made up the sums alluded

to. There are other persons who expended large sums in the construction of village roads, but who did not deposit the same at the credit of the fund. To all these the best thanks of the District Committee are undoubtedly due. It is, they think, a most satisfactory proof of social progress when private persons are found ready to aid in the prosecution of useful works.

25. *Superintendence of works.*—All the district works, except the improvement of village roads, are carried out by the District Executive Engineer, assisted by a staff of overseers. The Executive Engineer submits weekly inspection reports, and thus keeps the Chairman regularly informed of all that is going on under his supervision. To Baboo Radhica Prosad Mookerjee, the District Engineer, the Committee consider that their thanks are due for the care, energy, and intelligence which he has displayed in all departments of his work. Regarding the subordinate executive officers, it is sufficient to say that the Executive Engineer makes no complaint of their work.

26. *Sub-divisional officers.*—Of the sub-divisional officers, Messrs. B. L. Gupta and J. G. Ritchie of Diamond Harbour, Baboo Rakhal Doss Mookerjee of Barripore, and Baboo Bejoy Madhub Mookerjee of Shatkhiria, have been prominent in the interest they have taken in promoting the welfare of their respective sub-divisions by actually supervising the construction and repair of the village roads situated therein; and my best thanks are due to the undermentioned gentlemen, who have shown great public spirit by devoting a great portion of their time in furthering the object of the Road Cess Act:—

- (1.) Baboo Sham Churn Law, member, District Road Cess Committee.
- (2.) „ Dwarka Nauth Biswas, member, Road Cess Committee.
- (3.) „ Debenarain Dutt, member, Branch Road Cess Committee, Barripore.
- (4.) „ Degumber Mozoomdar, member, Branch Road Cess Committee, Diamond Harbour.
- (5.) „ Banee Madhub Chuckerbutty, member, Branch Road Cess Committee, Dum-Dum.

27. During the earlier part of the year, Baboo Hem Chunder Ker was in immediate charge of the Road Cess Committee's office at head-quarters. This arrangement ceased in consequence of an accident which incapacitated that officer for some time from active work, and his place has since been taken by the Honorable Baboo Ram Shunker Sen, to whom I am much indebted for the valuable assistance which he has constantly given me.

28. *Operations of the coming year.*—I now proceed to give a brief analysis of the proposed road cess operations for the year 1876-77, as required by Government circular No. 50, dated 23rd July 1873.

29. *Expected income for 1876-77.*—The total amount of cess leviable under the Act, and the income from other sources, are estimated as follows:—

	Rs.
Cess on lands	1,09,000
„ on houses	10,000
Fines and fees	500
Road cess leviable otherwise than under the District Road Cess Act ...	200
Road toll	11,300
Ferry „	13,800
Sales of produce and stores	200
Total income	1,45,000
Estimated balance ending 30th September 1876	18,000
Grand Total	1,63,000

30. *Proposed expenditure in 1876-77.*—The expenditure on original works will be Rs. 33,400, against Rs. 15,370 in 1875-76; and in maintenance and repairs Rs. 97,567, against Rs. 89,434 in 1875-76. The last-named amount includes Rs. 16,767 allotted to village roads this year against Rs. 12,200 allotted in 1875-76, as also an amount of Rs. 8,000 reserved for relief and unforeseen works.

31. The Committee were enabled to set apart larger sums for the prosecution of the works under their charge by saving effected in the cost of establishment. Some increase is also anticipated in their income from different sources.

No. 195R, dated Alipore, the 30th April 1877.

From—R. H. WILSON, Esq., Magistrate and Chairman, Road Cess Committee,
24-Pergunnahs,

To—The Commissioner of the Presidency Division.

With reference to your predecessor's No. 13PR, dated 12th instant, on the subject of

	Budget.	Actual expen- diture.	Saving.	Excess.	
	Rs.	Rs.	Rs.	Rs.	
1875-76 { Office establishment ...	15,711	10,328	5,380	On account of the establishment having been paid twice in the same month owing to the Poojah holidays (see Sub-Committee's report).
{ Engineer's ditto ...	22,088	22,604	...	518	
		Savings on actual expenditure of last year.			
	Rs.	Rs.			
1876-77 { Office establishment ...	9,300	1,028			2. This, added to other savings
{ Engineer's ditto ...	21,646	1,448			

effectuated during the year, left a clear unexpended balance of Rs. 18,993 at the end of 1875-76, from which the Committee were unable to make larger provision in their budget for 1876-77 for original works and repairs than they were in a position to do in the previous year. The figures given in paragraph 32 of my annual report show in detail the nature of these allotments, and need not be repeated.

E. J. SHUTTLEWORTH,

The 15th November 1876.

Vice-Chairman, Road Cess Committee, 24-Pergunnahs.

No. 44, dated Kishnaghur, the 21st November 1876.

From—C. C. STEVENS, Esq., Magistrate and Chairman of the District Road Cess Committee, Nuddea,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit the following report on the road operations carried out in this district during the cess year ending 30th September 1876.

2. The opening balance of the year was a deficit amounting to Rs. 98,041-8-4. This was mostly due to the famine. Of this balance, Rs. 35,080-5-8 were due to Government on account of value of grain, Rs. 10,000 were payable to Public Works Department, Rs. 41,477-7-2 were overdrawn from the treasury, and Rs. 11,483-11-6 as the amount of liability incurred for work. Part of this liability was paid up in the first quarter, and the whole balance was cleared up in March, on receipt of the Government grant, Rs. 79,145-9-2.

3. The estimated income for the year was as follows :—

					Rs.
Cess on lands	65,000
„ houses	10,500
Road tolls	2,200
Ferry „	18,270
Miscellaneous	220
Total	96,190

4. The actual revenue of the year was as follows :—

● SOURCES OF INCOME.						Amount.	Worse than estimated by	Better than estimated by
						Rs. A. P.	Rs. A. P.	Rs. A. P.
Cess on lands	70,813 9 2	...	5,513 9 2
„ houses	10,853 10 11	...	353 10 11
Road tolls	2,159 0 0	...	259 0 0
Ferry „	22,350 9 9	...	4,080 9 9
Grant-in-aid	79,145 9 2	...	79,115 9 2
Miscellaneous	1,080 13 3	...	1,100 13 3
Total	1,87,303 4 3	91,113 4 3

5. The actual income, therefore, nearly doubled the estimated revenue, but, on payment of the liabilities, it fell short by Rs. 6,928-4-1. The collection under the heads of cess on lands and cess on houses exceeded our expectation, owing to realization of the arrears of the preceding year. The income under the heads of ferry and road tolls was better by Rs. 4,339-9-9, and this was due partly to an improved system introduced for improving collection under these heads. The item miscellaneous comprises fines, the proceeds of sales and dāk bungalows, rent of roadside trees and fisheries, and the one per cent. for roads levied in settlements.

6. The estimated outlay for the year was as follows :—

					Rs.
Collection of revenue	3,264
Original works	23,021
Repairs of roads	57,379
„ ferries	100
Engineer establishment	11,676
Tools and plant	200
Contingencies	550
Total	96,190

7. The expenditure actually incurred during the year was as follows :—

HEADS OF EXPENDITURE.						Amount.	Below estimate.	Above estimate
						Rs. A. P.	Rs. A. P.	Rs. A. P.
Collection of revenue	3,089 8 9	725 8 9
Original works	24,310 2 11	1,289 2 11
Maintenance of repairs	67,070 4 6	299 11 6	...
„ ferries	159 5 3	...	59 5 3
Engineer establishment	16,564 11 9	...	4,888 11 9
Tools and plant	100 15 6	99 0 6	...
Refunds	917 15 7	...	917 15 7
Contingencies	286 11 9	313 4 3	...
Payment of liabilities	98,041 8 4	98,041 8 4
Total	2,01,400 4 4	712 0 3	1,05,922 4 7

8. The actual expenditure exceeded the estimated outlay by Rs. 1,05,210-4-4, but this was so simply because the large deficit balance, the result of the famine, was cleared up during the year.

9. The excess under the head of "collection of revenue" arose partly from the fact that the ticca pious in the sub-divisions were entertained much longer than we had expected would be necessary, and partly from the establishment for September having been paid during the month; the Doorga Poojah holidays having commenced from the 22nd day of it.

10. The outlay on the construction of village roads has been treated as "original works," and the sums expended in maintaining them as "repairs." The item "original work" shows an excess amounting to Rs. 1,289-2-11. This arose partly from the fact that a large portion of the money allotted in the foregoing year for the construction of the Dareeghatta bridge, which could not be expended that year through interference of floods, had to be spent during the year under review, and partly owing to the proposed outlay having increased in some cases in the preparation of detailed estimates.

11. The item "repairs" is very near the estimate, and the small difference requires no explanation, especially as it is impossible to anticipate correctly, at the time fixed for the preparation of the budget, what the effect of the season will be.

12. There is an excess amounting to Rs. 4,888-11-9 in the item "engineer establishment." This is partly due to the establishment for September having been paid during the month, and partly due to the fact that the charges for Public Works establishment for the preceding year, amounting to Rs. 4,064-8-3, which was not provided in the budget, had to be met during the year under review.

13. There is a large saving under the head of contingencies. This arose from the requisite quantity of forms and stationery not having been purchased during the year, but borrowed from the Executive Engineer, Presidency Division.

14. Among the original works undertaken during the year, the completion of Dareeghatta bridge forms the principal item. It is a wrought-iron girder bridge on masonry piers and abutments, having three openings, each of 22 feet span. This work was commenced in the preceding year, but partly through the interference of the floods and partly because of financial difficulties, only a small part of it was done that year. This bridge was completed during the year under review at an expense of Rs. 8,122-7-5.

15. Next in importance comes the reconstruction of the Gokalkhally bridge in the 6th mile of the Chooadangah and Meherpore road. This is a timber bridge supported on masonry abutments and three bold timber piers, having four openings, each of 20 feet clear span. It has been completed satisfactorily at an expense of Rs. 3,196-9-8.

16. A timber bridge on tal-wood piles, having four openings, each of 10 feet span, has been constructed in the 12th mile of the Kishnaghur and Kissengunge road at an expense of Rs. 605-6-6.

17. Rs. 1,661-14-9 were expended in constructing a strong timber bridge on masonry piers and abutments and having two openings, each of 13 feet clear span, in the 8th mile of the Kishnaghur and Kissengunge road.

18. The abutment of the Nallykhal bridge on the 18th mile of the Kishnaghur and Meherpore road, which gave way during the flood of 1872, was reconstructed, with the necessary improvements in the design, at an expense of Rs. 1,398-7-6.

19. Rs. 1,727-2-3 were spent on the construction of a timber bridge on masonry abutments, having one opening of 10 feet clear span, on the 8th mile of the Kissengunge and Barromassia road.

20. A bridge has been constructed in the 7th mile of the Kishnaghur and Kissengunge road at an expense of Rs. 2,583-3-6. It is a wrought-iron girder bridge on masonry piers and abutments, and having 3 bays, each of 10 feet clear span.

21. Rs. 1,184-11-2 have been spent on filling the gap caused by floods on the old site of the Gokalkhally bridge and diverting the Bhymarah khal through the channel of the new bridge.

22. Four timber bridges have been constructed on the Nischendpore and Hatboalia road at an expense of Rs. 752-13-0.

23. Of the sum of Rs. 57,079-4-6 shown under the head of maintenance and repairs of roads and bridges, Rs. 1,326-11-0 were spent by the Chooadangah and Meherpore sub-committees on the repairs of embankments; and of the balance, Rs. 38,699-11-3 were spent in repairing 123 miles of metalled feeder roads, and Rs. 17,052-14-3 were expended on the maintenance and repairs of existing unmetalled roads, village roads, ferries, and dāk bungalows.

24. In the present year the principal works for execution are the following :—

- (a) The existing roads will be repaired and kept in order.
- (b) A small culvert will be constructed on the Kooshtea and Salgamudia road.
- (c) The cracked bridge on the Kishnaghur and Buggoola road will be repaired.
- (d) A timber bridge will be constructed in the 1st mile of the Kooshtea and Dadapore road.
- (e) A small culvert will be constructed in the 3rd mile of the Kissengunge and Barromassia road.
- (f) A temporary bridge on the Kishnaghur and Meerah road, which has been damaged by flood, will be reconstructed.

- (g) A culvert will be constructed in the 17th mile of the Ramnuggur and Manicknuggur road.
 - (h) A temporary bridge will be built in the 15th mile of the Ramnuggur and Khalishpore road.
 - (i) Two bridges will be constructed on the Meherpore and Gangnee road,—one over Tarapore khal, and the other over river Kajlah at Sawal Bhashi.
 - (j) A bridge will be constructed over Bydangah khal, on the Chooadangah and Jhenidah road.
 - (k) A new road will be constructed from Amlah to Nowparah.
 - (l) The proposed road from Bongong to Garapotta will be undertaken this year.
 - (m) Two new roads will be constructed—one from Allumdanga to Jamjamy, and the other from Bansberiah to Hanskhally.
 - (n) The last three miles of the Arrunghatta and Duttapoolia road will be completed.
 - (o) New village roads will be constructed and the existing ones will be repaired.
25. Two meetings for the purpose of discussing and passing the budget estimates and fixing the rates were held by the District Committee; a quorum was obtained in each occasion.
26. The funds at the disposal of the committee are perfectly inadequate to the wants of the district, and the result is that the administration of the department is complained of very much. People compare former times, when they paid nothing and had more money spent on them, with the present, when they pay road cess and derive less benefit.
27. The working of the committee is fairly satisfactory.
28. The District Engineer has, as usual, done his work with efficiency, and the establishment generally has discharged its duties satisfactorily.

Extract paragraph 1 from a letter from the Magistrate and Chairman of the District Road Cess Committee, Nuddea, No. 193, dated 18th April 1877, to the Commissioner of the Presidency Division.

1. "WITH reference to your No. 28PR, dated the 12th instant, I have the honor to report that in the report for the year 1875-76, the actual collection from ferry and road tolls have been compared with the amount of the budget estimate for that year, and not with the revenue collected from those heads in the preceding year as compared by you."

No. 6.—Part II.

NUDDEA DISTRICT ROAD FUND.

Details of Income and Expenditure for the cess year 1875-76, to accompany the annual account for that year.

DWARKA NATH SARKAR,
District Engineer, for Chairman.

No. 73R, dated Jessore, the 27th January 1877.

From—A. SMITH, Esq., Magistrate and Chairman, District Road Cess Committee, Jessore,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit herewith my local improvement report and the annual road fund accounts for the year 1875-76.

2. The works intended for execution during the year were considered and passed by the District Committee at a meeting held in August 1875. All important local works were carried out by the District Engineer, and the village roads and minor works by the branch committees, under the special supervision of the Chairman and members.

3. The District Committee met four times—once in the beginning of the year, once in the middle, and twice towards its close—to consider various estimates, sanction appointments in their establishment, pass the budget and fix the rates for 1876-77, to consider the appointment of a Vice-Chairman, and propose new members for the District Committee.

4. The requirements of their sub-divisions for the year are first considered by the branch committees, and each submits to the District Committee its estimate of the requirements of the sub-division. The District Committee then selects the measures to be carried out during the year; and the larger ones, which require professional skill, are carried out by the Engineer and his professional staff, the smaller ones being dealt with by the branch committees under the supervision of the local overseers, members of the committees, or trustworthy gentlemen of the localities concerned.

In the northern portion of the district the European members have in this way rendered very valuable aid, and native gentlemen elsewhere have rendered similar assistance.

5 The following is a brief description of the works carried out in each sub-division during the year, and the expenditure incurred thereon.

JESSORE SUB-DIVISION.

6. *Jessore and Afra road.*—Renewal of metalling completed on the 12th and 13th miles; also earthwork in flanks for 11 miles.

The following is the quantity of work executed during the year:—

Earth-work	42,537 c. ft.
Metal consolidated	8,600 „

The expenditure up to date is Rs. 9,895, of which Rs. 769 were expended during the current year. The total amount of the estimates is Rs. 11,444.

7. *Roads outside Jessore Municipality.*—Renewal of metal and flanks on the Chachra and Mooralee road, and also on the race-course and Khyrtolla road.

The following is the quantity of work executed during the current year:—

Earth-work	94,559 c. ft.
Dressing	61,144 s. ft.
Metal consolidated	35,225 l. ft.

The expenditure up to date is Rs. 9,669, of which Rs. 2,037 were expended during the current year. The total amount of the estimates is Rs. 9,711.

8. *Jessore and Kallygunge road.*—Metalling has been completed on the 5th, 6th, and portion of the 7th mile, and renewed on the 11th mile.

On the 5th, 6th, and 7th miles the road has been raised, widened, and diverted where necessary, and a masonry culvert has been built. On the 14th mile a new tál-wood culvert has been put in owing to the existing waterway being insufficient.

The following is the quantity of work executed during the current year:—

Earth-work	577,000 c. ft.
Turfing	84,800 s. ft.
Consolidation of metal	86,955 c. ft.
Concrete	218 „
Masonry in 3 ft. culvert	1,340 „
Palm-tree culvert of 12 ft. span	1

The expenditure up to date is Rs. 16,650, of which Rs. 10,404 were expended during the current year. The total amount of the estimates is Rs. 21,194.

9. *Singha and Bussuntea road.*—The metalling between these two places has been begun, but only a portion was completed during the current year.

The following is the quantity of work executed:—

Metal consolidated	27,813 c. ft.
--------------------	-----	-----	-----	---------------

The expenditure up to date is Rs. 6,820, of which Rs. 4,903 were expended during the current year. The total amount of the estimates is Rs. 8,881.

10. *Rajahaut and Kessubpore road.*—As the wood-work of the Bandaghatta bridge on this road had become decayed and dangerous, it was removed and arching substituted. To prevent the villagers from cutting the road embankment where their fields were liable to become submerged, additional waterway has been provided by the construction of pipe culverts.

The following is the quantity of work executed during the current year:—

Earth-work	66,967 c. ft.
Turfing	188,132 s. ft.
Dressing	1 1½ chains.
Masonry	3,283 c. ft.
Plastering	622 s. ft.
Pipe culverts	4
Dismantling masonry	2,070 c. ft.

The expenditure up to date is Rs. 25,142, of which Rs. 1,472 were expended during the current year. The total amount of the estimates is Rs. 28,608.

11. *Jessore and Khajoor road.*—This road has been extensively repaired, raised, and widened in places, and diversions have been put in where necessary for a distance of six miles. Two new tál-tree culverts of 10 feet span each, and three pipe culverts, have been constructed to provide additional waterway.

The following is the quantity of work executed during the year:—

Earth-work	1,164,168 c. ft.
Turfing	205,708 s. ft.
Surface dressing	255 chains.
Pipe culverts	3
Tál-wood ditto, with masonry abutments and wings	2

The expenditure up to date is Rs. 4,457, of which the whole was incurred during the year. The total amount of the estimate is Rs. 5,112.

12. *Khajoor and Magoora road within the Sudder sub-division.*—The old road for the first five miles to Gadghat has been thoroughly repaired for fair-weather traffic at an expenditure of Rs. 796, which represents the total expenditure up to date.

The quantity of work executed is as follows:—

Earth-work	272,500 c. ft.
------------	-----	-----	-----	----------------

13. *Chowgatcha to Kotechandpore road.*—Renewal of metal on the 2nd and 3rd miles, construction of a masonry culvert with timber top of 10 feet span at Kotechandpore, and repairs to Mooktadoha and Surrooppore bridges.

The following is the quantity of work executed during the year :—

Earth-work	... 13,875 c. ft.	Pointing	... 654 s. ft.
Masonry	... 2,637 „	Timber work	... 159 c. ft.
Plastering	... 653 s. ft.	Coal-tarring	... 866 s. ft.
Concrete	... 695 c. ft.	Painting	... 160 „

The expenditure up to date is Rs. 1,597, of which the whole was incurred during the year.

14. *Polooghat and Dodaria road*.—As the woodwork of the Kolyandoha bridge had become decayed and dangerous, it was necessary to remove it and to substitute arching instead. The breaches made by last year's floods have also been thoroughly repaired.

The following is the quantity of work executed during the year :—

Earth-work	20,542 c. ft.
Masonry	8,136 „
Plastering	1,400 s. ft.

The expenditure up to date is Rs. 978, of which the whole was incurred during the year.

15. *Taragunge and Narail road*.—All the new embankment, including dressing and turfing on the first section of eight miles between Taragunge and Chachra, has been completed.

The following is the quantity of work executed during the year at a cost of Rs. 7,364 :—

Earth-work	2,164,286 c. ft.
Turfing	487,927 s. ft.
Dressing surface	409 chains.

16. *Maintenance of bridges and culverts*.—Twenty-six culverts have been repaired on the following roads, viz.—

Jessore and Afra road	9
Chachra and Mooralee road	4
Jessore and Kallygunge road	1
Chowgatcha and Trimohanee	1
Churamunkatty and Kotechandpore road	3
Rajahaut and Kessubpore road	8
Total	26

The following is the quantity of work executed during the year at a cost of Rs. 1,034 :—

Masonry	... 793 c. ft.	Earth-work	... 2,000 c. ft.
Plastering	... 4,943 s. ft.	Turfing	... 200 s. ft.

17. *Surface repairs to roads*.—Besides the above works, surface repairs have been executed to the following roads, aggregating 168½ miles, viz.—

	Miles.
Singhea to Khoolnah 28
Jessore to Kallygunge 18
Roads outside municipality 6
Polooghat and Dodaria 10½
Rajahaut to Kessubpore 17
Kessubpore to Trimohanee 6
Chowgatcha to Trimohanee 30½
Churamunkatty to Kotechandpore 21
Singhea to Basuntea 2
Jessore to Afra 12½
Jessore to Salkea 17
Total miles	... 168½
At a cost of Rs.	... 4,886

18. *Village roads in sudder sub-division*.—A sum of Rs. 2,685 was expended in constructing and repairing a number of minor roads and temporary bridges, principally on the following roads :—

(1) Arunda road.	(7) Polo Magoora.
(2) Poneehur Scerampore.	(8) Futtehpore.
(3) Benyalice.	(9) Salavarea.
(4) Sekhattee.	(10) Bhaloorea.
(5) Bhadurpore.	(11) Bullah.
(6) Dearee.	

19. *Milestones*.—As all the old wooden mileposts had decayed, it became necessary to replace them with others of Burdwan stone. For this purpose 318 were ordered from Messrs. Burn & Co., the greater number of which have been fixed.

The total expenditure up to date has been Rs. 2,269.

20. *Arboriculture*.—Two thousand six hundred and ninety-five cuttings from banian and peepul trees have been planted on the following roads, at a cost of Rs. 324, viz—

	Cuttings.
Jessore and Kallygunge	2,287
Jessore race-course	408

21. *Inspection bungalow at Mirzanagore*.—The old ruins at Mirzanagore near Trimohanee have been repaired at a cost of Rs. 271 and utilized as an inspection bungalow, there being no accommodation to the south of the district.

JHENIDAH SUB-DIVISION.

22. *Kallygunge and Jhenidah road*.—The embankment on the 25th mile has been raised throughout 6 inches above the flood level of 1871, and dressed and turfed; the timber work of the Baug and Hamdooah bridges renewed, as also the railings and parapets of all the old bridges. A new palm-tree culvert of 12 feet span has likewise been constructed.

The following is the quantity of work executed during the present year:—

Earth-work	1,358,939 c. ft.
Turfing	38,300 s. ft.
Dressing of slopes... ..	38,300 „
Ditto surface	57 chains.
Timber-work	1,037 c. ft.
Coal-tarring	5,088 s. ft.
Masonry	1,742 c. ft.
Painting	1,017 s. ft.

The expenditure up to date is Rs. 10,541, of which Rs. 9,236 were expended during the current year. The total amount of the estimate is Rs. 12,219.

23. *Jhenidah to Borai (Chooadanga road)*.—Renewal of metal on the 16th, 20th, 21st, and 22 miles, and also repairs to flanks throughout the entire length of 13 miles, have been carried out. All the existing masonry and timber bridges, the foundations and wing-walls of which had been scoured out, have been thoroughly repaired, more especially the Beueakhally bridge, the repairs of which have been on an extensive scale.

The following is the quantity of work executed during the present year:—

Earth-work	240,019 c. ft.
Dressing slopes and turfing	7,080 s. ft.
Renewal of metal and consolidation	51,206 c. ft.
Masonry	5,657 „
Concrete	947 „
Plastering	575 s. ft.

The expenditure up to date is Rs. 13,413, of which Rs. 4,235 were expended during the current year. The total amount of the estimate is Rs. 13,991.

24. *Kallygunge and Khalispore road*.—Renewal of metalling on the 1st, 4th, 5th, 6th, and 7th miles has been completed, as also repairs to flanks on the whole road, together with some bamboo piling to resist encroachments.

The following is the quantity of work executed during the present year:—

Earth-work	270,066 c. ft.
Renewal of metalling, including consolidation	81,481 „

The total expenditure up to date is Rs. 11,778, of which Rs. 7,284 were expended during the current year. The total amount of the estimate is Rs. 11,662.

25. *Jhenidah and Magoora road (within limits of the Jhenidah sub-division)*.—All the masonry and soondry wood bridges on this road have been thoroughly repaired, and extra waterway provided to the extent of 24 lineal feet. The several protective bunds at Dodaria, Dhobaghatta, and Porehatta, were thoroughly repaired, and the Dhobaghatta khal ramped down.

The following is the quantity of work executed during the present year:—

Earth-work	232,037 c. ft.
Turfing	63,580 s. ft.
Masonry	775 c. ft.
Plastering	6,120 s. ft.
Concrete	1,526 c. ft.
Timber-work	143 „
Coal-tarring	1,390 s. ft.
Painting	6,875 „
Bamboo piling	880 l. ft.
Repairing wing-walls	142 „
Palm-tree culvert	1

The expenditure up to date is Rs. 35,497, of which Rs. 3,700 were expended during the current year.

26. *Kallygunge and Kharagoda road*.—This road was repaired extensively during the year at a cost of Rs. 1,796, and extra waterway provided, four masonry culverts of 3 feet span each, and also a tál-wood culvert of 12 feet have been constructed. The wood-work of the Bankera bridge was also renewed.

The following is the quantity of work executed :—

Earthwork	80,427	c. ft.
Masonry	2,151	"
Concrete	1,028	"
Pointing	1,006	s. ft.
Timber-work in girders	66½	c. ft.
Ditto in flooring and rails	320	s. ft.
Masonry culverts	3	
Palm-tree culvert	1	

* 27. *Surface repairs to roads.*—Besides the above works, surface repairs have been executed on the following roads aggregating 84½ miles, viz.—

	Miles.
Kallygunge to Jhenidah	10
Jhenidah to Borai	13
Kallygunge to Khalispore	10
Jhenidah to Magoora	9
Kallygunge to Kharagoda	13
Gopalpore to Narainpore	4½
Jhenidah to Kachercole	14
Sindoorree and Bhowanipore, through the agency of Messrs.	
William and James Sherriff	9
Garakola to Soilcopa	2
Total	84½

28. *Village roads.*—The allotment for village roads was Rs. 4,424, the whole of which sum has been spent either in constructing or repairing the following roads :—

- (1) Jhenidah to Kotechandpore *vid* Defulbaria and Attia, a distance of 18 miles, nearly completed throughout, with the exception of four palm-tree bridges.
- (2) Joradah to Nityanundpore *vid* Porehattee, under the supervision of Mr. James Sherriff.
- (3) Kastasakra to Jeetur.
- (4) Battoe to Estagapore.
- (5) Nagarbathan to Defulbaria, under the supervision of Mr. W. C. Lydiard.
- (6) Bhattoe to Bhagobannuggur, under the supervision of Baboo Sreenath Roy, one of the members.
- (7) Kharikhola to Moharajpore, under the supervision of Baboo Kessub Chunder Banerjee.
- (8) Benodpore to Fullia, under the supervision of Mr. J. Oatts.
- (9) Jhenidah to Gilabaria, under the supervision of Baboo Kedarnath Buxsee

29. *Station roads.*—A sum of Rs. 476 was allotted for this purpose, the whole of which was spent, under the immediate supervision of the Deputy Magistrate, in widening and properly metalling the existing station roads, and a small grant was also given for a road through the Jhenidah Bazar.

30. *Inspection bungalow and store godown.*—A bungalow and store godown have been built at Jhenidah, on the side of the Chooadanga road, at a cost of Rs 550, including the stabling and out-offices.

MAGOORA SUB-DIVISION.

31. *Magoora and Jhenidah road (within the limits of the sub-division, a distance of eight miles).*—All the masonry and soondry-wood bridges have been thoroughly repaired, and extra waterway provided to the extent of 60 lineal feet by the construction of tál-wood culverts of 12 feet span.

The Kassinathpore khal was ramped down for the convenience of the cold-weather traffic.

The following is the quantity of work executed during the present year :—

Earthwork	240,767	c. ft.
Turfing	105,830	s. ft.
Bridges of soondry repaired	7	
Masonry ditto	8	
Renewing wing-walls to ditto	1,914	s. ft.
Floor planking	156	s. ft.
Tál-wood culverts in No 4	72	l. ft.

The expenditure up to date is Rs. 3,918, the whole of which were expended during the current year. The total amount of the estimates is Rs. 4,829.

32. *Allumkhally bridge.*—The old bridge being in a tottering condition owing to the span of 18 feet being insufficient, it was dismantled to allow free exit to the flood-waters ; for this purpose the khal was made nearly 70 feet wide and some deposits of silt in the bed removed. Some bricks were manufactured for the new bridge proposed to be built of three spans of 22 feet each, and the teak timber necessary for the flooring, wall-plates, railing, as well as the bolts, nuts, paint, and other materials, aggregating a cost of Rs. 3,818, were obtained from Calcutta.

The following is the quantity of work executed and materials collected:—

Earthwork	66,560	c. ft.
Dismantling masonry	1,535	„
Bricks, burnt	132,000	
Lime, stored	790	mds.
Teak timber from Calcutta	507	c. ft.
Bolts and nuts	2	cwt.
Pitch	2	casks.
Paint	$\frac{2}{3}$	cwt.

33. *Magoora and Benodepore road*.—Additional waterway was provided on this road by the construction of some temporary tál-wood culverts, aggregating 120 lineal feet.

The following is the quantity of work executed during the current year at a cost of Rs. 2,282 :—

Earthwork	108,833	c. ft.
Turfing	70,988	s. ft.
Timber culverts in No. 6	120	l. ft.
Masonry	696	c. ft.

34. *Salkea and Nohatta road*.—This road has been repaired extensively, many of the old breaches filled up, and the numerous khals ramped down.

The following is the quantity of work executed during the year at a cost of Rs. 1,378, of which the whole was incurred during the current year, viz.—

Earthwork	511,244	c. ft.
-----------	-----	-----	---------	--------

35. *Khajoorá and Magoora road (within the Magoora sub-division, 13 miles)*.—The centre and side widths of this portion of the road have been “nicked” out, and the requisite surveys and sections made, at a cost of Rs. 694, for the submission of a complete project for a low level road to be constructed during the season of 1876-77.

36. *Surface repairs to roads*.—The following roads, aggregating 34 miles, have been repaired, viz.—

	Miles.
Magoora to Jhenidah	8
Ditto to Benodepore	6
Benodepore to Mahomedpore	8
Ditto to Nohatta	7
Nohatta to Singhea (through the agency of Mr. H. Oatts)	5
Total	34

37. *Village roads*.—A sum of Rs. 3,600 was allotted for village roads, the whole of which has been expended on the following, viz.—

- (1) Road at Mahomedpore.
- (2) Kajooli to Darcapore.
- (3) Hanoo to Chowgatcha.
- (4) Nowbhanga road.
- (5) Kessubpore.
- (6) Babookhally to Halbarea.
- (7) Chandra to Chaturabarea.
- (8) Narainpore to Benodepore.
- (9) Baroe to Kasundi.

These works were carried out under the supervision of the members of the branch committee; principally through the agency of Messrs. H. Oatts, G. R. Clarke, C. Selby, E. Saupen, and A. Durand, indigo-planters, and of the following native gentlemen, viz.—

Moulvie Abdul Latiff.

Baboo Chunder Nath Chuckerbutty (a member).

„ Bistoo Churn Chatterjee.

„ Anungo Mohun Deb Roy.

„ Mohesh Chunder Bose.

„ Golab Chunder Sen.

38. *Station roads*.—A sum of Rs. 400 was allotted for this purpose, the whole of which has been expended, under the supervision of the Assistant Magistrate, in metalling the main road leading from the hât, past the jail cutcherry, thana, and bazar, up to the distillery.

39. *Inspection bungalow*.—There being no accommodation available at Magoora, an inspection bungalow has been built there at a cost of Rs. 535, including the stabling and out-offices.

NARAIL SUB-DIVISION.

40. *Taragunje and Narail road (2nd section between Chachra and Narail, five miles)*.—The old road was repaired extensively and turfed throughout at a cost of Rs. 8,797, the whole of which sum was incurred during the year.

The following is the quantity of work executed, viz.—

Earthwork	...	2,250,724	c. ft.
Dressing slopes	...	582,571	s. ft.
Ditto surface of road	...	260	chains.
Turfing	...	582,571	s. ft.

41. *Ghorakhalee and Singhea road*.—Surveys and sections for a complete project for this road were made during the year at a cost of Rs. 24. The execution of this work will be put in hand during the season of 1876-77.

42. *Roopgunge and Ghorakhalee road*—The surface repairs were executed during the year, and a new masonry culvert of 6 feet span constructed where a breach existed at Bhowakhalee. The timbers of the Roopgunge bridge near the bazar were found to be in a dangerous state, in consequence of which they were removed and arching substituted.

The following is the quantity of work executed at a cost of Rs 1,003 :—

Surface repairs to road...	2½ miles.
Earthwork in bridge approaches	25,000 c. ft.
Concrete	267 „
Pucca masonry	3,056 „
Plastering	500 s. ft.
Pointing	620 „

43. *Village roads*.—A sum of Rs. 3,880 was allotted for village roads, all of which has been expended on the following :—

Construction of new roads between—

- (1) Singhea village and river-bank.
- (2) Digole village to bazar.
- (3) Masumdea to Koreegram
- (4) North Koreegram village road.
- (5) Two village roads in Luckheepassa.
- (6) Road from Mirapara to Narail.
- (7) „ Pankavilla to Roopgunge Bazar.
- (8) Road between Sekhati Hat and Roopgunge Bazar.
- (9) Havakali to Bagdanga.
- (10) Narail police-station to Bhowakhalee.
- (11) Kassipore village to Luckheepassa.
- (12) Road from Narail to Saraspore.

Towpaths—Between Narail and Luckheepassa, a distance of 16½ miles. This passes through 23 villages, in each of which it is used as a village road, and has been marked out with mile-posts.

Repairs to old roads—

- (1) Bhudravilla and Auria road.
- (2) Bhagutea road.
- (3) Chandibarpore road.
- (4) Kundasi village road.
- (5) Alfadanga road.
- (6) Luckheepassa village road and new temporary bridge.
- (7) Roads passing through the villages of Dhouda, Mayankhali, and Kaguchipara.

44. *Station roads*.—A sum of Rs. 400 was allotted for this purpose, the whole of which has been expended, under the supervision of the sub-divisional officer, in repairing, widening, and renewing the existing roads, all of which are in good order.

KHOOLNAH SUB-DIVISION.

45. No works of magnitude were undertaken in this sub-division during the year, the chief expenditure being on account of village roads. A sum of Rs. 7,200 was sanctioned for this purpose for station roads, surface repairs to 10 miles of the Jessore road, towpath, and for protecting the river-bank with spur-work, the whole of which was expended by the branch committee in constructing and repairing 62 miles of roads and 19 miles of towpaths, the distribution of the charges being as follows :—

Establishment	Rs. 422
Earthwork in roads and also for temporary bridges	4,277
Spur-work	250
Station roads	509
Towpaths	262
Nokur coolie establishment	1 450
Contingencies	80
Total	7,200

46. The Deputy Magistrate reports that the committee met ten times during the cess year, that the Vice-Chairman and members worked willingly, and that the undermentioned native gentlemen deserve prominent notice for the active interest taken by them, viz :—

The Revd. Gogan Chunder Dutt Vice-Chairman.

Baboo Deno Nath Roy, Supervisor, Public Works Department.

„ Boroda Churn Sen, Kobiraj.

„ Gobind Chuuder Ghose, Talookdar.

BAGIRHAUT SUB-DIVISION.

47. No works of magnitude were undertaken in this sub-division during the year; the only expenditure being on account of station and village roads, for which a sum of

Rs. 8,860 was sanctioned by the district committee, all of which have been expended on the following lines:—

- (1) Metalling the Moonigunge road; also for earthwork and the construction of the following soondry-wood bridges, viz. over the Koomarpore, Katakhal, Amtotash, and Kooligharec khals.
- (2) Construction of two large rustic bridges over the Rohimabad and Hurry khals, aggregating 144 lineal feet, situated on the Bagirhaut and Khoolnah road.
- (3) Karapara to Gomotee.
- (4) Bishtopore to Karamara.
- (5) Amlottee Hât road.
- (6) Runbijoyore and Rohimabad road.
- (7) Katakhal to Kangoa Ghât.
- (8) Ditto to Karapara.
- (9) Noapara to Ootarpâra.
- (10) Bishkhally to Bongram.
- (11) Daiboghattee to Mithrodanga.
- (12) Pilgunj road.
- (13) Khan Jehan Alli's road.

48. The Deputy Magistrate reports that the committee met five times during the year, with an average attendance of seven members, all of whom take a lively interest in road cess operations. He further reports as follows:—

"The people have gradually come to know that the cess is of advantage to them. It has been a source from which means of communication is improved, and the inconvenience and trouble they experience for years and years for the want of such communication is being duly remedied. They take a lively interest in the operations and willingly give up land, even to their own disadvantage, to help the progress; the work is duly watched, and the task of supervision is wholly undertaken by them in most cases."

49. He also says that material assistance was derived from the services of Baboo Aukhoy Coomar Chowdhry, Canoongoe, who superintends many of the roads and the construction of some bridges, and also from the road cess overseer, Baboo Kally Prosono Mookerjee.

50. The improvement that has been effected in the state of the district communications during the last few years has been immense. New roads have been opened where but village paths existed before; well-raised and substantially bridged roads have been built where there were but low tracks under water during the rains, with numerous water-channels unbridged, or with bridges that had been carried away; metal is being put as fast as means permit on the main thoroughfares of traffic. Hackney carriages are become numerous at the head-quarters of the district, and already are found at Kotechandpore and Jhenidah, and travel regularly over the metalled, and essay under favorable circumstances the unmetalled, lines. Much remains, which I hope to see done during the next few years; but the progress made has been very great, and the many residents, European and Native, with whom I have spoken on the subject fully acknowledge and appreciate the great benefit that has been conferred on the district by means of the road cess, and the zealous, careful, intelligent, and patient supervision of the Committee's Engineer, Mr. Burt.

No. B., dated Camp Narail, the 11th April 1877.

From—A. SMITH, Esq., Collector of Jessore,

To—The Magistrate and Chairman, District Road Cess Committee.

WITH reference to your memorandum No. 316D, of the 14th ultimo, forwarding a copy of the Commissioner's No. 14PR, of the 10th idem, regarding decrease in the receipts of road cess on lands during the year 1875-76, I have the honor to observe as follows.

2. All the temporarily settled estates not brought under the operation of the 3 per cent. fund were transferred from register III to I under instruction of the Board, conveyed in their letter No. 452A, of the 21st September 1875, which was communicated with Commissioner's No. 46RL, of the 25th idem.

3. Three principal reasons to account for the decrease of Rs. 8,773-2-6 were mentioned, viz.—

1st.—That there was a falling off in the demand of 1875-76 of Rs. 1,223 as compared with the preceding year, owing to the transfer of Government estates from register III to I.

2nd.—That Rs. 1,577 cess on revenue-free estates having become payable in January 1876, instead of as formerly in the preceding June, were excluded from the demand of the year 1875-76.

3rd.—That in the year 1874-75 all sums which were collected from the ryots of Government estates were erroneously credited to the road fund. These collections being payable to the Government as proprietor, formed no part of the road cess demand, and should have been credited to the Improvement Fund, and not to the Road Fund. In 1874-75 there were 229 Government estates, and the collections from the ryots amounted to Rs. 5,975, whereas in 1875-76 the number of Government estates being 51, the collections amounted to Rs. 709 only. The practice of crediting the collections from ryots to the Improvement Fund begun from July 1876.

4. These three causes account for only Rs. 8,066 out of the Rs. 8,773 2-6, but as the collections in any one year will not exactly agree with those of another, there is still a small sum of Rs. 707-2-6 due to casual fluctuations.

C. H. BURT, C.E.,
District Engineer.

A. SMITH,
Chairman.

T. M. KIRKWOOD,
Vice-Chairman.

No. 340, dated Berhampore, the 21st December 1876.

From—A. MACKENZIE, Esq., Chairman of the Moorshedabad Road Cess Committee,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit the following report on the operations of the Moorshedabad District Road Committee during the past year ending on the 30th September 1876.

2. The subjoined table shows the number of meetings held during the year and the number of members who attended at each—

MONTHS.	Date on which meeting held.	Number of members attended.	REMARKS.
December 1875	6th	12	
January 1876	26th	11	
March "	15th	16	
June "	7th	9	No quorum was formed. This is an adjourned meeting
" "	20th	10	
July "	7th	12	
August "	28th	10	

3. There have thus been seven meetings of the committee during the year under review, at which an average of ten members attended. At three meetings Mr. Wavell presided; 1 presided at the last four. The provisions of the Act were carefully attended to in the calling and conduct of each meeting.

4. As the period for which the original statement of roads under Section 66 of the Act was prepared had expired, the committee, at the meeting held on the 6th December 1875, prepared and passed a fresh programme of road work to be undertaken during the ensuing three years.

5. At the meeting held on the 26th January 1876, the committee resolved that the execution of all the district works under their control should rest with Baboo Soorjee Coomah Pundit, the District Engineer, excepting only the repairs to the Jungypore and Khamrah

road, which were to be made over to the Executive Engineer in the Public Works Department. It was also resolved that the plans and estimates of all works beyond the power of the committee to sanction should be prepared by the Executive Engineer, but as no orders were ever received from Government directing the Executive Engineer to take charge of the repairs of the road above-named, and to prepare the estimates in cases of works beyond the committee's power to sanction, the repairs of the road were carried out eventually by the District Engineer, and the plans and the estimates of the three new main roads that we have in hand have not yet been properly prepared. We are working piece-meal instead of on a definite and sanctioned plan. This matter was again brought to your notice in my letter No. 175, dated 17th June 1876. It has not as yet met with any attention from the Public Works Department.

6. The accounts for the cess year ending 30th September 1875 were passed after examination by a sub-committee appointed for the purpose.

7. The estimate of income and expenditure for the year under review was prepared by the committee at a meeting held on the 27th July 1875. The receipts were estimated at Rs. 1,01,074, and the expenditure at Rs. 99,504. The actual receipts proved to be Rs. 1,14,017-5-4, and the actual expenditure Rs. 98,090-9-11.

8. The estimate for the ensuing year was prepared and passed at a meeting held on the 7th July 1876. The estimated receipts are Rs. 1,06,978, and the estimated expenditure Rs. 1,04,608. This estimate has been approved by you.

9. The committee resolved, at the meeting held on the 26th August 1876, to levy during the ensuing year the maximum rates of cess.

10. As noticed in paragraph 5 of last year's report, the committee decided to entertain a complete engineering and office establishment of their own for district road works, and accordingly Baboo Soorjee Coomar Pundit was appointed District Engineer, and took charge of his duties on the 1st January 1876. He has been much hampered by the want of overseers, having never during the year had his full complement of three; indeed for four of the nine months during which he has held office he has only had one overseer to assist him. He has, however, up to date given entire satisfaction to the committee.

11. A redistribution of the balance of allotments on district and village roads was passed at the meeting held on the 20th June 1876, its object being to transfer grants from works over which no sufficient supervision could be exercised, or which could not profitably be carried on during the rains, to others which it was desirable and possible to press on.

12. I now proceed to give some account of the work done during the year, quoting mainly from a report by the District Engineer.

13. The roads of this district, exclusive of village roads, are 39 in number, with a mileage of about 666 miles. For the maintenance and construction of these roads the total allotment, as per the sanctioned estimates, was Rs. 66,545, and this sum, together with Rs. 15,000 for village roads and Rs. 240 for the Berhampore dāk bungalow, was the entire sum originally allotted for district works of every description.

The principal original works in hand were as follow:—

14. Bridging the Jellinghee road. The two unfinished masonry bridges, one of three openings of 10 feet at Katadara, the other of two openings of 10 feet at Islampore, were completed and opened to traffic. An old girder bridge at Bhalughat, on the 9th mile of the road, was to have been repaired; but it appears to have been badly constructed, and was carried away during the high floods of 1875. A new bridge of two arches of 10 feet span was built at a distance of about 50 feet from the site of the old one. This bridge was, practically speaking, completed and opened to traffic before the close of the cess year, the completion of the wing-walls and plastering being all that remained to be done.

The following are the details of the works executed:—

Katadara bridge—

Earth-work	31,431 c. ft.
Brick-work	6,785 „
Soorkee plastering	5,394 s. ft.

Islampore bridge—

Brick-work	100 c. ft.
Soorkee plastering	2,224 s. ft.

Bhalughat bridge—

Earth-work	31,583 c. ft.
Brick-work including flooring	13,846 „

15. *Raising and bridging the Badshahi road.*—This is an important road, running from the boundary of the district at Kullee to Jarur, on the Mooraroo road. Twenty-seven miles of this road were constructed in previous years. The embankment of the portion from river Brahminee to beyond Gopal chuck (about 5½ miles) was completed last year. The remainder of the road, four miles, has not yet been commenced. The amount of work done since 1875 is—

Earth-work	1,935,008 c. ft.
Dressing and turfing	212,401 s. ft.

Also about three lakhs of bricks were moulded and put into kilns for the construction of bridges on this road.

16. *The Patkabaree road.*—This road from Gorahazar to Patkabaree, about 27 miles in length, was almost completed, excepting a portion at Mahomedpore, where the road has to be

turned to avoid the encroachments of the river Jellinghee. It has been temporarily bridged throughout.

About 80,000 bricks were moulded and burnt; 1,298,504 cubic feet of earthwork executed, with 290,736 superficial feet of dressing and 248,163 superficial feet of turfing.

17. *The Panchgaon road*—This is a new road, 34 miles in length, connecting Rampore Hât with Moorshedabad; 28 miles of it were completed in former years. A length of two miles across Bushiar bheel having been found to be insufficiently raised, the defect has been remedied during the year under report, and one 5-foot culvert was built. The quantity of work done was—

Earthwork	278,003 c. ft.
Dressing and turfing	107,107 s. ft.
Brick-work	1,436 c. ft.
Bricks moulded and burnt	3½ lakhs.

18. *The inspection bungalow*.—One inspection bungalow was constructed on the 16th mile of the Jellinghee road. The only work remaining to be done to it is flooring and plastering.

19. *Bridging the Kandee road*—Three 4-foot culverts were built, and the road was bridged throughout except at Khursa, where a bridge of two openings of 10 feet each is to be constructed during this year. The work executed was—

Brick-work	3,166 c. ft.
Soorkee plastering	1,670 s. ft.

20. *The bridges and culverts on Mooraroe road*.—Two of the culverts were constructed, and the large 4-span girder bridge at Pakour was thoroughly repaired by rebuilding wing-walls, parapets, and portions of abutments and piers. The bridge has received a new brick-on-edge floor throughout. The work executed was—

Brick-work	7,890 c. ft.
Soorkee plastering	948 s. ft.
Pointing	2,079 „
Brick-on-edge floor	936 „

- A 3-arched bridge at Roghunathgunge entirely gave way on account of bad materials and inferior workmanship. A new bridge of three openings of 10 feet each has to be constructed this year, the estimate for which has been submitted for sanction.

21. *The culverts on Munkurah road*—One 4-foot culvert was constructed and opened to traffic at a cost of Rs. 128-15-3.

22. *The culvert on the Jeagunge and Khamrah road*.—One 8-foot culvert was built at an expense of Rs. 241-14-9. This was erroneously charged to the repairs to the Khamrah Serai road, and the entry had to be rectified in the annual accounts.

23. *Surveying road*.—Ten miles of Patkabaree road were surveyed and marked out by pegs. A portion of the Badshahi road (6½ miles) was also surveyed and laid out.

24. *The road alongside of southern drainage cut*.—This road is the commencement of the Patkabaree road, and is in charge of the Executive Engineer, Nuddea Rivers Division. The embankment of the road and the two iron girder bridges were completed and opened to traffic. Work executed was—

Earthwork	1,886,794 c. ft.
Dressing	635,086 s. ft.
Turfing	94,482 „

The following were the repairs executed during the year :—

25. *The Bhugwangola road with a branch to Jeagunge*—This is a metalled road 21½ miles in length. Nine miles of the road were remetalled and four miles were patched and repaired. The flanks of the road where metal was laid were made up with earth, and the jungle along the roadside removed. The quantity of work done was—

Collecting metal	129,518 c. ft.
Spreading and consolidating	113,456 „
Earthwork	149,905 „
Jungle clearing	19 miles.

26. *The station roads*.—The metal from Punchanun to Kasimbazar, and Kasimbazar to Choonakhali, about 2½ miles in length, were remetalled. The remaining 1½ miles are in good order. 36,801 cubic feet of metal were collected and consolidated.

27. *The bridges on Jellinghee road*.—Slight petty repairs were executed to the bridges and culverts on the road; some of these, which were badly built, are to be repaired or reconstructed this year.

28. *The Kandee road*.—A temporary bridge or causeway was made across the Dwurka river, and ordinary repairs were executed to the road and bridges; but the flood in August last did unusual damage to four miles of the road. The damaged portion is now under repair.

29. *The Mooraroe road*—This is a useful feeder road, 15 miles in length, extending from Roghunathgunge, opposite Jungypore, to Mooraroe railway station. Four miles of the

road, which were very low, were raised, and the rest of the road got the usual annual repairs. Work done since 1875—

Earthwork	917,849 c. ft.
Dressing	340,699 s. ft.
Turfing	21,668 „

30. *The Pakour road*—This is an unraised tract, kept in repair by the sub-divisional officer of Rampore Hât.

31. *The Nulhattee road*.—This road runs alongside of the Nulhattee State Railway. Four miles of the road were repaired. The remainder of it was in fair order.

32. *The road on the right bank of Bhagiruttee*.—Fifteen miles of the road were repaired, and two miles from Baloon to Radharghat were raised and turfed. Four temporary bridges were erected and jungle removed from the sides and slopes. About 662,809 cubic feet of earthwork were executed.

33. *The Jellinghee road*—The surface of this road was repaired and some minor breaches were filled in.

34. *The Barramassia road*.—The usual surface repairs were done.

35. *The Beaulah road*.—The surface of this road was repaired where requisite, and temporary bridges or causeways were thrown across the Gobra and Bhoirub for the convenience of traffic in dry season. These were removed when the flood rose. Near Tatoolia Bazar the road has been encroached on by the river.

36. *The Munkurah road*.—This road was thoroughly repaired, and is in very good order.

37. *The Jagunge to Khamrah Serai road*.—This road, which was very low from 16th to 20th mile and 29th to 32nd mile, was raised to an average height of three feet. Several deep breaches were also filled in. The road is now in good order throughout. Work executed was—

Earthwork	2,014,830 c. ft.
Turfing	141,832 s. ft.
Dressing	266,312 „

38. *The Dewanseraï and Murcha road*.—Surface repairs where necessary were executed, and two bridges, which were unsafe, were thoroughly repaired by building wing-walls, parapets, and arches.

39. *The Jungypore to Khamrah Serai road*.—The whole of this road (six miles), which was in very bad state, was raised throughout and turfed. Quantity of work done was—

Earthwork	754,816 c. ft.
Dressing and turfing	139,388 s. ft.

40. *The Kuttamari to Furreedpore, Kuttamari to Barramassia, Barramassia to Jellinghee, and Furreedpore to Nowada roads* were repaired by planters and were kept in good order.

41. *The Dewanseraï to Lalgola road*.—This is a short road, three miles in length, and is kept in repair by the Rajah of Lalgola at his own request and at his expense.

42. *The Beldanga road*.—This road extends from Beldanga to Majumpore, and was thoroughly repaired.

43. *The old Calcutta road*.—Jungle-cutting and surface repairs to the road, which is seven miles in length, were executed. It is now in a fair state of repair.

44. *The Avenue road to Gobra nulla*.—This road, five miles, received surface repairs, and is in good order.

45. *The Kishnaghur road*.—This road, 20 miles in length, was repaired by clearing jungle and filling up holes and ruts. The masonry and plastering of the culverts were also repaired, and two of the bridges were thoroughly repaired.

46. *The Lalbaugh road*.—This is a fair-weather tract, inundated by the floods. Surface repairs were done, and a temporary bridge was constructed across the old bed of the Bhagiruttee in the dry season and removed before the floods.

47. *The Chandmari road*.—This is a short road, $1\frac{1}{2}$ miles in length. Jungle-cutting and surface repairs were executed. The road is in fair order.

48. *The Donegram road*.—This is a feeder road, nine miles in length, connecting Rampore Hât with Donegram. Four miles of the road were repaired. The remainder of it did not need any repairs. The inspection hut at Rampore Hât was also repaired.

49. *The Badshahi road*—The portion of the road from the river Brahminee to Kullee, which was finished in previous years, was repaired by filling in breaches and removing jungle.

50. *The Patkabaree road*—The first mile of the road was thoroughly repaired. The portions of the road from Hurrihurpara to Mahomedpore and Nowada to Patkabaree, and all the temporary bridges, were kept in repair. Three temporary bridges or causeways were thrown across the river at Barraepara, Hurrihurpara, and Mahomedpore, to accommodate traffic in the dry season. The roofs of the inspection bungalow and the out-office attached to it at Hurrihurpara, which were completely blown away by a storm in July last, were entirely renewed. Two of the bridges near Choa were also repaired.

51. *The Panchgaon road*.—Ordinary surface repairs and jungle-clearing were done to 11 miles of the road. The thatching of the bungalow at Panchgaon was renewed.

52. *The Dâk bungalow*.—The grass thatching of the bungalow was renewed and some petty repairs executed.

53. The following table shows the amounts sanctioned and expended for the village roads under several branch committees during the year :—

Names of branch committees or sub-division				Amount sanctioned for 1875-76.			Amount expended for 1875-76		
				Rs.	A.	P.	Rs.	A.	P.
Sudder sub-division	3,050	0	0	2,073	8	4
Lalbaugh ditto	1,500	0	0	850	0	0
Rampore Hât Branch Committee	3,750	0	0	3,749	12	3
Jungypore ditto	ditto	2,250	0	0	2,055	1	2
Kandee ditto	ditto	2,000	0	0	1,445	14	6
Choa ditto	ditto	2,450	0	0	2,898	4	6
Total				15,000	0	0	13,072	8	9

54. I have not been satisfied with the system on which the repairs of these village roads have generally been conducted. We have no certain information as to the work done, and no proper check upon either quantity or quality. Considering myself that village roads are most important as bringing home to the body of the people the fact that they get a real return for their cess payments, I have this year, in communication with the Road Committee, endeavoured to improve the system, and hope to be able in next report to give something more than a mere abstract return of gross expenditure.

No. 6—PART II.

MOORSIEDABAD DISTRICT ROAD FUND.

Details of Income and Expenditure for the cess year 1875-76 from 1st October 1875 to 30th September 1876, to accompany the Annual Account for that year.

GURU CHURN DOSS,
Vice-Chairman.

Memorandum of the Alterations of Allotments in the budget of 1875-76.

1. A SUM of Rs. 1,793 more was sanctioned for the construction of bridges on the Jellinghee road, and it was settled that this amount would be met from the allotment sanctioned for the repairs to the bridges on that road which has not been expended.

2. The sums of Rs. 3,000 for metalling Bhugwangola road, Rs. 428 for repairing Jellinghee road, Rs. 441 for repairing Jungypore and Khamrah road, Rs. 28 for Chandmari road, and Rs. 73 for Donegram road, were also sanctioned in addition to the budget allotments, and it was settled that these sums would be met from the savings of other items (*vide* the statement of reallootments passed by the Committee at the meeting held on the 20th June 1876).

3. The payments of Rs. 433 on account of compensation for a private ferry at Polashbaree, Rs. 710-6-5, being further compensation for the land taken up for the road alongside the Gorabazar drainage cut, and Rs. 7,503, being the charges for the Public Works establishment of 1874-75, were passed by the committee (*vide* the proceedings of the meeting held on the 20th June 1876).

4. The pay of the accountant in the District Engineer's Office was raised from Rs. 40 to 50, as per proceedings of the meeting on the 26th January 1876.

GURROO CHURN DOSS,
Vice-Chairman.

No. 13PR, dated Calcutta, the 13th April 1877.

From—C. T. BUCKLAND, Esq., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual accounts of income and expenditure of the District Road Fund in the several districts of this division for the cess year ending 30th September 1876, together with the reports of the works done and in progress during the year under review by the several Road Cess Committees.

2. The reports from the District Magistrates and Chairmen of the several Road Cess Committees were received in this office on the following dates :—

24-Pergunnahs	25th January 1877.
Nuddea	24th November 1876.
• Jessore	29th January 1877.
Moorshedabad	21st December 1876.

3. I regret to say that, owing to numerous discrepancies in the accounts which required explanations, it was necessary to make references to the district officers, of whom two only have as yet sent in their replies. The explanations called for from the Magistrates of Jessore and Nuddea have not yet reached me. These, when received, will be submitted to Government if any further remarks are needed on them.

4. During the year under review the following general meetings of the committees and sub-committees were held in the several districts under the Road Cess Act :—

24-Pergunnahs	5 general meetings and 2 sub-committees.
Nuddea	2 general meetings.
Jessore	4 ditto.
Moorshedabad	7 ditto.

In Nuddea the requirement of the law, which requires four meetings in the year, was not complied with.

5. In the district accounts, with the exception of Nuddea, the receipts and expenditure agree with the aggregate of their quarterly returns. The Chairman of the Nuddea district has been called upon to explain the discrepancy which exists in his accounts.

6. 24-Pergunnahs.—In 24-Pergunnahs the receipts of the year amounted to Rs. 1,59,351-13-10, against Rs. 1,81,132-7-5 in the previous year, thus showing a decrease of Rs. 21,780-9-7. This decrease is attributable to the large amount of balance in hand at the close of the year 1874-75, viz. Rs. 32,707-4-11½ against Rs. 12,251-7-4 in the year under review, and partly to the non-payment of Rs. 5,790-14-9 on account of the last day of payment of the September instalment having fallen within the late Doorga Poojah holidays. It will be seen, however, that out of the above amount of Rs. 5,790-14-9, Rs. 3,047-7-6 were collected on the 4th October following, which was the first opening day of the office after the holidays, and the balance, Rs. 2,743-7-3, is accounted for by the fact that as there was only one day for the payment of land revenue after the holidays, payments on account of such revenue were unusually hurried, and the payers could not be induced to pay the cess in addition to the revenue.

7. The total amount of arrears of road cess due on the 30th September 1876 was Rs. 15,180, of which Rs. 10,721 have since been collected up to 12th January 1877.

8. The total proceeds of the cess, including fines imposed and fees realized, amounted during the year to Rs. 1,19,560-13-1½, which with Rs. 25,313-5-1½, the receipts from road and ferry tolls, and Rs. 12,251-7-4, the balance of the past year, and two or three other items, made up a total of Rs. 1,59,351-13-10 at the committee's disposal. Of this sum Rs. 33,320-1-4, or 20 per cent. of the income, were spent on establishment, Rs. 15,307-13-6 on original works, Rs. 89,434-1-7 on repairs, and Rs. 2,296-13 on tools and plant, leaving Rs. 18,993-0-5 as the balance in hand at the close of the year.

9. Under original works, Rs. 7,785-12-0 were expended in metalling a portion of the Goburdanga road, and the remaining sums were expended in the construction of bridges and culverts. Under head "repairs," Rs. 64,431-1-0 were spent on metalled roads, Rs. 8,303-7-6 on unmetalled roads, Rs. 4,438-4-0 on bridges and culverts, and Rs. 12,261-5-1 on the improvement of village roads.

10. The works on the improvement of village roads were supervised mainly by the sub-divisional officers. The details of the work done are given in the Chairman's report. Considering the high demands of the district for the construction of village roads, I am sorry to observe that Rs. 12,261-5-1 were scarcely an adequate provision for this important purpose.

11. With reference to paragraph 12 of the Chairman's report regarding the maintenance of the municipal roads, I think that the committee should address the several municipalities concerned requesting them to take charge, from 1st April, of the roads lying within their respective limits, which have hitherto been kept in repair by the Road Cess Committee, and that no money should be expended in future on such roads.

12. With regard to the metalling of the Jessore road reported in paragraph 13, clause 1, of the Chairman's report, I beg to suggest that the Public Works Department may be requested to state if there is any intention on the part of Government to complete this road within any reasonable time.

13. Considering the many more important claims on the District Road Fund, I concur with the Chairman (*vide* paragraph 15 of his letter) that the project for the construction of the Moismaree road was wisely abandoned by the committee.

14. With reference to paragraph 16 of Mr. Wilson's report, I think that it is a matter of great satisfaction that the committee were able to utilize the services of the principal residents of villages in expending money for the improvement of village roads, especially in the Diamond Harbour sub-division, and it appears that the villagers have in most cases made good use of the money.

15. The Police Inspector Baboo Gouripuddo Chuckerbutty, who evinced great activity in supervising the works executed on village roads in the sudder sub-division (*vide* paragraph 18 of the Chairman's report), deserves the thanks of the committee.

16. With reference to paragraph 23 of the Chairman's report regarding the payment of a small travelling allowance to the road cess clerk for the supervision of the works on village roads in the Satkhira sub-division, I think that the charge was not admissible, and that an overseer, instead of a clerk, should have been deputed for the supervision of those works.

17. Thanks are due to the following gentlemen who have made voluntary contributions of the amounts mentioned opposite their names for the construction of works specified in paragraph 29 of the Chairman's report:—

	Rs.
(1.) The manager of the estate of the late Rajah Prosonno Narain Deb	70
(2.) Baboo Bonomally Chuckerbutty	400
(3.) „ Degumber Mozoomdar	200
(4.) „ Dwarkanath Biswas of Jaun Bazar	50

18. I concur in the opinion expressed by the Chairman in paragraph 25 of his report regarding the manner in which the District Engineer, Baboo Radhicansaud Mookerjee, conducted the duties of his office.

19. The following sub-divisional officers, who evinced great interest in supervising the construction and repairs of the village roads situated within their respective sub-divisions, deserve special commendation:—

Mr. B. L. Gupta	} Diamond Harbour.
„ J. G. Ritchie	
Baboo Rakhdass Mookerjee	Barripore.
„ Bejoymadhub Mookerjee	Satkhira.

20. Thanks are also due to the following gentlemen who have shown much public spirit by devoting a great portion of their time in furthering the object of the Road Cess Act:—

- (1.) Baboo Sham Churn Law, member, District Road Cess Committee.
- (2.) „ Dwarkanath Biswas, ditto ditto.
- (3.) „ Debnarain Dutt, member, Branch Road Cess Committee, Barripore.
- (4.) „ Degumber Mozoomdar, ditto ditto, Diamond Harbour.
- (5.) „ Baueymadhub Chuckerbutty, ditto ditto, Dum-Dum.

21. It is stated that the committee were enabled to set apart large sums of money for the prosecution of the works under their charge, by a saving effected in the cost of establishment (*vide* paragraph 31 of Mr. Wilson's report); but, as the Chairman has not given the particulars of this saving, I have called upon him for a detailed report, which will be submitted in due course.

22. *Nuddea*—In Nuddea the total receipts of the year amounted to Rs. 1,87,303-4-3, including the Government grant of Rs. 79,145-9-2, against Rs. 80,339-6-10 of the previous year. The proceeds from the cess on land and on houses amounted to Rs. 69,166-13-5 and Rs. 10,853-10-11 against Rs. 79,488-7-3 and Rs. 13,250-6-6 respectively in the previous year, thus showing a decrease of Rs. 10,321-9-10 in the cess on land and Rs. 2,396-11-7 on houses; and the Chairman explains that the Doorga Poojah holidays having commenced from the 23rd September, the last kist of the year was put off till the fourth day of October following. A part of the income therefore under each of the above two heads was not available during the year. Moreover, the collection of arrears in 1874-75 was Rs. 11,153 against Rs. 6,176-13-3 in 1875-76.

23. There is a discrepancy of Rs. 1,646-11-9 between the amount shown as cess on land in the body of the report and the accounts, which the Chairman explains by stating that in the accounts the sums refunded by other districts have been treated as a distinct item and shown under the sub-head of "refunds;" but as they were realized as cess on land, they have been incorporated with the income derived in the district under the head "cess on land" and the total shown in the body of the report.

24. The receipts from road and ferry tolls amounted to Rs. 24,809-9-9 against Rs. 19,869-7-9 in the previous year, thus showing an increase of Rs. 4,940-2-0 in the year under review, which is considered satisfactory.

25. Mr. Stevens has noticed (*vide* paragraph 5 of his report) that the income under the heads of "ferry" and "road tolls" was increased by Rs. 4,339-9-9; but the figures exhibited in the accounts show Rs. 4,940-2-0, or a difference of Rs. 600-8-8 between his report and the accounts. I have asked Mr. Stevens to explain this discrepancy, and shall report on the subject on receiving his reply.

26. The total expenditure for the year on all heads was Rs. 2,01,400-4-4, of which Rs. 98,041-8-4 were spent in the payment of liabilities of the past years, Rs. 20,790-15-11, or 11 per cent. of the income of the year, were expended on establishment, Rs. 24,310-2-11 on original works, Rs. 57,207-9-10 on repairs, and the rest on two other petty items. The expenditure exceeded the income by Rs. 14,065-15-10, which has been shown as a deficit* in the accounts.

27. The outlay on the improvement of village roads has not been separately shown, nor have the details of work done and in progress been reported. The expenditure on village roads has been included in that of road works under the heads "original works" and "repairs." This is an erroneous practice, and I have pointed out to Mr. Stevens that it should be avoided in future.

28. The Chairman has noticed (*vide* paragraph 26 of his report) the comparative insufficiency of the funds now placed at the committee's disposal to meet the full requirements of the district, and he observes that disappointment prevails among those people who expected greater benefits in return for the road cess which they pay.

29. During the year under review serious forgeries were discovered, which had been committed by Baboo Baney Gopaul Mookerjee, the accountant of the road cess office, whereby a sum of Rs. 15,401 was obtained from the Collector's treasury by means of forged cheques. A report on the subject has already been sent to the Public Works Department from the Government in the Financial Department (*vide* No. 808, dated 21st March 1877).

30. Mr. Stevens' remarks regarding the conduct of the Road Fund establishment (*vide* paragraph 28 of his report) were written before the forgeries mentioned in the last paragraph had been discovered, and I am sorry to say that I cannot endorse his opinion, nor can I consider the general administration of the committee to have been so efficient as it should have been.

31. *Jessore*—In Jessore the receipts of the year under review were Rs. 1,98,179-10-3 against Rs. 1,44,051-8-8 of the previous year, thus showing an increase of Rs. 54,128-1-7. This increase is attributable to the large balance of Rs. 81,014-12-8 in hand at the close of the previous year.

32. The receipts from the cess on lands and on houses during the cess year ending 30th September 1875 were Rs. 1,11,816-10-6 and Rs. 6,573 respectively; but in the year under review the receipts from the same sources were respectively Rs. 1,03,043-8-0 and Rs. 5,752-4-0, showing a decrease of Rs. 8,773-2-6 in the cess on lands and Rs. 820-12-0 in that on houses. The Chairman explains that the decrease in the cess on lands is owing to the following reasons:—

1st—The transfer of 178 Government estates from register III to register I, which caused a decrease in the demand of the year 1875-76 of Rs. 1,223. The cess on estates entered in register III was levied at the rate of two pice on every rupee of the gross rental, whereas the cess on estates shown in register I was collected at the rate of two pice on every rupee of the gross rental, or minus one pice in every rupee of the Government revenue payable.

2nd—The cess on revenue-free estates, amounting to Rs. 1,577, having become payable in January 1876, instead of, as formerly, in the preceding June, under orders of the Board, was excluded from the demand of the year 1875-76.

3rd—During the year 1874-75 the collections from the ryots of Government estates, which were credited to Road Fund, exceeded those of 1875-76 by Rs. 5,266. In the year 1874-75 there were 229 Government estates; but, owing to the transfer mentioned above, the number of Government estates in 1875-76 was reduced to 51.

33. The decrease in the collections of cess on houses was due to the following causes:—

1st—The demand of the year 1875-76, when compared with that of 1874-75, fell short by Rs. 396 owing to the remissions sanctioned, as well as to the alteration of the cess on Government buildings, as ordered by the Board in their letter No. 226A., dated 22nd May 1876. The assessment being quinquennial, there were no new assessments to compensate for the remissions.

2nd—A large sum of arrears, amounting to Rs. 1,147, which remained outstanding at the close of the year 1873-74, was realized during the year 1874-75, which closed with a comparatively smaller balance.

The above explanations not being satisfactory, further explanations have been called for, and these, when received, will be submitted in due course.

34. The receipts from the several cesses amounted to Rs. 1,09,279-5-7, which, with the balance of the previous year and Rs. 6,911-8-9, the receipts from ferry tolls and two other petty items, made up the sum of Rs. 1,98,178-10-3, which were under the

committee's disposal during the year under review. Of this sum Rs. 32,521-15-10, or 16 per cent., were spent on establishment, Rs. 11,100-1-1 on original works, Rs. 1,28,357-10-3 on repairs, and Rs. 4,932 on tools and plant.

35. In the previous year Rs. 1,149-1-9 and Rs. 494-15-0 were respectively charged as establishment on district works and tools and plant, but in the current year Rs. 26,622-2-9 and Rs. 4,932-5-11 have been exhibited as expenditures under those heads: hence there is an increase of Rs. 25,473-1-0 in the establishment and Rs. 4,437-6-11 in tools and plant. The Magistrate explains that in the previous year 1874-75, the works were almost entirely carried out under the supervision of the officers of the Public Works Department. In August last the committee engaged their own engineering staff, of which the details appear in the annual accounts. The item of establishment also includes a sum of Rs. 3,990 paid to Government for the services of the Public Works Department during the previous year. The increase in the item of tools and plant has arisen from the formation of a new office; the detailed account showing the purchase of office furniture, surveying and drawing instruments, and a large supply of kodalics.

36. Of the amount of Rs 11,100-1-1 allotted for original works, Rs. 7,364-5-5 were spent in the construction of the road between Chanchra and Nurrail—the second section of the Jessore and Nurrail road—Rs. 2,282-3-3 for erecting tál-wood culverts on the Magoora and Benodepore road, and the balance was expended in the construction of inspection bungalows. Under the head of "repairs" Rs. 84,116-11-4 were spent on metalled and unmetalled roads and culverts, and Rs 33,144-13-10 were spent on village roads.

37. The allotment of Rs. 33,140-13-10 for the improvement of village roads was sufficient for the purpose. The details of the works done are fully given in the Chairman's report; and it is very satisfactory to notice that the District Committee have a just sense of the importance of spending a fair amount of the year's income in this manner.

38. The fact that people come forward to help the progress of work, and give up their land even to their own inconvenience, and watch and supervise the work (*vide* paragraph 48 of the Chairman's report), shows that the money is well spent, and that the people are thus enabled to appreciate the advantage derived from the road cess, as the Chairman has pointed out in the final paragraph of his report.

39. Regarding the District Engineer Mr. Burt (*vide* paragraph 50 of the Chairman's report), I fully concur in the opinion recorded of him by the Chairman of the committee.

40. Thanks are due to the gentlemen named below who took an active interest in the execution of works in the Khoolna sub-division, as noticed in paragraph 45 of the Chairman's report:—

Revd. Gopal Chunder Dutt.

Baboo Deno Nath Roy, Supervisor, Public Works Department.

„ Borada Churn Sen, Kobiraj.

„ Gobind Chunder Ghose, Talookdar.

41. It is to be regretted that the Chairman has not mentioned a larger number of the names of those who must have taken a part in carrying out the works of the district.

42. *Moorshedabad*.—In Moorshedabad the proceeds from the several cesses amounted to Rs. 90,244-11-9, which, with Rs. 8,916-9-6, the receipts from ferry tolls and two or three other items, made up Rs. 1,11,017-5-4 as the total income of the year. Of this sum, Rs. 17,645-3-6, or 15 per cent. of the income, were expended on establishment, Rs. 30,381-4-9 on original works, Rs. 49,832-4-2 on repairs, and Rs. 231-13-6 on tools and plant; the balance in hand at the close of the year being Rs. 15,926-11-5. Details of the works completed and in progress have been given in the Chairman's report.

43. Under original works, Rs 6,766-14-7 were spent on the construction of a road by the side of the drainage cut from Gorabazar to Gobra nullah, Rs. 6,105-11-0 for raising and bridging the Badshahi road, Rs. 5,508 for constructing Patkabaree road, Rs. 4,233-14-3 for erecting bridges on the Jellinghee road, Rs. 3,692-3-10 in the construction of the Panchgram road, and Rs. 2,017-3-0 in the construction of the Mooraroe road. The other minor works require no particular notice.

44. Under the head of repairs, Rs. 12,501-10-9 were spent in metalling the Bhugwan-gola road and Rs. 13,072-8-9 were expended for the improvement of village roads.

45. It will be observed that the cess on lands increased this year to Rs. 85,079-10-7 against Rs. 68,163-14-1, and the ferry tolls to Rs. 8,916-9-6 against Rs. 6,535-5-9 in the previous year. There was a decrease of Rs. 1,080-13-0 in the cess on houses during the year under review, and the Chairman to the District Committee explains that a sum of Rs. 784-6-0, which was collected during the cess years 1873-74 and 1874-75 on account of cess on East Indian Railway buildings, was exempted under Government order No. 840R., dated 25th March 1875, and that the sum was refunded to the Railway Company from the receipts of house cess for 1875-76. This payment plus the sum of Rs. 367-3-0, being the smaller collection of the last year from the same source, comes to a little above the amount which has been shown as a decrease.

46. As regards the preparation of plans and estimates of all works beyond the power of the committee to sanction, reported in paragraph 5 of Mr. Mackenzie's report, I request

No. 12P.R. dated 6th March 1876.

„ 14P.R. „ 31st „ „
 „ 30P.R. „ 14th June „ „
 „ 4P.R. „ 21st February 1877.
 „ 11P.R. „ 4th April „

a reference to the correspondence noted in the margin, from which it will be seen that Government orders have been repeatedly asked for, but have not yet been received.

47. In paragraph 10 of the committee's

report, Mr. Mackenzie complained of the insufficiency of the engineering establishment, owing to the District Engineer not having a sufficient number of overseers under him; but it appears to me that it rests with the committee to make such appointments as they deem necessary for the efficient execution of their district works.

48. It is satisfactory to observe that Rs. 13,072-8-9 were expended for the improvement of the village roads in the district, and that due attention was paid by the committee to this important work. A special reference was made by Mr. Mackenzie to this office regarding the check exercised over the expenditure on village roads, and his suggestions were circulated to the other districts, from which the replies have not yet been received.

49. I fully endorse the opinion recorded by Mr. Mackenzie regarding the District Engineer Baboo Soorjee Coomar Pundit (*vide* paragraph 10 of the report). The Chairman has omitted to mention the names of the members of the committee, or any private individuals, who showed any marked interest in the operation of the year.

50. In conclusion, I beg to suggest that, for the sake of convenience and for the more prompt despatch of business, the annual estimates of works which have to be submitted for the sanction of Government should be passed more quickly than has hitherto been the case. The complaints on this subject are numerous and, I regret to add, not unreasonable. But if greater expedition is found impracticable, I would suggest that a discretionary power should be granted to each committee to undertake and execute works, in anticipation of Government sanction, up to 75 per cent. of the budgetted amount, at least on all works of *repairs*, as, with regards to *repairs*, it is not possible for any supervising authority to exercise any severe control over the discretion of the committee, except as to the rates and quantities estimated, for which a margin of 25 per cent. should be sufficient.

No. 24PR., dated Calcutta, the 8th May 1877.

From—R. L. MANGLES, Esq., v.c., Offg. Commissioner, Presidency Division,
To—The Secretary to the Government of Bengal, in the Public Works Department.

IN continuation of paragraph 3 of this office letter No. 13PR, dated 13th ultimo, submitting the annual accounts of income and expenditure for the cess year ending 30th September 1876, I have the honor to state that, in reviewing the accounts of the District Road Cess Committee of Nuddca, it was pointed out that the total receipts during the year, as per quarterly statements of the district, come to Rs. 1,94,885-9-1, and the expenditure to Rs. 2,13,631-11-8½; but that the annual accounts showed Rs. 1,87,303-2-3 as receipts and Rs. 2,01,400-4-4 as expenditure, or a difference of Rs. 7,582-6-10 in the receipts and Rs. 12,231-7-4½ in the expenditure. The following explanation has now been furnished by the Chairman on the subject:—

“The difference pointed out by you are the results of corrections made by the Controller in the several quarterly returns, after copies of them had been submitted to your office. In the returns of the first three quarters, the security deposits received from the contractors and the refunds of all descriptions, were dealt with as portion of the revenue, and in like manner the repayment of liabilities and refunds of all descriptions were treated as expenditure. This, however, was not allowed by the Examiner. He struck off all entries of the kind from the debit side of the returns, and adjusted them by making adequate deductions from the receipt side. The accompanying statement B shows the number of times each member attended the meetings:—

ESTABLISHMENT.

The 20th August 1877.

No. 223.—Posting.—Mr. W. McCullagh, Sub-Engineer, First Grade, deputed to Madras for employment on famine relief works, having returned to duty in this Province, is posted to the Bhagulpore Division.

No. 224.—Leave of Absence.—Mr. W. McCullagh, Sub-Engineer, First Grade, attached to the Bhagulpore Division, is allowed privilege leave for three months, under Section 12, Supplement F of the Civil Leave Code.

The 21st August 1877.

No. 225.—Transfer.—Baboo Bhuggobutty Churn Gangooly, Overseer, Second Grade, from the Burdwan to the Orissa Division, in the interests of the public service.

No. 226.—Notification.—Baboo Chunder Mohun Chuckerbutty, Probationary Overseer, Third Grade, attached to the Dacca Division, availed himself of the three months' privilege leave* granted to him from the 1st instant, before noon.

* Bengal Government (Public Works Department) Notification No. 210, of the 20th July 1877.

No. 227.—The undermentioned officer has been allowed an extension of leave by the Secretary of State for India:—

R. C. McKennie, Executive Engineer, Fourth Grade, Public Works Department, for two months on medical certificate.

No. 228.—Notification.—Baboo Rakhal Dass Chatterjee, Assistant Engineer, Third Grade, attached to the Dacca Division, availed himself of the three months' privilege leave* granted to him from the 8th instant, before noon.

* Bengal Government (Public Works Department) Notification No. 208, of the 20th July 1877.

G. A. D. ANLEY, C.E.,

On or about Wednesday, 3rd October 1877	..	2,080 [*]	1,920	4,000
On or about Friday, 2nd November ,,	...	2,080	1,920	4,000
On or about Monday, 3rd December ,,	...	2,080	1,920	4,000
Total	...	6,240	5,760	12,000

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILIAM, the 31st July 1877.

NOTIFICATION.

NOTICE is hereby given that from 21st August until 1st November 1877, or till further notice, food-grains for Indian ports may be water-borne for shipment or shipped in any class of boat available, under special permits from the Collector of Customs. Printed books containing the special permits will be supplied to every shipping firm on application to the Collector of Customs.

By order of Govt and Board of Revenue,

The 21st August 1877.

J. D. MACLEAN, *Collector of Customs.*

The Calcutta Gazette.

WEDNESDAY, AUGUST 22, 1877.

PART I A.

Orders and Notifications by the Government of India.

The following *Gazette Extraordinary*, issued by the Government of India in the Home Department, is republished for general information :—

No. 1580.—*Simla, the 16th August 1877.—Notification.—Public.*—The Governor-General in Council hereby declares that it is expedient that the Governor-General shall visit certain parts of India unaccompanied by his Council. And in the exercise of the powers conferred by the Indian Councils Act, Section 6, the Governor-General in Council hereby nominates the Hon'ble Sir E. C. Bayley, K.C.S.I., to be President of the said Council with effect from the 17th instant, during the time of such visit; and the powers of the Governor-General in assemblies of the said Council during the time of such visit shall be reposed in the said the Hon'ble Sir E. C. Bayley, except that of assenting to, or withholding his assent from, or reserving for the signification of Her Majesty's pleasure, any law or regulation as provided in the 24th and 25th Vic, Cap. 67. And the Governor-General is authorized by this order, made for that purpose alone, to exercise all or any of the powers which may be exercised by the said Governor-General in Council in every case in which the said Governor-General may think it expedient to exercise the same, except the powers of making laws and regulations.

The following order, issued by the Government of India, in the Private Secretary's Office, is republished for general information :—

Simla, the 8th August 1877.—Notice.—All covers intended personally for His Excellency the Viceroy and Governor-General and party,* during His Excellency's visit to the Madras

* Lieut.-Col. O. T. Burne, C.S.I., Private Secy.
Colonel G. P. Colley, C.D., Military Secy.
Dr. O. Barnett, Surgeon.
Captain the Hon'ble G. Villiers, A.-D.-C.
Lord William Beresford, A.-D.-C.

The Hon'ble Sir A. J. Arbuthnot, K.C.S.I.
Mr. T. H. Thornton, C.S.I., Foreign Secy.
Mr. C. E. Bernard, C.S.I.
Mr. Stuart Bayley, C.S.I.

and Bombay Presidencies, should be addressed "Governor General's Camp," without the addition of any Post Town.

All other communications connected with business of a routine nature should be sent, as usual, to the several Head-Quarters Departments at Simla.

The following orders, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

NOTIFICATIONS.—COMMERCE AND TRADE.

No. 298.

The 8th August 1877.

In exercise of the powers conferred by Sections 46 and 48 of the Native Passenger Ships Act, 1876, the Governor-General in Council is pleased to make the following rules :—

UNDER SECTION 46.

(a) Regarding provisions, fuel, and water.

I. In the case of every ship to which the Native Passenger Ships Act applies, the scale on which provisions, fuel, and water are to be supplied to the passengers per head per diem shall be as follows :

(a) Provisions of fair quality according to the following scale :—

Rice	1lb.
Dhall or salt-fish	4 oz.
Onions, turmeric, chillies or other curry stuff	2 "
Salt	½ "

(b) Fuel—

Firewood	2lb.
----------	-----	-----	-----	-----	------

(c) Fresh water, one imperial gallon. Such water shall be stored in iron tanks or sweet casks.

In the case of steamers carrying an apparatus for distilling fresh water from salt, a supply equal to five-sevenths of a gallon per head per diem shall suffice.

In Calcutta and Bombay such water shall be obtained from the municipal pipes.

(b) *Medical stores and other appliances for maintaining health, cleanliness, and decency.*

II. Every native passenger ship shall, before certificate B as provided in section 11 of the Act is granted, have on board—

- (a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in schedule A hereunto annexed ;
- (b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read ;
- (c) in either case, a sufficient supply of disinfecting powder or fluid.

III. Every such ship carrying more than 100 native passengers shall be fitted with a hospital suitable for segregating from the main body of the passengers persons attacked by any infectious disease.

IV. Every such ship shall be fitted with not less than two privies, sufficiently screened from public view and readily accessible, and with one more such privy for every 100 passengers, or part thereof, carried in excess of 100.

A proportion of such privies, in any case not less than one if there be any females among the passengers, shall be set apart for the exclusive use of females, corresponding, as nearly as may be, to the proportion of female to male passengers.

V. Every such ship shall be provided with not less than two places for washing, sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females.

VI. Cattle shall be securely penned in, so as not to inconvenience the passengers.

VII. A convenient place for cooking shall be set apart on deck, with one or more cabooses, or cooking ranges, properly housed and covered.

(c) *Boats, anchors and cables.*

VIII. Every native passenger ship shall, before certificate B as provided in section 11 of the Act is granted, be provided with boats according to the scale laid down in schedule C hereunto annexed. All such boats shall be fully fitted with all usual appliances.

IX. Every such ship shall at such time be provided with not less than three anchors and cables.

(d) *Instruments for purposes of navigation.*

X. Every native passenger ship shall, before certificate B as provided in section 11 of the Act is granted, be provided with—

- (a) not less than two good compasses ; and if she be an iron ship, the deviation of her compasses shall be ascertained on every point and be recorded in the log book ;
- (b) charts suitable for the voyage she is about to undertake ;
- (c) not less than three chronometers, and not less than two sextants or quadrants, and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

(e) *Precautions against fire.*

XI. Every such ship shall, at such time, be provided —

- (a) if she be a steamer, with hose sufficient to reach from her engines to her stem and taffrail ;
- (b) if she be a sailing vessel, with one fire-engine or force pump, with hose to reach from her stem to her taffrail ; and if her tonnage exceed 800 tons, with a second such engine or force-pump, with like hose ;
- (c) in either case, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice

XII. If fire annihilators or fire-engines, are carried, they should be placed under the special charge of one of the principal officers and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine should be worked once or twice a week, to keep it in proper order.

XIII. No native passenger ship shall put to sea until all her cargo is properly stowed away and the decks cleared of any loose straw, hay or other inflammable material.

XIV. Immediately before leaving port, the passengers shall be called on to deliver up whatever lucifer matches, gunpowder, or other inflammable articles they may have about them : any passenger omitting or refusing to deliver up any such articles will be liable to punishment.

XV. No naked lights must on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person must be allowed to read in bed with a naked light. Smoking between decks is strictly prohibited.

XVI. Spirits must never be opened in the hold, but should be hoisted on deck for the purpose.

XVII. As soon as possible after leaving port the officers and crew should be divided into parties, and assigned to stations, in case of fire.

UNDER SECTION 48.

I. For the purposes of Act VIII of 1876, the following shall be deemed to be seasons of fair and foul weather :—

Statement of Foul and Fair Seasons in British Indian Coasts

NOTE.—In sailing-ships carrying the number of boats above specified, and steam-ships carrying the larger of the two numbers above specified, the boats are to be considered sufficient if their aggregate cubic contents are equal to the aggregate cubic contents of the boats specified.

In steam-ships, carrying the smaller of the two numbers above specified, one of the boats must be a launch of the capacity specified in column 2.

In all steam-ships two paddle-box boats may be substituted for any two of the boats in column 3.

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 2192G—*Simla, the 9th August 1877.—Notifications.—General.*—The following extract from the *London Gazette*, dated Friday, June the 29th, 1877, is published for general information :—

Foreign Office, June 27, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received a telegram from Her Majesty's Ambassador at Constantinople, reporting the issue of the following notification, which has been communicated to him by the Turkish Government :—

“Avis aux navigateurs concernant le mouillage de leurs navires dans le détroit des Dardanelles, de la Mer Noire, dans le port de Smyrne, et celui de la Sude, Isle de Crete — Detroit des Dardanelles, Côte d'Anatolie. Les navires ne pourront mouiller que sur les points ci-dessus indiqués :—Nagara.—Hartahane Hôpital au bas de Nagara—Kephes—Pointe des Barbiers, et au bas de Itekirjoiz à Caravlik. Côte de Roumelie,—Kille, près Maidos, au dessous de la Batterie, de Boghali, Havouzlar et Eski Hissalek. Détroit de la Mer Noire :—Le mouillage des navires est défendu à partir de la batterie dite Madjar Tabiassi, sur la Côte d'Anatolie, et celle dite Tell i Tabia, sur la Côte de Roumelie, jusqu'à la hauteur de Roumeli et d'Anatoli Feneri. Le mouillage des navires n'est permis qu'en deça des dites batteries—Madjar Tabiassi et Tell i Tabia. Port de Smyrne.—Les navires ne pourront mouiller que dans l'intérieur du Port de Smyrne. Le mouillage sur les points compris à partir d'un mille avant d'arriver en face du fort Yenikali jusqu'à l'entrée du port même de Smyrne est défendu. Port de la Sude :—Les navires ne pourront mouiller sur aucun point à partir d'un mille de distance du port de la Sude jusqu'à l'entrée du dit port. Le mouillage n'est donc permis que dans l'intérieur du port même. Les navires qui traverseront les points interdits au mouillage des bâtimens auront le soin de ne pas laisser leurs ancres à la traine mais les avoir au haut de l'écubier et bien caponnées ”

(Translation)

Notice to Captains concerning the anchorage of their vessels in the Straits of the Dardanelles and of the Black Sea in the Port of Smyrna, and that of Suda, in the Island of Crete :—

“Straits of the Dardanelles, Coast of Anatolia.—Vessels will only be allowed to anchor at the following points :—Nagara, Husta Hane Hospital, below Nagara, Kephes, ‘Pointe des Barbiers,’ and below Itekirjoiz, at Caranlik.

Coast of Roumelia.—Kille, near Maidos, below the battery of Boghali, Havowslar, and Eski Hissarlek.

Straits of the Black Sea.—Vessels are forbidden to anchor within the following limits :—From the battery called Madjar Tabiassi, on the coast of Anatolia, and that called Telli Tabia, on the coast of Roumelia, and up to Roumeli and Anatoli Feneri. Vessels are only allowed to anchor beyond the said batteries, Madjar Tabiassi and Telli Tabia.

Port of Smyrna.—Vessels will only be allowed to anchor within the port of Smyrna.

It is forbidden to anchor at all places within a distance of one mile before arriving opposite the fort of Yenikale and the entrance of the port of Smyrna itself.

Port of Suda.—Vessels will not be allowed to anchor at any place within a mile from the port of Suda up to the entrance of the said port. Anchoring is therefore only allowed within the port itself.

Vessels crossing points where it is forbidden to anchor will be careful not to let their anchors trail, but to have them hauled up above the hawser-holes and properly catted.”

Foreign Office, June 28, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received the following telegram from Her Majesty's Ambassador at Constantinople, dated the 28th instant :—

“I am officially informed by the Porte that the beacons on Capes Sonta and Drepano, in Crete, will no longer be lighted, and no vessels are for the future to be allowed to approach places in that Island where no port or sanitary station exists.”

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 2459.—*Simla, the 10th August 1877.—Notifications.—Accounts.*—The following Financial despatch from Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor-General of India in Council, No. 229, dated 5th July 1877, is published for general information :—

I have considered in Council your Financial letter dated the 17th May 1877, No. 134, in which you request that the privilege of making family remittances, at present conceded to mechanics and others of a similar class engaged in England, may be extended to mechanics and artisans who have been engaged in India for the service of Government.

2. I sanction the extension of the privilege as requested by you, it being distinctly understood that all remittances should be *bond fide* for the support of families; that the rate of exchange at which they shall be adjusted is that annually fixed between this Office and the Lords Commissioners of Her Majesty's Treasury; and that no remittance shall exceed one-half the salary of the person remitting, and, in no case, be more than 12*l.* a month.

No. 2464.—The following correspondence is published for general information :—

From Secretary to the Bombay Chamber of Commerce, to Secretary to the Government India, Financial Department,—dated Bombay, 2nd May 1877.

I am directed by the Bombay Chamber of Commerce respectfully to address you on the subject of the indefinite and uncertain character of the announcement made in the Financial Statement of the 15th March with respect to the loan operations and to the Secretary of State's bills on the Government of India, which will be sold in London during the year.

The estimates of these are, it is true, given in the Financial Statement, but their effect is completely nullified by the note on the face of the statements Nos. IV, V, and VI, which runs as follows :—“ The estimates are the best that can now be made, but they are subject to modification as the year goes on; the Government must not be understood to pledge itself that the Secretary of State in Council will raise by bills the exact amount stated, or that the exact amount stated will be borrowed during the year, or that it will be borrowed in India or in England, as the case may be.” Again, it is stated in the Financial Statement under the head of “ Loss by Exchange ” that either by bills or by borrowing the Secretary of State must get £16,000,000 for the Home Treasury in 1877-78, and that it cannot be said with certainty how much he will raise by bills and how much by borrowing. It is also observed, with reference to the raising of the loan in India or in England, that the Governor-General in Council will not, so far as the decision rests with him, submit to any unreasonable terms; and if the conditions acceptable to the money market in India should appear too unfavourable, he will not hesitate to recommend to the Secretary of State to endeavour to obtain power to borrow in England as much more than 3½ millions sterling as is found to be really wanted.

The Finance Minister justifies this policy on two grounds—(1) that the assent of Parliament must be had before any money could be borrowed in England on behalf of India; and (2) that even if this difficulty did not exist, it would be hardly possible, under present circumstances, to pledge the Secretary of State to sell any specified quantity of bills at specified times; for fluctuations in the price of silver might be so serious, and might occur so rapidly, that it might be in the highest degree inconvenient to carry out the pledges which had been given.

While acknowledging the natural anxiety of His Excellency the Governor-General in Council to diminish expenditure wherever it might appear to be practicable, the Chamber desires, with great deference, to submit that the policy of not deciding upon and adhering to a fixed amount to be borrowed in India or in England, and a fixed amount of Council bills to be drawn weekly during the year, will be injurious to Government itself and to the country. The trade of the country is so mixed up with the financial arrangements of Government that it is in the highest degree desirable that Government, in making these arrangements, should adopt a frank, undeviating policy, to be adhered to under all circumstances; for if any saving of expenditure were possible under the system now pursued, it would be of little moment when compared with the injury done thereby to the banking and mercantile interests affected by its operations. The Chamber can only think of two cases in which it might be desirable, in the interests of the State or of the trade of the country, to deviate from a fixed line of action, and these are—first, a threatened combination on the part of the buyers of Council bills; and second, a financial panic, which it might be the very legitimate desire of Government to allay.

The uncertainty which prevails with respect to the amount of Council bills to be offered for sale in London during the year is the greater evil; for while Government can gain nothing by its uncertain policy, not only are the entire banking and trading interests of the country, but all those having any relations with Europe, affected by the manner in which these bills are issued. These bills amount to about one-fourth of the whole export trade of British India, and the sales of them, made regularly throughout the year in accordance with the announcement of Government, would not be liable to be affected by any combinations of persons. It is, moreover, of extreme importance to the numerous interests engaged in banking and commerce that the calculations upon which their transactions are based should not be subject to be at any time upset by a change or suspension of the amount to be offered for sale, which not only produces embarrassment, but has an immediate temporary effect on exchange. The violent fluctuations in the rate of exchange during the last year, and the crisis which took place in July, were aggravated by the frequent changes made in the Council drawings. During February and March no allotments were made at all: afterwards, when bankers and others had been driven to other modes of remitting to India, supplies of Council bills were freely placed on the market, and sold at the market price down to 1s. 6½d. After the reaction began in July—in addition to the periodical drawings—Government offered to give large sums at a fixed rate on application at any time; and in this way, and also by offering bills for tender at unusual intervals without previous notice, they shewed such an anxiety to sell their bills that the reaction which had set in, and which would no doubt have been continuous, was checked, and a heavy fall in exchange brought about. It was only when Government reverted to regular periodical drawings that the natural tendency of exchange to advance was allowed free scope. The whole trade was mystified, and such of it as depended on the future of exchange paralysed by the unusual policy, and by the feeling of danger and uncertainty which it gave rise to. The price of bar silver in London fell in July to 47d., and the rate of exchange to 1s. 6½d.; but after the panic had passed off, and when the regular and certain issues of Council bills came to be made, the price of silver and

the rate of exchange gradually rose until, in the end of January last, they stood at 58½, and at 1s. 10½d. respectively. A feeling of confidence was gaining ground, and it was beginning to be assumed that the Council bills would be drawn regularly and without restriction, when suddenly on 31st January, and again on 7th February, a limit was fixed, owing to which a great part of the bills was withheld—and this for no other apparent reason than that of giving an artificial support to the rate of exchange. This return to the policy of last year was viewed with doubt and alarm by all those interested, but it was still hoped that the budget statement, the issue of which was shortly expected, would contain some definite announcement as to the future, and thus set at rest the uneasiness which existed. Such hopes, however, were disappointed, and the Chamber thinks it its duty to call the serious attention of the Government to the feeling of doubt and perplexity which now prevail; to the unhealthy element of excitement and speculation which have been introduced; and to the grave harm which is thereby being done to trade on which the interests of the country so much depend.

Exchange, it is needless to observe, depends in the long run upon silver, which is affected by the supply and demand, and any changes brought about by silver in itself are gradual and slow. But Council bills depend not on any natural laws, but are merely the result of the exercise of the arbitrary authority of Government. These bills have, during the last seven years, increased from five to fourteen millions; and it is obvious that every increase in the amount must bring about sooner or later a corresponding reduction in the imports or an increase in the exports of ordinary merchandise. By this means an adjustment is in due time effected, but it is unreasonable to suppose that the amount of the Council bills can be increased, and that exchange can at the same time, until the adjustment has taken place, be supported. Nor should the important fact ever for a moment be overlooked that an artificial support to exchange is no real benefit to the Government or to the country;—exchange is improved and kept up for the time, but the result of this is to give an unnatural stimulus to the import trade, and when the artificial support is withdrawn, the fall which follows is all the more certain and severe.

The Chamber observes that the Government of India considered it necessary that the requisite statutory powers should be obtained before any fixed and certain policy could be adopted with respect to the operations for the year in loans and bills. As Parliament is now sitting, and has been since February, and the adoption of this policy is of enormous importance to the country, the Chamber desires respectfully to express the hope that the borrowing powers will be applied for without any delay, and that, as soon as these are obtained, His Excellency the Governor-General in Council will announce the amount of the loan which he intends raising in India and the amount in England, and with regard to Council bills, that he will fix the amount to be drawn weekly during the year, and will adhere to it rigidly without allowing it to be affected by any fluctuations in rates.

The Chamber would respectfully urge that it would tend in a very material degree to facilitate the interests of the trade of the country, and therefore be of benefit to the State could the loan policy be definitely announced in each Budget. The greatest uneasiness and uncertainty were created last year by the announcement of the Secretary of State on the 12th of April that a loan of four millions sterling would be raised in England only a few days after a totally different intention was announced in this country; and again this year the same feelings have been raised in an even greater degree by the uncertainty which overhangs the future—an uncertainty which the Chamber submits, and it does so most respectfully, might be done away with were consideration given to the matter beforehand and a decision arrived at, subject only to the confirmation of Parliament and the obtaining of such statutory powers as might be necessary.

From Secretary to the Government of India, Financial Department, to Secretary to the Bombay Chamber of Commerce,—No. 686, dated Simla, the 17th May 1877.

I AM directed by His Excellency the Viceroy and Governor-General in Council to acknowledge the receipt of your letter dated the 2nd May, in which you complain of the uncertainty of the announcements made in the Financial Statement concerning the loan and remittance operations of the current year, and criticise the proceedings of Her Majesty's Secretary of State for India in Council in the sale of his bills upon India.

2. In reply, I am to say that your representations will be forwarded for the consideration of the Most Hon'ble the Secretary of State.

From the Government of India, to the Secretary of State for India,—No. 136, dated Simla, the 17th May 1877.

WE have the honor to forward, for the consideration of Her Majesty's Government, copy of a letter from the Secretary to the Bombay Chamber of Commerce, representing the inconvenience which must result to those engaged in commerce from the uncertainty of the announcements made in the Hon'ble Sir John Strachey's Financial Statement concerning our loan operations in 1877-78, and the arrangements for the supply of funds to our Home Treasury.

2. We add copy of the reply which we have caused to be addressed to the Chamber.

From the Secretary of State for India, to the Government of India,—No. 230 (Financial), dated India Office, London, 5th July 1877.

Para. 1. I have considered in Council your Financial letter, dated the 17th May 1877, No. 136, forwarding copy of a letter from the Secretary to the Bombay Chamber of Commerce, relative to the indefinite and uncertain character of the announcement made in the Financial Statement of the 15th March last, with respect to the loan operations, and to the Secretary of State's bills on the Government of India, which will be sold in London, during the year.

2. The Chamber of Commerce represent the "extreme importance to the numerous interests engaged in banking and commerce that the calculations upon which their transactions are based should not be subject to be at any time upset by a change, or suspension, of the amount" of Council bills on India "to be offered for sale," and they therefore express a hope that an application will be made to Parliament, without delay, for the requisite borrowing powers; that as soon as these are obtained, the amount of the loan to be raised in England and India respectively, and the amount of Council bills to be drawn weekly during the year will be announced; and that the amount so announced will be adhered to "rigidly," and not be allowed "to be affected by any fluctuations in rates."

3. At the commencement of each official year, the estimate of the financial requirements for that year is based on the information then in the possession of the Government, and we have had recent experience that any notification as to the intentions of the Government is liable to be regarded by the mercantile community as, to some extent, an engagement to which Government is expected to adhere.

4. It would therefore be most inexpedient to make any definite statement of the intentions of the Government, and in that respect the announcement in the recent Budget is fully as explicit as could, with propriety, be made. It must be apparent that circumstances may arise at any moment to modify the expectations entertained, and too much care cannot be taken to reserve to Government complete freedom of action on all points.

5. Whilst, therefore, I am at all times desirous of affording the mercantile community as much information respecting the amount of Council bills to be drawn during the year, and as regards other financial arrangements, as may be possible without detriment to the public interests, I cannot commit myself to any definite engagement in that respect, and you will be good enough to inform the Bombay Chamber of Commerce accordingly.

No. 2481.—*Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department:—

CIVIL PENSION CODE.

Section 48A (page 23).

Add the following to this Section:—

"In the same manner, the Local Government may, upon such conditions as it may in each case think fit to impose, condone a break or breaks in the continuity of service, not exceeding three months in the aggregate, or one month on any one occasion, provided that such break or breaks be not the result of any one of the circumstances mentioned in Section 48."

ACTING ALLOWANCE CODE.

Section 25 (page 236).

Insert the following as Rule 3 under this section:—

3. An officer placed in charge of the current duties of an office is not entitled to any fixed travelling, tentage or local allowances attached to the office, except under the special orders of the Local Government.

The following orders, issued by the Government of India in the Military Department, are republished for general information:—

No. 630.—*Simla, the 13th July 1877.—Furlough and Leave.*—The undermentioned officer is granted furlough to Europe, with necessary subsidiary leave:—

Captain Alfred Reginald Wilkinson, General List, Infantry, District Superintendent of Police, Third Grade, Bengal, Personal Assistant to the Inspector-General of Police,—private affairs for one year two months and twelve days, under Rule IX of the Regulations of 1868.

HORACE. A. COCKEBELL,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, AUGUST 22, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Nuddea, will be put up to sale at the Kooshtea sub-divisional cutcherry at 1 P. M. on Monday, the 10th September 1877, corresponding with 26th Bhadro 1284 B. S.

The purchasers of these plots will be subject to the following conditions:—

1. If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
2. If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
3. The plots will be sold revenue free to the highest bidders.
4. The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in the case of the final sanction of the Member of the Board in charge should not be accorded to the proceedings.

For details and specification of materials and apparatus apply to the undersigned. The factories are situated in perghunnah Balanda, in the 24-Perghunnahs district, about 24 miles from Calcutta. (1443—1) HURRY CHATTERJEE, Manager, Satkhira, 24-Perghunnahs

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT

ON THE OUDH AND ROHILKHAND RAILWAY

FROM this date the prices of sâl beams and scantlings supplied from this dépôt will be as follows—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.

22	"	2-12	"
23	"	2-14	"
24	"	3	"

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 40 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7, at " 2-4 "

Under 7 feet, at " 2 "

The above prices are for ordinary building purposes.

For *Planking Sleepers*, &c, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator, Oudh Forests

SIMPSON HILLIERS, Asst. Conservator of Forests.

The 1st June 1877.

IN pursuance of Rule 17 of the High Court rules dated 11th September 1873, notice is hereby given that the undersigned intends to apply to the High Court to be admitted to practise as pleader of the said Court

G. C. CHAPMAN, *First Grade Pleader, Tirhoot.*

(1447—4)

THE interest and responsibility of Mr George Muirhead Struthers in our firm ceased on the 30th June 1877 by mutual consent.

(1445-2)

Luckimpore Tea Co. of Assam, "Ld."

THE Board having decided to issue 3,530 of the unallotted shares at par, and such shares being in the first instance offered to the present Shareholders in proportion to their holding, viz. one new share for every two old shares, we are authorized to receive from the Shareholders resident in India applications for new shares together with a deposit of one pound sterling for every share applied for.

WILLIAMSON, MAGOR & Co., *Agents.*
Luckimpore Tea Co. of Assam, Ld.
CALCUTTA, the 15th August 1877. (1439-2)

Equitable Coal Company, "Limited."

NOTICE is hereby given that the Twenty-eighth Half-yearly General Meeting of the Shareholders of the above Company will be held at the office of the Company, No 1, Lyons' Range, on Thursday, the 30th day of August 1877, at noon, for the purpose of receiving the Directors' Report and Accounts for the half-year ending 30th June 1877, and for the transaction of any other business that may be brought forward.

The share transfer books of the Company will be closed for fourteen days from 16th instant

MACNEILL & Co., *Managing Agents.*
CALCUTTA, the 15th August 1877. (1441-1)

Upper Assam Tea Co., "Limited."

THE dividend declared at the General Meeting in London, on 12th June last, is now payable at the office of the undersigned on presentation of scrip. (1442-1)

MACNEILL & Co., *Agents.*

Dehra Doon Tea Company, "Limited"

NOTICE is hereby given that an Extraordinary General Meeting of the Shareholders of the above Company will be held (at the conclusion of the Ordinary Half-yearly Meeting) at the Mussoorie Bank, Mussoorie, on Thursday, the 30th day of August 1877, for the purpose of considering the manner of election and the constitution of the Board of Directors elected on 26th February 1877, and the desirability of annulling clause I of the Company's Articles of Association and of placing the Company under the regulations of Table A of the Indian Companies' Act, No X of 1866

The following Resolutions will be proposed:—

I. That the Board of Directors elected on 26th February 1877 does not possess the confidence of the general body of Shareholders.

II. That clause I of the Company's Articles of Association, providing that 'the regulations of Table A of the Act, X of 1866, of the Legislative Council of India, save in so far as the same are hereby made wholly or in part applicable to this Company, shall not be binding on this Company,' be annulled, and that Table A of the Act X of 1866, be made applicable to the Dehra Doon Tea Company, Limited.

By order of the Directors,

A. F. GIBSON, *Secretary.*

DEHRA, the 20th July 1877. (1413-4)

TO be peremptorily sold by the Registrar of the High Court, in his sale-room in the Court House, on the 15th day of September next, at the hour of 12 o'clock, at noon, pursuant to a decree of the said Court, made in suit No. 327 of 1874, (wherein Koylash Chunder Day is plaintiff and Bibee Busseerunnessa is defendant,) dated the 2nd day of July 1874, the following properties:—

Lot No. 1—All and singular all that demi-upper-roomed brick-built messuage tenement or dwelling-house together with the piece or parcel of land or ground thereunto belonging and whereon the same is erected and built containing by estimation six cottahs, be the same a little more or less, situate at and being No. 24, [formerly No 20,] in Dedar Bux's Lane, in the town of Calcutta, and butted and bounded as follows, that is to say:—on the north by the tenanted land of Mr Barbar; on the south by the public lane called Dedar Bux's Lane; on the east by the tenanted land of Jham Khan; and on the west by the house and land of Moulvie, the late Professor, Mohamed Wajhee.

Lot No. 2.—And also all those three several houses, viz an upper-roomed house, No 1, also an upper-roomed house, No 2, formerly No. 1-1, and a demi-upper-roomed house, No 3, formerly No 2, together with the piece or parcel of land or ground thereunto belonging, and whereon the same respectively are built, situate at Moonshie Dedar Bux's Lane, in Calcutta, containing by estimation one begha and eleven cottahs or thereabouts, be the same a little more or less, and butted and bounded in manner following, that is to say—on the north by Moonshie Dedar Bux's Lane, on the south partly by the land of Moulvie Fuzle Hussein, partly by the land of Ruhm Bux Darogah, and partly by the land of Mahlop Sircar on the east by the tenanted house of Mejan Butcher and on the west by the property of Moulvie Farally and others.

The abstract of title and conditions of sale may be seen at the Office of the Registrar of the High Court, Original Side, and at the office of Messrs. Swinhoe, Law and Co., on any day before the sale, and will be produced at the sale.

SWINHOE & Co., *Plaintiff's Attorneys.*

R. BELCHAMBERS, *Registrar.*

CALCUTTA HIGH COURT, the 15th August 1877. (1446-2)

BENGAL CIVIL FUND.

At a Half-yearly General Meeting of subscribers to the Bengal Civil Fund, held at the Town Hall, Calcutta, on Monday, the 30th July 1877.

PRESENT:—C. T. Buckland, Esq., The Hon'ble T. E. Ravenshaw, The Hon'ble W. F. McDonell, v.c., W. Waterfield, Esq., The Hon'ble H. T. Prinsep, The Hon'ble Henry Bell, C. T. Metcalfe, Esq., c.s.i., J. Monro, Esq., J. O'Kinealy, Esq., R. H. Wilson, Esq., A. Mackenzie, Esq., W. H. Grimley, Esq., D. M. Barbour, Esq., J. G. Charles, Esq., Colman Macaulay, Esq., Secretary, and H. H. Risley, Esq.

The Hon'ble T. E. Ravenshaw, *in the Chair.*

The following report submitted by the Managers was taken as read:—

REPORT.

The Managers submit their proceedings for the past half year for the consideration and sanction of the meeting.

(1) The Resolution of the last general meeting, that to Article XXV of the Rules be added the words "provided that a declaration on oath by not less than two eye-witnesses will be considered *prima facie* proof of marriage in the cases of Messrs. Romesh Chunder Dutt and Behari Lal Gupta," was duly circulated for the votes of subscribers. Out of 111 votes received within the prescribed period of two months, 107 were in favour of the amendment and four against it.

(2) The Managers have notified under Article XVII the following addition to section 2, Article VIII of the Rules:—

"Before 'Rs. 12,500' insert 'Rs. 18,750 or to,' and for 'in the former case one-half and in the latter one quarter,' substitute 'in the first case three quarters, in the second one-half, and in the third one quarter.'"

Section 2, thus amended, would run as follows:—

But subscribers hereafter so retiring from the service may, at their option, by making up the amount of their subscriptions with interest either to Rs. 18,750 or to Rs. 12,500 or to Rs. 6,250, and by continuing, or compounding for, their contributions on their annuities at half the rates levied from subscribers in the service on their allowances, secure to their families, on the same conditions as above, in the first case three quarters, in the second one-half, and in the third one quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the service, or of an annuitant who has made up, on retirement, the full amount of Rs. 25,000

The Managers now submit the amendment for consideration. In the event of the amendment being approved and carried, they would ask the meeting to empower them to give it retrospective effect from 1st January 1877, so as to allow to all subscribers who have retired from the service on or since that date the further option thus provided.

(3) The Managers regret to have to report that little progress has been made with the valuation of the Fund. The subscribers are aware that Mr. Samuel Brown, who had been entrusted with the work, died in 1875 without completing his report. Mr. Hardy, the actuary who afterwards undertook the inquiry, has not yet submitted any definite results of his investigations. Mr. E. F. Harrison, now in England, has accordingly been empowered by the Managers to see Mr. Hardy on their behalf and to inquire into the progress which he has made. Mr. Harrison has been asked to close the engagement with Mr. Hardy if possible, and to leave the Managers free to select another actuary. The delay which has already occurred has rendered the information originally submitted for Mr. Brown's consideration practically obsolete, and the Managers propose to submit to professional inquiry the further data which the past four years have rendered available.

(4) Miss Sophia Owen has applied for permission for herself and her sister to keep the annual sum of £10 each, accruing to them under the Will of their late mother, without diminution of their pensions. She urges that, as she is an invalid, the expenses of her care and maintenance are necessarily great. The Managers have informed her that they will recommend her application to the favourable consideration of the subscribers. This case is accordingly submitted for the consideration of the meeting.

(5) Mrs. Offord has applied for a reconsideration of her case. The following statement of her case was laid before the subscribers at the half-yearly meeting held on 29th January 1873

"Mr. Noave was a subscriber to the Fund under the old Rules, and at the time of his decease (24th December 1848) had subscribed the sum of Rs. 15,924. He possessed considerable property over which he had full control, and he was bound under Article XXVI of the old Rules to make a proper testamentary provision for his family. That Article contains the following provisions:—"

"In case it shall be proved to the conviction of a general meeting of subscribers that a deceased member of this Fund has, during his life time, whether in immediate anticipation of his death or otherwise, made such a disposition of any part of his property, real or personal, as but for this rule would throw the entire or partial support of his widow or offspring upon the Fund, who would not have been so supported by the Fund had such part of his property not been so disposed of, with the intention thereby of benefiting any party at the expense of the Fund, then the widow or offspring of such a member or both shall forfeit all right to any part of the support which would have been claimable if no such disposition had been made.

"It is hereby declared that a general meeting of the latter (*i.e.* subscribers), duly held according to the rules of the institution, shall have full power to reject the application for aid from the Fund in any instance in which it may appear that a subscriber, having property at his death, and having the power to dispose of it, has made no due provision for his family."

"The Managers, when acting under those provisions, have invariably decided that the whole of the private income left by the deceased subscriber, whether from real or other property, must be taken in reduction of Fund allowances."

"Mr. Neave not only omitted to make any will which would have secured his widow's maintenance, but by an indenture, executed with a view to destroy an entail some years before his death, expressly barred her from dower. This indenture was not examined till the year 1867, and thus Mrs. Neave drew from 1848 to 1867 dower from the estate, and no application for admission to Fund benefits was made on her behalf. In 1867, when her son put up the family property for sale, a careful examination of the title-deeds became necessary, and this showed that Mrs. Neave had all along been drawing dower illegally. Her son, Mr. Spencer Neave, however, settled upon her £200 a year from the estate. He has since lost all his remaining property in unfortunate speculations, and Mrs. Offord now finds that only this sum of £200 a year is left to herself and her son out of the entire estate of the late Mr. Neave."

"Mrs. Offord has now applied for a pension from the Fund on the ground that, had it been known at the time of Mr. Neave's death that she was not entitled to dower, she would have received an annuity. But the Managers consider that, had this claim been made on the death of Mr. Robert Neave in 1848, it would have been rejected under the provisions of Rule 26 above quoted, and they are of opinion that the original fault is in no degree removed by the subsequent events. The Managers have therefore disallowed Mrs. Offord's claim, and they now submit the case for the decision of the general meeting under the following provision of Article XX of the old Rules:—

"The Managers, after calling for any further information or evidence which may appear to them requisite, are to submit the application with the whole of the papers received by them, and the decision they may have come to thereupon, for the determination of the subscribers at the next general meeting."

(6) The Managers find that this statement was not an entirely correct exposition of the facts of the case. It has been represented by Mrs. Offord that her late husband, Mr. Neave, had in effect executed a Will under which he secured to her and to her children ample provision for their support out of his personal property. She states, however, that, owing to the failure of the Union Bank and of the firm of Cockerell & Co. in 1848, Mr. Neave's large personal estate became valueless, that he accordingly destroyed the original Will, and that, in consequence of his sudden death on the 24th December 1848, the instructions which he had issued to his solicitor in Calcutta to prepare another Will could not be carried into effect. Mrs. Offord is unable to adduce any positive proof of the amount of the personality which Mr. Neave lost in 1848. She states, however, that he was assessed to contribute Rs. 30,000 when the Union Bank went into liquidation, and she values his personal estate in 1848 at between two and three lakhs, no part of which, she says, has ever been recovered. In support of her allegation that Mr. Neave had issued instructions to a solicitor for the preparation of a fresh Will, Mrs. Offord submits the two letters from the widow of the solicitor in question and from a friend, which are now laid on the table. There can be no doubt, the Managers think, that such instructions were really issued.

While the Managers deem it right to place these additional facts before the subscribers, they do not consider that, even accepted to the fullest extent, they afford any ground for a reconsideration of the decision arrived at by the general meeting of January 1873. The Managers observe that no personal property is said to have been left by the intestate subscriber. It does not appear, therefore, that the execution of the Will contemplated by Mr. Neave before his decease would have materially affected the position of his widow. The admitted facts show that Mr. Neave died leaving an amount of real property which, under the rules in force at the time of his death, would have barred his family from the assignment of pensions from the Fund. It has been the invariable practice to reject applications for pensions under the old Rules in cases in which the property left has been subsequently lost from any cause. Under these circumstances, the Managers are of opinion that Mrs. Offord's claim is inadmissible, and they would ask the subscribers to affirm the decision already arrived at.

Proposed by *Mr. O'Kinealy*,

Seconded by *Mr. Barbour*, and carried unanimously,

That the second clause of Article VIII of the rules be amended by the insertion—

"Before 'Rs. 12,500' 'Rs. 18,750 or to,' and for 'in the former case one-half and in the latter one quarter,' substitute 'in the first case three quarters, in the second one-half, and in the third one quarter' "

Former Rule.

Second.—But subscribers hereafter so retiring from the service may, at their option, by making up the amount of their subscriptions, with interest, either to Rs. 12,500 or to Rs. 6,250, and by contributing or compounding for their contributions on their annuities at half the rates levied from subscribers in the service on their allowances, secure to their families, on the same conditions as above, in the former case one-half and in the latter one quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the service, or of an annuitant who has made up, on retirement, the full amount of Rs. 25,000.

Provided that, in the case of a subscriber marrying after retirement, his contributions, or commutation payment in lieu thereof, shall, for his wife and for his children, the issue of such marriage, be taken at full rates.

Amended Rule.

But subscribers hereafter so retiring from the service may at their option, by making up the amount of their subscriptions, with interest, either to Rs. 18,750 or to Rs. 12,500 or to Rs. 6,250, and by continuing, or compounding for, their contributions on their annuities at half the rates levied from subscribers in the service on their allowances, secure to their families, on the same conditions as above, in the first case three quarters, in the second one-half, and in the third one quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the service, or of an annuitant who has made up, on retirement, the full amount of Rs. 25,000.

Provided that, in the case of a subscriber marrying after retirement, his contributions, or commutation payment in lieu thereof, shall, for his wife and for his children, the issue of such marriage, be taken

Proposed by *Mr. Buckland*,

Seconded by *Mr. Mackenzie* and carried unanimously—

That retrospective effect be given to the rule thus amended from 1st January 1877, so as to allow all subscribers who have retired from the service on or since that date the further option thus provided.

Proposed by *Mr. Metcalfe*,

Seconded by *Mr. Grimley*—

That the Managers' recommendation that Miss Sophia Owen and her sister Miss Henrietta Owen be allowed, on special grounds, to keep the annual sum of £10 each accruing to them under the will of their late mother without diminution of the Fund pension be approved.

Mr. Mackenzie wished to know under what rule the Managers had proceeded in their proposal to grant this concession, and asked that the facts might be placed before the meeting.

Mr. Macaulay said that the Managers had no authority to accede to Miss Owen's application, or they would have granted it of their own accord and merely reported the matter to the meeting. Not having that authority, they recommended it to the favourable consideration of the meeting, which had power to grant it subject to revision of their decision under Article XIV of the old rules. *Mr. Macaulay* then read Miss Owen's letter and stated briefly the facts of the case. Miss Owen and her sister, he said, had inherited £10 a year each under their mother's will. The death of their mother, and the consequent cessation of her pension, had reduced them to great straits. Miss Owen, the applicant, was a confirmed invalid, and, as her expenses were accordingly exceptional, she and her sister had asked that they might be allowed to keep the trifling sum which they had inherited without diminution of their pensions. Under these circumstances the Managers had ventured to think that the case was one in which the subscribers would be willing to relax the old rule under which all available income is to be deducted from the amount of pension.

Mr. Mackenzie said that the action of the Managers was more creditable to their hearts than to their heads. The present subscribers, unmarried as well as married, had been required to submit to large deductions from their salaries in order to rescue the Fund from the state of insolvency to which the recklessness of the subscribers under the old rules had reduced it. He would always vote for a strict interpretation of the old rules, and would reject all such applications as the present, which were on the face of them in direct contravention of the rules.

Mr. Bell said he was rather surprised that the decision of the Managers should be called in question in a small matter of this sort; and he thought that *Mr. Mackenzie* should have first ascertained what the facts of the case were before proposing to revise the Managers' decision. The facts were simply these, that Miss Owen had come in for £10 a year on the death of her mother. Under the rules Miss Owen's pension is now liable to be reduced to the extent of £10 a year, and as she is a helpless invalid, she asks permission to retain this £10 without suffering a corresponding reduction to her pension. The Managers considered that Miss Owen's case was one deserving of commiseration, as she necessarily incurred a number of expenses which a person in sound health would not incur. The indulgence is a very small one and it is for the service to say whether it shall be granted or not.

The *Chairman* pointed out that the facts of Miss Owen's case had been read and fully explained before *Mr. Mackenzie* spoke.

The motion was lost, the majority of the votes being against the recommendation of the Managers.

Proposed by *Mr. McDonnell*, &c.,

Seconded by *Mr. Munro*, and carried unanimously—

That the proceedings of the Managers with regard to the valuation of the assets and liabilities of the Fund be approved.

Proposed by *Mr. Munro*,

Seconded by *Mr. Mackenzie*—

That Mrs. Offord be informed that this meeting affirms the decision arrived at by the meeting of the 29th January 1873.

Mr. Mackenzie said that the application appeared to be one which the Service could not possibly entertain. The simple questions for them to consider were: did Mr. Neave die possessed of property? and did he make proper provision for his wife? It was admitted that he died wealthy, and it was certain that he failed to provide for his widow. Could any one doubt that had Mrs. Neave applied to the Service for pension at the time of Mr. Neave's death the application would have been rejected? Be that as it may, if she became entitled to pension at all, her claim should have been put forward when it was first discovered that she had no legal right to dower. This was discovered a few years after Mr. Neave's death, but no application was then put forward. There must be some limitation in cases of this kind. It was monstrous that Mrs. Neave should come forward after a lapse of nearly thirty years and claim pension simply because her son had lost the family property by rash speculation. If this claim was admitted, a series of others that had been rejected, and properly rejected, would be revived. He would adhere to the line of interpretation always hitherto followed in applying those old rules and reject this application.

Mr. Bell begged to propose as an amendment that Mrs. Offord be admitted to the benefit of the Fund. The case seemed to him to be an exceedingly hard one. Mr. Neave, Mrs. Offord's first husband, was a member of the Civil Service, and possessed of considerable

property. He possessed some landed property, and in 1841 he apparently executed a disentailing deed in which he barred his wife's claim to dower. At this time he had more than £15,000 in the Union Bank and Cockerell's House in Calcutta, and he had made a will providing for his wife out of this money. In 1848 both the Union Bank and Cockerell's House failed and Mr. Neave lost all he had. He then destroyed his will and wrote to his Solicitors to have a new will prepared; but before this could be done he died. As he died without a will, his landed property devolved on his eldest son; and as he did not make a will and did not provide for his widow out of his landed property, the majority of the managers considered that he had infringed Article XXVI of the old rules, and that his widow was not entitled to pension. With great respect to the majority of the managers he submitted that this was a somewhat harsh decision. There was certainly no intention on the part of Mr. Neave to leave his widow unprovided for. The managers are satisfied that the widow was left unprovided for owing to the fact that Mr. Neave died before the second will could be executed. The lady is now 65 years of age; and all she and her son have to subsist upon is a charge of £200 a year, which her son settled upon her out of the property. Mr. Bell hoped that the meeting would take a favourable view of her case, and allow her to draw £200 a year from the Fund, which would make up her income to £400 a year, the sum to which widows under the old rules are entitled.

Mr. Wilson seconded the amendment. He said that under the old rules the widow of a deceased member of the Fund was excluded from its benefits in three cases only:—

1. If she were left with an income of £400 a year or upwards.
2. If it were proved to the conviction of a general meeting that her late husband, *with the intention of benefiting any person at the expense of the Fund*, had made such a disposition of his property as, but for this rule, would have thrown the entire or partial support of his widow or children on the Fund.
3. If her deceased husband having property at his death, and having the power to dispose of it, had made no due provision for his family.

In the case of Mrs. Offord exception 2 clearly did not apply, nor could her case be brought under exception 3 without putting upon the words of the rule a construction which no court of equity would admit, and which the members of the Fund certainly should not press in dealing with the widow of a deceased subscriber. The only question was whether Mrs. Offord was left, at Mr. Neave's death, with an income of £400 a year, and it was no doubt literally true that she was so left. But no rule could provide for all possible cases; and when a widow who believes herself to be safely provided for subsequently finds that no income whatsoever has been legally secured to her, and that she is in fact dependent on the generosity of others for support, it was, Mr. Wilson thought, a reasonable interpretation of the rule to hold that she is entitled to the benefits of the Fund. Mrs. Offord having now an income of £200 a year, a pension of £200 should be granted to her.

Mr. Barbour said he held in his hand a copy of the Fund rules framed in 1838 which were, he believed, the rules under which Mrs. Offord's claim must be dealt with. In Article XXVI of these rules there were two clauses. In the first clause it was laid down that a general meeting of the subscribers "shall have full power to reject the application for aid from the Fund in any instance in which it may appear that a subscriber having property at his death, and having the power to dispose of it, has made no due provision for his family." The second clause provides that if a deceased member of the Fund shall, during his lifetime, have disposed of any portion of his property "with the intention thereby of benefiting any person at the expense of the Fund, then the widow or offspring of such a member shall forfeit all right to any part of the support which would have been claimable if no such disposition had been made." It was therefore clear that Article XXVI provided for two distinct classes of cases, viz. for cases in which subscribers neglected or omitted to make a proper provision for their families when they were possessed of property sufficient to enable them to do so, and for cases in which subscribers made away with their property *with the intention* of throwing the burden of the support of their families on the Fund. The two classes of cases were perfectly distinct, and he (Mr. Barbour) would call special attention to the separate provision made for each class of cases. In the one class it was laid down that a general meeting "shall have full power to reject the application for aid;" and in the other class it was ruled that the "widow or offspring of such a member, or both, shall forfeit all right." It was beyond all dispute that in the present case the deceased subscriber Mr. Neave had not made away with his property with any intention of throwing a burden on the Fund, and that the case was simply one in which he was prevented by circumstances from making that provision for his family which it was in his power to do. It was therefore open to a general meeting either to admit or reject Mrs. Offord's application, and the case appeared one in which the present meeting ought to admit the application. Mr. Neave was prevented from making a proper provision for his family by two events, which practically he could not have foreseen, viz. by the failure of two banks in which his money was invested, and by his own unexpected death shortly after the failure, and before he had time to set aside the previous disposition which he had made of his real property. It had been contended that there must be some limitation to the time within which claims such as that of Mrs. Offord must be brought forward, and no doubt there was some force in that argument, but the delay had been satisfactorily accounted for, and was due simply to ignorance of facts and to misapprehension on the part of the applicant and her advisers. The Civil Fund was instituted to preserve the families of deceased subscribers from want, and

when it failed to do so, it failed to do that which alone justified its existence, and he, Mr. Barbour, trusted that the members of the service would not be prevented by a harsh technical plea of limitation not to be found in the rules of the fund, and drawn simply by an incorrect analogy from the civil law, from doing what was just and fair in the present case. On these grounds he would support the proposal that a pension of £200 a year be granted to Mrs. Offord as he understood that to be the amount to which she would be entitled under the rules of 1838.

Mr. Waterfield said that as a matter of fact a large amount of real property had passed into the hand of the family, and that Mrs. Offord had for a number of years enjoyed dower from the estate. The bulk of the property had been lost through the improvidence of her son, but a fair income had been secured to her out of it, and he could not therefore see that she had any claim on the fund.

Mr. Buckland said that it was difficult to arrive at the facts regarding the bar of dower or at the law as applicable to this bar of dower. It was stated in a printed letter which Mr. Bell produced that this bar of dower had been introduced in a deed which Mr. Neave signed and executed, but which never came into use or took effect in his lifetime, as the property was not sold by him. The deed in question was said to have been merely formal, and to have been prepared solely with a view to the sale of the property if necessary. But Mr. Buckland was unable to recognize this description or qualification of the deed as being quite correct, for, although the son, on inheriting the property, was ignorant of the bar of dower, and allowed his mother to take her dower for nearly twenty years, still, when the son came to sell the property, this old deed, which was said to have been merely formal, was found to have such power and vitality in it that dower was actually barred. There was therefore something unexplained which should have been cleared up. But as this dower was converted into an allowance of £200 a year when the estate was sold, and this seemed to represent all that Mrs. Neave could have derived from the landed property (and there is no personal property left), Mr. Buckland thought that Mrs. Neave (now Mrs. Offord) was entitled to £100 a year from the fund.

Mr. Macaulay said that, even if Mr. Neave had survived to make a will, he had no personalty to dispose of, and could therefore only have made provision for his widow out of his real property. But as a matter of fact, his widow, in ignorance of the existence of the deed barring dower, did for many years after his death enjoy an ample provision from the real property which had passed to her son. When her son found it necessary to sell his property the bar of dower was discovered, and he settled on her £200 a year, the amount at which he apparently estimated her claims upon the estate. It could not be said that this family was not left amply provided for. One great principle in the management of the Fund was "once off the fund always off it," and Mr. Offord, losing a part of her income through her son's rash speculations in 1867, had no claim to revert to the position to which her present circumstances might have entitled her in 1848.

The amendment was then put and declared lost, five votes being recorded for it and eleven against it.

The original motion was then put and carried.

Proposed by *Mr. Buckland*,

Seconded by *Mr. Prinsep*, and carried unanimously—

That Mr. Monro be elected a Manager in the place of Mr. A. Money, c b.

A vote of thanks to the Chairman was proposed by Mr. Mackenzie, and seconded by Mr. Prinsep, and carried unanimously. The meeting then separated.

BENGAL CIVIL FUND,
The 30th July 1877.

(1452—1)

T. E. RAVENSHAW,
Chairman.

INSOLVENT NOTICES.

In the Court for the Relief of Insolvent Debtors at Calcutta.

IN the matter of CHARLES MORGAN, an Insolvent.

On Tuesday, the 7th day of August instant, it was ordered that the Assignee do pay and divide the sum of Rs. 1,498-4-7 to and amongst all the creditors upon the estate of the said Insolvent as a dividend at the rate of 12 annas per cent. upon such of the debts as are admitted in the schedule of the said Insolvent, and such claims as shall be proved or substantiated to the satisfaction of the said Assignee in proportion to their several debts, with leave to the Official Assignee to apply to this Court from time to time for directions respecting any debts or any other matter or thing relating thereto.

A. B. Miller, *Official Assignee.*

IN the matter of WILLIAM EDWARD PARKINSON, formerly residing at Allahabad in the North-West Provinces of India, but now residing at No. 32, Blackburn's Lane, in the town of Calcutta, late a Clerk in the Office of the Government Secretariat at Allahabad, and now employed as a Music Master in the Benevolent Institution in Calcutta, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Monday, the 13th day of August instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

M. Camell, *Attorney.*

IN the matter of JOHANNES AYDALL, an Insolvent.

On Tuesday, the 14th day of August instant, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 2nd day of October next, and that the said Insolvent do then attend to be examined before the said Court.

Dignam and Robinson, *Attorneys.*

IN the matter of GEORGE AUGUSTUS VALLENTE, an Insolvent.

On Wednesday, the 15th day of August instant, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 2nd day of October next, and that the said Insolvent do then attend to be examined before the said Court.

Insolvent in person.

IN the matter of GEORGE AUGUSTUS VALLENTE, of No. 8, Alum Oollah's Lane, in the town of Calcutta, an Assistant in the Statesman Office, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Wednesday, the 15th day of August instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

Insolvent in person.

IN the matter of BEER CHUND COONDoo, GOSSAIN DOSS COONDoo, and KHETTERMOHUN SKIN, all residing in Calcutta, and carrying on business in co-partnership at No. 77, Clive Street, in Calcutta, as Hardware Merchants, Order Suppliers, and Commission Agents, under the name, style, and firm of Beer Chund Coondoo & Co., Insolvents.

Notice that the petition of the said Insolvents seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Tuesday, the 14th day of August instant, and by an order of the same date the estate and effects of the said Insolvents were vested in the Official Assignee.

Pittar and Wheeler, *Attorneys.*

IN the matter of CHARLES HENRY COMPTON, an Insolvent

On Tuesday, the 7th day of August instant, it was ordered that the hearing of this matter do stand adjourned until Tuesday, the 4th day of September next, and that the order made in this matter for the *ad-interim* protection of the said Insolvent from arrest be enlarged to the said 4th day of September next, and that the said Insolvent do then attend to be examined before the said Court.

H. R. Fink, *Attorney.*

IN the matter of BUNGSHEDHUR KHETTRY and GHASSEERAM KHETTRY, Insolvents.

On Tuesday, the 7th day of August instant, by an order of this Court the said Insolvents were adjudged entitled to their personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in their schedule as creditors or claiming to be creditors respectively.

Beeby and Rutter, *Attorneys.*

IN the matter of GEORGE AUGUSTUS VALLENTE, an Insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said Insolvent, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Tuesday, the 28th day of August instant, at the hour of ten o'clock in the forenoon.

* Any creditor of the said Insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid.

Insolvent in person.

IN the matter of BROJONATH LAHA, an Insolvent.

On Tuesday, the 7th day of August instant, it was ordered that the said Insolvent do, on or before the 10th day of September next, and of each and every succeeding month until the Court day in the month of February 1878, pay to the Official Assignee of this Court, for the benefit of the estate of the said Insolvent, Rs. 10 per mensem out of his salary; and it is further ordered that the hearing of the matters of the petition of the said Insolvent do stand adjourned until the said first Court day in February 1878, and that the order made in this matter for the *ad interim* protection of the said Insolvent from arrest be enlarged to the said first Court day in February 1878, provided the said Insolvent shall make due payment of the said sum of Rs. 10 at the time and in manner aforesaid, and that the said Insolvent do then attend to be examined before the said Court.

W. G. Francis, *Attorney.*

Chief Clerk's Office, the 21st day of August 1877.

WEDNESDAY, AUGUST 22, 1877.

PART VI.

Bill of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The 9th August 1877.

The following Bill and Statement of Objects and Reasons accompanying it, are published for general information, by order of His Excellency the Viceroy and Governor-General, under the 22nd of the Rules for the Conduct of Business at Meetings of the Council of the Governor-General of India for the purpose of making Laws and Regulations:—

No. 15 of 1877.

THE MASTER AND SERVANT BILL, 1877.

CONTENTS.

PREAMBLE.

CHAPTER I.—PRELIMINARY.

SECTION.

1. Short title.
Local extent.
Commencement.
2. Enactments repealed.
Enactments saved.

CHAPTER II.—OF THE CONTRACT OF SERVICE.

3. Contract of service.
Wages.
Master.
Servant.
Domestic servant.
4. Application of provisions as to death.
5. Persons competent to enter into contracts of service.
6. Presumption as to wages.
7. Presumption as to term of service.
8. Withdrawal of notice.

SECTION.

9. Termination of contract.
10. Presumption of renewal of contract.

CHAPTER III.—OF THE RIGHTS OF THE MASTER AND THE DUTIES OF THE SERVANT.

11. Master's right to compensation when servant refuses to enter service.
12. Obligations of servant after entry.
13. Time of servant.
14. Master's power to punish.
15. Master's power to discharge.
16. Master's right to sue for compensation for loss of service.
17. Master's right to sue for wages earned by servant from third person.
18. Effect of servant's contributory negligence.

CHAPTER IV.—OF THE RIGHTS OF THE SERVANT AND THE DUTIES OF THE MASTER.

19. Servant's right to compensation from master refusing to receive into service.
20. Obligations of Master—
 - (a) as to retaining servant;
 - (b) as to payment of wages;
 - (c) as to indemnifying servant;
 - (d) as to compensating servant for injury caused by master's neglect;
 - (e) as to fellow-servants;
 - (f) as to servants employed in dangerous work.
21. Servants' right to compensation for breach of duty imposed by section 20, clauses (e) and (f).
22. Negligence of foreman.
23. Compensation for wrongful dismissal.
Measure of compensation.
24. Termination of service by servant for master's fault.

SECTION.

25. Wages of servant in case of wrongful discharge or termination of contract for master's fault or by death.

CHAPTER V.—OF THE LIABILITY OF ONE FELLOW-SERVANT TO ANOTHER.

26. Liability of one fellow-servant to another.

CHAPTER VI.—OF THE LIABILITY OF A MASTER TO THIRD PERSONS FOR THE ACTS OF HIS SERVANT.

27. When servant may bind master by contract.
28. Liability of master for wrongful acts of servant.
29. Master when not responsible for servant's negligence.
30. Volunteers.

CHAPTER VII.—OF THE LIABILITY OF A SERVANT TO THIRD PERSONS FOR ACTS DONE ON BEHALF OF HIS MASTER.

31. Servant when bound by contract in master's name.
32. Servant when liable to third person for wrongful act.

CHAPTER VIII.—OF FORMS.

33. Use of forms in second schedule.

CHAPTER IX.—OF THE JURISDICTION OF MAGISTRATES IN DISPUTES BETWEEN MASTER AND SERVANT.

34. Failure to perform work on account of which servant has received an advance.
35. Disputes between masters and workmen on Railways, &c.
36. Punishment for breach of contract to work for fixed term on Railway, &c.
Power to order performance of contract.
37. "Master" and "Magistrate."

CHAPTER X.—OF THE REGISTRATION OF DOMESTIC SERVANTS.

38. Power to establish registry-office and appoint Registrar.
39. Masters to cause servants to be registered. Masters to supply lists to Registrar.
40. Servants to attend personally.
41. Record in general Register.
Issue of pocket-register.
42. Servants quitting employment before pocket-registers delivered.
43. Registration of persons desiring to become domestic servants.
Refusal to register such persons.
44. Registration when to be refused.
45. Master not to hire unregistered servant.
46. Duty of master on hiring registered servant.
47. Master to enter date and cause of termination of service.
Entry of character.
Proviso.
Report of failure to produce pocket-register.
48. Servants to attend Registrar for pocket-register entries to be transferred to general register.
49. Servants to exhibit pocket-registers to Police.
Entry in case of conviction.

SECTION.

50. Registered servants entering service, &c, in places where there is no servants' registration-office.
51. Duplicate pocket-registers.
52. Masters not fulfilling any duty imposed on them by this Chapter.
53. Servants not fulfilling any duty imposed on them by this Chapter.
54. Servants giving false information.
55. Frauds connected with pocket-register. Fraudulent secreting or destruction. Fraudulent use. Fraudulent delivery or receipt. Issuing or signing false pocket-register or entry. Using as true pocket-register one known to be false.
56. Fees.
57. Savings.

FIRST SCHEDULE.—Acts repealed.

SECOND SCHEDULE.—Forms.

A Bill to define and amend the law relating to Master and Servant.

Whereas it is expedient to define and amend the law relating to master and servant: It is hereby enacted as follows:—

CHAPTER I.—PRELIMINARY.

- Short title. 1. This Act may be called "The Master and Servant Act, 1877;"
Local extent. It extends to the whole of British India;
Commencement. And it shall come into force on the 1st day of March 1878.

2. On and from that day the Acts specified in the schedule hereto annexed shall be repealed. But all powers conferred under either of such Acts shall be deemed to have been conferred under this Act. And all references to either of such Acts shall be deemed to be made to this Act.

Enactments saved. Nothing herein contained affects—

- (a) Act No. I of 1859 (for the amendment of the law relating to Merchant Seamen),
(b) Act No. VII of 1871, Act No. III of 1876, Bengal Act No. VII of 1873, or any other law regulating the emigration or transport of Native labourers and their contracts of service, or
(c) the rules as to compensation contained in the Indian Contract Act, 1872.

CHAPTER II.—OF THE CONTRACT OF SERVICE.

3. A contract binding one party to employ and remunerate, and the other to do any work in such manner as the former party directs, is called a contract of service: the remuneration contracted for is called the wages: the party contracting, by himself or his agent to employ and remunerate, is called the master; and the party contracting to do the work is called the servant.
- Contract of service.
Wages.
Master.
Servant.

A domestic servant is a servant who does household work within his master's house or compound.

Domestic servant.

4. The provisions herein contained as to the death of a master or a servant apply, where the master or servant is a private partnership, to its dissolution, and where the master or servant is a public company, to the completion of its winding-up.

Application of provisions as to death.

5. Every person competent to contract may enter into a contract of service.

Persons competent to enter into contracts of service.

Explanation.—For the purposes of this section a minor is competent to contract; but the contract cannot be enforced against him.

6. In the absence of express provision as to the amount of wages, the servant is presumed to contract for the remuneration ordinarily paid, at the place and time of entering into the contract, to servants of the same class.

Presumption as to wages.

7. In the absence of express provisions as to the term of service and the mode of terminating the contract—

Presumption as to term of service.

(a) a domestic servant is presumed to be hired for a month, and the contract is terminable, on the part of either master or servant, by fifteen days' notice of his intention to put an end to the service, or by payment or tender of fifteen days' wages in advance;

(b) a tutor, governess, clerk, or other servant not a domestic servant, and not merely mechanical or agricultural or hired by piecework is presumed to be hired for a year, and the contract is terminable, on the part of either master or servant, by three months' notice of his intention to put an end to the service, or by payment or tender of three months' wages in advance;

(c) a merely mechanical or agricultural servant and a person hired by piecework are presumed to be hired for no specific term, and the contract is terminable, at the will of either party, by notice to the other that the service is at an end.

8. Any notice of intention to put an end to service, whether given under the contract or under section 7, may be withdrawn by the party giving it and waived by the parties respectively, and thereupon the service shall continue as if no such notice had been given.

Withdrawal of notice.

9. A contract of service is terminated—

Termination of contract.

(a) by the death of the master, unless where the contract provides otherwise;

(b) by the death of the servant;

(c) by mutual consent of the parties;

(d) on expiration of the term of service;

(e) on expiration of a notice to put an end to service duly given under the contract or under section 7;

(f) by payment or tender of wages under section 7;

(g) when the master rightfully discharges the servant;

(h) when the servant rightfully quits his master's service.

10. Where, after the termination of a contract of service, the parties continue the relation of master and servant, they are presumed

Presumption of renewal of contract.

to have renewed the contract for the same wages and term of service.

CHAPTER III.—OF THE RIGHTS OF THE MASTER AND THE DUTIES OF THE SERVANT.

11. When a servant refuses to enter his master's service, the master is entitled to compensation for the injury caused by the refusal, unless the servant is prevented by some cause over which he has no control from performing his contract.

Master's right to compensation when servant refuses to enter service.

12. When a servant has entered his master's service, he is under the following obligations:—

Obligations of servant after entry.

(a) he must continue in such service during the whole time that he has contracted for, unless he has rightfully terminated it;

(b) he must run all risks incident to the service;

(c) he must obey all lawful orders of his master and of any person to whom the master has expressly or impliedly delegated power to give such orders;

(d) he must be honest and diligent in his master's business;

(e) he must be respectful to his master, and, in the case of a domestic servant, the members of his master's family;

(f) he must take the same care of his master's property entrusted to him as he would be bound to take if he were a bailee;

(g) he must indemnify his master from liability to make compensation for injury caused by any wrongful act or omission of the servant;

(h) he must use his best endeavours to protect his master against the wrongful acts or omissions of his fellow-servants, if any;

(i) he must, as often as may be reasonable, account for money or goods received from or on account of his master, and must, without demand, deliver to his master as soon as, with reasonable diligence, he can find him, everything that he receives on his master's account;

(j) he must not set up the title of any third person to money or goods so received in opposition to his master's title thereto, except where the master's title accrued fraudulently or wrongfully, or under a voidable contract which has become void.

13. The whole time of domestic servants belongs to the master; and the time of other servants to such extent as is usual in the business in which they serve.

Time of servant.

14. Except for the purpose of maintaining discipline on board a merchant ship, no master shall inflict any punishment on his servant, by way of imprisonment, corporal chastisement, forfeiture of wages, or otherwise, whether the servant has or has not attained majority.

Nothing contained in this section renders illegal any contract under which the master may, in the events therein specified, withhold the whole or any part of the servant's wages.

15. A master may discharge his servant, whether hired for a fixed term or not, for any of the following causes:—

Master's power to discharge.

(a) wilful disobedience of any lawful order of the master or of any person to whom the master has, expressly or impliedly, delegated power to give such order;

(b) habitual negligence in the master's business :

(c) conduct likely to injure such business materially :

(d) claiming to be a partner with his master :

(e) incompetence to discharge the duties for which the servant was hired :

(f) permanent disability from illness :

(g) imprisonment in a civil or criminal jail :

(h) failure to perform any of the obligations imposed upon him by section 12, clauses (e), (f), (g), (h), (i), and (j) :

(i) gross moral misconduct while in the master's service, or reasonable belief, on the part of the master, in the existence of such misconduct :

(j) or if the master discovers that the servant has been guilty of misconduct, before or after the commencement of his service, of such nature, that if the master had known or foreseen it, he would not have employed him.

The existence of any such cause, though not known to the master at the time of the discharge, is sufficient to justify a discharge under this section.

16. A master is entitled to compensation from any one who, knowing that any person is the servant of the master, deprives the master of the services of such person in any of the following ways (namely) :—

(a) by enticing him away from his master ;

(b) by harbouring and detaining him ;

(c) by any act punishable under the Indian Penal Code, Chapter XIV or XVI ;

(d) in the case of a female servant, by seducing her.

Compensation may be recovered under this section, clauses (a) and (b), not merely for the loss of service, but also for the detriment (if any) resulting therefrom to the master.

Compensation may be recovered under this section, clause (c), for the loss of service down to the time when it appears by the evidence that the disability to serve may reasonably be expected to cease.

Compensation may be recovered under this section, clause (d), for loss of service and for the expenses (if any) reasonably incurred by the master in nursing and taking care of the servant during her pregnancy and about her delivery.

17. Where wages have been earned by a servant enticed away or harboured by another person knowing him to be a servant, the master may waive his right to sue under section 16, and recover from such other person the amount of the wages so earned.

Where a third person employs a servant during any time belonging to his master, whether with or without the master's knowledge and consent, the master may recover the amount of the wages (if any) so earned, unless he has waived his right thereto.

18. A master is not entitled to compensation for injury caused by the wrongful act or omission of a third person, when the master's servant, in the course and within the scope of his employment, might by the exercise of ordinary care have prevented such act or omission.

CHAPTER IV.—OF THE RIGHTS OF THE SERVANT AND THE DUTIES OF THE MASTER.

19. Where a master refuses to receive his

Servant's right to compensation from master refusing to receive into service. servant into his service, the servant is entitled to compensation for the injury caused by such refusal, unless the servant is at the date of the refusal (a) incompetent to discharge the duties for which he was hired, or (b) permanently disabled by illness.

When the service is to begin on a future day, a suit for such compensation may be brought, at the option of the plaintiff, either immediately on the refusal or on or after such future day.

Illustration.

(a) A, in September, engages a servant, B, at Rs. 30 per mensem to accompany him on a tour for three months through India, to commence on the 1st of November. In October, A writes to B saying that he has changed his mind and no longer requires B's services. B thereupon institutes a suit against A for compensation. Afterwards, before the 1st of November, B obtains another engagement at Rs. 30 per mensem to commence on the 1st December. B, being neither incompetent nor disabled, is entitled to a decree for compensation against A.

20. Where a servant has entered his master's

Obligations of master— service, the master is under the following obligations :

(a) he must retain the servant during the whole time that he has contracted to do so, unless in case of discharge under section 15 :

(b) he must pay the wages which he has contracted to pay ; provided that, where such wages are payable periodically, and the servant is rightfully discharged, the servant is not entitled to any wages for the portion of time during which he has served since the last preceding periodical payment :

(c) he must indemnify the servant from liability for doing any act pursuant to an order of his master which he was bound to obey, or any unlawful act, which the servant, not having reason to believe it to be unlawful, was induced by the conduct of his master to believe to be lawful :

(d) he must make compensation to the servant for injury caused to such servant solely by the master's personal neglect or want of skill :

(e) when the servant has to work along with fellow-servants, the master must use his best endeavours to provide fellow-servants of ordinary skill and care :

Explanation.—In this clause the expression "fellow-servants" means servants of one master jointly engaged on his behalf in the same operation :

(f) where the servant is employed in a work of danger, the master must provide proper materials and apparatus for the work, and must take all other reasonable precautions so as to protect the servant against unnecessary risk.

Illustrations.

(a) A, a servant, in obedience to the command of his master, B, commits a trespass on the property of C, not having reason to believe that he is doing any injury. C sues A for damages and recovers Rs. 50. A is entitled to recover the Rs. 50 from B.

(b) A hires B, a brickmaker, to make bricks with C's trade mark thereon. B, having no reason to believe that the trade mark was C's, proceeds to make the bricks accordingly. C sues B to restrain him from using the trade mark and obtains an injunction with costs which B pays. B may recover the amount so paid from A.

(c) A orders his servant B to sell an unsound mare, but not to warrant her soundness. B sells the mare to C with a warranty of soundness. C sues and recovers damages from B. B cannot recover these damages from A.

(d) A, a master-builder, personally directs his workmen to make a scaffold out of poles which he knows to be unsound. The scaffold gives way, and B, a workman upon it in A's employ, falls and breaks his leg. B may sue A for compensation for this injury.

(e) A and B are lessees of a coal-pit. B acts as banksmen at the mouth of the pit, and whilst so acting is guilty of negligence, whereby C, a pitman in the service of A and B, is injured. Both A and B are liable for the injury.

21. When a servant has sustained particular injury by a breach of any of the obligations imposed on his master by section 20, clauses (e) and (f), the servant is entitled to compensation for such injury, provided that he could not have avoided the injury by the exercise of ordinary care, and at the time of the injury he had no reason to believe that the breach had been committed.

Servant's right to compensation for breach of duty imposed by section 20, clauses (e) and (f).

Illustrations.

(a) A employs B and C to row, and D to steer, his boat. A has done nothing to ascertain D's competence to act as steersman. Owing to D's want of ordinary skill the boat collides with a ship in full sail, and B and C are injured. B and C may sue A for compensation.

(b) A railway company employs A to drive a locomotive, B to be guard of a train, and C to regulate the switches. The company has neglected to ascertain that C was ordinarily careful, and owing to his carelessness the train runs off the line, and A is killed and B is maimed. A's legal representative and B may sue the company for compensation.

(c) A employs B to work as his servant in a mine. Owing to A's negligence the roof of the mine is left unsafe. B, having no reason to believe in the existence of the danger, begins to work in the mine and a stone falls from the roof and breaks B's leg. B may sue A for compensation.

(d) A orders his servant B to carry a bag of rice up a ladder, which A knows, but B has no reason to believe, to be unsafe. The order is within the scope of B's service and B obeys it. The ladder breaks and B falls and fractures his thigh. B may sue A for compensation.

22. Where a servant sues for compensation for injury caused by breach of any obligation imposed by section 20, clauses (e) and (f), and establishes against any foreman or other agent empowered to direct the work in performing which the injury was received, or to manage any apparatus employed in that work, such proof of negligence in providing fellow-servants or taking precautions as would make him liable if he were himself the master, his negligence shall be deemed to be negligence on the part of the master.

23. When a servant is wrongfully discharged, he is entitled to compensation for the injury caused by the discharge in not being allowed to serve and earn the wages contracted for.

The amount of such compensation is subject to the following rules in cases to which they are applicable:—

(a) When the contract is to employ for a specified term, the amount shall be the difference between the wages which the servant would have

received under his contract with his master, and the wages which he has, or might reasonably have, received under another contract of service:

(b) When the contract is terminable by fifteen days' notice, the amount shall be fifteen days' wages.

(c) When the contract is terminable by three months' notice, the amount shall be three months' wages.

24. A contract of service, even for a specified

term, may be terminated by the servant at any time

(a) in case of any wilful or permanent breach of the obligations of his master to him as a servant;

(b) if the master commits against the servant any offence punishable under the Indian Penal Code, Chapter XVI, XVII, XXI, or XXII;

(c) if the servant is prevented by permanent illness or other cause over which he has no control from fulfilling his contract.

Illustrations.

(a) A contracts to serve B for a year for the monthly sum of Rs. 100. B refuses to pay the amount due to A for the first month. A may at any time during the year terminate the contract.

(b) A, a sailor, contracts with B, the Master of C's ship, for a voyage out and home. During the outward voyage B voluntarily and unlawfully causes grievous hurt to A. A may at once terminate the contract.

25. When the servant is wrongfully discharged, or when the contract is terminated under section 24, or by the death of either party, the servant or his legal representative, as the case may be, is entitled to the wages (if any) due for the period during which he has actually served the master.

For the purpose of this section all wages shall (in the absence of an express agreement to the contrary) be deemed to accrue due from day to day.

CHAPTER V.—OF THE LIABILITY OF ONE FELLOW-SERVANT TO ANOTHER.

26. One fellow-servant is liable to make compensation to another for injury caused by neglect or want of skill whilst jointly engaged on behalf of their common master.

CHAPTER VI.—OF THE LIABILITY OF A MASTER TO THIRD PERSONS FOR THE ACTS OF HIS SERVANT.

27. A servant may bind his master by contracts entered into in his master's name only when the servant, if he were an agent, could bind his master if he were that agent's principal.

28. A master is ordinarily liable to make compensation for injury caused by the wrongful act or omission of his servant, if that act or omission occurred in the course and within the scope of the servant's employment. And the circumstance that the act or omission was not necessary for the proper performance of the servant's duty, or was contrary to his master's orders, does not relieve the master from such liability.

Illustrations.

(a) A, the servant of B, a pawnbroker, takes a pawn from C, and when C comes and tenders the money due to

B refuses to deliver the pawn. C may sue B for compensation for A's wrongful act.

(b) A, the shopman of a jeweller, B, sells false jewels for true ones to a customer, C. C may sue B for compensation for A's wrongful act.

(c) A, the servant of a cartier, B, negligently runs his cart over C. C may sue B for the injury caused by A's negligence.

(d) A hires horses, and a coachman, B, from a livery stable-keeper C. B negligently drives A's carriage over D. Unless A ordered or adopted B's act, D cannot sue A for the injury caused by B, for B is the servant of C and not of A.

(e) A, the servant of B, without B's knowledge, wrongfully takes B's carriage and horses for his own purposes and drives against C. B is not liable to a suit by C for compensation for A's wrongful act.

(f) A, the officer of a Railway Company authorized to give passengers into custody for travelling without tickets for themselves, but not for travelling without tickets for their horses, gives B into custody for travelling without a ticket for his horses. B cannot sue the Company for compensation for A's act, for A acted beyond the scope of his employment.

(g) A hires B as his washerman and C as his coachman. B, bringing home A's clothes, meets C driving A's carriage, and owing to C's want of ordinary care, is knocked down and injured. B may sue A for compensation.

(h) A collision occurs between two steam-boats, one belonging to X and commanded by his servant, the other belonging to Y and commanded by his servant. The collision is caused by the negligence of both commanders. Any passenger in either steam-boat may sue X or Y, or both, for compensation for personal injury suffered in the collision.

29. Nothing in section 28 shall render a master responsible for injury caused by his servant's default—
Master when not responsible for servant's negligence.

(a) to any person above the age of ten years who might, by the exercise of ordinary care, have avoided the injury;

(b) where the master has been obliged by law to employ the servant;

(c) where the master is a public servant and the servant is in his employment as such;

(d) where the person injured by the default is a fellow-servant of the wrong-doer jointly engaged on behalf of the master in the same operation, and the master had used his best endeavours to ensure that the wrong-doer was a person of ordinary skill and care.

30. For the purposes of section 28 and section 29, persons expressly or impliedly permitted by another person to act as his servants without remuneration are servants of such person.
Volunteers.

CHAPTER VII.—OF THE LIABILITY OF A SERVANT TO THIRD PERSONS FOR ACTS DONE ON BEHALF OF HIS MASTER.

31. A servant, other than a domestic servant, is bound by contracts entered into in his master's name only where the servant, if he were an agent, would be personally liable.
Servant when bound by contract in master's name.

A domestic servant is bound by such contracts only where he has entered into them without his master's authority.

32. Where a servant, acting on behalf of his master, does a wrongful act to a third person, the servant is liable to be sued as a principal by such third person for compensation for the injury caused by such act. But where a servant (other than a public servant) is guilty of negligence only, no such liability arises, except in the case provided for by section 26.
Servant when liable to third person for wrongful act.

Public servants guilty of negligence are liable to be sued by the persons injured thereby for compensation for such injury.

CHAPTER VIII.—OF FORMS.

33. Subject to the power conferred on the High Courts by the Code of Civil Procedure, section 639, and by the twenty-fourth and twenty-fifth of Victoria, chapter 104, section 15, the forms set forth in the second schedule hereto annexed, with such variation as the circumstances of each case require, shall be used for the respective purposes therein mentioned.
Use of forms in second schedule.

CHAPTER IX.—OF THE JURISDICTION OF MAGISTRATES IN DISPUTES BETWEEN MASTER AND SERVANT.

34. When a master advances to a mechanical or agricultural servant money on account of any work which he has contracted to execute, and such servant wilfully and without sufficient excuse neglects or refuses to perform his contract, the master may complain to a Magistrate, who shall thereupon issue a summons or warrant, as he thinks fit, for bringing such servant before him.
Failure to perform work on account of which servant has received an advance.

If the Magistrate after hearing such evidence as the parties may adduce is satisfied of the truth of the complaint, he shall, at the option of the master, order the servant, on or before such day as the Magistrate directs, either

(a) to repay the money advanced or such part thereof as the Magistrate thinks fit, or

(b) to execute the work according to the terms of the contract.

If the servant fails to comply with either of such orders, the Magistrate may sentence him to imprisonment for a term which may extend to three months, or, when the order is for repayment of a sum of money, for such term or until such sum is sooner repaid.

Where the Magistrate makes an order under clause (b) of this section, he may also, at the master's request, require the servant to enter into a recognizance, with sufficient security for the due performance of the order; and in default of his entering into such recognizance, or furnishing such security to the satisfaction of the Magistrate, may sentence him to imprisonment for a term which may extend to three months.

35. Any Magistrate may enquire into and decide disputes as to wages, hire of masters and workmen on carriage, and price of work on railways, &c. between any masters and their servants employed in the construction of any railway, canal, or other public work sanctioned by Government: Provided that the amount in dispute does not exceed two hundred rupees.

Cases under this section shall be dealt with so far as may be in accordance with the Code of Civil Procedure. But there shall be no appeal against the decision in any such case.

When the Magistrate has heard and decided the case, he shall make an order for the payment, immediately or within such time as he directs, of such sum of money (if any) as appears to him to be justly due, and such sum shall be recoverable as if it were a fine.

36. Whoever contracts to work for a specified

Punishment for breach of contract to work for fixed term on railway, &c.

term on any such railway, canal or other public work, or to execute any specific work in connection therewith, and who wilfully and without sufficient excuse neglects or refuses to perform such contract, shall be liable, on conviction before a Magistrate, to a fine not exceeding twenty rupees.

But the Magistrate may, at the request of the

Power to order performance of contract.

master, instead of punishing the servant so neglecting or refusing, order him by himself or another to execute the work according to the terms of his contract; and if he fail to comply with such order, the Magistrate may sentence him to imprisonment for a term which may extend to two months.

37. In this chapter "master" includes also any

'Master' and 'Magistrate.'

person authorized to act on behalf of a master; and "Magistrate" means, in the towns of Calcutta, Madras, and Bombay, a Presidency Magistrate, and elsewhere a Magistrate empowered by the Local Government to act under this chapter.

CHAPTER X.—OF THE REGISTRATION OF DOMESTIC SERVANTS.**38. The Local Government may from time to**

Power to establish registry-office and appoint Registrar.

time, by notification, published in the official Gazette, (a) establish for any local area an office for registering domestic servants, to be called a Servants' Registration-office; (b) appoint such person as it thinks fit to be Registrar of such office, and to keep a general Register of domestic servants for such local area; and (c) make rules consistent with this chapter for the guidance of such Registrar in the discharge of his official duties.

39. Within one month of publishing a notification

Masters to cause servants to be registered.

establishing a Servants' Registration-office and appointing a Registrar of such office, every master of domestic servants, residing in the local area comprised in such notification shall, in order that such servants may be registered in the general Register, make, sign, and

Masters to supply lists to Registrar.

send to the Registrar a list showing in the case of each of the said servants his name, the capacity in which he is employed, and the date on which he entered his master's service.

40. Within three months of such publication,

Servants to attend personally

every such servant shall attend personally before the Registrar, and furnish him with such information as regards the servant's age, caste, country, religion, previous service, and other particulars as the Registrar may require

41. The Registrar shall, on such servant so

Record in general Register.

attending, register him by recording in the general Register (a) the servant's name, father's name, caste, religion, birth-place, age or supposed age, height and personal marks; (b) his master's name; (c) the capacity in which he is employed, and (d) such statement of his previous service as he desires to have recorded in such Register: Provided that the Registrar shall not make any such record without having reason to believe the statements contained therein.

The Registrar shall thereupon issue to the ser-

Issue of pocket-register.

vant a pocket-register in which shall be entered under the Registrar's hand the particulars of the record respecting the servant in the general Register.

42. If within three months of the said publi-

Servants quitting employment before pocket-registers delivered.

cation, the contract of service of any servant mentioned in the list furnished by any master to the Registrar under section 39 is determined otherwise than by the death of either party, the master shall make, sign, and send the Registrar a memorandum of the date and cause of such termination, unless the servant has previously obtained his pocket-register.

43. The Registrar shall receive applications

Registration of persons desiring to become domestic servants.

from any person desirous of becoming a domestic servant. If the Registrar has reason to believe such applicant to be fit to become a domestic servant, he shall register him by recording in the general Register (a) the applicant's name, father's name, caste, religion, birth-place, age or supposed age, height and personal marks; and (b) the names and residences of any persons who certify to his respectability. And the Registrar shall thereupon issue a pocket-register to such applicant, in which shall be entered under the Registrar's hand the particulars of the record respecting the applicant in the general Register.

If the Registrar has not reason to believe that

Refusal to register such persons.

the applicant is fit to become a domestic servant, he shall refuse to register him.

44. The Registrar shall not register any per-

Registration when to be refused.

son who is by repute a robber, house-breaker or thief, or a receiver of stolen property knowing the same to have been stolen, or of notoriously bad livelihood, or any person who has been convicted of any offence under chapters XVI, XVII, and XIX of the Indian Penal Code.

45. After three months have elapsed from the

Master not to hire unregistered servant.

said publication, no person residing in the said local area shall hire a domestic servant who fails to produce his pocket-register in evidence of his being registered, or whose pocket-register does not record the termination of his last previous contract of service, if any.

46. On hiring a servant registered under this

Duty of master on hiring registered servant.

chapter, the master shall require him to produce his pocket-register, and shall enter therein under his hand the date of the contract of service, and the capacity in which such servant is employed.

47. Whenever the contract of service of any

Master to enter date and cause of termination of service.

servant registered under this chapter is terminated otherwise than by the death of either party, the late master shall require the late servant to produce his pocket-register, and shall enter therein under his hand a memorandum of the date and cause of such termination, and the character of such servant:

Provided that if for any reason the late master is

unwilling to give the late servant a character, or to

state the cause of such termination, he may refuse to do so; but in that case he shall make, sign, and send to the Registrar a memorandum stating his reasons for such refusal.

If the late master be unable to make such entry through the failure of the late servant to produce his pocket-register, he shall report the fact to the Registrar.

48. Every servant registered under this chapter shall, within fifteen days from the date of any subsequent entry in his pocket-register, attend personally at the Servants' Registration office and produce his pocket-register for the purpose of having such entry recorded in the general Register.

49. Every servant registered under this chapter shall, produce his pocket-register when called upon to do so by any officer of Police.

Whenever any servant registered under this chapter is convicted of any offence, the convicting Magistrate shall enter in the servant's pocket-register the fact of the conviction, the date of the conviction, and the punishment inflicted upon him, and shall communicate such entry to the Registrar of Servants for the local area in which the servant was registered.

50. Every servant registered under this chapter shall, if he subsequently enters into, terminates, or is discharged from a contract of household service, in any local area for which a Servants' Registration-office has not been established, attend personally at the nearest Police-station, state to the principal officer at such station the date of such entry, termination or discharge, and produce his pocket-register to such officer, who shall then enter under his hand such date therein, and communicate such entry to the Registrar of Servants for the local area in which such servant was registered.

51. The Registrar may issue duplicate pocket-registers to replace the originals which have become worn-out, or which have been lost or destroyed.

52. Any master, or late master, guilty of any of the following acts or omissions shall, on conviction before a Magistrate, be liable to a fine not exceeding twenty rupees:—

- (a) failing to furnish to the Registrar, within one month after a Servants' Registration-office has been established in any local area, the list specified in section 39;
- (b) failing to send the Registrar the memorandum required by section 42;
- (c) hiring a domestic servant, three months after this chapter has come into operation, who fails to produce his pocket-register, or whose pocket-register does not record the termination of the last previous contract of service, if any, as provided by section 45;

(d) failing to enter in the pocket-register the date and capacity in which a domestic servant is hired, as required by section 46;

(e) failing to enter in such pocket-register the date and cause of the termination of a contract of service, or to report his inability to make such entry, as required by section 47;

(f) failing, when he refuses to give his domestic servant a character, or to state the cause of the termination of the contract of service, to furnish to the Registrar his reasons for such refusal, as required by section 47.

53. Any domestic servant or late domestic servant guilty of any of the following omissions shall, on conviction before a Magistrate, be liable to a fine not exceeding twenty rupees:—

(a) failing to attend the Registrar and furnish him with the information required by section 40;

(b) failing to produce his pocket-register under section 46, 47, 48, or 49;

(c) having been registered under this chapter and failing to comply with the requirements of section 50.

54. Any domestic servant, or late domestic servant, giving false information on any matter on which he is required by this chapter to give information to the Registrar or to any other person, shall be punished with imprisonment for a term which may extend to three months or with fine which may extend to fifty rupees, or with both.

55. Whoever does any of the following acts (namely), dishonestly secretes, destroys, obliterates or renders illegible, or attempts to secrete, destroy, obliterate or render illegible, any pocket-register issued under this chapter, or any entry therein; or

(b) fraudulently or dishonestly uses or attempts to use as his own any such pocket-register; or

(c) fraudulently or dishonestly delivers to, or receives from, any other person any such pocket-register;

(d) issues or signs any such pocket-register, or any entry therein knowing or having reason to believe that such pocket-register or entry is false in any material point;

(e) corruptly uses or attempts to use any such pocket-register as a true pocket-register, knowing the same to be false in any material point;

shall be punished with imprisonment which may extend to one year, or with fine which may extend to two hundred rupees, or with both.

56. The following fees shall be levied under this chapter, and shall be paid by masters or servants or intending servants, as the case may be, in

Report of failure to produce pocket-register.

Servants to attend Registrar for pocket-register entries to be transferred to general Register.

Servants to exhibit pocket-registers to Police.

Police.

Entry in case of conviction.

Registered servants entering service, &c., in places where there is no servants' registration-office

adhesive stamps, to be affixed to the servant's pocket-register, and cancelled by the Registrar:—

Fee payable by master on causing an existing servant to be registered ... Four annas.

Fee payable by master on hiring a new servant ... Ditto.

Fee payable by intending servant on provisional registration ... Ditto.

Fee payable by intending servant on registration being confirmed .. Ditto.

Fee payable by servant for registering statement of previous service ... Ditto.

Fee payable by servant for a duplicate pocket-register ... One rupee.

57. Nothing in this chapter applies to servants born in Europe, America or Australasia; and, save as provided by sections 49,

Savings.

50, 53, 54, and 55, nothing in this chapter applies to any person in any local area for which a Servants' Registration-office has not been established.

THE FIRST SCHEDULE.

(See section 2).

No. and year.	Title.	Extent of repeal.
XIII of 1859	An Act to provide for the punishment of breaches of contract by artificers, Workmen, and Labourers in certain cases	The whole.
IX of 1860	An Act to make provision for the speedy determination of certain disputes between workmen engaged in Railway and other Public Works and their employers.	The whole.

THE SECOND SCHEDULE.

(See section 33.)

A.—FORMS OF PLAINTS AND WRITTEN STATEMENTS IN SUITS ON CONTRACTS OF SERVICE.

1. *Against a master for refusing to receive into service.*

In the Court of at
Civil suit No.

A. B. of

against

C. D. of

A. B., the above-named plaintiff, states as follows:—

1. That in consideration that the plaintiff would enter into the service of the defendant and serve him for [one year] from the day of A. D. in the capacity of [clerk] to the defendant at the wages of Rs. a month, the defendant on the day of

A. D. promised the plaintiff to receive him into the said service and to retain him therein for the period and on the terms aforesaid.

2. That all conditions were fulfilled and all things happened, and all times elapsed necessary to entitle the plaintiff to be received and retained by the defendant in his said service in the capacity and on the terms aforesaid.

3. That the defendant did not nor would receive the plaintiff into his said service and retain him therein for the period and on the terms aforesaid.

4. The plaintiff prays judgment for Rs.

2. *By a servant against his master for not receiving him into his service, with statement of damage.*

(Title.)

1. That it was agreed by and between the plaintiff and the defendant that the plaintiff should enter into and continue in the service of the defendant, and that the defendant should receive and retain the plaintiff in such service in the capacity of until the expiration of a reasonable notice to be given by either of them to the other to determine such service at a salary at the rate of Rs. 1,200 a year to be paid by the defendant to the plaintiff in that behalf.

2. That [as in form No. 1, paragraph 2]; whereby the plaintiff lost the profits and emoluments which would have accrued to the plaintiff from being received into and retained in the said service of the defendant as aforesaid, and was also deprived of the opportunity of being retained and employed by any other person and remained out of service and unemployed for a long time, and lost the benefit of divers expenses which the plaintiff necessarily incurred in and about entering into and preparing to perform the said agreement on the plaintiff's part.

[Demand of Judgment.]

3. *For a wrongful dismissal.*

(Title)

A. B., the above-named plaintiff, states as follows:—

1. That in consideration that the plaintiff would enter into the service of the defendant and serve him for a year from the day of 18 . . . [or until the service should be determined as hereinafter mentioned] in the capacity of at the wages of Rs. per month, the defendant promised the plaintiff to retain him in the said service in the capacity and on the terms aforesaid during the said year [or until the expiration of three months' notice to be given by the plaintiff or defendant to the other of them to determine the said service].

2. That the plaintiff entered into the said service in the capacity and on the terms aforesaid, and so continued therein for a part of the said year [or for a long time], and until the breach of the said promise hereinafter alleged, and was always ready and willing to continue in the said service during the remainder of the said year [or until the said service should be determined as aforesaid], whereof the defendant always had notice.

3. That the defendant before the expiration of the said year [or without any such notice as aforesaid having been given by either the plaintiff or defendant to the other of them to determine the said service, or before the expiration of any such notice as aforesaid], dismissed the plaintiff from the said service and refused to retain the plaintiff therein for the remainder of the said year [or until the said service should be so determined as aforesaid], whereby the plaintiff was deprived of the wages and profits which he would have had from being retained in the said service and remained for a long time unemployed.

Written Statement by the Defendant.

(Title.)

C. D., the above-named defendant, states as follows:—

Three months before the defendant dismissed the plaintiff from the said service as alleged, the defendant gave to the plaintiff [or the plaintiff

gave to the defendant] three months' notice of his intention to put an end to the said service.

Written Statement by the Plaintiff.

(Title.)

A. B., the above-named plaintiff, states as follows:—

After the giving of the said notice and before the expiration thereof and before the defendant dismissed the plaintiff as alleged, the plaintiff and defendant agreed that the said notice should be withdrawn by the plaintiff [or defendant] and waived by the plaintiff and the defendant respectively, and that the said service should not determine according to the said notice, but should continue as if no such notice had been given, and thereupon the said notice was then so withdrawn and waived accordingly.

4. *By a domestic servant entitled to a fortnight's warning or a fortnight's wages against his master for a wrongful dismissal.*

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That in consideration that the plaintiff would enter into the service of the defendant in the capacity of a [bearer, khidmatgār, butler or as the case may be], and would serve him in that capacity until the service should be determined as hereinafter mentioned at the wages of Rs. per month, the defendant promised the plaintiff to retain him in the defendant's service in the capacity and at the wages aforesaid until the expiration of fifteen days after notice given by the plaintiff or the defendant to the other of them to put an end to such service, and that in case the defendant should put an end to such service without such notice he should pay to the plaintiff a proportionate part of such wages as aforesaid for fifteen days.

2. That the plaintiff accordingly entered into the said service of the defendant, and has always been ready and willing to continue therein in the capacity and on the terms aforesaid of which the defendant always had notice.

3. That the defendant wrongfully dismissed the plaintiff from the said service without any such notice as aforesaid and without paying the plaintiff such proportionate part of the said wages as aforesaid: whereby the plaintiff was deprived of the wages and advantages which he would otherwise have derived from the said service and has remained for a long time unemployed.

[Demand of Judgment.]

5. *By a Servant against the Administrator of his Master.*

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the plaintiff was in the service of E. F. in his life time in the capacity of a [bearer, or as the case may be] at certain wages and on the terms that such service should continue until either the plaintiff or the said E. F. should determine the same by giving the other of them fifteen days' notice of his intention so to do: and thereupon in consideration that the plaintiff would continue in the service of the said E. F. in the capacity aforesaid until the death of the said E. F., the said E. F. promised the plaintiff to pay him Rs. .

2. That the plaintiff accordingly continued in the service of the said E. F. in the capacity aforesaid until the death of the said E. F., and all conditions were fulfilled and all things happened

and all times elapsed necessary to entitle the plaintiff to be paid the said sum of Rs. , yet the same remains due and unpaid to the plaintiff.

3. That the defendant is administrator of the estate of the said E. F.

[Demand of Judgment.]

B.—PLAINTS IN SUITS FOR WRONGS.

6. *For enticing away the Plaintiff's servant.*

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That G. H. was and still is the servant of the plaintiff in his business of a , and the defendant well knowing the same wrongfully enticed and procured the said G. H. unlawfully and without the consent and against the will of the plaintiff to depart from the said service of the plaintiff; whereby the plaintiff lost the services of the said G. H. in his said business.

[Demand of Judgment.]

Written Statement by the Defendant.

C. D., the above-named defendant, states as follows:—

That the said G. H. was not the servant of the plaintiff as alleged.

7. *For receiving and harbouring the Plaintiff's servant.*

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That G. H. was and still is the servant of the plaintiff in his business of a , and unlawfully and without the consent and against the will of the plaintiff departed from the service of the plaintiff.

2. That the defendant well knowing the premises wrongfully and without the consent and against the will of the plaintiff, received, harboured and detained the said G. H., and refuse to deliver the said G. H. to the plaintiff although requested by the plaintiff so to do; whereby the plaintiff lost the service of the said G. H. in his said business.

[Demand of Judgment.]

8. *By a servant against his master for employing him to work upon an unsafe scaffolding.*

(Title.)

A. B., the above-named plaintiff, states as follows:—

1. That the plaintiff was employed as a [bricklayer] by the defendant to do certain work for the defendant upon a certain scaffolding constructed by the defendant for that purpose.

2. That the said scaffolding was by the negligence and default of the defendant [or of the defendant's foreman] constructed unsafely and with defective and improper materials, and was in an unsafe condition, and unfit for the purpose aforesaid, which the defendant [or the defendant's foreman] well knew, but which the plaintiff had no reason to believe.

3. That by reason of the premises whilst the plaintiff was so employed as such [bricklayer] as aforesaid doing the said work upon the said scaffolding, the said scaffolding broke and gave way, and thereby the plaintiff was thrown to the ground, and his leg was broken, and he was permanently injured and rendered unfit for work, and incurred expense for medical attendance.

[Demand of Judgment.]

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend and codify the law governing the relation of Master and Servant. The want of a compact and definite system of law upon this subject has long been felt. This want, it is hoped, will be supplied by the present Bill. The Bill is based mainly upon the English law; but a few deviations from that law have been made; and some provisions have been adopted from the Prussian and New York Codes. The Bill, further, contains provisions for the registration of domestic servants. A desire for legislation in this direction has, at various times, been strongly expressed in many quarters; and it is hoped that the rules in the present Bill upon this subject will be found effective in practice. In substance they have been mainly taken from the Ceylon Ordinance No. 28 of 1871, which is now successfully in operation at Colombo.

The Bill is divided into ten chapters.

Preliminary.

Chapter I contains the usual preliminary matter, and saves the provisions of the Indian Contract Act, 1872, as to compensation. The Acts relating to emigrant labourers and merchant seamen are also saved.

The Contract of Service.

Chapter II deals with the contract of service, which it defines so as to include contracts of service of every description. A domestic servant is also defined as one "who does household work within his master's house or compound." This definition is made wider in its terms than the definition of the corresponding class of servants in English law, in order to include table servants and others who, in this country, do not usually sleep in their master's house. It declares that every person competent to contract may enter into a contract of service; and supplies an omission of the Indian Contract Act, 1872, section 11, by providing that a minor may enter into such a contract, but that it cannot be enforced against him. It declares that in the absence of express provision on that head, the servant's remuneration shall be presumed to be that ordinarily paid at the time and place of contract to servants of the same class. It provides that in the absence of express provisions as to the term of service and the mode of terminating the contract, it shall be presumed that (a) a domestic servant is hired for a month, and the contract is terminable by fifteen days' notice or payment or tender of fifteen days' wages; (b) a servant of a higher class is hired for a year, and the contract is terminable by three months' notice or payment or tender of three months' wages; and (c) a merely mechanical or agricultural servant hired by piecework is hired for no specific time, and the contract is terminable by notice at the will of either party. The provision for the termination of the contract in the case of domestic servants is drawn from Bengal Regulation VII of 1819. Section 9 sets forth the events which terminate a contract of service; and section 10 provides for the case in which both parties, after the termination of the contract, continue the relation, by directing that it shall then be presumed that the contract has been renewed for the same wages and term of service.

The rights of the Master and the duties of the Servant.

Chapter III defines the master's rights and the servant's duties. It provides for compensation to the master for the wilful refusal of the servant to enter the service. It declares the duties of the servant after entering the service; amongst these duties attention may be directed to (d) that of being respectful to his master, and, if a domestic servant, to the members of his master's family; (e) the servant's liability as a bailee for his master's property entrusted to him; (f) his duty to indemnify his master for liabilities to compensate for injury caused by the servant's wrongful act or omission; (g) his obligation to endeavour to protect his master against wrongful acts or omissions of his fellow-servants; (h) his liability to account for his master's money or goods received by him, and to deliver up as soon as possible, everything he receives on his master's account; and (i) which forbids a servant to set up an adverse title to his master's property, unless the master's title accrued fraudulently or wrongfully or under an avoided contract. These provisions, which are somewhat wider in their scope than the English law, include, it is believed, all the proper duties of a servant. In section 13 there is an express provision, adopted from the New York Civil Code, which declares the master entitled to the whole time of his household servants, and such portion as is customary of the time of his other servants. This provision, it is conceived, is in accordance with the present law. By section 14, the punishment in any shape of servants by their master is forbidden, except for the purpose of maintaining discipline on board merchant vessels. But contracts, under which a master may in certain events withhold part of his servant's wages, will not be rendered illegal. Section 15 describes the cases in which the servant may be discharged. These cases include habitually negligent conduct; conduct or claims likely to be materially injurious to the master; incompetence; permanent disability from illness; imprisonment; breaches of the duties above referred to under section 12; gross moral misconduct or reasonable belief by the master of such misconduct; and the discovery by the master of such misconduct of the servant as would have led the master not to employ him. Section 16 provides for compensation being made to the master by any one knowingly depriving the master of his servant's services, by enticing away, harbouring or detaining the servant; injuring him by acts punishable under chapters XIV and XVI of the Penal Code (relating to offences affecting the public health, &c., and the human body); or, in the case of a female servant, by seducing her. In this latter case

the Bill departs, usefully it is thought, from English law by requiring on the part of the seducer knowledge of the master's rights. This section also lays down the usual rules for ascertaining the amount of compensation to be awarded in the cases provided for by this section; and section 17 provides that the master may waive his right to such compensation, and sue for the wages earned by the servant while employed by the wrong-doer. This section also provides for the master's recovering any wages earned by his servant during time belonging to his master, unless the master has waived this right. Section 18 declares that a master is not entitled to be compensated for injuries caused by third persons, when his own servant, acting as such, has by his negligence contributed to cause such injuries.

The rights of the Servant and the duties of the Master.

Chapter IV contains correlative provisions to those of chapter III, and defines the servant's rights and the master's duties. It provides that the master shall compensate a competent servant for refusing to receive him into his service; and gives the servant an option of suing immediately upon the refusal, or of awaiting the time for the commencement of the service. The master's obligations are described in section 20. These include, as well as the obligations to retain and pay the servant, an express duty to indemnify him for liability incurred in obeying his master's lawful orders, or orders which the master's conduct induced the servant to believe lawful. These obligations also include the duty of compensating the servant for injury done by the master; and the last two clauses prescribe that the master must endeavour to provide properly qualified fellow-servants, and must take all reasonable precautions to protect his servant when employed in dangerous work. Section 21 declares the servant entitled to compensation in case of breach of the duties described in the last two clauses, provided that he could not by ordinary care have avoided the injury, and that at the time of the injury he had no reason to believe the breach had been committed. In section 22 a new provision is introduced which seems consonant with justice, which has recently been recommended by the Railway Accidents Commissioners, and which entitles a servant to compensation from the master for injuries caused by a breach of the last two clauses of section 20, when the injury is caused by the negligence of a foreman having the control of the work, or the management of apparatus employed in the work, in performing which the injury is caused. Section 23 declares a servant wrongfully discharged entitled to compensation for such discharge, and contains rules for such compensation. The servant has, by section 24, a right to determine any contract of service at any time for a wilful or permanent breach by his master of his obligations; or if the master commits against the servant an offence punishable under the chapters of the Penal Code relating to the human body, property, defamation and criminal intimidation, &c.; or if the servant is prevented by permanent illness, or other cause over which he has no control, from fulfilling his contract. It is declared by section 25 that, in the case of a servant wrongfully discharged, or whose contract is terminated under section 24, or by the death of either party, the wages are payable for the period of actual service, and that such wages in the absence of express agreement to the contrary, shall be deemed to accrue due from day to day. This provision will prevent the hardship which frequently arises, under English law, to a servant who, without fault of his own, has not completed his term of service, and who therefore gets nothing for the time he has served.

Liability of fellow-servants.

Chapter V consists of a single section, which provides that one fellow-servant shall compensate another for injury caused by his neglect or want of skill in the common employ. This is in accordance with the Scotch law, and, it seems, with justice; but the American law and, it would appear, the English law also, is otherwise.

Liability of Master to third persons for his Servant's acts.

Chapter VI renders a master liable upon contracts made by his servant in cases when his servant could bind him if the servant were his agent. It declares (section 28) that a master is ordinarily liable for the wrongful acts or omissions of his servant in the course and within the scope of his employment; although such act or omission was not necessary for the performance of the servant's duty, or was contrary to his master's orders. This section will, it is hoped, remove the uncertainty which has prevailed on this subject. Illustration (h) to this section is intended to get rid of the strange doctrine as to the identification of passengers by public conveyances with the persons conducting those conveyances (*Thorogood v. Bryan*, 8 C. B. 115). Section 29 saves the master from responsibility in the case of (a) contributory negligence of the person injured; (b) compulsory employment, as in the case of pilots; (c) the servants of public servants; and (d) fellow-servants, where the master has performed his duty in properly choosing the wrong-doer. By section 30 volunteers are included in the provisions of sections 28 and 29; and there appears to be no reason that, because they are unpaid, they should be otherwise placed on any different footing from paid servants.

The liability of a Servant to third persons for acts done on behalf of his Master.

Chapter VII provides that a servant, other than a domestic servant, is liable on contracts entered into in his master's name, only when he would be personally liable if he were an agent; and that a domestic servant is liable on contracts unauthorized by his master. This latter provision is inserted because the general rule laid down by the section would impose too great

a liability upon servants of this class. The wrongful acts of servant acting on behalf of his master done to persons not in the service of his master, are provided by section 32. The servant is liable to the injured person for such acts, but not for negligence, except in the case of public servants.

Forms.

Chapter VIII provides simple forms of plaints and written statements for most of the suits which will lie under the proposed enactment.

Jurisdiction of Magistrates in disputes between Master and Servant.

Chapter IX incorporates the provisions of Act XIII of 1859 (*An Act to provide for the punishment of breaches of contract by Artificers, Workmen, and Labourers in certain cases*) and those of Act IX of 1860 (*An Act to make provision for the speedy determination of certain disputes between workmen engaged in Railway and other public works and their employers*), and gives the Presidency Magistrates and all other Magistrates duly empowered jurisdiction to entertain complaints of the kind specified.

The registration of domestic servants.

Chapter X authorizes the Local Government to establish, by notification, a Servants' Registration-office for any local area, and to provide for the working of such offices. It requires (section 39) every master of domestic servants, residing in the local area, within one month of the publication of such notification, to send a list of the names of his servants, the capacity in which they are employed, and the date of entering his service. Every such servant must within three months of such publication, attend personally before the Registrar and furnish him with such information as he may require for the purposes of the Act. The servant is then to be registered, full particulars relating to him and his service being recorded. The servant is also to be provided with a pocket-register containing the same details. Provision is made in case of the determination, otherwise than by death, of the service of any servant mentioned in the list furnished under section 39. In such case the master must furnish the Registrar with a memorandum of the date and cause of such termination, unless the servant has previously obtained his pocket-register. The Registrar is required to register any applicant desirous of becoming a domestic servant, and whom he has reason to believe fit; he is also required to register full particulars as to his person, and the names and residences of any persons who certify to his respectability. A pocket-register is to be thereupon issued to the applicant. The Registrar must refuse to register the applicant if he has not reason to believe him fit to become a domestic servant. He must also refuse to register certain reputed criminals and bad characters. No person may, after three months from the publication of the notification under this chapter, hire a domestic servant who fails to produce his pocket-register, or whose pocket-register does not record the termination of his last previous contract of service, if any. The master hiring a registered servant must require him to produce his pocket-register, and must enter therein the date of his contract of service, and the capacity in which he is employed. Similarly, the master must, if the service is terminated otherwise than by death, enter the date and cause of such termination, and the servant's character, in his pocket-register; or he may refuse to give the servant a character, or to state the cause of such termination; but he must in that case sign and send to the Registrar a memorandum of his reasons for so refusing. He must also report to the Registrar if he is unable to make such entry as before mentioned through the failure of the servant to produce his pocket-register. The chapter then provides for the attendance of servants at the Registrar's office for the purpose of having the subsequent entries in their pocket-registers recorded in the general Register, for the production of such pocket-registers to the Police, and for entering any conviction of the servant therein. This last provision is taken from the Prussian Landrecht. The chapter then provides for the registration of the commencement or termination of any service of a registered servant which takes place within local area for which a servant's Registration-office has not been established. Such registration is to be made at the nearest police-station, and information thereof sent to the Registrar of the local area in which the servant was registered. Provision is made for the issue of duplicate pocket-registers in case the originals are lost or worn out. The chapter then provides penalties for breaches of the obligations which it imposes. Penalties are also provided for false information by a servant; for secreting, destroying, &c., the pocket-register; fraudulent use, receipt or delivery of a pocket-register; issuing or signing a false pocket-register or entry; and knowingly using a false pocket-register. A small fee will be charged for registration and entries in the Register. And servants born in Europe, America or Australasia are exempted from the operation of this chapter.

ANNUAL AGRICULTURAL EXHIBITION AT BANKOORA HELD IN JANUARY 1877.

FINANCIAL DEPARTMENT—MISCELLANEOUS—No. 2551.

Calcutta, the 14th August 1877.

From—A. MACKENZIE, Esq., Offg. Secretary to the Government of Bengal,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your letter No. 30, dated the 10th instant, submitting a report on the Annual Agricultural Exhibition held at Bankoora in January last.

2. In reply I am desired to say that the Lieutenant-Governor is glad to find that this exhibition appears to be locally appreciated and stands in no need of special Government support.

3. The report will be published in the *Calcutta Gazette*.

No. 30, dated Burdwan, the 10th August 1877.

From—HORACE A. COCKERELL, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the accompanying letter from the Magistrate of Bankoora, enclosing a report furnished by the Secretary on the agricultural exhibition held at that station in the last week of January last.

2. The exhibition appears to have been a success, and will, I have no doubt, continue to be so if the local officers take an interest in its management.

3. I cannot venture to hope that the Magistrate's application for pecuniary aid will, in the present state of finances, be acceded to.

No. 688, dated Bankoora, the 24th July 1877.

From—W. R. LARMINIE, Esq., Magistrate of Bankoora,
To—The Commissioner of the Burdwan Division.

I HAVE the honour to submit herewith a report furnished by the Secretary to the Bankoora Agricultural Exhibition Committee.

2. It can be seen from this that there was a considerable improvement in the number and quality of exhibits as compared with those shown in the preceding year's exhibition. The number of visitors was very large, and of these many were residents of other districts. I am quite of opinion that these local shows are of considerable use in the encouragement of good farming and stock-breeding, but, unless they are recognized by Government, it is not easy to induce the wealthy to take the same interest in them as they would if they saw that they were really approved by the higher authorities.

3. I think, therefore, that a small annual subsidy might fairly be granted and would be appreciated.

4. The gentlemen mentioned in the last paragraph of the report deserve thanks for their exertions, and the Secretary himself showed untiring zeal in securing the success of the exhibition.

5. If you should think fit to forward the report to Government, I trust you will be willing to support our application for the small subsidy of Rs. 250 in aid of making the exhibition an annually recurring one.

No. 51, dated Bankoora, the 24th July 1877.

From—BABOO KRISHNA GOVINDA GOSSAMI, Secretary to the Bankoora Agricultural Exhibition Committee,
To—The Magistrate of Bankoora.

I HAVE the honour to submit the following report on the agricultural exhibition held at Bankoora in the last week of January 1877.

2. This is the second exhibition of the kind. The first was held in February 1876, which, as an experiment, promised well.

3. There was no mela held simultaneously with the exhibition, although notices were circulated in due time. It was owing, I think, to incessant rains which fell in January last. The committee regret that their efforts towards this direction should be unsuccessful, as the establishment of an annual mela should have given stability to the exhibition.

4. The entire cost of the exhibition was met from local subscriptions, and no aid in any shape was given by Government.

5. All the respectable and wealthy inhabitants of the district, and some of the enlightened zemindars of other districts, liberally contributed towards the support of the exhibition. Three meetings of the committee were held, at which subscriptions were raised and details for the purpose of carrying out the exhibition were arranged. The committee were able to collect subscriptions to the amount of Rs. 2,136-4.

6. A central committee, consisting of the following gentlemen, were appointed for the management of the exhibition; sub-committees were also formed in all the thanas, outposts, and other important places of the district:—

W. R. Larminie, Esq.

W. H. Cornish, Esq.

J. O'B. Sceales, Esq.

H. M. Wright, Esq.

Baboo Sittakantha Ghose.

„ Ram Chunder Dichhit.

Baboo Nadier Chand Roy.

„ Umesh Chunder Dutt.

„ Dinonath Ghose.

„ Nobo Gopal Banerjee.

„ Nilmoni Das.

Moonshee Abdul Jaleel.

7. The same site on the bank of the river Gundeshury, which had been found so admirably suited for the first exhibition, was also selected this year.

8. The construction of the sheds and the durbar platform was commenced early and was completed within a very short time, under the supervision of the district overseer and the court inspector. The sheds were built at a cost of Rs. 354.

9. Revised rules for the carrying out of the exhibition were framed by the Chairman and were circulated long before the exhibition, with a view to allow the people plenty of time to prepare themselves for the same. Several alterations and additions to the rules, as suggested

by the past year's experience, were made for the purpose of making them conformable to the requirements and capabilities of the district, specially in the classification of articles and in the amount of prizes. Precautions were also taken to guard against any one exhibiting articles not actually grown or manufactured by him.

10. The competition for prizes was not restricted to this district only. The inhabitants of the neighbouring districts of Midnapore, Manbhoom, Burdwan, and Beerbhoom were also allowed to compete.

11. There was a large increase in the number of exhibits, more especially in the department of agricultural products, and many of the articles shown were of great excellence. Some of the manufactured articles, viz. tussar cloth, for which first prizes were awarded, and which were purchased by the Chairman of the Local Committee at this station for the management of the Calcutta Economic Museum and sent by him to that museum, have attracted much notice, and several orders have been received by the manufacturers from Calcutta.

12. The whole exhibition was divided into four departments, viz. (a) agricultural produce, (b) manufactures and implements, (c) live stock, (d) odds and ends.

13. In the department of agricultural produce were exhibited various sorts of paddy and rice; pulses of various kinds, such as gram, arhar, biri, mug, &c., were also exhibited in different collections and quantities; gandhu, kadu, jowar, meru, and several other kinds of Indian-corn. Country vegetables of different kinds, viz. *digla*, *now*, brinjals, plantains, &c., were also brought in for exhibition from various parts of the district. English dalees, consisting of cabbages and cauliflowers, peas, &c., were also shown by the growers of the district, as well as by those of the sub-division of Raneegunge in the Burdwan district. The best English and native flowers also competed for prizes. The total number of exhibits in this department was 540, against 343 of the previous year.

14. The manufacture branch was represented by various articles, such as kodalees, spades, and other iron implements from Mogia, Ajodhya, and other places of note in the district, and cups, glasses, pans, and thals, both of brass and kansa, from the towns of Bishenpore, Jaipore, &c. The best productions of silk, tussar, cotton, were brought in for rewards, as also specimens of carpentry and native earthenware. The number of specimens exhibited under the head was 163, against 67 in the year before.

It is worthy of note that Messrs. Scott, Thomson and Co. of Calcutta sent for show many of their simple agricultural and other implements. Some of the articles were purchased by wealthy zemindars of this place, and it is hoped that the people will gradually learn to appreciate the advantages to be derived from the use of these agricultural implements.

15. Bullocks, buffaloes (both imported and country-bred), goats of both sexes and of different species, country fowls and English poultry of various sorts were exhibited in the live stock department. The number of exhibits were 105, against 71 in the year preceding, and the specimens brought in appeared to be better. No number of prizes in this department exceeded that of the previous year.

16. In the odds and ends branch were exhibited articles of various kinds and denominations not coming under the above heads. They were chiefly fancy things, such as cane chairs, cages, trowsers (woven), fishing-net, &c. The total number of exhibits under this head was 83, against 45 in the year before.

17. On the 24th January 1877 all the articles and animals intended for the exhibition were arranged in order of the department to which they belonged, and on the following morning the judges appointed by the committee for the purpose of awarding prizes elected the articles deserving of rewards and affixed prize tickets to them.

18. The exhibition continued for three days. The following is a brief narrative of the proceedings of the show:—

25th January 1877.—In the afternoon a durbar was held, at which all the European ladies and gentlemen of the station and the leading native gentlemen of the district were present. The Joint-Secretary, Baboo Upendra Chunder Mookerjee, gave a short but clear account of the specimens exhibited, and asked the President, on behalf of the native community, to declare the exhibition formally opened. The President delivered a short speech, pointing out the advantages likely to be derived from such exhibitions, and concluded it by thanking the zemindars and the non-official and official members of the committee for their cordial co-operation in the matter. The people generally took great interest in the exhibition, which was visited by crowds both from this and the neighbouring districts.

26th January 1877.—The exhibition continued this day. In the evening there was a display of fireworks of various sorts. At night the best jattrā party from Calcutta gave their first performance. The people appeared to like the jattrā very much.

27th January 1877.—In the morning there were gymnastic sports, such as high jump, long jump, &c. Prizes were awarded to those who acquitted themselves the best in these sports. Rewards to the amount of Rs. 70 were bestowed by the Chairman. In the afternoon prizes to the amount of Rs. 585-8 were distributed among the successful competitors as per annexed list. Thus the total amount of rewards distributed was Rs. 655-8, against Rs. 606 distributed during the year before. In the night there was the jattrā again, which greatly amused the people and added to the popularity of the institution.

19. The articles in the show-yard were returned on the next day to the exhibitors and the exhibition ended.

20. The committee have the satisfaction to observe that, notwithstanding the backward state of the district in point of agriculture, the people have appreciated the manifold advantages of an annual exhibition. Their productions have attracted the attention of the Calcutta Economic Museum Society, and we are sanguine that, if the exhibition be made annual, the people of the district will not hesitate to compete for prizes with any district in Lower Bengal.

21. The district is very small, and as the inhabitants are generally poor, I apprehend that the committee's funds may fall short next year. They trust, therefore, that as such institutions, being beneficial to the public, should receive every encouragement from Government, you will be pleased to recommend an annual aid of Rs. 250 from Government.

22. The committee beg to place on record their cordial acknowledgments to the gentlemen who have subscribed towards the exhibition.

23. I should also mention here that the sanitary arrangements were excellent. The police were vigilant and prompt in the discharge of their duties. There were no cases of theft or of any disturbance.

24. In conclusion, the committee have to acknowledge the cordial assistance rendered to them specially by the following gentlemen:—

J. O'B. Seeales, Esq.	Baboo Karuna Prosad Chatterjee.
W. H. Cornish, Esq.	„ Umesb Chunder Dutt.
W. J. Mountau, Esq.	„ Kirti Chunder Banerjee.
Baboo Dinonath Ghose.	„ Kunja Behari Chakravarti.
„ Sittakantha Ghose.	„ Nilmoni Das.
„ Nobo Gopal Banerjee.	„ Mohesh Chunder Banerjee.
„ Ram Chunder Dichhit.	Moonshi Abdul Jaleel.

• KRISHNA GOVINDA GOSSAMI,

Secy., Agricultural Exhibition Committee.

The 24th July 1877.

MEMORANDUM ON THE STOCK OF RICE IN CALCUTTA.

FURTHER inquiries up to date confirm the general accuracy of the return of stocks published in the *Calcutta Gazette* of the 15th instant. The supplies have not in some places kept pace with the sales; but in other marts the stocks have increased, and the general result is still to show a stock of about 32 lakhs of maunds in Calcutta and the immediate neighbourhood. The stock in Calcutta itself is about 28 lakhs of maunds.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

The 20th August 1877.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE IN BENGAL RECEIVED UP TO THE 21ST AUGUST 1877.

N.B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 18th August 1877.—The stock of rice in the district cannot be less than six months' consumption, which would be 90,00,000 maunds, according to the native estimate of one seer a head per diem, or 45,00,000 according to the lowest estimate of half a seer a day. The supplies at the markets are sufficient. Prices slightly lower in Burdwan and Cutwa, and slightly higher in the other sub-divisions. Exports, chiefly by river, amounted in the past week to from 30,000 to 35,000 maunds. The stores of rice in Cutwa, Jehanabad, and north of Culna are probably ample.

Bankoora, 18th August 1877.—About 4,773 maunds of rice were exported from the district during the week.

Beerbhoom, 19th August 1877.—The price of common rice varies from 13 to 17½ seers; the average is 16 seers, being dearer than last week or the week before.

Midnapore, 18th August 1877.—Further enquiries confirm the estimate previously made. There cannot be less than 40 lakhs of maunds of paddy still available for export, exclusive of what is required for local consumption.

Hooghly, 18th August 1877.—Stocks now in hand are entered at 7½ lakhs of maunds. Exports and imports are going on, the former being more brisk than the latter. There is a slight rise in the prices: coarse rice is selling at 12½ seers a rupee at Hooghly. Eighty-six days' consumption is in hand in the interior.

Howrah, 18th August 1877.—Nothing new to be reported. The movement of rice through the canal continues, but the trade is slack and stores in Howrah small.

24-Pergunnahs, 18th August 1877.—The supply of food-grains in the district is considered sufficient, and the high prices at which ordinary rice is selling, ranging from Rs. 2-8 to Rs. 3-8, are due to extensive export to Calcutta.

Nudda, 14th August 1877.—The supply of rice may be taken at two or three months' consumption. Ordinarily the price of common rice should fall in September, but it is not possible to say what will happen this year, as much will depend on conditions existing elsewhere. The quantity of rice available for export is not large. The quantity of pulses in stock is considerably in excess of the requirements of the district. About 13,600 maunds left for Calcutta last week. The present prices are:—*Sudder Sub-Division*—Early *aus* paddy Re. 1-6, late *amun* paddy Re. 1-10, *amun* rice Rs. 2-8, *aus* rice Rs. 2-6, imported *pooroohi dham* Rs. 2-8, ditto *chatta* Rs. 3-8. *Kushtea*, paddy Rs. 1-3½, coarse rice Rs. 2-6. *Chocadangah*, *amun* paddy Re. 1-10, *aus* paddy Re. 1-6, *amun* rice Rs. 3-4, *aus* rice Rs. 3. *Bongong*, common rice Rs. 2-8. *Moherpore*, coarse rice from Rs. 2-4 to Rs. 2-8. *Ranaghat*, clean rice Rs. 3-5-3, coarse rice Rs. 2-8.

The 18th August 1877.—There has been no change in prices during the week. The cheapest rice still ranges from Rs. 2-4 to Rs. 3, the usual rates being Rs. 2-6 to Rs. 2-8.

Jessore, 18th August 1877.—The price of common rice is generally about 14 seers; the rupee, but at Khulna it is 18 seers, at Bagirhat 12 seers, and at Jessore Bazar 13 seers. About 2 lakhs of maunds of paddy are available for export in the district. The Khulna river traffic registration office shows 5,974 maunds of rice exported from the district to Calcutta from 8th to 15th August.

Moorshedabad, 18th August 1877.—Prices fluctuated greatly and capriciously. The exports of food-grains to Calcutta during the week amounted to 30,000 maunds. The stocks are sufficient, but the margin for exportation must be small until the new rice comes well into the market. The stocks of rice and paddy are estimated as follows:—*Lalbagh*, rice 19,770 maunds, paddy 38,500 maunds; *Jungypore*, rice 1,28,290 maunds, paddy 57,950 maunds; *Rampore Hât*, rice 62,591 maunds, paddy 2,66,774 maunds; *Sudder sub-division*, rice 31,000 maunds, paddy 1,60,000 maunds. The Collector believes the estimates for Lalbagh and Sudder sub-divisions too low. He thinks the stocks are—at Lalbagh, rice 25,000 maunds, paddy 55,000 maunds; and at Sudder, rice 97,000 maunds, paddy 5,00,000 maunds. The price of common rice varies from 12 seers at Berhampore and Lalbagh to 17 seers at Raghunathgunge in Jungypore.

Dinapore, 17th August 1877.—2,23,958 maunds of rice were exported in July from Gungarampore and Chintamun, besides 4,89,175 shown in last week's report, and 44,901 maunds were in hand. No intelligence received from Gopalgunge and many of the largest marts.

Rajshahye, 18th August 1877.—The exports of rice from the several marts and gunges in the district during the past week amounted to 8,087 maunds 31½ seers, of which 5,772 maunds

went to Calcutta and the rest to Pubna and Goalundo. The stock in hand available for export is little less than 6 lakhs of maunds, exclusive of what is required for consumption. The price of rice has risen slightly, that of coarse rice being now 15 seers per rupee in Beaulah.

Rungpore, 17th August 1877.—Rice this week is cheaper at head-quarters and in Gyebanda sub-division. The prices are—at Rungpore, coarse rice 16 seers and aous 28; Gyebanda, coarse rice 15 seers and aous 25. The total amount of rice brought to market during the last week is stated to be 34,100 maunds, paddy 66,860 maunds. The Collector does not think the estimate reliable, but believes that double the quantity at least would be much nearer the correct amount. At Kurigram, where there is a brisk export, amun is selling at 16 seers and aous at 18 seers. The prices will continue to rise until the next crop is reaped, but the ryots must have considerable stocks in hand. Exportation is going on mainly to Serajunge but also to Goalpara and other parts of Assam.

Pubna, 18th August 1877.—The prices of common rice are—at Pubna Re. 1-14, Serajunge Rs. 2-6, Shazadpore Rs. 2, Raigunge, Dulai and Chatmohur Re. 1-12, and Mothura Rs. 2-6. The price has risen a little at sudder station owing to the demand in Calcutta. No exports to Calcutta have taken place except at Chatmohur, whence four or five thousand maunds were exported during the week.

Darjeeling, 17th August 1877.—There has been no rise in the prices of food-grains during the past week, and the supply in stock is still considered sufficient for the wants of the people.

Julpigoree, 17th August 1877.—The price of common rice in the district varies from 13 to 16 seers, and is 13½ seers at Julpigoree. It has risen during the last two years, and, if the famine demand continues, may rise higher. There is no exportation now to Calcutta or elsewhere to the south, all surplus going to Darjeeling tea gardens, and some to Cooch Behar. The stock is very small and is held by the jotedars, there being no traders in rice.

18th August 1877.—The result of enquiries justifies previous estimate that scarcely any grain is available for exportation, although the stocks are sufficient for local consumption. Prices are at present stationary, the high rate in Calcutta not having hitherto influenced local markets.

Cooch Behar, the 16th August 1877.—The price of rice continues the same as reported last week. As previously stated, there are no large accumulations of rice in the markets. No rice is being exported to Calcutta, nor is any large quantity available for the purpose. The stock is roughly estimated at two lakhs maunds of husked rice and 15 lakhs maunds of unhusked rice. This will suffice for five months' consumption, and will leave a surplus of about three lakhs maunds of unhusked rice.

Dacca, 14th August 1877.—Naraingunge registered imports of rice 54,912 maunds; exports by boat to Calcutta and Goalundo 17,975 maunds, elsewhere 12,470 maunds. The price is from Rs. 2-4 to Rs. 2-12. Exports from Dacca and Naraingunge by steamer were 810 maunds, and by Eastern Bengal Railway 18,400 maunds. At Mirpore paddy is selling at 30 to 32 seers the rupee. Stock has decreased owing to bad weather stopping boats and the rivers not being yet sufficiently high to bring out all the highland stock.

Furreedpore, 8th August 1877.—The average price of rice is 16 seers per rupee, against 21 seers this time last year. This price will probably be maintained, subject to occasional fluctuations, until the amun is gathered. The present high price is owing to great demand of rice in other parts. It was higher towards the close of July, when at Furreedpore and Goalundo, it was 12 seers, owing to a sudden demand in Calcutta. For some time Goalundo was overrun by agents from Calcutta houses, ready to buy up every maund that came into the market. This pressure seems to be over, but there is a large, steady demand which prevents the price from falling. The district as a whole grows just enough rice for its own consumption, the surplus in the south being required for the northern parts, where there is a deficiency. During the present season, the middle and northern parts of the district depend on imported rice; in the south there is not usually much export or import at this season, but owing to the recent rise in price some boat-loads left Madaripore for Calcutta. Roughly estimated, there is now between one and one and-a-half month's supply in the district, but when the *aus*, which is now being cut, is gathered, there will be about four months' supply. Taking the monthly consumption at 7,50,000 maunds, the present supply would be 10,00,000, and the supply after the *aus* harvest 30,00,000 maunds.

18th August 1877.—Prices continue much the same as last week, the average being 16 seers the rupee. The markets are fairly supplied. There is no exportation from the district. Rice is imported into Goalundo for local requirements. Madaripore is self-supporting.

Backergunge, 16th August 1877.—Rice is imported into the Dukhin Shahbazpore Sub-division, where the price is from Rs. 2-8 to Rs. 2-10 per maund. In Sudder, Perozepore, and Patuakhali Sub-divisions things are in a satisfactory state. Exports to Calcutta have been very great this year and have forced the selling price to Rs. 3-10 and Rs. 3-12. The exports still continue, but not to the same extent.

Hill Tipperah, 15th August 1877.—The markets are adequately supplied and there is no exportation to Calcutta. Boats with rice purchased in the Tipperah district have started for the hills in the south of the state. Common rice sells for 20 seers the rupee at Agartala.

Patna, 18th August 1877.—There is a slight rise in the prices. Markets are well supplied exports easy, and stocks in hand considerable, but the exact amount cannot be ascertained.

Gya.—Prices at the sudder bazar have been stationary during the week. There was no export to other districts. In Johanabad the prices have been generally lowered. In Aurnugabad there has been no perceptible change in the prices during the week, nor was there any export from the sub-division.

Shahabad, the 15th August 1877.—There are large stores still available, and the rise in price is owing to the demand for Madras and Bombay, and the great want of rain hitherto.

experienced. The prices are common rice from 13 to 18 seers, wheat from 18 to 24 seers, gram from 24 to 32 seers, and barley from 27 to 36 seers.

Durbhunga, 17th August 1877.—There is nothing new to report regarding stocks. The district is still importing a little, but exporting nothing. Prices in the south are unsteady, with a tendency to rise.

Mozufferpore, 18th August 1877.—No exports are being made from the district. During the last fortnight the prices of food-grains have risen slightly.

Sarun, 18th August 1877.—The exports during the week amounted to 2,550 maunds of wheat, 800 maunds of common rice, and 525 maunds of rahar. The imports were 7,752½ maunds of wheat, 2,547 maunds of barley, 200 maunds of common rice, 374 maunds of gram, 1,000 maunds of collie, 800 maunds of rahar, and 400 maunds of paddy. The prices are—wheat 18 seers, barley 26½, common rice 15½, gram 25, collie 25½, rahar 29, and paddy 24½ seers per rupee. The districts from which grains have hitherto been imported have stopped sending any fresh supplies of rice and wheat owing to the existing crops there being threatened by long drought. This must check exports to Calcutta.

Chumparun, 18th August 1877.—No change in prices and supply of food-grains. No export from 12 principal marts.

Monghyr, 18th August 1877.—The stocks in the district consist of rice 19,487 maunds, dhan 12,619 maunds, wheat 59,656 maunds, barley 1,921 maunds, gram 1,30,112 maunds, rahar 20,062 maunds, masur 76,426 maunds, peas 11,125 maunds, &c.

Bhagulpore, 18th August 1877.—Prices are the same as last week and are not likely to change just yet, except towards a rise. The export of the week has been trifling, but the dealers are now inclined to buy. Export is likely to be higher soon both westwards and to Calcutta.

Purneah, 18th August 1877.—Over 10,000 maunds of rice were exported from Caragola during the past week. All the large marts in the south are said to be full of grain. The village people have large stocks in hand, which they will not part with any till the autumn crops have been gathered. The merchants are active from nearly all the marts. Prices are rising a little, owing to the great demand for export and partly to the weather being unfavourable for transplanting.

Southal Pergunnahs, 19th August 1877.—There is a considerable export from the bazars near the railway, as Deoghur, Rajmehal, Pakour, but none from the interior. The price of rice is 16 seers per rupee except at Sarawan, where it is 18 seers and at Rohinee 16½ seers. The drain on the local resources has been trifling as far as regards rice, and the quantity of pulses exported has not been large.

Cuttack, 11th August 1877.—In Jajpore Sub-division exportation almost ceased during the week. In Kendraparah the average price of coarse rice is 18, middle sort 15, biri 13, kulthi 19, and mandia 20 seers per rupee. The price of coarse rice has risen owing to exportation. In the Sudder Sub-division the stocks are reported to be ample in thanas Tirtoli, Juggernathpore and Tikri. Taking the whole district, prices are perhaps a trifle higher, but about Cuttack the coarsest rice is cheaper. Generally speaking, little has occurred to alter the position since last report. The beali is being cut here and there in the centre and north of the district: it has suffered in certain parts. The sarudh cultivation is progressing very favourably, though it has been slightly retarded. The recorded exportation from False Point for the week is, Cuttack maunds 2,386-12 to Madras, besides an estimate of 1,600 maunds by other routes.

The 18th August 1877.—In Jajpore and Kendraparah prices are stationary. In Cuttack they have risen very slightly, owing to the late flood and continued and greater exportation. Exportation is however below what the district could bear, and there is no fear of great scarcity. The actual exportation has been rice 16,886 maunds, and dhan 339 maunds.

Pooree, 16th August 1877.—Rice is obtainable in all parts of the district, but in some places in small quantities. In Khoordah the supply is reported to be insufficient, owing to the export which continues to Madras by land and sea and to Cuttack by land. The price varies from 13½ seers in the city to 21 seers in Kurlo, on the extreme north-east.

Balasore, 17th August 1877.—There has been no exportation from Balasore during the week. The quantity exported from Chandballi to Calcutta was 2,107 cwts. of rice not in husk and 447 cwts. of rice in husk. Prices have risen slightly at Balasore and Chandballi, the last quotations being Rs. 2-3 and Rs. 2-6 per maund respectively. At Bhuddruck and other places the prices are much lower, ranging from Re. 1-2 to Rs. 1-12. Stocks held for exportation are in Balasore 2,277 tons and Chandballi 2,264 tons.

Hazareebagh, 17th August 1877.—The markets continue well-supplied. Price of common rice has fallen. No exports from Hazareebagh or Chatna.

Lohardugga, 18th August 1877.—The bazars continue to be well stocked with food-grains. No exportation to Calcutta, nor any large purchases with that view.

Singbhoom, 17th August 1877.—The supply of food-grains continues plentiful. Ordinary rice is selling at one maund the rupee, except at Bahargora where the price is 24 seers. Wheat is 24 seers the rupee, except at Bahargora where it is 12 seers. Barley and gram are selling at 32 and 20 seers respectively.

Manbhoom, 18th August 1877.—The food-grain supply in the district is ample, though rice, owing to export, is not well distributed. Export continues fairly, especially from Raghunathpore and Purulea, from each of which places about 1,400 maunds were sent out during the week. The entire exports could not have been less than 100 tons. The Deputy Commissioner forwards a letter from the station-master of Raneegunge saying that the railway company is still receiving rice and despatching to all down stations except Howrah and Calcutta.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 18th August 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	Burdwan, Aug. 18 '77	1.04	Weather—Damp and hot. Rainfall at Culna has been 6.04 inches, at Cutwa 4.91 inches, at Bood-bood 1.77 inches, at Jehanabad 10.63 inches, and at Raneegungo .39 of an inch. Prospects of the crops are good. Transplantation of <i>aman</i> paddy is nearly completed. <i>Aous</i> paddy, sugarcane, &c., are doing well. Public health is fair.
	2 Bankoora, „ 18 „	0	Weather—Showery. Prospects of the crops are generally favourable. The heavy rain last week is said to have done some trifling damage.
	3 Beerbhoom, „ „	Return not received.
	4 Midnapore, „ 18 „	1.42	Weather—Seasonable and favourable. The apprehension of inundations in last week's report was unfortunately too well founded. Both the Silye and Cossye rivers have inundated large tracts of country. It is not yet certain whether the water has been drained off quickly enough to save the crops, but some mischief has undoubtedly been caused.
	5 Hooghly „ „	...	Return not received.
PRESIDENCY DIV.	Howrah, „ 18 „	5.03	Heavy showers on the night of the 15th instant, which are favourable to the crops, for there is sufficient water on the fields. The harvesting of early rice has commenced.
	<i>Central Districts</i>		
	24-Pergunnahs, Aug. 18 '77	5.10	Weather—Cloudy, with frequent heavy showers of rain. The harvesting of early rice has commenced in the Barripore sub-division. Late rice and jute are doing well. Public health is generally good.
	7 Nuddea, „ 18 „	2.67	Sufficient rain everywhere. The rice crops, both early and late, are in excellent condition; the former is being harvested.
	8 Jessore, „ 18 „	1.89	Weather—Cloudy and close. Heavy rain on the night of the 17th instant. At Jhenidah 4.12 inches fell during the week. <i>Aous</i> harvest is progressing. The heavy rain has damaged the indigo. Prospects of <i>aman</i> continue satisfactory.
RAJSHAHY AND COCH BEHAR DIV.	9 Moorshedabad, „ 18 „	6.23	Weather—Oppressively hot. A heavy storm of rain and wind early on morning of 18th instant. The prospects of the crops are generally good. The late rain should enable transplantation to be entirely completed in those portions of the district where it had been deferred hitherto.
	10 Dinagepore, Aug. 17 „	1.4	Rainfall somewhat short, but good rain during the last three days. 1.4 of an inch registered at Roygunge. <i>Bhadai</i> crop now being reaped is a full one, as also the jute. The <i>haimunti</i> transplantings are doing well.
	11 Rajshahye, „ 18 „	10.13	There has been a good deal of rain in all parts of the district during the week. On the night of the 17th, and the morning of the 18th instant, there was a heavy gale and a very heavy rainfall. Autumn rice and jute are being cut. Slight injury to the crops is reported by the police of the Bagmara station in the centre of the district owing to a severe gale and heavy rain. Fever is prevalent all over the district.
	12 Rangpore, „ 17 „	1.28	Weather—Hot and close. .26 of an inch of rain registered at Gaibanda and .95 of an inch at Kurigram. The state and prospects of all crops continue to be most satisfactory. Fever of a mild type is prevalent; otherwise for this season the public health is good.
	13 Bogra „ „	...	Return not received.
	14 Pubna, „ 18 „	2.85	Weather—Favourable. Storms on the nights of the 15th, 16th, and 17th instant, with thunder and heavy rain. The harvesting of <i>aous</i> crop is nearly completed. The <i>aman</i> is at present doing well, and the late rains have been of much benefit.
	15 Dargauling, „ 17 '77	3.18	There has been some heavy rain during the last two or three days, and apparently the long break which lasted during the first half of the month, is over. The crops of rice and <i>muria</i> in the hills have not turned out very well. The <i>bhadai</i> rice will, it is hoped, give a ten-anna crop. The transplantation of winter rice was interrupted by the dry weather during the first half of this month, but it is hoped that the present rain will make all right.
	16 Julpigoree, „ 18 „	3.37	Slight rain has fallen, and the weather is somewhat cooler. In all the thanas rain is very much required. In the majority rain has not fallen since the 1st instant, and the reaping of the <i>bhadai</i> , and the transplantation of the <i>haimunti</i> , are alike stopped. About three-fourths of the <i>bhadai</i> have been cut. The sky is now overcast, and it is anticipated that the recent slight rainfall in the Sudder Station has been general.
	Cooch Behar, „ 16 „	1.52	The break in the rain still continues, and the weather is oppressively hot. Only .47 of an inch registered at Dinhatta, .07 at Mathabhangu. More rain is now required. There is water enough on the ground in most places, but the clear skies and strong sun are bad for the newly transplanted seedlings. Jute is being cut; the yield of fibre is reported to be only moderate. The public health continues good.

No.	District, and date of return	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Continued)			
<i>Eastern Districts.</i>			
Dacca Divn.	17 Dacca, Aug. 18 '77	2.78	Weather—Seasonable. State and prospects of the crops are favourable, but a rise in the rivers is wanted. Coarse jute is coming in freely. Finer kinds are beginning to come in.
	18 Furrceepore, „ 18 „	8.84	There was heavy rain during the week in most parts of the district. 2.16 inches registered at Goalundo, and 4.02 inches at Madaripore. A storm passed over the district on the 9th instant, but no serious damage was reported. The quarter from which the wind came was north-east. The river is again rising, and the prospects of <i>amun</i> crop are generally good. The greater part of the <i>amun</i> crop has been gathered, and the outturn is reported to be abundant. The jute crop is also good.
	19 Backergunge, „ 16 „	3.16	The general present condition of the district continues to be satisfactory, and the future prospects for the season are encouraging. It is reported by the sub-divisional officer of Dakshin Shabazpore that <i>amun</i> reaping has fairly commenced and the new rice is coming to the market; that <i>amun</i> transplantation is going on; and that he is yet unable to state if the total area under <i>amun</i> cultivation this year will be equal to or less than in other years. Also in the Sudder sub-division, and in the sub-divisions of Perozepore and Patua-khal, things are in a satisfactory state. There is much hoof-disease among the cattle, but little or no mortality. The general health of the people is good.
	20 Mymensingh „ „	Return not received.
	21 Tipperah „ „	Return not received.
Chittagong Divn.	22 Chittagong „ „	Return not received.
	23 Noakholly „ „	Return not received.
	24 Chittagong Hill Tracts, „ „	Return not received.
	Hill Tipperah, „ 15 „	3.11	High wind on two or three days, and abundant rainfall. The crops are doing very well. More rain during the next few days might cause mischief.
BEHAR.			
Patna Divn.	25 Patna, Aug. 18 '77	.89	In the district the rainfall has been from one to two inches. The prospects of <i>bhadoi</i> crop are excellent, but the transplanting of rice is still delayed for want of rain.
	26 Gya, „ 18 „	.48	Weather—Close and oppressive. Maximum thermometer in the shade 99.4°. 5.01 inches of rain registered at Nowada, 2.1 inches at Jehanabad, and 1.57 inches at Aurangabad. In Nowada and parts of the Sudder sub-division transplantation of <i>ghan</i> is going on. Elsewhere, except in irrigated tracts and villages specially favoured by local rainfall, transplantation cannot as yet be begun. For this purpose rain is still greatly required over quite half of the district. Prospects of the <i>bhadoi</i> crop are fair, though the outturn in places is not expected to exceed eight annas of an average crop.
	27 Shahabad, „ 18 „	1.28	Weather—Cloudy and hot. 1.26 inches of rain registered at Buxar, .65 of an inch at Sasseram, and .20 of an inch at Bhubbooah. Buxar reports a fair general fall of rain all over the sub-division. In Bhubbooah the heavy fall last week has helped to fill the <i>araks</i> and <i>bundhs</i> , and the prospects are reported good. In the Sasseram sub-division rain is still deficient. Throughout the district there is ample moisture for the <i>bhadoi</i> , but the rain is insufficient for the <i>kurreef</i> unless supplemented by canal water, which in many places the ryots do not take because the clouds and heat lead them to hope that rain must fall shortly.
	28 Durbhunga, „ 18 '77	4.88	The prospects of the growing crops continue favourable throughout the district. In parts of the Tujpore sub-division the crops are more backward than elsewhere but they are healthy, and the week's rainfall (which has been general) will be of much service to them.
	29 Mozufferpore, „ 18 „	1.18	Weather—Intensely hot and occasionally cloudy. In the Sudder sub-division the rain during the week has been scanty. Of the <i>bhadoi</i> crops <i>makai</i> is doing well, though it is somewhat backward. The season has been unfavourable for <i>murwa</i> , <i>cheena</i> , and <i>kodo</i> . Transplantation of rice seedlings is almost finished, and the crop is doing fairly. Heavy rain is much wanted. In the Hajepore sub-division the rainfall of the week was 1.41 inches. <i>Makai</i> is doing well. More rain is wanted for the rice crop. In the Sectamurhee sub-division .32 of an inch of rain has been registered during the week. But there was good rain in Shewhur on the 14th instant, and 2 inches fell in Belsund on the same day. Prospects of the crops are everywhere good; but Poopree is the most backward thana in respect to transplantation of rice. Health of the district is good.
	30 Sarun, „ 18 „	1.06	Weather—Cloudy and most oppressive. An inch and a half of rain fell nine miles to the northward and 2 inches 26 miles in the same direction. Report from Sewan not received. Scanty rain in some parts of the district. Good downpour for three days in the jurisdiction of thana Mushruck, but it was not enough for the transplantation of <i>aghani</i> rice, which is at a standstill as in other places. There are complaints from all parts of the district that the crops are suffering from want of rain. Manufacture of indigo is going on where water is sufficient.
	31 Chumparun, „ 18 „	.49	Weather—Unusually hot for the time of year. Prospects of the crops are good, but more rain is required.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Continued.)			
BHAGULPORE DIVN.	32 Monghyr, Aug. 18 '77	1·93	A fair amount of rain except at Jamui 4·69 inches registered at Begooeserai and 1·07 inches at Jamui. Weather sultry when it was not raining. The prospects of the crops are good everywhere save in Jamui, where the rice crop is decidedly in a bad way. Small-pox appeared sporadically during the week.
	33 Bhagulpore, „ 18 „	2·21	Weather—Very sultry. Prospects of the <i>bhadoi</i> and <i>aphani</i> crops continue good, but more rain is wanted to complete the transplanting of rice. Indigo out-turn will be rather below the average.
	34 Purneah, „ 18 „	1·28	Weather—Very hot and close all the first part of the week; cooler, with rain and cloud, for last two days. 2·41 inches registered at Kisaungunge and 40 of an inch at Arrareh. <i>Bhadoi</i> crop is on the whole good. More rain is wanted for transplanting the winter rice and for the jute.
	35 Maldah „ „	Return not received.
	36 Sonthal Perghs. „ 19 „	·77	Rainfall at Deoghur has been 5·88 inches, at Godda 4·47 inches, and at Rajmehal 1 inch. Rain is wanted in Deoghur, Rajmehal, and Sultanabad. The last two days the sky has been covered with a dense black cloud. It has just begun to rain, and looks like heavy continued rain. <i>Bhadoi dhan</i> an unimportant crop, is reported very bad in the Damin. The real <i>bhadoi</i> , Indian corn, is unusually fine. Planting of <i>dhan</i> is nearly finished. In many places tanks and <i>bundhs</i> are not nearly full enough of water. Health is good.
ORISSA.			
ORISSA DIVN.	37 Cuttack, Aug. 18 „	1·22	Rain general, but uneven in its distribution. <i>Beali</i> crop is ripening, and is being cut. Cultivation of <i>sarad</i> crop is progressing. Much good has been done to the crops and cultivation by the floods of the Mahanadi. There are cases of cholera in the town; otherwise the general health is good.
	38 Pooree, „ 16 „	1·76	Weather—Seasonable. 3·17 inches of rain registered at Khoordah. There was rain in nearly all parts of the district, and the weeding and transplanting of <i>sarad</i> crop are going on generally. But the rainfall along the seacoast and eight miles inland having been scanty, transplantation has not begun there. The <i>beali</i> that survived the drought is in ear and out of danger. The rivers were flooded, and an embankment about 7 miles from Pooree was breached. Intimation was given to the Irrigation Department. Public health is good.
	39 Balasore, „ 17 „	2·00	Weather—Cloudy during the last two or three days. The transplanting of <i>sarad</i> rice is going on. More rain is still wanted. <i>Beali</i> crop is on the whole doing well. General health is good. A few cases of cholera reported from Bhadruck.
CHOTA NAGPORE			
	<i>South-West Frontier Agency.</i>		
	40 Hazareebagh, Aug. 17 '77	4·19	Two days of heavy rain and two days showery. Weather cloudy and rather close. Rain has fallen generally over the district, and the reports from the southern, western, and eastern parts are all very favourable. In the Pachumba sub-division and to the north more rain is wanted, the rice crop there being still backward. General health is good.
	41 Lohardugga, „ 18 „	4·60	In the head-quarters sub-division the weather is seasonable, and the prospects of the crops and the health are good. The report from Palamow dated 14th instant shows 5·25 inches of rainfall during the week. There was general rain in the sub-division on the 8th, 9th, and 10th, and the fall was very heavy in parts. Since the 11th there has been a change to close and very sultry weather, but it is now generally favourable. <i>Bhadoi</i> crop is very promising. <i>Khareef</i> transplanting and <i>lewa</i> sowings are going on briskly.
	42 Singbhoom „ 17 „	3·73	Weather—Seasonable. The prospects of the crops are very favourable. The district is healthy.
	43 Manbhoom „ 18 „	2·93	Weather—Favourable for crops but trying for man. State and prospects of the crops are favourable on the whole. Indian corn in places has suffered from the late high winds. More rain is wanted for the highland transplanted rice, especially in the extreme north of the district.

Inch.

The mean pressure of the seven days	29.505
The average pressure of the corresponding period for 20 years	29.586

The mean temperature of the seven days	82.8
The average temperature of the corresponding period for 20 years	83.0
The extreme variation of temperature during the seven days	18.2
The maximum temperature during the seven days	90.7
			%

The mean humidity during the seven days	91
The average humidity of the corresponding period for 24 years	87

Inch.

The total fall of rain from 12th to 18th August	5.03
The average fall of the corresponding period for 24 years	4.33
The total fall from 1st January to 18th August	44.66
The average fall of the corresponding period for 24 years	48.49

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

d drizzling, p passing temporary showers, l lightning, lr lightning reflection, t thunder, o overcast, g gloomy.

JOHN ELIOT, M.A., Meteorological Reporter to the Government of Bengal,
for Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA, the 20th August 1877.

Re ports of Fluctuation of Traffic on the East Indian Railway for the Month of July 1877

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JUMALPORE, THE 13TH AUGUST 1877

Remarks on Traffic of East Indian Railway for four weeks ending 28th July 1877.

The approximate figures for the period are as follow :—

		Coaching		Goods		Total.
		Mds.	Rs.	Mds	Rs	Rs
1877	...	5,33,456	5,84,614	52,46,072	21,45,385	30,20,909
1876	...	4,51,137	5,10,006	31,55,473	10,18,748	21,37,514
Increase	...	82,319	68,548	18,41,399	8,26,637	8,92,185
Decrease	...					

Of the merchandise traffic the annexed table, comparing the actuals for 1876 with the approximate figures for 1877, will give a clear idea.

The list of increases is a long one, and the items showing a decrease are of little importance.

The principal fluctuations in either direction are with—

Increases.		Decreases.	
Commissariat beer	Salt.	Betel-nuts	
Coal.	Saltpetre	Lac	
Grain and pulso	Seeds	Piece-goods.	
Gunny.	Sugar	For Railway material.	
Iron.	Tobacco	Stone.	
Jaggree.			

Increases		Decreases	
Coal—Upward, increase	Mds 1,65,839	Rs 70,705	
Downward, decrease	" 5,245	" 8,342	
Net increase	" 1,60,594	" 62,363	

The decrease in the down traffic represents only the fiftieth part of the increase in the previous month, and is altogether insignificant, being in fact hardly a single train load in the whole month.

The increase in the upward traffic, on the other hand, amounts to doubling last year's figure—

Grain	Mds 13,23,170	Rs 5,56,944
Made up of—		
Rice	" 97,555	" 2,425
Wheat	" 6,46,143	" 3,80,184
Other cereals	" 1,77,080	" 53,982
Pulses	" 4,02,392	" 1,25,203

The small decrease in the earnings from rice, accompanied by an increase of over 40 per cent in the weight lifted, has arisen from the high prices ruling in Calcutta for rice for export to Madras.

The Loop Line stations, which in 1876 were sending rice largely up-country, are now seeking every opportunity of pouring their stocks into Calcutta; in fact very large premia have been offered for conveyance in this direction.

Wheat—The export of wheat is still very large the quantity exported from Calcutta from 1st January last is now over double that for the same period of 1876.

Other grain and pulses—For both of these the demand is in the famine districts.

Gunny Mds 35,072 Rs 35,058

This is a natural consequence of the increased demand for shipment goods.

Salt Mds 1,24,422 Rs. 60,684

Considerable speculation in salt has continued, imports have been large, and prices low; dealers have bought and sent up stocks.

These remarks apply to the trade from Howrah in imported salt.

On the other hand the salt traffic from S. P. D. Railway *via* Agra and Delhi, which had received a slight check in June from the want of wagons, had special attention in July, and there is a large increase in this direction also.

Saltpetre Mds. 10,404 Rs 7,027

This nearly corresponds with the decrease shown in the report for June, and is thus merely a fluctuation.

Seeds Mds 1,31,976 Rs. 63,817

About half of this lies with Cawnpore, and in the last two weeks of the month there was also a heavy increase at Patna Ghât.

Sugar Mds 23,596 Rs 6,273

This is again a very large increase, although sugar for G. I. P. Railway is locked up largely awaiting transport.

Tobacco Mds 13,970 Rs 11,335

This is also a very satisfactory increase, the earnings from this traffic being over double those of 1876.

Decreases.

Betel-nuts Mds 4,579 Rs 1,796

This decrease is a small one as compared with the very high figures this traffic has shown for a long time past.

Lac Mds. 3,930 Rs. 4,489

The export market for lac continues very dull, the demand is small, and prices unusually low.

Piece-goods Mds 5,701 Rs 16,938

The Calcutta market reports speak of up-country stocks as very full: the shipments from Europe are very heavy, and a fall in price is expected, while native capitalists are absorbed in export trade, which is returning large profits.

Fluctuations of this kind in piece-goods are, as experience has shown us, of no real consequence in the long run.

The train mileage for the period has been—

	Coaching.	Goods	Total
1877	1,77,113	4,71,520	6,48,633
1876	1,76,398	3,00,000	4,77,005
Increase	715	1,70,911	1,71,626
Decrease			

Earnings per train mile.

						Coaching.	Goods.	Total
						Rs. A. P.	Rs. A. P.	Rs. A. P.
1877	3 4 10	5 3 0	4 10 9
1876	2 15 1	5 6 2	4 7 8
Increase	0 5 9	...	0 3 1
Decrease	0 3 2	...

Jubbulpore line

						Coaching.	Goods.	Total.
						Mds. Rs.	Mds. Rs.	Rs.
1877	21,595 60,135	10,04,886 2,13,652	2,93,749
1876	16,439 43,527	1,71,538 46,893	90,420
Increase	5,256 6,008	8,33,348 1,96,759	2,03,369
Decrease

It is needless to offer any comment on a goods traffic which shows an increase both in weight carried and in earning of nearly 500 per cent.
The weight of food-grains and seeds sent to Howrah and sent *via* Jubbulpore during the four weeks :—

	Wheat.	Pulses.	Other grains.	Seeds.	Total
	Mds.	Mds.	Mds.	Mds.	Mds.
To Howrah	9,02,800	14,500	2,75,300	5,67,000	17,59,600
<i>Via</i> Jubbulpore	1,22,600	4,22,400	1,23,000	45,000	7,14,200
Total	10,25,400	4,30,900	2,98,300	6,12,000	24,73,800

So that the grain conveyed for famine purposes over this line may be roughly taken at 30,000 tons, and the wheat and seed for export at 60,000.

MAIN LINE.

Statement showing the Totals and Increases and Decreases of Staples during four weeks ending 28th July 1877.

N S. L. CARTER, *Offg. Traffic Manager*

Reports of Fluctuation of Traffic on the Eastern Bengal Railway for the Month of July 1877.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEALDAH TERMINUS.

Report on the Traffic for the four weeks ending 28th July 1877.

No. 48—322A, dated Calcutta, the 15th August 1877.

From—JAMES BRANDER, Esq., Traffic Superintendent, Sealdah,
To—The Agent, Sealdah

THE quantity of goods carried over during the above period was maunds 9,23,444, as against maunds 5,24,258 during the same period of last year, showing an increase of maunds 3,99,186.

The increase is chiefly due to the following staples, viz grain, including rice, bales, gunny, piece-goods, foreign railway materials, salt, twist, turmeric, and all other goods.

Those showing the largest decreases are jute (drums and bales), seeds, sugar, tobacco, and hides.

Increases.

Grain, including rice	...	Mds	5,15,691
The demand for wheat in the London market has caused a large increase in the supply of this article, and the export of rice still continuing heavy, large quantities of both are still arriving			
Bundles.	Bales.		
Gunny, bundles and bales	...	363	2,135
This article is again beginning to show an increase, chiefly in bales for export.			
Piece-goods	...	Mds.	2,180
This staple again shows a large increase, which is satisfactory			
Railway material, foreign	...	Mds	5,675
The increase in this is owing to the requirements in material and stores of the Northern Bengal Railway being forwarded.			
Salt	...	Mds.	17,469
This commodity continues to show a satisfactory increase			
Twist	...	Mds	1,169
This shows an increase owing to both imports and local manufactures brought down from Samnuggur			
Turmeric	...	Mds.	1,447
A decrease having arisen for this article in the Calcutta bazar supplies are being sent down largely			
All other goods	...	Mds	9,168
These show a decrease in comparison with former months, but the quantity carried is still satisfactory.			

Decreases.

Jute, drums and bales	...	Drums.	111,923	Bales.	6,029
This decrease is owing to the early closing of the season and later arrival of the new jute this year than last					
Seeds	...	Mds.	5,515		
The supply has decreased owing to the season for many kinds having come to a close and the setting in of the rains					
Sugar	...	Mds.	7,824		
This decrease is due to the closing of the season being less in demand in the beginning of the month					
Tobacco	...	Mds	22,558		
There being little demand in the bazar at present the supplies are scanty.					
Hides (bundles)	...	Mds	4,729		
The supply of this article is variable according to the demand. Though there has been a decrease in bundles there has been an increase in bales of 1,738 maunds.					
I attach the usual statement showing the increases and decreases of the principal staples					

EASTERN BENGAL RAILWAY

Statement showing Increases and Decreases in maundage of staples carried over the line for the four weeks ending the 28th July 1877, as compared with the corresponding period of 1876.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

REVENUE AND GENERAL DEPARTMENTS.

NOTIFICATION.

The 11th August 1877.—The following are the dates fixed for the Lieutenant-Governor's tour:—

Leave Calcutta	21st August.
Arrive Kishnaghur	22nd "
Kishnaghur	23rd, 24th "
Leave Kishnaghur	25th "
Arrive Berhampore	26th "
Berhampore	27th, 28th "
Arrive Jungipore	29th "
" Rajmehal	30th "
" Bhagulpore	1st September.
Bhagulpore	2nd, 3rd, 4th "
Arrive Carragola	5th "

H. BOILEAU, Captain,
Private Secretary

NOTIFICATION.

The 21st August 1877.—The following general instructions are notified for the guidance of officers corresponding directly with the Government of Bengal during the time His Honor the Lieutenant-Governor is at Darjeeling:—

As a general rule, all communications should be sent, as usual, to the Secretary's Office in Calcutta; but communications which are urgent, and which can be made complete in themselves, so as not to require reference to papers at the Presidency, may be sent direct to the Secretary with the Lieutenant-Governor at Darjeeling.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

No. 4544A.

GENERAL.—*The 25th August 1877.*—The services of Moonshi Azizar Rahman, temporary Sub-Deputy Collector, Tipperah, are placed temporarily at the disposal of the Chief Commissioner of Assam.

Baboo Poolin Chunder Sandyal is appointed to officiate until further orders as a Sub-Deputy Collector of the Second Grade in Tipperah.

The 26th August 1877.—Moulvi Anwaruddin, Deputy Magistrate and Deputy Collector, Tipperah, is transferred to Noakholly.

The 27th August 1877.—Mr. G. C. M. Smith, Deputy Magistrate and Deputy Collector, who was, under orders of the 8th instant, published in the *Calcutta Gazette* of the 15th idem, transferred to the Rajshahye and Cooch Behar Division, is posted to Rungpore.

The 28th August 1877.—Mr. T. M. Kirkwood, Joint-Magistrate and Deputy Collector, Jessore, acted as Magistrate and Collector of that district from the forenoon of the 6th instant to the afternoon of the 18th idem.

Mr. J. C. Price, Officiating Settlement Officer, in charge of the Midnapore Survey, is vested with the powers of a Superintendent under Act V (B.C.) of 1875 in the districts of Midnapore, Balasore, Hooghly, Burdwan, 24-Pergunnahs, Nuddea, Bankoora, Manbhoom, and Singhbhum. Mr. Price is also vested with the powers of an Assistant Superintendent in the Tributary Mehals, Cuttack, under that Act, with retrospective effect from the 1st June last.

Baboo Probhat Nath Roy, Deputy Collector, Midnapore Survey, is vested with the powers of an Assistant Superintendent under Act V (B.C.) of 1875 in the districts of Midnapore, Balasore, Hooghly, Burdwan, Bankoora, Manbhoom, and Singhbhum. He is also vested with the powers of an Assistant Superintendent in the Tributary Mehals, Cuttack, under that Act.

POLICE.—*The 25th August 1877.*—Mr. A. H. Giles, District Superintendent of Police, Gya, is allowed leave for twenty-one days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 18th September next.

Mr. J. H. Warrender-Clark, Assistant Superintendent of Police, is appointed to act as District Superintendent of Police, Gya, during the absence, on leave, of Mr. A. H. Giles, or until further orders.

The 28th August 1877.—Mr. G. D. Graham, Assistant Superintendent of Police, Nuddea, is appointed to have temporary charge of the office of District Superintendent of Police of that district until relieved by Mr. A. Blair.

ECCLESIASTICAL.—*The 28th August 1877.*—The Revd. S. B. Taylor, M.A., Chaplain of St. Thomas's Church, Calcutta, is allowed leave for two months, under Section 12, Supplement E of the Civil Leave Code, with effect from the 4th September next.

REGISTRATION.—*The 17th August 1877.*—Munshi Ohiduddin is appointed to be Sub-Registrar of Bhola, in the district of Backergunge.

EDUCATION.—*The 24th August 1877.*—Baboo Gossain Dass Dutt, Officiating Deputy Magistrate and Deputy Collector, Bogra, is appointed to be a member of the District School Committee of Bogra.

The following gentlemen are appointed to be members of the Dinapore District School Committee:—

Mr. H. G. French, General Manager, Wards' Estates, *vice* Baboo Rada Krishna Mullick.

Dr. W. Forsyth, Civil Medical Officer, *vice* Dr. F. V. B. Webber.

Mr. W. H. Cornish, District Superintendent of Police, *vice* Mr. W. J. Kilby.

Baboo Shamapudo Chowdry, Officiating Deputy Magistrate and Deputy Collector.

Mr. F. St. C. Grimwood is appointed to be a member of, and Secretary to, the District School Committee, Shahabad, *vice* Mr. C. A. Wilkins.

Pundit Sadashiva Misra, Head Master, Normal School, Pooree, is appointed to be a member of the District School Committee, Pooree.

The 27th August 1877.—Mr. W. M. Smith, Deputy Magistrate and Deputy Collector, Sonthal Pergunnahs, is appointed to be a member of, and Secretary to, the District School Committee, Sonthal Pergunnahs, *vice* Mr. C. W. Bolton, transferred.

The 28th August 1877.—Baboo Atool Chundra Chatterjee, Deputy Magistrate and Deputy Collector, is appointed to be a member of the District School Committee of Balasore, *vice* Baboo Borodakant Muzoomdar, transferred.

OPIMUM.—*The 28th August 1877.*—Mr. C. W. Fenton, Officiating Assistant Sub-Deputy Opium Agent, attached to the Benares Agency, is allowed leave for one month under Section 3—1, Supplement F of the Civil Leave Code, with effect from the 1st instant.

An extension of leave for six months on medical certificate has been granted by the Right Hon'ble the Secretary of State to Mr. W. Cracroft, an Assistant Sub-Deputy Opium Agent.

MEDICAL.—*The 25th August 1877.*—Surgeon-Major J. O. Shaw, Officiating Civil Surgeon, Shahabad, is allowed leave for one month under the rules in Chapter VII of the Civil Leave Code, with effect from the date on which he may avail himself of it.

The 27th August 1877.—The services of Second Grade Assistant Surgeon Rajkristo Ghosal, a supernumerary at the Presidency, are placed at the disposal of the Government of the North-Western Provinces and Oudh.

The 28th August 1877.—Baboo Gopal Chunder Sircar, Pleader, is appointed to be a member of the Committee for the management of the Charitable Dispensary at Bhagulpore, vice Baboo Surdhari Lal, resigned.

The services of the undermentioned Third Grade Assistant Surgeons are placed temporarily at the disposal of the Government of India in the Home Department for employment in Madras :—

Assistant Surgeon	Mohendro Nath Biswas.
"	" Amirto Lal Das.
"	" Pramatha Nath Mukerjee.
"	" Onocool Chunder Chatterjee.
"	" Kunja Lal Sanyal.
"	" Chunder Bhooshun Bose.
"	" Durganunda Sen.

EMIGRATION.—*The 28th August 1877.*—Mr. H. Lee, Officiating Joint-Magistrate and Deputy Collector, 24-Pergunnahs, is vested with the powers of a Magistrate under Section 85 of Act VII of 1871 (the Emigration Act).

Baboo Issur Chunder Mitter, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is vested with the powers of a Magistrate under Section 85 of Act VII of 1871 (the Emigration Act).

MUNICIPAL.—*The 16th August 1877.*—The following gentlemen are appointed to be Commissioners for the Municipality of Sasseram, in the district of Shahabad :—

Moonshi Thakoor Pershad.	Moonshi Abdul Kedar.
Baboo Lalljee Sukool.	" Abdul Majid, Mooktiar.
Moonshi Hossein Bux.	Baboo Grish Chundra Bhur, Assistant Surgeon.

PORT TRUST.—*The 24th August 1877.*—Mr. Franklin Prestage is appointed to be a Commissioner for making Improvements in the Port of Calcutta, under Act V (B.C.) of 1870, vice Mr. H. F. Brown, whose term of office has expired.

ROAD CESS.—*The 21st August 1877.*—Baboo Gunga Kissore Ghose, Head Master, is appointed to be a member of the Branch Road Cess Committee of Chaudogram, in the district of Tipperah.

The 27th August 1877.—The following gentlemen are appointed to be members of the District Road Cess Committee of the 24-Pergunnahs :—

The Magistrate of the District	} <i>Ex officio.</i>
„ Senior Covenanted Officer under the Magistrate	
„ District Superintendent of Police...	
„ Executive Engineer of the Public Works Department	
Rajah Harendro Krishna, Bahadoor, Deputy Magistrate, Sealdah.			
Rai Ram Sunker Sen, Bahadoor, Road Cess Deputy Collector.			
Baboo Isser Chunder Mitter, Deputy Magistrate and Deputy Collector.			
Baboo Kali Churn Ghose, Deputy Magistrate and Deputy Collector.			
The Hon'ble Maharajah Narendra Krishna, Bahadoor.			
Prince Mahomed Furrokh Shah, of the Mysore Family.			
„ Nusseeruddin Hyder, of the Mysore Family.			
Mr. R. C. Sterndale, Vice-Chairman, Suburban Municipality.			
Coomar Kanti Chunder Singh, Zemindar.			
Baboo Sham Churn Law,	ditto.		
„ Dwarka Nath Biswas,	ditto.		
Mr. R. Harvey, Manager, Paikpara Estate.			
Baboo Kali Coomar Roy Chowdry, Zemindar.			
„ Debendro Coomar Roy Chowdry, Zemindar.			
„ Anundo Chunder Ghose,	ditto.		
„ Nobin Chand Ghose, Vice-Chairman, Rajpore Municipality.			
Mr. Cowasjee Eduljee, Manager, Port Canning Company.			
Baboo Shama Churn Pottitundo, Zemindar.			
Rai Mohun Lall Mitter,	ditto.		
Baboo Nundo Lall Gossain,	ditto.		
„ Ganendro Coomar Roy Chowdry, Zemindar and Vice-Chairman of Taki Municipality.			
„ Jogendro Chunder Ghose, Zemindar.			
„ Grish Chunder Bose, Manager, Goburdanga Estate.			
„ Hurry Choituno Ghose, Manager, Satkhira Estate.			
„ Radha Mohun Mundle, Zemindar.			

ERRATUM.—*The 24th August 1877.*—In the orders of the 14th May last, published in the *Calcutta Gazette* of the 23rd idem, appointing certain gentlemen to be members of the Branch Road Cess Committee of Chaudogram, in the district of Tipperah, for "Moonshi Auhamedulla, Head Master for the time being," read "Moonshi Auhamedulla, Pleader."

ROAD CESS NOTIFICATION.

DISTRICT OF BALASORE.

The 25th August 1877.—It is notified, under Section 75 of Act X (B.C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Balasore have, under Section 74 of the Act, determined to levy the cesses under that Act at the maximum rates for the ensuing road cess year. The cesses payable in the Balasore district for the year beginning with the 1st October 1877 will therefore be at the following rates:—

I. Six pies, or two pice, on every rupee of the annual value of lands under Part II of the Act.

II. The following rates on non-agricultural houses and shops:—

Dwelling-houses estimated to be of the present value of—

		Yearly Cess.		
		Rs.	A.	P.
Not less than Rs. 100, but less than Rs. 500	...	1	0	0
" 500, " 1,000	...	3	0	0
" 1,000, " 2,000	...	4	8	0
" 2,000 and upwards, Rs. 3 for every Rs. 1,000 or part thereof of the estimated present value.				

Shops and buildings used for purposes of trade, whose estimated present value is more than Rs. 25 and less than Rs. 100, to pay a yearly tax of one rupee.

A. MACKENZIE,

[First Publication.]

The 27th August 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

No. 16.

Bay of Bengal, Coast of Tenasserim, Mergui Archipelago.

DANGEROUS ROCKS IN FORREST STRAIT.

The following information has been received from the Commander of the late S. S. *Kurrachee*, recently wrecked on a rocky patch off The Gregorys, in Forrest Strait, Mergui Archipelago.

A sunken rock (Kurrachee Rock), with only 5 feet on it at low water, lies in mid-channel in the following position:—

Centre of Large Gregory	W. by N. $\frac{1}{2}$ N. ;	distant $1\frac{1}{2}$ miles.
South Gregory	S. W. $\frac{1}{2}$ W. southerly ;	" $3\frac{1}{2}$ "
Turret Island	S. E. by S. $\frac{1}{2}$ S. ;	" $7\frac{1}{2}$ "

The rock is a complete pinnacle with deep water close—to all round, 7 to 12 fathoms were obtained within a boat's length of the wreck, and 16 fathoms about 100 yards off.

Another sunken rock lies to the north of The Gregorys, and less than two miles to the westward of the beaten track, in the following position :—

Bold promontory of Sullivan's Island	W. by S. $\frac{1}{4}$ S.
North Gregory	S. E. by S. $\frac{3}{4}$ S.
Canister	N. E. $\frac{1}{4}$ N. northerly.

RICHELIEU ROCK OFF KOPAH INLET.

Captain Richelieu, of the Siamese Navy, reports a rock (Richelieu Rock) awash at low water, sometimes breaking heavily. It lies 12 miles due west of Hayes Island, or in lat. $9^{\circ} 20' 30''$ N., long. $98^{\circ} 6' 45''$ E. (Admiralty Chart).

NOTE—As this Archipelago is only partially examined, and several rocks have recently been discovered, great caution is necessary in the navigation.

[The bearings are Magnetic · Variation $2^{\circ} 15'$ Easterly in 1877.]

By direction of the Government of India,

A. DUNDA'S TAYLOR, Comdr., (late I. N.),

Supdt., Marine Survey of India.

• MARINE SURVEY DEPARTMENT, CALCUTTA,
The 17th August 1877.

This notice affects the following Admiralty Charts :—Mergui Archipelago No. 216a, and b: Bay of Bengal No. 70b, and Taylor's Sailing Directory, Vol. I, page 511.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

NOTIFICATION.

Dated 28th August 1877.

(1)

Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Merchant Shipping (Colonial) Act, 1869.

HER MAJESTY THE QUEEN, by the following order in Council, dated the 27th June 1876, having been pleased to extend to the presidency of Bengal the provisions of section 8 of the Merchant Shipping (Colonial) Act, 1869, the Lieutenant-Governor is pleased to order the publication of the following rules for the examination of, and grant of certificates of competency to, persons who intend to become masters, mates, and engineers of foreign-going vessels, for general information.

“ AT THE COURT AT WINDSOR,

“ The 27th day of June 1876.

“ Present :

“ THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

“ WHEREAS by the Merchant Shipping (Colonial) Act, 1869, it is (among other things) enacted, that where the legislature of any British possession provides for the examination of, and grant of certificates of competency to, persons intending to act as masters, mates, or engineers on board British ships, and the Board of Trade report to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examination for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by order in Council—

“ (1) to declare that the said certificates shall be of the same force as if they had been granted under the said Acts :

“ (2) to declare that all or any of the provisions of the said Acts which relate to certificates of competency granted under those Acts shall apply to the certificates referred to in the said order :

“ (3) to impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties, not exceeding fifty pounds, for the breach of such conditions and regulations.

“ And that upon the publication in the *London Gazette* of any such order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such order, take effect as if they had been contained in the Act, and that it shall be lawful for Her Majesty in Council to revoke any order made as aforesaid.

"And whereas the Governor-General of India in Council has by an Act, entitled 'An Act for the Amendment of the law relating to Merchant Seamen, No. I of 1859,' and the Lieutenant-Governor of Bengal in Council has by an Act, entitled 'The Steam Boat Survey Amendment Act of 1868,' provided for the examination of, and grant of certificates of competency for foreign ships to, persons intending to act as masters, mates, or engineers on board British ships, which certificates are hereinafter denominated Colonial Certificates of Competency, and the Board of Trade have reported to Her Majesty that they are satisfied that the said examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner:

"Now, therefore, Her Majesty, in exercise of the powers vested in Her by the said first recited Act by and with the advice and consent of Her Privy Council, is pleased—

"(1) to declare that the said Colonial Certificates of Competency granted by the Lieutenant-Governor of the said British possession of Bengal shall be of the same force as if they had been granted under the said Acts:

"(2) to declare that all the provisions of the said Acts which relate to certificates of competency for the Foreign Trade granted under those Acts, except so much of the 139th section of the Merchant Shipping Act, 1854, and the 10th section of the Merchant Shipping Amendment Act, 1862, as requires the delivery by the Board of Trade to any master, mate, or engineer of a copy of any certificate to which he appears to be entitled as therein mentioned, so much of the third paragraph of the 23rd section of the said last-mentioned Act as requires at the conclusion of a case relating to the cancelling or suspending of a certificate, such a certificate, if cancelled or suspended, to be forwarded to the Board of Trade, and the whole of the provisions of the 4th paragraph of the same section shall apply to such Colonial Certificates of Competency:

"(3) to impose and make the conditions and regulations following, numbered 1 to 10 respectively, with respect to the said Colonial Certificates of Competency, and to the use, issue, delivery, cancellation, and suspension thereof, and to impose for the breach of such conditions and regulations the penalties therein mentioned:—

"Form of Certificate.

"1. Every such Colonial Certificate of Competency shall be on parchment, and as nearly as possible similar in shape and form to the corresponding Certificate of Competency for the foreign trade granted by the Board of Trade under the Acts relating to Merchant Shipping.

"Name of possession to be inserted.

"2. Every such Colonial Certificate of Competency shall have the name of the said possession of Bengal inserted prominently on its face and back.

"Certificates to be numbered consecutively.

"3. Such Colonial Certificates of Competency shall be numbered in consecutive order.

"Lists of certificates granted, cancelled, &c., to be sent to Registrar-General of Seamen.

"4. The Government of the said possession shall furnish the Registrar-General of Seamen in London from time to time with accurate lists of all such Colonial Certificates of Competency as may be granted by the Lieutenant-Governor of the said possession as aforesaid, or as may for any cause whatsoever be cancelled, suspended, renewed or re-issued, and shall also furnish him with duplicates of the applications for examination made by the persons to whom such certificates are granted.

"Three years' domicile or service necessary.

"5. Such Colonial Certificates of Competency shall be granted only to any person who for a period of three years immediately preceding his application for such colonial certificate, or for several periods amounting together to three years, the earliest of which shall have commenced within five years prior to such application, has been domiciled in, or has served in, a ship or ships registered in any part of Her Majesty's Indian dominions.

"Certificates of Competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates not to be granted when former are cancelled.

"6. Such Colonial Certificates of Competency shall not be granted to any person who may have had a certificate, whether granted by the Board of Trade or by the Government of a British possession, cancelled or suspended under the provisions of the said Acts or of any Act for the time being in force in any part of Her Majesty's dominions, unless the period of suspension has expired, or unless intimation has been received from the Board of Trade, or the Government by whom the cancelled or suspended certificate was originally granted, to the effect that no objection to the grant of such Colonial Certificate is known to exist, or unless a new certificate has been granted to him by such Board or Government; and in the last-named event no such Colonial Certificate of Competency shall be for a higher grade than the certificate so last granted as aforesaid.

"Colonial certificates of competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates improperly granted may be cancelled without formal investigation."

"7. Any such Colonial Certificate of Competency which appears from information subsequently acquired, or otherwise, to have been improperly granted, whether in the above or in any other respect, may be cancelled by the Lieutenant-Governor of the said possession, or by the Board of Trade in the United Kingdom, without any formal investigation, under "The Merchant Shipping Act, 1854," and the holder of such certificate shall thereupon deliver it to the Board of Trade or the Lieutenant-Governor of the said possession, or as they or either of them may direct, and in default thereof shall incur a penalty not exceeding fifty pounds in the United Kingdom, or five hundred rupees in India, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Cancellation, &c., of a Certificate shall involve cancellation of all the other Certificates possessed by its owner."

"8. Every decision with respect to the cancellation or suspension of a certificate pronounced by any Board, naval or other court, or tribunal under the provisions of the said Acts, shall extend equally to all the Colonial Certificates at the time possessed by the person in respect of whom the decision is made, as well as to all certificates granted to him under any of the Acts relating to Merchant Shipping, and whether such certificates be specified in such decision or not.

"Certificates believed to be fraudulent may be demanded."

"9. Any officer of the Board of Trade, or the Registrar-General of Seamen, or any of his officers or a superintendent of a mercantile marine office, or a consular officer, or duly appointed shipping officer in a British possession, may demand the delivery to him of any such Colonial Certificate of Competency which he has reason to believe has been improperly issued, or is forged, altered, cancelled, or suspended, or to which the person using it is not justly entitled, and may detain such certificate for a reasonable period for the purpose of making inquiries respecting such issue, forgery, alteration, cancellation, suspension, or possession; and any person who, without reasonable cause, neglects or refuses to comply with such demand shall incur a penalty not exceeding twenty pounds, or two hundred rupees, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Suspended Certificates to be re-issued only by Colony by which originally granted."

"10. Any such Colonial Certificates of Competency which has from any cause been cancelled or suspended, whether by a tribunal in Bengal or elsewhere, shall be renewed or re-issued only by the Lieutenant-Governor of Bengal.

"This order shall take effect in the said possession of Bengal from and after the date hereof.

"C. L. PEEL."

INTRODUCTORY RULES.

I. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

II. Candidates are required to appear punctually at the time appointed for examination.

III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.

IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books: examination papers will be detained till this is done; further, the defaced books will not be removed.

V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.

VI. Candidates will not be allowed slates or waste paper to work their problems on.

VII. Candidates will not be allowed to leave the room until they have handed in their papers.

VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.

IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.

X. Candidates will bring their answers to all problems within one mile of position of correct results:—in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.

XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.

XII. Testimonials of service of foreigners, and of British seamen serving in foreign ships, must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot having personal knowledge of the facts requiring to be established; and

XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

XIV. Candidates will not be considered qualified unless they can prove themselves to have been domiciled in India for at least three years.

FOR CERTIFICATES OF COMPETENCY FOR FOREIGN-GOING SHIPS.

Rules for Qualifications.

A Second Mate must be seventeen years of age, and must have served four years at sea.

An Only Mate must be nineteen years of age, and have served five years at sea.

A First Mate must be nineteen years of age, and have served five years at sea, of which one year must have been as either Second or Only Mate.

A Master must be twenty-one years of age, and have served six years at sea, of which one year must have been as First Mate and one year as Second Mate.

Rules for examination.

1. THE forms used in working the various problems in navigation will be in all essentials facsimiles of those in use by the Board of Trade.

2. The Examiners will inscribe on candidates' examination papers the words "passed" or "failure."

3. If a candidate fails in navigation three times, he will be turned back for three months; should he fail in seamanship, he will not be re-examined until after a lapse of six months. In all cases of failure the candidate must be re-examined *de novo*.

4. A Second Mate, in navigation, must write a legible hand and understand the first five rules in arithmetic and the use of logarithms. He must be able to work a day's work complete, including bearings and distance of the port he is bound to by Mercator's sailing, to correct the sun's declination for longitude, to find the latitude by meridian altitude of the sun, and to work such other easy problems of a like nature as may be put to him. He must understand the use of the sextant, be able to observe with it and read off the arc. He must be acquainted with the International Code of Signals for the use of all nations.

In seamanship, he must give satisfactory answers as to the rigging and unrigging of ships, stowing of holds, &c.; must understand the measurement of the log-line, glass, and lead-line; be conversant with the rule of the road as regards both steamers and sailing vessels, and the lights and fog-signals carried by them.

5. An Only Mate, in navigation, must, in addition to the qualifications required for a Second Mate, be able to observe and calculate the amplitude of the sun and deduce the variation of the compass therefrom, and be able to find the longitude by chronometer by the usual methods: he must know how to lay off the place of the ship on the chart, both by bearing of known objects and by latitude and longitude; he must be able to determine the error of a sextant, and to adjust it; also to find the time of high-water from the known time at full and change.

In seamanship, in addition to what is required for a Second Mate, he must know how to moor and unmoor and to keep a clear anchor; to carry out an anchor, to stow a hold, and to make the requisite entries in the ship's log-book. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

6. A First Mate, in navigation, must, in addition to the qualifications required for an Only Mate, be able to observe azimuths and compute the variation, to compare chronometers and keep their rates, and find the longitude by them from an observation of the sun, to work the latitude by a single altitude of the sun of the meridian, and be able to use and adjust the sextant by the sun. He will also give written answers to as many questions under the head of definitions as the Examiners may mark for that purpose.

In seamanship, in addition to the qualifications required for an Only Mate, a more extensive knowledge of seamanship will be required, as to the shifting of large spars and sails, managing a ship in stormy weather, taking in and making sail, shifting yards and masts, &c., getting heavy weights, anchors, &c., in and out, casting a ship on a lee-shore, and securing the masts in the event of accident to the bowsprit.

7. A Master; in navigation, in addition to the qualifications required for a First Mate, must be able to find the latitude by a star, &c. He will be asked questions as to the nature of the attraction of the ship's iron upon the compasses, and as to the method of determining it. he will be examined in so much of the tides as is necessary to enable him to shape a course, and to compare his soundings with the depths marked on the chart; he will also, in addition to giving written answers to questions on definitions, give written answers to at least eight of the questions in form EXN7.

In seamanship, in addition to the qualifications required for a First Mate, he will be examined as to his competency to construct jury-rudders and rafts, and as to his resources for the preservation of the ship's crew in the event of wreck. He must possess a sufficient knowledge of what is required to be done by law as to entry and discharge, and the management of his crew, and as to penalties and entries to be made in the official log-book, and of a knowledge of the measures for preventing and checking the outbreak of scurvy on boardship. He will be questioned as to his knowledge of invoice, charter party, Lloyd's Agents, and as to the nature of bottomry, and he must be acquainted with the leading lights of the coast and channels he has been accustomed to navigate or which he is going to use.

The fees to be paid by candidates for certificates of competency for foreign-going ships will be—for Second Mate ten rupees, First Mate and Only Mate, if previously possessing an inferior certificate, five rupees, if not, ten rupees; Master twenty rupees on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificate of competency, together with his testimonials, from the Master Attendant. The fee for the renewal of any certificate will be five rupees.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master Attendant a statement, in writing, to that effect upon form of application EXN2; if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *viva voce* and extend to general knowledge of the practical use and working of the steam engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in a case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him, and the Master Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Examination of Engineers.

Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

2. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers, and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw-engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

Examination and Fees.

The *viva voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *viva voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he has accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *viva voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiners that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz. for second class certificate of competency, fifteen rupees; first class certificate of competency, twenty rupees. The fee for the renewal of any certificate will be five rupees.

(2)

Revised Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Indian Acts.

In supersession of the rules published at page 1387 of the *Calcutta Gazette* of 28th July 1869, and at page 1817 of the *Calcutta Gazette* of 11th October 1871, the following revised rules under section 10 of Act I of 1859, passed by the Legislative Council of the Government of India, for the examination of, and grant of certificates of competency to, persons who intend to become Masters and Mates of Home trade ships, or who wish to procure certificates of service, and under section 8 of Act I of 1868, passed by the Lieutenant-Governor of Bengal in Council, for the examination of, and grant of certificates of competency to, persons who intend to become Engineers of steamers, are published for general information.

GENERAL.

1. WHEN a home trade ship is engaged in voyages that require a knowledge of navigation on the part of the Master and Mates, they must hold certificates of competency under the rules applying to foreign trade ships. The following rules apply only to the Masters and Mates of ships making local coasting voyages:—

Rules for Home Trade Coasting Ships.

1. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

II. Candidates are required to appear punctually at the time appointed for examination.

III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.

IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books; examination papers will be detained till this is done; further, the defaced books will not be removed.

V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.

VI. Candidates will not be allowed slates or waste paper to work their problems on.

VII. Candidates will not be allowed to leave the room until they have handed in their papers.

VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.

IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.

X. Candidates will bring their answers to all problems within one mile of position of correct results: in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.

XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.

XII. Testimonials of service of foreigners and of British seaman serving in foreign ships must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot, having personal knowledge of the facts requiring to be established; and

XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

Qualifications and Rules for Examination for Certificates of Competency for Home Trade Passenger Ships.

A MATE must be nineteen years of age, and must have served four years in a home trade or other vessel; he must write a legible hand and understand the first four rules in arithmetic; he must know and understand the rule of the road, and describe and show that he understands the Admiralty Regulations as to lights and fog-signals; he must be able to take a bearing by compass, and prick off the ship's course on a chart; he must know the marks on the lead-line and be able to mark and heave the log; and he must possess a knowledge of handling a sailing vessel.

A Master must be twenty-one years of age, and must have served six years in the home trade or other vessels, of which one year must have been as mate of a home trade vessel.

In addition to the qualifications required for a Mate, he must show that he is capable of navigating a ship along any coast,—for which purpose he will be required to draw upon a chart produced by the Examiners the courses and distances he will run along shore from headland to headland,—and to give, in writing, the courses and distances corrected for variation and the bearings of the head-lands and lights, and to show when the courses should be altered either to clear any danger or to adapt it to the coast. He must understand how to make his soundings according to the state of the tide, and he must be acquainted with the lights of the coast and channels he has been accustomed to navigate, or those which he is going to use. He will further be required to handle a sailing vessel. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

Note.—The International Code of Signals will form part of every candidate's examination in navigation, and the Examiners will have a small set of flags, &c., for use in the Board room.

The fees to be paid by candidates for certificates of competency for home trade passenger ships, will be for Mate five rupees and for Master ten rupees, on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificates of competency, together with his testimonials, from the Master-Attendant.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master-Attendant a statement, in writing, to that effect upon form of

application EXN2: if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *visà voce* and extend to general knowledge of the practical use and working of the steam-engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse-power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him and the Master-Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Certificates of Service.

Act I of 1859, Section 12.—Certificates of service, differing in form from certificates of competency, shall be granted as follows (that is to say):—

(1) Every person who, before the passing of this Act, has served as Master in the British Merchant Service, or as Master of any foreign-going ship registered under Act X of 1841, or who has attained or shall attain the rank of Lieutenant, Master, Passed Mate or Second Mate, or any higher rank in the service of Her Majesty or of the Indian Government, shall be entitled to a certificate of service as Master of foreign-going ships.

(2) Every person who, before the passing of this Act, has served as Mate in the British Merchant Service, or as Mate of any such ship as aforesaid, shall be entitled to a certificate of service as Mate for foreign-going ships.

(3) Every person who, before the passing of this Act, has served as Master or Mate of a home trade ship of a burden exceeding three hundred tons shall be entitled to a certificate of service as Master or Mate (according to such previous service) for such home trade ship.

And each of such certificates of service shall contain particulars of the name and of the length and nature of the previous service of the person to whom it is delivered; and the local Government, or such other authority (Master-Attendant) as aforesaid, shall deliver such certificates of service to the various persons respectively entitled thereto, upon their proving themselves to have attained such rank or to have served as aforesaid, and upon their giving a full and satisfactory account of the particulars aforesaid.

Section 13.—No foreign-going ship or home trade ship of a burden exceeding three hundred tons shall go to sea from any port in India, unless the Master, and one officer besides the Master, have obtained and possess valid and appropriate certificates either of competency or service under this Act or under the Merchant Shipping Act, 1854; and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate without being at the time entitled to, and possessed of, such a certificate as hereinbefore required, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled and possessed of such certificate, shall for each offence be liable to a penalty of five hundred rupees.

Section 14.—Every certificate of competency for a foreign-going ship shall be deemed to be of a higher grade than the corresponding certificate for a home trade ship, and shall entitle the lawful holder thereof to go to sea in the corresponding grade in such last-mentioned ship; but no certificate for a home trade ship shall entitle the holder to go to sea as Master or Mate of a foreign-going ship.

Section 15.—All certificates, whether of competency or service, shall be made in duplicate, and one part shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded as the local Government shall direct (by Master-Attendant). A note of all orders made for cancelling, suspending, altering, or otherwise affecting any certificate in pursuance of the powers herein contained shall be entered in the record of certificates.

Section 16.—Whenever any Master or Mate proves to the satisfaction of the local Government, or such other authority as aforesaid, that he has, without fault on his part, lost or been deprived of any certificate already granted to him, a copy of the certificate to which, by the record so kept as aforesaid, he appears to be entitled shall be delivered to him and shall have all the effect of the original.

The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Examination of Engineers.

1. No steam-vessel shall obtain a clearance to proceed to sea for any port in British India, and no steam-vessel shall ply on any of the rivers or waters within the provinces subject to the Lieutenant-Governor of Bengal, and no steam-vessel coming within the meaning of this Act

(Act I of 1868, B.C.) or of Act V of 1862 (B.C.), shall be permitted to run or ply without having in charge of the engines thereof an Engineer possessing a certificate of competency or a certificate of service, provided that small river steam-boats or ferry steamers, with engines not exceeding 50 nominal horse-power, shall be permitted to run or ply on condition of having in charge of their engines a certificated native engine-driver.

2. Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

3. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Native Engine-driver.

I. Such certificates of competency will be granted only to those persons who possess the qualifications hereinafter detailed and otherwise comply with the requisite conditions.

II. Applications for such certificates of competency are to be made to the Master-Attendant, who will appoint Examiners to test the qualifications of candidates under the following rules.

III. A candidate for a certificate of competency under these rules must have attained the age of twenty-two years.

IV. He must have been three years principal native serang or tindal in the engine-room of a steamer; or have been for three years in charge of the engine of a factory or mill under a European manager or Engineer, as well as one year principal native serang or tindal in the engine-room of a steamer under a certificated Engineer.

V. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of an engine and the use of its different parts.

VI. He must have the testimonial, shown in one of the appendices to this code of rules, filled up by the Engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

VII. He must be able to show his practical qualifications by one week's trial in a Government steamer, after fulfilling the other tests to which he will be subjected.

VIII. The fee for examination under these rules will be fifteen rupees, and the amount must be remitted with the application to the Master-Attendant. If a candidate fails, half the fee he has paid will be returned to him by the Master-Attendant.

IX. Such certificates will be granted by the Master-Attendant in the form prescribed in one of the appendices to this code.

X. In case of failure, candidates may be re-examined *de novo* after a lapse of six months, if the past examination showed that they might reasonably be expected to qualify.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

For a Certificate of Competency as a Voluntary Extra First Class Engineer.

1. A candidate for this, the highest grade of certificate granted by the Bengal Government, must be in possession of a first class certificate of competency.

2. He must possess a through knowledge of the construction and working of marine engines and boilers in all their parts, and be so far acquainted with the elements of theoretical mechanics as to comprehend the general principles of the working of the machine.

3. He must understand how to apply the indicator and draw the proper conclusions from the diagrams.

4. He must be acquainted with the principles of expansion, and able to prove, or at least to illustrate, the use of the expansion gear.

5. He must be able to draw rough sketches of any part of the machinery, with figured dimensions, fit to work from.

Examination and Fees.

The *vivâ voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *vivâ voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he is accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *vivâ voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiner that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes, he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the Clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz. for second class certificate of competency fifteen rupees; first class certificate of competency twenty rupees; voluntary extra first class certificate of competency thirty rupees. The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Certificate of Service.

Every person being twenty-two years of age, who, before the passing of this Act (Act I of 1868), has served for not less than one year as First or Only Engineer in any steam-vessel, or who has attained, or shall attain, the rank of First Assistant Engineer in the service of Her Majesty, provided he has not been dismissed for drunkenness or other gross misconduct, shall be entitled to a certificate of service.

(3)

Rules for the Appointment of a Board for the Examination of Masters, Mates, and Engineers of Vessels.

THE following rules for the appointment of a qualified Board for the examination of Masters, Mates, and Engineers of vessels, which have received the approval of the Governor-General in Council and were published by this Government in the *Calcutta Gazette* of the 31st May 1876, are republished for general information.

RULES.

THE Examination Board for conducting the examinations for granting certificates of competency to seamen shall be constituted as follows:—

1. Senior officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* Examiner in navigation, provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (a)—The Examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta or from the surveyors of shipping in the port.

(b)—They shall be appointed by the Lieutenant-Governor, on the nomination of the Master-Attendant.

(c)—The permanent President of the Seamanship Examiners shall be the Deputy Master-Attendant.

3. (a)—Three Engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as Examiners in steam. These will usually be selected from the Superintending Engineers of the different steam companies in the port.

(b)—The Chief Engineer of the Dockyard shall be the permanent President of the Engineer Examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The Examiners shall receive the following fees for each examination :—

	Rs.
Seamanship Examiners	32 each.
Engineer Examiners	32 „

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

The 20th August 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 15.)

Sindh Coast—Kurrachee.

1.—ALTERATION IN MANORA POINT LIGHT.

WITH reference to Notice to Mariners, No. 1, of 20th March 1877, on the intended alteration in Manora Point light,—

The Harbour Authorities at Kurrachee have further notified that, on the 15th August 1877, the present light will be discontinued and the new *revolving* light exhibited, which will attain its greatest brilliancy every two minutes, and be visible from a distance of 20 miles in every direction seaward.

Position.—Lat. 24° 47' 21" N. ; long. 66° 58' 15" E.

Red Sea—Coast of Arabia.

2.—DISCOVERY OF A BANK NEAR TOWAK ISLAND.

The *Hydrografische Nachricht* No. 6 of 1877, announces that the Master of the Austrian Lloyd's steamer *Oreste* reports having touched on a bank, not shown on the Admiralty Charts, which, according to his statement, lies about two miles north-east of Towak Island in the Red Sea in lat. 16° 19' 30" N., and long. 42° 38' E. The bank extends one cable in an east and west direction, and has a depth of 13 feet over it.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, Calcutta, 8th August 1877.

(1) This notice will affect the following Admiralty Charts :—Kurrachee harbour, No. 40 ; Indus tidal channels from Manora Point to Kaha river, No. 41 ; Sindh and Kutch coasts, No. 42 ; Maskat to Kurrachee, No. 38 ; Kurrachee to Vingorla, No. 826 ; and Indian Ocean, northern portion, No. 748b : also Admiralty list of lights in South Africa, East Indies, &c., 1877 ; the West Coast of Hindostan Pilot, page 237 ; the Supplement to the Persian Gulf Pilot, page 24 ; the Indian Marine Survey Light List, 1877, No. 10 ; and Taylor's Sailing Directory, Vol. I., pages 309 and 334.

(2) Red Sea, Khor Nowarat, &c., No. 8d ; Red Sea, No. 2523 ; and Juba Islands to Maskat, &c., No. 98 : also Admiralty Red Sea Pilot, page 190 ; and Taylor's Sailing Directory, Vol. I., page 177.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

[Second Publication.]

NOTIFICATION.

The 18th August 1877.—Under Section 70 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to determine that the month in which the Gya District Committee shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be August 1877 in the said district.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 18th August 1877.—Under Section 70 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to determine that the month in which the Chumparun District Committee shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be September 1877 in the said district.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

ROAD CESS NOTIFICATION.

DISTRICT OF POOREE.

The 20th August 1877—It is notified, under Section 75 of Act X (B.C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Pooree have, under Section 74 of the Act, determined to levy the cesses under that Act at the maximum rates for the ensuing road cess year. The cesses payable in the Pooree district for the year beginning with the 1st October 1877 will therefore be at the following rates:—

I. Six pice, or two pice, on every rupee of the annual value of lands under Part II of the Act and on the annual net profits of mines, &c., under Part III of the Act.

II. The following rates on non-agricultural houses and shops:—

Dwelling-houses estimated to be of the present value of—

		Yearly Cess.		
		Rs.	A.	P.
Not less than Rs.	100, but less than Rs. 500	...	1	0 0
"	500, " 1,000	...	3	0 0
"	1,000, " 2,000	...	4	8 0
"	Rs. 2,000 and upwards, Rs. 3 for every Rs. 1,000 or part thereof of the estimated present value.			

Shops and buildings used for purposes of trade, whose estimated present value is more than Rs. 25 and less than Rs. 100, to pay a yearly tax of one rupee.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

ROAD CESS NOTIFICATION

DISTRICT OF JALPIGOREE.

The 20th August 1877.—It is notified, under Section 75 of Act X (B.C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Jalpigoree have, under Section 74 of the Act, determined to levy the cesses under that Act for the ensuing cess year beginning with the 1st October 1877 at the following rates, being the maximum rates, and the said rates are published accordingly:—

I. Six pice, or two pice, on every rupee of the annual value of lands under Part II of the Act.

II. The following rates on non-agricultural houses and shops estimated to be of the present value of—

		Yearly Cess.		
		Rs.	A.	P.
Not less than Rs.	100, but less than Rs. 500	...	1	0 0
"	500, " 1,000	...	3	0 0
"	1,000, " 2,000	...	4	8 0
"	2,000 and upwards, Rs. 3 for every Rs. 1,000 or part thereof of the estimated present value.			

Shops and buildings used for purposes of trade, whose estimated present value is more than Rs. 25 and less than Rs. 100, to pay a yearly tax of one rupee.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication]

NOTIFICATION.

The 17th August 1877—Under Section 2 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to direct that the cesses leviable under the said Act shall take effect in the district of Lohardugga from the 1st October 1877.

Under Section 70 of the aforesaid Act, the Lieutenant-Governor is pleased to determine that the month in which the District Committee shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be September 1877 in the said district

A MACKENZIE,

Offg Secy to the Govt of Bengal.

NOTIFICATION

Rules for the Zemindari Dak under Act VIII (B.C.) of 1862

The 11th August 1877—The primary object of the zemindari dāk is the conveyance of letters between police officers and police-stations and the magisterial officers of the district. Where, however, zemindari dāk establishments exist, there can be no objection to making further use of them for the conveyance and delivery of private correspondence, so long as no extra charge is thrown thereby upon the zemindars or Government farmers. Throughout Bengal, moreover, it has been found convenient to entrust to the Postal authorities the general control and direction of the district dāk lines, to ensure their proper working in connection with the lines of the imperial post. The following rules have been framed by the Lieutenant Governor of Bengal under Section 11, Act VIII (B.C.) of 1862, for the purpose of defining the duties and relations of the Magistrates and the Postal authorities, and for giving practical effect to the provisions of the Act.

1. It is the duty of the Magistrate of the district to determine the stations between which communication is required for police purposes.

2. The Post-Master-General will then, in communication with the Magistrate, arrange all questions connected with routes, stages, timing, strength and cost of establishment and the like, any difference of opinion between them being referred for the orders of the Commissioner, which shall be final.

3. No charges on account of delivery persons or mail-carriers can be included in the zemindari dāk budget, but the cost of all establishments necessary for the collection and proper keeping of the accounts of the zemindari dāk cess, as well as for the punctual conveyance of the district mail, and all reasonable charges for contingencies, including boats, huts, common post-office furniture, stationery and the like, must be defrayed from the funds raised under the provisions of the Act.

4. The Sub-Inspector of Post Offices will annually, on or before the 15th of November prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. The Magistrate, after including in this the cost of his own office establishment and any extra provision necessary for keeping up communications with his own camp while on tour, will forward the budget to the Post-Master-General, who will, after passing or modifying it (in communication with the Magistrate) return it to the Magistrate for insertion in the budget of the estimated balance at the close of the current year, and the total sum necessary to be levied with reference to the provisions of Section 10 of the Act, with a note of the rate at which he proposes to levy the cess.

Having thus completed the budget estimate, the Magistrate will forward it for the approval and sanction of the Commissioner, who, after passing it, will forward it to the Accountant-General.

5. The monthly pay-bills of the zemindari dāk establishments will be drawn by the Post-Master disbursing the amounts, and be paid at the treasury on the countersignature of the Magistrate. The pay-bills of the Magistrate's own office will be paid on his signature. The monthly contingent bills will be passed only on the countersignature of the Post-Master-General. Charges for boats in the rains, though provided in the budget, will not be incurred without the previous sanction of the Post-Master-General. The Magistrate shall be at liberty to draw against the special provision for dāks to his camp on tour without any reference to the Post-Master-General.

6. All nominations for posts of dāk munshis, overseers, and other subordinate officers of the superior grade will be made by Inspectors, subject to the Magistrate's approval; and all proposals for the fine, suspension, or dismissal of men of this class must also be submitted to the Magistrate. Appeals from the Magistrate's orders will lie to the Commissioner. The Magistrate will appoint his own office establishment. The appointment and dismissal of runners will lie with the Inspector, subject to an appeal to the Magistrate. Applications for leave will be submitted through the Inspector to the Magistrate.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th August 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Buxar, in the district of Shahabad, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept or habitually used within the Municipality, and the levy, from the 1st October 1877, of a fee upon every cart for such registration at the rate mentioned below :—

For every cart kept within the Municipality Rs. 2 per annum, or Re. 1 per half-year.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 25th August 1877.—Under Act I (B.C.) of 1876, the Lieutenant-Governor is pleased to appoint Moulvi Fuzlur Rahman to be the Marriage Registrar of the Kamariya sub-district, in the district of Chittagong.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 16th August 1877.—The following Bye-laws, framed by the Municipal Commissioners of Balasore at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after the receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within a reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the town daroga; and in such latter case, shall pay to the said daroga the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. The daroga, when called upon, shall not neglect to remove a carcass.

Penalty for infringement, Rs. 10.

[First Publication.]

NOTIFICATION.

The 25th August 1877.—It is hereby notified for general information that, under the provisions of Section 39 of Act IV (B C.) of 1876, the Lieutenant-Governor has been pleased to confirm the following rules for regulating the grant of pensions and gratuities to the officers of the Calcutta Municipality, made by the Commissioners of that Municipality at a special meeting held on the 7th April 1877.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

** Pension Rules for Officers in the service of the Calcutta Municipality, as finally revised and approved by the Commissioners at a Special Meeting held on the 7th April 1877.*

1. For all continuous service in posts regularly sanctioned by the Corporation, except service on salaries on or below Rs. 10, pension may be granted.

2. Service does not qualify unless the officer holds a substantive office on a permanent establishment; but if an officer on a permanent establishment is detached on temporary duty, on the understanding that when the temporary duty ceases he will return to the permanent establishment, he continues to count service as if he had remained on the permanent establishment.

3. Press servants on the fixed establishment are entitled to pension.

4. Servants of the Corporation whose pay is either Rs. 10 or less are not entitled to pension, but may be allowed such gratuity as the Commissioners shall, at a special meeting on a consideration of the circumstances, adjudge proper. Authorised leave in the case of such servants counts as continuous service.

5. Time passed under suspension pending inquiry into conduct counts for pension, if the suspension is immediately followed by reinstatement. Time passed under suspension adjudged as a specific penalty does not count.

6. A break in the continuity of service entails forfeiture of past service, except in the following cases:—

(a) Authorised leave.

(b) Absence prolonged after the end of leave. Provided that if an officer remains, absent for more than a week after the end of privilege leave, his past services are forfeited, unless the Chairman, or the Commissioners in meeting, as the case may be, re-appoint the officer, and make a declaration in writing that his past services, or part of them, shall qualify. Whenever the Chairman shall make such a declaration, the same shall be laid before the Commissioners at meeting for information and confirmation. If the officer remains absent for more than a month, his past services cannot count without a special order of the Commissioners in meeting.

(c) Suspension immediately followed by reinstatement, which need not necessarily be to the same office.

(d) Abolition of office not followed by a gratuity or by re-appointment within two years.

7. Resignation of service, or removal from it on account of misconduct or inefficiency, entails forfeiture of past service.

8. Compensation pension or gratuity may be awarded to an officer either when discharged from the service of the Corporation or on a reduction of establishment.

9. An invalid pension or gratuity may be awarded on retirement from the service of the Corporation to an officer who, by bodily or mental infirmity, is permanently incapacitated as established by medical certificate—

(a) For active employment.

(b) For the particular branch to which he belongs.

10. Such retirement may be either voluntary or forced.

11. It will suffice for the Chairman to be satisfied of, and to certify to, the incapacity of officers appointed under Section 36 of Act IV of 1876; and in the case of officers appointed under Section 32 of the Municipal Act, it shall suffice that two-thirds of the Commissioners at a special general meeting are satisfied of the incapacity of the officer concerned.

12. Forced retirement of officers appointed under Section 32 of the Municipal Act, IV (B. C.) of 1876, is by that section subject to the approval of the Local Government.

13. If incapacity for further service is the result of irregular or intemperate habits, no pension or gratuity can be granted.

14. A superannuation pension or gratuity may be granted to an officer compelled to retire.

15. The amount of pension or gratuity that may be granted shall be determined by length of service as set forth below:—

(a) After a service of less than 20 years, a gratuity not exceeding one month's emoluments for each completed year of service, but not, under any circumstances, exceeding 12 months' emoluments in all, broken periods of a year not being taken into account in making the calculation.

* These rules do not apply to officers lent to the Municipality or directly appointed by Government.

(b) After a service of not less than 20 years, but less than 30 years, a pension not exceeding one-third of the officer's average emoluments, and also not exceeding Rs. 8,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 2,000 a year.

(c) After a service of not less than 30 years, a pension not exceeding one-half of the officer's average emoluments, and also not exceeding Rs. 5,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 4,000 a year.

16. The above shall be the rule ordinarily followed in respect of claims to invalid pension and gratuity. It is optional with the Commissioners in meeting to deal exceptionally with cases of a special nature.

17. A retiring pension may be granted after an approved service of not less than 35 years. It may be the same in amount as an invalid pension admissible after 30 years' service.

18. Pension and gratuity shall be calculated on the following principles, viz.—

(a) "Pay" means substantive allowances.

(b) "Emoluments" do not include personal, house, or horse allowance, or fees, or commission, or percentage drawn by officers.

(c) "Average emoluments" mean the average calculated upon the last five years of service.

19. If during the last five years of his service an officer has been absent on leave with allowances, or, having been suspended, has been reinstated without loss of service, his emoluments, for the purpose of ascertaining the average, should be taken at what they would have been had he not been absent on leave or suspended.

20. If during the last five years of his service an officer has been for a period without allowances, or suspended under such circumstances that the period of suspension does not count as service, such period should be disregarded in the calculation of the average, an equal period before the five years being included: *eg.* A is on leave for two years without pay. This period is not to be calculated in determining the average salary of the past five years, but an equal period immediately before the five should be included.

21. Excepting as provided in Rules 19 and 20, only emoluments actually received can be included in the calculation.

22. If an officer has held more than one appointment in respect of each of which, if he had held it separately and alone, pension or gratuity would have been admissible to him, the pension or gratuity, or pension and gratuity, admissible to him is the sum of the several pensions or gratuities, or pensions and gratuities, which would have been admissible to him if he had held each office separately and alone. The consolidated pension thus admissible is subject to the limitations prescribed in Rule 15.

23. An officer is not entitled for service in an office conjointly with another office to any pension or gratuity which would not have been admissible to him if he had held the office separately and alone.

24. An officer who is appointed for a limited time only, or for a specified duty, on the completion of which he is discharged, has no claim to pension or gratuity.

25. An officer who is not a servant of the Municipality solely, but who holds office under Government, or some other public body, private firm, or person, or is in receipt of pension from Government, is not entitled to pension or gratuity.

26. Service as an apprentice does not qualify for pension or gratuity.

27. Periods of absence on leave, other than privilege leave, do not count as service for pension.

APPLICATIONS FOR PENSION OR GRATUITY.

28. Every officer in the service of the Municipal Commissioners shall be required to keep a service-book, being an exact copy of the office register, in which shall be entered a statement of every step in his official life, each entry being attested at the time by the Vice-Chairman or the Secretary. The following directions are given regarding the service-book:—

I The opening page should be divided for entries in the following form:—

- (1) Name of officer. (2) Caste or race. (3) Residence. (4) Father's name and residence. (5) Age. (6) Exact height by measurement. (7) Personal marks for identification. (8) Date on which page is filled up. (9) Signature of officer. (10) Signature and designation of the head of the office.

The entries in this page should be renewed or re-attested at least every five years.

II. The remaining page should be divided for entries in the following form:—

- (1) Name of appointment. (2) Whether substantive or acting, and whether permanent or temporary. (3) If acting, the substantive appointment should be stated. (4) Pay. (5) Acting allowance. (6) Date of commencement of appointment. (7) Signature of officer. (8) Character of officer. (9) Signature and designation of immediate superior officer. (10) Date of termination of appointment. (11) Reason of termination (such as promotion, transfer, dismissal, &c). (12) Signature of superior officer.

No entries need be made in column 8 except when there is anything especially good or bad to be recorded.

III. Leave of every description (except casual), every* period of suspension from employment, and every other break of service, should be noted, with full detail of its duration, by an entry written across the page and attested by the head of the office.

IV. A service-book is supplied, at his own cost, to every officer on his first appointment.

V. Every officer is charged with the duty of seeing that his own service-book is properly kept up, and that all erasures in it are properly attested. If the book is not carefully kept up, difficulties may arise as to verification of service, should the officer afterwards apply for pension or gratuity.

29. An applicant for pension or gratuity shall submit his application to the Chairman, who, after verification of the applicant's services, shall lay the matter before a special meeting of the Commissioners.

MANNER OF PAYMENT.

30. When the application for pension or gratuity shall have been confirmed, or when, in case of forced retirement, the amount of pension or gratuity shall have been determined, the amount, if it be gratuity, may be paid at once, or by such instalments as the Commissioners may think fit; but if it be pension, it shall ordinarily be paid monthly at the office of the Commissioners in Calcutta to the pensioner in person, or otherwise in accordance with the following rule.

31. A pensioner who is unable to appear in consequence of bodily illness or infirmity, or is exempted from personal appearance, may receive his pension upon the production of a life-certificate signed by a responsible officer of Government, or by some other well-known and trustworthy person. In such cases the disbursing officer, who is personally responsible for any payments wrongly made, must take all possible precautions to prevent imposition, and must, before the first payment in each year, require proof not only of the existence of the pensioner, but also, if the pensioner has not been exempted from personal appearance, of his inability to attend in person to receive payment.

32. Unless specially exempted, a pensioner must take payment in person after identification by comparison with the permanent order.

33. It shall be the duty of the Finance Committee yearly to make provision in the budget estimate to meet the cost of pensions and gratuities.

34. If a pensioner or a person entitled to gratuity dies, payment of any arrear actually due may be made to his heirs, provided that they apply within six months after his death. Even if the pension or gratuity has not been sanctioned before the death of the officer, the payment may be made under the orders of the Commissioners in meeting. If an officer dies before actually retiring or being discharged, his heirs have no claim to anything.

35. Future good conduct is an implied condition of every grant of pension. The Commissioners reserve to themselves the right of withholding a pension, if the pensioner be convicted of serious crime or be guilty of grave misconduct.

36. It shall always be at the discretion of the Commissioners to suspend the above rules either in individual cases or generally.

[Second Publication.]

NOTIFICATION.

The 10th August 1877—It is hereby notified for general information that, under Section 299 of Act V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Hazareebagh at a meeting, to extend to that Municipality the provisions of Part IX, Chapter II of the said Act V (B.C.) of 1876.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 31st July 1877.—It is hereby notified that such portion of the Notification published in the *Calcutta Gazette* of the 11th July 1877 as relates to Section 4 of the Regulations made by Government under Section 6, Act XX, 1865, for conducting the examination of applicants for admission as pleaders and mookhtars in the Mofussil Courts subordinate to the High Court, has been cancelled by the Lieutenant-Governor, and that the following has been substituted —

For Section 4—

“The examination of candidates for pleaderships of the higher grade shall be held in Calcutta; the examination for lower grade pleaders shall be held at Calcutta and Cuttack; the examination for mookhtarships shall be held at Calcutta, Patna, Dacca, and Cuttack.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 16th August 1877.—Under the power vested in him by Section 54 of Act V (B.C.) of 1866 (an Act to make better provision for the regulation of hackney carriages and palankeens), the Lieutenant-Governor is hereby pleased to extend from the 1st October 1877 the provisions of that Act to the Military Cantonment of Dinapore.

Under Section 2 of the Act, it is further notified that the Bazar Sergeant for the time being shall be the registering officer within the limits of the said cantonment, and that every act, matter, or thing done by him under the Act shall be subject to the order, disposition, and control of the Cantonment Magistrate for the time being.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 10th August 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Kendrapara, in the district of Cuttack, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept or habitually used within the Municipality, and the levy from 1st October 1877 of fees upon every cart for such registration at the rates mentioned below :—

For every cart kept within the municipality, Re. 1 per annum.

Ditto habitually used within the municipality, Re. 1 per annum.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

DECLARATION.

The 20th August 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. giving a road frontage to the Shaik Mitteh Gurhee, in the town of Patna, it is hereby declared that for the above purpose a plot of land measuring 4 beeghas and 5½ dhooors, more or less, local measurement, and bounded on the north, south, and west by the newly formed lands of Shaik Mitteh Gurhee aforesaid, and on the east by the new chowk road, is required within the town of Patna, pergunnah Azimabad, district Patna.

The plan of the above plot may be inspected in the Patna municipal office between the hours of 10 A.M. and 4 P.M. any day, Sundays and authorized holidays excepted.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 986B.

NOTICE is hereby given that the Ninth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday the 5th September 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

					Chests.
Behar	Opium	2,080
Benares	„	1,920
Total					4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 20th September 1877 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Monday, the 10th September 1877, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Thursday, the 20th September 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

The Calcutta Gazette.

WEDNESDAY, AUGUST 29, 1877.

PART I A.

Orders and Notifications by the Government of India.

The following order, issued by the Government of India in the Military Secretary's Office, is republished for general information :—

Simla, the 11th August 1877.—Notification.—His Excellency the Viceroy and Governor-General will leave Simla on Thursday, the 16th August 1877, to visit the Madras Presidency, travelling *vid* Jubbulpore and Poona.

The following order, issued by the Government of India in the Legislative Department, is republished for general information :—

Notification.—Corrigendum.—In Act No. III of 1877 (published in the *Gazette of India*, Part IV, of 17th and 24th February and 3rd March 1877) section 90, paragraph (c), line 2, for “or” read “are.”

The following orders, issued by the Government of India in the Home Department, are republished for general information :—

No. 1570.—Notifications.—Public.—Simla, the 14th August 1877.—Mr. R. Taylor is permitted to resign Her Majesty's Bengal Civil Service.

No. 692.—The 17th August 1877.—Establishment.—The Hon'ble A. G. Macpherson, a Judge of the High Court of Judicature at Fort William in Bengal, has resigned his appointment with effect from the 1st October next.

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 1994P.—Simla, the 15th August 1877.—Notification.—Political.—With the sanction of Her Majesty the Queen, Empress of India, the title of “Councillor of the Empress” is hereby conferred on the undermentioned officers of Government :—

Eden, the Hon'ble A., c.s.i., Lieutenant-Governor of Bengal (*ex-officio*).

* * * * *

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 2611.—Simla, the 17th August 1877.—Notification.—Pensions, Gratuities, &c.—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

Section 54 (page 29).

Insert the following as Note 2 under this Section :—

[NOTE 2. If the examining medical officer, though unable to discover any specific disease in the officer, considers him incapacitated for further service by general debility while still under the age of 55 years, he should give detailed reasons for his opinion, and if a second medical opinion be easily obtainable, it should always in such a case be obtained. In cases of this kind, special explanation will be expected from the head of the office or department concerned of the grounds on which it is proposed to invalid the officer.]

Section 123, Rule 1 (page 66).

Substitute the words “servant injured or killed” for the word “deceased” in this Rule.

CIVIL LEAVE CODE.

Chapter VIII (page 132).

Add the following to the note prefixed to this Chapter :—

"A Military officer in civil employ is not eligible for leave to enable him to pass an examination under G. G. O. Military Department No. 1009, dated 3rd December 1876."

Section 37 (page 141).

Insert the following as Rule 1A :—

1A. If the Local Government considers it inexpedient that an officer should return from furlough or special leave in Europe to duty in India, it should furnish a complete statement of the circumstances to the Secretary of State in the case of the Governments of Madras and Bombay directly, otherwise through the Government of India, if possible when the furlough or special leave is granted, but, in any case, at a sufficiently early date to enable the Secretary of State to take any measures that may seem to him necessary before the time when permission would, in ordinary course, be given to the officer to return to duty.

ACTING ALLOWANCE CODE.

Section 15 (page 229).

Substitute the following for case (c) :—

(c) An accountant officiating with the sanction of the Government of India for an Examiner or Deputy Examiner is entitled to an allowance of Rs. 100 a month in addition to his pay, provided that his salary must not exceed the pay of a Deputy Examiner.

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

No 727.—Simla, the 16th August 1877.—Staff Corps.—The undermentioned officers of the Bengal Staff Corps having completed 20 years' service, are promoted to the rank of Major from the date specified, under the provisions of G. G. O. No. 808 of the 26th September 1866, subject to Her Majesty's approval :—

*	*	*	*	*	*	} 11th August 1877.
Captain Linley Blathwayt 						

No. 741.—Pay and Allowances.—Furlough.—The following Military letter from the Right Hon'ble the Secretary of State for India is published for general information :—

MILITARY
No 209.

INDIA OFFICE,
London : 5th July 1877.

To His Excellency the Right Hon'ble the Governor-General of India in Council.

Para. 1. Having considered in Council your Military letter No. 86 of the 29th March last, on the subject of the furlough pay of officers of Royal Engineers of the Imperial List, I have decided that, for the future these officers may receive their pay while on furlough, either under the regulations in force before February 1873 or under the terms of your General Order No 120 of the 7th of that month, that is to say, an officer of Engineers of the Imperial List may, at his option on taking furlough to his country, either receive furlough pay on the understanding that, should he not return to India, he will have to refund the difference between it and English pay, less the regulated amount of passage money, or a free passage and English pay only during the period of his furlough, the difference between English pay and furlough pay, less the cost of his passage, being issued to him upon his return to duty in India.

2. The officer's choice should be made at the time of applying for furlough, and should be noted on his last pay certificate.

I have, &c.,
(Signed) SALISBURY.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, AUGUST 29, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Nuddea, will be put up to sale at the Kooshtea sub-divisional cutcherry at 1 p. m. on Monday, the 10th September 1877, corresponding with 26th Bhadro 1284 B. S.

The purchasers of these plots will be subject to the following conditions :—

1. If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
2. If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
3. The plots will be sold revenue free to the highest bidders.
4. The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in the case of the final sanction of the Member of the Board in charge should not be accorded to the proceedings.

The Indian Law Reports

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

Without postage. With postage.

For the Calcutta Series...	Rs. 35	Rs. 40
" Madras Series	8	9
" Bombay Series	8	9
" Allahabad Series	8	9
Complete set	45	50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs. A.
For a part of the Calcutta Series	3 8
" " Madras Series	1 0
" " Bombay Series	1 0
" " Allahabad Series	1 0
Complete set	4 0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;

" Thacker, Vining and Co.,

Higginbotham and Co., Madras;

The Government Central Book Depot, Bombay.

The Government Book Depot, Allahabad,

The following books are for sale at the Office of the Superintendent Government Printing, No. 8, Hastings Street. No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every rupee's worth of stamps for discount in exchanging them for cash. Service labels are not received.

Books required on the public service are only supplied when authorized by Local Governments and Administrations

Indian Statute-Book.

COMPLETION OF ROAD CESS VALUATIONS IN THE BACKERGUNGE DISTRICT.

No. 251R, dated Dacca, the 7th July 1877

From—F. B. PEACOCK, Esq., Offg. Commissioner of the Dacca Division,

To—The Secretary to the Board of Revenue, Lower Provinces.

I HAVE the honor to submit, in original, the accompanying report No. 103, dated 23rd ultimo, from the Collector of Backergunge, on the completion of the introduction of the Road Cess Act into that district

2. It is not necessary, when Mr Barton has himself so minutely entered into details, that I should follow him step by step through his long and interesting report; it will be sufficient that I should notice the chief features in it

3. The Road Cess Act was extended to Backergunge from the 1st November 1874, but owing to the non-receipt of the necessary instructions, forms, &c., work was not actually commenced till the middle of December. The work of valuation, therefore, has thus taken two years and a half, and as in that period 3,548 estates and over 260,000 tenures have been valued, some idea of the magnitude of the task may be formed.

4. It is true that there has been an enormous staff of officers employed: at one time there were as many as three Deputy Collectors employed in the department, and the ministerial establishment since September last has consisted of 18 sections, comprising 36 clerks and 36 mohurirs, in addition to the head clerk and a staff of 100 peons.

5. The work commenced with an establishment of one Deputy Collector, two clerks, and five mohurirs. It was soon found that this staff was insufficient, and before three months had elapsed returns began to come in so rapidly that in March 1875 it had to be increased. A few months later and the same thing occurred. In fact, up to September last, when it reached its maximum, the establishment was constantly being increased as the pressure of work became more and more felt.

6. Of the 3,548 estates of which, as stated above, valuations have been made, 2,946 have been entered in Register I; their gross revenue is Rs. 9,91,002, and their gross valuation Rs. 59,09,830, or almost six times their annual revenue: the remaining 602 have been entered in Register III; the revenue of these is Rs. 3,83,919, and their valuation Rs. 10,14,746, or something over two and a half times the revenue. The total valuation of the district, therefore, amounts to Rs. 69,24,576, which, at 2 pice per rupee, will give Rs. 1,94,910 as road cess—an amount which, I believe, far exceeds that raised in any other district in Bengal. I may here notice that the actual work of valuation did not commence till March 1875, and that they ended in May 1877. For the first 22 months the valuation of estates and tenures was made at an average rate of 10,000 a month; but for the last five they have been made at a rate exceeding 17,000 a month.

7. The manner in which the valuations have been made embraces all three forms laid down in sections 6 and 8. All estates paying a revenue of over Rs. 100 have been valued on returns, and all the small estates, i.e. those paying less than Rs. 50 Government revenue, have been valued either on returns, the multiple principle, or at so much per acre. This last plan, which has not been, I believe, usually adopted elsewhere, was selected because it was known that the value of the land in this district had enormously increased since the permanent settlement in 1793, and that the Government revenue was frequently altogether disproportionate to the value: and consequently that to value according to the multiple principle would be to give up a large amount of cess that might fairly and properly be taken. The result of this method, though it has much increased the work, has been most satisfactory. Table II in paragraph 30 of the report shows that in these estates the ratio of valuation to revenue has been 6·9, or, in other words, double of what would have been obtained on the multiple principle in permanently settled estates, and treble that in temporarily settled estates.

8. It is satisfactory to notice that, as a general rule, all calls for returns made on proprietors were promptly answered, notwithstanding the difficulties they had frequently to contend against. These difficulties have been described at length in paragraphs 22—26, and may shortly be said to have arisen (1st) from the extensive sub-divisions of estates among the co-sharers, and (2nd) the enormous extent to which subinfeudation has been carried in the district. Of the first, I may give as an instance the case of pergunnah Sultanabad, referred to in paragraph 23 of the Collector's report. In this estate, containing about 9,000 tenures and several thousand cultivating ryots, a separate account has been opened for a 1 gunda 1 kranta and 6½ teels share, equal to about $\frac{1}{300}$ th of a rupee. Of the second, I may notice pergunnah Chandradeep, the property of the Madhabpasha zemindars, which contains the enormous number of 43,818 tenures, 24 of which are in the 6th grade. I may also take the case of pergunnah Syadpore, the property of Lala Mitrojit Sinha and Petam Koer of Dacca, which contains nearly 14,000 tenures, extending so low as to the 8th grade.

9. But if these difficulties were felt by the proprietors in preparing their returns, it can easily be imagined how much they increased the work in the road cess office. Mr. Barton says in his 27th paragraph:—"The submission of a separate return by each co-sharer for each fractional portion of an estate threw upon my office the duty of preparing one general return for the entire estate. This work imposed upon us great trouble. In most cases each of such returns contained in Part III the names of several hundred tenures which neither were in the same order in all the several returns, nor agreed with each other in the description given of them therein. The same tenures often occurred in different names in the different returns, and often different tenures were recorded in the same name. The general returns prepared in the office were from these causes necessarily often inaccurate, and it was only when the tenure-holders appeared that the errors could be discovered and corrected." It can easily be imagined what a laborious operation this must have been, and how much care and supervision must have been entailed before the Collector could say, as he now does, that these general returns "are now generally free from errors, and have been accepted by the estate-holders and tenure-holders."

10. Before leaving this portion of the report, I would draw the attention of the Board to the extraordinary results attained, by what I may term the acreage valuation, as given in paragraph 47 of the report. In seven estates the valuation exceeded the revenue by 100 times, in 12 the valuation exceeded the revenue by from 50 to 99 times, in 18 estates the first exceeded the last by from 20 to 49 times, and in 38 estates by from 10 to 19 times.

11. Of the 263,947 rent-paying tenures registered, 250,174 were entered in Register II and 13,773 in Register IV; while out of 14,768 rent-free tenures, 14,639 were entered in the former and 129 in the latter. But even these numbers, large as they are, do not represent all the under-tenures in the district, as they do not show the tenures included in the 2,291 estates and 237,709 tenures valued summarily, as these do not of course appear in the district books. Mr. Barton, however, thinks that, if returns had been called for from each of these summarily-valued estates and tenures, the number of tenures would have risen from 278,715 to above three lakhs.

12. Upon the valuation of these tenures the same careful and intelligent consideration of their circumstances has been brought to bear as was exhibited in the case of estates. When-

ever the rental was above Rs. 100 returns were called for as a matter of course. In other cases, whenever it was believed from information obtained that the rental of a tenure was much in excess of what would be given by adopting the multiple system, a return was called for, no matter what was the amount of rent paid for it by the tenure-holder. As a general rule, returns were demanded from tenures held by the owners of the parent estates, because it was notorious that these had as a rule the largest rent-rolls and a nominal quit-rent. The difficulty was to know where to draw the line—that is, when to demand a return and when to value summarily on the multiple principle. This was got over by the Deputy Collector seeking information from every one who gave in a return as to the value of the tenures contained in it to their holders. The information thus collected was noted down, and notices were issued subsequently in respect of all tenures which appeared to be particularly profitable.

13. Of the total number of tenures (278,715) brought on the registers, 12,671 were exempted from valuation as being lakhiraj tenures of less than Rs. 5 in value; 28,335 were valued on returns; and 237,709 summarily. Included in the 28,335 are 17,301 tenures capable of summary valuation, but which were valued on returns under the procedure above described.

14. In paragraphs 38–59 Mr. Barton has given a description of one peculiarity in the land tenure of his district to which I have before briefly adverted—I mean the number of grades that exist between the estate-holder and the actual cultivator of the soil. He traces the origin of these sub-infeudations, and the objects with which it has been resorted to, at more recent times. It is not necessary for me to do more than allude to this subject, though I may give, as an instance of the disastrous effects this splitting an estate up into thousands of tenures, the estate of Syadpore above referred to. The revenue of this estate is Rs. 6,950, and its valuation Rs. 1,95,747, yet all the profits the owners get as zemindars amount only to Rs. 8,383. One tenure alone was valued at Rs. 47,503, and the tenure-holders pay a quit-rent of Rs. 77 only.

15. In paragraph 61 Mr. Barton makes a comparison between the valuation work of his district and that of any other *division*, not district, in Bengal. From this it appears that the number of tenures valued in Backergunge is more than two and a half times the number of tenures in the whole of the Presidency Division; five times as great as that in the Rajshahye Division; more than twice as great as that in the Burdwan Division; more than twice as great as that in the other four districts of this division; three and a half times as great as that in the Patna Division; nearly 10 times as great as that in the Bhagulpore Division, and nearly eight times as great as that in the Orissa Division.

16. As some of the results of the system adopted in the valuation of tenures, I may draw attention to paragraph 64, which shows that, in the case of 11 tenures, the valuation exceeded the rent by 100 times; in 17 tenures by from 50 to 99 times; in 27 by from 20 to 49 times, and in 41 by from 10 to 19 times.

17. Mr. Barton considers that returns received are in general correct, and fairly represent the actual rental of the estates and tenures to which they relate. This opinion appears to be borne out by the fact that in many cases revised returns have been given in when mistakes had been discovered in the original. Great care was taken by the Deputy Collector in charge of the department that the proper persons filed the return, and the result was that in only one instance, so far as is known, was any deception practised. This was the case of the man Abbas, upon which I reported in my letter No. 80R., dated 5th May last. No intentional under-statement of rental has come to notice, though there appears reason to believe the rentals in some of the earlier returns have been put at a higher figure than are actually realized; the reason of this being an impression that at one time prevailed that no enhancement would hereafter be allowed upon the rates shewn in the return. This idea was, however, corrected, and the later returns are believed to be free from misstatements of this kind.

18. I now proceed to notice briefly some of the remarks made in paragraph 68 of the report.

Section 5.—The suggestion made as to the alteration of the form of return is a good one. A good deal of time and trouble would be saved by the addition of the thana's name within which the village is situated.

Section 6.—I quite concur with the Collector's views: a valuation having once been made, there can be no necessity for so long a period as three months being allowed for the preparation of the return. Under this section, one month ought certainly to be enough in future.

Section 17.—Personal service of the roll might be allowed as well as at the *mâl-cutchery*. This would, to some extent, meet the difficulty suggested by the Collector; but I am inclined to think that the owners of very potty estates and tenures are likely to be as difficult to find at their *mâl-cutcheries*.

Section 16.—I do not think the register of valuation rolls is required; but I think all that was intended was that what I may term the office copy of the valuation rolls of all the estates in one *pergunnah* should, when completed, be bound up together in the order in which the estates therewith connected are entered in the registers for facility of future reference.
